WEST BOUNTIFUL CITY TENTATIVE BUDGET MESSAGE FOR FISCAL YEAR 2020/2021

To the Honorable Mayor Romney, City Council, and residents of West Bountiful City:

Utah Code Annotated § 10-6-111 requires the budget officer to prepare and file with the city council a tentative budget for the coming fiscal year on or before the first regularly scheduled council meeting in May. This budget message introduces a tentative budget for the July 1, 2020 – June 30, 2021 fiscal year.

At the meeting on May 5, 2020, the city council tentatively accepted the budget and set a public hearing for June 2, 2020 at 7:30pm to receive public input prior to final consideration and adoption. As updates become available and the council continues to consider priorities, it is expected that changes will be made to the tentative budget prior to final approval. The tentative budget adopted by the council must be available to the public at least 10 days prior to the public hearing. The final budget must be approved before June 22, unless a truth-in-taxation process is initiated to consider an increase in property taxes.

FISCAL YEAR 2021 TENTATIVE BUDGET SUMMARY

To organize and account for the various types of services provided, the budget is divided into several funds. Governmental funds are organized to show the revenues and expenses for services that are provided primarily through taxes. For West Bountiful City, these include the General Fund (administration, public safety, street maintenance, parks, community development, etc.), Recreation Arts & Parks (RAP) Tax Fund, Redevelopment Agency (RDA) Fund, Impact Fee funds, and various capital improvement funds. Enterprise funds represent services that are similar to commercial operations – these include the Water Fund, Solid Waste Fund, Storm Water Fund, and the Golf Course Fund.

GENERAL FUND

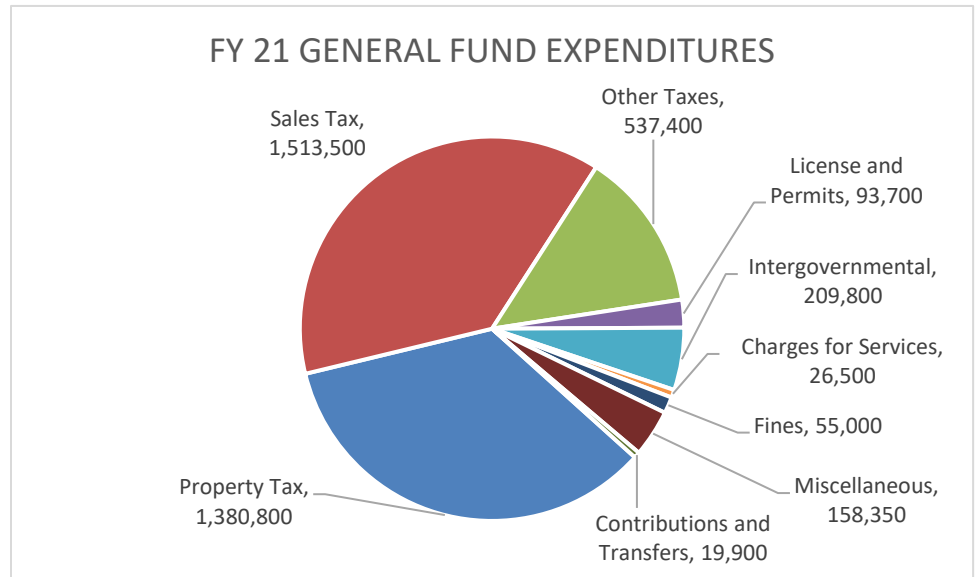

The FY 2020/2021 budget is being crafted during the unprecedented COVID-19 pandemic. While the General Fund had experienced years of growing stability, the economic impacts of the pandemic are expected to be severe as related to available revenues, especially in relation to sales taxes. City departments were asked to prepare budgets that deferred expenditures until the full impacts can be determined.

General Fund Revenues –

The FY 2021 tentative budget projects a decrease of 25% in sales taxes.

The tentative budget does not propose an increase in property taxes or fee increases.

Total revenues are projected at \$3,994,950.

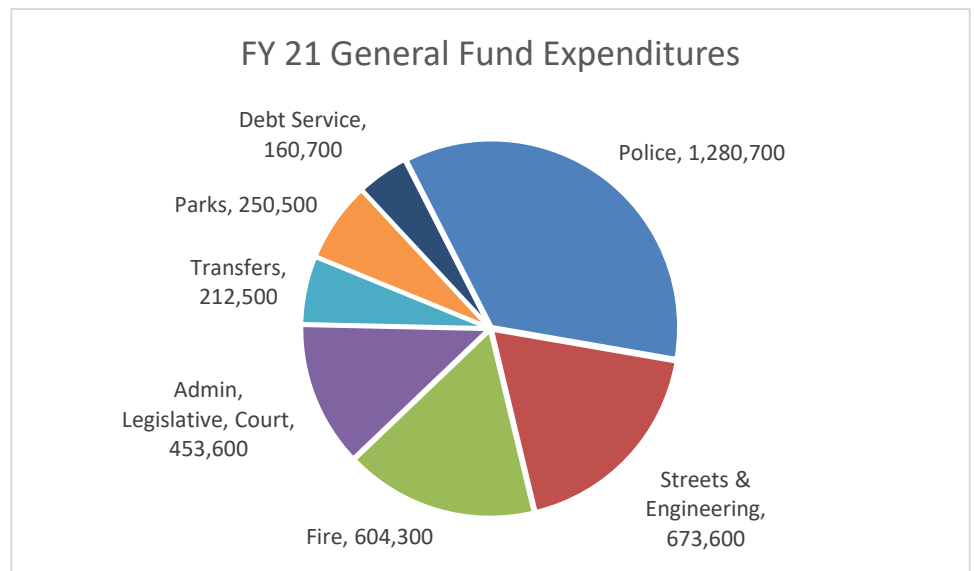

General Fund Expenditures –

This year’s tentative budget significantly defers expenditures due to the economic impacts from the COVID-19 pandemic.

