* All performance measurements in accordance with ANSI/NEMA FL1-2009 Standard.
The tests are performed using the provided battery pack, and is measured indoors under a room temperature of 25 degrees celsius with windless conditions. The runtime may vary depending on the external temperature and ventilation conditions, these biases may affect the results of testing.
Note: The maximum output brightness will decrease as the battery voltage decreases.

HOW TO INSTALL

HOW TO RECHARGE

BATTERY INDICATOR

When the device is powered on, the power button light will indicate the battery level.

DANGER

- DO NOT shine the light directly into human eyes. This may cause temporary blindness, or permanent damage to the eyes.
- DO NOT cover the light head when the RN 3500 is on, or place the light head on the ground.

WARNING

- Keep out of reach of children.
- The light uses a lithium-ion battery pack. Certain restrictions may apply to this product when traveling especially when traveling by air. Always check with your carrier for specific restrictions prior to traveling with this product.

NOTICE

- Store the light at room temperature in a dry place. Avoid moisture, or extreme hot or cold.
- Store the light in the charged condition. Avoid "deep discharge". Battery life will decrease if the light is stored in a fully discharged condition.
- Over time, the run time of the battery will diminish. Expect about 500 full charges, depending on care. After a full life, the battery will continue to charge but with a lower run time.
- When the run time is unsatisfactory, please recycle. Do not open the case of the light or incinerate.
