- **TEMPORARY DEALER SURCHARGES**

Q: Why am I being charged more than MSRP?

A: Kawasaki has temporarily implemented surcharges to dealers to combat the current global economic state in regards to shipping costs. These surcharges are subject to change and will be in effect until the supply chain has stabilized.

- **PROMOTIONS & GIFT CARDS**

Q: How do I find out about any current Kawasaki sales and promotions?

A: All finance and sales promotions can be found under the [**"promotions" section of kawasaki.com**](#).

Q: I am to receive a gift card/rebate or promotional item with the purchase of my Kawasaki. When will it arrive in the mail?

A: When a promotional item is offered as part of the purchase of a Kawasaki vehicle, all Kawasaki dealers are notified of the details of each promotion.

Check with your sales person. Your purchase must be registered with Kawasaki before promotion eligibility can be verified.

Some promotions require that the dealer submit to Kawasaki a claim form signed by the purchaser before a promotional item is mailed. If required, make sure you have signed the claim form, and that your dealer has submitted it to Kawasaki. Promotional items are usually mailed to the consumer within 2-4 weeks of our receipt of the necessary documents.

Some promotions are given out by participating dealers at the time of purchase. Always check with your sales person first for information on promotional offers.

Q: Can I use the promotional gift card which I got when I purchased my vehicle as payment on Kawasaki.com?

A: Yes. Promotional gift cards displaying the Kawasaki logo can be used for purchasing manuals at Kawasaki.com.

- **PURCHASING REPLACEMENT PARTS**

Q: Can I buy parts directly from Kawasaki?

A: Sorry, but the only way to purchase genuine Kawasaki parts is through your authorized Kawasaki dealer.

Q: How do I find out if a part from another model will fit my Kawasaki product?

A: We do not test and do not recommend non-stock components.

Q: How can I find a part that's been discontinued?

A: You can ask your dealer to place a parts locator ad through the Kawasaki computer system to see if any other dealers have it.

Q: What tires do you recommend other than stock ones?

A: We recommend using only those tires listed in the owner's manual.

Q: How do I get a spare key for my 1980 or later year model Kawasaki vehicle?

A: You can obtain a spare key through your Kawasaki dealer by using the key code. If you do not have the key code, contact your local Kawasaki dealer to find out what options are available.

Q: How do I get a key code?

A: The only place that the key code can be found is on the original key or key tag. We recommend contacting the original selling dealer, since many dealers record this information when preparing new Kawasaki products for sale. Unfortunately we have no way of providing a key code corresponding to your V.I.N. number.

Q: Where is the VIN located on my Kawasaki Motorcycle, ATV, or MULE®?

On all motorcycles it is stamped on the side of the steering head. On street-legal motorcycles, the VIN also appears on the Safety Certification Label affixed to, or near, the side of the steering head.

On ATV's it is stamped on the lower frame tube, to the left of the engine.

On Teryx® Side x Side vehicles, it is stamped on the frame tube behind the right front tire.

On MULE® Side x Side vehicles, look for a plate welded to the frame at or near the front of the vehicle. On some MULE models, the VIN is located on the frame, just below the front of the seat.

Q: How do I obtain a new vehicle identification number (VIN) for the new frame on my Kawasaki motorcycle/ATV?

You may also contact Consumer Services to see if a factory repair has been completed.

Q: Can I take my Kawasaki product to any authorized Kawasaki dealer for recall/FDM work?

A: Recall bulletins are of the highest priority and must be acted upon immediately to ensure your safety and comply with requirements of the National Traffic and Motor Vehicle Safety Act, Consumer Product Safety Act, or United States Coast Guard.