In terms of human capital, the budget invests for standard merit increases, with the option for the council to withhold the increases until expected revenue collection is better understood.

The budget includes funding to fill the vacant city engineer position.

RAP TAX FUND

Collection of RAP Tax revenues flows the general funds sales tax approach. The tentative budget includes planned expenditures for pickleball courts in front of the elementary school and capital investments at the golf course.

IMPACT FEES & CAPITAL IMPROVEMENT FUNDS

To better account for projects that span multiple fiscal years, as well as to keep fluctuations in the General Fund to a minimum, the FY 2021 tentative budget includes project-specific capital improvement funds. Designated resources from the Streets Capital Improvement Fund (property taxes designated for streets), Impact Fee funds, Storm Water Fund, and the Water Fund are allocated to specific projects. Any remaining balances at the conclusion of a project will be transferred back to their originating fund. Capital Improvement funds include:

- Re-build of 800 W from 400N to 1600N – This large project began in FY 20 and will span into FY 21. It will be funded through the Water Fund, Capital Project Fund, and the General Fund.
- No additional expenditures are budgeted from the Capital Project Fund until revenue impacts from the pandemic are better understood.

WATER FUND

Water Fund revenues for FY 2021 are projected to be stable at \$1.5 million. Capital improvement spending includes \$1.2 million set aside for completion of the recently drilled new culinary water well.

GOLF FUND

Revenues at the golf course are highly dependent on favorable weather, which makes them difficult to project with any accuracy. So far in the spring, the pandemic has not slowed play, but the city is cautious regarding the situation going into the summer and fall. To mitigate the swings in revenue and help build a fund balance for the future, the past budgets included an operations transfer from the General Fund, which is suspended for FY 21. The proposed expenditures reflect the continued strategy of catching-up on deferred needs, including investments tee box rehabilitation, material storage, and cart paths.

Summary

Overall, the City's finances are in a strong position to weather the economic impacts of the pandemic. Short-term strategies include deferred spending, conservative revenue forecasting, and holding in reserve capital funds. The uncertainty of the current situation calls for increased vigilance in monitoring and amending the budget as needed throughout FY 21.

MEMORANDUM

TO: Mayor and City Council

DATE: May 28, 2020

FROM: Duane Huffman

RE: **Woodhaven Expansion**

The new owners of Woodhaven have contacted the city regarding their desire to expand the use of the current property. This proposed expansion is complicated by at least the following factors:

1. The property is currently divided by two zones (Commercial-General and Industrial-Light).
2. The current use of a mobile home park is a non-conforming use in both zones.
3. Woodhaven pre-dates the city's current code on mobile home parks.
4. The city's current code on mobile home parks is outdated.
5. The property is in relatively proximity to the HollyFrontier refinery.
6. The property's sole access from 500 S is less than optimal.

Even with these challenges, it should be noted that the city's General Plan does call out 500 S as an area where higher-density housing options, like a mobile home park, may make sense.

If the city is interested in either of the proposals described in the attached materials and further explained at the meeting, staff recommends a process wherein the city and the developer work together to draft a new ordinance and/or development agreement that governs the mobile home park.

**RE: Wood Haven Mobile Home Park
680 West 500 South
West Bountiful, Utah 84087**

To West Bountiful City Council:

Woodhaven Mobile Home Park is looking to update and expand the park into vacant areas within their parcel. In discussions with city staff it was found that there is currently no zoning in West Bountiful for mobile home parks. Current zoning is split between C-H (Commercial Highway) through a portion of South side of the parcel and I-G (Industrial General) for the remaining property to the North.

City Zoning

Zoning Line

Option 1 (Preferred Option) – As part of this expansion we propose adding eight (8) new mobile home sites. These sites would be consistent in size with the existing lots as mapped and filed with the city 2/10/1969. We would propose to use the site under current (non-conforming) zoning and expand the site as it is currently in use.

If West Bountiful requires a conforming zone, we would work with West Bountiful to identify language that is beneficial to the city and would allow for continued use of the site as a mobile home park.

Option 2 – If Option 1 is not approved, we would then propose a flex use space along 500 South and adding four (4) new mobile home sites. This option will still require a rezone for the industrial zone and a modification to its limits, moving its southern boundary further South. The flex space meets current zoning requirements.

Both options would include adding a new playground to the mobile home park, fenced storage area for residents only, solid fence along the I-15 exit for screening and privacy and relocating the mail box to a more central location.

