Important Health Warning About Playing Video Games

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause “photosensitive epileptic seizures” while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

BACKSTORY

In the years after World War II, while many struggled to rebuild their lives in a devastated economy, Los Angeles embraced an era of unprecedented growth and prosperity, and Hollywood became a shining beacon of the American Dream to the rest of the world. Yet beneath the glitz and glamour lay a darker reality: a burgeoning drug trade, a movie industry relentlessly preying on naive young girls, rampant corruption at every level of police and government, and thousands of demobilized troops trying to readjust to civilian life and leave the horrors of war behind them.

After years of fighting in the Pacific Theater of World War II, one such young man, Marine Lieutenant Cole Phelps, was awarded one of the Navy's highest honors, the Silver Star, and was honorably discharged. Keen to continue serving his country on home soil, Cole signed up with the L.A.P.D., a police force suffering a public relations crisis amid accusations of corruption and brutality. A young, decorated war hero could be just what the department needs to turn the tide of public opinion. The powers that be are watching..

HEADS UP DISPLAY

01 HELP MESSAGES: Help messages will pop up periodically with descriptions of your objectives and useful tips.

02 MINI MAP: The mini map shows your current position and the names of nearby streets. Other important icons displayed on the mini map include:

- Red blips represent enemies
- Yellow flags indicate your current destination / objective
- Blue blips indicate the location of your partner
- Red figures indicate where street crimes are in progress
- Camera icons indicate nearby landmarks

03 LEADS:

New destinations, clues, P.O.I.'s, locations, landmarks and case objectives will appear here.

04 HEALTH: As you experience damage, the game color will begin fading to black and white. The grayer it gets, the closer you are to death. Color will return as you regain health.

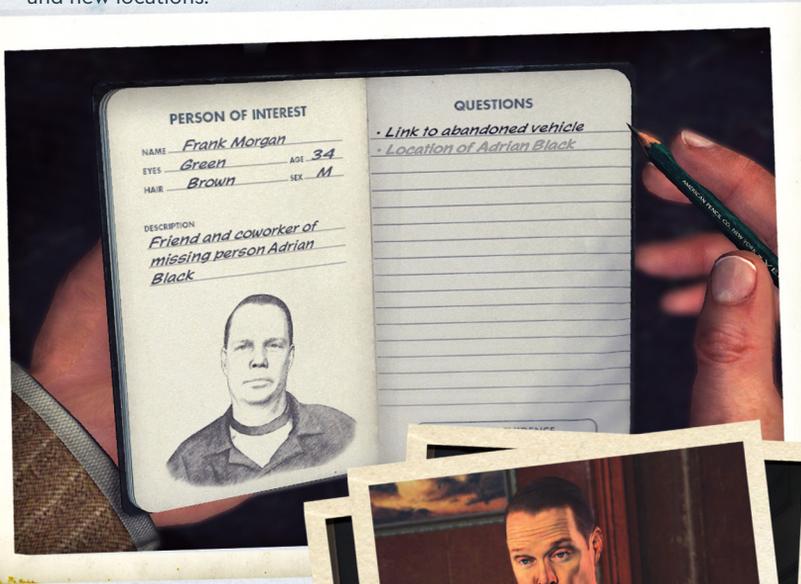

05 RANK INDICATOR:

The Rank Indicator shows your XP progress and your rank as a member of law enforcement.

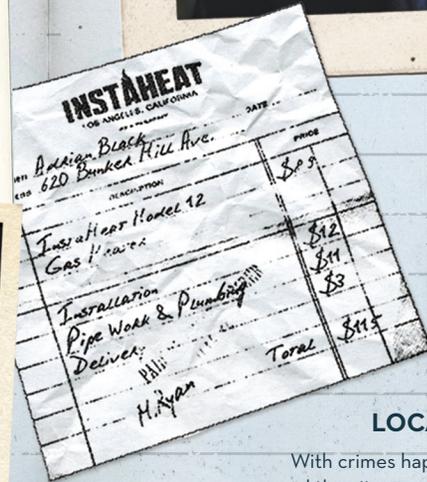

NOTEBOOK ENTRIES

Important information is automatically entered into your notebook. This includes case objectives, persons of interest (P.O.I.), new clues, and new locations.

