PROFINET (WT-PROFIN)

Description Dates and Registration

Objectives

The entry of Industrial Ethernet in all levels of the Industrial Automation will be press ahead with PROFINET. Siemens plays a major role in these development. This WBT gives you an effective entrance in the new technology. You will know PROFINET, the difference between PROFINET and PROFIBUS, the structure of PROFINET, engineering in PROFINET, the competition for PROFINET. Further items are Migration from PROFIBUS to PROFINET, Data exchange and communication in PROFINET, Network configuration in PROFINET, Address assignment in PROFINET, Diagnostics in PROFINET and Security in PROFINET. Depending on your level of knowledge, the learning time is from 1 to 2 hours. The WBT is ordered directly on the Internet. Immediately it is activated in your personal learning environment for online learning for one year.

Target Group

- Decision makers

3. Choose the 'shopping cart' infographic

PROFINET (WT-PROFIN)

Description Dates and Registration

Training ID	Title	Language	Fee
WT-PROFIN	PROFINET	en	0 EUR

4. Complete the process by filling in the needed details in the workflow

Training Participant Overview Confirmation

Selected Training

PROFINET (WT-PROFIN)

Title:	PROFINET