Questions already presented from West Bountiful:

1. How do the proposed sites compare in size to the existing sites?

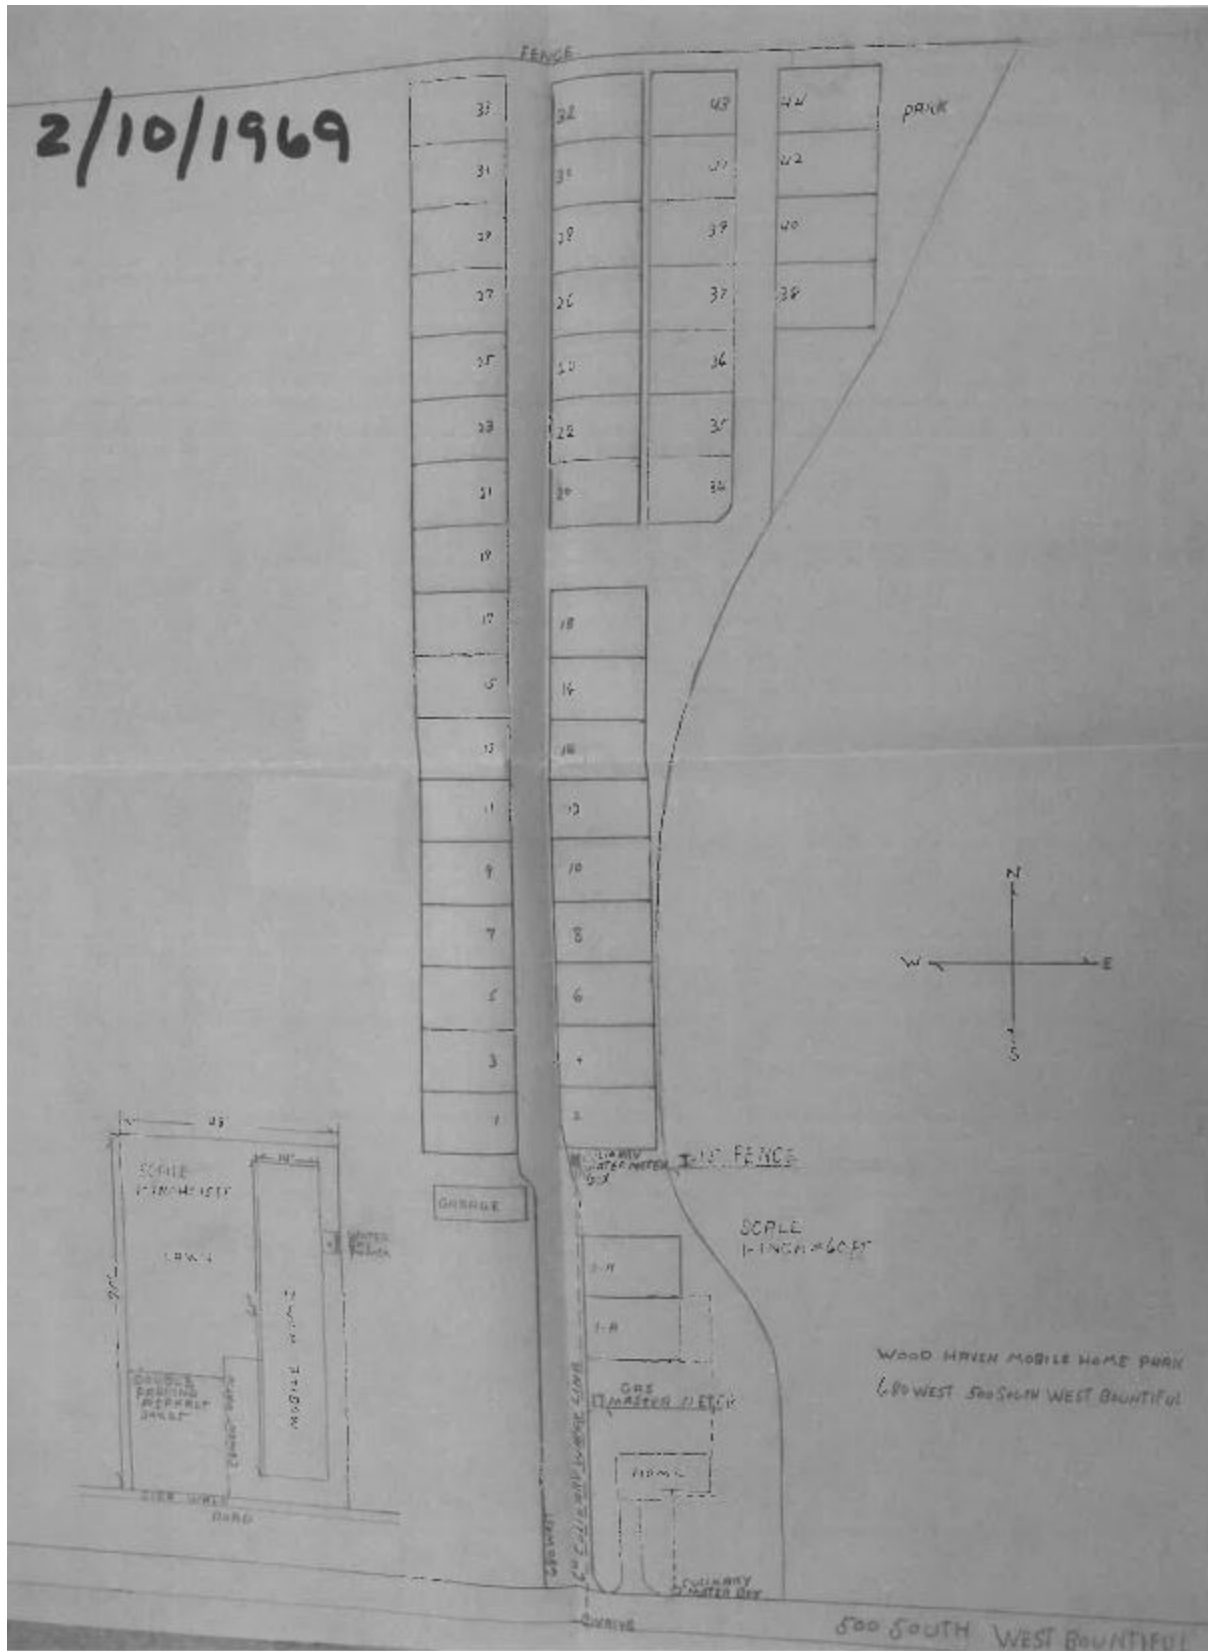

We would propose the new site to match the existing mobile homes sites in size.