P.O.I.

When you identify new persons of interest, the notebook stores key information and characteristics for reference throughout the case.

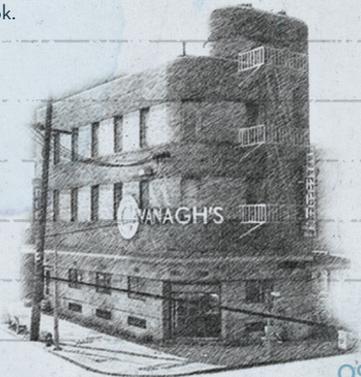

CLUES

Clues and evidence that you uncover over the course of your investigation are logged in the notebook.

LOCATIONS

With crimes happening all around the city, your notebook will catalog new address details and allow you to set waypoints to your destination.

INVESTIGATIONS

You must investigate each of the cases that are assigned to you. Until a case is completed, you will not receive a new assignment. All information that you uncover relevant to the case will be stored in your notebook automatically. You can refer to your notebook at any time by pressing the **+** button. Consult your notebook frequently and pay close attention to each piece of information.

Throughout the game, you will have a partner who will work through each case with you. You can ask him for help at any time by pressing **X** when standing near him. If you want your partner to take over driving duties for a specific journey, press and hold **Y** near your car.

As a member of the L.A.P.D., you are able to commandeer any vehicle you see. Simply walk up to any car and press **Y** to instruct the driver to surrender the vehicle. Note that only L.A.P.D. vehicles have sirens and radio support from headquarters.

NOTE: Completed cases can be replayed by accessing the CASES section of the main menu.

INTERROGATION

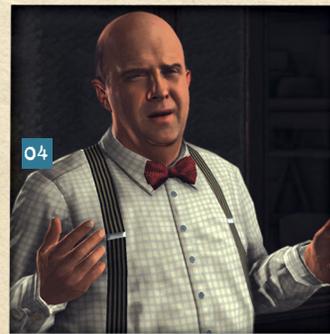

During interrogations, your notebook will open up automatically allowing you to select the first question you wish to ask. Questions can be asked in any order; simply scroll up and down with the Left Stick to select a question and press **A** to ask the question. Listen closely to the response given and also pay careful attention to the facial expressions of the person you're interrogating. Even the best liars can give something away subconsciously, if you know what to look for. You can also press **B** to back out of an accusation and ask a different question, or ask the same question again.

After a person answers a question, you must then decide how to proceed. If you think they are telling the truth, press **A** to take on the role of a good cop. If you doubt that their answer is truthful, press **X** to coerce more information from them by taking on the role of a bad cop. If they have said something that directly contradicts a piece of evidence that you have uncovered, press **Y** to accuse them of lying. When you accuse someone of lying, you will need to select a piece of evidence from your notebook to back up your accusation. To help you decide the correct course of action, you may refer to your notebook at any time during an interrogation by pressing the **+** button.

A 3 note chime will be heard to let you know that you have got the correct response. Some questions are more important than others - it is not always essential to get every response correct to extract all the information you need.

INTERROGATION HINT:

If you are struggling with an interrogation, by signing in to the Rockstar Games Social Club you can opt to "Ask the Community" to help determine how to proceed. This requires you to be signed into Xbox Live and requires one intuition point to access. For more intuition point rewards, see "Moving Up the Ranks."

