

SOFTWARE UPGRADE **17.4**
PRICE BOOK
OCTOBER 2017

my.snapon.com

IT'S WHAT'S INSIDE THAT MATTERS.

SOFTWARE UPGRADE 17.4 HIGHLIGHTS

Exclusive access to SureTrack®, providing Real Fixes and verified parts replacement records from millions of successful repair orders**

High-performance software that boots up in less than 5 seconds, providing results in as little as 30 seconds**

Allows technicians to handle new OEM technologies like TPMS, Electric Steering, Safety Systems and Hybrid Power Systems

Techs can work on collision related systems like Lane Departure Warning System, Surround View Monitor, Park Assist and Electronic Parking Brake

Powerful bi-directional control features at techs' fingertips while viewing live data for "cause and effect" diagnostics

OEM-specific coverage for 100 vehicle systems and 49 OEMs (with European and Harley-Davidson coverage options) lets shops keep work in-house

Auto-ID means vehicles will identify themselves to the scan tool automatically, saving time and eliminating entry errors

One-Touch Code Scan assures a quick and complete health check in about 10 seconds, scanning all available systems for trouble codes in addition to letting technicians clear codes in all available systems with one simple touch, saving time and preventing comebacks

Convenient subscription-based access to the most comprehensive software available for Asian, European and domestic vehicles

Exclusive Fast-Track® Guided Component Tests** show how to test, where to connect and what results to look for

Comprehensive support programs, including a Customer Care hotline, extended warranty and online Training Solutions®

What's New for Edge Series Owners

Exclusive quick access to common procedures, like TSBs, new oil specs and service interval resets

Read the VIN automatically upon connection to the vehicle with Instant ID for 2005 and newer models

Vehicle System Report, 2005 and newer Vehicles; see results for all available systems plus Global OBD-II codes and Readiness Monitors for a more complete view of vehicle systems. The Vehicle System Report may be printed in an attractive format as a customer takeaway

	SOLUS Edge	MODIS Edge	VERUS Edge
Instant ID (most 2005 and Newer)	X	X	X
Oil Change Specs and Service Resets		X	X
Vehicle System Report		X	X
Exclusive TSBs, Campaigns and Recalls			X

NEW Sell Software Upgrades with CE+

Now you can sell both regular software upgrades and subscription enrollments using Chrome Express+. Enjoy the independence and freedom to have an assistant do the selling while you tend to other customers, plus save time and offer customers the ultimate convenience to download and install software 'over the air'.

For step-by-step instructions view the video in Chrome U at my.snapon.com

** Eligible platforms only. See the Interactive Vehicle Application Guide for details at diagnostics.snapon.com/17.4

Vehicle Software Coverage and Smart Vehicle Interface P/N EAK0347L01A List Price \$695

Offer diagnostics coverage for Harley-Davidson motorcycles compatible with Snap-on® diagnostic platforms with Upgrade 17.4. Platforms include ZEUS™ and VERUS®, VERDICT®, MODIS™, SOLUS™ and ETHOS® family platforms with current software.

Deliver comprehensive coverage for all major systems on 2000 and newer motorcycles, including: Engine, ABS, Hands-free, Security, Turn Signal, Hand Control Module, Body Controls, Instrument, Speedometer, Tachometer.

The Smart Vehicle Interface includes both Harley-Davidson adapters in one, and provides secure activation for scan tool software. A handy support hook helps keep the Smart Interface safe from hot pipes and moving parts.

Read and clear OEM-specific fault codes. Perform One-Touch Code Scan for all available systems. Display live data in digital and graphing views. Perform powerful functional tests.

Control vehicle systems and verify component operation with a wide range of functional tests, including: Throttle Position Test, Cruise Control Diagnostics, Idle Speed Adjust, Bleed Brakes, ABS Actuation, Fuel Pump, Turn Signals, Horn, Reset PIN, Reprogram Key Fobs, Alarm, Side Car Configuration, Dash Lights and LCD Segments, Speedometer, Tachometer and New Radio Configuration Coverage.

Customers Who Are Interested in This Coverage

- Motorcycle Repair Specialty Shops
- Technicians who do motorcycle side jobs
- Any technician who owns a Harley-Davidson

SureTrack®: The Fastest Path to Fixed.

Expert information integrated in ZEUS and SOLUS Edge and all eligible VERUS, VERDICT and MODIS family products, with the latest Snap-on Software Upgrade. Simply connect the diagnostic tool to Wi-Fi to get Real Fixes and verified parts replacement records harvested from millions of actual repair orders.