2. What are the proposed setbacks for the new sites?

We propose a 15' building to building set-back, similar to what is currently in place in the existing portion. Not to include overhangs or garages. Along with a 5' setback from any other property lines.

3. On Option 2, is the proposed storage to be used as personal rental storage?

The storage space noted within the proposed building would be for the tenants of the flex space building and not for rental/personal use or the Wood Haven residents.

MEMORANDUM

TO: Mayor and City Council

DATE: May 28, 2020

FROM: Duane Huffman

RE: **Property Lines Request – Dennis Vest**

This memo introduces a request from Mr. Dennis Vest regarding the southern property line at his property located at 1405 W 1200 N. Mr. Vest has submitted the attached letter, and he would like to briefly address the council at the June 2nd meeting.

I have also attached a map that shows the discrepancy between the property lines and the current fences between his property and city property.

I recommend that the council ask Mr. Vest any questions they may have when he addresses the council, but that the body reserve discussion on the issue for a closed session, as it normal when initially discussing the potential exchange of real property.

May 27, 2020

To the City Administrator and City Councilmen:

While installing a fence on the south end of my property I discovered that the existing two parallel fence lines, about a foot apart, and my property line did not match. In approaching Duane to resolve the discrepancy he recommended that I bring it up before the city council. I did have the south end of my property surveyed and they verified that there is a discrepancy.

While looking into this discrepancy I found that the property line and fence line are off on all the properties west of 1100 running on the south side of the fence all the way to and including my property. The difference is either a survey error or just simply because the property owners wanted access to the creek because there is no access to Weber water thus the only year around access to water was by this creek. Every property owner along the north side of this creek either uses the creek water for irrigation and/or for livestock.

The city seems to have recognized this fence line as the property line as well as owners because the golf course and maintenance yard occupy the south side of the fence line with the creek and property owners occupy the north side of the fence line.

It seems that when Brandon Mckean bought the property west of his house on 1100 the property line discrepancy was noted. It seems that in order to resolve the problem the city deeded the questioned property over to Brandon McKean. I'm not sure if they meant to set a precedent or not for the other properties involved.

I'm asking the city to please help resolve the property issue with the remaining property owners. I'm not even sure they are aware of the property discrepancy and I have chosen not to involve them. Please review this situation and I would appreciate a recommendation on how to resolve this challenging situation.

I really need to have my property line and the fence line match because of existing fences and fixtures currently in place and in order to avoid future property line issues with either the city or future property owners. I appreciate your attention in this matter.

Sincerely,

Dennis Vest

RE: **Petition for Land Use Code Text Change For Medical Cannabis Pharmacy**

This memo:

- 1) Reviews the background on the petition filed by *Wholesome Therapy (Cannabis Cultivation) & Canyon 100 N Bountiful, L.C.* for a change to the city's land use code;
- 2) Reviews applicable state code; and,
- 3) Presents the modified positive recommendation made by the planning commission.

Background - Petition Filed by Wholesome Therapy

An application to change the city's land use code text was submitted by Wholesome Therapy on May 1, 2020. As part of the application, Wholesome Therapy invoked the timeline requirements related to petitions involving cannabis production facilities as found in UCA § 10-9a-528(3)(b). The full request is attached with this memo.

Subsequently, Wholesome Therapy withdrew in part their petition. This was done so as to allow the petitioner more time to gather information that was requested by the city. The only portion of the petition that remains is as it relates to medical cannabis pharmacies in the C-G zone.

The proposed text change would:

- ~~a. Add "Cannabis Production Establishment [as defined by Utah Code]" as a permitted use to the A-1 and L-1 zones.~~
- ~~b. Add "Cannabis Production Establishment [as defined by Utah Code]" as a conditional use to the C-G zone.~~
- c. Add "Medical Cannabis Pharmacy [as defined by Utah Code]" as a permitted use in the C-G zone.**

Background - Utah Regulations – Cannabis

Statewide requirements related to cannabis are found in the Utah Code. The following is a summary of applicable regulations on this matter:

- A. UCA § 10-9a-528(3)(b) requires that the city act within 45 days after a petition is made to "prepare and adopt a land use regulation, development agreement, or land use decision" that conforms with state code.

- i. This means that West Bountiful City has until June 15, 2020 to either enact an ordinance that further regulates medical cannabis pharmacies or make a land use decision on the application consistent with current state code.
- B. UCA § 26-61a-507 reviews local control over a medical cannabis pharmacy. It is also attached to this memo.
 - i. Such pharmacies are a permitted use “in any zone, overlay, or district within the municipality except for a primarily residential zone.”
 - ii. A municipality may enact an ordinance that governs the time, place, or manner of medical cannabis pharmacy operations in the municipality (as long as it doesn’t conflict with the state code).

Planning Commission Recommendation

The planning commission discussed this item at their May 12th and May 26th meetings and held a noticed public hearing at the May 26th meeting. Other than from the petitioner, no public comment was received.

The planning commission understood that, per state code, a medical cannabis pharmacy must be a permitted use in the C-G zone. They then undertook an analysis as to whether any time, place, or manner requirements consistent state code would be appropriate for this zone in light of the petition filed by Wholesome Therapy.

The planning commission ultimately voted 3-2 to move forward a positive recommendation on the petitioner’s request with one change: that medical cannabis pharmacies be limited to operating hours between 7 am and 10 pm, the minimum allowed by state law.

