EMBLEMHEALTH MEDICARE PPO NETWORK PROVIDER DIRECTORY

Section 1 – Introduction

This directory provides a list of our plan’s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

The “network providers” listed in this directory have agreed to provide you with your health care and vision. You may go to any of our network providers listed in this directory. If you have been going to one network provider, you are not required to continue going to that same provider. You may get covered services from non-network providers. Please check your EOC for more details about your plan benefits.

There may be times when you get a bill from a provider for the full cost of medical care you have received. In many cases, you should send this bill to us instead of paying it. We will look at the bill and decide whether the services should be covered. If we decide they should be covered, we will pay the provider directly. You may get services from out-of-area providers when providers of specialized services are not available in the service area, including kidney dialysis services for End Stage Renal Disease enrollees who have traveled outside the plan’s service area or cannot access qualified dialysis providers within the service area.” after “There may be times when you get a bill from a provider.”

You may also get services from out-of-area providers in situations where emergency or urgently needed care is needed. Our plan covers emergency and urgently needed care anywhere in the world. If you experience a medical emergency, call for help or go to the nearest emergency room or hospital. Call for an ambulance if you need it. You do not need to get approval or a referral first. After the emergency is over, you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our plan. If your emergency care is provided by out-of-network providers, we will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow.

With the exception of emergencies or urgent care, it may cost more to get care from out-of-network providers.

QUEST LABS

Quest Diagnostics is your primary laboratory provider. To help you avoid out-of-pocket costs, you and your doctor should use Quest Diagnostics.

Using Quest is particularly important if your plan does not offer out-of-network benefits, as members will be subject to additional out of pocket costs if their tests go to a different laboratory. Please remind your doctor of this topic when laboratory testing is prescribed.

Quest Diagnostics is a national laboratory with extensive coverage in our service area. To schedule an appointment or find a Quest patient service center near you, please visit **www.questdiagnostics.com/appointment** or use Quest's interactive voice response system at **1-888-277-8772**. To speak with a Quest representative, call **1-866-697-8378**. All locations participate in your plan.
