

ENGINE COMPONENTS

NEW UNIVERSAL ENGINE CASE **(MAGNESIUM ALLOY) AS41**

Our new universal, dual relief Engine Case is the latest AS41 version and features a medium oil pick-up tube. For stock 1500-1600cc replacement, or can be modified for hi-performance and racing applications. Uses Metal Cam Plug 113-101-157C or Aluminum Cam Plug with O-Ring P/N 16-9524.

- Magnesium Alloy Cases Weigh Approximately 25lbs
- 8mm Steel Case Savers
- Includes Oil Pick-Up Tube

* Stock 1200cc; ** Stock 1300cc; + Stock 1500cc; ++Stock 1600cc

Bore (mm) x Bore (mm) x Stroke (mm) x .0031416 = Engine Displacement in CC's

Example: 87 x 87 x 69 x .0031416 = 1641cc

To get the volume for one (1) cylinder in CC's, simply divide by four (4).

Example: 1641 ÷ 4 = 410.25cc

EMPI H.D. BUBBLE TOP ENGINE CASES

EMPI engine cases are all new construction with numerous design features added in right from the start. All cases are made from high quality aluminum alloy and are fully CNC machined following strict quality control standards.

* Center Main Only

+ May Require Clearancing for Certain Rods

These Cases Feature:

- These cases weigh approximately 41 to 44 lbs.
- Made from high quality Aluminum with numerous design features.
- Dual Relief Design for Type 1, 2 or 3 applications.
- Shuffle Pins (6) on all main saddles for a snug fit, zero gap and longevity.
- Bubble Top / Raised Roof Design with a strong radius design adding strength and allowing additional clearance for up to an 86mm Crank.
- Ported and smoothed for better flow.
- Filled in (not welded) support behind #3 cylinder.
- Available Drilled & Tapped for Full Flow – w/plugs supplied.
- Main Oil Gallery tapped for ease of cleaning.
- Large Oil pick-up tube.
- Available machined for Sand Seal.
- Available in 3 Bore Sizes and for 8mm or 10mm Studs.
- Modification to Fan Housing Required.
- Uses Metal Cam Plug 113-101-157C or Aluminum Cam Plug with O-Ring P/N 16-9524.

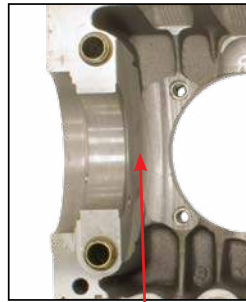

Available in 3 Bore Sizes and for 8mm or 10mm Studs.

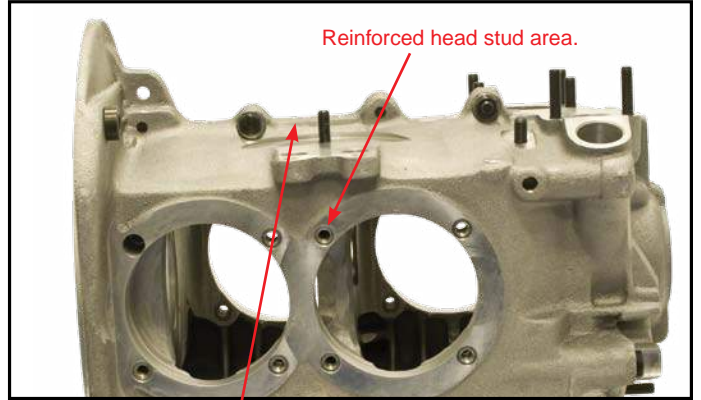

Filled in (not welded) support behind #3 cylinder.

Sand Seal.

CHROMOLY CASE STUDS

EMPI's Chromoly Case Studs provide superior and even clamping force required by today's hi-performance VW engines. Our Chromoly Studs are made from high-grade Chromoly and precision machined to resist stretch and fatigue. EMPI Chromoly Case Studs are available with 8mm or 10mm threads, stock length or +1/2" longer for stroker applications or other variables. Each kit is complete with O.E. style hardened washers and hex nuts.

4020 Stock Length 8mm Chromoly Case Stud Kit, for Dual Port Heads

(Ref. P/N: 043 198 035DP)

4021 +1/2" Longer 8mm Chromoly Case Stud Kit, for Dual Port Heads

4009 Stock Length 10mm Chromoly Case Stud Kit, for Dual Port Heads

4010 +1/2" Longer 10mm Chromoly Case Stud Kit, for Dual Port Heads

4005 Stock Length 8mm Chromoly Case Stud Kit, for Single Port Heads

(Ref. P/N: 043 198 035SP)

SELF TAPPING CASE STUDS

A quick repair for stripped head studs. The rolled threads of our 10mm studs provide maximum hold and metal chips are effectively collected by the slot and hole design. Sold in Bulk Per Stud.

4025 1500-1600cc, Lower, 9 3/8" (240mm), Each

BILLET CAM PLUG WITH O-RING

Use this Billet cam plug during engine assembly for a secure, leak free seal. Case must be machined for O-Ring groove.

16-9524 Billet Cam Plug with O-Ring

CAM PLUG

Always use a new Cam Plug to ensure a leak free seal.

98-0156 Cam Plug, Metal, for Case w/Groove, 1300-1600cc (Bulk P/N: 113 101 157C)

98-0157 Cam Plug, Rubber, for O.E. Case w/o Groove (Bulk P/N: 040 101 157)

98-0156

98-0157

MAIN BEARING DOWEL PIN SET (5)

Set of 5 standard length main bearing dowel pins for engine assembly.

16-9519 Main Bearing Dowel Pin Set (5) (Bulk P/N: 111 101 123)

ENGINE LOCK NUT KIT

Don't let a bunch of old rusty nuts ruin the appearance of your next engine rebuild. Bright zinc nylock nuts resist vibration, maintain torque and prevent oil seepage even in the roughest conditions.

9521 Engine Lock Nut Kit

DELUXE ENGINE HARDWARE KIT

You get all the necessary hardware you need to assemble your engine just the way it rolled off the assembly line.

4018 Deluxe Engine Hardware Kit, 8mm
4019 Deluxe Engine Hardware Kit, 10mm

ENGINE HARDWARE KITS

All the bolts, nuts and washers required for the assembly of the engine.

9523 Complete Engine Hardware Kit, 10mm

9524 Shroud Screw Kit, 12 Pcs.

9524-B Bulk Shroud Screws, Bag of 100
(Ref. P/N: N 10 710 8)

8mm-1.25 Thread, 11mm Head

9525 Exhaust Lock Nut Set, Copper, 8pcs.
9525-B Bulk Exh. Lock Nuts, Copper, Bag of 100
(Ref. P/N: 175 129 650)

17-2988 **NEW!** 12 Point 8mm Engine Nuts, 8 pcs
8mm-1.25 Thread, uses 10mm 12 Point Socket

OIL DIPSTICK ADAPTER

Converts Type 3 and universal cases which have not been machined for a dipstick tube.

8932 Oil Dipstick Adapter w/Gasket

TYPE 3 BLOCK-OFF KIT

Use on late style and Type 3 cases to block off oil fill opening to convert to upright applications. Complete with cast aluminum block-off plate and gasket.

8931 T-3 Block-Off Kit
16-9516 Billet T-3 Block-Off Kit

TYPE 3 BLOCK-OFF PLATE

Complete with thick metal block-off plate and gasket.

98-1170 Block-Off Plate, Dipstick Hole, Type 3
98-1171 Block-Off Plate, Dipstick Hole with 1/8" NPT Tapped Hole

STOCK DIPSTICK

Stock Replacement Dipstick.

113 115 611 **98-1162-B** Stock Dipstick, 1200-1600cc

CHROME DIPSTICKS

Two versions are available: Stock length and/or Stock plus 7 1/2" length. Longer length helps protect hands from burns on engines with custom exhaust systems. All EMPI dipsticks are designed to fit both stock and aftermarket engine cases.

9054 Chrome Dipstick, Stock Length
9075 Chrome Dipstick, 7 1/2" Longer

BILLET STYLE DIPSTICK

Stock length dipstick with machined aluminum Billet style handle.

8500 Billet Style Dipstick

DIPSTICK BOOT

This boot was designed for late model Buses, but is really a universal fit. Install on your Type 1 engine case with stock or aftermarket dipstick. Keeps the oil in...and the dirt out!

98-9610 Dipstick Boot, Universal, Each
(Bulk P/N: 021 119 245)

HEX HEAD OIL RELIEF SPRING PLUG, PR.

A long overdue solution to the removal and replacement of relief plugs. These threaded steel hex head plugs eliminate the need for that giant screwdriver.

16-9527 Hex Head Oil Relief Spring Plug, Pr.

FUEL PUMP BLOCK-OFF / MOUNT

Two versions available to suit your specific needs. Block off with 12mm threaded breather boss. Block off in high tech polished Billet aluminum. All include mounting gasket.

9094 Fuel Pump Block-Off w/Boss

31-3011 Billet Fuel Pump Block-Off w/Hardware

ELECTRIC FUEL PUMP MOUNT KIT

Allows for the installation of EMPI or Facet electric fuel pumps in the stock pump location. Hardware and gasket included.

31-3010 Electric Fuel Pump Mount Kit

BILLET COMBO FUEL PUMP BLOCK-OFF / COIL MOUNT

Polished aluminum Combo Mount serves as a fuel pump block-off, breather vent and ignition coil holder. Features a 3/8 NPT outlet for vent. Great looking and functional. Hardware and gasket included.

17-2926 Billet Combo Fuel Pump Block-Off / Coil Mount

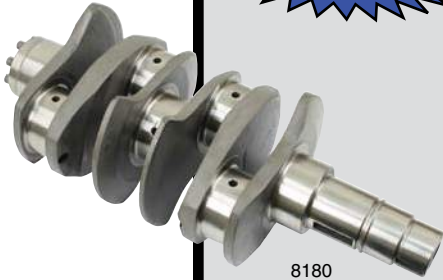

BILLET FUEL PUMP BLOCK-OFF w/ VENT

Polished aluminum Fuel Block-Off features a 3/8 NPT outlet for vent. Hardware and gasket included.

17-2927 Billet Fuel Pump Block-Off

EMPI 4340 CHROMOLY STROKER CRANKS

EMPI has developed this high quality counter-weighted Stroker Crank with the serious racer in mind. Multiple die stamp forged from 4340 chromoly (One of the strongest materials available for crankshafts). Cranks are then magna fluxed, shot peened and all journals are nitrided, precision ground and micro polished. Additional features include cross drilled, chamfered oil holes, dynamic balancing, 8 dowel and extra long 8mm dowel pins. Choose the journal size and stroker combination that best suits your application.

8180	76 Stroke Counter-weighted Crankshaft, VW Journals
8181	78 Stroke Counter-weighted Crankshaft, VW Journals
8182	82 Stroke Counter-weighted Crankshaft, VW Journals
8185	76 Stroke Counter-weighted Crankshaft, Chevy Journals
8186	78 Stroke Counter-weighted Crankshaft, Chevy Journals
8187	82 Stroke Counter-weighted Crankshaft, Chevy Journals
8188	84 Stroke Counter-weighted Crankshaft, Chevy Journals

Note: Stroker Cranks require machining of case and possibly other internal components for rod clearance.

EMPI 4140 CHROMOLY CRANKSHAFTS

The heart of any hi-performance engine is the crankshaft. Counter-weighted crankshafts greatly reduce power robbing and damaging crank-flex, high RPM harmonics and vibration through the entire power range. EMPI's Counter-weighted Crankshafts are perfect for the racer on a budget. These cranks are precision ground, micro-polished, nitrided and balanced. Features include: forged from 4140 chromoly, radiused standard/standard journals, chamfered oil holes, 8 dowel, 8mm dowel pins and cross-drilled. Available in stock 69mm stroke or 74mm stroker versions. Both use stock VW main and rod bearings.

8120	69mm Counter-weighted Crankshaft
8121	74mm Counter-weighted Crankshaft

NEW DIRECT DRILLED CRANKSHAFT

In cross-drilled crankshafts the pressure is divided in two directions, creating a zone of turbulence causing effects similar to oil foaming that reduces constant lubrication. **DIRECT DRILLED** Crankshafts force the oil in one direction for better full flow lubrication. 4 dowel, with dowel pins. These cast Cranks are New Standard/Standard with stock 69mm stroke.

043 105 101	98-1510-B	69mm Direct Drilled Cast Crankshaft
--------------------	------------------	-------------------------------------

COMPETITION LENGTH CRANKSHAFT DOWEL PINS

These longer length dowel pins fit deeper into the crankshaft to protect against shearing under high twist loads. Available with stock 8mm diameter or 11/32" if your crankshaft has elongated holes. Crankshaft may have to be drilled deeper to accept longer dowel pins. **Both of these dowel pins are 19mm long.** Sold in sets of 8.

- 8140** 8mm Competition Dowel Pin, Set of 8
- 8141** 11/32" Competition Dowel Pin, Set of 8
- 8142** 8 Hole Paper Gasket, 8mm Holes, Pack of 10

- 5004** Crankshaft & Flywheel Drill Fixture (8mm)

CRANKSHAFT INSTALLATION KIT

Includes new timing gear, distributor drive gear, distributor drive pinion, oil slinger, retaining clip and woodruff keys. Fits 1200-1600cc. (7 pc. Kit). See pages 429-437 for tools.

- 8105** Crankshaft Installation Kit, 1200-1600cc (7 pcs.)

- 111 105 213** **98-1521-B** Woodruff Key, Timing Gear, 1200-1600cc
- 113 105 249** **98-1549-B** Woodruff Key, Crank Pulley, 1200-1600cc

- 111 105 233** **98-0115-B** Distributor Drive Pinion Spring, Type 1 61-79, Ghia 61-74, Type 2 61-71, Type 3 64-73, Each Not in Kit P/N 8105

PERFORMANCE CRANKSHAFT GEAR SPACER

Gear spacer failure can be a costly event. The stock spacer was never intended to survive the stress of today's high output engines. Our Performance Spacer replaces the stock unit with a solid ring of safety for your gear train.

- 16-9522** Performance Crankshaft Gear Spacer

EMPI FORGED 4340 CHROMOLY H-BEAM RODS

EMPI's H-Beam Rods are a must if you are planning on building an all out performance engine. Race proven H-Beam design combines weight savings and high strength thanks to the forged 4340 chromoly construction. Radiused rod caps help reduce the amount of clearancing required on stroker applications and are sleeved to the rod to eliminate cap shifting. Precision machined rods are magna fluxed and sold in matched weight sets of 4. All held together with forged ARP 5/16" bolts capable of withstanding 220,000 psi tensile load. EMPI's H-Beam Rods are the perfect match to our stroker cranks. (Torque to 26 ft. lbs.) (Sets of 4).

- 8310 H-Beam Rods, 5.400" Length, VW Journal 2.165"/55mm (ARP Bolts)
- 8311 H-Beam Rods, 5.500" Length, VW Journal 2.165"/55mm (ARP Bolts)
- 8312 H-Beam Rods, 5.600" Length, VW Journal 2.165"/55mm (ARP Bolts)

- 8320 H-Beam Rods, 5.400" Length, Chevy Journal 2.000"/51mm (ARP Bolts)
- 8321 H-Beam Rods, 5.500" Length, Chevy Journal 2.000"/51mm (ARP Bolts)
- 8323 H-Beam Rods, 5.700" Length, Chevy Journal 2.000"/51mm (ARP Bolts)

- 8303 Chevy Journal Rod Bearings, .020 (Mahle Brazil)
- 8304 Chevy Journal Rod Bearings, .030 (Mahle Brazil)

- 8308 ARP 2000 H-Beam 5/16" Rod Bolts, 220,000 psi tensile load, Set of 8

EMPI FORGED 4140 CHROMOLY I-BEAM RODS

EMPI's I-Beam Rods use the O.E. design, but are forged from 4140 chromoly to give you a high strength rod that's easy on your budget. 3/8" 8740 200,000 psi tensile load rod bolts add all the strength and reliability necessary for this rod design. Radiused caps aid in stroker clearancing. Combine with an EMPI counter weighted crank to build a dependable lower end for moderate performance engines. All rods are sold in matched weight. Torque these 3/8" bolts to 38 ft. lbs. Sets of 4.

- 8340 I-Beam Rod, 5.394", VW Journal 2.165"/55mm (EMPI 3/8" Rod Bolts), Set of 4
- 8351 I-Beam Rod, 5.500", Chevy Journal 2.000"/51mm (EMPI 3/8" Rod Bolts), Set of 4

EMPI CHROMOLY RACING FLYWHEEL

This chromoly version of our lightened flywheel is the answer for anyone looking for the ultimate in durability under extreme conditions. One piece chromoly construction and offset 8-dowel hole pattern along with a weight of approximately 13 lbs., make this fully balanced flywheel the best option for a high performance engine. 12-Volt 200mm (130 teeth) O-ring style.

4099 Chromoly Flywheel, 12-Volt, 200mm, (Boxed)

NEW FLYWHEELS

Worn-out and defective flywheels can cause a host of problems, from leaking crankshaft seals to broken starter drive gears to clutch chatter and failure. Our flywheels are manufactured to exacting specifications from high grade steel and balanced. The lightweight version is drilled for 8 dowel pins and lightened to approximately 13 lbs. Both are 200mm 12-Volt (130 teeth) O-ring style. Fits Type 1/2/3 1300-1600cc.

311 105 273A **98-1273-B** Flywheel, Stock Style, 4 Dowel Pin, 200mm (Boxed)

311 105 273HP **98-1275-B** Flywheel, Lightened, 8 Dowel Pin (Boxed)

EMPI HI-PERFORMANCE CHROMOLY GLAND NUT

Don't take a chance on stock gland nuts in high performance applications. This ultra strong bad boy is made from 4130 chromoly. The extra strength chromoly and concave spring steel washer provide maximum holding power. Fitted with special pre-greased needle bearing and grease seal. Compatible with stock 4 dowel pin and 8 dowel pin flywheels and features a 36mm nut size.

4026 Chromoly Gland Nut w/Washer

CHROMOLY GLAND NUT & WASHER

Our Heavy Duty Gland Nut set includes an O.E.M. type gland nut and heavy duty washer for extra load capacity and increased torque capabilities. Provides the perfect upgrade for most high performance and all stock applications.

MAIN, ROD AND CAM BEARINGS

Manufactured by MAHLE. Available in sizes to fit any combination of crank and case configuration.

Mahle has changed its manufacturing process and no longer produces bearings with Steel Backing. The New Main Bearing Sets feature Aluminum Backing.

Old inventory has been depleted, the "-B" part numbers have been Discontinued and you must now order using the "-A" part number.

THREADED OIL GALLEY PLUG KIT

The first step to any quality engine build. By installing this 12 piece Oil Galley Plug Kit, you will realize the advantages and ease of cleaning and inspecting the "life blood" passages of your oiling system. Each kit contains seven 1/8" NPT, two 1/4" NPT, and three 3/8" NPT threaded aluminum plugs. Machining of case required.

16-9515 Oil Galley Plug Set, 12 pc.

9148

ENGINE CASE ADAPTER FOR TYPE 2 & 3

Allows the installation of the Type 1 case without the 3 point mount bosses into Type 2 & 3's with 1500-1600cc engines. Easy bolt-on installation. Complete with pump cover and all hardware.

9148 Engine Case Adapter Kit
9148-7 Replacement 8mm Pump Cover only, Each
(Bulk P/N: 311 115 141C)

EMPI HI-PERF. ALUMINUM DEGREE PULLEYS

The Ultimate Aluminum Degree Pulleys. Hard anodized black for maximum durability plus Laser Engraved degree numbers and marks. Available in standard size diameter, bolt-in and machined case sand seal versions. Bolt-In versions come with P/N: 8695 collar & seal. Machine-In versions come with P/N: 8694 seal only.

STOCK DIAMETER PULLEYS

- 33-1055 Laser Pulley, Stock Installation
- 33-1060 Laser Sand Seal Pulley, Machine-In
- 33-1065 Laser Sand Seal Pulley, Bolt-In

- 8695 Replacement Seal & Collar for Bolt-In
- 8694 Replacement Seal for Bolt-In & Machine-In

EMPI HI-PERFORMANCE STEEL BILLET DEGREE PULLEYS

EMPI now has available Steel Billet pulleys. Featuring approximately 3 1/2 lbs. in a stock size form. These pulleys have the ability to reduce crankshaft vibration, thus resulting in much longer engine case and bearing life. All pulleys are fully balanced and feature a silver zinc finish with durable bright white timing marks and numbers on a black background. 33-1090 uses the P/N: 9117 Bolt and Washer (Sold Separately).

STOCK DIAMETER PULLEYS

- 33-1090 Billet Steel Pulley, Stock Installation,

EMPI 5 1/2 LB. CRANKSHAFT PULLEY

Use this heavy pulley to add weight to the rear of your crankshaft to help relieve harmonics and increase bearing and crankshaft life. Degree ring installed. Pulley uses P/N: 9118 Bolt and Washer (Sold Separately).

- 16-9701 5 1/2 lbs. Crankshaft Pulley, Stock Size, Machined for Sand Seal, Each
[Order Seals and Spacers Separately](#)

- 8695 Replacement Seal & Collar for Bolt-In
- 8694 Replacement Seal for Bolt-In & Machine-In

9114

ALUMINUM DEGREE CRANKSHAFT PULLEYS

All of EMPI's pulleys are made from High Grade Aluminum, Precision Machined and High Speed Polished to a Show Quality Shine. Featuring full 360-Degree timing marks, screened on with a special process for longevity. Increase horsepower with precision timing and valve settings. Adds that hi-performance look to any engine.

STANDARD SIZE PULLEYS

Same size as stock pulleys. Available in Solid Billet Style or EMPI 5 Hole design, with black, red or blue degree numbers and marks. **(Note: Use with P/N: 9928 Belt)**

8779

9114 Polished Pulley w/Holes, Black Numbers

8650

STANDARD SIZE PULLEY KITS

Kit includes our 5 Hole Design Crank Pulley with Chrome Bolt and Washer, Chrome Alt/Gen Pulley, Finned Acrylic Cover in choice of color, Chrome Generator Nut and Spacer and Belt. Kits come complete with matching color screened onto the crank pulley.

8650 Standard Size Red Pulley Kit w/Red Cover

8651 Standard Size Blue Pulley Kit w/Blue Cover

8652 Standard Size Black Pulley Kit w/Smoke Cover

17-2918

ADJUSTABLE TIMING POINTER

Machined Aluminum Pointer allows accurate timing within 4 degrees, with up to 20° adjustment for precise tuning and maximum performance. Fits all Type 1 engine cases with stock or power pulley **(Will not fit with 17-2811 and 17-2911 Serpentine Pulley Kits).**

17-2918 Adjustable Timing Pointer

SERPENTINE BELT PULLEY SYSTEM

Serpentine Belt System is designed for style and performance. Easy installation and adjustment, quiet and smooth performance and increased belt life. A must for hi-reving engines. Polished or Black Anodized with permanent Laser-Etched numbers. Fits all Type I engine cases. Bolts to Alt/Gen Stand.

- 17-2911 **NEW!** Serpentine Belt Pulley System (Black Anodized)
- 17-2811 Serpentine Belt Pulley System (Polished)

- 17-2911-1 **NEW!** Replacement Belt Only for Double Bolt Design
- 17-2811-1 Replacement Belt Only for Single Bolt Design
- 17-2811-8 Replacement Bearings (Pair)

POWER PULLEYS

Get a real increase in horsepower with the smaller diameter pulleys. Available in our exclusive 5 Hole design, with black degree numbers and marks. (Note: Use with P/N: 9120 Belt).

- 9115 Polished Pulley w/Holes, Black Numbers

SAND SEAL POWER PULLEY KITS

Available in Bolt-in or Machine-in Case versions. All are 5 Hole style and come with black degree numbers and marks. Seals, collars and spacers are included. (Note:P/N: 9118 Extra Long Bolt must be used with Bolt-In Sand Seal Pulleys). (Note:Use with P/N: 9120 Belt).

- 8693 Sand Seal Pulley Kit, Bolt-In
- 8699 Sand Seal Pulley Kit, Machine-In
- 8695 Replacement Seal & Collar for Bolt-In
- 8694 Replacement Seal Only
- 8688-6 Pulley Spacers, for Bolt-In, Pair, Bulk
- 9118 Extra Long Chrome Pulley Bolt & Washer

POWER PULLEY KIT

Includes P/N: 9115 Power Pulley with 5 holes and black degree numbers and belt.

- 9116 Power Pulley/Belt Kit, Black Numbers

PULLEY BELTS

High Quality Belts for use with Standard Size Pulleys and Power Pulleys.

- 9120 Power Pulley Belt, 9.5 x 850mm
- 9928 Stock Size Pulley Belt, 9.5 x 905mm
(Bulk P/N: 111 903 137D)
- 98-0090-B Stock Size Pulley Belt, 10.0 x 900mm
(Ref. P/N: 111 903 137B)

CHROME PULLEY BOLT

Our Chrome Pulley Bolt and Washer adds the finishing touch to all crank pulley installations. Fits with any stock or custom pulley. **(Note: P/N: 9118 Extra Long Bolt must be used with Bolt-In Sand Seal Pulleys).**

- 9117** Chrome Bolt & Washer Set
9118 Chrome Bolt & Washer Set, for Bolt-In Sand Seal Pulleys (Extra Long Bolt)

BILLET PULLEY BOLT

Have you gone totally Billet? Not if you don't have our silver zinc plated Billet Steel Pulley Bolt. Fits stock and aluminum pulleys. Has a 3/8" drive broach for slip-free tightening & loosening.

- 16-6801** Billet Crankshaft Pulley Bolt

STOCK STYLE BROACHED PULLEY BOLT

Pulley bolt got you cranky? Stop fighting with large wrenches and sockets in such a confined area, EMPI's broached pulley bolts make it a snap by allowing you to insert a 3/8" drive ratchet or extension bar directly into the bolt. Works great when building engines too. Includes silver zinc plated bolt and washer.

- 16-6802** Stock Style Pulley Bolt w/Broach

CHROME ALT / GEN NUT & SPACER

Chrome cone-shape spacer and smooth cap-style pulley nut adds the finished look to all stock and chrome pulleys.

- 9119** Chrome Alt/Gen Nut & Spacer, 2-Piece Set

BILLET ALUMINUM 12-VOLT ALT / GEN PULLEY

EMPI now offers a 6061 T-6 aluminum front pulley half. Featuring machined holes in it for a bold new look which also functions to rid the belt area of dirt and debris. It is also offered complete with a zinc steel inner pulley half if you want a complete assembly.

- 33-1040** Billet Aluminum Alt/Gen Pulley, Outer Half Only
33-1041 Billet Aluminum Alt/Gen Pulley, Outer Half w/Metal Inner

CHROME STOCK STYLE PULLEY

Chrome plated and polished to a show finish. **(Note: Use with Chrome Bolt and Washer P/N: 9117).**

- 8969** Chrome Stock Style Pulley

12/6-VOLT ALT / GEN PULLEY

Your choice of a Chrome or Gold-Zinc finish pulley along with the necessary related hardware. (Pulleys require a minimum of 10 shims to properly install and avoid damage)

- 9166** 12-Volt Pulley, Gold-Zinc
(Bulk P/N: 043 903 109)
- 9191** 12-Volt Pulley, Chrome
- 98-9012** 12-Volt Pulley, w/ Air Fins, Black
(Bulk P/N: 040 903 109)
- 98-0111** Alt/Gen Pulley Woodruff Key, 2 pcs.
(Bulk P/N: N012 705 1)
- 9197** Alt/Gen Shim Kit, 10 pcs.
(Bulk P/N: 111 903 131A) (Bulk is Pack of 100 pcs.)

BILLET ALTERNATOR / GENERATOR PULLEY

This billet pulley spins straight and true, the perfect addition to your killer engine. Available in anodized black or polished. Supplied with Woodruff Key.

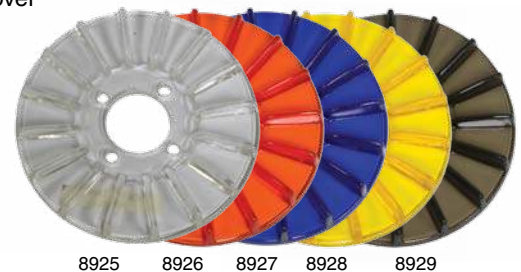

- 16-9706** Billet Alternator / Generator Pulley, Black, Each
- 16-9707** Billet Alternator / Generator Pulley, Polished, Each
- 16-9708** Special Nut and Washer Set
For 16-9706 and 16-9707 Pulley's Only
- 16-9709** Shims (5) for Billet Pulley

FINNED ALT / GEN PULLEY COVERS

See-Thru plastic with attractive fins. Matches other Finned accessories. Fits over Alt/Gen pulley.

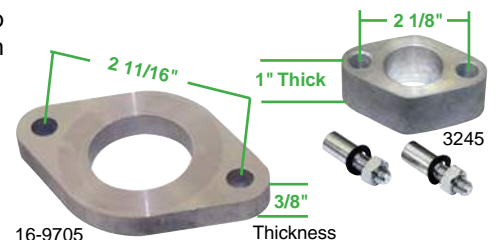

- 8925** Finned Pulley Cover, Clear
- 8926** Finned Pulley Cover, Red
- 8927** Finned Pulley Cover, Blue
- 8928** Finned Pulley Cover, Gold/Yellow
- 8929** Finned Pulley Cover, Smoke/Grey

CARB. SPACERS / ALTERNATOR CONVERSION

Sometimes necessary for Alternator Conversion. Two spacers available. 3245 spacer is for stock Solex/Brosol 28/30 Carburetor and is 1" thick with 2 1/8" hole to hole measurement. 16-9705 is for 34 Pict Carburetor and measures 3/8" thick with 2 11/16" hole to hole measurement.

- 3245** Carb. Adapter Kit w/Studs, Nuts & Gaskets
- 16-9705** 34 PICT Carburetor Spacer, Each

PISTON AND CYLINDER SETS

98-1948-B	Piston & Cyl. Set, 85.5mm x 69mm Stroke, 15-1600cc
98-1949-B	Piston & Cyl. Set, 87mm x 69mm Stroke, 1641cc Big Bore Slip-In
98-1950-B	Piston & Cyl. Set, 88mm x 69mm Stroke, 1700cc Slip-In
98-1951-B	Piston & Cyl. Set, 88mm x 69mm Stroke, 1700cc Machine-In Fits 85.5 Case, 90.5/92mm Head
98-1952-B	Piston & Cyl. Set, 90.5mm x 69mm Stroke, 1776cc
98-1953-B	Piston & Cyl. Set, 90.5mm x 82mm Stroke, 2110cc
98-1954-B	Piston & Cyl. Set, 92mm x 69mm Stroke, 1835cc
98-1955-B	Piston & Cyl. Set, 92mm x 82mm Stroke, 2180cc
98-1956-B	Piston & Cyl. Set, 94mm x 69mm Stroke, 1915cc
98-1957-B	Piston & Cyl. Set, 94mm x 82mm Stroke, 2276cc
98-1958-B NEW!	Piston & Cyl. Set, 92mm x 69mm Stroke, 1835cc, Thick Wall
98-1959-B NEW!	Piston & Cyl. Set, 92mm x 82mm Stroke, 2180cc, Thick Wall

Both Piston Sets with thick wall must have case and heads cut for 94mm

NEW!

94MM EXTRA LONG CYLINDERS

These Extra Long Cylinders (.800 inch longer than stock) are finned for superior cooling and are designed for longer stroke cranks and/or longer length connecting rods. Designed to be machined to your desired length and therefore eliminates the need to shim your cylinders to achieve the correct deck height.

B457512 **NEW!** Extra Long Cylinders, 94MM Bore

MAHLE PISTON AND CYLINDER SETS

Mahle Pistons and Cylinders are the finest made. The Pistons are Forged and the cylinders are extra thick for superior strength. Designed to perform even with turbo charged and nitrous injected engines. All sets include piston rings, piston pins and retaining clips.
(Tip: Best when used with Poly Piston Pin Retainer Buttons)

GRANT PISTON RING SETS

All Grant piston rings are made in the U.S.A. Choose Cast top rings or Chrome Top Rings. (Sold in complete engine sets).

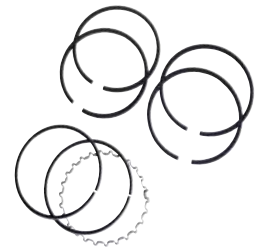

Standard Ring Sets

Contain compression rings which are manufactured to precision specifications from high grade grey iron castings. The top compression rings are black phosphate coated and beveled on the inside top, which gives a torsional twist characteristic and relieved on the lower ridge for oil scraping characteristics. The second compression ring is a scraper ring used in the second groove. Oil rings are 3-piece circumferential style, which provide quick seating, positive oil control and long life.

Chrome Top Ring Sets

These ring sets have a top compression ring that is chrome plated and lapped for resistance to wear and scuffing, and faster seating.

- 98-1147-B **NEW!** Piston Ring Set – Cast Top Ring, 77mm (2 x 2 x 4mm) (Ref. P/N: 111 198 157B)

POLY PISTON PIN RETAINER BUTTONS

Prevent costly engine damage. The failure of the small and fragile stock clips that are easily damaged during installation can cause total engine destruction. Retainers are easy to install and will not break or wear out. Easy press-in installation. Sizes for all piston diameters. 8 piece engine set. **Buttons may fit tight in different manufacturers wrist pins.**

4070	85.5mm Retainer Buttons, Set of 8
4071	87/88mm Retainer Buttons, Set of 8
4073	90.5mm Retainer Buttons, Set of 8
4074	92mm Retainer Buttons, Set of 8
4075	94mm Retainer Buttons, Set of 8

PISTON PIN RETAINERS

We offer two types. The Spiral retainers fit securely in the retainer groove to prevent galling by the pin. Hi-performance engine builders have always favored the Tru-Arc type. Fits all pistons with 22mm diameter pins. Set of 8.

4068	Tru-Arc Piston Pin Retainers, Set of 8
4069	Spiral Piston Pin Retainers, Set of 8

4068

4069

CYLINDER SHIM SETS

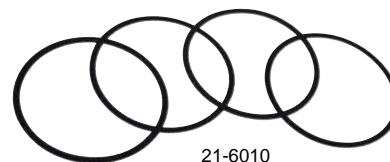

Steel shims allow for adjusting deck height without machining the pistons. Corrects for increase in stroke and compensates when case is surface machined. Clearanced for standard 8mm studs. Sold in sets of 4. **If noted, the shims have been clearanced for 8mm and 10mm studs*

EMPI GTV-2 CNC WEDGE-PORTED CYLINDER HEADS

NEW!

We start with the “best in class” EMPI GTV-2 Cylinder head casting and let a 5 Axis CNC Mill work it’s magic to increase flow. Resulting in the best bang for your buck in increased horsepower. Our programs cut the Intake, Exhaust and Chamber with CNC precision. You now have a smooth, ready to bolt on finished head. The GTV-2 Cylinder Head casting eliminates the need for any welding – even with our massive Stage 3 port.

- BEEFED-UP INTAKE & EXHAUST PORTS FOR MASSIVE PORTING WITHOUT THE NEED FOR WELDING
- SPECIAL ALUMINUM ALLOY FOR STRENGTH AND DURABILITY...PLUS REPAIRABLE
- ADDED MATERIAL SURROUNDING THE COMBUSTION CHAMBER FOR DEEP FLY CUTTING
- EXHAUST AIR PASSAGES ARE CLEAR FOR PROPER COOLING
- 12MM, 3/4" REACH PLUG
- COMPETITION DUAL VALVE SPRINGS, CHROMOLY RETAINERS, HARDENED KEEPERS, BRONZE VALVE GUIDES, S/S VALVES & GASKETS
- HI-PERFORMANCE 3-ANGLE VALVE JOB

ALL NEW CASTING

Available in three Wedge-Port Designs

GTV-2 Stage 3 Wedge-Ported Cylinder Head

Available in three Wedge-Port Designs, all feature Stainless Steel Valves, Racing Valve Seats, Bronze Valve Guides, New 4037 Hi-Performance Dual Valve Springs, Chromoly Retainers, Hardened Keepers, Gaskets, Rocker, Exhaust and Intake Studs. Complete with a professional Performance Valve job & assembly. Three Wedge-Port designs to bring out the horsepower in all popular engine combinations. All three designs have been Race-Proven.

STAGE 1 WEDGE-PORT
40 x 35.5 Stainless Steel Valves
90.5 / 92mm or 94mm Bore

STAGE 2 WEDGE-PORT
42 x 37.5 Stainless Steel Valves
90.5 / 92mm or 94mm Bore

STAGE 3 WEDGE-PORT
42 x 37.5 Stainless Steel Valves
90.5 / 92mm or 94mm Bore
44 x 37.5 Stainless Steel Valves
90.5 / 92mm or 94mm Bore

EMPI CNC MATCH-PORTED MANIFOLDS

CNC Machined manifolds to match the EMPI GTV-2 Wedge-Port Heads. One of the benefits of CNC porting is that you can replace your manifolds at any time and still have an exact match to your cylinder heads. Port-Matched for Stage 1, 2 & 3 Cylinder Heads in a variety of applications. Sets are complete with all hardware and gaskets.

43-1028 **NEW!** Stage 1 Match-Ported Short Manifolds for 48/51 EPC/IDA Carburetors, Pair

43-1029 **NEW!** Stage 2 Match-Ported Short Manifolds for 48/51 EPC/IDA Carburetors, Pair

Additional Material for Porting

Mild or Wild No Welding Required

The EMPI GTV-2 Cylinder head casting out-classes all the competition! Beefed up Intake & Exhaust Ports allow massive porting without the need for welding. Special Aluminum Alloy for Strength and Durability – and is repairable. **Intake & Exhaust ports are 20% larger than stock.** Has added material surrounding the Combustion Chamber for deep fly cutting. Thick interior walls for porting. Exhaust Air Passages are clear for excellent cooling. Machined for 12mm 3/4" Reach Plug. The GTV-2 Casting allows you to run as-is - an exceptional Performance Head, or have any Hand or CNC Port configuration....from Mild to Wild!

GTV-2 DUAL PORT CYLINDER HEADS – BARE

Bare Head comes with 40 x 35.5mm Valve Seats and Bronze Valve Guides installed. Rocker, Exhaust and Intake Studs are included. Standard 85.5mm Bore and 56cc Chamber.

98-1330-B **NEW!** GTV-2 Dual Port Cylinder Head, 85.5mm, Bare, Each

NEW!
98-1330-B

GTV-2 DUAL PORT CYLINDER HEADS – COMPLETE

Complete GTV-2 Dual Port Heads, assembled with 40 x 35.5 Stainless Steel Valves, Single or Dual Hi-Rev Valve Springs, Chromoly Retainers, Hardened Keepers, Rocker, Exhaust and Intake Studs. 85.5mm Bore and 56cc Chamber.

98-1331-B **NEW!** GTV-2 Dual Port Cylinder Head, 85.5mm Bore, Single Valve Springs - Complete, Each

98-1332-B **NEW!** GTV-2 Dual Port Cylinder Head, 85.5mm Bore, Dual Valve Springs – Complete, Each

NEW!
98-1332-B

GTV-2 DUAL PORT CYLINDER HEADS w/ COMPETITION VALVE JOB – COMPLETE

Complete GTV-2 Dual Port Heads, with your choice of Bore and Valve Sizes, assembled with Stainless Steel Valves, Single or Dual Hi-Rev Valve Springs, Chromoly Retainers, Hardened Keepers, Rocker, Exhaust and Intake Studs. Complete with a Professional Performance Valve Job and assembly. 56cc Chamber.

98-1381-B **NEW!** GTV-2 Dual Port Cylinder Head, 40 x 35.5 S/S Valves, Single Valve Springs for 85.5mm Bore, Complete w/ Competition Valve Job, Each

98-1382-B **NEW!** GTV-2 Dual Port Cylinder Head, 40 x 35.5 S/S Valves, Dual Valve Springs for 85.5mm Bore, Complete w/ Competition Valve Job, Each

98-1333-B **NEW!** GTV-2 Dual Port Cylinder Head, 40 x 35.5 S/S Valves, Single Valve Springs for 92mm Bore, Complete w/ Competition Valve Job, Each

98-1334-B **NEW!** GTV-2 Dual Port Cylinder Head, 40 x 35.5 S/S Valves, Dual Valve Springs for 92mm Bore, Complete w/ Competition Valve Job, Each

98-1335-B **NEW!** GTV-2 Dual Port Cylinder Head, 40 x 35.5 S/S Valves, Single Valve Springs for 94mm Bore, Complete w/ Competition Valve Job, Each

98-1336-B **NEW!** GTV-2 Dual Port Cylinder Head, 40 x 35.5 S/S Valves, Dual Valve Springs for 94mm Bore, Complete w/ Competition Valve Job, Each

98-1438-B **NEW!** GTV-2 Dual Port Cylinder Head, 42 x 37.5 S/S Valves, Dual Valve Springs for 92mm Bore, Complete w/ Competition Valve Job, Each

98-1439-B **NEW!** GTV-2 Dual Port Cylinder Head, 42 x 37.5 S/S Valves, Dual Valve Springs for 94mm Bore, Complete w/ Competition Valve Job, Each

98-1440-B **NEW!** GTV-2 Dual Port Cylinder Head, 44 x 37.5 S/S Valves, Dual Valve Springs for 92mm Bore, Complete w/ Competition Valve Job, Each

98-1441-B **NEW!** GTV-2 Dual Port Cylinder Head, 44 x 37.5 S/S Valves, Dual Valve Springs for 94mm Bore, Complete w/ Competition Valve Job, Each

EMPI HIGH PERFORMANCE CYLINDER HEADS

The EMPI High Performance Cylinder head casting are made from a Special Aluminum Alloy for strength and rigidity – and is repairable. Intake & Exhaust ports are 20% larger than stock, with thick interior walls for porting and Exhaust Air Passages are clear for excellent cooling. Machined for 12mm 3/4" Reach Plug.