An ordinance codifying this recommendation is now presented to the city council for consideration.

The planning commission is now working on a more comprehensive medical cannabis ordinance, and the city expects Wholesome Therapy to re-file a new petition related to medical cannabis production establishments.

RE: Restrictions for Flag Lots on Dead End Streets

Planning commission has been discussing restrictions for flag lots on dead end streets for several months after a resident requested a flag lot be included as part of a subdivision he is proposing at 1390 W 1200 North.

After discussion and review, planning commission determined that a dead end street and cul-de-sac are similar. The primary difference is that one is intended to remain permanently closed and the other may or may not remain permanently closed. As the maximum length of a cul-de-sac is 400 feet, the same maximum length should be recognized when determining where the staff of a flag lot can begin on a dead-end street.

A public hearing was held on May 26. The changes below are recommended for approval by planning commission and have been reviewed by Mr. Doxey.

WBMC 16.12.060.5 is proposed to change as follows: *“the staff of the Flag lot cannot extend from intersections, street corners, cul-de-sacs, or **within four-hundred feet of the closed end of a dead end street. If the dead end street has a turnaround at the closed end, the distance will be measured from the center of the turnaround.**”*

16.04.020 Definitions:

Current: "Cul-de-sac" means a street which is designed to remain permanently closed at one end, with the closed end terminated by a vehicular turnaround.

Add new: *“**Dead end street” means a street with only one way in or out. It may or may not have a turnaround for vehicles at the closed end.**”*

16.12.060 Lots

D. Flag lots will only be allowed where traditional lot development is not feasible. Such lots shall meet the following criteria:

1. The staff of the lot shall not be less than twenty feet (20') **wide** and shall not exceed the design length requirements for a cul-de-sac.

WEST BOUNTIFUL CITY

ORDINANCE #426-20

AN ORDINANCE AMENDING WBMC TITLE 16 REGARDING FLAG LOTS ON DEAD END STREETS

WHEREAS, the West Bountiful Planning Commission has recommended adoption of proposed amendments to WBMC 16.04.020 and 16.12.060.

NOW THEREFORE BE IT ORDAINED BY THE CITY COUNCIL OF WEST BOUNTIFUL THAT WBMC SECTIONS 16.04.020 AND 16.12.060 BE MODIFIED AS SHOWN IN BELOW.

RE: Proposed Changes to A-1 Uses, including Non-Commercial Structures

For several months, the planning commission has been considering changes for permitted and conditional uses in the A-1 zone. The primary issue was to consider storage structures when there is no home on the property. Current zoning code refers only to accessory structures, but the concept of accessory structures is to be “on the same lot *with*, and of a nature customarily *incidental and subordinate to, the principal use or building.*”

The Commission concluded that the best way to handle this issue was to define and include non-commercial structures as a permitted use. The definition clarifies that the structure cannot be used for commercial purposes or as a dwelling and requires a recorded agreement between the city and property owner.

During the review process, several other changes were determined to be appropriate in the list of conditional uses. These include removing natural resource extraction, clarifying that kennels are allowed only as a home occupation, and deleting a duplicate entry for Residential facilities for Elderly Persons.

A redline version from relevant sections of the A-1 zoning code is attached that includes the updated list of permitted and conditional uses, includes a proposed definition for non-commercial structures, and clarifies the setbacks applicable for non-commercial structures.

A public hearing was held on May 26, 2020. No public comments were offered.

The planning commission recommends the changes to WBMC Section 17.16 Agricultural District. A-1 and 17.04 Definitions, as shown on Exhibit A attached to Ordinance 427-20.

RE: **Employer Pick Up of Employee Contribution for the New Public Safety and Firefighter Tier II Contributory Retirement System**

This memo introduces and recommends adoption of a resolution affirming that West Bountiful City will pick up (pay) the employee portion of the newly enhance Tier II retirement system for the city's police officers.

For reference and explanation, I have attached two pages from a recently published newsletter from the URS. Funding for this was included in the tentative budget.

Tier 2 Public Safety & Firefighter Enhancements

Pick-Ups: Questions & Answers

Enhancements to Tier 2 Public Safety & Firefighter retirement benefits will take effect beginning July 1, 2020. They apply to new and current employees in the Tier 2 Public Safety & Firefighter Retirement system for benefits earned on or after July 1, 2020.

Due to the cost of the plan enhancements, contributions to the Tier 2 Public Safety & Firefighter Hybrid plan will be made by the employer (14%) and the employee (2.27%) for a total of 16.27%.

However, an employer may “pick-up” the employee’s portion of the retirement contribution and treat it as an employer contribution under [IRS Code Section 414\(h\)\(2\)](#).

These changes do not open a new window for employees who have worked beyond a year to change their selections between the [Hybrid Option](#) and [401\(k\) Option](#). The choice that is made during the first year remains irrevocable.

IRS Guidance

The IRS provides guidance regarding [Employer “Pick-Up” Contributions to Benefit Plans](#). The following are some key points from the IRS guidance:

What is a “pick-up”?

» An employer may elect to pay the employee contributions on behalf of the employee. If an employer decides to pay the employee contributions on behalf of the employee, it is considered a “pick-up”.

How does an employer “pick-up” the contributions?

- 1.** Formal action must be taken. If an employer wishes to take formal action so the employee does not pay contributions beginning with the new rates on July 1, 2020, the action must be completed by July 1. If an employer does not wish to “pick-up” employee contributions by July 1, they may do so at a later date, but may only “pick-up” prospective contributions.
- 2.** The formal action must be noted through contemporaneous documentation (e.g. resolution, minutes, etc.).
 - a.** The formal documentation must show that the “pick-up” is not offered as a cash or deferred election.
 - b.** It must be mandatory for all employees in the select group affected.

