1 Logging in to the Services Portal

The AudioCodes website to log in to the Services Portal is located at <https://services.audiocodes.com/>.

Enter your username and password.

Log in Screen

If you forgot your password, click the **Forgot Password?** link and a new password will be sent to your email address.

If you are a new user, click on the **Create User Account** link. This will take you to the [Services Portal Account Registration](#) page. Please fill in the requested information and you will receive the login credentials along with the instructions to login to our Services Portal.

Note: This portal is compatible with most browsers including Chrome Version 49 and later, Firefox Version 45 and later and Internet Explorer Version 11 and later.

2 Viewing the Services Portal Home Page

The Services Portal Home page provides the following accessible tabs on the top toolbar as seen in the figure below.

Technical Services Portal Home Page Screen

The screenshot shows the 'Ticket History' section of the Services Portal. It includes a navigation bar with tabs for 'Ticket History', 'New Ticket', 'Tools', 'Software Downloads', and 'Technical Documentation'. Below the navigation bar, there are filters for Status, Priority, Type, and Customer, along with a search bar and a checkbox for 'Tickets created by me'. The main content area displays a table of tickets with columns for Ticket#, Customer, Type, Subject, Priority, Status, Assignee, and Updated. The table shows 6 results, with the first row being a ticket with ID 170222-000006, status 'Updated by Customer', and updated 'Yesterday'.

Ticket#	Customer	Type	Subject	Priority	Status	Assignee	Updated
170222-000006	Audiocodes TSP	Technical Assistance	Issue with MP-202 and transfers	Low	Updated by Customer		Yesterday
170221-000006	Audiocodes TSP	Technical Assistance	Calls Failed on M4K with new sip trunk	High	Restored	Keith Dolby	Yesterday
170220-000000	Audiocodes TSP	Repair (RMA)	M2K Power Supply Failure	Medium	Closed	Keith Dolby	21-Feb-2017
170220-000001	Audiocodes TSP	Technical Assistance	M4K capacity question of media channels versus DSP	Medium	In Process	Keith Dolby	20-Feb-2017
170213-000040	Audiocodes TSP	Technical Assistance	What is the maximum software version the MP-114 supports	Medium	New		20-Feb-2017
170213-000041	Audiocodes TSP	Technical Assistance	M3K is not in HA	Medium	In Process	Keith Dolby	20-Feb-2017

2.1 Ticket History

Upon login, the Home page appears on the screen. All open and closed tickets are listed and can be sorted and searched.

2.2 New Ticket

Select this tab to create a new ticket.

2.3 Tools

Select this tab to access self-service tools like:

- Getting Serial Number entitlement checks
- Getting a copy of your Support Service certificate
- Verifying Contract Details
- Re-generating Feature Keys
- Requesting transfer of Feature Keys

2.4 Software Downloads

Select this tab to display the Software Downloads page of the Services Portal, where you are able to search for specific software versions by products.

2.5 Technical Documentation

Select this tab to view the Technical Documentation page on the AudioCodes website. You will need separate login credentials to access the documentation.

2.6 User Profile

Select this tab to view your profile which includes information that can be modified.

3 Viewing Ticket History

Ticket#	Customer	Type	Subject	Priority	Status	Assignee	Updated
170222-000006	Audiocodes TSP	Technical Assistance	Issue with MP-202 and transfers	Low	Updated by Customer		Yesterday
170221-000006	Audiocodes TSP	Technical Assistance	Calls Failed on M4K with new sip trunk	High	Restored	Keith Dolby	Yesterday
170220-000000	Audiocodes TSP	Repair (RMA)	M2K Power Supply Failure	Medium	Closed	Keith Dolby	21-Feb-2017
170220-000001	Audiocodes TSP	Technical Assistance	M4K capacity question of media channels versus DSP	Medium	In Process	Keith Dolby	20-Feb-2017
170213-000040	Audiocodes TSP	Technical Assistance	What is the maximum software version the MP-114 supports	Medium	New		20-Feb-2017
170213-000041	Audiocodes TSP	Technical Assistance	M3K is not in HA	Medium	In Process	Keith Dolby	20-Feb-2017

The Ticket History page provides a list of all the tickets opened by your organization as shown in the figure above. You can sort the tickets by specific fields:

