

2021 CLIENT ANNOUNCEMENTS

We want to maximize value for you by linking our new platform to product sales.

Together, we can bring much more value by engaging customers in their end-to-end needs with concepts like 'Work Redefined' that deliver solutions from device to cloud – no matter how and where your customers work.

With our innovative new products to market, we want to enable you to start a differentiated customer conversation that links regular client sales with opportunities across the entire Dell Technologies portfolio.

Dell Technologies launched a new platform driven by innovation and partnership, around the idea that **we'll stop at nothing** to bring together technology and our global team of over 150,000 people.

Our research shows that customers already know and trust Dell Technologies for computers, and this is our opportunity to show that we can be their essential innovative partner for all of their technology needs.

And when it comes to technology and partnership, **we'll stop at nothing**.

OUR NEW PRODUCTS ENABLE YOU TO:

Help customers work, collaborate and learn from anywhere.

Win more sales with the intelligent Dell Optimizer, a key differentiator across our entire commercial client portfolio.

Drive volume and expand it to opportunities in the datacenter.

Deliver all of the above with the flexible payment options of **Dell Technologies on Demand**.

Technology brings us together like never before.

Whether your customers are back in the office or still working remotely, technology has shown that there's almost nothing that can't be done virtually.

REDEFINE TEAMWORK FOR ON-SITE CUSTOMERS WITH DELL MEETING SPACE SOLUTIONS.

Dell Meeting Space Solutions give you the opportunity to provide your on-site customers with a perfect collaboration package for their meeting rooms. Empower them with a large multi-touch monitor, an OptiPlex compute module, a camera and control tablet, all enabling collaboration with colleagues, suppliers and remote customers through Microsoft Teams Rooms.

TRANSFORM VIRTUAL MEETING EXPERIENCES FOR OFF-SITE CUSTOMERS WITH DELL VIDEO CONFERENCING MONITORS.

Simplify virtual meetings for off-site customers by pairing the Dell 34" Curved Video Conferencing Monitor, the world's first video conferencing monitor certified for Microsoft Teams*, with Dell Latitude 5520 and recommended peripherals with world-class collaboration features.

TEAM UP. SEAMLESSLY.

Dell Video Conferencing Monitors are designed for Microsoft Teams and bring a new layer of connectivity to your customers, giving them ways of interacting and engaging as if they were in the same room. From scheduled meetings to 'water cooler moments' and catch-ups – all can be delivered through Microsoft Teams to enable inclusive and people-centric collaboration experiences.

† Eligibility and conditions may apply for DTPP incentives; refer to your Solution Provider Business Rules and/or [Benefits & Requirements](#) document for additional information.

* Based on Dell analysis of publicly available data of competitive products, October 2020.

Differentiating with the intelligent Dell Optimizer.

Dell Optimizer is our unique optimization software that uses built-in artificial intelligence and machine learning to learn how users interact with their system.

Based on what it learns, it will work in the background – invisibly and on the user's behalf – to make meaningful adjustments, providing a more seamless end user experience.

MADE FOR THE FUTURE OF COLLABORATION

Video conferencing and collaboration will never be the same with these unique features of Dell Optimizer:

Fewer interruptions on conference calls with new network throughput optimization.

Intelligent Audio reduces unexpected noise and enhances the quality of voice, allowing customers to stay off mute and work as if they're in the same room.

An **automatic prioritization of network traffic** for when a conferencing app is detected.

Latitude 5520. There's nothing mainstream about it.

Help customers work from anywhere faster and more effectively with the built-in AI of Dell Optimizer on the first 15.6" laptop to use bioplastics from trees in its design.¹

The **feature-rich** and eco-friendly Dell Latitude 5520 offers the perfect balance of performance, scalability and mobility, delivering the usability needed for all day work and collaboration. The AI-based Dell Optimizer works seamlessly in the background to help customers deliver amazing results, no matter where work takes them.

¹ Based on Dell analysis, September 2020. 21% bioplastics in LCD coverlid.

OTHER FEATURES OF DELL LATITUDE 5520 INCLUDE:

15.6" design offers additional screen space to help customers get more done.

11th Gen Intel® Core™ processors.

Brighter FHD and new 4K screen featuring ComfortView Plus.

Touchless wake & lock **ExpressSign-in**.

Up to 80% in just an hour with **ExpressCharge**.²

ExpressConnect directs bandwidth to conferencing applications and joins the best access points.

Faster application performance with **ExpressResponse**.

² Within Dell Power Manager software, selecting ExpressCharge can recharge system battery from 0% up to 80% within 60 minutes. After charging has reached 80% capacity, charging speed will return to normal speed. Recommended for use with the provided Dell power adapter; not recommended with a smaller capacity power adapter. Charging time may vary +/-10% due to system tolerance.

Sustainability is at the heart of everything we do.

At Dell Technologies, we believe our boldest next sustainability step is ensuring we take back as much as we produce, while dramatically ramping up our use of recycled and renewable materials.

By 2030, for every product a customer buys, our goal is to reuse or recycle an equivalent product. 100% of our packaging will be made from recycled or renewable material, and more than half of our product content will be made from recycled or renewable material.³

³ <https://corporate.delltechnologies.com/en-gb/social-impact/reporting/2030-goals.htm>

⁴ Based on Dell analysis, September 2020. 21% bioplastics in LCD coverlid.

We will continue to build on our sustainability story and drive innovation. For our 2021 launches, we've used bioplastics from trees in the coverlid of the new Dell Latitude 5000 Series⁴ to create a lower footprint during manufacturing.

REDUCED

9.73 million kg CO² emissions reduced
= 24.2 million miles driven.*

SAVED

Energy saved to power 5,564 homes for a year.*

CONSERVED

Water conserved to fill 225 Olympic-size pools.*

* Estimates based on data derived from Life Cycle Assessments conducted in accordance to ISO 14040:2006 and ISO 14044:2006. The system boundary of the LCA is Cradle-to-Gate, with the Gate of the analysis being the production of the mechanical part. Included in the analysis where the polymer production, injection molding process, paint manufacturing and painting process, Sept. 2020. A virtual hands-on experience.

Our Virtual Tech Rally is a unique show-and-tell presentation of our new products – for you and your customers.

There really isn't much that technology can't make happen.

Our Virtual Tech Rally, facilitated by our product group, gives you virtual 'hands-on' experience of our new products. To save time and environmental impact, we encourage you to explore our new products in this virtual environment where the products are available for you to see and interact with. They appear in our Virtual Tech Rally in a display format or in a lifestyle setting. From here, you can pick them up and rotate them to explore all their design features, while an on-hand expert will answer any questions you may have.

Increase agility with flexible IT.

Your customers are facing a unique challenge: IT is becoming more essential for them to drive business growth, yet their budgets are being tightened at the same time.

Dell Technologies on Demand provides more choice, flexibility, and predictability, so your customers can progress the projects they need to drive their business. We can offer flexible payment solutions spanning our innovative end-to-end portfolio, including support and deployment services to help you deliver consumption-based and as-a-service delivery models ideally suited for the way technology infrastructure is consumed in today's on-demand economy.

Partners in our ecosystem are already seeing two key advantages from using Dell Technologies on Demand as part of their sales cycle:

It shortens the sales cycles.

Enabling customers with flexible financing means that they don't need to wait for budget cycles and can progress deals to drive their business growth now.

It creates larger deals.

Customers who leverage financing are able to get more done when the financial obstacles are removed, enabling them to complete.
