WHY CHOOSE WICKES

To make the process of buying and installing your new kitchen as fun, exciting and stress-free as possible, we offer the services of a personal design consultant who will be your key contact when discussing your new kitchen with us.

Every customer has a unique vision of their dream kitchen; we believe the best way of bringing that dream accurately to life is by offering you a dedicated design consultant to personally support and guide you through every step of the process, from providing inspiration and offering suggestions all the way through to installation and aftercare.

Our stunning range of 28 kitchens and the help of a personal **design consultant** are just the start of what we have to offer. Here are a few more reasons why shopping with Wickes is right for you.

We offer a free optional home visit

We always offer a free, optional home visit so your personal design consultant can stand beside you in the space you want to transform and better understand what's important to you.

We will guide you through our stunning range of 28 kitchens

From ingenious, Compact Living kitchens to ambitious grand designs, from rustic traditional stylings to sleek modern surfaces, from big budgets to small budgets – our diverse range of 28 stunning kitchens contains all the right ingredients to bring your dream kitchen to life.

We can offer advice on the look of your whole room

We offer a fantastic selection of complementary products to make your dream kitchen truly yours. Our lighting, paint and appliances will help to add a personal touch while our wide range of tiles will have all your flooring needs covered.

We make installation a piece of cake with the Wickes Installation Service

Our experienced Installers go through a rigorous selection process before we approve them to become part of the Wickes Installation team, ensuring you a smooth installation and a kitchen that perfectly matches your vision.

We build kitchens to last; all our Showroom Kitchen cabinets are guaranteed for a lifetime

We're confident in our quality, and confident that your new Wickes kitchen will feel new for a long time – in fact we're so confident that we guarantee our cabinets for a lifetime and our doors for 10 years.

We won't be beaten on price

Our Price Match Promise guarantees you're getting the best deal out there. Found a comparable product cheaper locally? We'll drop our price to match it. Feel free to get in touch and ask us about this excellent offer.

Our range of flexible finance options is designed to make your kitchen more affordable

We understand that it's not always feasible to pay for your kitchen up-front with a lump sum. Our range of flexible finance options is designed to give you room to manoeuvre so you don't have to compromise on your dream kitchen.

Lee May
Wickes design consultant

7 STEPS TO YOUR NEW WICKES KITCHEN

Buying a new kitchen should be as exciting, fun and stress-free as possible, which is why we offer to walk with you every step of the way. From inspiring you with ideas and suggestions all the way through to project-managing the installation and supporting you with aftercare. At Wickes we know that the kitchen is the heart of the home, and we are committed to helping you bring your dream kitchen to life without skipping a beat.

Be inspired

This brochure has been designed to help you start out on the right path as you begin your kitchen journey. You can browse our 28 stunning kitchen ranges in this brochure, via wickes.co.uk, or by visiting one of our showrooms where a member of our team will be able to offer you guidance on your choice and answer all of your kitchen queries.

Talk to us

Whether you have a few ideas bubbling away already, or you're having trouble choosing just one option from our diverse range, feel free to get in contact at your earliest convenience. You can book an appointment via our website or by visiting one of our stores – where a team member will always be on hand to discuss your requirements and organise a no-strings-attached home visit.

We'll visit you at home

Our free home visits enable us to fully understand your space and what you want from your new kitchen. With one of our team working as your personal design consultant you get to decide how much work you want us to do for you. We'll take all the measurements and guide you through your style, layout and storage options, or if you prefer we'll take a back seat and listen to your instructions while working from the measurements you provide us.

Bringing your ideas to life

Your design consultant will personally craft your unique kitchen design, after which you will be invited in store to work with us on making sure we have fully understood your vision. We'll also talk to you about the advantages of using the Wickes Installation Service. If you plan to fit your kitchen yourself we won't take this as a cue to abandon you; we'll be there to support you for as long as you need us.

Funding your project

Your personal design consultant isn't limited to only helping with the design process; they are also able to give you an instant quote and offer funding advice for your project. At Wickes we offer flexible finance packages designed to make your new kitchen more affordable.

