# SMARTKEY SECURITY™

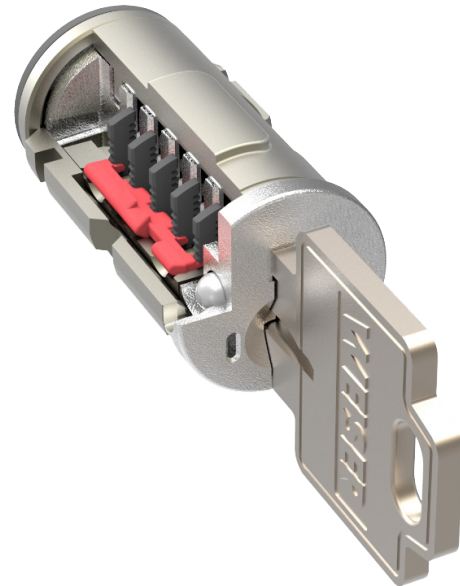

## THE ONLY LOCK YOU CAN RE-KEY IN SECONDS!

### What is SmartKey?

SmartKey™ is a technology that allows you to re-key a lock in just seconds while improving security without removing the lock from the door.

### How Does it Work?

SmartKey™ has a patented side locking bar technology that replaces the traditional pin and tumbler design. This new design includes BumpGuard™ for improved security against lock-bumping, an attack technique that can defeat traditional pin and tumbler locks.

## SUPERIOR SECURITY

It's why we buy locks in the first place. With SmartKey™ technology from Weiser you are guaranteed to have one of the most secure residential deadbolts on the market.

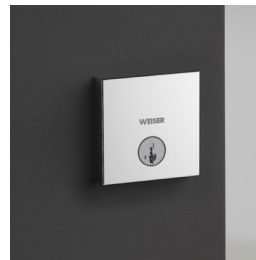

### ANSI Graded Deadbolts

Deadbolt locks are rated by an independent agency (ANSI) on a grade scale; with Grade 3 being good, and Grade 1 being the best.

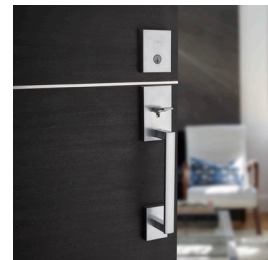

### How does SmartKey rate?

All of our SmartKey deadbolts are ANSI rated and approved. In our Collections family of products, many of our SmartKey deadbolts are rated as Grade 1 - providing you with the very best residential security on the market and featuring the highest level of pick resistance available.