- Special aluminum alloy for superior strength and rigidity
- Permanent mold casting
- 12mm, 3/4" reach plugs moved away from valve seats to eliminate stress cracks
- Bronze valve guides
- Valve seats installed (40mm Intake / 35.5mm Exhaust)
- Increased port wall thickness for porting
- Exhaust air passages are clear for proper cooling
- Weldable for custom work
- Rocker, Exhaust and Intake studs included
- Stainless steel valves
- 20% Larger intake and exhaust ports

Exhaust air passages are clear for proper cooling.

DUAL PORT CYLINDER HEADS - BARE

Bare Head comes with 40 x 35.5mm Valve Seats and Bronze Valve Guides installed. Rocker, Exhaust and Intake Studs are included. Standard 85.5mm bore. 58cc Chamber.

98-1345-B Dual Port Cylinder Head, 85.5mm, Bare, Each
(Ref. P/N: 042 101 355CH)

DUAL PORT CYLINDER HEADS - COMPLETE

Complete Hi-Performance Dual Port Heads, assembled with 40 x 35.5mm Stainless Steel Valves, Single or Dual Hi-Rev Valve Springs, Chromoly Retainers, Hardened Keepers, Rocker, Exhaust and Intake Studs. Standard 85.5mm Bore. 58cc Chamber.

98-1346-B Dual Port Cylinder Head, 85.5mm Bore, Single Valve Springs – Complete, Each

98-1347-B Dual Port Cylinder Head, 85.5mm Bore, Dual Valve Springs – Complete, Each

DUAL PORT CYLINDER HEADS W/COMPETITION VALVE JOB - COMPLETE

Complete Hi-Performance Dual Port Heads, with your choice of Bore size, assembled with 40 x 35.5 Stainless Steel Valves, Single or Dual Hi-Rev Valve Springs, Chromoly Retainers, Hardened Keepers, Rocker, Exhaust and Intake Studs. Complete with a Professional Performance Valve Job and assembly. 58cc Chamber.

98-1386-B **NEW!** Dual Port Cylinder Head w/Competition Valve Job, for 85.5mm w/Single Springs – Complete, Each

98-1387-B **NEW!** Dual Port Cylinder Head w/Competition Valve Job, for 85.5mm w/Dual Springs – Complete, Each

98-1390-B Dual Port Cylinder Head w/Competition Valve Job, for 92mm w/Single Springs – Complete, Each

98-1391-B Dual Port Cylinder Head w/Competition Valve Job, for 92mm w/Dual Springs – Complete, Each

98-1392-B Dual Port Cylinder Head w/Competition Valve Job, for 94mm w/Single Springs – Complete, Each

98-1393-B Dual Port Cylinder Head w/Competition Valve Job, for 94mm w/Dual Springs – Complete, Each

EMPI STOCK DUAL PORT CYLINDER HEADS

**ALL NEW
CASTING**

The EMPI Stock Dual Port Cylinder Head casting is explicitly modeled after the celebrated 040.101.375.13. Arguably the best stock cylinder head ever produced. No added this or that – just a pure Stock Cylinder Head designed to fit, run, cool and last like the original. Intake & Exhaust Air Passages are as clear as the original for excellent cooling and even comes with the stock Tin. Made from a Special Aluminum Alloy for strength and rigidity and is repairable. Comes with 35.5 Intake and 32mm Exhaust Seats, Bronze Valve Guides, Rocker, Exhaust and Intake Studs. These heads are available in both Standard 14mm 1/2" reach and 12mm 3/4" reach Spark Plugs.

8 Cooling Fins w/ OEM Style Tin

HARDENED VALVE LASH CAPS

Hardened valve lash caps prevent the valve stem tip from mushrooming under the load of heavy valve spring pressure.

4006 Hardened Valve Lash Caps, Set of 8

VALVE LOCKS

Precision fit and heat-treated valve locks prevent valve groove wear and failure. Compatible with stock and stainless steel valves, as well as with all stock and EMPI retainers.

4044 Valve Locks, 8 Pairs
(Bulk P/N: 113 109 651A) Each

VALVE GUIDES

Silicone Bronze Valve Guides reduce friction, improve lubrication and offer extended reliability. Features a shouldered design. Sold in bulk, each.

4002 Valve Guide, for 8mm Intake & Exhaust, Bulk, Each
(Ref. P/N: 113 101 401BR)

RACING VALVE GUIDES

Silicone Bronze is by far the most superior valve guide material available today. Our valve guides are strong and durable. These valve guides reduce friction, improve lubrication and offer extended reliability. Sold in sets of 4.

B405600 **NEW!** Silicone-Bronze Race Guides, Intake (4)
B405700 **NEW!** Silicone-Bronze Race Guides, Exhaust (4)

CASE SAVER INSERTS

Repair stripped and worn head stud threads. Case savers provide greater hold. Each kit has 8 inserts. ***NOTE: Engine must be disassembled and case machined.**

4011 Case Saver, 10mm-1.5 I.D. x 1/2-20 O.D., Set of 8
4012 Case Saver, 10mm-1.5 I.D. x 14mm-2.0 O.D., Set of 8
4003 **NEW!** Case Saver, 8mm-1.25 I.D. x 14mm-2.0 O.D., Set of 8
4004 **NEW!** Case Saver, 8mm-1.25 I.D. x 12mm-1.5 O.D., Set of 8

TOTAL SEAL 'QUICKSEAT' DRY FILM POWDER

Quickseat is a powder Total seal has developed for quicker, more effective ring seating. Simply spread Quickseat on the cylinders and assemble the engine as you usually would. You will experience improved ring seating. In extensive dyno testing, use of Quickseat in conjunction with Total Seal Gapless piston rings allowed for leakage rates to be 0-1% after about 5 minutes of break-in time on the engine.

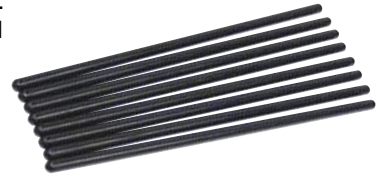

98-1900 Total Seal 'Quickseat' Dry Film Powder, 2 Gram Container, Each

HI-PERFORMANCE PUSH RODS

Resists flexing at high RPM's under the loads of high lift cams and heavy valve spring pressures. A must with any dual spring application. Made from the highest quality heat-treated 5/16" steel tubing, ends are pre-installed and push rods are 11.078" overall length. Fits 1300-1600cc.

4033 Stock Length Hi-Performance Push Rods, Set of 8
(Bulk P/N: 311 109 301A) Each

CHROMOLY PUSH RODS

Chromoly push rods are lighter and stronger than regular steel push rods. The 3/8" tubing offers maximum strength to maintain no flex operation at higher RPM's under the stress of high lift cams and high-rev. valve springs. Available in Stock Length fully assembled or custom Cut-to-Length style.

4034 Cut to Length, 11.600" Long, 3/8" Chromoly Push Rods, Set of 8

4035 Stock Length, Assembled 11.060" Long, 3/8" Chromoly Push Rods, Set of 8

ALUMINUM PUSH RODS

Lightweight strong 3/8" diameter push rods for the discerning engine builder. These units offer the ultimate in strength versus weight. Available in uncut lengths, to suit your individual application. Easily cut & installed in any VW engine.

B405400 **NEW!** Aluminum 3/8" Diameter Push Rods, Uncut (8)

CHROMOLY PUSH RODS

Made from 4130 chromoly steel. Both pushrod tubes and ends are designed to withstand the demands of high RPM and heavy spring loads. 3/8" diameter resists flex to prevent damage to other valve-train components. When buying pushrods be sure it's chromoly, not just steel. Available in various lengths.

B405310 **NEW!** 3/8" Chromoly Push Rods, 10.650 OAL, (8)

B405313 **NEW!** 3/8" Chromoly Push Rods, 10.800 OAL, (8)

B405311 **NEW!** 3/8" Chromoly Push Rods, 11.060 OAL, (8)

B405312 **NEW!** 3/8" Chromoly Push Rods, 11.350 OAL, (8)

B405314 **NEW!** 3/8" Chromoly Push Rods, 11.600 OAL, (8)

PUSH ROD MEASURING TOOL

Adjust out, lock down, measure, and cut push rods.

16-9600 Push Rod Measuring Tool, Each

4037 **NEW!**

RACING DUAL VALVE SPRINGS

Insure against valve spring fatigue and breakage and stop that valve float with the best valve springs on the market! Hand checked and magnafluxed for top quality. The Outer spring is 1.246" diameter using .153" wire diameter and the Inner features .910" diameter using .113" wire diameter. Together they will lift .630" and more with coil bind at .800". Valve guide boss must be machined for all dual spring kits.

4037 **NEW!** Racing Dual Valve Springs, Set of 8

4041 **NEW!**

RACING DUAL VALVE SPRING KIT

Kit includes Racing Dual Valve Springs, Chromoly Retainers and Hardened Valve Locks. **Valve guide boss must be machined for all dual spring kits. Same Dual Springs as P/N: 4037.**

4041 **NEW!** Racing Dual Valve Spring Kit

4040

HI-PERFORMANCE VALVE SPRINGS

Hand checked and maganafluxed for top quality, this is the best Single Valve Spring on the market for Hi-Performance street applications. 1.255" Diameter and approx. 2.135" Free Length offers 114# @ 1.500" installed height - 216# @ 500" lift. Bind @ .932" Recommend for Camshafts up to 500" lift.

4040 High-Rev. Single Valve Springs, Set of 8

4042 High-Rev. Dual Valve Springs, Set of 8

4045

HIGH-REV. VALVE SPRING KITS

Everything you need to prepare your heads for high-lift cam use and high RPM applications. Kits include Single or Dual Hi-Performance Valve Springs, **Chromoly Retainers and Hardened Valve Locks. Valve guide boss must be machined for all dual spring kits. Same Dual Springs as P/N: 4037. Same Single Springs as P/N: 4040.**

4045 High-Rev. Single Spring Kit

4060 High-Rev. Dual Spring Kit

STOCK REPLACEMENT VALVE SPRINGS

Valve Springs lose tension after years of service, resulting problems can include low compression and burnt exhaust valves. These New Springs are a must for all stock valve jobs. These springs are approximately 140 lbs at seat pressure and the free length is 2.025".

98-1923-B Stock Valve Spring, 1200-1600cc, Each
(Ref. P/N: 113 109 623C)

B405515

NEW!

B405860

NEW!

HARDENED SPRING SHIMS

Hardened valve spring shims for setting proper spring installed height. Provides excellent seat surface for high pressure springs by preventing cutting into the heads. Available in a variety of ways to suit all applications.

B405515 **NEW!** Single Spring Shims, .015, (8)

B405530 **NEW!** Single Spring Shims, .030, (8)

 - 4051** **NEW!** S/S Valve, 44mm, Skinpacked (4)

HEAVY DUTY VALVE SEATS

To compliment any new valve installation, these seats are designed to provide maximum resistance to hi-impact and extreme head temperatures. Your engine breathes easier due to proper air flow. Sets of four.

- B402600** **NEW!** Heavy Duty Valve Seats, for 35.5mm Valves, Skinpacked (4)
- B402700** **NEW!** Heavy Duty Valve Seats, for 37mm Valves, Skinpacked (4)
- B402800** **NEW!** Heavy Duty Valve Seats, for 37.5mm Valves, Skinpacked (4)
- B402400** **NEW!** Heavy Duty Valve Seats, for 40mm Valves, Skinpacked (4)
- B404300** **NEW!** Heavy Duty Valve Seats, for 42mm Valves, also can fit 44mm Valves Skinpacked (4)
- B402500** **NEW!** Heavy Duty Valve Seats, for 44mm Valves, Skinpacked (4)

VALVE LOCKS

Precision fit and heat-treated valve locks prevent valve groove wear and failure. Compatible with stock and stainless steel valves, as well as with all stock and EMPI retainers.

- 4044** Valve Locks, 8 Pairs
(Bulk P/N: 113 109 651A) Each

4013

SPARK PLUG INSERTS

Repair stripped spark plug threads with 16 x 1.5mm threaded inserts. Repairs to use 14mm, 1/2" reach spark plugs. Cylinder head removal is required.

4013 Spark Plug Inserts, 14mm – 1/2" Reach, Set of 4

CHROMOLY VALVE SPRING RETAINERS

Manufactured from super strong lightweight chromoly, precision cnc machined to an exacting tolerance and heat-treated. These retainers are virtually unbreakable. Use with single or dual spring setups.

4015 Chromoly Spring Retainers, Set of 8

ALUMINUM VALVE SPRING RETAINERS

Precision machined, these light weight hi-performance retainers will stand up to the demands of most performance engines.

4016 Aluminum Retainers, Set of 8

STOCK VALVE SPRING RETAINERS

Valve Spring Retainers have a hard life, having to withstand thousands of cycles per minute. It only makes sense to use new Retainers on every stock valve job. Sold in bulk, each.

98-1964-B Stock Valve Spring Retainers, 1200-1600cc, Bulk, Each
(Ref. P/N: 113 109 641B)

HI-PERFORMANCE STOCK 1.1:1 ROCKER KIT

Same quality Chromoly Rockers, high strength alloy shafts and stands as our 1.25 and 1.4 rockers in the 1.1:1 Stock Ratio. Rocker screws have M8-1.0 threads.

17-2954 Hi-Performance Stock 1.1:1 Rocker Kit

(1/2 Assembled)

(1/2 Unassembled)

EMPI HI-PERFORMANCE ROCKER SHAFT KITS

Increase the RPM potential of your engine and get more power. EMPI's rocker shaft kits help to eliminate rocker shaft side play that causes rocker arm galling, clip and washer failure. P/N: 21-2309 includes precision ground high strength shafts, with solid steel center spacer and shims. P/N: 21-2308 is similar to P/N: 21-2309 but has a floating aluminum center spacer which allows for "fine tuning" of rocker arm geometry and positioning. All necessary hardware is included. Best when used with EMPI's swivel foot adjusters.

w/Floating Center Spacer

21-2309

21-2308

EMPI HIGH-RATIO FORGED ROCKERS

These superior quality chromoly rockers are just the answer for either a mild street or a hi-performance competition engine. EMPI's rocker arms are made from forged chromoly and then precision ground and heat treated. Not only are these the strongest rocker arms available, they are also drilled through on the alloy adjusting screws so both screws and rocker arms are fully lubricated. All shafts, blocks and shims are high strength alloy as well. Precision ground bronze bushings with through hole lubrication ensures that premature failure of the old needle bearing rocker arm design is a thing of the past. Chromoly rocker arm studs are provided to complete this kit and make installation and use a trouble free experience. Requires P/N: 4034 Cut-to Length Pushrods to set valve train geometry and achieve the correct pushrod length.

1.25 RATIO FORGED ROCKER ARMS

Forged for strength and durability, these ratio rocker arms provide an easy and inexpensive way to get more power and acceleration from any 1200-1600cc engine. No special modifications are needed, the 1.25's work with stock rocker shafts, push rods and adjusters or with our hi-performance shafts and swivel foot adjusters. The 1.25 Rocker Arms will not affect cam duration, bottom end performance or reliability and can be run with stock carburetors. They are quick and easy to install.

21-2312
21-2313

1.25 Ratio Forged Rocker Arms, Set of 8
O.E. Type Valve Adjusting Screw/Nut Kit, M8-1.0 threads, Set of 8

21-2312

21-2313

CHROMOLY ROCKER STUDS

Chromoly Rocker Studs are superior in strength to stock studs. A must have for hi-performance heads with dual valve springs. Installs without modification in Type 1/2/3 1500-1600cc based heads. Sold in sets of 4.

21-2314 Chromoly Rocker Studs, Set of 4

HEAVY DUTY PERFORMANCE SWIVEL VALVE ADJUSTERS

EMPI Heavy Duty Performance Swivel Feet Adjusters feature a large foot print that covers the valve stem to reduce the chance of mushrooming and side load friction. Contact areas are precision ground and hardened. Features slotted screw head design. Kit is complete with rocker stand shims to insure correct rocker arm geometry.

21-2031 H.D. Swivel Head Valve Adjusters, M8-1.0 threads, Set of 8

BALL FOOT SWIVEL VALVE ADJUSTERS

Prevent valve stem wear caused by the side load of high lift cams and high valve spring pressure. A must for any hi-performance engine. Installation requires no special tools. Features slotted screw head design. Each kit includes rocker stand shims for correct height adjustment.

4061 Ball Foot Swivel Valve Adjusters, M8-1.0 threads, Set of 8

VALVE ADJUSTMENT SCREW/NUT

98-0114-B M8 x 1.0 Valve Adjustment Screw, Type 1 50-79, Ghia 56-74, Type 2 50-71, Type 3 64-73, Each

(Ref. P/N: N011 152 1)

ROCKER ARM STAND SHIMS

Designed to go between the rocker stand and the head boss for correct rocker arm height and geometry. Available in 3 sizes (Thickness).

21-2315 Rocker Arm Shims, .015", Set of 4

21-2330 Rocker Arm Shims, .030", Set of 4

21-2360 Rocker Arm Shims, .060", Set of 4

21-2310 Rocker Arm Shim Kit, 12 pcs. total
Includes 4pcs. each of .015", .030", and .060"

ROCKER SHAFT SHIMS

Replace the wave washers on the stock rocker shaft set-up. Eliminates excess side play and maintains proper valve train geometry. Each kit contains 8 shims and is available in 4 sizes (Thickness). These shims will work on 17-2954, 21-2308 and 21-2309.

4058 Rocker Shaft Shims, .010", Set of 8

4055 Rocker Shaft Shims, .015", Set of 8

4056 Rocker Shaft Shims, .030", Set of 8

4057 Rocker Shaft Shims, .060", Set of 8

EMPI HI-PERFORMANCE C-CHANNEL BOLT-ON VALVE COVERS

Made from investment cast aluminum, with cast in EMPI logo and polished ribs on a black background. The finned design helps reduce upper cylinder head temperature and there is enough clearance for most high lift rocker arms. It also has a boss that can be drilled for venting to a breather box. The special C-Channel-Type seals and stud seals insure positive sealing. **Installation on 67 and prior Bugs may require trimming of the body for clearance.** Complete with all gaskets and hardware.

- 8852** "EMPI" Valve Cover Set
- 8868** Replacement Channel Gaskets, Pair
- 8897** Replacement Hardware Kit

BOLT-ON ALUMINUM VALVE COVERS

These cast aluminum covers are great for Off-Road use, where the bale/clip type may come loose. The O-Ring stud seals prevent oil seepage. Cleared for use with hi-lift rockers. Use with stock cork/rubber gaskets, or with our high quality reusable neoprene gaskets. Complete with cork/rubber gaskets and hardware.

- 9152** Bolt-On Aluminum Valve Cover Set
- 9086** Replacement Hardware Kit
- 9087** Replacement O-Ring Seals Only, Set of 4
- 9088** Neoprene Valve Cover Gaskets, Pair
- 9907** Stock Style Cork/Rubber Valve Cover Gaskets, Pair
(Bulk P/N: 113 101 481F, Each)

CLIP-ON ALUMINUM VALVE COVERS

Cast and polished aluminum with cool fins to increase heat dissipation from the upper head area. Includes chrome bales/clips and cork/rubber gaskets.

- 9138** Clip-On Aluminum Valve Cover Set
- 9089** Replacement Chrome Bales/Clips, Pair
- 9088** Neoprene Valve Cover Gaskets, Pair
- 9907** Stock Style Cork/Rubber Valve Cover Gaskets, Pair
(Bulk P/N: 113 101 481F, Each)

STOCK STYLE VALVE COVERS

Made from heavy duty stamped steel, and available in chrome. Complete with bales, clips and cork/rubber gaskets.

- 8905** Chrome Stock Style Valve Covers, Set
- 8906** Replacement Chrome Bale/Clips, Pair

NEW!

EMPI "GT" C-CHANNEL BOLT-ON VALVE COVERS

What's old is new again...New EMPI "GT" Valve covers featuring high polished fins and sides with black matte center, deeper bosses for breather vent fittings, and internal gussetting for strength. Enough clearance for most high lift rocker arms. Special C-Channel-Type seals and stud seals insure positive sealing. **Installation on 67 and prior Bugs may require trimming of the body for clearance.** Complete with all gaskets and hardware.

8854 **NEW!** EMPI "GT" Valve Cover Set

NEW!

BUGPACK RACING VALVE COVERS

The strongest aluminum valve cover model on the market just got better! We have re-tooled our original valve cover to allow even more clearance for high lift rocker arms while still maintaining the superior strength these valve covers are known for. Comes with a cast-in boss for vents. Complete with cork/rubber gaskets and hardware.

B450200 **NEW!** BUGPACK Racing Valve Covers, Pair

EMPI STAINLESS STEEL VALVE COVERS

Stamped stainless steel then polished to high luster. EMPI stamped into the valve cover. Cleared for use with most Hi-Lift Rockers. Includes chrome bales and cork/rubber gaskets.

16-9470 **NEW!** EMPI Stainless Valve Cover, w/Bales, Pair
16-9468 Chrome Bales for P/N:16-9470, Pair

Lip

EMPI BOLT ON ALUMINUM VALVE COVERS FOR 1700-2000cc

These polished Aluminum Bolt-On Valve Covers fit Type 2/4 1700-2000cc engines. The finned design aids heat dissipation and they look great. Complete with all gaskets and hardware. Uses stock gaskets.

- 8855** 1700-2000cc Bolt-On Aluminum Valve Cover Set
- 98-0148** Replacement Valve Cover Gasket, Pair
- (Bulk P/N: 021 101 481, Each)

8855

VALVE COVER GASKETS

Choose from stock style cork/rubber or high quality re-usable neoprene. Sold in pairs.

- 9088** Neoprene Valve Cover Gaskets, Pair
- 9907** Stock Style Cork/Rubber Valve Cover Gaskets, Pair
- (Bulk P/N: 113 101 481F, Each)

9088

EMPI CAST ALUMINUM OIL BREATHER KIT

Reduce crankcase pressure, eliminate blow-by and oil loss. High revving modified engines require more crankcase ventilation than the stock breather can supply. With the EMPI Aluminum Oil Breather Kit the blow-by oil is collected in the foam filter and the air vapors are vented to the atmosphere. New features include the EMPI logo cast in the top, improved heavy duty breather hose, plus internal changes that includes a screen mesh shelf to elevate the foam filter element.

- 8544** Complete Engine Oil Breather Kit
- 9242** Replacement Hose, Black (8 Feet)

8544

VALVE COVER VENTS

Decrease crankcase pressure, eliminate blow-by and reduce oil loss with these easy to install Valve Cover Vents. Features our Sure Seal O-Ring system. Vent into air cleaner or a breather box.

- 9164** Valve Cover Vents, Pair

EMPI HI-PERFORMANCE CAMSHAFTS

Street & Race-Proven profiles designed and manufactured for maximum performance and reliability. We start with a select Chilled Cast Iron Billet. Each camshaft is then machined and ground completely on CNC equipment, delivering exacting tolerances and repeatability. Select the appropriate cam for your application and install using new Cam Lifters. Each cam is supplied with a tube of assembly lube. Requires purchase of Cam Lifters, Gear and Bolts.

ZDDP or ZDTP should be either in the oil that you chose or added to the oil you chose when running any flat tappet camshaft.

The level of ZDDP has been reduced in the API SM oil spec, along with the increased use of calcium detergents and dispersants resulting in failures for flat tappet camshaft applications.

Many articles in all variety of magazines have been written on this subject.

EMPI HI-PERFORMANCE CAMSHAFT KITS

Kits come with EMPI Cam, EMPI Cam Gear, Bolts, Lifters, and Lube.

- The **23 Series** comes with Billet 28mm 1-PC Performance Lifters without an Oil Hole.
- The **24 Series** comes with Billet 28mm 1-PC Performance Lifters with an Oil Hole.

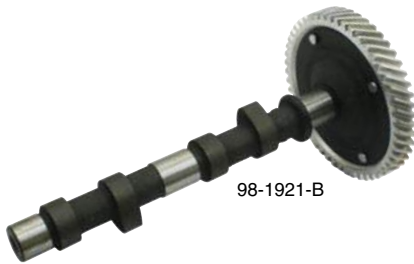

ZDDP or ZDTP should be either in the oil that you chose or added to the oil you chose when running any flat tappet camshaft.

The level of ZDDP has been reduced in the API SM oil spec, along with the increased use of calcium detergents and dispersants resulting in failures for flat tappet camshaft applications.

Many articles in all variety of magazines have been written on this subject.

98-1921-B

STOCK REPLACEMENT CAMSHAFTS

Brand new Stock Replacement Camshaft is available in both Early Flat Gear and Late Dished Gear Designs.

Remember, new cam lifters must be used with a new Cam.

98-1920-B Stock Cam w/Flat Gear, 1300-1600cc, 66-70
(Ref. P/N: 113 109 021D)

98-1921-B Stock Cam w/Dished Gear, 1600cc, 71-79
(Ref. P/N: 113 109 021G)

EMPI STRAIGHT CUT ADJUSTABLE CAM GEAR SET

Steel cam and crank gear set with straight cut teeth creates less drag for increased horsepower. This design reduces thrust load on the cam bearings preventing premature failure. Cam timing is adjustable with the special offset washers. Manufactured from 8620 Carbon Steel for superior strength along with a lightweight cam gear design makes this the ultimate cam gear set to use. Kit includes 5/16" - 24 SAE Grade 8 bolts and washers for easy installation. Fits all 1200-1600cc Type 1/2/3.

21-2515 Straight Cut Cam/Crank Gear Set

ADJUSTABLE CAM GEAR KIT

Allows you to easily dial in your cam timing with the offset washers. The gear is precision machined from high quality aluminum and the kit includes special washers and 5/16" - 24 SAE Grade 8 bolts. Fits all 1200-1600cc Type 1/2/3.

21-2510 Adjustable [Aluminum](#) Cam Gear Kit

BOLT-ON CAM GEAR

Our Bolt-On Aluminum Cam Gear is made from high quality aluminum and precision machined for trouble free valve train performance. Works with all aftermarket and O.E. camshafts. Use our high grade cam gear bolts to attach gear to cam.

21-2500 Bolt-On [Aluminum](#) Cam Gear

CAM GEAR BOLTS

High Grade 5/16" - 24 SAE Grade 8 bolts with washer attached, for aftermarket cams. Use these bolts to attach our P/N: 21-2500 Cam Gear.

21-4310 Cam Gear Bolts, Set of 3

NEW!

21-4315

LOW PROFILE CAM BOLTS

These Low Profile 5/16"-24 SAE Grade 8 Cam Bolts offer a reduced head thickness for extra clearance when installing a 3-Bolt Cam & Gear with some Hi-Performance oil pumps.

21-4315 **NEW!** Low Profile Cam Bolts, Set

EMPI 28MM LIGHTWEIGHT PERFORMANCE LIFTERS

Precision ground and heat treated. In addition this lifter is available with an oil hole in the face for extra lubrication for those high load, hi-performance applications. Weigh only 3.2 oz each.

- 21-4300 1-Piece Lifters, 28mm, w/o Oil Hole, Set of 8 (Bulk P/N: 113 109 309C)
- 21-4304 1-Piece Lifters, 28mm, w/Oil Hole, Set of 8

EMPI 29MM ULTRA-LIGHTWEIGHT LIFTERS

1-Piece Ultra-Lightweight lifters – only 2.6 oz. each, .8 oz. less than a stock lifter. Precision Ground, heat treated with an oil hole in the face for extra lubrication. Push rod cup surface is Chromoly.

- 21-4307 EMPI Ultra-Lightweight Lifters, Set of 8

EMPI 30MM LIGHTWEIGHT RACING LIFTERS

These lifters offer the same features as our 28mm face area lifters, above. With the addition of a 30mm face allowing for full contact when used with higher lift cam profiles these lifters can fill the needs of any racer! Weigh only 3.3 oz each.

- 21-4305 1-Piece Lifters, 30mm, w/Oil Hole, Set of 8
- 21-4306 1-Piece Lifters, 30mm, w/o Oil Hole, Set of 8

31MM HI-PERFORMANCE CAM LIFTERS

EMPI's 31mm surface contact lifters have 15% more contact area than stock lifters to reduce scuffing and early lobe wear. Precision ground. Sold in matched sets of 8. Weigh only 3.4 oz each.

- 21-4302 31mm Performance Cam Lifters, w/Oil Hole, Set of 8

MOLY ASSEMBLY LUBE

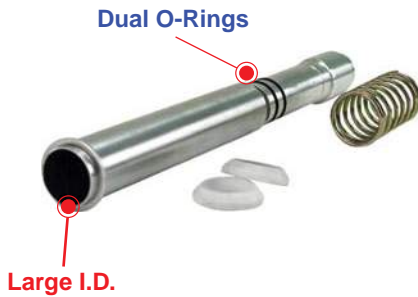

Applied to all bearing surfaces, cam and cam followers during assembly, this high grade moly lube insures proper lubrication upon initial engine start up and run in.

- 27-0160 **NEW!** Moly Assembly Lube, 1/4 oz. Tube

EMPI HI-PERF. ALUMINUM PUSH ROD TUBES

These billet aluminum machine finish push rod tubes have been designed to the specific requirements of hi-performance engine building. Features include two piece spring tensioned tubing that expands and contracts with engine, dual o-ring seals between the tubes, stock type end seals, plus they have an inner tube diameter of 7/8" at the head end for maximum push rod clearance. Aluminum tube can be shortened for narrower engine applications.

- 4108 EMPI Hi-Performance Aluminum Push Rod Tubes, Each
- 4109 EMPI Hi-Performance Aluminum Push Rod Tubes, Set of 8
- 4110 Replacement O-Ring Set for P/N: 4108/4109, 16 pcs.

ADJUSTABLE ALUMINUM PUSH ROD TUBES

Change damaged or leaking push rod tubes in minutes without removing the engine or heads. Great for emergency repairs or permanent installation. The center o-ring seal stops oil leaks. Made from heavy duty aluminum for strength and anodized for good looks. Fits 1200-1600cc.

- 9139 Adjustable Push Rod Tube w/Seals, Each
- 9139-7 Adjustable Push Rod Tube w/o Seals, Each
- 9149 Adjustable Push Rod Tube w/o Seals, Set of 8
- 9038 Replacement O-Ring, Set of 8

ALUMINUM QUICK CHANGE PUSH ROD TUBES

The spring loaded design also allows you to quickly change damaged or leaking push rod tubes with the engine in the car. The heavy duty spring keeps a constant tension for a positive seal. Made from heavy duty aluminum and fully blue anodized for good looks and protection from the elements. Fits 1200-1600cc.

- 9095 Quick Change Push Rod Tube w/Seals, Each
- 9096 Quick Change Push Rod Tube w/Seals, Set of 8

NYLON SELF-ADJUSTING PUSH ROD TUBES

The heat resistant high impact design nylon is an economical alternative to the aluminum self-adjusting push rod tube and offers the same benefits (Black). Fits all 1200-1600cc.

- 9159 Nylon Push Rod Tube w/Seals, Set of 8
- 9159-7 Nylon Push Rod Tube w/o Seals, Set of 8
- 9160 Nylon Push Rod Tube w/Seals, Each
- 9160-B Bulk Nylon Push Rod Tube w/o Seals, Each
(Ref. P/N: 311 109 335 ADJ)

STAINLESS STEEL WINDAGE PUSH ROD TUBES

Get your oil under control. Windage Push Rod Tubes extend further into the case to prevent oil from over filling the valve covers during cornering, side hilling in the dunes, or hard race use. Made from stainless steel to resist corrosion. Fits all 1300-1600cc.

- 8530** [Stainless](#) Windage Push Rod Tubes, w/o Seals, Each
- 8531** [Stainless](#) Windage Push Rod Tubes, w/o Seals, Set of 8
- 8530-B** Bulk [Stainless](#) Windage Push Rod Tubes, w/o Seals, Each

STAINLESS STEEL PUSH ROD TUBES

No rust or corrosion with EMPI Stainless Steel Push Rod Tubes. The ultimate in strength and good looks. Fits all 1300-1600cc.

- 8520** [Stainless](#) Push Rod Tube w/o Seals, Each
- 8521** [Stainless](#) Push Rod Tube w/o Seals, Set of 8
- 8520-B** Bulk [Stainless](#) Push Rod Tube w/o Seals, Each

STOCK STYLE PUSH ROD TUBES

Replacement quality stock style push rod tubes. Ideal for stock engine builds and rebuilds. Fits all 1300 - 1600cc.

- 8522-1** Bulk Stock Style Push Rod Tube, Raw, Each
(Ref. P/N: 311 109 335)

PUSH ROD TUBE SEALS

Choose from High Temperature Silicone or Stock replacement seals. The High Temperature Silicone Push Rod Tube Seals will hold up to high heat without drying and cracking. Each kit contains 16 seals. Enough for one complete engine.

- 9153** [Silicone](#) Push Rod Tube Seal Kit, 16 pcs.
(Bulk P/N: 113 109 345AS, Bag of 100)
- 9150** Stock Push Rod Tube Seal Kit, 16 pcs.
(Bulk P/N: 113 109 345A, Bag of 100)

9150

9153

EMPI HEAVY DUTY OIL PUMPS

The gears on the EMPI H.D. Oil Pump are 38% larger than stock pumps; providing increased oil pressure, oil flow, volume and lower oil temperature. Made from cast iron and precision machined for a distortion free fit. The early style P/N: 31-2935 pump is compatible with stock and hi-performance cams with flat cam gears. Complete with gasket and studs.

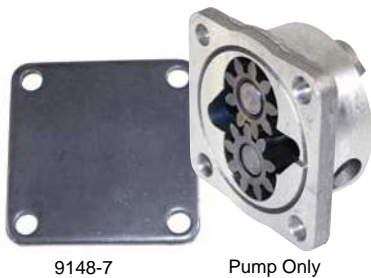

- 31-2935** 1300-1500cc, thru 70, 30mm Gears, 8mm Studs, w/Flat Cam Gear
31-2925 1600cc, from 71, 34mm Gears, 8mm Studs, w/Dish Cam Gear

MELLING HEAVY DUTY OIL PUMPS

The Melling H.D. Oil Pump is made from cast iron and has gears that are 38% larger than stock. Genuine Melling with 30mm gears. Complete with gasket and studs.

- 31-2955** 1300-1500cc, thru 70, 8mm Studs, w/Flat Cam Gear

STOCK STYLE HEAVY DUTY OIL PUMPS

For stock and moderate hi-performance engines. Oil volume is increased. Made from cast aluminum and machined to exacting tolerances. These pumps have 30mm gears. Pumps are supplied without cover, use P/N: 9148-7 cover. All Pumps are for 8mm studs.

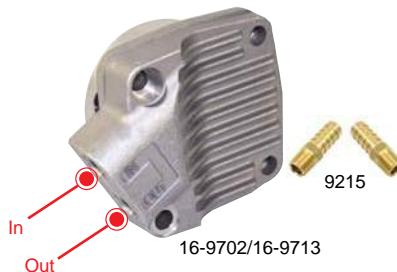

- 111 115 107AHP** **98-1158-B** H.D. Oil Pump, w/Flat Cam Gear, 30mm Gears, 1500-1600cc, thru 70
111 115 107BHD **98-1159-B** H.D. Oil Pump, w/Dish Cam Gear, 30mm Gears, 1600cc, from 71
9148-7 Oil Pump Cover Only, Stock Style

FULL FLOW FILTER PUMPS

These high capacity (32mm gears) pumps provide added oil pressure, increased oil volume and oil cooling. The filter cleans the oil 100% of the time. Kit includes filter and all necessary hardware. (Will not fit with stock muffler or P/N 3417).

- 9206** Pump w/Filter, 1300-1600cc, thru 70, w/Flat Cam Gear, Includes 6 & 8mm Bolts
9206-7 Pump Only, 1300-1600cc, thru 70, w/Flat Cam Gear, Includes 6 & 8mm Bolts
9207 Pump w/Filter, 1600cc, from 71, w/Dish Cam Gear, Includes 8mm Bolts
9207-7 Pump Only, 1600cc, from 71, w/Dish Cam Gear, Includes 8mm Bolts
9208 Replacement Oil Filter
9286 Replacement 6mm Mounting Bolts, Set of 4
9287 Replacement 8mm Mounting Bolts, Set of 4
9207-5 Replacement Gasket between the Cover and Pump, Each
9207-4 Replacement Gasket between Pump and Engine Case, Each

FILTER FLOW OIL PUMP

Add a conventional oil filter to your engine with this 32mm gear oil pump with 1/4" NPT tapped inlet and outlet. Supplied with Hardware and Gasket. Use P/N 9215 fittings.

- 16-9702** Filter Flow Oil Pump, thru 70, w/Flat Cam Gear, Each
16-9713 Filter Flow Oil Pump, 71 & Later w/Dish Cam Gear, Each
9215 1/4" Male NPT w/ 1/2" Hose Barb, Pack of 2

OIL SYSTEM COMPONENTS

H.D. CAST IRON FULL FLOW PUMP KIT

Made from Cast Iron, precision machined for maximum performance and distortion free fit. This Heavy Duty pump provides increased oil pressure, flow and volume. Packaged with our matching EMPI Steel Cover with a 3/8" NPT threaded boss, 8mm Allen Head Cap Screw Bolts and gaskets. For 71 & later, pump and engine case must be threaded and plugged. Plugs not included.

16-9714 H.D. Cast Iron Full Flow Pump Kit, thru 70, 30mm Gears, Flat Cam Gear*

*Pump is Full-Flow Ready, without an exit passage port. No need to thread the Oil Pump! To be used with Full-Flow Pump Cover ONLY.

16-9715 H.D. Cast Iron Full Flow Pump Kit, 71 & Later, 34mm Gears, Dish Cam Gear

H.D. ALUMINUM FULL FLOW PUMP KITS

Precision machined from aluminum for maximum performance, these pumps feature high capacity 32mm gears— providing increased oil pressure, flow and volume. P/N 16-9716 and P/N 16-9717 are packaged with our matching EMPI Polished Billet Aluminum Cover with a 3/8NPT threaded boss, 8mm Allen Head Cap Screw Bolts and gaskets. P/N 16-9718 and P/N 16-9719 are packaged with our NEW EMPI P/N 17-2947 Polished Billet Aluminum Cover with a 3/8NPT threaded boss, 8mm Allen Head Cap Screw Bolts and gaskets. For 71 & later, pump and engine case must be threaded and plugged. Plugs not included.

16-9716 Aluminum Full Flow Pump Kit, thru 70 Flat Cam Gear*

*Pump is Full-Flow Ready, without an exit passage port. No need to thread the Oil Pump! To be used with Full-Flow Pump Cover ONLY.

16-9717 Aluminum Full Flow Pump Kit, 71 & Later, Dish Cam Gear

16-9718 Aluminum Full Flow Pump Kit, thru 70. Flat Cam Gear*

*Pump is Full-Flow Ready, without an exit passage port. No need to thread the Oil Pump! To be used with Full-Flow Pump Cover ONLY.

16-9719 Aluminum Full Flow Pump Kit, thru 71 & Later, Dish Cam Gear

EMPI BILLET ALUMINUM OIL PUMP COVERS

With everything else being made from 6061-T6 aluminum it was only natural to offer our 8mm oil pump covers like that. These are available for both full flow and stock style applications. Fitting & gasket included with 31-2942. Gasket included with P/N 31-2943.

31-2942 Billet Aluminum Oil Pump Cover, 8mm, Full Flow

31-2943 Billet Aluminum Oil Pump Cover, 8mm, w/o Full Flow or Fitting

BILLET ALUMINUM OIL PUMP COVER

Show quality Polished Billet Aluminum oil pump cover with 3/8NPT threaded boss for a full flow system...or plug it and use as a decorative cover. Supplied with 3/8NPT fitting and gasket

17-2947 Billet Aluminum Oil Pump Cover

OIL PUMP COVERS

Our precision fit oil pump covers are made with a threaded boss for use with full flow filter or cooler. Fits all VW pumps with 8mm bolt holes. Both P/N 31-2940 and P/N 9226 come complete with fitting and gasket. The stock style cover is made of steel and has 8mm bolt holes.