Making it happen

With your designs finalised it's now time to start breaking ground. Your Wickes Installer will conduct a full technical survey and discuss any potential work involving gas, electricity or plumbing. If you've chosen to use your own installer, the next step is to arrange your delivery date. No matter which option you choose, your personal design consultant and our Customer Service Team will be on hand to offer support throughout the whole process.

Enjoy your new kitchen

Once you're finally stood in your dream kitchen, with everything perfectly matching your vision, you will be asked to sign a completion note. The job is finished, but our work continues. Shortly after completion, our Customer Service Team will be in touch to talk to you about your experience with us. We'll check in again with you after a couple of weeks to make sure that your kitchen continues to meet your expectations.

INSTALLATION

You have your dream kitchen all planned out, your design consultant has worked out the details for you and now it's time for your new kitchen to be installed in your home. With the Wickes Installation Service we aim to make the installation phase as smooth and stress-free as the design phase.

Our goal is to bring your precise designs to life while enabling you to relax, safe in the knowledge that our Approved Installers will get the job done as quickly and efficiently as possible.

Our Installers go through a rigorous approval process before we approve them to become part of the Wickes

Installation team, ensuring that your kitchen will be fitted to the highest of standards. Once your kitchen is installed, you'll receive a **24 month workmanship guarantee** on top of your lifetime guarantee on cabinets.

As a proud member of the Institute of Customer Service – the nation's premier independent, professional body for customer service – the Wickes Installation Service is committed to meeting and surpassing ICS standards with the continued improvement and development of our services.

QUALITY

At Wickes we have over 25 years of experience in quality craftsmanship, so no matter which kitchen you choose from our range you can rest assured that you'll always receive products of the highest quality. We know what you're looking for in a kitchen cabinet, which is why we've designed ours to be as hardwearing as possible. In fact, we're so confident in the quality of our cabinets that each one of our Showroom Kitchen cabinets comes with a **lifetime guarantee**. Explore some of our other cabinet features below:

blum hinges and drawer systems will always close softly and are guaranteed for a lifetime.

Cabinet edges are reinforced to provide extra protection against damage.

Wide, adjustable legs make for a more stable unit.

High-strength discreet shelf fixings offer an improved look.

Full-height, solid back panel makes for a sturdier unit and helps stop items escaping from the backs of your cabinets.

All of our kitchen products have earned the **Fira Gold Product Certification**, meaning they have been manufactured to a consistent level of performance through integration with an approved quality management scheme. Consistency in production quality is verified through regular audit testing and inspections.

COMPACT LIVING

Whether your dream kitchen is going in a cosy cottage, a small studio or any home with reduced cooking space, working with a size limit no longer means you have to compromise on either style or function.

COMPACT LIVING RANGE

Our Compact Living options give you everything you need in a kitchen by maximising your available space and using smart storage systems to keep it free from clutter.

From diminutive dishwashers and foldaway tables, to integrated charging stations and mini sinks; Compact Living gives you the option of having a fully workable kitchen no matter how cosy your modern home is.

MAXIMISE WITHOUT COMPROMISE

Choose from any of our stunning kitchen ranges combined with small but perfectly formed appliances and accessories to help you maximise without compromise.

THE HEART OF THE HOME

KITCHENS

We work hard to ensure that the process of buying and fitting your new kitchen is as fun and stress-free as possible. However, all the extra support and help we offer wouldn't count for anything if it wasn't built around our truly stunning range of 28 kitchens. We believe that our selection of contemporary, classic and traditional kitchens is diverse enough to please every palette, which is why we are confident that your dream kitchen is waiting to be discovered over the next few pages.

HERITAGE OAK

With its tones of classic oak, Heritage Oak offers a timeless appeal. Outer frames and door frames are solid oak with a refined veneered flat centre panel.

HERITAGE BONE

Underneath the delicate painted finish of Heritage Bone lie pure, solid timber framed doors with square veneered centre panels. Sophisticated and elegant, this smart range exudes both quality and character. To create a striking contrast, mix and match Heritage Bone with our Heritage Oak range.

