Once you have completed all the questions click the ‘SAVE AND PROCEED’ button at the bottom of the screen to move to the next section called ‘REVIEW YOUR APPLICATION’.

Because you may use the timeline shown at the top of every screen to jump between screens and answer the questions, the system double checks all required fields before allowing you to get to the review screen. Two things that can happen, depending on if you did not complete all required fields or if you did complete all required fields. The two scenarios are described below.

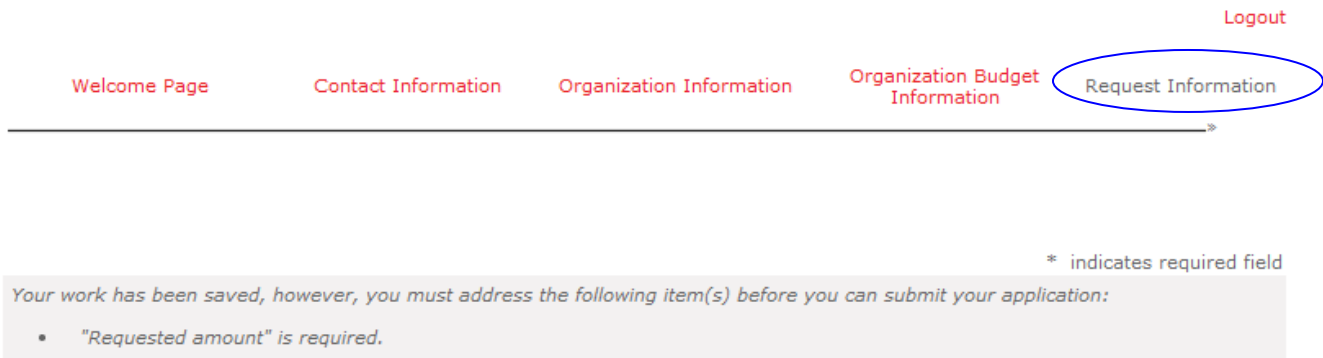

### ❖ IF REQUIRED FIELDS NOT COMPLETED

If there are required fields that have not been filled in, you will be shown a screen that lists the section name(s) and the field name(s) that must be completed.

Clicking on the section name located in either the timeline (at top) or in the message area (at bottom) will take you back to that screen where you must complete the required field(s). Then you will need to either click save and proceed on each screen until you get to the review screen or you may click on the last section in the timeline at the top of the screen and then click Save and Proceed in that last section which will take you back to the Review screen.

In the example below, one field was not completed called “Requested Amount”, and it is located in the section called “Request Information”. (See blue oval in screenshot below which shows where you may click to go back to the section to complete the field).

### ❖ IF ALL REQUIRED FIELDS COMPLETED

If all the required fields are complete, you will be taken directly to the ‘REVIEW YOUR APPLICATION’ screen shown in the next two screenshots.

The Review Your Application screen shows all the answers for the entire application in read-only format so you may double check them. If you wish to modify any answer, simply click on the section heading, (i.e. ORGANIZATION INFORMATION, REQUEST INFORMATION), for that question, and the system will take you back to that screen where you can make your changes and save them. You will need to either click save and proceed on each screen until you get to the review screen or you may click on the last section in the timeline at the top of the screen and then click Save and Proceed which will take you back to the Review screen.

At the bottom of the review screen are two buttons, 'SUBMIT' and 'SAVE ONLY'. Each is described below.

**SUBMIT** – clicking this will send your application to Texas Instruments for review. When you click the submit button the pop up shown below will display to let you know you will not be able to modify the application if you continue with the submission.

Clicking the “OK” button submits your application. The “CANCEL” button takes you back to the review screen without submitting the application to Texas Instruments.

Once you have submitted the application the screen will refresh and you will see a message displayed at the top. (See green highlighted area in screenshot below).

You may print this confirmation page for your records by going to the browser’s menu bar and printing (i.e. in Internet Explorer & Firefox you would go to ‘File’ then the ‘Print’ option beneath it).

**SAVE ONLY** – this does NOT submit the application to Texas Instruments but allows you to return later to submit the application or make changes before submission.

If you click the save only button, you are taken back to the Welcome page where you will now see the application you have worked on under the heading called “Applications Requiring Action”. When you want to continue working on the application or you want to submit it, you must click the ‘Continue’ link to the left of the project title (see green circle in screenshot below). You will then be able to navigate through the screens via the timeline or by clicking Save and Proceed at the bottom of each screen.