- **Ticket number** (yymmdd-xxxxxx) (*sortable field*)
- **Customer** - Typically identifies the name of your organization. If you are a Channel Partner or Service Provider, you may see tickets for all customers with whom you are affiliated with and provide support to.
- **Type** – Identifies the type of ticket:
 - Technical Assistance
 - Remote Monitor
 - Repair (RMA)
 - Advanced Hardware Replacement (AHR)
 - Dead on Arrival(DOA)
 - Managed Spares(MGSP)
 - On Site Spare Unit(OSSU)
- **Subject** – Provides a short description of the reported issue
- **Priority** – Indicates the priority of the issue
- **Status** – Identifies the current status of the ticket. *Some of the most commonly used statuses are listed below:*
 - **Awaiting Customer Info:** Additional information is required from you to advance to the next level of troubleshooting.
 - **Waiting for Fixed Version:** A solution has been identified and a software release is in process.
 - **Closed:** The issue has been fully resolved and the ticket is closed.

- **In Process:** The AudioCodes support engineer assigned to the ticket is reviewing the details of the ticket.
 - **In Process_v:** The ticket has been sent to R&D for further evaluation.
 - **Patch in QA:** R&D has fixed the issue and a patch will be released upon completion of successful QA testing.
 - **Restored:** Ticket state for Urgent tickets that specify when service has been restored.
 - **Updated by Customer:** Status following a ticket update from you through the service portal or email.
 - **Updated by Support Engineer:** Status following a ticket update from the AudioCodes Support Engineer via email.
 - **Awaiting Customer Approval:** A solution/response has been reached and the ticket can be closed.
- **Assignee:** Identifies the assigned AudioCodes engineer for this ticket.
 - **Updated:** Identifies the date the ticket was last updated.

Note: Please be advised that all times are displayed in US Eastern Time. Currently we do not have an option to display the time according to the various global time zones.

The following features are also available on the Ticket History page:

- **Search:** Ticket History can be searched by Keyword, Status, Customer, Priority, and Type, in order to find specific tickets for customers that have extensive ticket history. You can also search for the tickets that you have created.

Search Bar

Ticket#	Customer	Type	Subject	Priority	Status	Assignee	Updated
170315-000047	AudioCodes USA Inc	Technical Assistance	Technical Assistance Test#1	High	Updated by Customer		Today, 12:29

- **Export:** The displayed ticket history can be exported into a comma-separated (CSV) file spreadsheet for further customer exploration and reports.

Export

4 Creating New Tickets – Technical Assistance

Create a **Technical Assistance** ticket for device operation, troubleshooting and software related questions and issues.

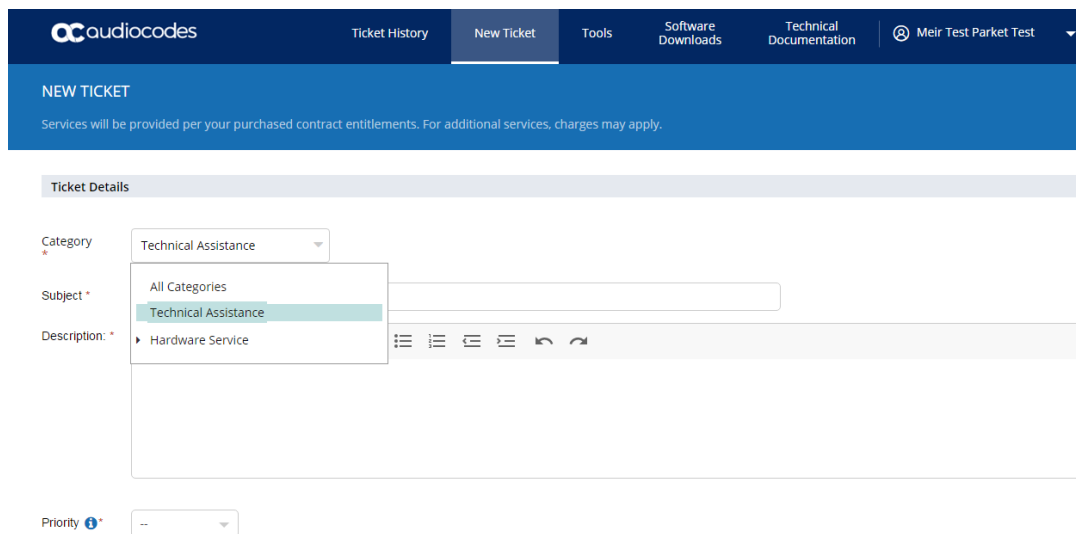

To create a new ticket, click on the **New Ticket** tab from the Home page; the following page appears.