FEATURES

WALL PAINT Wickes Colour @ Home Willow 122398 **TAP** Flexis Chrome 192495 **SINK** Stainless Steel 1½ Bowl Undermount 211952
FLOORING Dark Oak Solid Wood Flooring 225327 **WORKTOP** Nero Absoluto Granite **OVEN** Rangemaster Elite SE 100

FEATURES

WALL PAINT Wickes Colour @ Home Champagne 121887 **SINK** Ceramic Single Belfast Sink 143687 **TAP** Zores 320200 **WORKTOP** Dark Oak 38mm Solid Timber (main worktop) and Nero Absoluto Granite (island)

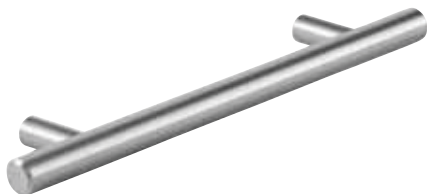

HERITAGE SAGE

It's the soft green that transforms this solid timber in-frame door. The beautiful wood grain shows through the painted finish. It offers a perfect look when mixed with the classic oak version or is simply stunning on its own.

HANDLE OPTIONS

Although each of our kitchens comes with a recommended handle as standard, you can choose from a wide selection to really personalise your look. Speak to your design consultant for further details.

Our worktops have been approved to NSF standards*, demonstrating our commitment to provide the highest quality products possible, building confidence and trust in our products.

* NSF is a recognised body which approves products that meet the requirements of Food Safety Hygiene standards.

NATURAL BEAUTY OR SEAMLESS SPLENDOUR: IT'S AN INVESTMENT PIECE

WORKTOPS

For stunning, hardwearing worktops, look no further than Wickes. From the timeless splendour of our granite worksurfaces to our durable, long-lasting laminates, there really is something to suit every style and budget.

COMPACT LAMINATE WORKTOPS

Cutting edge design and performance all in one. An innovative work surface solution that combines superior performance with next generation design, **ZENITH** solid core ultra-thin worktops provide it all.

- Available in 2 designs complemented by unique surface textures
 - 12.5mm thin
 - Distinctive solid black core
- Double-sided decorative surface, perfect for framing and co-ordinated shelving
- Ready to install on-site with standard tooling
- Provides complete design flexibility to incorporate curves
 - 100% waterproof
 - Impact-resistant* up to 500g
 - Superior wear-resistance*
 - Heat-resistant* up to 220°C

ROUILLE

Full of character, this granite-like, subtle satin structure gives a raw material sensation.

CALDEIRA

A depth of slate and concrete, highlighted by an embossed matt texture, providing a sensual touch.

Matching Splashback and Upstands

Add matching splashbacks or upstands as a practical alternative to tiles, or as a truly exquisite design feature to complement the Zenith kitchen worktops.

Undermount Sinks

Perfect for installing undermount sinks thanks to its 100% waterproof solid core. Why not also add drainer grooves for that distinctive design finish?

Curves

Incorporate the sleek flow of curves for a truly stunning finish to any design. With no need for specialist tooling or re-edging, these can be easily achieved on-site.

Available in 12.5mm only
Available in a range of worktops, breakfast bars, splashbacks and upstands

STYLE & QUALITY HAND IN HAND

For a stunning, hard wearing worktop, as a cost effective solution to real wood, stone or granite, see our diverse range of **LAMINATE** worktops.

WEL

WOOD EFFECT LAMINATE

This range of laminate wood effect worktops offers a no-maintenance alternative to traditional real wood without compromise on style.

- Abrasion- and scratch-resistant
 - Heat-resistant*
 - Impact-resistant
 - Water-resistant**

GL

GLOSS LAMINATE

Gloss laminates give a smooth, high sheen finish, effectively capturing the detail of natural materials, but at a fraction of the cost.

- Heat-resistant*
- Impact-resistant
- Water-resistant**
- Easy to clean

ML

MATT LAMINATE

Matt laminates absorb light, giving a rich luxurious finish, and are designed to resemble natural stone without reflecting the large price tag.

- Abrasion- and scratch-resistant
 - Heat-resistant*
 - Impact-resistant
 - Water-resistant**
 - Easy to clean

TL

TEXTURED LAMINATE

The innovative surface textures of these laminates effectively enhance the natural depth and detail of the simple stone designs.

