

Why the type of engine oil used is important?

Using the correct oil keeps your engine running smoothly. Primarily, oil stops the metal surfaces in your engine from grinding together and wearing, by creating a separating oil film between them. The oil also disperses heat and reduces wear, protecting the engine.

On top of this, good oil prevents dirt build-up and deposits by keeping them in suspension. Motor oil even protects against sludge and fights oxidation, keeping the oil fresh and minimising acids which can cause corrosion.

INSIST ON SHELL HELIX ULTRA WITH PUREPLUS TECHNOLOGY

New Shell Helix Ultra is formulated with exclusive Shell PurePlus Technology, a leading edge gas-to-liquid process that converts natural gas into crystal clear base oil. The base oil is 99.5% pure and contains no impurities, which helps to deliver ultimate cleansing effect and maximum performance in maintaining fuel economy.

The unique combination of Shell PurePlus Technology with Active Cleansing Technology enables Shell Helix Ultra to deliver even higher levels of cleansing and protection, making it the most advanced motor oil ever.

Guarantees and Warranties

Genuine parts always come with extended warranties. Kia genuine parts come with a 1-year or 20,000 km (whichever comes first) warranty, unlike non-genuine parts.

All Kia vehicles come with a 5-year unlimited mileage factory warranty, as well as a 2-year or 40,000 km (whichever comes first) warranty on their genuine parts replacement.

It is strongly advised that you always bring your vehicle to qualified specialist workshops such as Cycle & Carriage for servicing at recommended service intervals - every 6 months or 10,000 km, whichever comes first. We use Shell Helix Ultra 5W-30/5W-40 fully synthetic engine oil with PurePlus Technology.

With complete service history records, this also gives you peace of mind that your vehicle warranty will never be compromised.