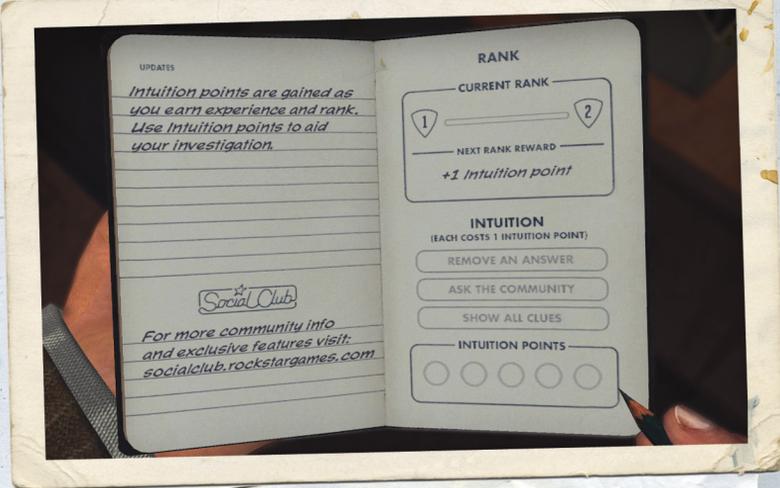

01 A person who is lying may often avoid direct eye contact.

02 Most people will feel uneasy telling a lie, so look out for signs of discomfort such as fidgeting or scratching.

03 If you challenge a person who is lying they may become momentarily angry or upset and then try to cover it up.

04 Above all, trust your instinct - the human face has hundreds of muscles that can all betray a person's true feelings. And you have many years of practice at reading these subconscious signals.

TIP TO HELP DETECT LIES: Use RIGHT STICK to look at the person.

MOVING UP THE RANKS

Throughout the game, you will earn experience (XP) through successful actions. A number of factors contribute to earning XP, including selecting the correct responses in interrogations, solving street crimes, and discovering hidden objects and landmarks. Gaining XP will give you intuition points, which can be spent either during an interrogation or while investigating a crime scene. Once an intuition point has been used, it cannot be used again. More XP must be gained to earn more intuition. You may store up to five intuition points until you think you need them.

INTUITION POINT REWARDS

REMOVE AN ANSWER

During an interrogation, this reward will remove one of the incorrect responses and the incorrect evidence when accusing a suspect.

ASK THE COMMUNITY

When questioning a person of interest, this reward will tell members of the Rockstar Games Social Club which answers are most popular amongst L.A. Noire players.

SHOW ALL CLUES

While investigating a crime scene, this reward will display the location of all the clues on the mini map.

Licensor warrants to you that the Software is compatible with a personal computer meeting the minimum system requirements listed in the Software documentation or that it has been certified by the gaming unit producer as compatible with the gaming unit for which it has been published. However, due to variations in hardware, software, internet connections, and individual usage, Licensor does not warrant the performance of the Software on your specific computer or gaming unit. Licensor does not warrant against interference with your enjoyment of the Software; that the Software will meet your requirements; that operation of the Software will be uninterrupted or error-free; or that the Software will be compatible with third-party software or hardware or that any errors in the Software will be corrected. No oral or written advice provided by Licensor or any authorized representative shall create a warranty. Because some jurisdictions do not allow the exclusion of or limitations on implied warranties or the limitations on the applicable statutory rights of a consumer, some or all of the above exclusions and limitations may not apply to you.

If for any reason you find a defect in the storage medium or Software during the warranty period, Licensor agrees to replace, free of charge, any Software discovered to be defective within the warranty period as if the Software is currently being manufactured by Licensor. If the Software is no longer available, Licensor retains the right to substitute a similar piece of Software of equal or greater value. This warranty is limited to the storage medium and the Software as originally provided by Licensor and is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect has arisen through abuse, mistreatment, or neglect. Any implied warranties prescribed by statute are expressly limited to the 90-day period described above.

Except as set forth above, this warranty is in lieu of all other warranties, whether oral or written, express or implied, including any other warranty of merchantability, fitness for a particular purpose, or non-infringement, and no other representations or warranties of any kind shall be binding on Licensor.