3. An employer must complete and submit the URS [“Employer Election To Pick-Up Member Contributions: Tier 2 Public Safety and Firefighter” form](#).

What are the tax considerations?

Employee contributions to a defined benefit plan are treated as after-tax contributions, which are subject to income tax and social security and Medicare tax (FICA) purposes.

» If an employer “picks-up” the employee contributions and certain tests are met, then the employee contributions are considered employer contributions and excludable from gross income. The IRS looks for a couple of tests to be met to meet this consideration:

- › The employer specifies that the contributions, although designated as employee contributions are being paid by the employer. For this purpose, the employer must take formal action to show that the contributions on behalf

of a specific class of employees will be paid by the employer.

- › There is no cash or deferred election right with respect to designated employee contributions.

» As long as the “pick-up” is not part of a salary reduction arrangement, it may be excluded from FICA taxes. The “pick-up” must be a salary supplement.

» [See IRS: Employer “Pick-Up” Contributions to Benefit Plans](#) for additional information.

Other Information

What does this mean for employees who have chosen the 401(k) Option?

» [1st Substitute Senate Bill 56 \(2020\)](#), “Public Safety and Firefighter Tier II Retirement Enhancements” states that an employer who elects to “pick-up” contributions for members who have selected the Hybrid Option must also make an additional non-elective contribution to members who have selected the 401(k) Option equal to the “pick-up” amount.

MEMORANDUM

TO: Mayor and City Council

FROM: Duane Huffman

RE: **Interlocal Agreement Amendment – Utah Risk Management Agency (formerly URMMA)**

This memo introduces and recommends adoption of the proposed First Amended and Restated Interlocal Agreement of the Utah Risk Management Agency. The city's legal counsel was involved in the review of agreement.

The amended agreement is essentially a technical clean-up of outdated provisions from the original 1985 interlocal agreement that created the entity. The following is a summary of the updates:

1. **Name:** The name of the organization was changed for two reasons; 1) the organization has been going by the name Utah Risk Management Mutual Association, however the actual legal name per the 1985 Interlocal Agreement is Utah Municipal Risk Management Association, 2) Utah Statute defines an "association" as a homeowners group, a group of elected officials or a group related to school activities we do not meet any of these definitions.
2. **Statutes:** The 1985 Interlocal Agreement has never been updated and the Utah Statutes have changed since 1985. There were several statutory references that needed to be amended, updated, or included to become compliant with the current Utah Interlocal Cooperation Act.
3. **Executive Committee:** The language in the 1985 Interlocal Agreement limited the Executive Committee membership to (9) persons. However, we have been operating with (10) persons on that committee. This change was to allow the Board of Directors to determine the number of persons who serve on the Executive Committee, not have a pre-determined number.
4. **Bonding:** The 1985 Interlocal Agreement requires "all officers, agents and personnel" to be bonded. The language was amended to require bonding per the Utah statutes.
5. **Secretary and Treasurer Appointments:** The 1985 Interlocal Agreement recognizes the positions of the Treasurer and Secretary of the organization. One provision of the 1985 Interlocal Agreement states that the "board" will appoint those positions, another provision of the 1985 Interlocal Agreement states that the "Executive Director" appoints those positions. The actual practice has been that of the Executive Director appointing those positions. The language in the First Amended and Restated Interlocal Agreement removes

the contradictory provision(s) and places the responsibility on the Executive Director consistent with past and current practice.

6. Amending Process: The 1985 Interlocal Agreement did not contain the statutory language regarding the process for amending the Interlocal Agreement. The new Interlocal Agreement defines that process. At the recommendation of the city attorney review group, the board adopted a provision in Article 30, Section 30.2 that allows the Board of Directors upon unanimous vote to make small or insignificant changes to the Interlocal Agreement without having to bring it back to each city council every time.
7. Structure, Punctuation: Additional, there were non-content related structural changes to the document i.e. punctuation, page numbering, spelling and grammatical corrections, etc.

54 *Nelsons and Johnsons as described above. Rod Wood seconded the Motion*
55 *which PASSED with unanimous vote of all members present.*

56
57 **5. Public Hearing – Petition for Disconnection Submitted by the Smith Family, Owners**
58 **of Real Property identified as Parcel 06-030-0047 located at 1818 W 400 South.**

59
60 **MOTION:** *James Bruhn made a Motion to open the public hearing. Mark Preece*
61 *seconded the Motion which PASSED by a unanimous vote of all members*
62 *present.*

63
64 Duane Huffman explained that petition to disconnect a parcel of land from the city
65 boundaries is a rare land use action. It is a legislative decision governed by Utah Code Ann. §10-
66 2-501 et seq.

67 The property in question appears to have been originally annexed into West Bountiful in
68 1999. At the time, it was part of a larger parcel owned by Security Investment LTD. The original
69 petition for annexation includes the signature of Mary Hepworth as a representing partner of
70 Security Investment LTD. Staff is not aware of any challenges to the annexation at the time or
71 since.

72 Wayne Budge, representing the Smith family described the family's land configuration
73 after the Legacy Parkway was built. The family has used the land to raise cattle since the 1940's.
74 In 2008, it was determined by the court that two acres annexed into West Bountiful were owned
75 by the Smith family instead of Security Investment. The remaining land is in unincorporated Davis
76 County.