9226 Oil Pump Cover w/Fitting and Gasket, Aluminum

9148-7 Oil Pump Cover Only, Stock Style

31-2940 Oil Pump Cover w/Fitting and Gasket, Steel

EMPI COMPETITION ENGINE OIL COOLERS

The ultimate in cooling efficiency. The EMPI stacked-plate design offers maximum cooling with almost bulletproof strength. Aircraft quality aluminum, flux-less oven brazed construction. Cross-path airflow effectively cools oil as air passes through as many as 16 paths across sturdy embossed plates. Insignificant pressure drop with twice the cooling and half the size! Painted black for fast heat dissipation. **Fitted with 1/2" female pipe thread fittings. Mounting Dampers are recommended.** P/N: 9267 is supplied with 1 pair of metal brackets.

9267	96-Plate Oil Cooler Only - 1 1/2" x 12" x 11"
9265	72-Plate Oil Cooler Only - 1 1/2" x 9 1/4" x 11"
9271	48-Plate Oil Cooler Only - 1 1/2" x 6 1/2" x 11"
9273	24-Plate Oil Cooler Only - 1 1/2" x 3 3/4" x 11"
9259	Cooler Mounting Dampers, Set of 4
9259-7	Bulk Cooler Mounting Dampers, Each

COMPETITION OIL COOLER KITS

Complete kit includes Oil cooler, Bypass Adapter, Remote Filter Bracket, High-Temperature Hose and all fittings required for installation. Fits all Type 1 and Type 2 thru 71.

9261	96-Plate Oil Cooler Kit
9264	72-Plate Oil Cooler Kit
9270	48-Plate Oil Cooler Kit
9272	24-Plate Oil Cooler Kit

UNIVERSAL COMPETITION OIL COOLER KITS

Complete kits includes Cooler, Bypass or "Sandwich" Adapter with 3/4" x 16 Nipple, Remote Filter Bracket, High Temperature Hose and all fittings required for installation on your Type 4, Rabbit/Jetta and a host of other applications. The Bypass adapter is for remote mounting of the oil filter. The Sandwich Adapter fits between stock filter mount and filter.

KITS WITH BYPASS ADAPTER

9262	96-Plate Oil Cooler Kit w/Bypass Adapter
9263	72-Plate Oil Cooler Kit w/Bypass Adapter
9294	48-Plate Oil Cooler Kit w/Bypass Adapter
9295	24-Plate Oil Cooler Kit w/Bypass Adapter

KITS WITH SANDWICH ADAPTER

9218	96-Plate Oil Cooler Kit w/Sandwich Adapter
9217	72-Plate Oil Cooler Kit w/Sandwich Adapter
9278	48-Plate Oil Cooler Kit w/Sandwich Adapter
9299	24-Plate Oil Cooler Kit w/Sandwich Adapter

OIL SYSTEM COMPONENTS

EMPI HI-PERFORMANCE ENGINE OIL COOLERS

Features 1/2" copper tubing, aluminum cooling fins and mechanical expansion construction for maximum heat dissipation with the least amount of pressure drop. Available with 1/2" Male threaded ends or 1/2" Hose Barb ends. Skin packed cooler kits include oil pressure booster kit. Braided stainless steel lines can be used with the coolers that have 1/2" male threaded ends.

8-PASS OIL COOLERS & KITS

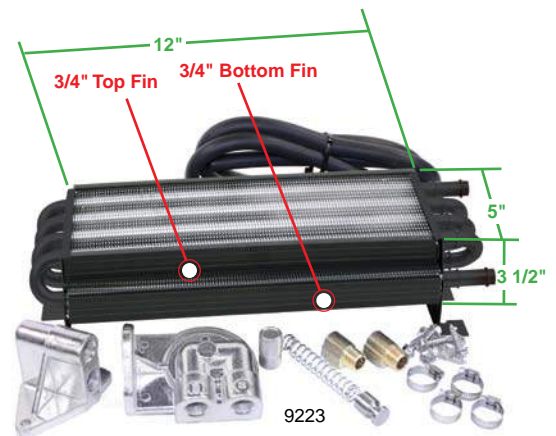

Complete kit includes Cooler, Bypass Adapter, Remote Filter Bracket, High Temperature Hose and all necessary fittings and hardware for installation on your VW. Fits all Type 1 and Type 2 thru 71. Available skin packed or boxed. Skin packed kits include oil pressure booster kit.

1/2" MALE THREADED ENDS (NEW SPLIT FIN DESIGN)

- 9221 Skin Packed 8-Pass Oil Cooler Kit, 1/2" Male Thread, w/Dual Booster Kit
- 9232 Boxed 8-Pass Cooler Kit, 1/2" Male Thread, w/o Booster Kit
- 9241 8-Pass Cooler Only, 1/2" Male Threaded Fitting (Requires P/N: 9288 Fitting)

1/2" HOSE BARB ENDS (NEW SPLIT FIN DESIGN)

- 9223 Skin Packed 8-Pass Oil Cooler Kit, 1/2" Hose Barb, w/Booster Kit
- 9233 Boxed 8-Pass Cooler Kit, 1/2" Hose Barb, w/o Booster Kit
- 9243 8-Pass Cooler Only, 1/2" Hose Barb

6-PASS OIL COOLERS & KITS

Complete kit includes 6-Pass Cooler, Bypass Adapter, Remote Filter Bracket, High Temperature Hose and all necessary fittings and hardware for installation on your VW. Fits all Type 1 and Type 2 thru 71. Available skin packed or boxed. Skin packed kits include oil pressure booster kit.

- 9276 Skin Packed 6-Pass Oil Cooler Kit, 1/2" Hose Barb, w/Booster Kit
- 9234 Boxed 6-Pass Cooler Kit, 1/2" Hose Barb, w/o Booster Kit
- 9277 6-Pass Oil Cooler Only, 1/2" Hose Barb

UNIVERSAL 8-PASS OIL COOLER KITS

Complete kit includes everything you need for installation on your Type 4, Porsche 914, 924, Rabbit, Jetta, Dasher, Scirocco and many others. Your choice of Bypass or Sandwich Adapter. Cooler is fitted with 1/2" Male Fittings. The sandwich adapter fits between the stock filter mount and filter.

- 9291 Universal 8-Pass Oil Cooler Kit, w/Bypass Adapter
- 9285 Universal 8-Pass Oil Cooler Kit, w/Sandwich Adapter

EMPI COMPETITION OIL COOLER & FAN KITS
 This is really cool! EMPI's ultra rugged & efficient 72 and 96 stacked plate competition coolers just got better. They are now available with a 12V electric fan. Instructions and hardware for mounting fan to cooler are included. Use with an On/Off switch or with an electronic or inline thermostat for worry free operation.

9292	72 Plate Competition Oil Cooler & Fan Kit
9293	96 Plate Competition Oil Cooler & Fan Kit
9259	Cooler Mounting Dampers, Set of 4
9259-7	Bulk Cooler Mounting Dampers, Each

9259
6mm x 1.0 Thread

REPLACEMENT FAN ONLY

9" replacement fan can also be used for custom applications. Patented skewed blade design results in high efficiency with lower noise. Can be run as a pusher or puller by simply reversing the fan blade assembly (570 max CFM at 5.4 AMPS).

9296 Replacement Fan Only for P/N: 9292/9293

33-5721

FAN THERMOSTAT

Put your cooler fan on autopilot with this Fan Thermostat (P/N 33-5721). No worries about cooking your engine because there are no more switches to remember to turn on or off. This Inline Thermostat attaches to the inlet port of the oil cooler or it can be spliced into existing 1/2" hose, and it activates at 180° F.

33-5721 Inline Cooler Thermostat, -8AN 1/2" Hose Barb

HI-PERFORMANCE FAN & COOLER KIT

A different version of our popular fan/cooler. Complete kit includes black powder coated 16-pass copper tube cooler with -8AN male fittings, 10" reversible electric fan and aluminum clear anodized mounting brackets. Two brass fittings are supplied if you want barbed ends.

9290 Electric Fan & Cooler Kit

BOLT-ON OIL COOLER FAN KIT

A complete full flow oil cooler system with fan without removing the engine. All the parts required to add a full flow oil system to your engine, without machining. Leaves original oil cooler in place. Includes: 96 Plate Oil Cooler (P/N 9267), 9" Fan, hose, thermostat, pump cover, oil filter bracket, oil return adapter and hardware. Oil pump and case must be threaded and plugged to complete full flow system.

Fits Dual By-Pass Case Only.

9248 Bolt-On Oil Cooler Fan Kit, Each

OIL SYSTEM COMPONENTS

EMPI UNIVERSAL TRANSMISSION FLUID COOLERS

Same efficient and rugged stack-plate design as our EMPI competition engine oil coolers. These coolers feature 1/2" Female threaded ends with 3/8" hose barb fittings for easy installation. Kits come skin packed and include hose, 3/8" hose barb fittings, installation hardware and detailed instructions.

Cooler Only w/Fittings	Complete Kit	Size H x W x T	No. of Plates	Heat Rejection BTU/HR	GVW Rating
85-4002	85-4102	3 3/4 x 11 x 1 1/2	24	7,500	10,800
85-4003	85-4103	6 1/2 x 11 x 1 1/2	48	15,000	19,000
85-4004	85-4104	9 1/4 x 11 x 1 1/2	72	21,800	24,000
85-4005	85-4105	12 x 11 x 1 1/2	96	25,000	28,000

EMPI Transmission Coolers will fit any vehicle fitted with an Automatic Transmission where space permits. From your car's I.D. tag, find the gross vehicle weight (G.V.W.) and compare it to the G.V.W. column in the chart above. "Bigger is Better" is the rule of thumb as you can never over-cool a transmission. When in doubt, go to the next larger size. If you plan to tow a trailer or heavy load, install the largest cooler.

Great for tow vehicles, RV's, etc...!

HIGH TEMP / HIGH PRESSURE OIL HOSE

High Temperature / High Pressure Oil Hose for use with oil coolers and/or remote oil filter. This hose is made to work between -40° to 312° F with a working pressure of 300 PSI and a burst pressure of 1200 PSI. 3/8" and 1/2" ID available in different lengths.

3/8" I.D. (#6) HI-TEMP/PRESSURE OIL HOSE		1/2" I.D. (#8) HI-TEMP/PRESSURE OIL HOSE	
9209	5' length - Skinpacked	9210	5' Length - Skinpacked
9279	25' Length - Boxed	9282	25' Length - Boxed
9280	50' Length - Boxed	9283	50' Length - Boxed
		9284	100' Length - Boxed

UNIVERSAL OIL FILTER & SANDWICH ADAPTERS

Can be used on a number of makes and models, including Type 4 and VW water-cooled models. Fitted with 3/4" x 16 Nipple and tapped for 3/8 NPT fittings.

9229	Universal Adapter w/Nipple, For Remote Filter (New Design)
9247	Universal Sandwich Adapter w/Special Male/Female Nipple

BILLET OIL FILTER ADAPTER

Our Billet Oil Filter Adapter (spinner) comes with all necessary mounting hardware including 3/4" x 16 Nipple. Tapped 3/8" NPT. Easily accepts all PH8A style standard oil filters.

16-9513 **NEW!** Billet Oil Filter Adapter Kit

STOCK REPLACEMENT OIL COOLER

Keep your cool by replacing that old, dirty, leaky Doghouse oil cooler with a brand new unit from EMPI. If you are converting from the early style cooler, you will need the adapter.

111 117 021E **98-1178-B** Oil Cooler, Type 1 50-70, Ghia 56-70, Type 2 50-70
Aluminum Construction

021 117 021B **17-2806** Oil Cooler, Type 2/4,
1700-2000cc / 914, 7 Plate (Aluminum)

113 117 021 **98-1161-B** Oil Cooler for 1300-1600cc
w/Doghouse Shroud, 5 Plate (Aluminum)

8894 Doghouse Oil Cooler to Case Adapter, for P/N 98-1161-B only
(Ref. P/N: 113 117 303)

DUAL BYPASS ADAPTER

This adapter allows you to run both your stock oil cooler PLUS an external cooler and/or remote filter. Fits Type 1 w/minimal trimming to sheet metal. Will not fit with 'Dog House' cooler.

17-2873 Dual Bypass Adapter, Kit

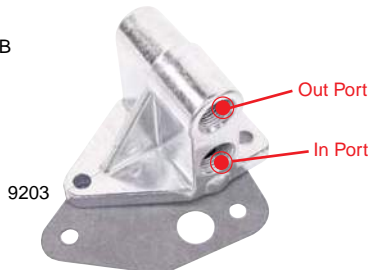

OIL COOLER & BYPASS SEALS

High quality replacement seals for use with stock oil cooler or with bypass adapter.

9255 Oil Cooler Seals, 8/10mm, Pack of 4
9255-B Bulk Oil Cooler Seals, 8/10mm, Pack of 100
(Ref. P/N: 111 117 151B)

98-1179-B Seal, Oil Cooler (For Cooler w/8mm Ports), Each,
Type 1 50-70, Ghia 56-70, Type 2 50-70, Each
(Ref. P/N: 111 117 151)

9256 Oil Cooler Seals, 10mm Late, Pack of 4
9256-B Bulk Oil Cooler Seals, 10mm Late, Pack of 100
(Ref. P/N: 021 117 151A)

OIL COOLER BYPASS

Replaces stock oil cooler allowing for use of external oil cooler. Eliminates air flow blockage to #3 and #4 cylinders. Includes mounting hardware and gasket. Tapped with 3/8" NPT.

(Note: For reference; top is out and the bottom is in).

9203 Oil Cooler Bypass w/Gasket & Hardware
9266 Replacement Gaskets, Pair

BILLET ALUMINUM OIL COOLER BLOCK-OFF

Show quality Polished Billet Aluminum oil cooler block-off. Comes with Allen Head Cap Screws for a clean installation along with gasket and hardware.

17-2946 Billet Aluminum Oil Cooler Block-Off

OIL COOLER BLOCK-OFF

Blocks off oil passages for applications where "full-flow" oil system is used or when normal oil cooler is no longer needed. Tapped 1/4" NPT boss for oil pressure sender. Includes mounting hardware and gasket.

9146 Oil Cooler Block-Off w/Gasket, Plug & Hardware
9266 Replacement Gaskets, Pair

OIL FILTER ADAPTERS

Mounts a standard Spin-On Oil Filter in the location of your choice. Adapters have 3/8" NPT female threads and supplied with 3/4 x 16 Nipple. Use P/N: 9240, 9250, 17-2920, 17-2921, or 17-2922 Spin-On Filters.

9244 Oil Filter Adapter w/Nipple, Ports Left
9245 Oil Filter Adapter w/Nipple, Ports Right
9204 Oil Filter Adapter w/Nipple, Ports Up
9253 Replacement Threaded Nipple

OIL SYSTEM COMPONENTS

REMOTE OIL FILTER MOUNTS

EMPI's Bolt-On Full Flow Oil Filter Mounts make filter mounting easy. Inward and outward polished aluminum exhaust flange mounts accommodate most off-road and drag race applications. While P/N: 16-8242 covers street sedan applications by cleanly tucking the filter up under the rear fender on a black powder coated steel mount that attaches with the bumper bracket bolts (Hardware included).

- 16-8240 Billet Inward Facing Exhaust Flange Oil Filter Mount
- 16-8241 Billet Outward Facing Exhaust Flange Oil Filter Mount
- 16-8242 Under Fender Oil Filter Mount, Type 1, thru 73

BILLET FULL FLOW HOSE BRACKETS

Keep oil lines in check while maintaining that Billet Look. Bolts on at exhaust flange and helps protect oil lines from engine and exhaust. Fits up to 3/4" O.D. Hose.

- 17-2809 Billet F/F Oil Line Bracket – Black, Each
- 17-2810 Billet F/F Oil Line Bracket – Polished, Each

OIL THERMOSTAT

Mounts in-line and bypasses oil cooler until oil warms up to approximately 175 degrees. Always partially open to avoid over pressurizing. A must in performance and cold-weather applications. Kit comes complete with fittings and clamps.

- 33-5000 Oil Thermostat Only w/ 3/8" NPT
- 33-5010 Oil Thermostat w/Fittings & Clamps

EMPI HIGH PRESSURE OIL FILTER

If you are running higher pressure oil pumps, or have problems with mushrooming and exploding filters, you need a High Pressure Oil Filter. Manufactured with a heavy-duty steel walled canister and double bypass valves to control extreme pressures without expanding or splitting. The 3/4"-16 threads fit most remote oil filter mounts and adapters. Fits P/N: 9204, 9244, 9245 and 16-9513 oil filter adapters. Available in chrome.

- 9250 High Pressure Oil Filter, Skinpacked
- 9240 Chrome High Pressure Oil Filter, Skinpacked

FRAM OIL FILTERS

For those who insist on the best- FRAM filters with Advanced Engine Protection uses cellulose and synthetic glass fiber blended media to provide 3X MORE engine protection than the average of leading economy oil filters with 95% Dirt Trapping Efficiency. Fits P/N: 9204, 9244, 9245 and 16-9513 oil filter adapters.

- 17-2920 PH8A FRAM Filter
- 17-2921 HP1 FRAM Filter
- 17-2922 HP3 FRAM Filter

OIL SYSTEM FITTINGS & CLAMPS

Fittings, Hose Barbs, Swivels, Bushings, Clamps...Everything you'll need to plumb your oil system.

9205

Brass T Fitting/Adapter (1/8"), For Gauges, Each

9211

3/8" Male w/ 3/8" Hose Barb, Pack of 2

9212

3/8" Male w/ 1/2" Hose Barb, Pack of 2

9213

1/2" Male w/ 3/8" Hose Barb, Pack of 2

9214

1/2" Male w/ 1/2" Hose Barb, Pack of 2

9237

45° 3/8" Male x 3/8" Female, Pack of 2

9288

1/2" Female Swivel x 1/2" Hose Barb, Pack of 2

9246

Converts #8AN Male to 1/2" Hose Barb

9225

45° 1/4" Male X 1/4" Female, Pack of 2
Hose Clamps - Fits 3/8" & 1/2", Pack of 4

OIL RETURN ADAPTER KIT

Designed to add a full flow oil system without machining the crankcase. Screws into the rear oil by-pass galley (spring & plunger must be removed) and provides the return route for oil from a full flow pump cover. Installs without engine removal. It has an 8AN male fitting. This can be converted to a 1/2" barb with EMPI P/N: 9288 Fitting. **Fits Dual By-Pass Case Only.**

16-9517

Oil Return Adapter Kit, Each

OIL PRESSURE BOOSTER KIT

Specially designed larger piston and stronger spring increase oil pressure throughout the system. A must when installing an oil cooler or remote filter.

9201

Single Oil Booster Kit, thru 69

9202

Dual Oil Booster Kit, From 70

ADJUSTABLE OIL PRESSURE REGULATOR

Allows you to adjust the oil pressure with the twist of a wrench. Use with stock pressure regulator spring.

9198

Adjustable Oil Pressure Regulator Kit, Each

OIL PRESSURE SWITCH

This is one of the least expensive - most important parts of your engine. Don't "hope" your old switch is working - be sure with a new switch.

98-9190

Oil Pressure Switch, for Stock Indicator Light

(Bulk P/N: 021 919 081B)

THREAD SEALING TAPE

A must to seal all threaded fittings and joints. Use on oil and fuel line fittings.

9231

PTFE Thread Sealing Tape, Roll

OIL SYSTEM COMPONENTS

BRAIDED STAINLESS LINE

Good looks and reliability. Give your VW that 200 MPH look with Braided Stainless line. 3/8" and 1/2" for Oil and breather lines. Sold in 3 different lengths. Not to be used on High Performance Engines.

3/8" I.D. (#6) BRAIDED STAINLESS LINE		1/2" I.D. (#8) BRAIDED STAINLESS LINE	
8815	5' Length - Skinpacked	8820	5' Length - Skinpacked

8817	25' Length - Boxed	8822	25' Length - Boxed

HIGH TEMP / HIGH PRESSURE OIL HOSE

High Temperature / High Pressure Oil Hose for use with oil coolers and/or remote oil filter. This hose is made to work between -40° to 312° F with a working pressure of 300 PSI and a burst pressure of 1200 PSI. 3/8" and 1/2" ID available in different lengths.

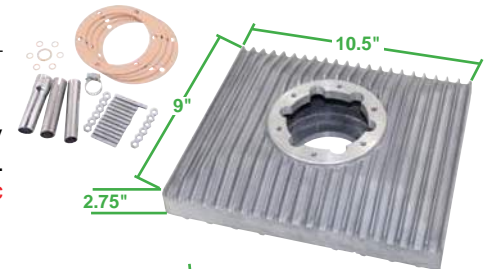

3/8" I.D. (#6) HI-TEMP/PRESSURE OIL HOSE		1/2" I.D. (#8) HI-TEMP/PRESSURE OIL HOSE	
9209	5' length - Skinpacked	9210	5' Length - Skinpacked
9279	25' Length - Boxed	9282	25' Length - Boxed
9280	50' Length - Boxed	9283	50' Length - Boxed
		9284	100' Length - Boxed

HIGH CAPACITY OIL SUMP

Increase oil supply and prevent oil starvation by adding 1 1/2 quarts of oil capacity with EMPI's High Capacity Oil Sump. The cast finned design also increases cooling. Includes all necessary hardware and 3 sizes of pick-up tubes for all 1200-1600cc engine types. All 3 variations of oil screens fit this sump.

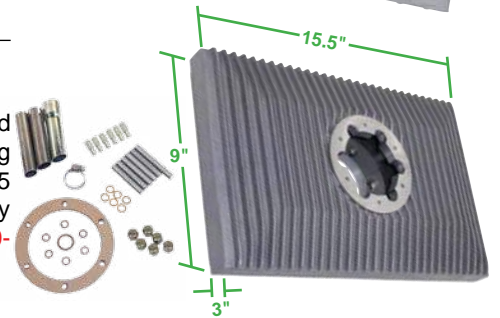

9142	1.5 Qt High Capacity Oil Sump
------	-------------------------------

EMPI SUPER CAPACITY OIL SUMP

Oil takes a lot of abuse in an air-cooled engine. It has to provide both lubrication and cooling functions, therefore any type of performance upgrades or demanding driving requires additional oil capacity. EMPI's thin line sump increases oil capacity by 3.5 quarts without the loss of ground clearance associated with other super capacity sumps. Includes all necessary hardware and 3 sizes of pick-up tubes for all 1200-1600cc engine types. All 3 variations of oil screens fit this sump.

9143	3.5 Qt. Thin Line Super Capacity Oil Sump
------	---

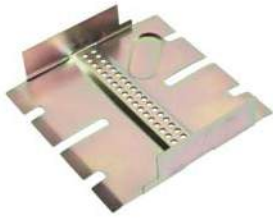

OIL SUMP W/FILTER (Narrow)

Cast aluminum oil sump is only 1 3/4" deep. Adds oil capacity and offers improved filtration and easy bolt-on installation. Filter design allows for unimpeded oil flow even if the filter gets plugged. Stainless Steel Micron Filter can be cleaned and reused. 1 Qt. Capacity. Now tapped and supplied with magnetic drain plug. Includes all necessary hardware.

17-2871	Narrow Sump w/Filter Kit, Each
17-2874	Replacement Filter for P/N 17-2871/17-2872, Each
17-2877	Replacement Drain Plate Gasket Only (Bulk)

SLIP IN WINDAGE TRAY

This easy to install Windage Tray prevents oil from foaming in the case that robs horsepower. (For total oil control, use with our Stainless Steel Windage Push Rod Tubes P/N: 8531 on page 45).

9147 Slip-In Windage Tray

CHROME MAGNETIC DRAIN PLUG

Helps keep your oil free from metal bits and shavings. Includes sealing washer.

8856 Chrome Magnetic Drain Plug

(Bulk P/N: 113 115 193)

BILLET OIL SUMP PLATE KIT

This Billet Aluminum Oil Sump Plate will never bend or distort due to over-tightening, thus causing dangerous leaks like stock plates, and it also adds a custom look to any engine. CNC machined from high-grade aluminum billet. Includes chrome magnetic drain plug, special cap nuts and a gasket kit for trouble free installation.

16-8964 Billet Aluminum Oil Sump Plate Kit

CHROME SUMP PLATE

High Quality Chrome Oil Sump Plate. Available with or without drain plug.

8964 Chrome Sump Plate w/Chrome Drain Plug

8911 Chrome Sump Plate Only

8911-B Bulk Chrome Sump Plate

(Ref. P/N: 113 115 181ACR)

8911

OIL SCREEN KIT

Extend the life of your engine by replacing this screen with each and every oil change. Complete with gaskets and sealing washers. (Order Bulk P/N for Oil Screen Only).

***Measurement is at the base of the collar where it joins the oil pick-up tube.**

9923 Oil Screen Kit, 1200cc (40HP), 61-65

(Bulk P/N: 113 115 175) [Screen Only](#)

9924 Oil Screen Kit, 1600cc, 70-79 Dual Relief Case

(Bulk P/N: 111 115 175B) [Screen Only](#)

98-1160 Oil Screen Kit, 1300-1600cc, 62-69 Single Relief Case

(Bulk P/N: 311 115 175A) [Screen Only](#)

OIL CHANGE GASKET KIT

Two (2) complete Oil Change Kits. Includes gaskets and sealing washers.

9909 Oil Change Gasket Kit, 2 Kits

(Bulk P/N: 113 198 031, Each)

CHROME OIL CAP

Stock Style oil cap in high quality chrome.

8968 Chrome Stock Style Oil Filler Cap

(Bulk P/N: 111 115 485)

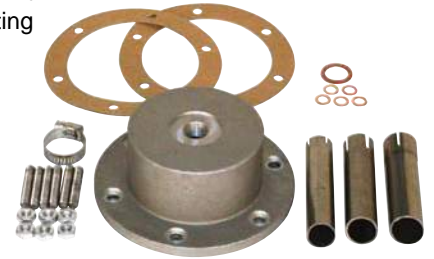

OIL SYSTEM COMPONENTS

MINI OIL SUMP KIT

Help prevent harmful oil starvation by installing this "mini" sump to increase oil capacity. Kit comes with 3 different size pick-up tubes, studs, nuts, washers, and gaskets. Your existing drain plug can be re-used or use our P/N 8856 magnetic drain plug.

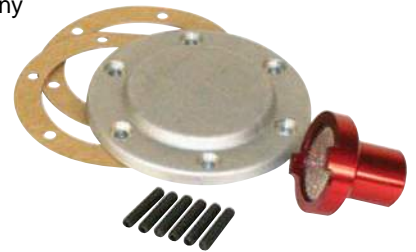

16-9520 Mini Oil Sump Kit

OIL SUCTION KIT

This kit provides for constant, and consistent oil pick-up. The supplied sump plate depression keeps the pick-up extension submerged in oil at all times. The built in screen helps to keep harmful particles from reaching vital engine components. This is a great addition to any performance built engine or a little extra help to insure a long engine life.

16-9521 Oil Suction Kit

MINI SUMP W/FILTER

Cast aluminum Mini Sump replaces your stock oil screen and cover and offers improved filtration, helps prevent oil starvation during hard cornering. Easy bolt-on installation. Filter design allows for unimpeded oil flow – even if the filter gets plugged. Filter can be cleaned and reused.

17-2872 Mini Sump w/Filter Kit, Each
17-2874 Replacement Filter for P/N 17-2871/17-2872, Each

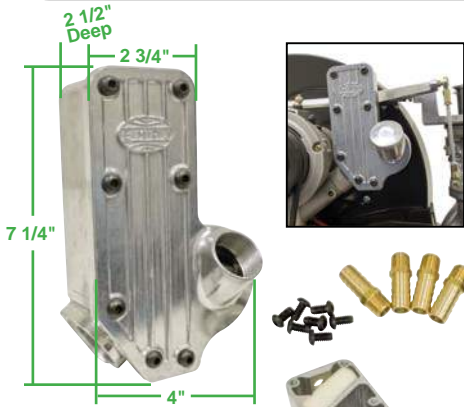

FULL FLOW REMOTE FILTER KIT

Everything you need to install a full flow remote oil filter system. Our bolt-on kit requires no machining or engine removal. Includes pump cover, remote filter bracket, oil return adapter, fittings, hose and hardware. Oil pump must be threaded and plugged to complete full flow system.

9252 Full Flow Remote Filter Kit - Bolt-On, Each

EMPI OIL FILLER & BREATHER BOX

The EMPI dual-purpose Oil Filler & Breather Box includes a system of internal baffles that separate the oil from the air then returns the oil back to the engine. It mounts upright on the alternator stand making for easy oil filling and was designed to look like part of the engine. The Billet Aluminum filler cap seals with an O'ring. Aluminum construction offers great looks and leak-free operation featuring an O'ring seal and Button-head Allen top screws. Vent your valve covers, crankcase, air cleaners...whatever your requirements. Comes with attaching nut, O'rings, gasket and instructions. There are 4 threaded ports and all are 1/4" NPT.

17-2941 Oil Filler & Breather Box Kit

BILLET OIL FILLER CAP

Polished Billet Aluminum Cap with knurled edge for easy grip offers a great finishing touch to any breather tube. Available with or without vent. Fits P/N 17-2941 and alternator stands.

17-2942 Billet Oil Filler Cap - Vented w/ 3/8" NPT Fitting
17-2943 Billet Oil Filler Cap

BILLET OIL FILL TOWER W/CAP

Use this clean, billet oil fill tower when the alternator has been re-located or not in use. Replaces the alternator stand using existing studs and nuts. Black Anodized Aluminum Cap is included.

16-9525 Billet Oil Fill Tower w/ Cap

SMOOTH-FLOW OIL FILLER W/GROOVED CAP

This is the same smooth-flow oil filler as noted above but with our billet grooved cap P/N: 8899. Both cap and body are fully polished just like on P/N: 7904. Now available in Powder-Coated Red, Blue or Black finish. Supplied with 1/4" NPT - 1/2" barbed hose fitting so breather line hookup is easy.

7902 Billet Oil Filler w/Grooved Cap & w/Vent
17-2961 Smooth-Flow Oil Filler w/Grooved Cap & Vent - Red, Each
17-2962 Smooth-Flow Oil Filler w/Grooved Cap & Vent - Blue, Each
17-2963 Smooth-Flow Oil Filler w/Grooved Cap & Vent - Black, Each

OIL SYSTEM COMPONENTS

SMOOTH-FLOW OIL FILLER W/SMOOTH CAP

A new design for an old item. This oil filler has a nice smooth look along with a low profile smooth cap design. Knurled cross-groove design on cap allows for good grip even when it's wet or oily. The filler body and cap are made from 6061 T-6 and fully polished to a show car shine! Supplied with 1/4" NPT - 1/2" barbed hose fitting so breather line hookup is easy.

7904 Billet Oil Filler w/Smooth Cap & w/Vent

VERTICAL OIL FILLER W/GROOVED CAP

Tired of oil spilling all over when you try to add it to your motor? This new design makes it much easier to pour the oil into your motor. Made from fully polished 6061 T-6 billet aluminum it's just the thing to finish off a good looking engine compartment. Supplied with 1/4" NPT - 1/2" barbed hose fitting so breather line hookup is easy.

7912 Billet Oil Filler, Vertical Filler, w/Groove Cap & w/Vent

VERTICAL OIL FILLER W/SMOOTH CAP

Tired of oil spilling all over when you try to add it to your motor? This new design makes it much easier to pour the oil into your motor. Made from fully polished 6061 T-6 billet aluminum it's just the thing to finish off a good looking engine compartment. Supplied with 1/4" NPT - 1/2" barbed hose fitting so breather line hookup is easy.

7914 Billet Oil Filler, Vertical Filler, w/Smooth Cap & w/Vent

ALUMINUM KNOCK-OFF OIL CAP WITH VENT

Highly Polished Aluminum Knock-Off style oil cap is easy to use and looks great on your engine. Features a threaded port on top for vent fitting which is supplied. Includes O'ring and 3/8" NPT fitting.

7903 Billet Aluminum Knock-Off Oil Cap w/Vent, Set

BILLET OIL CAPS

The caps only for the fillers above can also be purchased separately. Choose from either the smooth flow look with knurled edge, easy grip grooved style, or the latest version with etched "OIL" top. All three caps fit all EMPI threaded filler tubes as well as most other threaded aluminum oil fillers.

8899 Billet Aluminum Oil Filler Cap w/Grooves
7905 Billet Smooth Oil Filler Cap
16-9512 Billet "OIL" Filler Cap

VENTED OIL FILLER TUBE W/SCREW-ON CAP

Replaces stock type oil filler assembly with polished aluminum filler with high impact plastic cap. Supplied with 1/4" NPT - 1/2" barbed hose fitting so breather line hookup is easy.

- 8904** Vented Oil Filler Tube - Polished w/Plastic Cap
- 8904-7** Replacement Black Plastic Screw-On Cap
- 8901-5** Replacement Vent Fitting

BILLET ALUMINUM VENTED BREATHER BOX

EMPI's Billet polished canister type breather box features high quality all aluminum construction with removable lid for easy servicing of the foam element, provisions for up to four breather lines and a split type mounting clamp that makes installation as easy as tightening two screws. Washable foam insert separates oil from vapors while keeping out dust and dirt. Vapors are released from vents under the cap. Supplied with 1/4" NPT - 1/2" barbed hose fitting so breather line hookup is easy. See page 423 for mounting clamps in additional sizes.

- 16-7030** Polished Aluminum Vented Breather Box, 1 1/2" Tube Mount

OFF-ROAD BREATHER

Designed for maximum breathing filtration. The chrome steel tower design returns the blow-by oil to the engine while the high capacity gauze filter with spun aluminum top cover keeps dirt out during deceleration.

- 8540** Off-Road Breather Kit
- 8541** Replacement Gauze Filter, Each

CHROME OIL FILLER & CAP

Replace stock oil filler and cap with these chrome parts.

- 8965** Chrome Oil Filler w/Tube & Cap, Set
- 8966** Chrome Oil Filler w/Tube
- 8968** Chrome Stock Style Oil Filler Cap
- 8963** Chrome Oil Filler w/o Tube
- 98-1175-B** Seal, Oil Filler Tube, Type 1 50-74, Ghia 56-74, Type 2 50-71, Ea (Ref. P/N: 111 115 491)

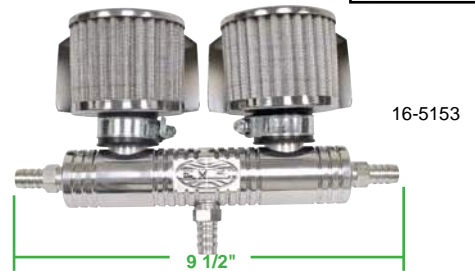

OIL SYSTEM COMPONENTS

EMPI BILLET BREATHER

Function and form. Finish off your sand rail with these Polished Billet Breather Tubes. Available with colored EMPI covers or with chrome shielded covers. Fittings are for 1/2" I.D. Hose.

- 16-2049 Billet Breather Tube w/Blue Filter Covers
- 16-2050 Billet Breather Tube w/Red Filter Covers
- 16-5153 Billet Breather Tube w/Shielded Filter Covers

- 16-5151 Replacement Filter w/Shielded Cover for P/N: 16-5153, (1" Centered Hole), Each
- 16-5152 Replacement Filter for P/N: 16-2049 & 16-2050 (1" Centered Hole), Each

OIL FILLER BREATHER

Gauze element breather with Chrome Top fits breather tube vent or other universal applications. 1/2" I.D. with offset hole location. Hole location is very close to the edge.

- 9053 Gauze Oil Filler Breather

OIL BREATHER FILTER

- 9052 Gauze Breather Filter, Shielded (1/2" centered hole)

CAST ALUMINUM OIL BREATHER KIT

Reduce crankcase pressure, eliminate blow-by and oil loss. High revving modified engines require more crankcase ventilation than the stock breather can supply. With the EMPI Aluminum Oil Breather Kit the blow-by oil is collected in the foam filter and the air vapors are vented to the atmosphere. New features include the EMPI logo cast in the top, improved heavy duty breather hose, plus internal changes that includes a screen mesh shelf to elevate the foam filter element.

- 8544 Complete Engine Oil Breather Kit
- 9242 Replacement Hose, 1/2" I.D., Black (8 Feet)

VALVE COVER VENTS

Decrease crankcase pressure, eliminate blow-by and reduce oil loss with these easy to install Valve Cover Vents. Features our Sure O-Ring seal system. Vent into air cleaner or a breather box. Fittings are for 1/2" I.D. Hose.

- 9164 Valve Cover Vents, Pair

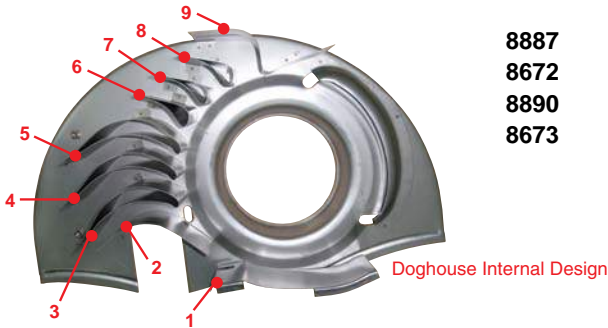

36HP STYLE FAN SHROUDS

Chrome or Black, these 36HP Style Shrouds feature excellent, tight fit and finish along with correctly engineered internal baffles.

- Doghouse models feature 9 internal Air Directional Baffles/Veins and use late model 'Doghouse' cooler, larger late model fan and special tin.
- Standard models feature 7 internal Air Directional Baffles/Veins

RAM-AIR STEEL FAN SHROUDS

Brilliant chrome, without air ducts. This un baffled fan shroud features a cut-out for an Oil Cooler By-Pass Adapter and a rear fan lip to mount an Air Intake Screen. For use with external oil cooler.

- | | |
|-------------|----------------------------------|
| 8857 | Ram-Air Shroud, Chrome w/o Ducts |
|-------------|----------------------------------|

CHROME AIR INTAKE SCREEN

Prevents debris from being ingested into the fan. A must for all off-road applications or when engine compartment is subject to external debris. Does not affect intake air volume. The screen is made of heavy duty metal and chrome plated. Fits all up-right fan shrouds with rear fan lip including P/N: 8857 Ram-Air Fan Shrouds.

- | | |
|-------------|---------------------------|
| 9195 | Air Intake Screen, Chrome |
|-------------|---------------------------|

FAN SHROUD PLUGS

Zinc plated caps plug the fresh air outlet tubes on your fan shroud, when not in use, to prevent the loss of cooling air to the cylinders. Available in two sizes for the proper fit in both O.E. and EMPI fan shrouds. Complete with mounting screws.

- | | |
|-------------|--|
| 9151 | 48mm Fan Shroud Plugs for O.E. Shrouds |
| 9161 | 45mm Fan Shroud Plugs for EMPI Shrouds |

ENGINE ACCESSORIES

COOLING FANS

The cooling fan is one of the most important and overlooked components in the air cooled engine. Bent or cracked fins, worn hub or out of round fans can cause severe damage to your engine. The late style factory fan is wider than the early version and is compatible with any EMPI fan housing and stock Type 1 & 2 Doghouse fan shrouds and Ram-Air Fan Shrouds. P/N: 98-2004 fits all EMPI 36HP style fan shrouds along with 71 & later stock Doghouse fan shrouds. Our P/N 98-2006 fans are welded with 56 welds, 28 each side, alternating pattern, then statically balanced for higher RPM engines.

- 98-2006** Race Fan (Welded), w/o Hardware
34.7mm Inner Fan Width / 36.9mm Outer Fan Width
(Bulk P/N: 98-2006-B)
- 98-2004** Late Fan, 71-on, w/o Hardware
34.7mm Inner Fan Width / 36.9mm Outer Fan Width
(Bulk P/N: 7X0 119 031)
- 8898** Fan Hardware Kit (Zinc Plated)
(Ref. P/N: 111 198 123A)

ALTERNATOR / GENERATOR STAND

Available in Chrome and Stock Style. Complete the look with our accessory oil filler tubes.

- 8991** Alt/Gen Stand, Chrome
- 9194** Alt/Gen Stand, Raw Aluminum

HPMX3.0

Improved Performance, Reliability, and Drivability for 40/44 HPMX Performance Carburetors

Choke Circuit Eliminated - No Accidental Enrichment!

New Reusable Body Gasket

New Improved Linkage Arms

New Accelerator Pump Spring and Diaphragm for Smoother Acceleration

Lightweight Poly Ball in Exhaust Pump Valve

EMPI HPMX CARBURETOR

Performance, reliability and race proven. EMPI HPMX Carbs. offer ultimate engine tuning with total air and fuel metering and adjustment. The EMPI HPMX series have separate idle and main circuits featuring changeable air and fuel jets. Intake air is metered by changeable venturies, and the accelerator pump is adjustable for maximum acceleration. Jets, gaskets and repair parts are readily available. All our kits are pre-jetted for most VW engines. Choose the appropriate size carburetor for your application. When future engine modification is planned, size-up now! Basic rule of thumb...

