## **Iridium Monthly Account Airtime Agreement**

Please fill in ALL	sections and	d email or fa	ax back <u>ALL</u>	_ pages to y	our dealer								
Section 1: Pricing 120-49 USSpl													
VOICE & DATA SERVICES: (120)													
SIM Type	Standard Monthly Fee	Min Duration (Months)	Activation Fee	Minutes included in monthly fee ^	SMS included in monthly fee	Mobile to Fixed, Mobile to Mobile Data (per min)	Mobile to Mobile Voice (per min)	SMS (Mobile orig) per message	Fax (per min)	Email via Onsatmail (per min)	2-Stage Dialing (per min)	Calls to Other Satellites (per min)	
Standard	\$49.99	12	\$50.00	10	10	\$1.20	\$0.65	\$0.45	\$1.20	\$1.20	\$1.50	\$8.50	
A standard SIM card provides access to monthly account voice, SMS and data services.  Monthly subscription is billed pro-rata for month of activation, monthly in advance, and based on a full billing month at deactivation.  'Monthly Fee includes 10 free minutes. These can be voice or data (excluding calls to other satellite networks),  There is no roll over of unused minutes/SMSs.													
+1 Access Monthly Fee \$6.25 Per Minute Rate \$1.39													
This option provides a US (+1) phone number that is linked directly to your satellite phone, allowing the PSTN caller to be charged at International Call rates rather than the high charges for calling the 8816 Iridium code direct. The caller pays for the standard international call to the +1 number, the Iridium account holder pays for the satellite portion, charged at the rates on this agreement.													
2-Stage Dialing Provisioned as Standard, opt out if not required													
This service also avoids high direct PSTN charges to the Iridium phone and offers a lower cost to the Iridium user. The caller first dials +1 (480) 768-2500 and follows the voice prompts to connect to the iridium phone. The caller pays for this standard international rate call. The Iridium account holder pays for the satellite portion at a cost as stated above.													
onsatmail Iridium is a low bandwidth service and does not operate efficiently with standard email services. However, onsatmail is a specialized data transfer protocol designed for data transmission over low bandwidth. Onsatmail reduces connection time and uses compression to provide a fast and reliable email service over satellite connections. The software is free of charge. To download the software and access the user guide go to: <a href="http://www.ast-systems.us.com/product-pages/onsatmail.aspx">http://www.ast-systems.us.com/product-pages/onsatmail.aspx</a>													
Section 2: SIM Details
