Onboard Hook

For compact, convenient storage, hang the handheld vacuum on the hook on the bottom of the wand, and wrap the power cord around the cord hooks. The unit stores easily in a closet or against a wall.

MAINTENANCE

Empty the dust cup every time debris reaches the MAX fill line.

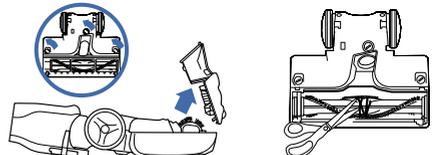

WARNING:
Hand wash filters only with water to prevent damage from cleaning chemicals.

Allow ALL filters to air-dry completely before replacing them in the vacuum to prevent liquid from being drawn into electric parts.

Brushroll Maintenance

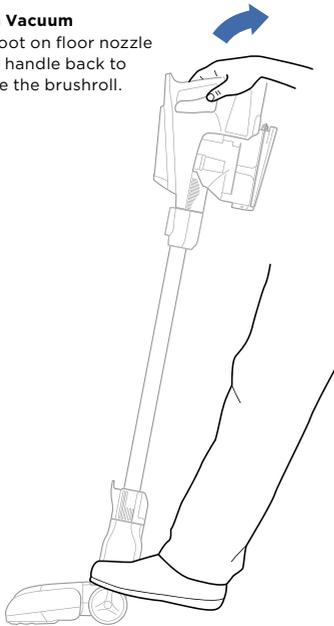

To access the brushroll, remove the cover on the bottom of the floor nozzle.

1. Using the edge of a coin, turn locks counterclockwise to open, then lift off cover.
2. Clear any blockages from airway. With scissors, cut across the groove on the brushroll to remove any string, carpet fibers, or hair.
3. Replace cover and turn locks clockwise to close.