- 40mm Carbs. for engines up to 2000cc
- 44mm Carbs. for engines 2100cc and up

EMPI HPMX CARBURETOR ONLY

47-1010	40HPMX Carb Only, w/ Chrome Velocity Stacks for Dual Carb Set-Ups

Idle Hole Drilled in Butterfly

SINGLE EMPI HPMX TYPE 1 CARB. KITS WITH AIR CLEANER

For those that choose ease of maintenance along with performance gains, the single 40/44 HPMX is the set-up of choice. For the basic 1600-1800cc, the 40 HPMX Kit is a torquey option. For all out performance, the way to go is the 44 HPMX. The 44 HPMX carbs in these kits have 30mm venturis and .55 accelerator pump jets installed. EMPI also has available a selection of jets if your application requires further "dialing in" (See pages 109-111). Both 40 HPMX and 44 HPMX Carbs have butterflies drilled for smooth idling. Complete kits feature Aluminum Center-Section Manifold, Aircraft Style Heim Joint Linkage, Chrome Air Cleaner with gauze element, gaskets and hardware. Complete with detailed illustrated instructions and attractive EMPI packaging. Fits Type 1 1600cc based upright engines. (Requires P/N: 3236 dual port end kit or P/N: 3237 single port end kit). See page 69 for additional specifications.

INTAKE - CARB. KITS & COMPONENTS

Horsepower and the True Downdraft Carburetor have been synonymous for years. Now EMPI brings you its all new EPC 48 and EPC 51 Carburetors. The EPC 48's come with 37mm Venturis and the EPC 51's come with massive 48mm Venturis. Also, both come with a third progression hole for improved drivability and enlarged float bowl. Both sizes are equipped with spun aluminum velocity stacks, compatible with air cleaners. *All parts are interchangeable with the Weber 48 IDA.*

***NEW**

All EPC 48's and 51's come with a 3rd progression hole and enlarged float bowl.

[EMPI EPC 48/51]

- 43-6973 EPC 48/51 Float Only

48/51 EPC/IDA SHORT MANIFOLDS

EMPI 48/51 EPC/IDA Short Manifolds allow extra clearance for use with air cleaners or velocity stacks. All kits include Intake and Carburetor Base Gaskets, Studs, Nuts, Spring Washers and Extended Nuts.

- 47-0631** **NEW!** 48/51 EPC/IDA Short Manifolds, Pair
Allows 48/51 EPC/IDA carbs in a sedan with no or minimal cutting of your car, engine lid or velocity stacks. May not fit with all stock Doghouse fan shrouds.
Right and Left use the same Manifold
- 47-0632** **NEW!** 48/51 EPC/IDA Off-Set 'Sleeper' Manifolds, Pair
Allow Air Cleaners in a Type 1 with the Engine Lid Closed
Used in Street Sleeper kit

EMPI DUAL 48/51 EPC STREET SLEEPER DUAL CARB KITS

Another Industry 1st...this EMPI Dual 48/51 EPC Kit features our special short manifolds, 48/51 EPC Carbs featuring 3 Progression Ports and an Enlarged Float Bowl, EMPI Billet Twist Linkage and a pair of Chrome Air Cleaners with Gauze Elements...**All that fits under a Stock Engine Lid without the need for Deck-Lid Stand-offs or a raised engine lid.**

The 'Cool' of running Dual 48s or 51s with excellent power and driveability with Air Cleaners! Dyno-Tested by **Head's Up Performance**. The carbs are baseline jetted for small (1600-1800cc) motors – and will require jetting to your specific application. Dual 48s or 51s for the street...doesn't get any better than this!

Complete kit includes Manifolds, Carburetors, Twist Linkage, Chrome Air Cleaners, installation hardware and gaskets.

To assist you in establishing a baseline for custom jetting your carburetor, we have included the following components with each carburetor at no extra charge:

(2) .150 Main Jets (P/N 43-5309), (2) .190 Air Correction Jets (P/N 43-5419), (2) .65 Idle Jets (P/N 43-5541)

EMPI EPC 48's come with 37mm Venturis.

EMPI EPC 51's come with 48mm Venturis. Both feature a third Progression hole and enlarged Float Bowl for 11% more capacity.

EMPI EPC 34

EMPI EPC 34 Carbs are supplied with these jets installed:

- 1.75 Needle & Seat
- .150 Main Jet
- .55 Idle Jet
- .175 Air Corrector Jet
- F-6 Emulsion Tubes

47-7421 **NEW!**

DELUXE DUAL 34 EPC KIT

Complete Deluxe Dual 34EPC Carb Kit featuring Tall Manifolds offering increased horsepower, improved idle and drivability and EMPI Twist-Pull Linkage. Includes a 1/2" X-Over tube that attaches with supplied fittings to the upper plenum section of the manifolds so that the vacuum is taken equally from the cylinders. The kit comes complete with EMPI 34EPC carburetors, manifolds, fittings and quality upgrade for any Type 1 Dual 34EPC/ICT carb system. Includes fuel hose and all necessary hardware and gaskets to complete the installation.

47-7421 **NEW!**

Tall 34EPC/ICT Manifold Kit,

INTAKE - CARB. KITS & COMPONENTS

EMPI VW DUAL EPC 34 CARB KITS FOR TYPE 1, 2, 3 & 4

If improving performance without sacrificing fuel economy is your desire, then the EMPI EPC 34 Dual Kits are the way to go. All Kits feature:

- Aluminum Alloy Hex Bar with Steel Ball Ends - Sealed Aircraft Heim Rod Ends - High Flow Aluminum Intake Manifolds - Thick High Strength Steel Linkage Mounts - Gauze High Flow Air Cleaner Assemblies - Coil Relocation Mount - Brass Fuel Tee - Detailed and Illustrated Instructions - Attractive EMPI Packaging (See page 78 for additional specifications).

EMPI DUAL EPC 34 FOR TYPE 1

We supply these Carburetors with the following already installed:

- 1.75 Needle and Seat
- .150 Main Jet
- .55 Idle Jet
- .175 Air Correction Jet
- F-6 Emulsion Tubes

1500-1600cc Up-Right Based Engines

- 47-7401 EMPI Dual EPC 34 Kit, Type 1 Single Port w/Air Cleaners
- 47-7411 EMPI Dual EPC 34 Kit, Type 1 Dual Port w/Air Cleaners
- 43-1016-1 EMPI EPC 34 Carb. Only, Each

47-7401

47-7411

EMPI DUAL EPC 34 FOR TYPE 3 ENGINES

- 47-7301 EMPI Dual EPC 34 Kit, Type 3 Single Port w/Air Cleaners
- 47-7311 EMPI Dual EPC 34 Kit, Type 3 Dual Port w/Air Cleaners
- 43-1016-1 EMPI 34 Carb. Only, Each

47-7301

EMPI DUAL EPC 34 FOR TYPE 2/4, 914 ENGINES

Distance from Base of Intake Manifold to Top of Air Cleaner is 9 inches. Supplied with spare jets.

- 47-7412 EMPI Dual EPC 34 Kit, 1700-2000cc Type 2/4 & 914 Engines w/Air Cleaners
- 43-1016-1 EMPI EPC 34 Carb. Only, Each

47-7412

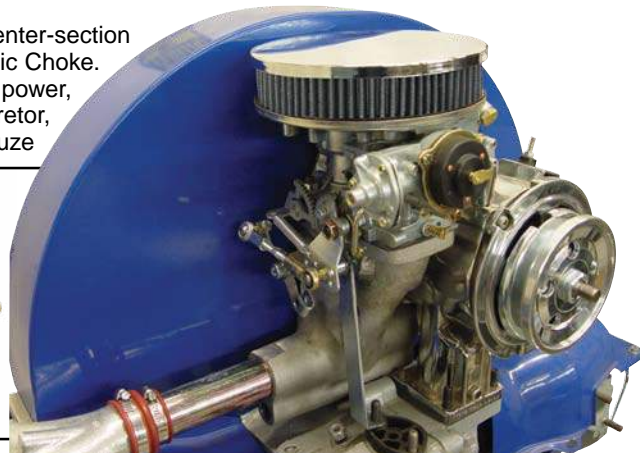

EMPI 38EGAS SINGLE CARBURETOR KIT

A synchronous 38mm, 2-Barrel carburetor perched on an isolated center-section aluminum manifold featuring a true Pre-Heat System and an Electric Choke. This is a perfect intake system for street or off-road offering excellent power, performance and drivability. The kit includes an EMPI 38EPC Carburetor, Intake Manifold with pre-heater tubes, Chrome Air Cleaner with gauze element, linkage, gaskets, hardware and instructions.

Base line jetted for 1600cc.
Must use Electric Fuel Pump.

Factory Jetting:

45 Idle
145 Main
170 Air
F50 E Tube
65 Pump

EMPI VW WEBER IDF CARB KITS - TYPE 1

Performance, reliability and race proven for decades. WEBER Carbs. offer ultimate engine tuning with total air and fuel metering and adjustment. The IDF-XE Plus series IDF's have separate idle and main circuits featuring changeable air and fuel jets. Intake air is metered by changeable venturies and accelerator pump is adjustable for maximum acceleration. Jets, gaskets and repair parts are readily available world wide. All our kits are pre-jetted for VW engines. Choose the appropriate size carburetor for your application. When future engine modification is planned, size-up now! Basic rule of thumb...

- 40mm Carbs. for engines up to 1800cc*
- 44mm Carbs. for engines up to 2200cc

44 IDF carbs come with steel velocity stacks. 40 IDF carbs DO NOT come with velocity stacks.

EMPI DUAL WEBER IDF HEXBAR CARBURETOR KITS

The EMPI WEBER Hex Bar IDF Carburetor Kits have many of the features of our Deluxe WEBER Kits. All Kit features:

Aluminum Alloy Hex Bar with Steel Ball Ends - **Sealed Aircraft Heim Rod Ends** - Offset Aluminum Intake Manifolds - **Thick High Strength Steel Linkage Mounts** - Chrome Air Filters with High Flow Gauze Elements - **Coil Relocation Mount** - Brass Fuel Tee - **Detailed and Illustrated Instructions** - Attractive EMPI Packaging.

43-7315 (Type 1)

SINGLE WEBER IDF TYPE 1 CARB. KITS WITH AIR CLEANER

For those that choose ease of maintenance along with performance gains, the single 40/44 IDF is the set-up of choice. For the basic 1600-1800cc, the 40 IDF Kit is a torquey option. For all out performance, the way to go is the 44 IDF. Both carb. kits come with an assortment of jets to tune your carburetor. EMPI also has available a selection of jets if your application requires further "dialing in". Complete kits feature Aluminum Center-Section Manifold, Aircraft Style Heim Joint Linkage, Chrome Air Cleaner with gauze element, gaskets and hardware. Complete with detailed illustrated instructions and attractive EMPI packaging. Fits Type 1 1600cc based upright engines.

(Requires P/N: 3236 dual port end kit or P/N: 3237 single port end kit).

INTAKE - CARB. KITS & COMPONENTS

EMPI VW WEBER 48 IDA CARB KITS

EMPI has been instrumental in the re-introduction of the ever popular WEBER 48IDA. These are the latest production version model # 48IDA 4R. They are the 2-hole bypass style and come right out of the box with 37mm Venturi's and jet screens already installed. If all-out horsepower is your main concern, EMPI 48IDA's are the best WEBER available for the job. Choose from kits, carburetors only or components, EMPI has them all available.

DUAL 48 IDA KITS FOR TYPE 1

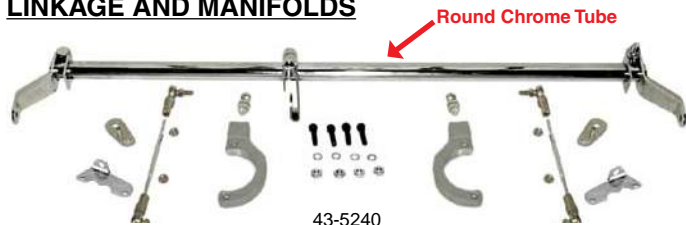

All EMPI dual 48IDA kits come with competition cross-bar linkage. All our kits are supplied with both the aluminum crossbar mounts at the velocity stacks and steel mounts which allow for air cleaner use. "Standard" intake manifolds are clearanced for the area around the upper intake port at head and sheetmetal to limit modifications for installation, but still allowing for match porting with no additional welding required. **The "Race" intake manifolds are for all-out racing head use with more material provided at upper intake port area, so the manifold can be match ported to even the most extensively modified head.** Both manifolds have the same basic "Stock" port design at the base of the manifold so they can be precisely match ported to your particular port shape. (Kits are not supplied with air cleaners). [\(Air cleaners can be seen on page 100\).](#)

- 43-7328 Dual 48 IDA, Type 1, w/Std. Manifolds (Kit supplied with 43-5240 Linkage)

Complete kit for installation on 1700, 1800 or 2000cc Type 2 & 4 engines. Fits both 3 & 4-Bolt Heads. Supplied with a jet package.

- 43-0670 EMPI Deluxe WEBER Progressive Kit w/Air Cleaner
- 43-0670-7 WEBER DFEV Carb. Only

RABBIT/SCIROCCO PROGRESSIVE WEBER KITS

Complete kit comes with Carb. and Air Filter Adapter. For use with stock air cleaner. Supplied with a jet package.

- 43-0800 EMPI Deluxe WEBER Progressive Kit
- 43-0800-7 WEBER DFEV Carb., Rabbit/Scirocco

MANIFOLDS & REPLACEMENT PARTS

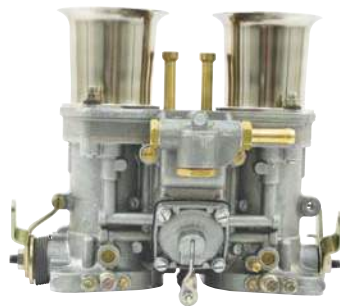

These EMPI manifolds can be used with EMPI EPC 32/36F carbs, WEBER DFEV-DFAV carbs as well as Holley 5200 Series carbs.

- 3232 Progressive Manifold Kit w/Tubes & Bracket, Isolated, Type 1 & 2, w/Hardware
- 3232-7 Replacement Tubes & Brackets Only-for P/N: 3232, Bulk
- 3241 Progressive Manifold Kit, Type 3 & 4, w/Hardware
- 3242 Manifold Runner Kit, Type 3, w/Hardware, Pair
- 3244 Manifold Runner Kit, Type 4, w/Hardware, Pair
- 43-0620 Replacement Electric Choke Element for EPC 32/36F, DFV/DFEV/DFAV
- 43-2130 Replacement Carb. Adapter Kit, Rabbit/Scirocco, w/Hardware
- 43-2135 Replacement Air Filter Adapter Kit, Rabbit/Scirocco, w/Hardware

WEBER CARBURETORS

EMPI is your source for WEBER carburetors.

- 43-1010 40 IDF Carburetor Only
Supplied without velocity stacks
- 43-1012 44 IDF Carburetor Only
- 43-1016 34 ICT Carburetor Only
- 43-1048 48 IDA Carburetor Only
- 43-0622-7 32/36 DFEV Carb. Only, (Electric Choke), Universal and VW Applications

43-1048 (48 IDA)

43-0622-7 (32/36 DFEV)

UNIVERSAL CABLE ADAPTER

Throttle Cable to Carburetor made easy with this simple yet effective Universal Cable Adapter. One end features a heim joint with 10/32" stud to bolt to your carburetor linkage arm. The other end has an adjustable cable nut to secure your throttle cable end. A simple adapter that can become the perfect solution for many carburetor applications.

- 43-0605 Universal Cable Adapter, Set

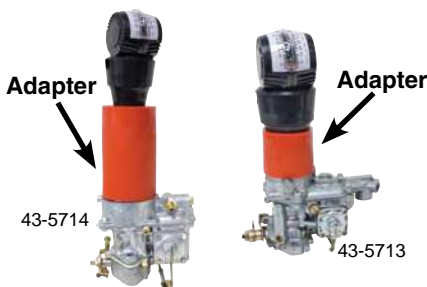

43-5712

5746

CARBURETOR SYNCHRONIZERS

Proper synchronization of dual carburetor set-ups is essential for peak performance. Accurately dial in your carbs with one of these Carburetor Synchronizers. Our P/N: 5746 is the original, SU type, bubble gauge with pivoting gauge tube for down-draft or side-draft applications. P/N: 43-5712 includes two Adapters which allows for 1-tool usage on a wide spectrum of applications. The Pro-Synchronizer will not restrict airflow and feature an easy to read 1-30 kg/h numbered scale for precise synchronization.

- 43-5712 EMPI Universal Pro-Sync, w/2 Adapters
- 5746 SU Type Carburetor Synchronizer

43-5714

43-5713

CARBURETOR SYNCHRONIZER URETHANE ADAPTERS

Dialing in your Dual EPC34s, Weber ICTs and Solex/Brosol just got a bit easier! These urethane adapters are made specifically for these carburetors. With easy push-on fit, they are impervious to gas and oil. Even the Solex/Brosol Adapter fits without removing the air cleaner center stud. For use with P/N 43-5712 EMPI Universal Pro-Sync.

- 43-5713 Synchronizer Adapter 34EPC/34ICT Carburetors, Each
- 43-5714 Synchronizer Adapter Solex/Brosol Carburetors, Each

INTAKE - CARB. KITS & COMPONENTS

HPMX/IDF MANIFOLD & LINKAGE KITS

Individual components allow you to tailor fit a carb kit that's right for you. These manifold and linkage kits are the same high quality components used in our complete carb. kits.

MANIFOLD KITS & MANIFOLDS

High quality aluminum manifolds. All necessary hardware and gaskets are included.

43-1019 Std. EMPI Dual HPMX or IDF Manifold Kit for Type 1 (Used on P/N 43-6317, 43-6319, 43-7317, 43-7319, 47-6317, 47-6319, 47-7317, 47-7319 Series Kits) Ball Burnished Finish. Has extra material for porting **May not fit with stock fan shroud without modification.**

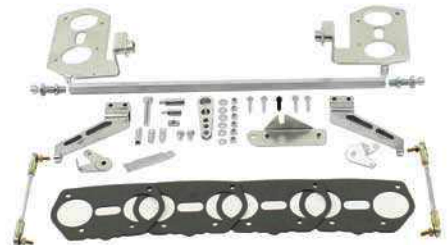

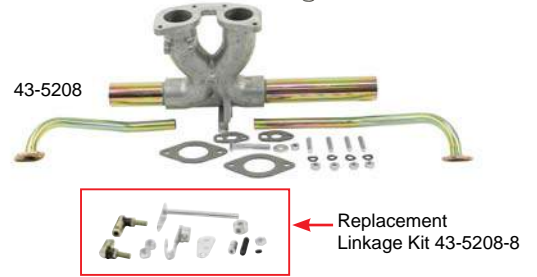

43-5209 EMPI Deluxe Dual HPMX or IDF Manifold Kit for Type 1 (Used on P/N 43-8317, 43-8319, 43-9317, 43-9319, 47-8317, 47-8319, 47-9317, 47-9319 Series Kits) Ball Burnished Finish **Fits with most stock fan shrouds with little or no modification.**

43-5208 EMPI Single HPMX or IDF Manifold Kit for Type 1 (Ball Burnished Finish) **Isolated Design, Complete with Linkage Kit**

43-5208-8 Replacement Linkage Kit only for 43-5208

43-5210 EMPI Dual HPMX or IDF Manifold Kit for 1700-2000cc Type 2/4 & 914 (Ball Burnished Finish)

43-5213 EMPI Dual HPMX or IDF Manifold Kit for Type 3 (Ball Burnished Finish)

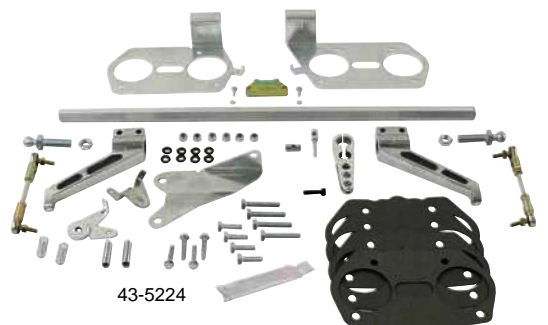

HEX BAR LINKAGE KITS

High quality linkage kits feature thick heavy duty mounting plates, aircraft quality heims and include all necessary hardware and gaskets.

43-5223 EMPI HPMX or IDF Hex Bar Linkage Kit for Type 1 & Type 3 (Used on P/N 43-6317, 43-6319, 43-7317, 43-7319, 47-6317, 47-6319, 47-7317, 47-7319 Series Kits)

43-5224 EMPI HPMX or IDF Hex Bar Linkage Kit for 1700-2000cc Type 2/4 & 914

43-5230 EMPI HPMX or IDF Hex Bar Linkage Kit for Type 1 (Used on P/N 43-8317, 43-8319, 43-9317, 43-9319, 47-8317, 47-8319, 47-9317, 47-9319 Deluxe Series Kits)

EPC 34/ICT MANIFOLD & LINKAGE KITS

Individual components allow you to tailor fit a carb kit that's right for you. These manifold and linkage kits are the same high quality components used in our complete carb kits. See page 78 for Tall 34 EPC / ICT Manifold Kit.

INTAKE - CARB. KITS & COMPONENTS

UNIVERSAL TYPE 1 TWIST STYLE DUAL CARBURETOR LINKAGE

Twist Style Dual Carb Linkage for dual EMPI HPMX / EPC-34 / EPC-48 / EPC-51, Weber IDF / ICT / IDA, Dellorto and Solex/Brosol dual carburetors featuring the best and strongest combination of components: Billet aluminum center stand, 5/16" steel pivot bolt, steel linkage pivot, 3/8" aluminum linkage rods with adjustable Heim Joints and two sets of stamped steel carburetor linkage arms to accommodate EMPI, Weber, Dellorto and Solex/Brosol and other carburetors. Rods may need to be cut to fit certain carburetors.

17-2945 Universal Twist Style Dual Carb Linkage, Type 1 1300-1600

HEX BAR LINKAGE NEEDLE BEARING CONVERSION KIT

Retrofits all EMPI Hex Bar Linkage to upgrade from the Ball & Bushings ends to Needle Bearing for smooth operation and reliability. Helps maintain carburetor and linkage adjustment and synchronization. Easy installation.

44-1127 **NEW!** Hex Bar Linkage Bearing Conversion Kit for EMPI Hex Bar Linkage Kits

Unit Installed

TALL HPMX / IDF MANIFOLD KIT

These manifolds are cast with the NOS Bosses. Complete with all hardware and gaskets. Has extra material for porting.

18-1061 **NEW!** EMPI Dual HPMX or IDF Manifold Kit for Type 1

356/912 PORSCHE MANIFOLD KIT

These trick manifolds allow the owners of early 356/912 Porsches to adapt either 40/44 HPMX or 40/44 IDF carbs to their stock engines. The conversion looks clean and fits in the engine compartment nicely. Gaskets, studs and hardware are included.

48-1295 **NEW!** Dual Manifolds, 356/912, 40/44 HPMX and IDF, Pair

356/912 PORSCHE SOLEX 40P11 TO HPMX/IDF CARBURETOR ADAPTORS

Porsche 356 and 912 used Solex 40P11 carburetors that have become impossible to rebuild or service. These adaptors make it easy to switch to HPMX or IDF carburetors using them with your stock manifolds. Gaskets, studs and hardware are included.

48-1293 **NEW!** Dual Carburetor Adaptors w/Hardware HPMX/IDF to 356/912, Pair

48-1293

LINKAGE COMPONENTS

A selection of the most commonly asked for replacement linkage components. Lost, broken or worn, now you can more easily identify and order the pieces you need to complete your linkage.

43-1060

43-1061

43-1060 **NEW!** Linkage Ball End Bushings, Pr.
These plastic bushings fit all of EMPI Dual Carb Kits for 40/44 HPMX/IDF, 34EPC/ICT with ball ends.

43-1061 **NEW!** Linkage Heim Ends, 10/32 Left & Right, Pr.
These Right & Left Heim Ends are used on most EMPI Dual Carb Kits.

43-5904

43-5904 **NEW!** 40/44 HPMX/IDF **Type 1** Linkage Down Rod with Heim Ends, Short (4 1/2"), Set

Hexrod Assembly used in the following Linkage / Carburetor Kits
For Kit P/N: 43-5223, 43-5230, 43-6317, 43-6319, 43-7317, 43-7319, 43-8317, 43-8319, 43-9317, 43-9319, 47-6317, 47-6319, 47-7317, 47-7319, 47-7332, 47-7335, 47-7336, 47-8317, 47-8319, 47-9317 and 47-9319

43-5905

43-5905 **NEW!** 34EPC/ICT **Type 1** Linkage Down Rod with Heim Ends, Long (6 1/2"), Set

EMPI 40MM DUAL **BROSOL / SOLEX** TYPE 1 CARBURETOR KIT

43-4416

EMPI 40 DUALS FOR TYPE 1 DUAL PORT

Dual 40 Carb kits featuring Brosol/Solex 40mm carbs, cast EMPI manifolds, chrome top air cleaners with washable gauze filters – but now with your choice of Original-Style Linkage or the **NEW EMPI Twist Linkage**, featuring Heim ends, Billet stand and 3/8" aluminum rods - better performance, easier set-up and linkage stays adjusted!

43-4416 EMPI Deluxe Dual 40mm Carb Kit w/EMPI Twist Linkage, Type 1

43-4400 **ORIGINAL** EMPI Dual Carb. Kit, Type 1, Dual Port

43-4400

Carbs supplied with the following Jets installed...
Idle Jet - 55, Main Jet - 130, Air Jet* - 150
*Air Jet cannot be changed. Must be drilled.

New Twist Linkage

Now Available in 44mm & Electric Choke Versions

See page 93 & 97 for further pictures.

43-4417

EMPI'S **BROSOL / SOLEX** JUST GOT BIGGER AND BETTER!

EMPI has raised the bar on the competition for single throat high performance dual carburetor kits. We have taken the great performing 40mm Brosol/Solex and enlarged it to a true high flowing 44mm carburetor. Along the way, we added a 12-Volt electric choke to the new 44mm carburetors so that these new dual carburetor kits can now be fully utilized for cold weather climates. If your existing dual Solex's feel like they could use a little more "punch" or you like the idea of smooth cold starting then upgrade now to a new version of an EMPI Solex/Brosol 44mm dual carburetor kit. Fits all Type 1 & 2 dual port upright 1600cc based engines. These kits utilize the same outstanding manifolds, linkage, air cleaners, hardware, etc. that our "tried and true" P/N: 43-4400 kit uses. Now available with the **NEW EMPI Twist Linkage**. Suggested for 2000cc and larger engines.

Carbs supplied with the following Jets installed...Idle Jet - 60, Main Jet - 145, Air Jet* - 150 *Air Jet cannot be changed. Must be drilled.

Now Available in a 44mm Big Bore Version!

Now Available with Electric Choke!

EMPI 40MM & 44MM DUALS *BROSOL / SOLEX* FOR 1.7-2.0 TYPE 2

The EMPI Dual 40mm carburetor kit has been considered a reliable replacement and a great performance upgrade for a troublesome stock carburetor setup or fuel injection system. With the advent of the EMPI 44mm electric choke Brosol/Solex along with the 44mm non-electric choke carburetors your choices for an upgrade just got larger and broader. For 1.7 – 1.8 motors choose from the 40mm non-electric choke models, these dual carburetor kits will give you crisp throttle response along with great fuel economy. If you have a hi-performance application or a 2.0 or bigger engine then go with the 44mm dual carburetor setup. Then decide if non-electric choke all out performance is what you want or if cold weather smooth running is important choose the 44mm electric choke version. All kits come complete with carburetors, manifolds, linkage kit, hose, gaskets, hardware and detailed instructions.

- 43-4500** EMPI 40mm Dual Brosol / Solex Kit for 1.7–1.8L Type 2's
- 43-4520** EMPI 44mm Dual Brosol / Solex Kit, for 2.0L Type 2's
- 43-4526** EMPI 44mm Dual Brosol / Solex Kit w/Electric Choke for 2.0L Type 2's

- 17-2978 Round Gauze Rubber Flange Air Cleaner for Stock VW Carb., 2" Neck, 5 1/4" Dia. x 2 3/4" High

PROGRESSIVE CARBURETOR AIR CLEANER ADAPTER

This adapter allows installation of our 9001 Spun Aluminum Off-Road Air Cleaner, or any 2 5/8" air cleaner to your EMPI EPC 32/36, Weber or Holley Progressive carburetor, allowing clearance between A/C and carb. Includes gasket and mounting hardware.

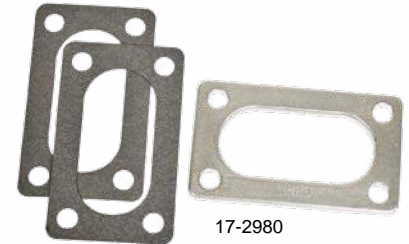

- 9189 Progressive Carburetor Air Cleaner Adapter

CARBURETOR SPACER FOR EPC/DFV/DGV

This die-cast aluminum plenum-style Spacer will add 5.5mm between your carb and manifold to help solve clearance issues for larger Alternators and/or other issues. Use with all EPC, DFV and DGV progressive and synchronous carburetors. Comes with 2 Plenum-cut Gaskets for installation.

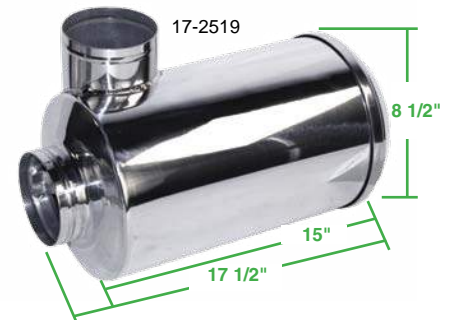

- 17-2980 Carburetor Spacer for EPC/DFV/DGV, 5.5mm, Set w/Gaskets

ALUMINUM AIR FILTERS

This design is used by almost every off road race car racing today. Available with 4" inlets and 4" outlets in either 12" or 15" length housings. This aluminum air filter uses a 2 phase inner filtering system. Choose from right or left side in the 4" X 4" models in both 12" and 15" bodies.

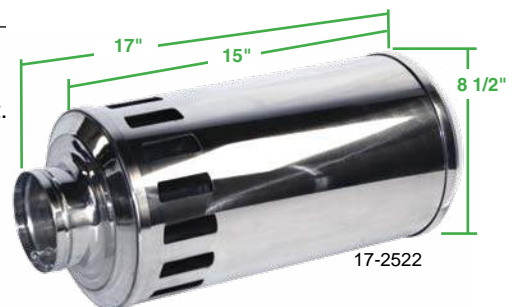

- 17-2516 Air Filter, Polished Aluminum, 12" Body, 4" Inlet, 4" Outlet Left Side, Each (Boxed)
- 17-2517 Air Filter, Polished Aluminum, 12" Body, 4" Inlet, 4" Outlet Right Side, Each (Boxed)
- 17-2519 Air Filter, Polished Aluminum, 15" Body, 4" Inlet, 4" Outlet Left Side, Each (Boxed)
- 17-2520 Air Filter, Polished Aluminum, 15" Body, 4" Inlet, 4" Outlet Right Side, Each (Boxed)

SLOTTED AIR FILTER

The same concept as our other Air Filters, but with a slotted non-directional inlet. Available in 12" and 15" bodies. 4" outlet only. **Supplied without filter element.**

- 17-2521 Slotted Air Filter, Polished Aluminum, 12" Body Each (Boxed)
- 17-2522 Slotted Air Filter, Polished Aluminum, 15" Body Each (Boxed)

EMPI PRE-FILTERS

EMPI Pre-Filters feature a patented "Micro Mesh" Nylon filtration system that stops sand and dirt before it gets to your air cleaner element. Elastic base stretches over your air cleaner for a snug fit with no air restriction to speak of. It installs with virtually no carb. adjustment. Available in different colors with EMPI logo to match your color scheme.

INTAKE - ACCESSORIES, JETS & MISC.

EMPI VELOCITY STACKS FOR 48 IDA / EPC 48 / EPC 51

EMPI's spun aluminum pro stacks use a race proven design to maximize airflow and velocity. Designed to mount just like the originals with no modifications of the carburetor required. Pro Velocity Stacks are not compatible with EMPI King Kong air cleaners.

- 43-6057 EMPI Aluminum Pro Velocity Stacks, 3 1/2" H x 3 7/8" W on Top, Pair
- 43-6052 EMPI Aluminum Replacement Velocity Stacks, 2 7/8" H x 2 3/4" W on Top, Pair
- 43-6191 Large Pre Filter Bootie, 5" Dia, Fits 3 1/2" - 5" Velocity Stacks. Pair, Black, No Logo

EMPI CHROME VELOCITY STACKS

These Chrome Stacks or "Air Horns" aid in prevention of fuel stand-off and look great. Fits all EMPI HPMX, IDF WEBER and DRLA Dellorto carbs. Three sizes are available to aid in matching to proper air cleaner applications. All Stacks are Steel with Chrome finish.

- 43-6050 2 1/4" Chrome Velocity Stacks, Pair
- 43-6054 4" Chrome Velocity Stacks, Pair
- 43-6056 6" Chrome Velocity Stacks, Pair
- 43-6190 Small Pre Filter Bootie, 3 1/2" Dia, Fits up to 3 1/2" Velocity Stacks. Pair, Black, No Logo

VELOCITY STACK COVERS

High quality molded red vinyl caps snap over carburetor velocity stacks to protect from unwanted debris or water entering the carburetor when the vehicle is not being operated.

- 43-5720 Velocity Stack Covers, for IDF & HPMX Carb., Pair (Fits WEBER & EMPI Stacks), I.D. is 2.500"
- 43-5721 Velocity Stack Covers, for 48 IDA / EPC 48 & EPC 51 Carbs., Pair (Fits WEBER Stacks & EMPI Stacks, P/N 43-6052) I.D. is 2.75"
- 43-5722 Velocity Stack Covers, for 48 IDA / EPC 48 & EPC 51 Carbs., Pair (Fits EMPI Pro Velocity Stacks) I.D. is 3.850"

COIL RELOCATION KIT

Relocating the coil from the fan housing is necessary when you install dual carburetors on up-right engines. This engineered kit allows you to tuck the coil neatly out of the way, without modification. Complete with zinc plated bracket and mounting hardware. This kit is normally included in all Type 1 EMPI hex bar carb. kits & linkage kits.

- 43-5204 Coil Relocation Kit

CARBURETOR SYNCHRONIZERS

Proper synchronization of dual carburetor set-ups is essential for peak performance. Accurately dial in your carbs. with one of these Carburetor Synchronizers. Our P/N: 5746 is the original, SU type, bubble gauge with pivoting gauge tube for down-draft or side-draft applications. P/N: 43-5712 includes two Adapters which allows for 1-tool usage on a wide spectrum of applications. The Pro-Synchronizer will not restrict airflow and features an easy to read 1-30 kg/h numbered scale for precise synchronization.

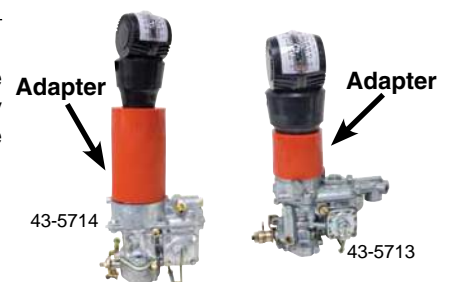

- 43-5712 EMPI Universal Pro-Sync, w/2 Adapters
- 5746 SU Type Carburetor Synchronizer

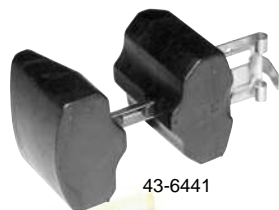

CARBURETOR SYNCHRONIZER URETHANE ADAPTERS

Dialing in your Dual EPC34s, Weber ICTs and Solex/Brosol just got a bit easier! These urethane adapters are made specifically for these carburetors. With easy push-on fit, they are impervious to gas and oil. Even the Solex/Brosol Adapter fits without removing the air cleaner center stud. For use with P/N 43-5712 EMPI Universal Pro-Sync.

- 43-5713 Synchronizer Adapter 34EPC/34ICT Carburetors, Each
- 43-5714 Synchronizer Adapter Solex/Brosol Carburetors, Each

43-6441

CARBURETOR FLOATS

Same floats as supplied in EMPI's carburetors. These new upgraded plastic versions will also fit WEBER carburetors.

- 43-6441 Replacement Float for EMPI 40/44 HPMX or 40/44/48 IDF, Each
- 43-6550 Replacement Float for EMPI EPC 32/36A, E, M, EPC 38, Each
- 43-6820 Replacement Float for EMPI EPC 34 or 34 ICT, Each

43-5715

CARBURETOR TOOLS

These precision tools allow you to fine-tune your carburetors. The Jet Reamer Set features precision tapered reamers that cut to close tolerances. A selection of tapered reamers is packed in a protective plastic case. Know exactly what size you have cut your jets to with our Jet Size Gauges. Two size range gauges are available to fit all applications.

- 43-5715 Jet Reamer Kit
- 43-5716 Jet Gauge, .45mm - 1.50mm Range
- 43-5717 Jet Gauge, 1.50mm - 3.00mm Range

43-5717

43-5716

43-4402

43-5203

BRASS FUEL TEE'S

A must have for all dual carburetor applications. If you are using a plastic tee, now is the time to upgrade. All EMPI Dual Carb. Kits come with Brass Fuel Tee's.

- 43-5203 5/16" Barbed Brass Fuel Tee
- 43-4402 1/4" Barbed Brass Fuel Tee

43-5709

HPMX OR IDF FUEL ENRICHMENT BLOCK-OFF PLATE

Use this chrome plated blockoff plate when you remove the "stock" choke assembly from IDF carburetors. Supplied with screws and washers.

- 43-5709 HPMX or IDF Fuel Enrichment Block-Off Plate

3447

17-2824

HEAT RISER BLOCK-OFF PLATES

Covers heat riser flanges when intake heat riser is not used. A must when installing most dual carb kits. Includes gaskets.

- 3447 Heat Riser Block-Off Plate Kit
- 17-2824 Chrome Heat Riser Block-Off Plate Kit

UNI-LINK KIT

Allows you to adapt your linkage to fit any EPC 32/36F, DFV/DFEV Progressive Carb.

- 43-0602 Uni-Link Kit

EXTRA CLEARANCE NUTS

8mm 1.25 - thread with 11mm outside diameter nuts may be used on intake and exhaust for extra clearance. Made from Brass to resist rust and avoid seized threads.

- 43-6051 Brass 8mm-1.25 thread, 11mm Head, Int./Exh. Nuts, Set of 8
- 43-6051-B Bulk Brass 8mm-1.25 thread, 11mm Head, Int./Exh. Nuts, Bag of 100

INTAKE - ACCESSORIES, JETS & MISC.

EMPI maintains a huge inventory of Replacement Parts and Jets for EMPI/WEBER/Solex Carburetors. For fine tuning of any carburetor listed below, just look up the series of your carburetor and which jet style you need, then match the size of the jet to the EMPI part number listed. All Metering Components listed are sold as "Each's". All component parts are of EMPI's own brand unless specified. (Series are used as reference only).

STOCK REPLACEMENT CARBURETORS

EMPI now has available stock replacement carburetors for most of the popular applications. Whether it's to just keep your car running or a full blown restoration, we have the carburetor that's right for you. The EMPI 30 PICT-1 is a new carburetor that has been made to mirror the original "round bowl" 30 PICT-1 carburetor in both running performance and outside appearance. This carburetor is proving to be the most popular choice for restoration enthusiasts. This carburetor is now SCORE approved for classes 1-2/1600, 5/1600, 9, 11. We also offer an EMPI version of the popular 34 PICT-3 carburetor that has also been engineered "true to the original". This carburetor will cover all 1600cc dual port engine requirements. Stock carburetors from Brosol/Solex are also available along with the most

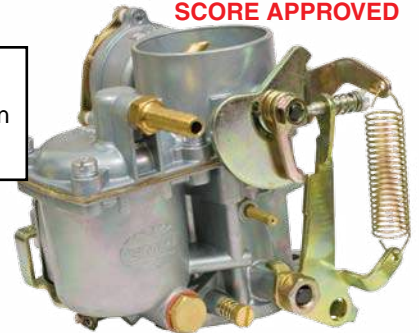

common replacement/service items. EMPI carburetors include gasket and studs. The 34 PICT-3 also includes a jet pack for high ethonal fuels and/or header.

EMPI MODIFIED 30 PICT-1 Carburetor for Off-Road Vehicles

For the hardcore competitor we here at EMPI offer a modified version of our popular 30 PICT-1 carburetor. This new carburetor has been Baja 1000 tested and is SCORE approved with all the features of a winner. The float bowl has been externally vented to help avoid fuel-slosh and flooding on rough terrain and the old vent tube has been removed and plugged. The fuel inlet has been threaded and a screw-in fitting is supplied. Dual return springs alleviate the chance of a stuck open throttle. The choke assembly has been removed and plugged on both sides. This is a serious and well thought-out carburetor but will still require re-jetting for your performance application.