- Abrasion- and scratch-resistant
 - Heat-resistant*
 - Impact-resistant
 - Water-resistant**
 - Easy to clean

*We still highly recommend you use heat protectors and avoid placing hot objects directly on the surface to remove risk of damage.

**The laminate surface is water-resistant; however the chipboard core can be affected if the worktop is not sealed sufficiently during installation.

DURABLE & LONG LASTING

APOLLO® solid surfaces are an ideal choice if you want to achieve a more luxurious look.

MAGNA

A stunning alternative to laminate worktops, Apollo® Magna offers the look and feel of more expensive worktops while being just as resistant to mould, bacteria and mildew.

- This non-porous material can easily be repaired and restored to its original finish in the event of accidental damage
- Magna comes with unobtrusive joints that allow for a seamless stretch of worktop that will have the appearance of a single slab no matter how large your kitchen
- The versatility of Apollo Magna also allows for a wide range of design options, including seamless sinks, making this a great choice for ambitious kitchen projects

Not all worktops are ideal for every kitchen, so let's make sure this is the right choice for you with these points to consider:

- As with all worktops, ordinary wear and tear will show up more on dark surfaces than on light surfaces
- Magna is a good material for buffing away tough stains; however don't forget that stain- and scratch-resistant aren't the same as stain- and scratch-proof
- Compared to stone products, Magna isn't as resistant to high temperatures and comes with a less glossy, semi-matt finish
- Available in three thicknesses - 34mm, 56mm, or, for that thin edge finish, 19mm

Not suitable for use with undermount sinks.

SLAB TECH

Apollo® Slab Tech is a non-porous, food-safe material that is silky smooth and maintains the same colour throughout its substantial 30mm depth.

- Slab Tech is naturally resistant to mould, bacteria and mildew
- Slab Tech is simple to work with; it can be cut and machined just like wood
 - Any damage is easily repaired so it looks good as new
- Slab Tech is ideal for huge stretches of worktop with unobtrusive joints, as well as for ambitious designs that take advantage of its versatility, including the option of seamless solid surface sink installations

Not all worktops are ideal for every kitchen, so let's make sure this is the right choice for you with these points to consider:

- While repairs are possible and most permanent stains can be buffed away, don't forget that stain- and scratch-resistant aren't the same as stain- and scratch-proof
 - Slab Tech has a semi-matt finish compared to the more glossy stone products and isn't as resistant to high temperatures
- A good rule to remember when choosing a worktop is that dark colours show scratches more than light colours

CLEAN & CONSISTENT

APOLLO® QUARTZ surfaces have the look and feel of granite but possess a much more consistent colour and finish.

QUARTZ

Apollo® Quartz is a non-porous, engineered stone that stands out as another excellent choice for a lifelong worktop.

- Quartz is resistant to mould, bacteria and mildew without the need for a sealant
- With its smooth finish, quartz offers a stunning alternative to granite by providing uniform base colour and veining throughout its solid 30mm thickness, without sacrificing durability
 - Quartz will retain its lustrous gloss over the years with minimal upkeep

Not all worktops are ideal for every kitchen, so let's make sure this is the right choice for you with these points to consider:

- Quartz is reflective, and while it has a uniform base colour, it may have coloured background swirls, the occasional contrasting coloured stone chips or small air holes or pores
 - The joints aren't seamless and come with a V groove
- Recesses and grooves will be duller compared to the regular glossy surface top
- In the unlikely event that you manage to scratch the surface, you won't be able to polish it out

SEAMLESS SPLENDOUR

CORIAN® is a unique solid surface material with a natural translucence.

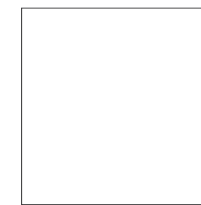

CORIAN®

Currently the number 1 solid surface worktop in the world, DuPont™'s Corian® is a wildly popular, acrylic and mineral filler non-porous worktop with a unique texture.