Plus, all current software-supported ZEUS and the VERUS, VERDICT, MODIS and SOLUS family platforms receive six months web-based vehicle content and SureTrack Community.

NOTE: Online access requires authorization code, which is included on the customer's software purchase receipt.

Expert information that can help any tech, regardless of experience level:

- Verified parts replacement records showing successful fixes
- Expert information hot-linked directly from diagnostic trouble codes
- Exclusive insight based on experience from millions of repair orders
- Vehicle-specific fixes based on symptoms, codes and mileage
- Definitive, reliable answers, validated by SureTrack expert technicians

EXTENDED WARRANTY PROTECTION

Snap-on offers peace of mind and protection for some of your most valued business assets - your Snap-on diagnostic tools. Snap-on is proud to offer this comprehensive and flexible extended warranty coverage for ZEUS™ and the VERUS®, MODIS™, SOLUS™, ETHOS® and VANTAGE® families of products for an additional 12, 24 or 36 months¹¹ —it's your customer's choice.

- Flexible financing available
- Protection against future parts and labor cost increases
- Increased resale value
- Can pay for itself in cost savings with just one repair
- Provides years of worry-free use
- 12, 24 or 36 month extended coverage¹¹
- Genuine Snap-on service parts and expert service technicians
- Complimentary shipping and handling

The Snap-on Extended Warranty Program is the most comprehensive extended warranty in the business that offers the same complete coverage as the original warranty. Whether customers choose 12, 24 or the 36 month extension, this comprehensive protection remains the same!

¹¹ Extended Warranty Program available with new diagnostic tool purchases as well as any diagnostic tool while under its original Snap-on warranty.

ON-VAN TROUBLESHOOTING, CHECK THESE QUICK TIPS
 BEFORE CALLING DIAGNOSTIC CUSTOMER CARE CENTER.

ZEUS, VERUS Edge, VERUS PRO, VERDICT

- 1. Communication or Software Challenge?** Disconnect the scanner or wireless scan module from vehicle and restart the diagnostic suite.
- 2. Other Communication Issues?** Try second Data Cable, OBD-II Adapter, if applicable. Verify the power LED on the Data Cable is illuminated (does not apply to VERUS). For ZEUS verify a green LED illuminates when you plug the compact scan module into the OBD connector of the vehicle. Verify vehicle has 12 volt and ground at the correct pin locations (pin #4 is ground and pin #16 is 12 volt on standard 16-pin OBD-II style connectors).
- 3. Coverage Verification?** Check the software version on the tool and refer to the Interactive Vehicle Application Guide to verify coverage support of vehicle and system.
- 4. General Performance Issues?** Check for viruses at Snap4help.com/virus (except VERUS Edge).
- 5. Wireless Scanner Calling for Keys?** Verify the wireless scan module is Bluetooth® paired to the scanner. On ZEUS a blue LED light will blink once the Compact Scan Module has connected to the platform.

MODIS Edge, MODIS Ultra, SOLUS Edge, SOLUS Ultra, ETHOS Edge, ETHOS PRO, ETHOS Tech, ETHOS Plus

- 1. Platform or Software Challenge?** Disconnect from vehicle, power off for at least 45 seconds and reboot the unit.
- 2. Other Communication Issues?** Try second Data Cable. Verify the power LED on the Data Cable is illuminated which indicates the vehicle has 12 volt and ground at the correct pin locations (pin #4 is ground and pin #16 is 12 volt on standard 16-pin OBD-II style connectors).
- 3. Coverage Verification?** Check the software version on the tool and refer to the Interactive Vehicle Application Guide to verify coverage support of vehicle and system.
- 4. Unit is Locked Up or Will Not Power Down?** Press and hold the power button until unit powers down, then reboot.
- 5. Correct Connection to Vehicle?** Verify Data Cable or vehicle-specific adapter being used match what is being requested by the software.

UPGRADE 17.4

The Most Powerful Diagnostics Today

For a complete run-down of available coverage, refer to the new Upgrade 17.4 Interactive Application Guide located at diagnostics.snapon.com/17.4

*Important Platform and Upgrade Reminder

VERDICT Scan Platform (EEMS326) does not include a meter

MICROSCAN III (EESC720)

already contains the ABS and enhanced engine codes, so an additional purchase of the upgrade (EESP717PRO) isn't necessary

Prices and availability subject to change without notice. List prices and weekly payments do not include Sales Tax