4.1 New Technical Assistance Ticket Details

The following fields appear on the New Ticket page.

- **Category:** From the drop-down list, select **Technical Assistance**.

- **Subject:** Enter a short description of the reported issue.
- **Description:** Use this field to accurately describe the problem summary.

Provide Call Flows, other devices, and all relevant information to help the assigned engineer understand the issue and assist with resolving the issue.

- **Priority:** Choose from the following priorities.
 - **Urgent:**
 - ◆ System is down
 - ◆ Service is unavailable or severely degraded
 - ◆ No work around exists
 - **High:**
 - ◆ Service is affected
 - ◆ Partial outage
 - ◆ Ability to administer the product is lost
 - ◆ No workaround exists
 - **Medium:**
 - ◆ Calls are processing but there is an issue with a specific feature or function
 - ◆ Ability to administer the product is affected
 - ◆ Intermittent issue
 - ◆ Workaround exists
 - **Low**
 - ◆ Service and/or performance is unaffected
 - ◆ General question, information, documentation, or firmware request

4.2 Product Details

You can either enter the Serial Number or select the Product Name from the list.

- By Serial Number:** Provide the Serial Number/Machine ID for your device when opening the ticket as shown in the figure below. This enables us to validate your support entitlement for this device. The support coverage for the specific Serial Number will also be displayed on screen.

Serial Number

Product Details

By serial number / product key (recommended)
 By product name

Serial Number / Product Key:

Product:

Software Version:

- By Product Name:** Use this option if you do not know the Serial Number of the device. Without the Serial Number or Service Contract number, support may be limited, but please provide the product details as shown in the figure below. You will be able to submit a ticket without entering the **Service Contract Number** if you do not have the Service Order number available at the time of submitting the ticket.

4.3 Contact Details

Your login name and contact email should appear here. You can also add additional contacts from the existing customer database, or a new contact on a one time basis for this ticket.

<p>Contact Details</p> <p>Primary: Me (Keith Dolby)</p> <p>ADD / EDIT CONTACTS</p>	<p>Additional Information (Optional)</p> <p>Customer Reference Ticket No. <input type="text"/></p> <p>Site <input type="text"/></p>
---	--

■ **Additional Information**

- **Customer Reference Ticket No:** You may enter your internal ticket reference number.
- **Site:** You may enter a site name or other site information for reference.

- **Next:** This will move the ticket to the next page where you can add attachments before submitting the ticket.

NEW TICKET
 Services will be provided per your purchased contract entitlements. For additional services, charges may apply.

4.4 Attachments

The Attachments screen will appear as shown in the figure below.

Attachments - 1

Adding the **syslog file** or a **network diagram** can help us solve the problem faster

■ **Files and Folder Operation**

- **Share:** Creates a public link so public network users can see the file.
- **Upload:** You can browse a folder and select files to be uploaded.
- **Create:** You can create subfolders to help isolate new captures in new folders for different dates.
- **Drag and Drop:** You can drag and drop from an existing window into this space to bring files in (.exe files will not be loaded, nor will they be accepted if nested in known file types such as .zip/.rar/and .iso).

Attachments - 2

Adding the **syslog file** or a **network diagram** can help us solve the problem faster

SUBMIT

Ticket number #170220-000001

- **Submit:** This will end the new ticket creation process and place all applicable files in the ticket. An email will be sent to all contacts on the ticket with the Ticket Number. The current ticket status can be monitored under the Ticket History/default screen.

5 Creating New Tickets – Hardware Service

Create a **Hardware Service** ticket for suspected hardware faults.

From the Home page, click on the New Ticket tab and then Select the relevant Hardware Service ticket you want to create.

5.1 New Hardware Service Ticket Details

The following fields appear on the New Ticket page.

- **Category:** From the drop-down list, select **Hardware Service**.

Enter the relevant sub-level:

- **Repair (RMA):** Devices that need to be returned to AudioCodes for repair and then returned back to customer after repair. No replacement.
 - **Advanced Hardware Replacement (AHR):** Devices that have a contract for replacement prior to return.
 - **Dead On Arrival (DOA):** New devices that arrived on the site unworkable and need replacement.
 - **Managed Spares (MGSP):** Devices that have managed spares services requiring replacement on site.
 - **On Site Spare Unit (OSSU):** Devices that must be replaced as a spare after the main device has had a failure.
- **Subject:** Short description of the reported issue.
 - **Description:** Use this field to accurately describe the type of Hardware failure. Provide details on the LED status, symptoms of HW failure and all relevant information to help the assigned engineer understand the issue and assist with processing the hardware service.