- Corian® provides inconspicuous and seamless joints that make it the perfect choice for expansive stretches of worktop
- Corian®'s seamless joints also allow for limitless creative design opportunities with seamless sinks and coved upstands
- Corian® is naturally resistant to mould, bacteria and mildew
- Corian® is a great material to carry out inconspicuous repairs on

Not all worktops are ideal for every kitchen, so let's make sure this is the right choice for you with these points to consider:

- Regular wear and tear shows up more on dark colours than light colours
- Stain- and scratch-resistant aren't the same as stain- and scratch proof; however most stains on Corian® can be buffed away
- Compared to stone products, Corian® has a less glossy, semi-matt finish and isn't as resistant to high temperatures

NATURAL BEAUTY

GRANITE & SOLID TIMBER,
a stunning work surface with a timeless
beauty and sophistication.

GR

GRANITE

By combining hard wearing properties with a timeless style that is never out of fashion, granite makes an excellent choice for a worktop that will last a lifetime.

- Due to it being a natural substance, no two pieces of granite will ever look exactly alike, with variation in thickness, colour, grain and vein offering a unique finish that man-made substances can't match
 - Granite is incredibly easy to clean
 - Granite is one of the hardest substances on earth – meaning that unless you're using diamond-tipped utensils you're unlikely to scratch it

Not all worktops are ideal for every kitchen, so let's make sure this is the right choice for you with these points to consider:

- The unique feel of granite isn't for everybody; some people prefer a more uniform appearance. Be aware that granite will contain pit marks and tiny surface cracks. If you do somehow manage to scratch the surface, you won't be able to polish it out
 - Granite is scratch- and stain-resistant, not scratch- and stain-proof, and it will require sealing
- The joints aren't seamless and come with a V groove... any recesses or grooves will show up duller in appearance than the top surface

T

SOLID TIMBER

Wood is the original kitchen worktop material. Crafted from hardwood timber staves which are finger-jointed together and finely oiled, these worktops are truly stunning. As well as adding a natural warmth and character to a kitchen, these surfaces work equally well in a contemporary or classic setting.

- Silky smooth, water-repellent finish
 - Mellows with age to further enhance its looks
 - Excellent impact-resistance
- Treated with penetrating Worktop Oil giving a natural hardwearing appearance and maintaining its beautiful silky finish

APPLIANCES

Your appliances are the focal point of your new kitchen, so choosing the right ones can make your life so much easier, saving you time and helping make your kitchen your own.

APPLIANCE BRANDS

Neff appliances are designed to change the way you use your kitchen. The innovative features are there to help you be at your best, whether you're a busy mum who's always on the go, a budding celebrity chef in the making, or a dinner party host with the most. Your Neff appliances will work hard, so you can make it look easy.

With their award winning Germanic design and build quality, AEG understand that the kitchen is increasingly becoming the heart of the home. Your kitchen appliances are essential tools that will be used for many years every day and so it is worth choosing a brand that will deliver you exceptional results in performance as well as looking stunning with its seamless design.

Electrolux, one of the global leaders in home appliances and appliances for professional use, sells more than 40 million products to customers in 150 countries every year. Their focus is on innovations that are thoughtfully designed, based on extensive consumer insight, to meet the real needs of consumers and professionals.

Everything made easier – with a little Italian flair. At Zanussi, the outlook is simple: time's precious, enjoy it! Just choose whatever you need from the surprisingly affordable range, and they'll take care of your daily chores – reliably and in style – so you can get on with doing the things you really enjoy.

COOKING

The heart of every kitchen is the oven, where the heat works its magic by turning raw ingredients into wonderful food and aromas. Choose the oven type that suits your cooking style.

MULTI-FUNCTION COOKING

Combines all the benefits of grill, fan and conventional cooking into one single oven. Use different functions to achieve the best results with what you are cooking. Perfect if space is at a premium.

FAN COOKING

Circulates the heat around the oven and gives a more even heat distribution to all shelves. You can cook using lower temperatures, and food will cook more quickly, saving you money and time.

STEAM COOKING

Using steam ensures your dishes cook more evenly, from the surface to the core. It also delivers heat to your food more effectively than dry hot air, which means you can cook at lower temperatures. Cooking with steam will enhance flavours and textures of every meal you cook.

Speak to your design consultant who will help you select the right appliance for your needs.

CLEANING

A self-cleaning oven makes life much easier and says goodbye to endless struggles to remove unwanted grease.