98-1289-B EMPI 34 PICT-3 Carb.
(Ref. P/N: 113 129 031KE) Will clear alternator on late model applications

EMPI 30 / 31 PICT-3 Carburetor

Recommended for all engine sizes up to 1600cc for ease of set up, the 30/31 PICT-3 fits both Single and Dual Port Manifolds and works well with the 009 distributor with less chance of flat spots. It features a 12-Volt Idle Shut-Off Solenoid, has a SVDA Vacuum Port and is a direct replacement for all 12-Volt 30PICT Single Port applications. Customer can remove adapter for use on 30mm 67-70 models.

FUEL FILTER KIT

9065 Fuel Filter Kit, w/Hose & Clamp,
Fits 1/4", 5/16" and 3/8" fittings

FUEL LINE

98-1184-B Steel Fuel Line, 26", Type 1, Ghia 66-74, Type 2 66-74, Type 3 63-71
(Ref. P/N: 113 127 521A)

FUEL HOSE

Heavy duty reinforced fuel hose. Same High Quality Hose as used in all EMPI Carburetor Kits. Available in 1/4" and 5/16" and sold in 3 lengths. We also offer stock style braided fabric fuel hose in 3.5mm I.D. and 5mm I.D.

3525 1/4" x 5' Length, Skin packed
3526 1/4" x 25' Length, Boxed
3527 1/4" x 50' Length, Boxed

3529 5/16" x 5' Length, Skin packed
3530 5/16" x 25' Length, Boxed
3531 5/16" x 50' Length, Boxed

98-0122-B OE Style Braided Fabric Fuel Hose, 3.5mm I.D. x 10 Meter, Bulk
(Ref P/N: N20-353-1)

98-0123-B OE Style Braided Fabric Fuel Hose, 5mm I.D. x 10 Meter, Bulk
(Ref P/N: N20-355-1)

BRAIDED STAINLESS LINE

Our 1/4" (#4) Braided Stainless Line provides good looks and reliability. Sold in 3 lengths.

8810 1/4" x 5' Length, Skin Packed
8811 1/4" x 10' Length, Skin Packed
8812 1/4" x 25' Length, Boxed
9224 Hose Clamp, 1/4" & 5/16", Pack of 4

STOCK FUEL PUMPS AND FUEL PUMP SPACER

Replacement Fuel Pumps.

(See hard parts section in back of catalog for push rods, gaskets, fuel hose, etc.)

98-1271

98-1270
(Chrome)

98-1271 Fuel Pump, 1200-1600cc Type 1/2/3 w/Generator
(Bulk P/N: 113 127 025BCD)

98-1270 Fuel Pump, **Chrome**, 1200-1600cc Type 1/2/3 w/Generator
(Bulk P/N: 113 127 025BCH)

98-2079

98-2080

98-2079 Fuel Pump, 1200-1600cc Type 1 w/Alternator
(Bulk P/N: 113 127 025G)

98-2080 Fuel Pump Spacer, Each
(Bulk P/N: 113 127 303)

98-1181-B

98-1180-B

98-1181-B Push Rod, Fuel Pump w/Alt, (100mm), Type 1 73-74,
Ghia 73-74, Each
(Ref. P/N: 113 127 307A) Used with Alternator / Angled Pump (98-2079)

98-1180-B **NEW!** Push Rod, Fuel Pump, (108mm), Type 1 61-73,
Type 2 61-71, Type 3 62-67, Ghia 61-73, Each
(Ref. P/N: 113 127 307) Used with Generator / Straight Pump (98-1270 / 98-1271)

98-1182-B

98-1183-B

98-1182-B Gasket, Fuel Pump Flange Mounting, Type 1 61-74,
Ghia 61-74, Type 2 61-71, Type 3 64-67, Each
(Ref. P/N: 113 127 311)

98-1183-B Gasket, Fuel Pump Mounting, Type 1 61-74, Ghia 61-74,
Type 2, 61-71, Type 3 64-67, Each
(Ref. P/N: 113 127 313)

31-3011

FUEL PUMP BLOCK-OFF / MOUNT

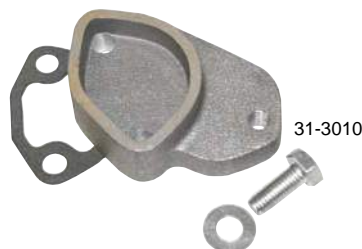

Two versions available to suit your specific needs. Block off with threaded breather boss. Block off in high tech polished Billet aluminum. All include mounting gasket.

9094 Fuel Pump Block-Off w/Boss

31-3011 **Billet Aluminum** Fuel Pump Block-Off

9094

31-3010

ELECTRIC FUEL PUMP MOUNT KIT

Allows for the installation of EMPI or Facet electric fuel pumps in the stock pump location. Hardware and gasket included.

31-3010 Electric Fuel Pump Mount Kit

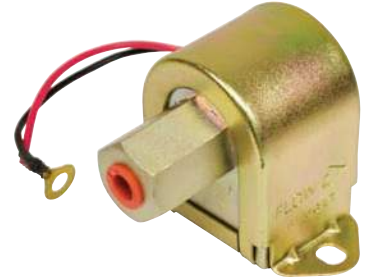

INTAKE - ACCESSORIES, JETS & MISC.

EMPI SOLID STATE ELECTRIC FUEL PUMPS

Solid state circuitry for reliability and made by EMPI with a H.D. metal case so it will work right and last a long time. Available for standard carburetor use in the 1.5 to 4.0 PSI range or also for high performance use in a 4.0 to 8.0 PSI range. (It is highly recommended that a fuel pressure regulator be used with any of these pumps on a carburetor application).

41-2500-8	EMPI Fuel Pump Only, 1.5 - 4.0 PSI, Boxed
41-2510-8	EMPI Fuel Pump, 1.5 - 4.0 PSI, w/Fittings & Clamps, Boxed
41-2500	EMPI Fuel Pump, 1.5 - 4.0 PSI, w/Fittings & Clamps, Skinpacked
41-2520-8	EMPI Fuel Pump Only, 4.0 - 8.0 PSI, Boxed
41-2530-8	EMPI Fuel Pump, 4.0 - 8.0 PSI, w/Fittings & Clamps, Boxed
41-2520	EMPI Fuel Pump, 4.0 - 8.0 PSI, w/Fittings & Clamps, Skinpacked

FACET SOLID STATE ELECTRIC FUEL PUMP

Solid State reliability pumping 30 G.P.H @ 2 to 4 P.S.I. Use with gas or alcohol. (It is highly recommended that a fuel pressure regulator be used with any of these pumps on a carburetor application).

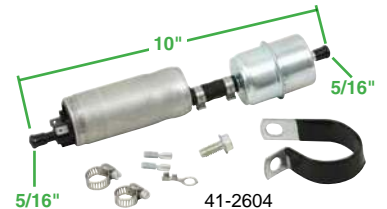

41-2000	Fuel Pump Only, Skinpacked
41-2000-8	Fuel Pump Only, Boxed
41-2010	Pump w/Fittings & Clamps, Skinpacked
41-2010-8	Pump w/Fittings & Clamps, Boxed

IN-LINE FUEL PUMP W/FILTER

This 12V in-line fuel pump provides a quiet 30 GPH fuel flow at 2-4 PSI and requires no pressure regulator. 5/16" inlet and outlet. Fuel filter and mounting hardware included. Can be used with 6 Volts.

41-2604	In-Line Fuel Pump w/Filter
---------	----------------------------

FUEL PRESSURE REGULATOR

Adjust fuel pressure to your carb. to prevent needle & seat damage on performance carbs. Regulators are adjustable from 0 to full wide open flow. You should use a gauge to check the pressure. **Lead Free Gasoline Only, Maximum 7 P.S.I.**

9091	Chrome Fuel Pressure Regulator w/Chrome Bracket
9102	Chrome Fuel Pressure Regulator
9090	Chrome Mounting Bracket for P/N: 9102
9097	5/16" Fuel Fitting for P/N: 9102, Pair
9103	1/4" Fuel Fitting for P/N: 9102, Pair
9224	Hose Clamp, 1/4" & 5/16", Pack of 4

STOCK & EXTRA CAPACITY GAS TANKS

Replace that rusted, dirty old gas tank with a new standard or Extra-Capacity tank. Fits Type 1.

95-2001-B

95-2000-B

95-2004-B

TYPE 1 TANKS

95-2001-B Gas Tank, 60-67 Includes Gas Tank Outlet Pipe Kit. [Must use Gas Cap 95-2005-B.](#)

(Ref. P/N: 113 201 075AB)

95-2000-B Gas Tank, 68-74 Includes Gas Tank Outlet Pipe Kit.

(Ref. P/N: 113 201 075AD)

95-2004-B Extra Capacity 12 1/2 Gal. Gas Tank, 60-67 Includes Gas Tank Outlet Pipe Kit. [Must use Gas Cap 95-2005-B.](#)

(Ref. P/N: 113 201 075/16)

NEW! 95-2002-B

95-2003-B

SUPER BEETLE TANKS

95-2002-B **NEW!** Gas Tank, All Super Beetle (71-74) (Ref. P/N: 133 201 075F)

95-2003-B Gas Tank, All Super Beetle (75-79) (Ref. P/N: 133 201 075G)

TYPE 2 GAS TANKS

95-2008-B Gas Tank, Type 2, 55-67 (Ref P/N: 211 201 055B)

95-2011-B **NEW!** Gas Tank, Type 2, 68-72 Includes Sending Unit, Gas Tank Outlet Pipe Kit and Caps for Vent Lines. Instructions Included.

Uses Special Sending Unit Included with Tank

95-2013-B **NEW!** Gas Tank, Type 2, 73-74 Includes Gas Tank Outlet Pipe Kit and Caps for Vent Lines. Utilizes stock sending unit. Instructions Included.

Uses Stock Sending Unit

(Ref P/N: 211 201 075L)

95-2012-B **NEW!** Gas Tank, Type 2, 75-79 Includes Sending Unit, Gas Tank Outlet Pipe Kit and Cap for Vent Lines. Instructions Included.

EPC 32/36A

EPC 32/36E

EPC 32/36M

EPC 38E

We at EMPI are proud to offer you the finest Carburetor and Carburetor Conversion Kits in the market today. All Carburetors are of EMPI origin. The EPC 32/36 is a Progressive Carburetor. The Progressive features of "Primary" and "Secondary" allow for a very controlled driving experience. The EPC 38 is a "Synchronous" type Carburetor. This means that both barrels are opening simultaneously. This usually allows for more torque (ie. throttle response and overall horsepower) due to more CFM of the Carburetor. To truly realize horsepower gains, additional performance improvements must be done to the engine. EMPI Carburetor numbers are followed by certain letters. The meaning of each is as follows. E = Electric Choke, A = Water Choke, M = Manual Choke, F also has an Electric Choke.

EMPI Performance Carburetor for Jeep Vehicles

We offer two different EPC Carburetors. The EPC 32/36 Progressive Kits are designed for fuel economy and low-end (RPM) performance. The EPC 38 Kits are for people who are looking for maximum performance. All EMPI Kits come complete with all necessary installation hardware and instructions.

Test Run and Adjusted for smooth performance

Linkage Parts for Automatic Transmission

EMPI Carburetor Kit with Air Cleaner

* Jet Kit Now Included in 47-1551 & 47-1551-5 Kits
 1 ea. 43-5330
 1 ea. 43-5331
 1 ea. 43-5506

These will help with richer jetting. Move Main Jets between barrels and go richer with these additional jets if needed

EMPI ELECTRONIC 'ALL-IN-ONE' SINGLE VACUUM ADVANCE DISTRIBUTOR

All new featuring a Magnetic Pick-up with the Amplifier attached to the Distributor for 'All-In-One' ease of installation. Features a smooth advance curve that starts at 1,000RPM and has a total of 18° @ 2,400 RPM with 10° Vacuum Advance.

Requires a Bosch Blue or other hi-energy coil (3.4 ohms primary/12k ohms secondary) w/ built-in resistor. An external ballast resistor may be used between power source and distributor if your coil does not feature a built-in resistor.

(Must be used with a coil with an internal resistor or an external ballast resistor must be used)

- Now with black cap
- May require mounting at 180° to clear some fuel pumps
- Better acceleration... helps eliminate the 'flat spot' on take-off
- Cooler engine temps
- More power throughout the advance curve

Fits the following models (12 volt only):

Type I – Bug/Ghia 1946-1979 (Except EFI Models)

Type 181, 1973-1975 Thing

Type II: 1950-1971 Bus/Transporter

- 9437-B** EMPI Electronic 'All-In-One' Single Vacuum Advance Distributor
- 16-9438** Replacement Black Cap for 9437-B Distributor Only
- 16-9439** Replacement Rotor for 9437-B Distributor Only
- 16-9440** Replacement Dust Cover for 9437-B Distributor Only

EMPI CENTRIFUGAL ADVANCE DISTRIBUTORS

EMPI now offers four distributors. Perfect for Drag and Hot Street. Our Comp Distributors have an advance curve that will allow idle at nearly 0 degrees and advance up to 40 degrees. Our Street Distributors have the same advance curve as the 009. Both utilize the same tune-up components as the 009 and come complete with O-ring.

- 9431-B** EMPI Street Model Centrifugal Advance Distributor, **Standard Curve** similar to Bosch 009. (Boxed)
- 9430-B** EMPI Comp Model Centrifugal Advance Distributor, **Competition Curve**, Not for Street Use (Boxed)
- 9428-B** **NEW!** EMPI Street Model **Chrome** Centrifugal Advance Distributor, **Standard Curve** similar to Bosch 009. (Boxed)
- 9441-B** EMPI Street Model Centrifugal Advance Distributor w/Electronic Ignition Eliminates Points and Condenser (Boxed) **(Must be used with a coil with an internal resistor or an external ballast resistor must be used)** **Standard Curve** similar to Bosch 009.

EMPI REPLACEMENT PARTS

The components below will also fit the Bosch 009 Distributor.

- 16-9433** Replacement Points for EMPI Distributor/009, Each (Bulk P/N: 16-9433-B)
- 16-9434** Replacement Condenser for EMPI Distributor/009, Each (Bulk P/N: 16-9434-B)
- 16-9435** Replacement Cap for EMPI Distributor/009, Each (Bulk P/N: 16-9435-B)
- 16-9436** Replacement Rotor for EMPI Distributor/009, Each (Bulk P/N: 16-9436-B)

IGNITION COMPONENTS

EMPI ACCU-FIRE ELECTRONIC IGNITION KIT

Turns your standard ignition into an Electronic Ignition at an affordable price. Eliminates points and condenser. Dust and water resistant. One kit fits both the 009 and stock vacuum advance distributors that utilize Bosch 044 points. Specification for coils are Primary 3.4 Ohms, Secondary 7.8 Ohms. **(Must be used with a coil with an internal resistor or an external ballast resistor must be used).**

9432 **Accu-Fire** Electronic Ignition Kit

PERTRONIX IGNITOR ELECTRONIC IGNITION

Dependable, self contained and maintenance free, the Ignitor delivers twice the voltage to the spark plugs and features an Adaptive Dwell that maintains peak energy throughout the entire RPM range, reducing misfires while improving engine performance. Legal in all 50 states. (C.A.R.B. E.O. #D-57-22)

17-2985 Ignitor Type 1 68-73 for Vacuum Advance Distributors
17-2986 Ignitor Type 1 68-73 for 050 and 009 Distributors
17-2987 **Ignitor II** Type 1 for 050 and 009 Distributors

COMPUFIRE D.I.S. IGNITION SYSTEM

Eliminates points, rotor, condenser and even the distributor cap! High-Energy Coil fires direct to plugs, having received signal from an electronic sensor. Totally water, dust and dirt proof and fires alternate cylinder simultaneously for cleaner, more efficient fuel burn. **Requires centrifugal advance distributor EMPI P/N: 9430-B, 9431B.**

9419 D.I.S. Ignition System, w/Blue Wires
9420 D.I.S. Ignition System, w/Yellow Wires
9426 Tach Adapter for P/N: 9419/9420

COMPUFIRE ELECTRONIC IGNITION KITS

Turn your standard ignition into an Electronic Ignition with this conversion kit. Eliminates points and condenser. Dust and water resistant. Flawless ignition performance with no points to "bounce". (Similar to EMPI Accu-Fire P/N: 9432). **(Must be used with a coil with an internal resistor or an external ballast resistor must be used).**

9421 Electronic Ignition Kit, 009 Distributor
9422 Electronic Ignition Kit, Stock Distributor
9421-3 Replacement Rotor for P/N: 9421/9422

BILLET ALUMINUM DISTRIBUTOR COVER

Give your centrifugal advance distributor that billet look. Attaches securely with set screws to EMPI P/N 9430-B, 9431B, 9441-B or Bosch 009 Distributors.

16-9545 **Billet Aluminum** Distributor Cover

TRANSPARENT DISTRIBUTOR CAPS

Available in your choice of four different colors. Fits Bosch 009 style distributors.

- 8790 Distributor Cap, Clear
- 8791 Distributor Cap, Red
- 8792 Distributor Cap, Blue
- 8793 Distributor Cap, Gold/Yellow

BOSCH RPM LIMITING DISTRIBUTOR ROTORS

An economical and safe way to protect your engine – limit your RPM. Choose at what RPM you want the rotor to stop firing. Your engine will run smoothly at all RPM ranges, right up to the predetermined limit. Never worry about miss-shifts again. Fits all 009, including EMPI's mechanical advance distributors and 1971 and later vacuum advance distributors using ignition points. Does not work with electronic ignitions.

- 98-9603 Bosch RPM Limiting Distributor Rotor, 5400 RPM, Each
(Ref. P/N: 04-016)
- 98-9604 Bosch RPM Limiting Distributor Rotor, 5800 RPM, Each

(Ref. P/N: 04-028)

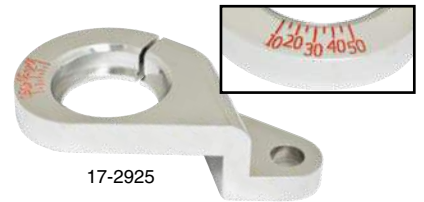

IGNITION COMPONENTS

BILLET DISTRIBUTOR CLAMP

Polished Billet Aluminum Distributor Clamp. Great looking and functional with ignition timing marks in 5° increments from 10-50° and concealed Allen Bolt.

17-2925 Billet Aluminum Distributor Clamp w/ Ignition Timing Marks

BILLET DISTRIBUTOR CLAMP

Precision machined billet aluminum distributor clamp is the high tech solution to problems caused by bent or worn out stamped style clamps.

8912 Billet Aluminum Distributor Hold Down Clamp

DISTRIBUTOR CLAMPS

A high quality replacement for worn out or poor fitting existing clamps. Available in zinc or chrome plated.

8910 Chrome Distributor Clamp w/Nut and Bolt, Each

8909 Zinc Distributor Clamp w/Nut and Bolt, Each
(Bulk P/N: 113 905 250)

COMPU-FIRE HIGH OUTPUT 35,000 VOLT COIL

For use with points or electronic ignition, this Chrome coil is epoxy filled and produces 35,000 volts of power. These will not work on electronic ignition w/o ballast resistor.

17-2959 Compu-Fire 35,000 Volt Chrome Coil, 12-Volt, Each

HIGH OUTPUT COILS

Popular hi-performance coils in 6 and 12-Volt.

9408-B *Bosch Blue Coil, w/o Resistor, w/Bracket, 6-Volt (Boxed), Silver in Color

(Ref. P/N: 00 016)

9409-B Bosch Blue Coil, w/Bracket, 12-Volt (Boxed), Blue in Color
(Ref. P/N: 00 012) Primary 3.4 Ohms, Secondary 7.8 Ohms
Works with electronic ignition.

9406-B *Coil, w/o Resistor-w/Bracket, 12-Volt (Boxed), Blue in Color, EMPI Brand

9404-B *Coil, Bosch, Oil Filled, w/o Resistor, 12-Volt (Boxed), Black in Color (Mexico)

* Note: These 3 coils can be used with points. They would need 3.4 ohms ballast resistor for electronic ignition.

STAINLESS STEEL COIL COVER KIT

Polished Stainless Steel Coil Cover fits all stock style coils for that "Show Look". Includes chrome bracket & hardware and is easy to install.

9064 Stainless Steel Coil Cover Set

BILLET COMBO FUEL PUMP BLOCK-OFF / COIL MOUNT

Polished aluminum Combo Mount serves as a fuel pump block-off, breather vent and ignition coil holder. Features a 3/8 NPT outlet for vent. Great looking and functional - what more can you ask for?

17-2926 Billet Combo Fuel Pump Block-Off / Coil Mount

9407 EMPI 7MM SILICONE HI TEMP COPPER CABLE

9411 EMPI 7MM SILICONE HI TEMP COPPER CABLE

EMPI SILICONE IGNITION WIRE SETS

EMPI 7mm wire sets feature a double-jacket silicone cover to protect against heat and deluxe spark plug boots that seal at the cylinder tin. The extra long 22" coil wire allows the coil to be mounted in various locations. Tailored to fit your VW. Choose from a variety of colors in Copper Core Non-Suppressed. **Made in USA.**

- 9400** EMPI Silicone Wire Set, Copper Core, Yellow
- 9407** EMPI Silicone Wire Set, Copper Core, Blue
- 9411** EMPI Silicone Wire Set, Copper Core, Red

STOCK IGNITION WIRE SET

Super High quality, **Made in USA**, stock replacement 7mm Suppressed wire set with large plug seals.

- 9314** Stock Ignition Wire Set, Black
(Bulk P/N: 111 998 031A)

90° MEGAVOLT IGNITION WIRE SETS

We now offer 8mm MEGAVOLT premium wire sets with 90° end caps for a better fit which results in that cleaner look! We have also added our new stealth gray color. We have still retained the superior quality spark plug boots and extra long coil wire to meet your demands for the best ignition wire sets available. **Copper Core Non-Suppressed.** These wire sets are designed for all Type 1, 2, and 3 engine configurations. **Made in USA.**

- B35202** **NEW!** 90° Megavolt™ Ignition Wires, Yellow
- B35202** **NEW!** 90° Megavolt™ Ignition Wires, Blue
- B35203** **NEW!** 90° Megavolt™ Ignition Wires, Red
- B35206** **NEW!** 90° Megavolt™ Ignition Wires, Grey

TAYLOR SPIRO PRO "409" RACE WIRE SETS

If 7mm wire isn't large enough for you or you have a high output ignition that's overpowering your current wires then these 10.4mm diameter wires are the ones for you! Features include: 8mm silicone ignition wire core, woven fiberglass over-braid and silicone jacketed top layer. Comes with 30" coil wire that can be cut to your exact length. Available in Red, Blue or Black. **Made in USA.**

- 9395** "409" Spiro Pro Race Wire Set, Black
- 9396** "409" Spiro Pro Race Wire Set, Blue
- 9397** "409" Spiro Pro Race Wire Set, Red

BOSCH IGNITION WIRE SETS

High quality Bosch ignition wires

IGNITION COMPONENTS

COMPU-FIRE HIGH OUTPUT STARTERS

Compu-Fire's new Permanent Magnet Gear Reduction (PMGR) Starter Motor for all air-cooled Bug & Bus applications produces 2kw of starting energy by using modern permanent magnet field technology along with a precision wound high amperage armature. The gear reduction has a lower ratio (6:1) to allow easy starts for all large displacement high compression performance engines. The new Starter is assembled in the USA with 100% new components.

- 17-2957** Compu-Fire High Output Starter 12-Volt Type 1, Each
- 17-2958** Compu-Fire High Output Starter 12-Volt Type 2, for 091 Trans, Each (Early Bus w/002 transmission use P/N: 17-2957)

BOSCH STARTERS

There is nothing like the cranking power of O.E.M. Bosch Starters. No Core Required

- 98-9112-B** Starter, 6-Volt Rebuilt, Type1/2/3 thru 66 (Ref. P/N: SR11X)

EXHAUST COMPONENTS

EMPI PREMIUM EXHAUST SYSTEMS

3121

3120

Featuring the EMPI Premium Extractor, made from 1 3/8", 16 gauge steel – mandrel bent for smooth flow and good looks. Extra thick flanges are surface ground to ensure flat sealing surface and finish ground on I.D.s.

Collector is centered and the small 3-bolt flange is at the 1:00 position. Available with Single or Dual Quiet Mufflers...totally re-designed for a perfect, level fit.

Comes with high quality gaskets, stainless steel bolts and copper nuts to resist corrosion. Available with Black painted finish or super durable Ceramic Silver Coat. Fits 1300-1600 Type 1 based engines.

- **Premium Quality - Totally re-designed for a perfect, level fit.**
- **Centered Collector - Small 3-Bolt Flange**
- **1 3/8" Mandrel Bent Steel**
- **Single or Dual Quiet Mufflers w/level fit**

Re-Designed New Level Fit Mufflers and Collector is Centered on Header at 1:00 Position

- 3120 EMPI Premium Exhaust System w/Single Quiet Muffler, Type 1
- 3121 EMPI Premium Exhaust System w/Dual Quiet Mufflers, Type 1

EMPI PREMIUM EXTRACTOR ONLY

EMPI's new premium extractors are made from 1 3/8" 16 gauge steel with extra thick flanges. Tubes are mandrel bent to insure smooth exhaust gas flow. All flanges are surface ground to ensure a flat sealing surface and finish ground on I.D.'s. The 3-bolt muffler flange is at the 1:00 position and will accept P/N 3200, 3201, 3202, 3204, 3205, 3122, 3123, 55-3122, 55-3123 mufflers and P/N 3696, 3697 stingers. Comes with high quality gaskets, stainless steel bolts and copper nuts to resist corrosion. Fits 1300-1600cc Type 1 based engines.

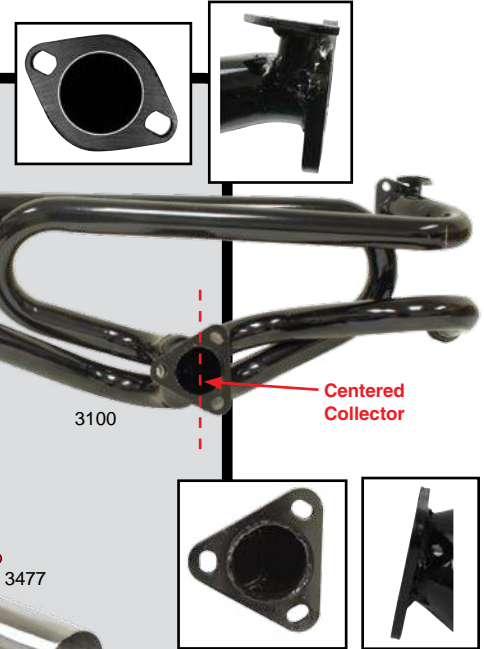

3102

NEW!

3477

- 3100 Premium Extractor Only, Black
- 3102 Premium Extractor Only, **Ceramic Coated**
- 3477 **NEW!** S/S Stinger Only w/ Swivel Flange. Fits 3100 / 3102 / 3767

Centered Collector

Surface ground flanges!

EMPI Headers and Mufflers are coated with a layer of paint which acts as a rust inhibitor - and may burn off once they get hot. It is best to clean off the coating with a good solvent then paint the system with quality hi-temp paint. Systems are not warranted against rust. EMPI offers many Exhaust Systems pre-finished in a Ceramic Coating. Discoloration is not a manufacturing, **chrome** process or **stainless steel** issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

EMPI MUFFLERS FOR PREMIUM EXTRACTORS

SINGLE QUIET MUFFLER

Black with Chrome Tip

SQUARE -TIP EXHAUST SYSTEMS

All new 2-Tip GT Exhaust system featuring 1 3/8" tubing and Dual Chrome Square tips that exit thru the stock apron cut-outs. Complete with hardware and aluminum flex hose.

3675 Square-Tip Exhaust, Black w/ Chrome Square Tips
Type 1 & Ghia, 1300-1600cc, 66-73

EMPI Headers and Mufflers are coated with a layer of paint which acts as a rust inhibitor - and may burn off once they get hot. It is best to clean off the coating with a good solvent then paint the system with quality hi-temp paint. Systems are not warranted against rust. EMPI offers many Exhaust Systems pre-finished in a Ceramic Coating. Discoloration is not a manufacturing, **chrome** process or **stainless steel** issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

'PEA SHOOTER' EXHAUST SYSTEM

All new 2-Tip Pea Shooter Exhaust system featuring 1 3/8" tubing and Dual Chrome 'Pea Shooter' tips with baffles that exit thru the stock apron cut-outs. Complete with hardware and aluminum flex hose.

3680 Pea Shooter Exhaust System - Black w/ Chrome 'Pea Shooter' Tips
Type 1 & Ghia, 1300-1600cc, 66-73

4-TIP GT EXHAUST SYSTEM

European looks with Quiet Muffler featuring 4 Chrome Exhaust Tips with built-in resonators for that unique "GT" sound. Complete with hardware and aluminum flex hose.

EXHAUST COMPONENTS

COMPETITION MERGED EXHAUST SYSTEM

This is the exhaust system for the serious racer. A true merged exhaust. Four 1 5/8" large diameter mandrel bent tubes are cut and fitted into a long merged collector. Header features thick H.D. Flanges with ground flat gasket surfaces. All internal welds are ground for true high flow performance. Includes an EMPI swivel flange racing stinger. Use the hideaway muffler or PHAT Boy to get to & from the track. Eliminates heater boxes. [Type 1 only.](#)

- 3699** 1 5/8" Racing Merged Exhaust Sys., Eliminates Heater Boxes
- 55-3699** 1 5/8" Racing Merged Exhaust System, Eliminates Heater Boxes, **Ceramic Coated**
- 3689**  Dual Quiet Muffler Only for 3699 and 7320 
- 3700** Hideaway Muffler - Fits P/N: 3699 & 7320, with J-Tubes 
- 55-3700** Hideaway Muffler - Fits P/N: 3699 & 7320, with J-Tubes  **Ceramic Coated**

COMPETITION MERGED EXHAUST FOR BOLT-ON HEATER BOXES

EMPI now offers an 1 5/8" Merged Competition Header System for use with special 1 1/2" flanged racing heater boxes. This enables you to have a defroster/heater system and still have a hi-performance merged exhaust system. Header features thick H.D. Flanges with ground flat gasket surfaces. All internal welds are ground for true high flow performance. Headers are supplied with an EMPI swivel flange racing stinger. Heater boxes have lightweight inner coils to still generate good heater output while 1 1/2" tubing allows for less restriction on your hi-performance motor! Header system is provided with a stinger. Then choose from heater boxes or 1 5/8" J-tubes to complete your installation. All components are available also with a ceramic coat finish instead of painted. In addition you can use the hideaway muffler or PHAT Boy to get to & from the track. [Type 1 only. Header & Stinger ONLY.](#)

1 5/8" MERGE HEADER ONLY W/STINGER

- 7320** 1 5/8" Merged Flanged Header Only w/Stinger
- 55-7320** 1 5/8" Merged Flanged Header Only w/Stinger, **Ceramic Coated**

1 5/8" FLANGED J-TUBE FOR P/N: 7320 / 55-7320

- 3422** 1 5/8" J-Tubes for Merged Header, Pair
- 55-3422** 1 5/8" J-Tubes for Merged Header, Pair, **Ceramic Coated**

1 1/2" FLANGED HEATER BOXES FOR P/N: 7320 / 55-7320

- 95-3028-B** Hi-Performance 1 1/2" Flanged Heater Box, Left
- 55-3028** Hi-Perf. 1 1/2" Flanged Heater Box, Left, **Ceramic Coated**

EMPI does not warranty Exhaust Systems against discoloration or bluing.

NEW STAINLESS STEEL EXHAUST SYSTEMS

STAINLESS STEEL EXTRACTOR AND MUFFLERS

STAINLESS STEEL EXTRACTOR & STINGER

Stainless Steel 1 3/8" tubing, Tig welded with thick mounting flanges - fully welded internally. The 3-bolt muffer flange is centered, flange is at the 1:00 position and features oval holes for muffer alignment. May be used with heater boxes or J-Pipes. Complete with aluminum flex hose, gaskets and hardware.

3767 S/S Extractor, Fits Type 1 & 2, 1300-1600 Upright Engines

3477 S/S Stinger Only w/ Swivel Flange. Fits 3100 / 3102 / 3767

STAINLESS STEEL PHAT BOY MUFFLER

Stainless Steel Phat Boy Muffler for P/N 3767 Extractor, includes gasket and hardware. Will only fit 3767 Header.

3765 S/S Phat Boy Muffler for P/N 3767 Extractor Fits Type 1 1300-1600 Upright Engines

3206 S/S Phat Boy Muffler for P/N 3767 Extractor Fits Type 2 1500-1600 Upright Engines

STAINLESS STEEL HIDEAWAY MUFFLER

Stainless Steel Hideaway Muffler for P/N 3767 Extractor. Includes brackets, hardware and gasket.

3763 S/S Hideaway Muffler for P/N 3767 Extractor Fits Bug 1300-1600 Upright Engine Will fit 3767 and 3100 Headers

STAINLESS STEEL J-TUBES

1 1/2" Stainless Steel Tubing J-Tubes, Tig welded with thick mounting flanges, fully welded internally. Will fit most standard extractors. Fits all Type 1 & 2 upright engines. Complete with gaskets. Will fit all EMPI Exhaust.

3768 S/S J-Tubes, Pair, Fits all Type 1 & 2 Upright Engines

Discoloration is not a manufacturing, **chrome** process or **stainless steel** issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

STAINLESS STEEL MERGED COMPETITION EXHAUST SYSTEMS

1 5/8" Stainless Steel tubing, tig welded for strength and good looks and features a true 4 into 1 merged collector. The mounting flanges are thick and fully welded internally. Includes Stainless Steel Stinger w/ Swivel Flange. Complete with gaskets and hardware.

This is a competition system and cannot be used with heater boxes.

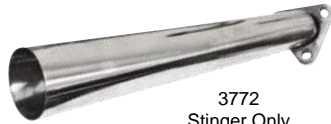

3760
Exhaust w/ Stinger

3760 S/S Merged Competition Exhaust System w/ Stinger, Type 1 Only

3703 S/S Phat Boy Muffler for Merged Exhaust

3772 S/S Stinger Only w/ Swivel Flange Will fit 3760, 3682, 3699 and 7320 Headers

3772
Stinger Only

3703

Thick Flanges

STAINLESS STEEL SIDEFLOW EXHAUST SYSTEMS

Stainless Steel 1 5/8" tubing featuring a true 4 into 1 merged collector. Tig welded for strength and good looks. The mounting flanges are thick and fully welded internally. System includes S/S Quiet Muffler. Complete with gaskets and hardware.

This is a competition system and cannot be used with heater boxes.

3762 S/S Sideflow Merged Exhaust System w/ Muffler, Type 1 Upright Engines Only

3762

3761

STAINLESS STEEL 2-TIP EXHAUST SYSTEM

Stainless Steel Exhaust System— precision-designed with 2 Chrome Baffled Tips that exit thru the stock apron cut-outs. Features thick flanges for secure fit and seal. 1 3/8" S/S Tubing. Includes aluminum flex hose, gaskets and hardware.

3761 Stainless Steel 2-Tip Exhaust, Type 1 1300-1600, Type 1 & Ghia, 1300-1600cc, 66-73

STAINLESS STEEL LATE TYPE 2 & TYPE 4 EXHAUST SYSTEM

1 1/2" Stainless Steel Tubing, Tig welded with thick mounting flanges. Fully welded internally w/ S/S quiet muffler. Complete with gaskets and hardware.

3771 S/S Type 2 & 411, 72-74, Engine 1700-2000cc

3771

Discoloration is not a manufacturing, chrome process or stainless steel issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

BAJA EXHAUST SYSTEMS

Our Baja Systems feature 1 1/2" tubing and provide excellent ground clearance and increased horsepower. Available with Quiet Muffler or Stinger and for use with or without heater. All are Large 3 Bolt Flange and come complete with hardware. Systems with heater include aluminum flex hose. Fits 1300-1600cc. Systems without heater require the use of J-Tubes. Systems that eliminate heater boxes bolt directly to heads.

BAJA EXHAUST SYSTEM - SINGLE QUIET MUFFLER

- 3368 Baja System, Eliminates Heater Boxes
- 3369 Baja System, w/Heater (Incl. Alum. Flex Hose)

BAJA EXHAUST SYSTEM - W/LONG CHROME OR BLACK STINGER

- 3732 Baja System, Black Stinger, Eliminates Heater Boxes
- 3730 Baja System, Black Stinger, w/Heater (Incl. Alum. Flex Hose)
- 3743 Baja System, Chrome Stinger, Eliminates Heater Boxes
- 3741 Baja System, Chrome Stinger, w/Heater (Incl. Alum. Flex Hose)

BAJA HEADER ONLY

- 3466 Header Only, Eliminates Heater Boxes - Fits P/N: 3366/3368
- 55-3466 Header Only, Eliminates Heater Boxes, **Ceramic Coated**, Fits 3368
- 3467 Header Only, w/Heater - Fits 3369 (Includes Alum. Flex Hose)
- 55-3467 Header Only, w/Heater, **Ceramic Coated** - Fits 3369 (Includes Alum. Flex Hose)

BAJA REPLACEMENT MUFFLERS

- 3340 Quiet Muffler w/o Bend, Black
- 55-3340 Quiet Muffler w/o Bend, **Ceramic Coated**
- 3468 Pipe Bend, Black, Connects Muffler to Header, Fits P/N: 3340
- 55-3468 Pipe Bend, **Ceramic Coated**, Connects Muffler to Header, Fits P/N: 55-3340

BAJA STINGERS & BAFFLES WITH LARGE 3 BOLT FLANGE

- 3377 Long Stinger, Chrome
- 3382 Long Stinger, Black
- 55-3382 Long Stinger, **Ceramic Coated**
- 3780-1 Baffle, Fiberglass Wrapped

EMPI Headers and Mufflers are coated with a layer of paint which acts as a rust inhibitor - and may burn off once they get hot. It is best to clean off the coating with a good solvent then paint the system with quality hi-temp paint. Systems are not warranted against rust. EMPI offers many Exhaust Systems pre-finished in a Ceramic Coating. Discoloration is not a manufacturing, **chrome** process or **stainless steel** issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

OFF-ROAD COMPETITION EXHAUST SYSTEMS

Competition-Proven, these systems are designed for maximum horsepower and built to take the punishment of off-road competition. Features a merged, spring-attached collector and are available in 1 1/2" or 1 5/8" tubing. Choose Chrome, Black or Ceramic Coated finish. Available with straight or U-bend stingers. Our Turbo Muffler Kit is sold separately for street or controlled area use. Turbo Muffler Kit supplied with Collector. All systems eliminate heater boxes. Fits 1300-1600cc Type 1 based engines.

3455 Comp Exhaust, 1 1/2" w/Straight Stinger, Black
 55-3455 Comp Exhaust, 1 1/2" w/Straight Stinger, **Ceramic Coated**

STAINLESS STEEL DUAL RACING EXHAUST SYSTEMS

Dual style exhaust features great looks and maximum horsepower. Slip-joints allow for easy installation. Available with or without Muffler Inserts. Eliminates heater boxes. Fits 1200-1600cc engines with most single or dual carburetors except 48's, 51's and EPC 34's.

56-3709 **NEW!** S/S Dual Racing System w/ Inserts

56-3759 **NEW!** S/S Dual Racing System w/o Inserts

3721 Replacement Muffler Inserts, Each

STAINLESS STEEL 4 PIPE STINGER EXHAUST

Commonly known as "Power Pipes" this exhaust provides a unique sound. Used when rear of car doesn't permit conventional exhaust to be installed. Also available are muffler inserts when noise is not desirable.

18-1047

18-1047 **NEW!** S/S 4 Pipe Stinger Exhaust

B253900 **NEW!** Muffler Insert for 18-1047, Each

NEW!

B253900

Discoloration is not a manufacturing, **chrome** process or **stainless steel** issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

SIDE-EXIT OFF-ROAD MERGED EXHAUST

Side-Exit style with our proven 4 into 1 collector with open exhaust exiting to the passenger side. Features 1 5/8" Tig welded steel tubing with thick mounting flanges. Includes hardware, gaskets and springs. For use without heater boxes only. Available in black paint or Ceramic Coated Silver.

- 3470 **NEW!** 1 5/8" Side-Exit Off-Road Exhaust, Black
- 55-3470 **NEW!** 1 5/8" Side-Exit Off-Road Exhaust, Ceramic Coated

OFF-ROAD COMPETITION EXHAUST W/ DUAL QUIET MUFFLERS

Same Competition-Proven Exhaust with Dual Quiet Mufflers in your choice of 1 1/2" or 1 5/8" Tube size. Features a merged, spring-attached collector and includes gaskets, clamps & hardware. Eliminates heater boxes, Type 1 only.