- **Priority:** Choose from the following priorities.
 - **Urgent:**
 - ◆ System is down
 - ◆ Service is unavailable or severely degraded
 - ◆ No work around exists
 - **High:**
 - ◆ Service is affected
 - ◆ Partial outage
 - ◆ Ability to administer the product is lost
 - ◆ No workaround exists
 - **Medium:**
 - ◆ Calls are processing but an issue exists with a specific feature or function
 - ◆ Ability to administer the product is affected
 - ◆ Intermittent issue
 - ◆ Workaround exists
 - **Low:**
 - ◆ Service and/or Performance is unaffected
 - ◆ General question, information, documentation, or firmware request

5.2 Product Details

- Serial Numbers:** Please enter the Serial Number of your device in this box and click “ADD”. This adds the Serial Number to the list of devices you would like to process the RMA, when opening the ticket. You can add up to 10 Serial Numbers separated by a comma (,) between the two serial numbers.

Serial Number - 1

Product Details

Serial Numbers:

DT2102368,D05718432,DT2662604

The Support coverage for each Serial Number will also be displayed on screen after you click “ADD”.

Serial Number - 2

Product Details

Serial Numbers:

Separated by commas, limited to 10 Serial Numbers.

Enter problem description per device if processing RMA for multiple devices

Assembly Serial Number	Serial Number	Product	Problem Description	Coverage
ACF0839187	D05718432	Mediant 1000	Entire Chassis replacement	Advanced HW Replacement Program 30-Dec-2017 Delete
ACF0839187	DT2102368	Mediant 1000	Replace T1 Module	Advanced HW Replacement Program 30-Dec-2017 Delete

- **Submit:** This will end the new ticket creation process and place all applicable files in the ticket. An email will be sent to all contacts on the ticket with the Ticket Number. The current ticket status can be monitored under the Ticket History/default screen.

6 Updating Existing Tickets

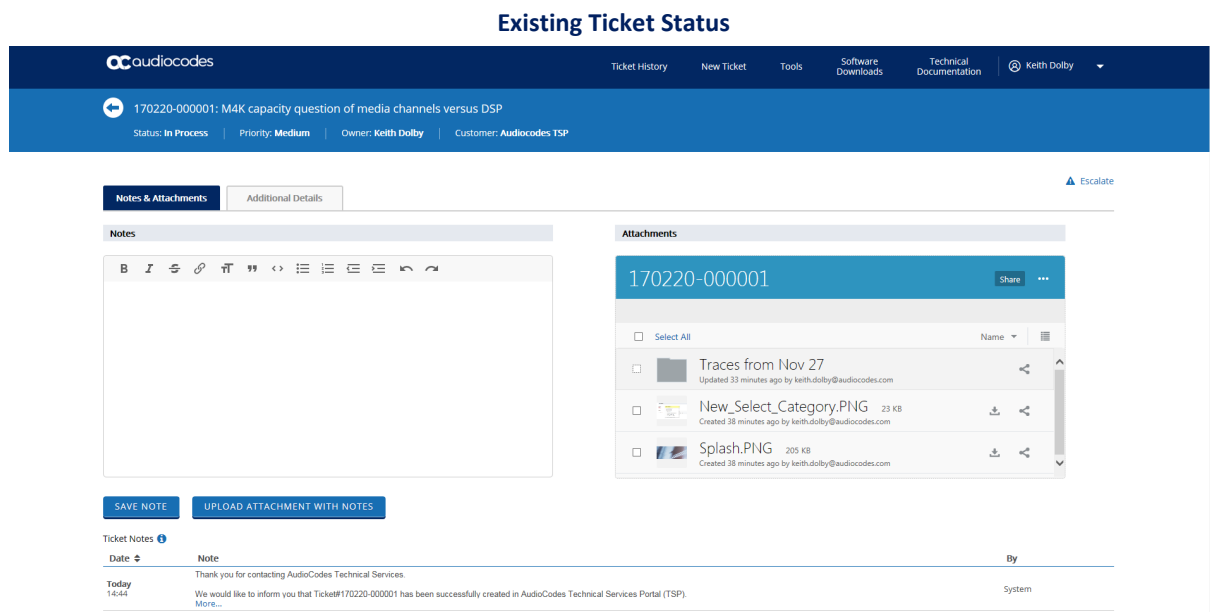

Existing tickets can be updated by email or by logging in to the Services portal.