EASY CLEANING ENAMEL

The smooth enamel liners make it quick and simple to wipe away grease and spillages from the sides of the oven.

CATALYTIC LINERS

A special coating on the oven liners oxidises grease and residue when heated to 200°C, cleaning the sides of the oven effectively.

STEAM CLEANING

A special pre-set programme helps you to loosen food residue inside the oven for easier cleaning.

PYROLYTIC CLEANING

A total self-cleaning programme that heats the oven up to 500°C whilst locking the door during the session. Food residue is turned to ash for you to simply wipe clean. This is the most effective self-cleaning method.

Speak to your design consultant who will help you select the right appliance for your needs.

CONTROLS

ROTARY

For simple programme and temperature selection.

RETRACTABLE

Retractable controls and an LCD display provide a flush finish for easy cleaning.

TOUCH

Touch controls are easy to use and look sleek in the kitchen.

TFT DISPLAY

TFT colour display lets you intuitively control the vast array of settings within your oven.

Speak to your design consultant who will help you select the right appliance for your needs.

HOBBS

We have a wide choice of hobs available from gas to induction and with various burners and cooking zones.

GAS

Controlled cooking with instant heat and flexibility. A traditional choice of hob for many. All gas hobs feature flame safety devices for your peace of mind.

CERAMIC

With ceramic hobs, the heating element is under toughened glass, providing a smooth surface.

INDUCTION

Induction technology is the fastest, safest and most energy efficient way to cook on a hob, heating the pan directly with no pre-heat required. Smart and modern technology to help finish any kitchen.

Speak to your design consultant who will help you select the right appliance for your needs.

HOODS

Hoods can be hidden away to save space, or they can add a real design statement or focal point to your kitchen.

VISOR HOODS

Attached to the wall above the hob, these are a traditional and affordable choice.

INTEGRATED HOODS

Installed behind a furniture door and simply pulled out when required. When not in use they match your other kitchen units, giving a uniform look.

CHIMNEY & ISLAND HOODS

Creating a striking focal point within your kitchen with a stunning design.

DESIGNER HOODS

Looking for a statement piece? A designer hood will bring a bold and unique feel to your kitchen.

Speak to your design consultant who will help you select the right appliance for your needs.

COMPACT APPLIANCES

Create a perfect workspace within your kitchen using our range of compact appliances. These can be horizontal, vertical or a group of four or more.

COMPACT OVENS & MICROWAVES

Powerful performance in a small design. This range offers the same great cooking performance and range of features as their full size equivalent.

COFFEE MACHINES

Enjoy the luxury of authentic Italian espressos and creamy cappuccinos in your own home with these stunning additions to your kitchen.

WARMING DRAWERS

Offers stylish and useful space for all your cooking accessories.

Speak to your design consultant who will help you select the right appliance for your needs.

DISHWASHERS

Dishwashers operate at a higher temperature than you can hand wash, which means they can cut through tough stains and clean dishes to a higher hygiene standard. Being energy efficient also means they'll save you time and money.

60CM DISHWASHER

You can achieve more flexibility with your washing up as you aren't confined to the traditional place setting. We have made room for those large casserole dishes, baking trays and saucepans, whilst still reducing water consumption and improving energy efficiency.

45CM DISHWASHER

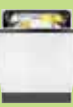

If you need to save space in your kitchen, the slimline is perfect – and you won't lose any of the functionality or energy efficiency of a 60cm.

Speak to your design consultant who will help you select the right appliance for your needs.

LAUNDRY

Our washing machines and washer dryers fit seamlessly within your kitchen with style and functionality.

WASHING MACHINES

Our range includes some of the best integrated laundry products on the market. With up to 20 programmes, these machines can save you both time and money.

WASHER DRYERS

These space-saving models are a standard built-in size, but they can wash 7kg loads and also dry items weighing up to 4kg.

Speak to your design consultant who will help you select the right appliance for your needs.

COOLING

Great tasting meals start with fresh ingredients. Our range of fridges and freezers is designed to keep your ingredients fresher for longer, leading to tastier meals and less waste.

FRIDGES

These can be either integrated, normally at eye level, or under counter, which is ideal for smaller kitchens. These products have a variety of capacities to suit any kitchen size.

