American Recovery and Reinvestment Act “Buy American” Provisions

January 1, 2018

This should serve as documentation that all WaterFurnace products are produced or substantially transformed in the United States and are eligible for use in projects funded by the American Recovery and Reinvestment Act (ARRA) as outlined in section 1605.

WaterFurnace International, Inc. is known for its outstanding performance, innovative technology, and quality geothermal products. Our headquarters and factory are located in Fort Wayne, Indiana.

A handwritten signature in black ink, appearing to read 'John Groulik', is positioned above the printed name.

John Groulik
Senior Vice President,
WaterFurnace International