- **Update via Email**

Emails from the Services Portal can be replied to with new attachments and updates. These updates will be included in the ticket. Please be mindful not to attach .exe files as these will not be processed.

- **Update via Services Portal**

Click on a ticket you want to update from the list on your Home screen, and the following page will be displayed.

The **Notes & Attachments** tab allows you to add new notes to the ticket as well as modify or add new attachments to the ticket.

- **Additional Details**

This tab provides basic information regarding the ticket. From this page, you can modify the Contact Details and update the Additional Information fields. Once finished, click **UPDATE**.

[UPDATE](#)

Escalate

The **Escalate** button is accessible from the Update Ticket Notes and Attachments page as well as the Additional Details page. You can use this to escalate a ticket to higher priority.

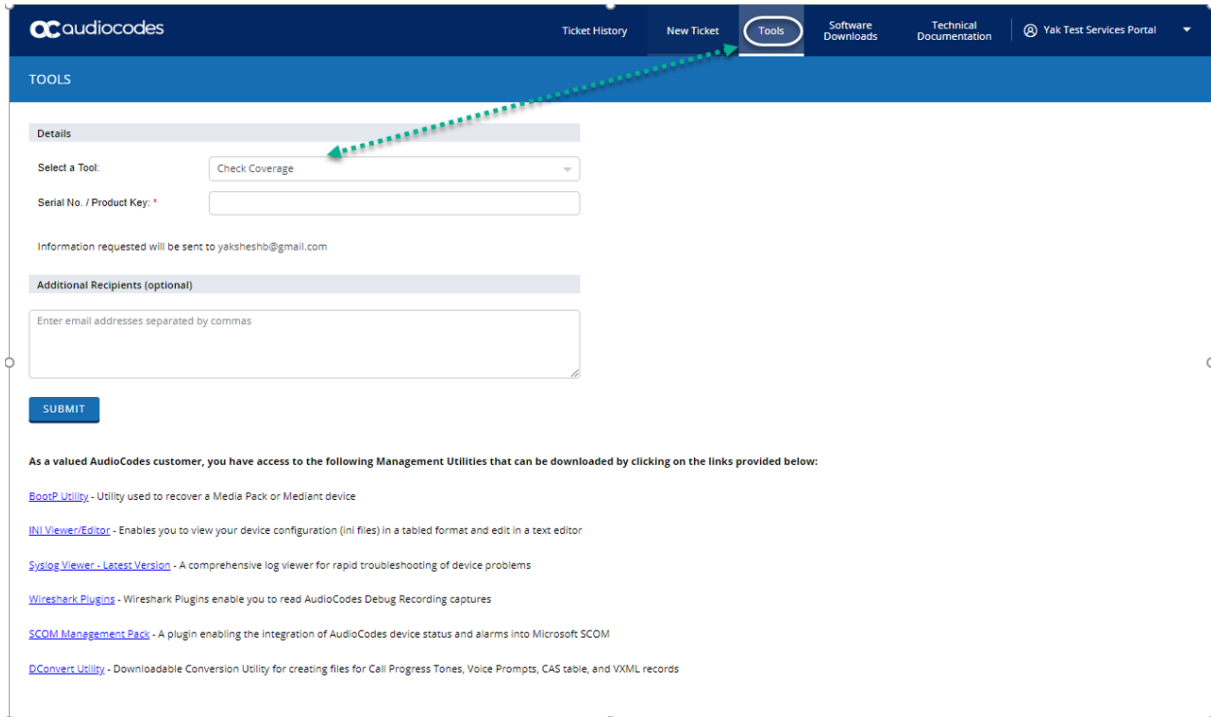

The screenshot shows the AudioCodes Service Portal interface. At the top, the user is logged in as 'Me (Keith Dolby)'. The current ticket is 170315-000047: Technical Assistance Test#1, with a status of 'Updated by Customer', priority of 'High', and owner of 'AudioCodes Services Portal'. The 'Escalate' button is highlighted in a purple circle in the top right corner of the 'Additional Details' tab.