FREEZERS

These can also be integrated or under counter. We also have a range of frost-free which will ensure that the appliances are as efficient as possible.

FRIDGE FREEZERS

Choose a 50/50 or 70/30 split to suit your family's lifestyle and food storage requirements. We also have a frost-free option which will ensure that the appliances are as efficient as possible.

SIDE BY SIDE

These American-style appliances make a real statement in any kitchen. With excellent capacity in both fridge and freezer, there is also a wine cooling option.

Speak to your design consultant who will help you select the right appliance for your needs.

Manufacturer
Guarantee*

2 years on Rangemaster

Rangemaster is Britain's best loved range cooker brand, synonymous with design, innovation, performance, quality and reliability – making it the design-conscious consumer's brand of choice.

You can choose from three different sizes. Rangemaster offers the petite 90cm, 100cm, or the ultimate cook's dream, our wider 110cm model. There is a wide range of contemporary and traditional designs, which complement a variety of kitchen designs and individual tastes.

Choosing your colour...

While Stainless Steel looks fantastic in many kitchens, it needn't be the only choice. Bring your kitchen alive by choosing a range cooker from an array of stunning colours.

*This guarantee does not affect your statutory rights.

**TURN THE
HUMBLE
KITCHEN
SINK INTO
SOMETHING
BEAUTIFUL**

SINKS

Granite or ceramic, rectangular or round, our long-lasting and beautifully designed sinks suit any kitchen setting, with plenty of dynamic extras that cover every multi-functional possibility.

SINKS

STAINLESS STEEL

All of our stainless steel sinks offer long-lasting corrosion-resistance. With an extensive choice of style and design, we have a solution for every kitchen.

Our stainless steel undermounts combine deep and spacious bowls with modern minimalist design, whilst our stainless steel featured sinks and flush insets provide unique and innovative answers to today's kitchen environment.

- Low scratch-resistance
- High thermal shock-resistance
- Medium stain-resistance
- High heat-resistance
- Medium impact-resistance

GRANITE

Granite sinks are hardwearing, durable and a great alternative to stainless steel.

Available in overmount and undermount, from compact to 1½ bowl, there's a style to suit your needs.

ROK is an advanced Granite material providing:

- High scratch-resistance
- High thermal shock-resistance
- High stain-resistance
- High heat-resistance
- High impact-resistance

CERAMIC

Manufactured from premium fireclay with a high gloss white finish, our ceramic sinks are individually handcrafted and smooth to the touch.

Our ceramic undermounts offer versatile styling for the modern kitchen environment. These are traditionally fitted with the rim of the sink sitting on top of the work surface, giving a clean, uncluttered look.

- High scratch-resistance
- Medium thermal shock-resistance
- High stain-resistance
- Medium heat-resistance
- Low impact-resistance

Undermounts

The edge lip of the sink is mounted below a solid surface countertop, so the sink effectively hangs underneath the counter, as opposed to sitting on top of it; this creates a continuous flow from countertop into sink.

NEW Evolution 200
Top of the range.
Large and busy
households
148603

The perfect answer for a tidy kitchen. Our food waste disposers are easy to install, fit neatly under most sinks and connect to standard plumbing with an electrical connection required.

Add value, quality and convenience to the modern kitchen and make your life easier. There's a model to suit every household.

Safe and easy to use
No blades or knives

Practical
No food scraps on the work surfaces

Convenient
The grind ring quietly works in seconds quickly eliminating food waste

Instant
Food waste ground into fine particles that are flushed away through standard plumbing

Hygienic
From chicken bones to fish - no more food waste in the rubbish bin

Easy to install
Fits most kitchen sinks

THE FEATURE PIECE. JUST ADD WATER

TAPS

Selecting the right taps is a crucial element when creating a stunning new kitchen. From designer waterfall spouts to ceramic traditional style handles, we have a tap in our range to suit your style. The type of taps you'll need is dependent on your type of water system pressure. For complete peace of mind all of our taps are guaranteed for 5 years, unless specified otherwise.

FRANKE

Guarantee*

5 years on Parts*
1 year on Finish**

Franke of Switzerland is the world's foremost manufacturer in the area of kitchen sinks and taps. They are renowned for their commitment to quality, always using the finest materials, as well as their unmistakable flair for design.

