

MULTI-CONTROLLER

MODEL SC-F70

MULTI-PURPOSE CONTROLLER WITH MC-COS CONTROL FEATURE

Features

Compact multi-purpose controller for a wide range of operations. Ideal for equipment automation and systems creation in many fields.

Allows pressure or temperature control when combined with automatic control valve [MC-COS (R)].
Allows PID action with auto-tuning when combined with pneumatic control valves.

Allows dual position (ON-OFF) control when combined with ON-OFF valve.

1. High measurement accuracy of 0.1% F.S.
2. Quick and easy to determine PID setting using auto-tune function for excellent stability and responsiveness. Overshoot prevention function.
3. Eight target settings can be stored in memory.
4. Up to 4 contacts for alarm output and 3 contacts for transmission output.
5. Measurement input area can accommodate various input signals.
6. Voltage: 100V - 240V AC.
7. Conforms with CE marking.