A modal dialog titled 'Escalate' is open, prompting the user to specify the reason for escalation. The dialog contains the following text: 'Please specify below the reason for your escalation. In case of an outage, please also call the AudioCodes Support Helpdesk phone in addition to the escalation.' Below this is a text input field with the placeholder text 'Enter the reason for escalation here and hit submit.' and two buttons: 'SUBMIT' and 'Cancel'.

The background shows the 'Notes' section with a rich text editor and a list of ticket notes. The notes include: 'Attachments is not available. Please look into it and advise when fixed', 'Thank you for contacting AudioCodes Technical Services.', 'We would like to inform you that Ticket#170315-000047 has been successfully created in AudioCodes Service Portal.', and 'This is a ticket to report one way audio on M1K'.

7 Using Tools on Services Portal

The following Self Service Tools are currently available on our Services Portal.

7.1 Check Coverage

You can check the support coverage of your device using the Serial Number or Product Key. Enter the Serial Number or Product Key as shown below, and an email will be sent to the email address linked to your User profile. You can manually add additional recipients to whom you would like to send this information.

TOOLS

Details

Select a Tool: Check Coverage

Serial No. / Product Key: * 123456

Information requested will be sent to yakshesh.bhimjiani@audiocodes.com

Additional Recipients (optional)

Enter email addresses separated by commas

SUBMIT

7.2 Get Certificate for Support Eligibility

Send a copy of your Certificate of AudioCodes Support Services Eligibility by entering the Contract number (e.g., 800xxxx, 700xxxx, 500xxxx) to the email address associated with your User profile. You can manually add additional recipients to whom you would like to send this information.

Once finished, click **SUBMIT**.

Ticket History

TOOLS

Details

Select a Tool:

SUBMIT

8 Downloading Software

Select the Software Downloads tab to download software for the product(s) you own. You can search for software by keyword (Example: IPP, Mediant 1000, SBC etc.,) or search by Product, as shown below.

9 Subscription to Updates

You can subscribe to notifications every time the Software Updates page is updated with new information for the products you are interested in, by selecting “Subscribe for Updates” at the bottom of the page. You have to do this for individual products.

The screenshot shows the AudioCodes website interface. At the top, there is a navigation bar with the AudioCodes logo and several menu items: Ticket History, New Ticket, Tools, Software Downloads, and Technical Documentation. On the right side of the navigation bar, there is a user profile section with options for 'Yak Test Services Portal', 'My Profile', and 'Logout'. Below the navigation bar, the main content area displays the '440HD IP PHONE' product page. The page includes a title, a brief description, and an image of the phone. There are several sections of links: 'Product Documentation' with a link to '400HD IP Phone Series Documentation', 'Latest Release Notes' with links for '400HD IP Phone Series for Microsoft Skype for Business' and '400HD Generic IP Phone Series', 'Software Downloads' with links for 'Latest image files for Microsoft Skype for Business', 'Latest generic image files (non-SFB)', 'Latest Version for BroadSoft', and 'Version 1.0.20 - for AudioCodes Better2Gether'. At the bottom of the page, there is a 'Subscribe for Updates' button and a 'Print' button. A green arrow originates from the 'Subscribe for Updates' button and points to the 'Software Downloads' menu item in the top navigation bar.

10 Updating My Profile

You can update your profile information by selecting the My Profile tab. You will not be able to update the email address tied to your account as it is associated with your organization. Please contact AudioCodes if you need to change your email address.

The screenshot shows the 'MY PROFILE' page with the following details:

- Contact Information**
- Email Address: yakshesh.bhimjani@audiocodes.com
- Company: AudioCodes USA Inc
- First Name: AudioCodes
- Last Name: Services Portal
- Mobile Phone: 777-555-1234
- Buttons: Change your password, Manage Updates Subscriptions, SAVE CHANGES

You can manage subscriptions to notification on software updates by selecting the “Manage Updates Subscriptions” option, as shown below.

The screenshot shows the 'MY PROFILE' page with the following details:

- Contact Information**
- Email Address: yaksheshb@gmail.com
- Company: AudioCodes Test
- First Name: Yak Test
- Last Name: Services Portal
- Contact Phone: 201-618-7637
- Buttons: Change your password, Manage Updates Subscriptions, SAVE CHANGES

A red arrow points from the circled 'Manage Updates Subscriptions' link to the 'MANAGE UPDATES SUBSCRIPTIONS' button.