All Franke taps come with a 5 year (parts) and 1 year (finish) guarantee against manufacturing defects.

Franke Bern Tap

With a chrome finish, the Bern tap comes with a perlator which gives the water a champagne-like flow as it leaves the tap. Featuring quarter turn ceramic disc valves, the Bern comes with the standard Franke 5 Year Guarantee on internal parts and 1 Year Guarantee on the finish. Dimensions 268 x 242 x 244.

141375

Franke Wave Pull Out Tap

Featuring a chrome finish, pull-out nozzle for directional use and quarter turn ceramic disc valves, the Wave Pull Out tap comes with the standard Franke 5 Year Guarantee on internal parts and 1 Year Guarantee on the finish. Dimensions 136 x 230 x 195.

141374

Franke Mythos Tap

Suitable for use in low pressure systems, the Mythos features a chrome finish and quarter turn ceramic disc valves. It also comes with the standard Franke 5 Year Guarantee on internal parts and 1 Year Guarantee on the finish. Dimensions 365 x 185 x 260.

141376

We have a superb choice of state-of-the-art new sink designs which offer a wide range of durable materials, shapes and sizes. See page 148.

Franke Minerva Boiling Water Tap

No more need for kettles! The Franke Minerva 3-in-1 Tap delivers hot, cold and boiling water in an instant. Boiling water is held in the under-cabinet tank and is delivered in an instant, saving time and energy. The 4.5L tank fits beneath a standard 150mm plinth, freeing up cabinet space for every day storage needs.

- Virtually maintenance-free
 - 100°C boiling water delivery at point of use
 - 2 year warranty on vessel

Plinth Heater
A Wickes plinth heater replaces a radiator and can be installed into the 'dead' space under the kitchen units, giving you the opportunity to create space for additional storage units, extra work surface and more appliances. Heat outputs up to 2kW.
143846 Stainless Steel (central heating system)
143845 Stainless Steel (electric)
198389 Black (central heating system)
198390 Black (electric)

Our selection of plinth heaters are the perfect space-saving solution for keeping your kitchen warm, without the need for a bulky radiator. Installing a plinth heater means you can enjoy the benefit of additional space for cupboards and worktops. With an electric option available or a model that easily connects to your central heating system, they deliver ample heat to keep your kitchen warm.

LET THERE BE LIGHT

LIGHTING

Whether it's illuminating your shelving or highlighting your worktops, we have lighting solutions to complement whichever kitchen range you choose. Our lighting options will ensure your new kitchen is beautifully lit to show it off to its full potential.

LED LIGHTS

LED Lights are available in Warm, Cool and Natural white tones, allowing you to choose the right light for your kitchen style and colour. Warm is suitable for traditional style kitchens, giving a softer light with yellow tones. Cool gives a crisper white colour light, more suited to contemporary or high gloss kitchens. The natural white version is suitable for all kitchen styles.

Speaker Lighting

Experience the soaring highs and the rich stereo sound of JBL® combined with warm, dimmable lighting, without the fuss of speaker wires, power cords, or an independent remote control.

Sengled Pulse Horn Pendant Light Fitting with Pulse Flex LED Light Bulb and Wi-Fi JBL® Speaker

Sengled Pulse Flex is a multi-room audio system in the form of an LED light bulb enabling different lighting and playback settings for specific rooms within the home. Designed as a set the Pulse Horn is a custom-made pendant light fitting for the Pulse Flex.

Pack includes: 1 Pendant light fitting, 1 Pulse Flex light bulb with integrated JBL® speaker

- Simply screw into a E27 socket and integrate into the home network by Wi-Fi
- Control via the free Pulse Flex App available to download on iOS and Android devices
- Multiple users can play audio content from different sources at the same time
- Create custom lighting and audio around the home by combining up to 6 light bulbs per zone (bandwidth dependent)
- Supports the network standards DLNA® and AirPlay® which enables seamless interaction of personal music collections as well as popular streaming services, including Spotify and iTunes
- The Pulse Flex bulb is splashproof thanks to the IP54 standard, meaning it can be installed in the bathroom or on a patio