- 3480 **NEW!** Big Engine Exhaust System w/Dual Quiet Mufflers, 1 1/2", Black
- 3479 **NEW!** Big Engine Exhaust System w/Dual Quiet Mufflers, 1 5/8", Black
- 3478 **NEW!** Replacement Dual Quiet Mufflers, Black
Fits 3471, 3479 & 3480 Exhaust Headers
Includes Gaskets. Clamps & Hardware

BIG ENGINE EXHAUST

Long Stroke, Long Rods and Spacers make for wider engines which require an exhaust system that can accommodate the wide build. This newly designed Competition System is designed with slip joints for fitting even the widest engines. Made with 1 5/8" tubing, merged collector and built for maximum horsepower. Works great on standard width engines as well.

Accepts EMPI Baffle P/N 3475-1.

- 3471 **NEW!** Big Engine Exhaust System, 1 5/8", Black
- 3475-1 Fiberglass Wrapped Baffle, Each

DESERT DUELER EXHAUST

Finally a Competition System designed for maximum horsepower and built to take the punishment of off-road competition but made with 1 3/8" tubing for smaller displacement engines. Exits Down with U-Bend and Long Stinger with support brace.

Accepts EMPI Baffle P/N 3780-1.

- 3786 **NEW!** Desert Dueler Exhaust System, 1 3/8" w/U-Bend Long Stinger, Black
- 3780-1 Fiberglass Wrapped Baffle, Each

LOW DUAL ZOOM EXHAUST SYSTEM

Zoom duals are designed for use in vehicles utilizing the stock heater boxes, such as Baja Bugs, Dune Buggies, etc. The racy zoom glass pack mufflers are beautifully chromed for that special look. Was specifically designed to accommodate the kit car and full body dune buggy applications. Comes complete with all necessary hardware including sufficient hose for installations of heater pipes. Fits 63 and later models only.

- 18-1048 **NEW!** Low Dual Zooms W/Chrome Mufflers

EMPI Headers and Mufflers are coated with a layer of paint which acts as a rust inhibitor - and may burn off once they get hot. It is best to clean off the coating with a good solvent then paint the system with quality hi-temp paint. Systems are not warranted against rust. EMPI offers many Exhaust Systems pre-finished in a Ceramic Coating. Discoloration is not a manufacturing, chrome process or stainless steel issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

RACING MUFFLER FOR OFF-ROAD COMP. EXHAUST SYSTEMS

Stainless Steel

This great looking **Stainless Steel** Muffler offers quieter operation without sacrificing performance, thanks to its unrestricted flow through design. Comes complete with Special Down Pipe and Heavy Duty Stainless Mounting Clamps. Easily adapts to any upswept exhaust system with a 2" O.D. stinger pipe (Cut to fit, no welding required). Components can also be purchased separately to aid in making your own custom exhaust system.

- 3782 Racing Muffler Complete Assembly
- 3783 Racing Muffler Only, w/Mounting Clamps
- 3784 Racing Muffler Replacement Mounting Clamps Only
- 3785 Repl. Chrome Down Tube and Clamp for P/N: 3782/3783

Tip:

The P/N: 3735 spark arrestor can be welded to the end of our stainless steel racing muffler to enable you to have a spark arrestor style racing exhaust!

OFF-ROAD COMPETITION EXHAUST SYSTEMS WITH STAINLESS STEEL RACING MUFFLER

Take an outstanding Off-Road Exhaust and add a **Stainless Steel** Muffler to it. The Best just got Better! Utilizing elements of the EMPI **Stainless Steel** Muffler and adding it to our existing Competition Exhaust Systems gives you the ability to bring down the decibels to a decent level and raise the performance and appearance of any ride. EMPI has these systems available in 1 1/2" & 1 5/8" diameters for whichever performance level you require. Choose from Black, Chrome or Ceramic Coated exhaust pipes. Eliminates heater boxes.

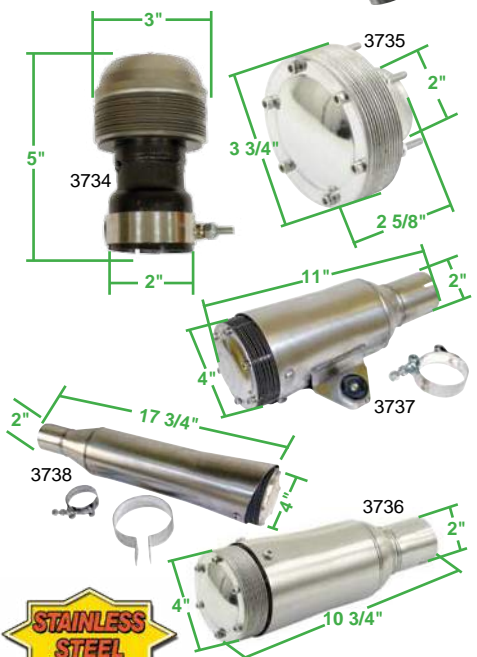

Available with Ceramic Coating

- 3750 Comp Exhaust, 1 1/2", Black, w/**Stainless** Off-Road Muffler
- 55-3750 Comp Exhaust, 1 1/2", **Ceramic Coated**, w/**Stainless** Off-Road Muffler
- 3752 Comp Exhaust, 1 1/2", Chrome, w/**Stainless** Off-Road Muffler

- 3751 Comp Exhaust, 1 5/8", Black, w/**Stainless** Off-Road Muffler
- 55-3751 Comp Exhaust, 1 5/8", **Ceramic Coated**, w/**Stainless** Off-Road Muffler
- 3753 Comp Exhaust, 1 5/8", Chrome, w/**Stainless** Off-Road Muffler

EMPI SPARK ARRESTORS

Many off-road areas now require some form of a spark arrestor to limit the chance of fires. EMPI now has a variety of spark arrestor assemblies to choose from. The 3" & 4" disc kits are for clamp on or weld on installation. The 10" & 17" mufflers are **Stainless Steel** outer shells with 4" discs for fine tuning of your exhaust restriction. All of the assemblies come with long enough screws to add additional discs if your horsepower needs dictate it. The 10" muffler is also available with & without a mounting bracket so you can custom fit it to an existing exhaust system if you so choose.

- 3734 Spark Arrestor, 2" Slip-On, 3" Discs
- 3735 Spark Arrestor, 2" Weld-On, 4" Discs
- 3737 Spark Arrestor, 10" S/S Muffler w/Mount, 4" Discs
- 3736 Spark Arrestor, 10" S/S Muffler w/o Mount, 4" Discs
- 3738 Spark Arrestor, 17" S/S Muffler w/o Mount, 4" Discs
- 3739 4" S/S Discs Only, 6 pcs.
- 3740 Replacement S/S End Cap Bolts, 6 pcs.

STAINLESS STEEL

EMPI Headers and Mufflers are coated with a layer of paint which acts as a rust inhibitor - and may burn off once they get hot. It is best to clean off the coating with a good solvent then paint the system with quality hi-temp paint. Systems are not warranted against rust. EMPI offers many Exhaust Systems pre-finished in a Ceramic Coating. Discoloration is not a manufacturing, **chrome** process or **stainless steel** issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. **Stainless Steel** systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

BUGGY DUAL EXHAUSTS

Due to popular demand, we took our most popular dual buggy exhaust system and redesigned it to be compatible with **any** of our dual carburetor systems. Available in black with chrome tips or ceramic coated. For 1200-1600cc.

- 3373 Buggy Dual Exhaust Black with Chrome Tips, w/o Heater Box
- 55-3373 Buggy Dual Exhaust, w/o Heater Box, **Ceramic Coated**

DUAL RACING EXHAUST SYSTEMS

Dual style exhaust features great looks and maximum horsepower. Slip-joints allow for easy installation. Available in chrome, black, ceramic coated or now stainless steel. With or without Muffler Inserts. Eliminates heater boxes. Fits 1200-1600cc engines with most single or dual carburetors except 48's, 51's and EPC 34's.

- 3708 Dual Racing System w/Inserts, Black
- 55-3708 Dual Racing System w/Inserts, **Ceramic Coated**
- 3709 Dual Racing System w/Inserts, Chrome
- 3758 Dual Racing System w/o Inserts, Black
- 3759 Dual Racing System w/o Inserts, Chrome
- 56-3709 **NEW!** Dual Racing System w/ Inserts, **Stainless Steel**
- 56-3759 **NEW!** Dual Racing System w/o Inserts, **Stainless Steel**
- 3721 Replacement Muffler Inserts, Each

DUAL EXHAUST SYSTEMS

The original "Dune Buggy Duals" feature dual Glass Pack Mufflers with Chrome Tips. Fits 1200-1600cc engines with single carburetor. Must use stock style clip on valve covers. Tight fitting to engine for optimum frame clearance.

- 3376 Dual Exhaust Black with Chrome Tips - w/o Heater Box
- 55-3376 Dual Exhaust - w/o Heater Box, **Ceramic Coated**

CHROME EXHAUST DUAL-TIPS

Chrome Dual Tips without spiral fiberglass core resonators. Easy to weld on, universal application. 1 5/8" I.D. inlet, 2 1/2" O.D. Chrome Tips, 13" overall length.

- 7308 Chrome Dual Tips - w/o Resonator

EMPI Headers and Mufflers are coated with a layer of paint which acts as a rust inhibitor - and may burn off once they get hot. It is best to clean off the coating with a good solvent then paint the system with quality hi-temp paint. Systems are not warranted against rust. EMPI offers many Exhaust Systems pre-finished in a Ceramic Coating. Discoloration is not a manufacturing, **chrome** process or **stainless steel** issue. High exhaust temperatures exceed the capabilities of chrome plating to handle the heat without discoloration. Stainless Steel systems may also experience discoloration due to engine heat. EMPI does not warranty Exhaust Systems against discoloration or bluing.

EXHAUST COMPONENTS

CHROME TAIL PIPE KIT

Replacement Chrome tips for stock muffler. Kit includes 2 tips and 2 clamps.

9915 Stock Tail Pipe Kit
9915-B Bulk Tail Pipe Only, Each

(Ref. P/N: 113 251 163C)

CHROME TAPERED / BAFFLED EXHAUST TIPS

Chrome Tapered Exhaust Tips feature internal baffles. Fits all stock mufflers.

3693 Chrome Tapered/Baffled Tips, Pair
3693-B Bulk Tapered/Baffled Tips, Each
(Ref. P/N: 113 251 163TT)

CHROME EXHAUST TIPS

Chrome Flared or Diagonal cut Exhaust Tips fit all stock mufflers.

3362 Chrome Tips, Flared, Pair
3694 Chrome Tips, Diagonal Cut, Pair

CHROME BAFFLED EXHAUST TIPS

Give your stock muffler a custom look and deeper sound with these "step" pipe exhaust tips. Angle cut extension features a baffled insert for a more "throaty" sound and the chrome plating adds in the looks department. Simply remove the stock "pea shooter" tips and install these replacements.

16-9535 Chrome Tips, Pair

CHEESE GRATER EXHAUST TIPS

Classic look fits over tail pipes on all stock Bug dual-tip mufflers.

95-3050 Chrome Cheese Grater Tips

CHROME ZOOM TUBE

Clamps on to stock Type 1 muffler and replaces stock exhaust tips. Chrome finish and Race-Style looks in minutes!

3360 Chrome Zoom Tube

EXHAUST INSTALLATION KITS

Includes all necessary gaskets, clamps, bolts and nuts for installation of stock muffler or exhaust system.

98-2989 Muffler Inst. Kit, Type 1, 1200-1600cc

(Bulk P/N: 111 298 009F)

3394 Tail Pipe Clamp Kit, Pair (Includes Exhaust Gaskets)

(Bulk P/N: 111 298 051, Clamp Kit Only, Each)

EXHAUST / INTAKE NUT KITS

Choose from a wide variety of styles and materials.

9525 Exhaust Lock Nut Set, Copper, 8pcs.

9525-B Bulk Exh. Lock Nuts, Copper, Bag of 100

(Ref. P/N: 175 129 650)

43-6051 Brass 8mm-1.25 thread, 11mm Head, Int./Exh. Nuts, Set of 8

43-6051-B Bulk Brass 8mm-1.25 thread, 11mm Head, Int./Exh. Nuts, Bag of 100

B250520 **NEW!** HD Racing Exhaust Nuts, Steel Plated, Set of 8
8mm-1.25 Thread, 11mm Head

17-2988 **NEW!** 12 Point 8mm Engine Nuts, 8 pcs

8mm-1.25 Thread, uses 10mm 12 Point Socket

HEATER HOSE CONNECTOR PIPES

Fits like it's O.E.! These zinc plated pipes are what's needed to hook up your fan shroud heater hose to your stock muffler.

98-1004 Heater Hose Connector Pipe to Stock Muffler, Pair

(Bulk P/N: 113 255 165, Each)

HEATER BOX REPAIR PIPES

Repair heater box ends that have rusted or broken away (Zinc plated).

9914 Heater Box Repair Pipes, Pair

(Bulk P/N: 113 255 107X, Each)

EXHAUST COMPONENTS

HEATER BOX J-TUBES

J-Tubes replace stock heater boxes, eliminating heater and saving weight. Fits most header systems and includes gaskets. Sold in pairs.

- 3357** All Up-Right Engines, Black, Skin Packed
- 55-3357** All Up-Right Engines, **Ceramic Coated**
- 3357-8** All Up-Right Engines, Black, Packaged in Poly Bag

3379 Type 3, 63mm x 1000mm, Each, 56 per Case
(Ref. P/N: 616 211 29501)

*Only this size is available in Black.

BULK CARBURETOR PREHEATER HOSE

- 3488** 3/4" x 36", Each, 130 per Case
3489 1" x 36", Each, 77 per Case
3490 1 1/2" x 36", Each, 225 per Case
3491 1 3/4" x 36", Each, 143 per Case

(Comes Bulk or Packaged in Poly Bag)

PACKAGED VW HEATER HOSE (POLY BAGGED)

- 3494** Type 1, 50mm x 1000mm, Each
3706* Type 1, 50mm x 1000mm, **Black**, Each
3495 Type 3, 63mm x 1000mm, Each

*Only this size is available in Black.

PACKAGED CARB PREHEATER HOSE (POLY BAGGED)

- 3496** 3/4" x 36", Each
3497 1" x 36", Each
3498 1 1/2" x 36", Each
3499 1 3/4" x 36", Each

PLASTIC FRESH AIR PRE-HEATER HOSE

Fits between the Fan Shroud and the Upper factory Heater Connector.

- 98-2088** Plastic Fresh Air Pre-Heater Hose, 64 & Later Bug, Ghia, Bus, Thing, Pair
(Bulk P/N: 113 255 292P, Each)

98-2088

WARM AIR HOSE (BELLOWS) - HEAT EXCHANGER TO BODY

Get your heater functioning like new with these factory-styled insulated Warm Air Hoses. They install between the Heater Box and the Body. If you don't have the originals, be sure to measure the ends on the body and the heater box - then the length between the two.

- 98-2524-B** Warm Air Hose, 65 & Prior, 14" Long, 50/50mm, Each
(Ref. P/N: 111 255 355B, Each)
98-2518-B Warm Air Hose, 65 & Prior w/ 1600 Engine, 14.25" Long, 60/50mm, Each
(Ref. P/N: 113 255 355C, Each)
98-2519-B Warm Air Hose, 66-67, 15" Long, 60/64mm, Each
(Ref. P/N: 113 255 355D, Each)
98-2520-B Warm Air Hose, 68-72, 14" Long, 60/60mm, Each
(Ref. P/N: 113 255 355M, Each)
98-2521-B Warm Air Hose, 73-79, 17" Long, 60/60mm, Each
(Ref. P/N: 043 255 355A, Each)

98-2524-B

98-2521-B

STAINLESS STEEL HEATER HOSE CLAMPS

Clamps heater hose securely to fan housing and muffler pre-heater flange. Sold in sets of 4.

- 3380** S/S Heater Hose Clamps, Set of 4

EXHAUST COMPONENTS

SLIP-FLANGE EXHAUST FLANGE GASKETS

These **copper** exhaust flange gaskets are cutout to allow replacement of leaking gaskets without removing the header. The copper material makes gasket blow-outs a thing of the past.

- 3388 1 1/2" I.D. **Copper** Slip-Flange Exhaust Gaskets, Pack of 4
- 3389 1 5/8" I.D. **Copper** Slip-Flange Exhaust Gaskets, Pack of 4

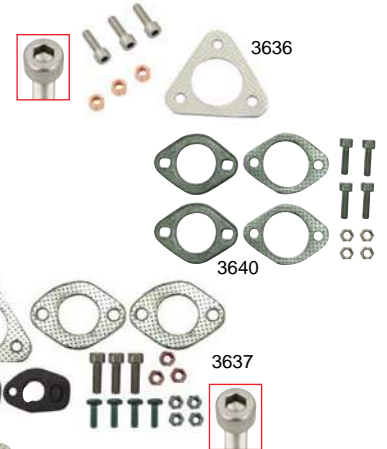

EXHAUST HARDWARE

A selection of the most popular Gaskets, Flanges & Hardware.

Premium Hardware and Flange Kits

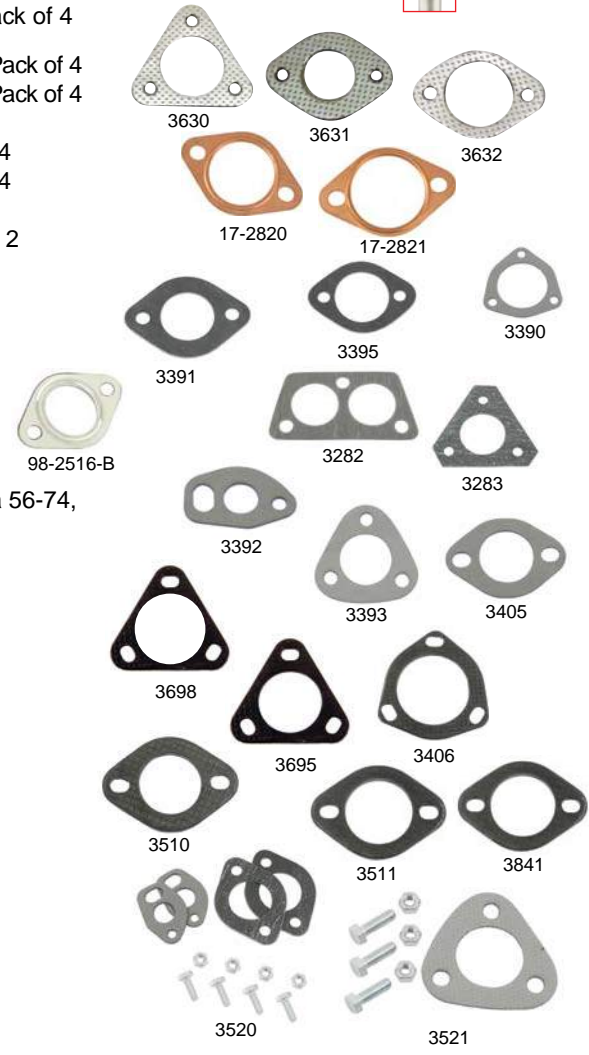

EMPI's Premium Exhaust Gaskets are **steel clad** to provide superior heat resistance and durability. **Stainless steel allen bolts** and **copper nuts** are included in premium kits with "hardware".

- 3636 Premium Small 3 Bolt Muffler Install. Kit w/Hardware
- 3637 Premium Header/Muffler Install. Kit, Gaskets & Hardware
- 3640 Heater Box/J-Tube Exhaust Flange Kit for 1 3/8" Tubing

GASKETS

- 3630 **Steel** Small 3 Bolt Muffler Flange Gasket, Each
- 3631 **Steel** 1200-1600cc Exhaust Port Gasket, 1 1/2" I.D., Pack of 4
- 3632 **Steel** 1200-1600cc Exhaust Port Gasket, 1 5/8" I.D., Pack of 4

HEAVY DUTY SIDE COVER FOR SWING AXLE

Includes Bowden tube bracket.

16-9903

Heavy Duty Aluminum Side Cover for Swing Axle, 2 pc.

HEAVY DUTY SIDE COVER FOR IRS

16-9905

Heavy Duty Aluminum Side Cover for IRS, Each

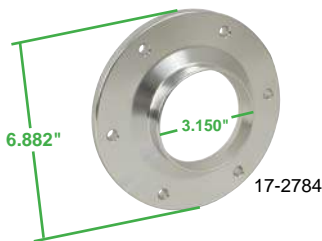

BILLET TYPE I SIDE COVER

Precision machined Billet Side Cover, for swing axle, keeps the ring gear in place under load. Clearanced for mid-engine chassis. Use with P/N 17-2784 billet flange cover.

17-2783

Side Cover, Billet, Each

BILLET AXLE FLANGE

This billet flange cover is machined to be used on our 17-2783 billet side cover. May not fit other side covers.

17-2784

Axle Flange Cover, Billet, Each

SIDE COVER RETAINERS

Includes longer studs, washers, and nuts. For swing axle only.

16-9906

Side Cover Retainers, Kit

BOLT ON BOWDEN TUBE BRACKET

Used for both Bowden tube and hydraulic clutch slave cylinders.

16-9904

Bolt on Bowden Bracket, Zinc, Each

16-9907

Bolt on Bowden Bracket, Late Bus, Chrome, Each

CLUTCH & TRANSMISSION

STEEL TYPE 2 SHIFT BALL

This hardened steel shift ball replaces the factory plastic unit which when subjected to any abuse will usually fail. Precision built to slip right in to your Type 2 IRS transaxle.

B506110  Steel Shift Ball, Type 2 IRS

HD BEARING THRUST PLATES

These strong steel main bearing thrust plates eliminate movement of main shaft bearing. Aids in maintaining the alignment of the gears on the main and pinion shafts to give the gears FULL contact thereby reducing the chances of failure. Allows use of 2 bolt nose cone on a 3 bolt (late model) style transmission (on the T-1 model) and 68 up on the Type 2.

B505810  HD Bearing Thrust Plate, Type 1 & 3, 61-77
B505811  HD Bearing Thrust Plate, Type 2 IRS, 68-79

BUGPACK IRS SUPER DIFFERENTIAL

These units provide the needed strength to withstand the abuse of high horsepower engines. They eliminate the stock housing flex problem in addition to providing for an extra pair of spider gears. Units also allow infinite ring gear lash adjustment and do not affect steering or steering brake operation.

B507210  IRS Super Differential w/o Spider Gears

BUGPACK SWING AXLE SUPER DIFFERENTIAL

After years of intensive research, we are now able to offer the FINEST transaxle Super Diffs ever made. Starting with a high quality, nonporous steel alloy casting and then we totally machine it using only the latest CNC state-of-the-art equipment. Added to this is a precision made steel alloy spider gear section and high tensile snap rings. Use the spider gears of your choice.

B508110  Double Snap Ring Super Diff, Swing Axle, w/o Spider Gears

RING GEAR BOLTS

Quality replacement 9mm Ring Gear Bolts available for both Swing Axle and I.R.S.

98-5144-B 9mm Special Bolt for Ring Gear, (Swing Axle, Short), Bulk, Each
(Ref. P/N: 014 409 135A)

GEARSHIFT HOUSING AND GASKET

98-3006-B Gearshift Housing, Type 1 62-72 w/ Gasket (Mexico)
(Ref. P/N: 113 301 205G)

98-3008-B Replacement Gasket Only, Shift Housing, Type 1 62-72,
Ghia 62-72, Type 3 64-73, Each
(Ref. P/N: 211 301 215)

TRANSAXLE LOCK NUT KIT

Complete kit featuring nylon-insert locking nuts.

9522 Trans-Axle Lock Nut Kit

TRANSMISSION GASKET KIT

All gaskets and seals required to rebuild your transmission.

98-2077 Transmission Gasket Kit
(Bulk P/N: 111 398 005A)

SPECIAL ENGINE STUDS

These 10mm X 100mm Studs solve the problem when adapting Type-2 transmissions to new engine cases. Extra length allows for use of engine mount plates for "all out" race cases.

B653850 **NEW!** Special Engine Stud 10mm X 100mm, Pr.

IRS PIVOT MOUNT BOLT & WASHER

Replace your worn or stripped Pivot Mount Bolts with new. 17mm Head. Fits all I.R.S. trans. Use tool number P/N 5788 or 5773 found on page 433.

17-2826 Pivot Mount Bolt, Each

17-2827 Pivot Mount Washer, Each

FORGED CLUTCH CABLE ARMS TYPE I AND TYPE II

Forged heavy duty clutch cable arms.

16-9908 Clutch Cable Arm, Type I 61-71 and all 002 Type II Transmission, Ea
(Bulk P/N: 131 141 719HD)

16-9909 Clutch Cable Arm, Type I 76-79 and all 091 Type II Transmission, Ea
(Bulk P/N: 361 141 719HD)

CROSS SHAFT BUSHING KIT

Re-bush your cross shaft housing for smooth action and trouble free operation.

98-1088 Cross Shaft Bushing Kit, 21mm, 61-72
(Bulk P/N: 113 198 026)

CLUTCH & TRANSMISSION

SOLID STEEL TRANS STRAP KIT

Heavy Duty Steel Saddle, Mount and Straps eliminate stock mounts and saddle for maximum support with no flex. A must for competition use (Zinc Plated).

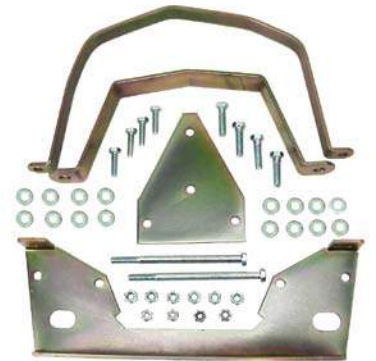

9507 Steel Trans Strap Kit

BUS IRS TRANS TO SEDAN KIT

Bolt in the beefier Bus IRS Trans into your IRS Bug with this adapter kit (Zinc Plated). For added strength and reliability, use EMPI Chromoly I.R.S. Race Axles. Most common is 15 5/8" - your particular application will dictate proper axle length needed. (Silver Plated). Use with P/N 17-2725 Shift Shaft Coupler, T1-T2, Page 383.

3195 Bus to Bug Trans Mount Kit

EMPI CHROMOLY AXLES

- 16-2202 15 5/8", for Type 2 Trans/Type 1 & 2 Joints/Type 1 Suspension, Pair
- 16-2203 15 5/8", for Type 2 Trans/930 C.V. Joints/Type 1 Suspension, Pair
- 16-2206 19 1/4", for Type 2 Trans/Type 1 & 2 Joints/3 x 3 Arms, Pair
- 16-2207 19 1/4", for Type 2 Trans/930 C.V. Joints/3 x 3 Arms, Pair

TRANS STRAP MOUNTING BOLT & WASHER

Replace your worn or stripped Trans Mount Bolts with new. For all swing axle Trans Mounts including stock cradle, securing the stock-style trans cradle or performance trans mounts to yoke.

- 17-2828 Trans Strap Mounting Bolt, Each
- 17-2829 Trans Strap Mounting Washer, Each

TRANSMISSION CENTER SUPPORT

Secures transmission from the bottom of the front case bolts. Supports from frame horns to reduce flex, zinc plated. Urethane stops included.

17-2536 Bolt On Center Transmission Support

BUS TRANSMISSION MOUNT

Weld in front mount brackets for late model bus transmission. Rear bolt mounts and hardware included.

- 17-2537 Bus Transmission Mount Kit
- 17-2538 Bus Transmission Center Mount Only

16-9551

URETHANE TRANS MOUNTS

Made from Injection-Molded Red Urethane, these mounts greatly minimize flexing without the noise of solid steel mounts. Fits 61-72 Type 1.

9540

Urethane Mount Kit w/Hardware, 3-Piece Kit

9539

Urethane Front Mount Only with Bushings, 61-72 Type 1

16-9551

Urethane Front Mount Only with Hardware, [Late Model 3-Bolt Nose Cone for Early Chassis](#)

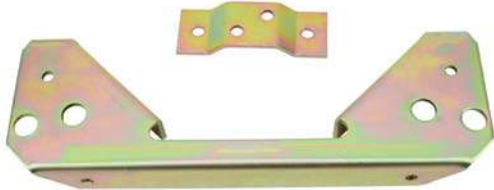

9540

HEAVY DUTY SOLID TRANS MOUNT KIT

Steel Saddle/Mount eliminates flex. A must for Buggies (Zinc Plated).

9530

Heavy Duty Trans Mount Kit

TRANS SUPPORT KIT

Firmly encompasses trans and frame horns to reduce vibration and prevent flex and breakage. Rubber insulation reduces noise. Can be used with stock or urethane mounts (Zinc Plated).

9527

Trans Support Kit, Includes P/N: 9531 & 9532

9531

Front Support Kit Only

9532

Rear Support Kit Only

9532

9531

DELUXE PADDED TRANS SUPPORT KIT

Maximum support with minimal noise. This kit features Heavy Channel-Style Rubber Insulation. Wraps around stock mount saddle. Can use stock or urethane mounts (Zinc Plated).

9550

Deluxe Trans Support Kit

PADDED TRANS SUPPORT KIT

Maximum support while reducing noise, this kit features Channel-Style Rubber Insulation. Includes steel mount saddle that can accommodate stock or urethane mounts (Zinc Plated).

9541

Padded Strap Kit, Includes P/N: 9542/9543

9542

Front Kit Only

CLUTCH & TRANSMISSION

LATE MODEL TRANS MOUNT ADAPTOR

This late model trans mount adaptor takes the hassle out of all Type 1 '73 and later front mounts that require replacement or updating. The adaptor mount is paired with either our early style 2 bolt or later 3 bolt style urethane nose cone mounts. These mounts allow you to use either the early 2 bolt nose cone or later 3 bolt nose cone style transmissions in the late model chassis.

B651950 **NEW!** Trans Mt. Adap. Kit, Late Chassis w/ 2 Bolt Nose Cone (Early Trans)

B651960 **NEW!** Trans Mt. Adap. Kit, Late Chassis w/ 3 Bolt Nose Cone (Early Trans)

SOLID TRANS MOUNTS

Steel Mounts replace stock rubber mounts to eliminate wheel hop and prevent transmission damage. Early 2 bolt and late model 3 bolt mount available. P/N: 9518/9528 kits include hardware (Zinc Plated).

9518 Early Model Steel Trans Mount Kit, Includes P/N: 9528 & 9529
9528 Early Model Steel Front Mount Only, Each
9529 Steel Rear Mounts, Pair
16-9910 Late Model Front Solid Mount, Kit

STOCK TRANS MOUNTS

Replace cracked or broken mounts with new quality rubber mounts.

98-2070-B Transmission Mount – Left Rear Type 1, 73-79, Each (Ref. P/N: 113 301 263C)
98-2071-B Transmission Mount – Right Rear Type 1, 73-79, Each (Ref. P/N: 113 301 264)
98-2073-B Transmission Mount – Front Type 2, 63-67 (Ref. P/N: 211 301 265A)
98-2074 Transmission Mount – Rear thru 72, Each (Bulk P/N: 113 301 263)
98-2075 Transmission Mount – Front Type 1, 62-65, Each (Bulk P/N: 311 301 265A)
98-2076 Transmission Mount – Front Type 1, 66-72, Each (Bulk P/N: 311 301 265B)
98-9972 Transmission Mount – Front Type 1, 73 & later, Each (Bulk P/N: 113 301 265E)

TRANSAXLE ADAPTER

Allows the installation of a full-synchro 61 & later transaxle in 59 and earlier pans. Simple bolt-on installation with bolts and washers (Zinc Plated).

9520 Trans Axle Adapter Kit

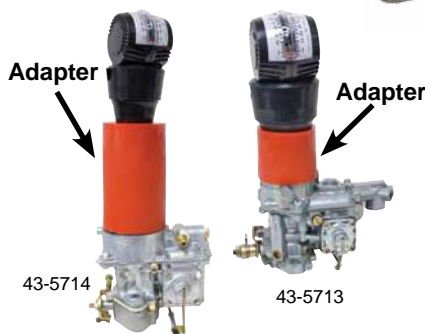

DUAL PORT URETHANE BOOTS

These are the solution to manifold boot problems. Made of corrosion resistant and super durable molded urethane. Quality Step-Style Boots available in Red or Black Urethane. Clamps and quality dual port intake gaskets are included in the two kits.

- 3403-B** Bulk Red Urethane D/P Boot, Each
- 3229** Dual Port Installation Kit utilizing Red Urethane Boots
- 3407-B** Bulk Black Urethane D/P Boot, Each
- 3228** Dual Port Installation Kit utilizing Black Urethane Boots

CARBURETOR SYNCHRONIZER URETHANE ADAPTERS

Dialing in your Dual EPC34s, Weber ICTs and Solex/Brosol just got a bit easier! These urethane adapters are made specifically for these carburetors. With easy push-on fit, they are impervious to gas and oil. Even the Solex/Brosol Adapter fits without removing the air cleaner center stud. For use with P/N 43-5712 EMPI Universal Pro-Sync.

- 43-5713** Synchronizer Adapter 34EPC/34ICT Carburetors, Each
- 43-5714** Synchronizer Adapter Solex/Brosol Carburetors, Each

URETHANE STEERING COUPLER

This Urethane Steering Coupler replaces the standard black rubber disk with a color coordinated, hi-tech polyurethane unit. Fits Type I.

16-5150

- 16-5150** Urethane Steering Coupler Kit (Red)
- 16-5149** Urethane Steering Coupler Kit (Black)

DELUXE SWAY BAR MOUNTING KITS

Urethane Bushings with **Stainless Steel** T-Bolt type clamps. Fits both Ball Joint and Link Pin.

- 9592** Deluxe Mounting Kit, Stock Bar
- 9593** Deluxe Mounting Kit, 3/4" Bar

URETHANE CV FLANGE SEALS

These special urethane seals fit right into the constant velocity joint flanges to prevent the axles from beating the transmission. Tough urethane will not tear or flatten like stock seals. Poly Plugs may require some fitting by sanding or filing. Sold in pairs.

- 17-2930** Poly Drive Flange Plug, Type 1, Pair
- 17-2931** Poly Drive Flange Plug, Type 2, Pair

URETHANE COMPONENTS

URETHANE TRANS MOUNTS

Made from Injection-Molded Red Urethane, these mounts greatly minimize flexing without the noise of solid steel mounts. Fits 61-72 Type 1.

- 9540 Urethane Mount Kit w/Hardware, 3-Piece Kit
- 9539 Urethane Front Mount Only with Bushings, 61-72 Type 1

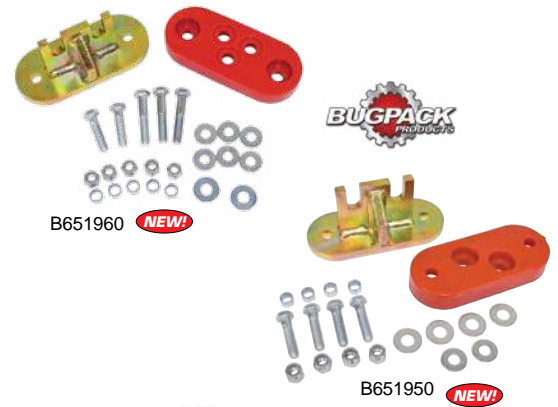

Easily update to the stronger late model 3-bolt nose cone. A non-solid "bolt-in" conversion mount for late model 3-bolt nose cones into early style VW Type 1 chassis. Constructed of durable urethane and complete with all hardware. A "must" for all high performance street and off-road vehicles!

- 16-9551 Urethane Front Mount Only with Hardware, Late Model 3-Bolt Nose Cone for Early Chassis

LATE MODEL TRANS MOUNT ADAPTOR

This late model trans mount adaptor takes the hassle out of all Type 1 '73 and later front mounts that require replacement or updating. The adaptor mount is paired with either our early style 2 bolt or later 3 bolt style urethane nose cone mounts. These mounts allow you to use either the early 2 bolt nose cone or later 3 bolt nose cone style transmissions in the late model chassis.

- B651950 **NEW!** Trans Mount Adapter Kit, Late Chassis w/ 2 Bolt Nose Cone (Early Trans)
- B651960 **NEW!** Trans Mount Adapter Kit, Late Chassis w/ 3 Bolt Nose Cone (Early Trans)

SHIFTER BOX BUSHING

We now offer a trick bolt-on urethane shift rod bushing. Now you no longer have to worry about the OEM bushing falling out or breaking. This product also eliminates all the slop since it is firmly mounted and fits snugly on the shift rod.

- 16-5101 Urethane Buggy Shifter Box Bushing, (Black)

URETHANE SHIFT COUPLER

This heavy duty shifter coupler replaces all round stock couplers. Designed for trouble free installation. Can be used with our shift rod kit.

- 16-5102 Urethane Shift Coupler, Early Style

URETHANE SHIFT COUPLER SETS

The strength and durability of Urethane will out-last and out-perform standard rubber products in every application. This setup ends the trouble of a sloppy shifter coupling. Utilizing urethane bushing pads instead of rubber, the "slop" and vague feeling disappear. Sold as a complete set.

- 16-5103 Urethane Shift Coupler, Late Style, Kit (Ref. P/N: 311 798 211) Type 1 65-79, Ghia 65-74, Type 3 All, Kit

Heavy Duty Steel Cage with heavy duty bolt and Urethane Inserts make this H.D. Coupler the one to use for any performance application.

- 16-5105 H.D. Shift Coupler w/Urethane Inserts & Hardware., Type 1 65-79, Ghia 65-74, Type 3 All, Kit
- 16-5104 **NEW!** Urethane inserts only for Shift Coupler, Pair

CARB ISOLATORS

These innovative Isolator Mounts fit between the intake manifold & carburetor to dampen fuel vibrations in EMPI and Weber float bowls. By absorbing the shock you will reduce fuel foaming, cut down on erratic needle & seat motion, stabilize the fuel curve. Made from specially formulated polyurethane.

B156212 **NEW!** Carb Soft Mounts, Fits 40 IDF Webers & EMPI 40 HPMX, Pair, Black

B156214 **NEW!** Carb Soft Mounts, Fits 48IDA-48IDF Webers & EMPI EPC 48's, Pair, Black

SWAY BAR BUSHING KITS

B650031 **NEW!** Sway Bar Bushing Kit, Frt. 3/4" Super Beetle 71-73, Red

B650032 **NEW!** Sway Bar Bushing Kit, Frt. 3/4" Super Beetle 74-79, Red

B650034 **NEW!** Repl. Bushing Kit, Front 12mm Bar Link Pin / Ball Joint, Red (Original Bugpack P/N was 6500-010)

B650035 **NEW!** Repl. Bushing Kit, Front 3/4" Bar Link Pin / Ball Joint, Red (Original Bugpack P/N was 6500-011)

URETHANE FRONT BEAM BUSHING KITS

We offer the most extensive line of front end bushings in the business. These bushings take the "movement" out of a new or old front end while providing the superior suspension qualities that only urethane can provide. Since urethane is impervious to the elements and wear like "iron"- you'll enjoy many years of performance. In/Out bushings are long one piece units designed to replace BOTH inner and outer with one bushing at the same time giving greater surface to the trailing arm (including custom aluminum and steel beams) while the others replace the outer only.

B652300 **NEW!** Bushing Kit, Outer, Micarta Link Pin, Red

B652320 **NEW!** Bushing Kit, In/Out, Micarta Link Pin, Red

B652400 **NEW!** Bushing Kit, Outer, Needle Bearing Link Pin, Red

B652411 **NEW!** Bushing Kit, Outer, Ball Joint, Red

B652420 **NEW!** Bushing Kit, In/Out, Needle Bearing Link Pin, Red

B652421 **NEW!** Bushing Kit, In/Out, Ball Joint, Red

B658410 **NEW!** Bushing Kit, In/Out, Fits 45mm Alum. Tube, Red

B658411 **NEW!** Bushing Kit, In/Out, Fits 46mm Steel Tube, Red

URETHANE COMPONENTS

URETHANE FRONT BEAM SEALS

High quality urethane parts to replace those stock parts. Not only do they outperform stock parts but they look sharp. Inexpensive suspension upgrade.

- B652310** Urethane Front End Seals, Linkpin, (4), Red
- B652410** Urethane Front End Seals, Ball Joint, (4), Red

CONTROL ARM BUSHINGS

Now the Superbeetle owner can replace his inferior front control arm rubber bushings with these hi-performance urethane pieces. You'll get improved handling due to reduction in the flex and the alignment will last longer. Ideal replacement for worn stock rubber bushings, these urethane units will out last stock rubber bushings. One kit does the whole car.

- B652429** Frt. Control Arm Bushing Kit, Super Beetle, 71-73, Red
- B652430** Frt. Control Arm Bushing Kit, Super Beetle, 74-79, Red
- B652431** Frt Cntr Arm & S Bar Bush Kit, Super Beetle, 71-73, Red
- B652432** Frt Cntr Arm & S Bar Bush Kit, Super Beetle, 74-79, Red

BUS BEAM BUSHINGS

These 3 different bushing kits are made to fit 1955-63, 1964-67 and 1968-1979 as stock replacements or can be used on narrowed beams as well. The specially formulated polyurethane bushings offer years of trouble free motoring when used with supplied synthetic waterproof based grease. Now the Type 2 owners can have the improved performance that only polyurethane can provide.

