Dell Thunderbolt Dock

NOW WITH APPLE CERTIFICATION

The Dell Thunderbolt Dock – WD19TB / WD19TBS helps you stay productive whether you are working at home or in the office. Delivering up to 130W of power, the WD19TB / WD19TBS dock keeps your devices charged while supporting up to dual 4K displays or one 5K display. The WD19TB / WD19TBS dock is now certified by Apple® to work with Mac devices.

CLUTTER-FREE DESK SPACE

• Mount your WD19TB / WD19TBS dock on to a VESA compatible monitor, under a desk or on a wall to free up precious desk space.

• Install easily by attaching the optional Docking Station Mounting Kit to your Dell Thunderbolt Dock – WD19TB / WD19TBS.

FLEXIBLE SETUP

• Set up your desk however you want with a longer 0.8m (approx. 31 inches) dock cable.

• Get a variety of connectivity options, from HDMI port, DisplayPort to a dedicated speaker-out port for desktop speakers.

PEACE OF MIND

• Enjoy 3 years Advanced Exchange Service[1] with the option to upgrade to a 4 or 5-year warranty[2].

• Secure your dock via either the T-bar or wedge shaped lock slot.

Dell Thunderbolt Dock

NOW WITH APPLE CERTIFICATION

The Dell Thunderbolt Dock WD19TB / WD19TBS with v1.0.14.1 update (which includes NVM43 firmware) was certified by Apple through an independent third-party laboratory to work with Apple USB-C hosts. Here is a guide to what you can expect to work with the Dell Thunderbolt Dock – WD19TB / WD19TBS.

Apple USB-C Host	External Displays	Port Functionality
MacBook Pro, MacBook Air w/ Thunderbolt™ 3 (USB-C®) ports	Up to Dual 4k @ 60Hz[3] Up to Single 5k @ 60Hz	Thunderbolt, USB and Ethernet
MacBook w/ USB-C port	Up to Single 4k @ 60Hz[4]	USB and Ethernet
iPad Pro w/ USB-C port	Up to Single 5k @ 60Hz[4]	USB and Ethernet[5]

Wake on Dock	Yes	No
Wake on LAN	Yes	No
Firmware update via system native OS (Firmware Update Utility)	Yes	No (Must be connected to a Dell Windows OS system)

Dell Docks work best with Dell laptops. The Dell Thunderbolt Dock is also compatible with notebooks from other manufacturers such as Apple, HP and Lenovo which support industry standards for Thunderbolt docking[6].

For functional limitations with notebooks from other manufactures in comparison to Dell Commercial notebooks, please see this underline support article. For a seamless docking experience, choose a Dell Latitude, XPS or Precision.

Create a clutter-free desk with the Dell Docking Station Mounting kit

Simply attach the mounting bracket to your Dell Docking station and mount it anywhere you want — behind a monitor, to a wall, under the desk or to any flat surface — to maximize your desk space. Set up is easy and you get the convenience of attaching and removing the docking station whenever you want.

Jump-start your productivity.

Product availability varies by country. Contact your Dell representative or visit Dell.com to learn more.

To troubleshoot Dell docks when used with Mac devices, please contact Apple. For more information, please refer to article SLN320770 on Dell.com/support.