77 Mr. Budge noted that the Smith's intent is not to cause confusion or problems with this
78 request. The family believes that West Bountiful does not provide services, road maintenance or
79 access to the property. The family would like all their land to be under the same designation rather
80 than split by jurisdictions. He added that there is no petition or application for annexation pending
81 with any other city at this time.

82 There was general discussion about recent development concept meetings with Woods
83 Cross City. Mr. Budge said they are collecting information and want to leave all options open.
84 They prefer to have all their property in one city and are happy to talk with anyone. Several older
85 family generations have preferred to hold discussions with Woods Cross but that could change as
86 newer generations get involved. At this time, they plan to leave the property in unincorporated
87 Davis County.

88 Council member Ahlstrom asked Mr. Budge to address criteria about not leaving a
89 peninsula or island. Mr. Budge responded by referring to case law. The city council asked Mr.
90 Steve Doxey to review the case law and how it would apply to this situation.

91 Duane Huffman explained that the boundary of the joint CDA covered the unincorporated
92 area, but that the 2 acre parcel was included in the West Bountiful CDA, and that more research
93 was needed to understand how a potential disconnection would affect both CDAs.

94 The council has 45 days from this meeting to make a determination. Mr. Doxey and Mr.
95 Huffman will continue researching the issues brought up in the discussion.

96
97 There were no additional public comments.

98
99 **MOTION:** *Mark Preece made a Motion to close the public hearing. Rod Wood*
100 *seconded the Motion which PASSED by a unanimous vote of all members*
101 *present.*

102
103 **6. Petition for Disconnection Submitted by the Smith Family for Davis County Parcel**
104 **06-030-0047.**

105
106 Duane Huffman explained that a written decision should be provided once the city council
107 make a determination, either in the form of an ordinance approving the request or with written
108 findings as to why it is denied. The city has forty-five days to issue a decision and will work
109 diligently to get it resolved.

110
111 *Council member Enquist joined the meeting.*

112
113 **7. Ordinance #422-20 – An Ordinance Amending the West Bountiful City Zoning Map**
114 **to Remove the Property Located at 788 N 800 West from the Historical Overlay**
115 **District.**

116
117 The Winegar family submitted a request to Rezone their property at 788 N 800 W to
118 remove it from the Historical Overlay District. Mr. Winegar stated in the submission that he wants
119 to build a new garage to replace an old one that is unsafe and the current design regulations
120 applied to homes in the historical overlay district restrict him from building the garage next to his
121 home as he prefers. He wants to have a safer backyard for kids due to vehicle traffic on 800 West
122 and moving the garage to the rear of the property would cause him to lose space in his backyard.
123 The planning commission held a public hearing on May 12. Tonja Schenk, Mr. Winegar's
124 neighbor, commented that she is concerned about preserving the historic district when it appears
125 so easy for properties to be removed as this would be the fourth in the last several years. She
126 doesn't like the opt-in opt-out flexibility and its future impact on the historic district.

127 There was confusion with the planning commission about the historical overlay district and
128 the historic district – are they the same or separate? Commissioners were interested in maintaining
129 the historic district, but the majority voted to remove the Winegar's from the historical overlay
130 district, i.e., land use and zoning regulations, so he can build his garage.

131 Duane Huffman researched the history of the two districts and determined that long before
132 the historical overlay district was established in 2012, the historic preservation commission
133 worked on a historic district that included conducting surveys and inventories of community
134 historic resources, reviewing proposed nominations to the national register of historic places,
135 establishing a West Bountiful Historic Sites List, and providing advice and information to city
136 officials. That commission has not been active now for about ten years. Eventually, the overlay
137 district was codified into land use code. At this point, staff not aware of an active historic district
138 existing separate and outside of the historical overlay district.

139 Commissioner Ahlstrom asked about the benefits to remain in the overlay district. His
140 home is in Heritage Pointe so he and his neighbors had to comply with the historical overlay
141 regulations even though no one was happy about it.

142 Ms. Schenk commented that several years ago she wanted to make some changes to her
143 property and met with the historical architectural review board to understand and comply with the
144 regulations. Mr. Winegar wants to build a 2000 sf garage that is not historic and then decides to
145 opt out of the historic district, so he doesn't have to comply with the same regulations everyone
146 else has had to. Why does the city have rules if they do not need to be followed?

147 There was discussion about whether the design regulations should only apply to Heritage
148 Pointe or should they be applied to all homes in the overlay district. Is the city acting as the
149 homeowner's association for Heritage Pointe and if so, is it appropriate?

150 Commissioner Bruhn said his memory is that the design regulations in the overlay zone
151 were intended to apply only to Heritage Pointe when the land owner insisted that the subdivision
152 be required to include only historic homes. A separate historic area existed along 800 West and
153 part of 1000 North. Duane explained that even if that was the intent of some, by matter of law the
154 historic overlay regulations apply to all homes designated on the zoning map as the historic
155 overlay district.

156 Mr. Bruhn asked what criteria was used to remove the previous properties from the historic
157 district. Were any requests denied? Mr. Huffman responded that no requests were denied but the
158 previous three properties were vacant lots. This request is different because it includes a historic
159 home.

160 Council member Ahlstrom stated that he never intended the historic district to be a zoning
161 impediment. What benefit have we achieved? Heritage Pointe has unique homes, but they are not
162 historic; how can you build a new historic home? He would like the city to decide what goals it is
163 trying to achieve.

164 Planning Commissioner Alan Malan, who is also a member of the historical architectural
165 review board, commented that he agrees with council member Bruhn that the regulations were
166 primarily intended for the new construction in Heritage Pointe. He added that he is not sure how
167 the boundaries of the overlay zone were established on the zoning map but it's clear that many of
168 the properties listed should be removed and several that are not included should be added. There
169 are several large properties that run from 800 West all the way to the Prospector trail. When
170 developed, maybe only the lots along 800 West should be included.