- B652710** Bus Beam Bushing Kit, 55-63, (4), Red
- B652711** Bus Beam Bushing Kit, 64-67, (4), Red
- B652712** Bus Beam Bushing Kit, 68-79, (4), Red

URETHANE A-ARM GROMMET KIT

Another problem area solved with this slick suspension item. These new urethane a-arm bushings prevent vertical motion at the pivot point which is greatly magnified at the end of the arm, altering any carefully planned alignment. Kit comes complete with four bushings and two steel sleeves to do the job right. Easy slip-in installation.

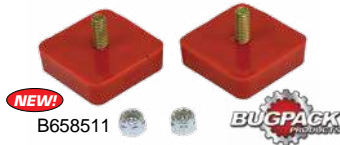

B655700 **NEW!** Rear IRS A-Arm Bushings w/ Sleeves, Red

BUMP STOPS

These stops are made of tough urethane, to far outlast any rubber or nylon types currently used. Stops are designed to distribute the load equally. Sold in pairs.

B658500 **NEW!** Bump Stop, 7/8" x 1 7/8" x 1 3/8" w/ Center Stud, Pr., Red
B658510 **NEW!** Bump Stop, Curved Bottom w/ Center Stud, Pr., Red
B658511 **NEW!** Bump Stop, 5/8" x 2" x 2" Square w/ Center Stud, Pr., Red

URETHANE SNUBBERS

Under most harsh conditions these super tough urethane snubbers will finish the race with you. Resists splitting commonly found with the stock rubber type. Set of two. Fits Type 1 to '65 and Type 2 to '67.

B658600 **NEW!** Urethane Front Snubbers, Pair, Red

BUMP STOPS

Replace those worn out stock rubber bump stops with urethane replacements for all Type 1, 2, and 3 applications.

B658913 **NEW!** Rear Bump Stop, Type 1 & Type 3, Pair, Red
B658923 **NEW!** Rear Bump Stop, Type 2, Pair, Red

URETHANE TIE ROD BOOTS

Made from urethane, these boots are made to withstand the abuse of off-road racing. Superior design keeps dust and dirt from wearing out tie rod end prematurely and they look good.

B557521 **NEW!** Urethane Tie Rod Boots, Stock VW, (4), Red

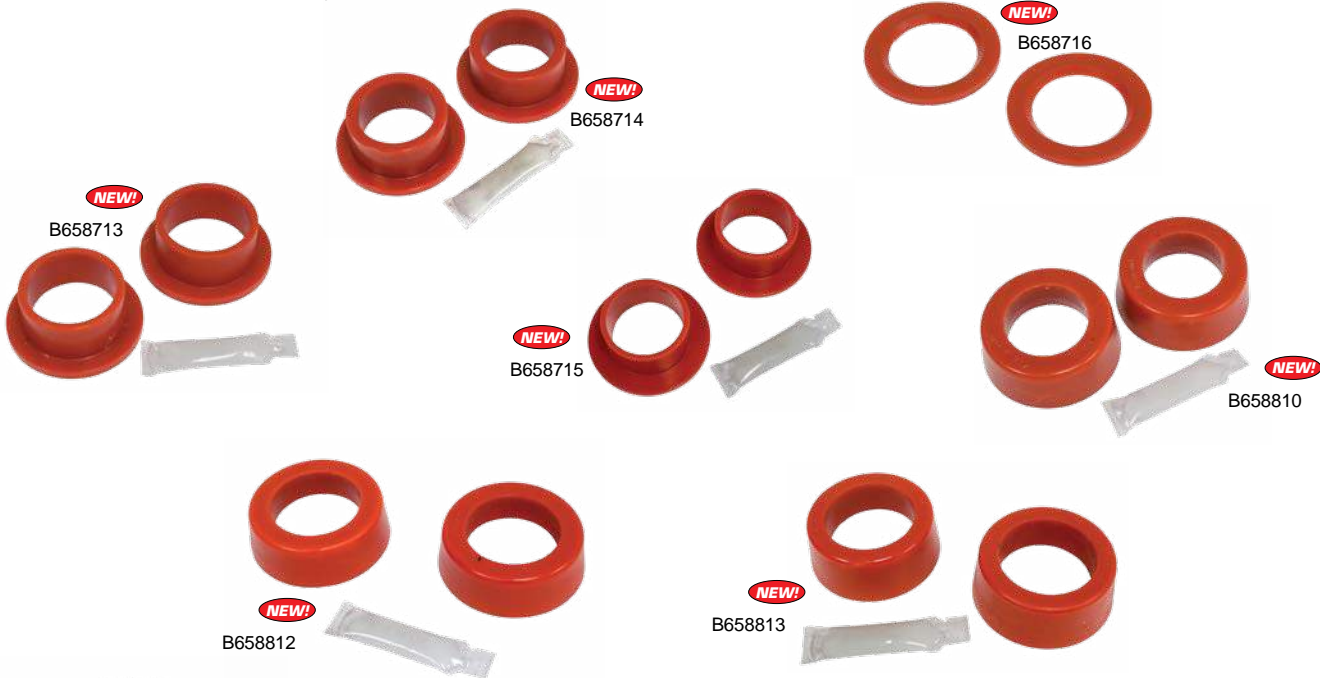

URETHANE COMPONENTS

URETHANE REAR GROMMETS

Rear spring plate grommets designed not to crunch and "bottom out" as soft stock rubber grommets do. The flanged series of grommets are designed for custom made torsion housings.

Note: B658716 Grommet is designed for custom torsion housings only and is used between the spring plate and the torsion housing (inboard side) while the B658713, 14, 15 grommets are used on the outboard side of the spring plate when utilizing custom torsion/spring plate covers.

- B658710** NEW! Knobby Type Grommets, 1-3/4" I.D., Pr., Red
- B658711** NEW! Knobby Type Grommets, 1-7/8" I.D., Pr., Red
- B658712** NEW! Knobby Type Grommets, 2" I.D., Pr., Red
- B658713** NEW! Flanged Grommets, 2-1/4" O.D x 1-7/8" I.D., Pr., Red
- B658714** NEW! Flanged Grommets, 2-1/4" O.D x 1-3/4" I.D., Pr., Red
- B658715** NEW! Flanged Grommets, 2" O.D x 1-3/4" I.D., Pr., Red

(Ref. P/N: 111 411 155)

CASTER SHIMS

Aluminum Caster Shims correct and improve front end geometry on your lowered VW. The longer Caster Shim Bolts provide proper thread grip at pan head.

- 22-2815 Caster Shim, Pair
- 22-2816 Caster Shim Bolts, Pair

SUSPENSION & STEERING

KING PIN/LINK PIN REBUILDING KITS

New Link and King Pin sets. Each kit is enough for both sides. Fits Type 1, thru 65.

98-2065 King Pin Rebuilding Kit
(Bulk P/N: 111 498 021)

98-2066 Link Pin Rebuilding Kit
(Bulk P/N: 111 498 051A)

SWING LEVER REBUILD KIT (TYPE 2)

The vertical pin and bushing that transfers the fore-aft motion of the steering to the side-side motion needed to steer the tires. Kit includes bushings, pin, etc. A reamer is not required to install this kit.

98-4174-B **NEW!** Swing Lever Rebuild Kit, Type 2 68-79
(Ref. P/N: 211 498 171A)

TIE ROD RELOCATION KIT

Eliminate added bump steer and unnecessary tie rod end wear on all lowered ball joint & Link pin front ends. Relocates tie rod end to underside of steering knuckle for improved angles. Requires drilling and the use of late model tie rod ends. Front-end alignment will be necessary for a complete installation.

B661311 **NEW!** Tie Rod Relocation Bushing Kit, Pr.

FRONT END CLAMPS

Mount a VW axle beam to a tube chassis with our Front End Clamps. Made from heavy duty stamped steel. Use the chrome plated clamps for that custom look or the raw version for fabrication. Also can be used to mount Baja Tube Bumpers.

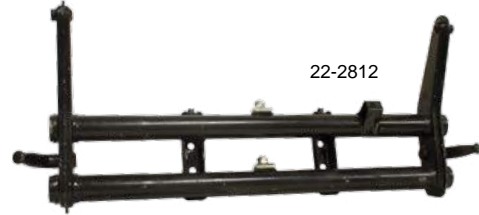

3162 Chrome Axle Beam Clamp Kit, 4 pcs.
3162-7 Bulk Chrome Axle Beam Clamp, Each

Urethane Bushing Application Guide

For use with Stock Spring Plates:

Type 1, Swing Axle, 1950-1959:	1 7/8" Round Inner	–	1 7/8" Round Outer
Type 1, Swing Axle, 1960-1968:	1 7/8" Knobby Inner	–	1 3/4" Knobby Outer
Type 1, I.R.S., 1969-1979:	1 7/8" Knobby Inner	–	1 7/8" Round Outer
Type 1, All with Semi-Automatic Trans:	1 7/8" Knobby Inner	–	1 7/8" Round Outer
Type 3, Swing Axle, 1965-1968:	1 7/8" Knobby Inner	–	1 7/8" Knobby Outer
Type 3, I.R.S., 1969-1979:	1 7/8" Knobby Inner	–	1 7/8" Round Outer

For Use with Aftermarket Spring Plates *Listed on this Page:*

The tubes welded on the spring plates are different than stock. The O.D. of the inner tube is also different than the O.D. of the outer tube.

Non-Adjustable Spring Plates:	1 3/4" O.D. on Inner Tube	–	1 7/8" O.D. on Outer Tube
Adjustable Spring Plates:	2" O.D. on Inner Tube	–	1 7/8" O.D. on Outer Tube

URETHANE TIE ROD BOOTS

Made from urethane, these boots are made to withstand the abuse of off-road racing. Superior design keeps rust and dirt from wearing out tie rod end prematurely and they look good.

B557521 **NEW!** Urethane Tie Rod Boots, Stock VW, Red, 4 Pc.

TIE ROD RELOCATION KIT

Eliminate added bump steer and unnecessary tie rod end wear on all lowered ball joint & Link pin front ends. Relocates tie rod end to underside of steering knuckle for improved angles. Requires drilling and the use of late model tie rod ends. Front-end alignment will be necessary for a complete installation.

B661311 **NEW!** Tie Rod Relocation Bushing Kit, Pr.

- 113 407 361E 98-4525-B Ball Joint, Super Beetle, 71-5/73, Each
- 211 405 371A **NEW!** 98-4524-B Ball Joint, Type 2, 68-79, Each

EMPI LOWERED / RAISED BALL JOINTS

Specially modified ball joints allows more suspension travel for lowered or raised cars. Fits all Type 1, 66-77.

- 22-2820 Upper Clearanced Ball Joint, Each
- 22-2821 Lower Clearanced Ball Joint, Each

EMPI CAMBER ADJUSTERS

When you lower the front of your beetle, the stock camber adjusters on the ball joint front end are unable to compensate enough to maintain proper camber. With EMPI's precision made Camber Adjusters the wheels can be properly aligned.

- 22-2817 Camber Adjusters, for Ball Joint, Pair

EMPI STEERING DAMPERS

Feeling a little shakeeeee lately? Replace that worn out and leaking Steering Damper with a new one.

- 113 425 021 98-4251-B Steering Damper, All Type 1 & Ghia Exc. Super Beetle
- 211 425 021A **NEW!** 98-4253-B Steering Damper, Type 2, 55-79

SUSPENSION & STEERING

SWAY BARS

Improve handling and control body sway while preventing wheel hop under hard cornering. The Type 1 and 3 sway bars are made from heavy 3/4" steel, the Type 2 is made from beefy 7/8". All EMPI High Performance Sway Bars feature zinc plated steel components and hardware along with red urethane bushings.

TYPE 1 SWAY BARS, 3/4"

- 9594 Front Ball Joint, 66 & Later, **Lowered**
- 9595 Front Link Pin, thru 65, **Lowered**
- 9596 Front Link Pin, thru 65
- 9600 Front Ball Joint, 66 & Later

Note: Above 4 numbers reuse original clamps. Stainless steel clamps can be purchased separately.

- 9599 Front Super Beetle, thru 73
- 9601 Front Super Beetle, 74 & Later

Note: Above 2 numbers use original mounting brackets.

- 9598 Rear Swing Axle, thru 68 (Exc. Auto-Stick)
- 9597 Rear I.R.S., 69 & Later
- 9615 Camber Compensator, Swing Axle, thru 68

TYPE 2 SWAY BARS, 7/8"

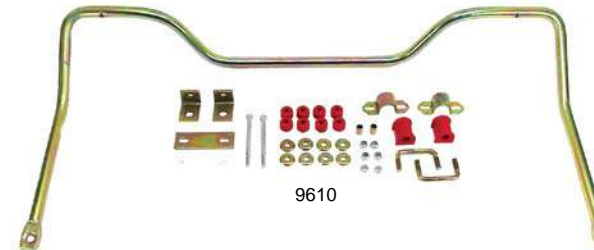

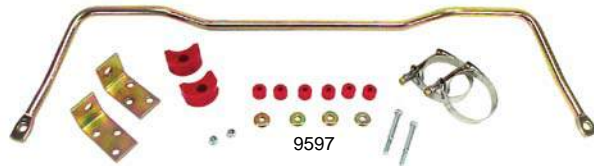

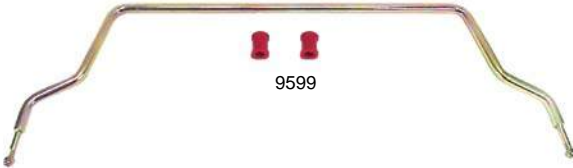

- 9606 Front, 55-67
- 9611 Front, 68-79

Note: Above 2 numbers reuse original clamps.

- 9610 Rear, I.R.S., 68-79 

TYPE 3 SWAY BARS, 3/4"

- 9598 Rear, Swing Axle, thru 68 (Exc. Auto-Stick)
- 9597 Rear, I.R.S., 69 & Later

REAR TRUSS BAR

Triangulates the shock towers and the frame horns, helping to prevent movement of the engine and trans upon acceleration preventing wheel hop. Adjustable rod ends allow for variations and/or preload. Features 3/4" Steel Tubing, Powder-Coated Black for good looks and durability. Fits 1961 & Later Beetle, S/B and Ghia – Swing Axle and I.R.S. Does not fit Thing and will not fit with SR-17 and other tall starters. Some applications may require slight trimming/modification to the body panels for installation.

9657	11"	15 ¹ / ₄ "

EMPI PERFORMANCE GAS SHOCKS

Gas Shocks are far superior and longer lasting than oil filled shocks. EMPI Gas Charged Performance Shocks will improve handling and stability because they adjust to varying road conditions automatically. On smooth roads the shock piston travels freely for a comfortable ride, on rough road surfaces the shock piston compresses more rapidly and the shock responds faster to maintain tire/road surface contact. EMPI's New Gas Charged Performance Shocks are specifically designed and engineered for the VW Beetle, with stock ride height or lowered suspensions. Finished in bright White. EMPI Shocks are sold individually boxed. We now include the compressed overall length (closed position) and also the fully extended (open position). P/N 9656 is supplied with two spacers to fit all the applications listed.

- 9654 EMPI Gas Shock, Front, Link Pin, Lowered, Each
 - 9657 EMPI Gas Shock, Front, Ball Joint, Lowered, Each

SWING AXLE BOOTS

DELUXE

Deluxe Axle Boots feature Wide **Stainless Steel** Clamps, H.D. Hex-Head Plated Steel Bolts and Nylon-Insert Locking Nuts. Available in a variety of colors. Fits all Swing Axle applications.

- 9980 Deluxe Swing Axle Boot, Blue, Pair
- 9981 Deluxe Swing Axle Boot, Red, Pair
- 9983 Deluxe Swing Axle Boot, Yellow, Pair
- 9984 Deluxe Swing Axle Boot, Black, Pair

STANDARD

Standard Swing Axle Boots come complete with installation hardware and are available in a variety of colors. These are the same high quality boots as the Deluxe Boots but with standard hardware and Narrow **Stainless Steel** Clamps.

- 9970 Swing Axle Boot - Blue, Pair
- 9971 Swing Axle Boot - Red, Pair
- 9973 Swing Axle Boot - Yellow, Pair
- 9974 Swing Axle Boot - Black, Pair

- 9979-8 Repl. Clamp Kit, Each, Poly Bagged (Incl. Clamp & Hardware for 1 Boot)

STOCK-STYLE

Not to be confused with inferior quality boots offered by others. EMPI's stock style boots are manufactured in our molds, with high quality neoprene to give you the best boot available. Solid type is a favorite of racers and offers excellent flexibility with no chance of seam problems. Split types were designed for ease of installation and have become the most popular choice for everyday use. Both styles include all necessary hardware.

***Note: Solid boot requires the removal of bearing housings from axle tubes.**

- 9916 Stock Style Split Axle Boot Kit, Each (Bulk P/N: 111 598 021A) Bagged w/Hardware, Each
- 86-1091 Stock Style Split Axle Boot Only, Bulk, Each

- 9917 Stock Style Solid Axle Boot Kit, Each (Bulk P/N: 111 598 151) Boot & Clamps, Bagged, Each
- 9917-7 Stock Style Solid Axle Boot Only, Bulk, Each (Ref. P/N: 111 151 501)

I.R.S. C.V. JOINT BOOTS W/FLANGE

Molded from high quality black Neoprene and feature integral mounting flange. Sets of 4 or each in bulk. [See pages 449-455 for complete Volkswagen C.V. Boot coverage.](#)

- 9994 I.R.S. Boot w/Flange, Type 1, Black, Set of 4
- 86-1084-V (86-1084-0) I.R.S. Boot w/Flange, Type 1, Black, Bulk, Each (Ref. P/N: 113 501 149) I.D. of Metal Flange 46.77mm

- 9989 I.R.S. Boot w/Flange, Late Type 2/4, Set of 4
- 86-1086-V (86-1086-0) I.R.S. Boot w/Flange, Late Type 2/4, Bulk, Each (Ref. P/N: 211 501 149) I.D. of Metal Flange 54.19mm

SEE PAGE 438 FOR ALL TYPES OF C.V. CLAMPS

NEW DRIVE AXLE ASSEMBLIES

EMPI's Axle Assemblies are assembled from all new top quality components manufactured by EMPI. See pages 446 for complete Volkswagen Drive Axle coverage. The same EMPI C.V. Joints and Boots used on these axle assemblies are available in kit form, see pages 447-455. Overall length is given for each axle.

90-6900-C	Type 1 & Ghia, w/I.R.S., 68-79, (16 3/8") (Ref. P/N: 113 501 201D)
90-6905	Thing, w/I.R.S., 73-75, (16 1/8") (Ref. P/N: 447 501 113)

EMPI CONSTANT VELOCITY JOINTS AND KITS

Replace worn and clanking Velocity Joints. Our kits include everything needed to do the job right. Includes: EMPI C.V. Joint, Boot, Clamps, Snap Rings and Grease. See pages 447-448 for complete Volkswagen Constant Velocity Joint coverage.

87-9916-K	C.V. Joint Kit, Type 1 & 3, Vanagon Syncro (Front Inner) 90mm, Each
87-9916	C.V. Joint Only, Type 1 & 3, Vanagon Syncro (Front Inner) 90mm O.D., 6875" Balls, Each (EMPI Replacement Joint for 113 501 331)
87-9917-K	C.V. Joint Kit, Type 2 & Vanagon, 100mm, Each
87-9917	C.V. Joint Only, Type 2 & Vanagon, 100mm O.D., .750" Balls, Each (EMPI Replacement Joint for 211 501 331B)

See 98-5084-B for Off-Road Type 2 Joint on page 215

I.R.S. BOOTS W/FLANGE

9994	I.R.S. Boot w/Flange, Type 1, Black, Set of 4
86-1084-V (86-1084-0)	I.R.S. Boot w/Flange, Type 1, Black, Bulk, Each (Ref. P/N: 113 501 149)
9989	I.R.S. Boot w/Flange, Late Type 2/4, Set of 4
86-1086-V (86-1086-0)	I.R.S. Boot w/Flange, Late Type 2/4, Bulk, Each (Ref. P/N: 211 501 149)

See page 217 for proper installation procedure if C.V. Joints come apart.

SEE PAGE 438-439 FOR ALL TYPES OF C.V. CLAMPS

SUSPENSION & STEERING

EMPI HI-PERFORMANCE C.V. JOINTS

Larger C.V. Joints make it possible to run increased loads and axle angles. EMPI's Hi-Performance C.V. Joints offer all the quality benefits a Hi-Performance C.V. Joint should. They include **Chromoly Cages** and hardened alloy inner/outer races that are precision machined, ground, and hand inspected. Our kits include everything needed to do the job right. Includes: EMPI C.V. Joint, Boot, Clamps, Grease and **NEW Spiral Lock Clip included with all joints for 930.**

- 87-9469-B** **EMPI, Porsche 930 C.V. Joint Only**, 108mm O.D., .875" Balls, Each
28 Spline Inner Race, (Solid Outer Race, **w/Chromoly Cage**)
(EMPI Replacement Joint for 930 332 034 00E)
- 87-9469-K** **EMPI, Porsche 930 C.V. Joint Kit**, 108mm, Each,
28 Spline Inner Race, (Incl. P/N: 86-9301 Boot & P/N: 86-9302 Flange)
- 87-9470-B** **EMPI, Porsche Off-Road 930 C.V. Joint Only**, 108mm O.D., .875" Balls, Each
28 Spline Inner Race, (Solid Outer Race, **w/Chromoly Cage**)
(The fit between balls and tracks is very loose to allow for maximum angles)
- 98-5097-B** **EMPI, Porsche 934 C.V. Joint Only**, 128mm O.D., 1.000" Balls, Each
Large 33 Spline Inner Race, (Solid outer race, **w/Chromoly Cage**)
- 98-5098-B** **EMPI, Porsche 934 C.V. Joint Only**, 128mm O.D., 1.000" Balls, Each
Large 33 Spline Inner Race, (Solid outer race, **w/Chromoly Cage**)
(The fit between balls and tracks is very loose to allow for maximum angles)
- 98-5084-B** **EMPI Off-Road Type 2 C.V. Joint Only**, 100mm O.D., .750" Balls, Each
33 Spline Inner Race, (Solid outer race, **w/Chromoly Cage**)

Chromoly Cages!

98-5097-B

EMPI HI-PERFORMANCE LIGHTENED C.V. JOINTS

Larger C.V. Joints make it possible to run increased loads and axle angles, but in turn add to the mass rotating weight. Reducing this weight can improve acceleration, much like lightening the engine flywheel. EMPI's Hi-Performance Lightened C.V. Joints offer all the quality benefits a Hi-Performance C.V. Joint should. They include **Chromoly Cages** and hardened alloy inner/outer races that are precision machined ground and hand inspected. A reduction in weight as a result of custom machining the O.D. of the outer race adds the finishing touch for a true hi-performance C.V. Joint. This machining process also aids in cooler operating temperatures of the joint in extreme use situations.

- 98-5094-B** **EMPI H.P. Lightened 930 C.V. Joint w/Chromoly Cage**,
108mm O.D., .875" Balls, 28 Spline Inner Race
(The fit between balls and tracks is very loose to allow for maximum angles)
- 98-5096-B** **EMPI H.P. Lightened 934 C.V. Joint w/Chromoly Cage**,
128mm O.D., 1.000" Balls, Large 33 Spline Inner Race
(The fit between balls and tracks is very loose to allow for maximum angles)

C.V. BOLTS

These hardened aircraft quality C.V. Bolts hold it all together. Available with Allen or 12 Pt. Heads for most popular applications ([Bulk quantities available on all part numbers](#)).

- 16-2409** Bolt for Type 1 C.V., M8 x 1 15/16", 12 Pt. Internal, Set of 6
- 87-7701** Bulk Bolt for Type 1 C.V., M8 x 1 15/16", 12 Pt. Internal, Each
(Ref. P/N: 113 501 229D)
- 16-2410** Bolt for Type 1 & 2 C.V., 3/8" - 24 x 1 3/4", Allen Head, Set of 6
- 16-2412** Bolt for Type 1 & 2 C.V., 3/8" - 24 x 1 3/4", 12 Pt., External, Set of 6
- 16-2413** Bolt for 930 C.V., 3/8" - 24 x 2 1/4", 12 Pt., External, Set of 6
- 16-2413-7** **NEW!** Bulk Bolt for 930 C.V., 3/8" - 24 x 2 1/4", 12 Pt., External, Each
- 16-2415** Bolt for 930 C.V., 3/8" - 24 x 2 5/16", 12 Pt., External, Set of 6 (For P/N: 86-9312 Flange)
- 16-2414** Bolt for 934 C.V., 7/16" - 20 x 2 7/16", 12 Pt., External, Set of 6

C.V. JOINT BOLT SOCKET

Available for 6-Point and 12-Point 8mm Hex C.V. joint bolts.

5796

- 5796** C.V. Joint 12-Point Hex Socket, 8mm, 3/8" Drive
- 5797** C.V. Joint 6-Point Hex Socket, 6mm, 3/8" Drive

C.V. JOINT GREASE

EMPI Moly C.V. Joint Grease meets the rigid factory fill requirements set by all major C.V. Joint manufacturers. EP-2 (Extreme Pressure) Additive provides superior protection against seizure under extreme pressure loads. Use EMPI Moly Grease for all long travel play car or racing applications.

86-3009

86-3000/86-3005

- 86-3000** Moly Grease for C.V. Joints, 4 oz. packet
- 86-3005** Moly Grease for C.V. Joints, 3 oz. packet
- 86-3009** Red C.V. Grease, 14oz tube
- 86-3039*** 400 lb. Plastic Lined Drum of Grease
- 86-3027** 35 lb. Drum of Grease

86-3039 / 86-3027

***Shipped via Truck Only**
Grease CANNOT be shipped via AIR

CV JOINT END CAP

87-5870 **NEW!** C.V. Joint End Cap, Fits 87-9469-B, 87-9470-B, 98-5094-B, and 98-5093-B

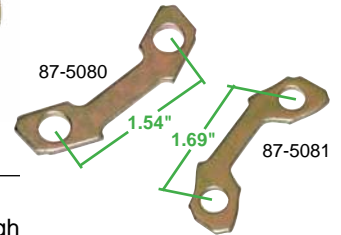

TORQUE DISTRIBUTION WASHER

87-5871 **NEW!** Torque Distribution 930 Washer for 108mm Joint, Each

87-5080 Torque Distribution T-1 Washer for 90mm Joint, Each
(Ref. P/N: 113 501 329)

87-5081 Torque Distribution T-2 Washer for 100mm Joint, Each
(Ref. P/N: 211 501 357)

EMPI RACING C.V. COMPONENTS

You can't win if you do not finish. In mild applications stock C.V joints are fine. If you have a high performance engine or go off-road then step up with our conversion flanges and stub axles. Rugged terrain usage and race applications require the use of our race hardened C.V. components as well. Manufactured by EMPI and hardened for superior strength, these Races and Cages hold up under the most demanding conditions. Cages and Races are designed for EMPI C.V. Joints.

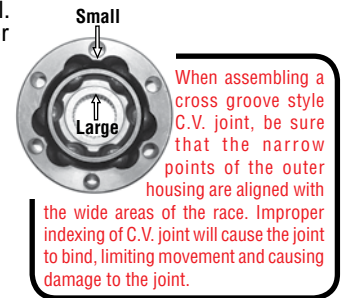

C.V. RACES

16-2630 Type 1 Race Only, (Repl. to fit 87-9916), Each
16-2609 Type 1 Hardened C.V. Race, for 5/8" Balls, Each
16-2607 Type 1 Hardened C.V. Race, for 11/16" Balls, Each

16-2632 Type 2 Race Only, (Repl. to fit 87-9917), Each
16-2634 Type 2 Race Only, (Repl. to fit 87-5084-B), Each

16-2628 930 C.V. Race Only, (Repl. to fit 87-9469-B), Each
16-2629 930 Race Prep C.V. Race Only, (Repl. to fit 87-9470-B), Each
16-2635 930 Race Prep C.V. Race Only, (Repl. to fit 98-5094-B), Each
16-2640 **NEW!** Chromoly 930 Race Only, (Fits 87-9469-B), Each

16-2606 934 C.V. Race Only, (Repl. to fit 98-5096-B, 98-5097-B), Each
16-2627 934 Race Prep C.V. Race Only, (Repl. to fit 98-5098-B), Each

When assembling a cross groove style C.V. joint, be sure that the narrow points of the outer housing are aligned with the wide areas of the race. Improper indexing of C.V. joint will cause the joint to bind, limiting movement and causing damage to the joint.

930 C.V. RACE "KIT"

This special made 930 race is designed specifically for high strength, durability and long wheel travel in applications that require such attributes. The race is supplied with special .874" balls so that the race / ball combo allows for a "loose" high travel joint. The design of this kit is such that either new or used 930 EMPI joints can benefit from this kit and the C.V. Joint can be made to operate as if it was a custom ground / deburred / modified joint. (.874" balls can also be ordered separately, see P/N: 16-2619).

16-2611 930 Race w/Balls Kit, Each

CHROMOLY CAGES

These high quality chromoly cages are the same as supplied in our EMPI hi-performance lightened C.V. joints. Chromoly construction adds the necessary strength and durability while radiused windows and surface ground tolerances provide the quality fit that EMPI is known for. These cages are a required item if you want the most operating angle from your 930 or 934 C.V. Joint and if you want to eliminate breakage from inferior designed cages.

16-2615 930 H.P. Chromoly C.V. Cage, for 7/8" (.875") Balls, (Can also be used with .874" balls). Fits all EMPI C.V. Joints for 930, Each

16-2616 934 H.P. Chromoly C.V. Cage for 1" Balls. Fits all EMPI C.V. Joints for 934, Each. Fits all EMPI C.V. Joints for 934, Each

16-2633 Type 2 Chromoly C.V. Cage Only (Repl. to fit 98-5084-B), Each

16-2611

C.V. CAGES

16-2617 Type 1 Cage Only (Repl. to fit 87-9916), Each

16-2631 Type 2 Cage Only (Repl. to fit 87-9917), Each

16-2615

C.V. BALLS

16-2624 C.V. Ball, 5/8", for Type 1 Joints, 24 pcs.

16-2619 C.V. Ball, .874", for 930 Joints, 24 pcs.

16-2620 C.V. Ball, .873" (.002" undersize), for 930 Joints, 24 pcs.

16-2621 C.V. Ball, 7/8" (Standard Size - .875"), for 930 Joints, 24 pcs.

16-2622 C.V. Ball, 1" (Standard Size), for 934 Joints, 24 pcs.

FORGED TRANSMISSION DRIVE FLANGES

EMPI's conversion drive flanges and stub axles are necessary items to upgrade your suspension to larger C.V. Joints. All EMPI drive flanges are **forged from chromoly** high strength steel that is then precision machined and heat treated to handle years of off-road abuse. Some flanges feature C.V. bolt holes that are made with 3/8" - 24 threads to accommodate heavy duty bolts. Use these flanges in conjunction with EMPI stub axles, heavy duty cages, races, boots and boot flanges to upgrade an existing suspension to a long travel, high performance suspension!

- 16-2299** Type 1 Trans. to Type 2 Joint, 33 Splines, 36mm Nose, M8 Threads, Pair
- 16-2301** Type 1 Trans to 930 Joint, 33 Splines, 36mm Nose, 3/8" - 24 Threads, Pair
- 16-2302** 002 Type 2 Trans to 930 Joint, 37 Splines, 42mm Nose, 3/8" - 24 Threads, Pair
- 16-2303** 091 Type 2 Trans to 930 Joint, 40 Splines, 45mm Nose, 3/8" - 24 Threads, Pair
- 98-5140-B** Plug, Final Drive, Type 2, 69-79, Each
Fits P/N's 16-2301, 16-2302 and 16-2303
New Tooling For Tight Fit

(Ref. P/N: 002 517 289A)

- 17-2930** Poly Drive Flange Plug, Type 1, Pair
- 17-2931** Poly Drive Flange Plug, Type 2, Pair

Poly Plugs may require some fitting by sanding or filing.

Forged Chromoly!

FORGED CONVERSION STUB AXLES

EMPI's Conversion Stub Axles feature all the same high quality elements as our drive flanges; Including **forged chromoly** construction, precision CNC machining and following the proper heat treat specifications. Converting any stock or aftermarket trailing arm that uses stock I.R.S. bearings and seals has never been easier. Fully compatible with drum or disc brakes. EMPI also offers Micro Stub versions for 930 and 934 applications.

- 16-2304** Conv. Stub Axle for Type 1 to Type 2 Joint, 8mm Threads, Each
- 16-2306** Conv. Stub Axle for Type 1 to 930 C.V. Joint, 3/8" - 24 Threads, Each
- 16-2307** Conv. Stub Axle for Type 1 to Type 2 Joint, Short for 5-Lug Drum, 8mm Threads, Each
- 16-2308** Standard Size Stub Axle for Type 1, 8mm Threads, Each
(Ref. P/N: 113 501 231)

Forged Chromoly!

FORGED MICRO STUB AXLES

- 16-2310** Micro Stub Axle w/Washer For 930 C.V. Joint, 3/8" - 24 Threads, Each
- 16-2311** Micro Stub Axle w/Washer For 934 C.V. Joint, 7/16" - 20 Threads, Each
- 16-2421** Spindle Nut M24 x 1.5, Each
(Bulk P/N: 311 501 221)

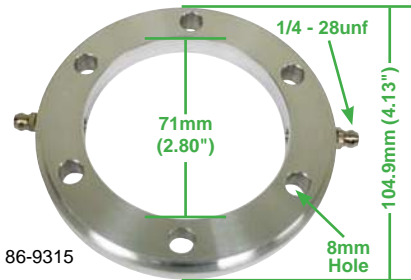

SUSPENSION & STEERING

EMPI C.V. BOOT GREASE FLANGES

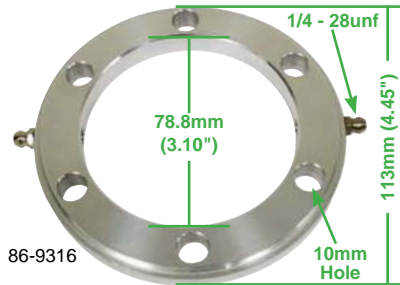

Machined Billet Aluminum Grease Flanges allow you to grease your C.V. Joints without removing the boots. May require longer bolts.

- 86-9315 Grease Flange, Bus – for 8mm Bolts.
- 86-9316 Grease Flange, 930 – for 10mm / 3/8" Bolts.
- 86-9317 Grease Flange, 934 - for 12mm / 7/16" Bolts.

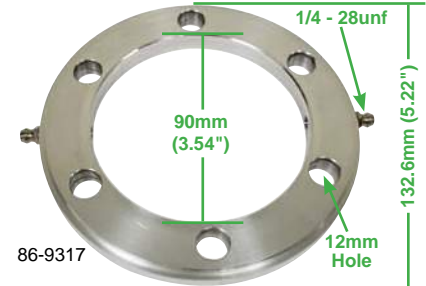

All Flanges have 2 Grease Fittings and are 10.20mm Thick

86-9315

86-9316

86-9317

934 LEATHER OFF-ROAD OVER-BOOT

Tough, heavy Leather Over-Boot will protect the inner rubber boot from damage. Used as an Over-Boot with 86-9318 Dual-Boot Flange. May be used on 930 and other applications.

- 86-9323 Leather Over-Boot Only - use with P/N 86-9318 Dual-Boot Flange.

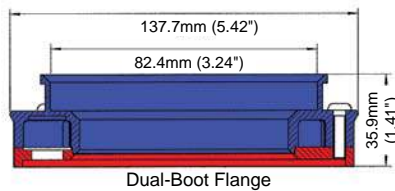

934 DUAL-BOOT SYSTEM

Special 2-Piece Flange attaches Inner Rubber Boot which holds the grease to keep the C.V. Joint lubricated and the Outer Leather Boot protects the Inner Boot from Damage. P/N 86-9318 2-Piece Flanges are attached together with supplied bolts. P/N 86-9322 Rubber Inner Boot attaches to Inner Flange. P/N 86-9323 Leather Out-Boot Attaches to Outer Flange for maximum protection. Uses standard EMPI C.V. Bolts (P/N 16-2414). Bolts not included.

- 86-9318 934 Type C.V. Joint Dual-Boot Flange, Set. Use w/ P/N 86-9322 or P/N 86-9321 C.V. Boot and P/N 86-9323 Leather Over-Boot.
- 86-9322 934 Type C.V. Joint Off-Road Inner C.V. Boot, Ea. Use with P/N 86-9318 Dual-Boot Flange or P/N 86-9313 Flange. May also be used w/ P/N 86-9302 and P/N 86-9312 Flange.

86-9322

Dual-Boot Flange

86-9318

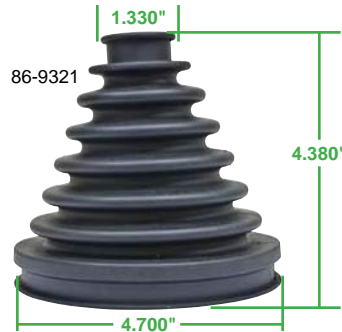

Bolt Not Included

OFF-ROAD C.V. JOINT BOOTS

- 86-9320 930 Type C.V. Joint Off-Road C.V. Boot. Use with P/N 86-9302 Flange or P/N 86-9312 Billet Aluminum Flange.
- 86-9321 930 Type C.V. Joint Off-Road C.V. Boot. Use with P/N 86-9313 Flange.

86-9320

86-9321

SUSPENSION & STEERING

OFF-ROAD C.V. JOINT BOOTS & KITS (Continued)

86-9309-D 934 Type Off-Road Boot Kit w/Flange
Uses P/N 16-2414 Bolts. (Not Included)

86-9307 934 Boot Only for P/N: 86-9309-D (Bulk)

86-9308 934 Flange Only for P/N: 86-9309-D (Bulk)
Uses P/N 16-2414 Bolts (Not Included).
(Cleared for travel of balls)

86-9312-D 934 Type C.V. Joint Over the C.V. Boot Kit
Uses P/N 16-2414 Bolts. (Not Included)
(C.V. Joint fits into the flange,
boot fits over the joint & flange)
**This boot will fit both sizes of axle bars,
just cut the small end of boot off for
larger bar**

86-9311 Boot Only, 934 Over the C.V. Joint (128mm)
Over 8" tall. For P/N: 86-9312-D (Bulk)

86-9310 Flange Only, 934 Over the C.V. Boot
for P/N: 86-9312-D (Bulk)
Uses P/N 16-2414 Bolts. (Not Included)
Notched for long travel

86-9303-D 100mm Off-Road Boot Kit w/Flange,
for Type 2 (Bus), C.V. Joint
Uses P/N 16-2410 or P/N 16-2412 Bolts.
Not Included)

86-9304 Type 2 Boot Only for P/N: 86-9303-D
(Will also fit P/N: 86-9302 Flange) (Bulk)

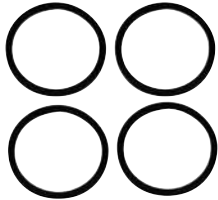

86-9305 Type 2 Flange Only for P/N: 86-9303-D (Bulk)
10.3mm Holes
**Standard bolts will work with these large holes
or use P/N 16-2410 or P/N 16-2412 Bolts.
(Not Included)**

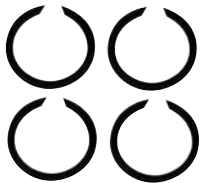

EMPI CHROMOLY I.R.S. RACE AXLES

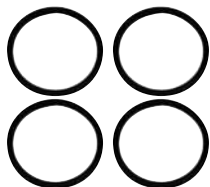

Engineered and designed to twist or spool up like a torsion bar to avoid damage to the transmission final drive and to keep the axle from snapping under extreme or race loads. All of these EMPI axles are made from **4340 chromoly** and feature high strength cold formed / rolled splines. Special silver zinc plating ensures these axles far outlast and outperform all of the competitors! For hi-performance, drag racing and off road conditions, these axles are the only way to go.

HI-PERFORMANCE CHROMOLY SWING AXLES

Some of the strongest axles available. Constructed from **4340 chromoly**, these swing axles are available in standard (26 11/16"), long (28 7/16") and short (23 1/2") lengths. Drag racing, sand or off-road, they will give you the dependability you need. Must use Torque Wrench, do not use Impact Gun to tighten axle nut.

16-2230	Hi-Performance Swing Axle, Standard, 61-66 Type 1, 26 11/16", Each
16-2231	Hi-Performance Swing Axle, Long, 68 Type 1, 28 7/16", Each
16-2237	Hi-Performance / Drag Race Swing Axle, Standard, Type 1, 23 1/2", Each

SUSPENSION & STEERING

EMPI CHROMOLY I.R.S. RACE AXLE KITS

EMPI has taken the guess work out of putting together your high performance I.R.S. axles. Complete axle kits are now available and come with our chromoly race axles, nylon ties, boots, C.V. joints, flanges, and grease. These axle kits are not assembled and come in an eye catching full color box.