171 Duane noted that the options are to approve the request, to deny it, or to send it back to the
172 planning commission to research and reconsider what is appropriate for a historic district.
173

174 **MOTION:** *Rod Wood made a Motion to approve Ordinance 422-20 amending the*
175 *city's zoning map to remove the property at 788 N 800 West from the*
176 *Historical Overlay District. Mark Preece seconded the Motion which*
177 *PASSED.*

183

184 Council member Wood asked staff to work with the planning commission to look at the
185 issues surrounding the historic district. Research the map boundaries and make recommendations
186 for adjustments and what regulations should apply.

188 **8. Ordinance 423-20 – An Ordinance Amending WBMC 17.52 and 16.060.E for Off-**
189 **street Parking.**
190

191 Planning Commission has been working with staff on updates to the city’s off-street
192 parking requirements for several months. Updates were proposed to deal with issues staff has
193 experienced when attempting to apply current regulations. The proposal includes updating
194 parking stall width to the industry standard, establishing drive aisle width, clarifying the
195 different standards for residential and commercial properties, establishing guidelines for
196 appropriate conditions for conditional use permits, increasing drive approach widths, and
197 clarifying that driveways are allowed on two street frontages.

198 A public hearing was held on January 14, 2020 with no members of the public offering
199 comments.

208

209 **9. Ordinance 424-20 – An Ordinance Amending WBMC Title 16 Subdivision Recording**
210 **Deadlines.**
211

212 Extending deadlines for subdividers to record a final plat has been discussed by planning
213 commission for several months after staff discovered that the language adopted in 2015 did not
214 say what it was intended to say. Subdividers are given twelve months to record a plat after
215 approval by city council. The intent was to allow a subdivider an opportunity to request an
216 extension to record a subdivision prior to the expiration of the 12-month period. The language that
217 was adopted required a request for extension to be filed before the end of the first 6 months which
218 in some cases could be before the subdivider even knew an extension would be necessary.

219 The changes recommended by planning commission allow two six-month extensions
220 when petitioned in writing at least forty-five days prior to each deadline. A public hearing was
221 held on May 12, 2020, with no members of the public offering comments.
222

223 **MOTION:** *Mark Preece made a Motion to approve Ordinance 424-20 with correction.*

230

231 **10. Resolution 468-20 – A Resolution Reaffirming Culinary Water Rates until January 1,**
232 **2021.**
233

234 Duane Huffman explained that the capital needs portion of the water utility base rate has
235 regularly included expiration dates as checkpoints for the city council to determine its necessity
236 and level. The rate is currently set to expire July 1, 2020 unless the council takes action to extend
237 it. With the loss of a full-time engineer and the economic uncertainties from the Covid-19
238 pandemic, staff is not able to perform the analysis to an acceptable standard in time for the council
239 to give it due consideration by July 1 and recommends extending the expiration date six months
240 until January 1, 2021.
241

242 **MOTION:** *James Bruhn made a Motion to approve Resolution 468-20 as described*
243 *above. Rod Wood seconded the Motion which PASSED.*

250 **11. Discussion on Petition for Land Use Decision Related to Cannabis Production**
251 **Establishment.**
252

253 An application to change the city’s land use code text was submitted by Wholesome
254 Therapy on May 1, 2020 invoking the timeline requirements related to petitions involving
255 cannabis production establishments pursuant to state code.

256 The proposed text change would add “Cannabis Production Establishments” as a permitted
257 use to the A-1 and L-I zones, and as a conditional use to the C-G zone. It would also add “Medical
258 Cannabis Pharmacy” as part of the already included permitted use of “Drug Store” in the C-G
259 zone. The planning commission discussed these issues at its last meeting and has scheduled a
260 public hearing for May 26, 2020.

261 The purpose of this discussion tonight is to help the council begin to think about issues
262 related to the request and cannabis law in general, such as whether the city should consider
263 renaming the A-1 zone to clarify it is primarily residential.

264 There was discussion about what the state law means and which zones it opens up to
265 cannabis uses regardless of the wishes of the city. There was also concern raised about potential
266 odors coming from the building as part of the production process.

267 Bruce Baird, counsel for Wholesome Therapy, said his clients believe the Carr building is
268 the perfect location for their business as it is basically unusable for retail due to lack of parking
269 and is set up well for this industrial use. He said there will be special equipment so no odors will
270 escape from the building. State laws are very strict so there will be no external visibility of what is
271 being produced in the building. Tight security restrictions and oversight mean this location will be
272 the least likely place to buy illicit drugs. He added that the planning commission was concerned
273 about the impact to neighboring businesses like Costco and Lowe’s so they have contacted the
274 Thackeray group and hope to meet with them later in the week. He believes the Carr building is an
275 appropriate place for this use and the production facility would support the pharmacy in the front
276 of building. He added that he is open to a development agreement if that is preferred by the city.

277 Steve Maxwell, also representing Wholesome Therapy, said the company was one of over
278 100 Utah applicants, and one of eight chosen in the state to be licensed to provide these services.
279 The logistics would be great in this building with production and retail together. He responded to
280 questions about what is meant by production facilities and what odors are being scrubbed.
281 Regarding odor, cultivation begins with growing seeds and trimming the buds. This is where the
282 smell comes from. The scrubbers take air and scrub and filter it. The only time there would be
283 odors would be if the equipment was not maintained so there is great motivation to be diligent to