- 16-2232 Type 2 Axle Kit, 19 1/4" with 33 Spline Axles
- 16-2233 Type 2 Axle Kit, 15 5/8" with 33 Spline Axles
- 16-2234 Type 2 Axle Kit, 20 1/4" with 33 Spline Axles
- 16-2235 930 Axle Kit, 19 1/4" with 28 Spline Axles
- 16-2236 930 Axle Kit, 20 1/4" with 28 Spline Axles
- 16-2238 930 Axle Kit, 22" with 28 Spline Axles
- 16-2239 930 Axle Kit, 23" with 28 Spline Axles

16-2235

REPLACEMENT SWING AXLE BEARING HOUSINGS

For 66 and earlier, short axle. Sold in pairs. Bearing not included.

- 16-9923 Swing Axle Bearing Housing, Pair (Boxed)

16-9923

CHROME 36MM AXLE NUT

High quality rear axle nut. Chrome plated or Gold Zinc for good looks. Great for applications where the axle nut is visible.

- 16-2420 Chrome 36mm Axle Nut, Each
- 16-2421 Zinc 36mm Axle Nut, Each
- 16-2421-7 Stock Zinc Plated 36mm Axle Nut, Bulk, Each
(Ref P/N: 311 501 221)

16-2420
(21.6mm Tall)

16-2421-7
(18mm Tall)

HI-PERFORMANCE AXLE SPACER KITS

Stock axle spacers just won't hold up to the abuse of off-road and hi- performance applications. Or when replacing the axle bearings you might as well up grade at the same time. Available for both swing axle and I.R.S. (I.R.S. Kit includes stub axle bearing spacers).

- 16-2400 Axle Spacer Kit for I.R.S., 6 pcs.
- 16-2401 Axle Spacer Kit for Swing Axle, 4 pcs.

16-2400

16-2401

CHROME SPRING PLATE CAPS

Chrome Spring Plate Caps for good looks. Both styles available; Swing axle for shorter style torsion bars and I.R.S. style for medium and long torsion bar use.

See page 205 for Urethane Bushings. Use bushing P/N 16-5133 for P/N 9569.

- 9545 Chrome Spring Plate Caps - Swing Axle, Pair
- 9569 Chrome Spring Plate Caps - I.R.S., Pair

9569

9545

REAR AXLE SEAL KIT

Includes: Seal, Gaskets, O-Rings and Cotter Key for complete replacement of your old worn seals. Fits Swing Axle and I.R.S.

- 9910 Rear Axle Seal Kit
(Bulk P/N: 311 598 051B)

SUSPENSION & STEERING

WARNING: It is extremely important that brake lines be installed by a trained mechanic. Proper length of each line in relation to wheel travel and steering angle is critical to avoid brake failure. Equally important is brake lines must be free flowing and have no contamination. Additionally, all calipers must be bled properly, regardless of kit purchased. Do not attempt brake line or caliper installation without the experience to properly evaluate all of these issues.

All bearing races must be **PRESSED** into rotors.

BOLT-ON DISC BRAKE KITS

Converting your '68 & later Type 1 (except S/B) from drum to disc is made simple with this true Bolt-On Kit. Featuring heavy duty cast brackets that bolt directly to your stock spindles – then calipers to the brackets. Available in 4x130 with 14x1.5mm threads, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads and Blank (not drilled) for custom wheel applications. Hardware is included. Wheel studs are not included. **These kits will only work with stock-style, drum brake spindles.**

- 22-2983 Ball Joint Bolt-On Disc Brake Kit, 4x130 with 14x1.5mm threads
- 22-2984 Ball Joint Bolt-On Disc Brake Kit, Blank (not drilled)
- 22-2985 Ball Joint Bolt-On Disc Brake Kit, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads

- 22-2986 Link Pin Bolt-On Disc Brake Kit, 4x130 with 14x1.5mm threads
 - 22-2991 Link Pin Bolt-On Disc Brake Kit, Blank (not drilled)
 - 22-2990 Link Pin Bolt-On Disc Brake Kit, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads
- All Link Pin Kits include conversion bearings and special BJ-style clamps. This eliminates double nuts.
- 17-2795 Replacement Inner Bearing for 22-2986, 22-2990, and 22-2991 Kit, Each (Fits EMPI Kit Only)
 - 17-2796 Replacement Outer Bearing for 22-2986, 22-2990, and 22-2991 Kit, Each (Fits EMPI Kit Only)

ZERO OFF-SET WIDE-5 DISC BRAKE KITS

EMPI's special brake rotor and caliper mounting bracket combine to give you a premium disc brake upgrade, using your existing front spindles, with near Zero offset – no loss of tire clearance. You can have the stopping power of disc brakes and still bolt on your favorite Wide-5 (5x205) wheels without using adapters! Kits come complete with master cylinder, brake lines, wheel bearings & seals and all necessary hardware. Link Pin Kit comes with a Single Master Cylinder with no residual valve and Ball Joint Kits come with a '67 & later Dual Master Cylinder. **These kits will not work with drop spindles – will only work with stock-style, drum brake spindles. Must use with 15" wheels.**

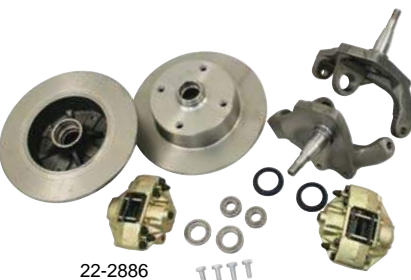

- 22-2880 Zero Off-Set Front Disc Brake Kit Link Pin, 5-Lug, 5x205 to '65 w/Single M/C
- 22-2885 Zero Off-Set Front Disc Brake Kit Ball Joint, 5-Lug, 5x205 to '66-67 w/Dual M/C
- 22-2895 Zero Off-Set Front Disc Brake Kit Ball Joint, 5-Lug, 5x205 to '68 & Later w/Dual M/C
- 22-2961-B Front Brake Rotor, 5/205, Link Pin, to 65, Each
- 22-2962-B Front Brake Rotor, 5/205, Ball Joint, 66 on, Each
- 98-6019-B Dual Master Cylinder, '67 & later (Does not include reservoir), Each
- 98-6022-B Single Master Cylinder (Does not include reservoir), Each
- 22-2892 Replacement Brake Pad Set for P/N: 22-2880/85/95, Set of 4

See pg. 247 for information

DROP SPINDLE DISC BRAKE KITS

Drop your front stance 2 1/2" and add the benefits of disc brakes all in one package. Kits come with all necessary components including rotors, calipers & pads, wheel bearings & seals and hardware. Link Pin kits include brake lines, thrust washers and spindle nuts. Available in 4x130 with 14x1.5mm threads, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads and Blank (not drilled) for custom wheel applications. Wheel studs are not included. Spindles are off-set 1/4", which widens your track a total of about 5/8". **Ball Joint Kits require the use of '69 & later tie rod ends. Must use with 15" wheels.**

- 22-2881 Front Disc Brake Kit, Link Pin, 4x130 with 14x1.5mm threads
- 22-2882 Front Disc Brake Kit, Link Pin, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads
- 22-2923 Front Disc Brake Kit, Link Pin, Blank (not drilled)
- 22-2886 Front Disc Brake Kit, Ball Joint, 4x130 with 14x1.5mm threads (Requires 69-on Style Tie Rod Ends)
- 22-2887 Front Disc Brake Kit, Ball Joint, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads (Requires 69-on Style Tie Rod Ends)
- 22-2924 Front Disc Brake Kit, Ball Joint, Blank (not drilled) (Requires 69-on Style Tie Rod Ends)
- 22-2890 Repl. Brake Pad Set for P/N: 22-2881/2882/2886/2887/2923/2924, Set of 4

SUSPENSION & STEERING

WARNING: It is extremely important that brake lines be installed by a trained mechanic. Proper length of each line in relation to wheel travel and steering angle is critical to avoid brake failure. Equally important is brake lines must be free flowing and have no contamination. Additionally, all calipers must be bled properly, regardless of kit purchased. Do not attempt brake line or caliper installation without the experience to properly evaluate all of these issues.

BALL JOINT DISC BRAKE KITS WITH STOCK-STYLE SPINDLES

The stopping power and safety of Disc Brakes in a bolt-on kit, including new stock-height Ball Joint Spindles. Complete kit includes backing plates, calipers w/pads and rotors. Requires purchase of bearings and seals for '66-'68 Type 1. Available in 4x130 with 14x1.5mm threads, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads and Blank (not drilled) for custom wheel applications. Wheel studs are not included. **'66-'68 will require the use of '69 & later tie rod ends. Must use with 15" wheels.**

- 22-2850** Front Disc Brake Kit, Ball Joint
4x130 with 14x1.5mm threads
- 22-2981** Front Disc Brake Kit, Ball Joint
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads
- 22-2921** Front Disc Brake Kit, Ball Joint
Blank (not drilled)
- 22-2851** Bearing and Seal Kit (6 pcs.)
- 22-2890** Replacement Brake Pads, Set of 4
- 98-1153-B** Replacement Brake Rotor, 4x130 w/ 14x1.5mm threads, Ea
(Ref. P/N: 113 407 075)
- 22-2963-7** Repl. Brake Rotor, Double-Drilled
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads
- 98-1150-B** Replacement Caliper w/ Pads, Each
(Ref. P/N: 311 615 107/8)
- 22-2849-B** Replacement Backing Plate, Each
(Ref. P/N: 102 405 593) [See pages 236-239 for all Replacement Rotors](#)

All bearing races must be **PRESSED** into rotors.

SUPER BEETLE FRONT DISC BRAKE KIT

The stopping power and safety of Disc Brakes in a bolt-on kit. Complete kit includes mounting brackets, calipers w/pads, rotors and two 10" metal brake lines to complete the installation. We recommend purchase of new bearings and seals. Available in 4x130 with 14x1.5mm threads, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads and Blank (not drilled) for custom wheel applications. Wheel studs are not included. **Must use with 15" wheels.**

- 22-2855** S/B Front Disc Brake Kit
4x130 with 14x1.5mm threads
- 22-2982** S/B Front Disc Brake Kit
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads
- 22-2922** S/B Front Disc Brake Kit, Blank (not drilled)
- 22-2851** Bearing and Seal Kit (6 pcs.)
- 22-2890** Replacement Brake Pads, Set of 4
- 98-1153-B** Replacement Brake Rotor, 4x130 with 14x1.5mm threads
(Ref. P/N: 113 407 075)
- 22-2963-7** Repl. Brake Rotor, Double-Drilled
5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads
- 98-1150-B** Replacement Caliper w/ Pads, Each
(Ref. P/N: 311 615 107/8)

[See pages 236-239 for all Replacement Rotors](#)

SUSPENSION & STEERING

WARNING: It is extremely important that brake lines be installed by a trained mechanic. Proper length of each line in relation to wheel travel and steering angle is critical to avoid brake failure. Equally important is brake lines must be free flowing and have no contamination. Additionally, all calipers must be bled properly, regardless of kit purchased. Do not attempt brake line or caliper installation without the experience to properly evaluate all of these issues.

All bearing races must be **PRESSED** into rotors.

2 1/2" DROP SPINDLE 5/205 FRONT DISC BRAKE KITS

A dropped front stance and classic 5/205 wheels combined with modern brake technology. That's what you'll get with EMPI's Drop Spindle 5/205 brake kit. Kit includes spindles, calipers, pads, hoses, bearings, grease seals, clamp nuts, and hardware.

Widens your track a total of about 5/8".

22-2925 Drop Spindle 5/205 Front Disc Brake Kit, Link Pin

22-2926 Drop Spindle 5/205 Front Disc Brake Kit, Ball Joint
(Requires 69-on Style Tie Rod Ends)

See Pages 236-239 for Replacement Rotors.

22-2926

ZERO OFF-SET WIDE-5 REAR DISC BRAKE KITS - WITH EMERGENCY BRAKE

An affordable and durable alternative to billet racing brakes is here! No need for adapters if you want to run wheels with the early VW 5 on 205 bolt pattern. The 1 pc. rotor design of these brake kits offers a bolt on kit to upgrade a street car to rear wheel disc brakes, or an off-road play car the option to have a firm and responsive brake system without needless extra parts to get in the way. All kits come complete with 1-piece rotors, calipers, pads, mount brackets, emergency brake cables and all necessary hardware and gaskets to complete the installation. Deluxe kits feature heavy duty cast brackets. Order Deluxe kits by choosing the '-F' part number. **If you do not want an Emergency Brake, install without cables. Must use with 15" wheels.**

SUSPENSION & STEERING

RACE-TRIM MICRO STUB BRAKE KITS

State of the art suspension is just one step away! Micro-stub brake systems are necessary if you are going to use a rear suspension that is different from a VW style trailing arm arrangement. This Race-Trim kit utilizes the best of the best in both components and materials used. 4-piston brake calipers, vented rotors, forged chromoly stub axles, forged hub assemblies, 6061 T-6 aluminum alloy rotor hats & wheel adapters. This combination gives you the winning edge, whether it's for racing or just an all out turbo long-travel sand car! Kits come complete ready for fab-in installation and are sold as a set. In addition we also offer a Micro-Arm flange tube to facilitate installation of the Race-Trim Micro Stub brake kit to a tubular trailing arm. Bolt pattern is 5 on 205. [\(See pages 244-245 for additional details on this item\).](#)

- 16-2510** Race-Trim Micro Stub Brake Kit, for 930 C.V. Joints
- 16-2511** Race-Trim Micro Stub Brake Kit, for 934 C.V. Joints
- 16-2516** Mount Tube Only for Race-Trim Micro Stub Kit, Pair (Not Installed)
(Not included in brake kits)
- 16-2525-7** Replacement Caliper, Each, w/o pads
- 16-2525-6** Replacement Pads, Two Pair
- 16-2510-2** Replacement Left Rotor Only, Each
- 16-2510-7** Replacement Right Rotor Only, Each
- 16-2510-1** Replacement Hub Bearing Assembly, Each
- 16-2510-4** Replacement Wheel Adapter, Each
- 16-2510-3** Replacement Aluminum Hub, Each
- 16-2510-5** Replacement Cap, Each
- 16-2510-8** Replacement Bracket, Each
- 16-2413** Repl. 3/8" x 24, 12 point, grade 8 (930), 6 pcs.
- 16-2414** Repl. 7/16" x 20, 12 point shouldered, grade 10.9 (934), 6 pcs.

NEW! NOT REBUILT

22-2952

DISC BRAKE SPINDLES (STOCK BALL JOINT)

A welcomed addition when rebuilding your ball joint front end with disc brakes. These all new spindles are precision ground and accept 69-on bearings, seals and tie rods. The left side is drilled for the speedo cable. **NEW, NOT RE-BUILT**

22-2952 New Spindles, Stock Ball Joint, For 4/130, Pair
(Ref. P/N: 113 405 311D/2D)

22-2950

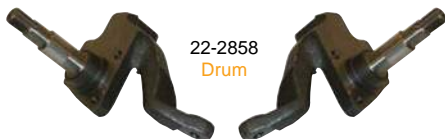

2 1/2" DROP SPINDLES FOR LINK PIN & BALL JOINT, DRUM AND DISC BRAKE FRONT ENDS

EMPI drop spindles are brand new units, not re-manufactured old cores! CNC machined to exact tolerances. These spindles feature 1/4" outwards offset. Clearance is usually not an issue. Made only for 4-Lug VW (4/130) and 5-Lug Porsche (5/130) disc brake applications. These spindles are the first step to a brake system upgrade while giving you the built-in ability to lower your car an automatic 2 1/2" just by bolting them on. Link Pin spindles utilize stock tie rod holes while the ball joint spindles require 69-on inner wheel bearings and tie rod ends. Both spindles use original steering geometry so the ride and handling of the car is not negatively effected.

22-2951

22-2950 2 1/2" Drop Spindle, Link Pin, Disc Brake for 4/130 & 5/130, Pr.

22-2858

(Requires 69-on Inner Wheel Bearings and Tie Rod Ends)

22-2955

REPLACEMENT 2 1/2" DROP SPINDLES

Replacement 2 1/2" Drop Spindles for P/N 22-2925 and P/N 22-2926 5x205 Disc Brake Kits. Driver side is drilled for the speedo cable.

22-2955 Replacement Drop Ball Joint Spindles (5x205), Pair
22-2954 Replacement Drop Link Pin Joint Spindles (5x205), Pair

SUSPENSION & STEERING

EMPI 68-79 TYPE 2 DROP SPINDLES

Brand New – not re-manufactured Drop Spindles to lower your Bus 2". Lower your front end 2" while keeping the same suspension geometry and maintaining the stock ride. Designed to replace your original spindles without modification. Fits 68 to 79 but requires the use of 73 & Later Brake Components. These Spindles widen your track by approximately 3/4" per side.

Stock / OEM 14" Wheel or EMPI 5x112 Wheels will fit:
10-1082 Gasser, 10-1084 Cosmo, 9731 / 9697 BRM, 9694 / 9728 911 Alloy, 9749 Dish, 9662 / 9696 / 9695 GT-5

22-2948 Bus 2" Drop Spindles, Pair, 68-79 Type 2
(Must use 73 & Later Brake Components)

TYPE 2 BRAKE ROTOR - FRONT

Hi-Quality replacement Front Brake Rotor for 73-79 or Disc Brake Conversion for 68-79 Bus.

18-1014 **NEW!** Brake Rotor, Front, Type 2, 73-79, Each
(Ref. P/N: 211 615 301B)

TYPE 2 FRONT HUB ASSEMBLY

Replacement Front Hub Assembly for 71-79 Bus or Disc Brake Conversion for 68-79 Bus.

18-1019 **NEW!** Front Hub Assembly, Type 2, 71-79, Each
(Ref. P/N: 211 405 579)

TYPE 2 FRONT GREASE SEAL - INNER

Front Grease Seal for 68-79 Bus/Transporter. Pressed into Brake Drum or Hub Assembly (Disc Brakes).

18-1035 **NEW!** Grease Seal, Front, Type 2, 68-79, Each
(Ref. P/N: 211 405 641D)

TYPE 2 FRONT WHEEL BEARING - INNER

Front Inner Wheel Bearing for 64-79 Bus/Transporter.

98-4620-B Inner Wheel Bearing, Front, Type 2, 64-79, Each
(Ref. P/N: 211 405 625)

TYPE 2 FRONT WHEEL BEARING - OUTER

Front Outer Wheel Bearing for 64-79 Bus/Transporter.

98-4623-B Outer Wheel Bearing, Front, Type 2, 64-79, Each
(Ref. P/N: 211 405 645D)

99-4372

NEW!

TYPE 2 BOLT - BRAKE ROTOR TO HUB

8.8 Grade Socket Head M8X20 Bolt for Rotor to Hub. Replacement for 73-79 or for Disc Brake Conversion for 68-79 Bus. Zinc Plated.

99-4372 **NEW!** Bolt – Rotor to Hub, Type 2, 73-79, Each
(Ref. P/N: N 014 779 1)

18-1033

NEW!

TYPE 2 MASTER CYLINDER & RESERVOIR KIT

This Type 2 Brake Cylinder comes with a Reservoir that attaches directly for easy installation. No adaptors or spacers – this Master Cylinder was designed for the reservoir. Perfect for replacement for 73-79 Bus with no need to source a stock reservoir or for your 68-79 Disc Brake Conversion. Without Servo/Power Brakes. May require some modification.

18-1033 **NEW!** Master Cylinder & Reservoir Kit, Type 2, 73-79, Each

98-9600-B

TYPE 2 BRAKE LINE 260MM (10.25")

260mm Brake Line when needed for Type 2 Disc Brake Conversion for 68-79 Bus / Transporter.

98-9600-B Steel Brake Line, 260mm (10.25"), Each
(Ref. P/N: 113 611 735D)

TYPE 2 FRONT BRAKE CALIPER – UNIVERSAL LEFT/RIGHT

This Type 2 Front Brake Caliper is universal and fits both Left and Right sides. Comes loaded with Brake Pads, designed with the brake line port in the center and the shoulder bolt has been replaced by 2 standard bolts for easy installation as replacement for 73-79 Bus or Disc Brake Conversion for 68-79 Bus.

18-1011

NEW!

18-1011 **NEW!** Front Brake Caliper w/Pads and Bolts,
Type 2 73-79, Vanagon 80-85, Each
(Ref. P/N: 211 615 107/108)

18-1013

NEW!

TYPE 2 REPLACEMENT BRAKE PADS

Front Replacement Brake Pads for 73-79 Bus.

18-1013 **NEW!** Front Brake Pads, Type 2, 73-79, Vanagon 80-85, Set
(Ref. P/N: 251 698 151A)

98-4253-B

NEW!

TYPE 2 STEERING DAMPER

Replacement Steering Damper for 55-79 Bus/Transporter.

98-4253-B **NEW!** Steering Damper, Type 2, 55-79, Each
(Ref. P/N: 211 425 021A)

SUSPENSION & STEERING

EMPI FORGED H.D. KING PIN SPINDLE KIT

Complete Spindle, Knuckle and Pin set with beefed up Forged spindles. Gussets forged into the spindle and steering arm for added strength. Great for your Baja or Buggy. FORGED Gussets built into the spindle and steering arm. Gussets on the knuckles have been machined for steering clearance. Grease fittings are installed. The speedometer cable passes through a hole that is in the left side spindle. Set up for stock link pins.

22-2976 FORGED H.D. King Pin Spindle Kit, Pair

SPINDLE COMPONENTS

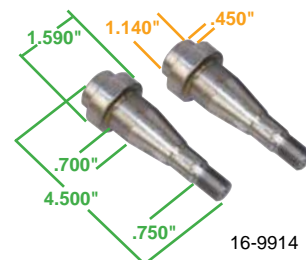

- 98-4051-B** Spindle Nut, Left
(Ref. P/N: 111 405 671)
- 98-4052-B** Spindle Nut, Right
(Ref. P/N: 111 405 672)
- 9616** Aluminum Linkpin Clamp Nut, Pair
- 17-2795** King Pin Conversion Bearing, Inner, Each
O.D. = 1.977", I.D. = .9845"
- 17-2796** King Pin Conversion Bearing, Outer, Each
O.D. = 1.570", I.D. = .7875"
- 98-1156-B** Axle Seal
(Ref. P/N: 321 501 641)
- 17-2797** Combo Spindle Bearing, Inner, Each
O.D. = 2.437", I.D. = 1.251" (Race Ref. #15244)
- 17-2798** Combo Spindle Bearing, Outer, Each
O.D. = 2.052", I.D. = 1.0005"
- 98-5021-B** Axle Seal
(Ref. P/N: 113 501 315H)

REPLACEMENT PRESS IN BALL JOINT SPINDLES

Available for ball joint only. Machining required. Sold in pairs. Right and left hand thread. Left side is drilled for speedo cable.

16-9914 Replacement Ball Joint Spindle, Pair

WARNING: It is extremely important that brake lines be installed by a trained mechanic. Proper length of each line in relation to wheel travel and steering angle is critical to avoid brake failure. Equally important is brake lines must be free flowing and have no contamination. Additionally, all calipers must be bled properly, regardless of kit purchased. Do not attempt brake line or caliper installation without the experience to properly evaluate all of these issues.

REAR DISC BRAKE KITS - WITHOUT EMERGENCY BRAKE

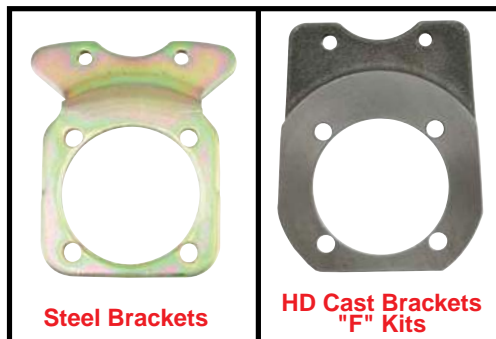

For off-road and play cars where emergency brake provisions are not required, we offer these brake kit options. Standard kits feature stamped steel brackets while our Deluxe kits feature heavy duty cast brackets. Order Deluxe kits by choosing the 'F' part number. All kits feature O.E. style brake calipers that make poor brake performance a thing of the past. Available in 4x130 with 14x1.5mm threads, Double-Drilled 5x130 with 14x1.5mm threads / 5x4.75" with 12mm threads and Blank (not drilled) for custom wheel applications. All kits include rotors, calipers w/pads, mounting brackets and hardware. **Wheel studs are NOT included. Must use with 15" wheels. To order the DELUXE kits with H.D. cast mounting brackets, add "F" to the part number.**

- 22-2862** Rear Disc Brake Kit, 4x130 with 14x1.5mm threads Swing Axle, 58-67
- 22-2862-F** DELUXE Rear Disc Brake Kit, 4x130 with 14x1.5mm threads Swing Axle, 58-67
- 22-2910** Rear Disc Brake Kit, Double-Drilled 5x130 with 14x1.5mm threads 5x4.75" with 12mm threads, Swing Axle, 58-67
- 22-2910-F** DELUXE Rear Disc Brake Kit Double-Drilled 5x130 with 14x1.5mm threads, 5x4.75" with 12mm threads, Swing Axle, 58-67
- 22-2917** Rear Disc Brake Kit, I.R.S., Blank (not drilled) Swing Axle, 58-67
- 22-2917-F** DELUXE Rear Disc Brake Kit, Blank (not drilled) Swing Axle, 58-67

- 22-2861** Rear Disc Brake Kit, 4x130 with 14x1.5mm threads I.R.S. 68 & later & Swing Axle 68
- 22-2861-F** DELUXE Rear Disc Brake Kit, 4x130 with 14x1.5mm threads I.R.S. 68 & later & Swing Axle 68
- 22-2911** Rear Disc Brake Kit, Double-Drilled 5x130 with 14x1.5mm threads, 5x4.75" with 12mm threads, I.R.S. 68 & later & Swing Axle 68
- 22-2911-F** DELUXE Rear Disc Brake Kit Double-Drilled 5x130 with 14x1.5mm threads, 5x4.75" with 12mm threads, I.R.S. 68 & later & Swing Axle 68
- 22-2916** Rear Disc Brake Kit, I.R.S., Blank (not drilled) I.R.S. 68 & later & Swing Axle 68
- 22-2916-F** DELUXE Rear Disc Brake Kit, Blank (not drilled) I.R.S. 68 & later & Swing Axle 68

22-2928 Wide Rear Disc Brake Kit w/ E-Brake, 5/205, Swing Axle 58-67

22-2928-F DELUXE Wide Rear Disc Brake Kit w/ E-Brake, 5/205, Swing Axle 58-67

22-2929 Wide Rear Disc Brake Kit w/o E-Brake, 5/205, I.R.S. 68-72, S/Axle 1968

22-2929-F DELUXE Wide Rear Disc Brake Kit w/o E-Brake, 5/205, I.R.S. 68-72, S/Axle 1968

22-2930 Wide Rear Disc Brake Kit w/o E-Brake, 5/205, Swing Axle 58-67

22-2930-F DELUXE Wide Rear Disc Brake Kit w/o E-Brake, 5/205, Swing Axle 58-67

22-2973-B Replacement Rotor, 5/205 Rear Wide Track, Each I.R.S., Requires 22-5281-7 Spacer

99% of the calls we received concerning problems with brake installation comes down to 1 problem...**AIR IN THE LINES**. No one wants to hear it, after having bled the system 2 or 3 times...but spongy pedal, pads dragging, etc., almost always is the cause of air trapped in the system.

Be sure to Bench Bleed a new master cylinder if installed. There are a few different '1-Man Bleeders' available - Mityvac and others. Use our new Quick Bleeders...make it easy on yourself and your helpers.

If installing new Disc Brake Calipers, rotate them to where the bleeder is around 12 O'Clock for bleeding...easier to get the air going straight up...then rotate them into position when you are done.

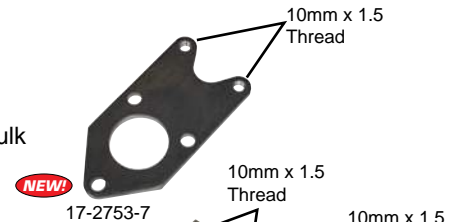

When all else fails, take the car to a professional for bleeding and adjusting. Small price to pay if you do not have the patience!

REPLACEMENT BRAKE ROTORS

22-2841-B Replacement Rear Brake Rotor, 4/130, I.R.S., 68-on, Long Spline, Each
(Ref. P/N: 113 615 601)

22-2842-B Repl. Rear Brake Rotor, 4/130, Swing Axle, thru 68, Short Spline, Each
Can also be used for I.R.S. 68-on,
requires P/N: 22-5281-7 spacer for I.R.S. Application
(Ref. P/N: 113 615 601S)

22-2843-7 Repl. Rear Brake Rotor, 5/130 Porsche & 5 / 4.75" Chevy Short Spline, Each
Works for both Swing axle and I.R.S.
(I.R.S. requires P/N: 22-5281-7 Spacer)
Double drilled for use with either Porsche 5x130 bolt pattern using M14-1.5 threads or Chevy 5x4.75 bolt pattern using 12mm threads. Must purchase studs separately.

22-2844-B Replacement Rear Brake Rotor, Blank - No Holes, Short Spline, Each
Works for both Swing axle and I.R.S.
(I.R.S. requires P/N: 22-5281-7 Spacer)

22-2961-B Replacement Front Rotor for P/N 22-2880 Kit 5/205, to 65

22-2962-B Replacement Front Rotor for P/N 22-2885 Kit 5/205, 66-67, and P/N 22-2895 Kit 5/205, 68-on

REPLACEMENT PARTS FOR EMPI BRAKE KITS

All bearing races must be **PRESSED** into rotors.

REPLACEMENT BRAKE ROTORS

22-2973-B Replacement Rotor for 5/205 Rear Wide Track, Each
Kits 22-2927, 22-2928, 22-2929, 22-2930, 22-2931, 22-2932
I.R.S. requires 22-5281-7 Spacer
Rotors are threaded for 12mm and 14mm studs

22-2973-B

22-2965-B Replacement Rotor for Front 5/205, Each
Kits 22-2925 and 22-2926

22-2965-B

22-2972-B Replacement Rotor for Rear 5/205, I.R.S., Each
Kits 22-2905, 22-2906, 22-2907
I.R.S. requires 22-5281-7 Spacer

22-2972-B

98-1153-B Replacement Front Rotor, 4/130, Ball Joint Front,
All Type 1 66-79 w/ Disc Brakes, Ghia 66-74, Type 3 66-71, Each
Kits 22-2850, 22-2855
(Ref. P/N: 113 407 075)

98-1153-B

22-2963-7 Replacement Front Rotor, 5/130 Porsche and 5/4.75" Chevy,
Ball Joint Front, All Type 1 66-79 w/ Disc Brakes, Ghia 66-74,
Type 3 66-71, Each
Kits 22-2981, 22-2982
Double drilled for use with either Porsche 5x130 bolt pattern
using M14-1.5 threads or Chevy 5/4.75" bolt pattern using
12mm threads. Must purchase studs separately.

22-2963-7

22-2964-B Replacement Front Rotor, Blank, No Holes, Ball Joint Front, Each
Kits 22-2921, 22-2922

22-2964-B

CROSS-DRILLED / LIGHTENED ROTORS

ALL BEARING RACES MUST BE PRESSED INTO ROTORS.

MUST USE PREMIUM QUALITY REPLACEMENT BRAKE PADS WITH ALL CROSS-DRILLED ROTORS.

22-3841-B **NEW!** Replacement Rear Brake Rotor, 4/130, I.R.S., 68-on, Long Spline, Each

REPLACEMENT PARTS FOR EMPI BRAKE KITS

REPLACEMENT BRAKE CALIPERS

98-1150-B Replacement Brake Caliper, Each (Boxed)
(Ref. P/N: 311 615 107/8) Right & Left use the same Calipers, **Supplied w/Pads**
For Kit P/N: 22-2850, 22-2855, 22-2861, 22-2861-F, 22-2862, 22-2862-F, 22-2881, 22-2882, 22-2886, 22-2887, 22-2910, 22-2910-F, 22-2911, 22-2911-F, 22-2916, 22-2916-F, 22-2917, 22-2917-F, 22-2921, 22-2922, 22-2923, 22-2924, 22-2929, 22-2929-F, 22-2930, 22-2930-F, 22-2981, 22-2982, 22-2983, 22-2984, 22-2985, 22-2986, 22-2990, 22-2991

22-2890 Replacement Brake Pads, Set of 4
For P/N: 98-1150-B Caliper, 311-615-107/8

22-6124-B Repl. Right Rear Caliper, Side Inlet, Supplied w/o Pads, Each (Boxed)
For P/N: 22-2865, 22-2865-F, 22-2870, 22-2870-F, 22-2871, 22-2871-F, 22-2905, 22-2905-F, 22-2906, 22-2906-F, 22-2907, 22-2907-F, 22-2912, 22-2912-F, 22-2913, 22-2913-F, 22-2914, 22-2914-F, 22-2918, 22-2918-F, 22-2919, 22-2919-F, 22-2920, 22-2920-F, 22-2927, 22-2927-F, 22-2928, 22-2928-F

22-6123-B Repl. Left Rear Caliper, Side Inlet, Supplied w/o Pads, Each (Boxed)
For P/N: 22-2865, 22-2865-F, 22-2870, 22-2870-F, 22-2871, 22-2871-F, 22-2905, 22-2905-F, 22-2906, 22-2906-F, 22-2907, 22-2907-F, 22-2912, 22-2912-F, 22-2913, 22-2913-F, 22-2914, 22-2914-F, 22-2918, 22-2918-F, 22-2919, 22-2919-F, 22-2920, 22-2920-F, 22-2927, 22-2927-F, 22-2928, 22-2928-F

22-2865-1 Brake Line Adapter for P/N 22-6123-B & P/N 22-6124-B Calipers, **For older production of these calipers** (Ea)
Female I.D. = 10m x 1.00 / Male O.D. = 10m x 1.50

22-2891 Replacement Brake Pads, Set of 4
For P/N: 22-6123-B, 22-6124-B Calipers

22-6125-B Repl. Left Front Caliper, Supplied w/o Pads, Each (Boxed)
For P/N: 22-2880, 22-2885, 22-2895

22-6126-B Repl. Right Front Caliper, Supplied w/o Pads, Each (Boxed)
For P/N: 22-2880, 22-2885, 22-2895

22-2892 Replacement Brake Pads, Set of 4
For P/N: 22-6125-B, 22-6126-B Calipers

22-2959-B Repl. Left Rear EMPI Caliper, Top Inlet, w/ E-Brake, Supplied w/o Pads, Each (Boxed). **This Caliper is no longer used in EMPI kits. Years ago it was used in the following kits:**
For P/N: 22-2865, 22-2870, 22-2871, 22-2905, 22-2906, 22-2907, 22-2912, 22-2913, 22-2914, 22-2918, 22-2919, 22-2920, 22-2927, 22-2928

NOTE: When installing calipers, inlet port faces up, E-brake spring faces down. This caliper has the part number and EMPI in the casting.

22-2960-B Repl. Right Rear EMPI Caliper, Top Inlet, w/ E-Brake, Supplied w/o Pads, Each (Boxed). **This Caliper is no longer used in EMPI kits. Years ago it was used in the following kits:**
P/N: 22-2865, 22-2870, 22-2871, 22-2905, 22-2906, 22-2907, 22-2912, 22-2913, 22-2914, 22-2918, 22-2919, 22-2920, 22-2927, 22-2928

NOTE: When installing calipers, inlet port faces up, E-brake spring faces down. This caliper has the part number and EMPI in the casting.

22-2966 Replacement Brake Pads, Set of 4
For P/N: 22-2959-B, 22-2960-B EMPI Calipers

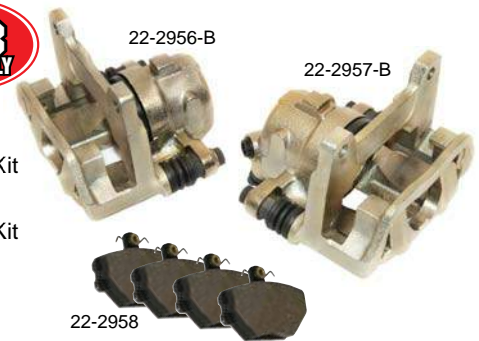

SUSPENSION & STEERING

REPLACEMENT PARTS FOR EMPI BRAKE KITS

REPLACEMENT BRAKE CALIPERS

- 22-2956-B** Repl. Front Caliper, Supplied w/o Pads, Each (Boxed)
NOTE: Left Side for P/N 22-2926 Kit, Right Side for P/N 22-2925 Kit
- 22-2957-B** Repl. Front Caliper, Supplied w/o Pads, Each (Boxed)
NOTE: Left Side for P/N 22-2925 Kit, Right Side for P/N 22-2926 Kit
- 22-2958** Replacement Brake Pads, Set of 4
For P/N: 22-2956-B, 22-2957-B Calipers

PREMIUM REPLACEMENT BRAKE PADS

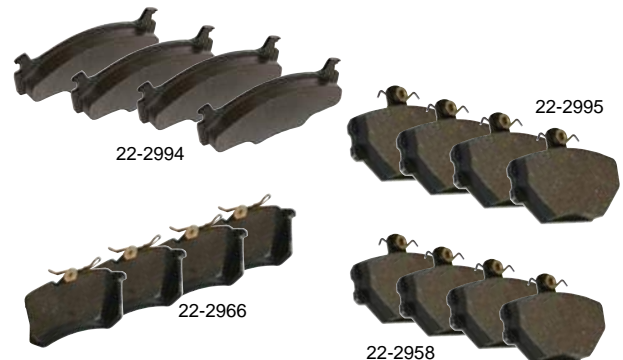

Superior friction materials for maximum stopping power, less dust and long-lasting quiet operation...a Premium upgrade for your Disc Brake Calipers.

- 22-2992** Premium Brake Pads, Set of 4, For P/N: 98-1150-B Caliper
- 22-2993** Premium Brake Pads, Set of 4,
For P/N: 22-6123-B & 22-6124-B Calipers
- 22-2994** Premium Brake Pads, Set of 4
For P/N: 22-6125-B & 22-6126-B Calipers
- 22-2995** Premium Brake Pads, Set of 4
For P/N: 22-2956-B & 22-2957-B Calipers

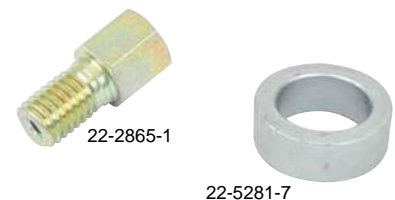

REPLACEMENT BRAKE PADS (Supplied in Kits)

- 22-2890** Replacement Brake Pads, Set of 4
For P/N: 98-1150-B Caliper, 311-615-107/8
- 22-2891** Replacement Brake Pads, Set of 4
For P/N: 22-6123-B, 22-6124-B Calipers
- 22-2892** Replacement Brake Pads, Set of 4
For P/N: 22-6125-B, 22-6126-B Calipers
- 22-2966** Replacement Brake Pads, Set of 4
For P/N: 22-2959-B, 22-2960-B Calipers
- 22-2958** Replacement Brake Pads, Set of 4
For P/N: 22-2956-B, 22-2957-B Calipers

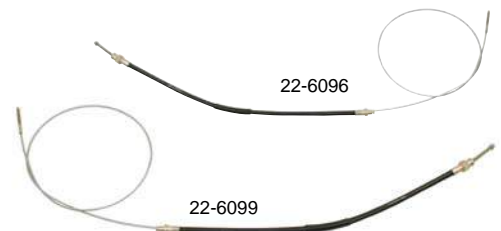

REPLACEMENT SPACER

- 22-5281-7** Replacement Spacer for I.R.S. Rotor, Each
Converts Swing Axle Rotor numbers to fit I.R.S.
With adding this spacer, a 22-2842-B, 22-2843-7, and
22-2844-B will also fit 22-2841-B applications
(Ref. P/N: 111 501 303B)
- 22-2865-1** Brake Line Adapter for 22-6123-B & 22-6124-B Calipers, (Ea)
For older production of these calipers

REPLACEMENT BRAKE CABLES

- 22-6096** Emergency Brake Cable, Each (Bulk), 68" overall length
For Kit P/N: 22-2865, 22-2871, 22-2905,
22-2907, 22-2912, 22-2914, 22-2918, 22-2920
- 22-6099** Emergency Brake Cable, Each (Bulk), 72" overall length
For Kit P/N: 22-2870, 22-2906, 22-2913, 22-2919

BRAKE DRUM & ROTORS

Make EMPI your one stop shop for quality replacement brake drums and rotors. A wide selection that covers most popular applications.

TYPE 1 & SUPER BEETLE

(Ref P/N: 131 405 670)	
22-2986-1	Spindle Clamp Nut w/ screw, 18mmx1.5 Left, Type 1 50-65, Each
22-2986-2	Spindle Clamp Nut w/ screw, 18mmx1.5 Right, Type 1 50-65, Each

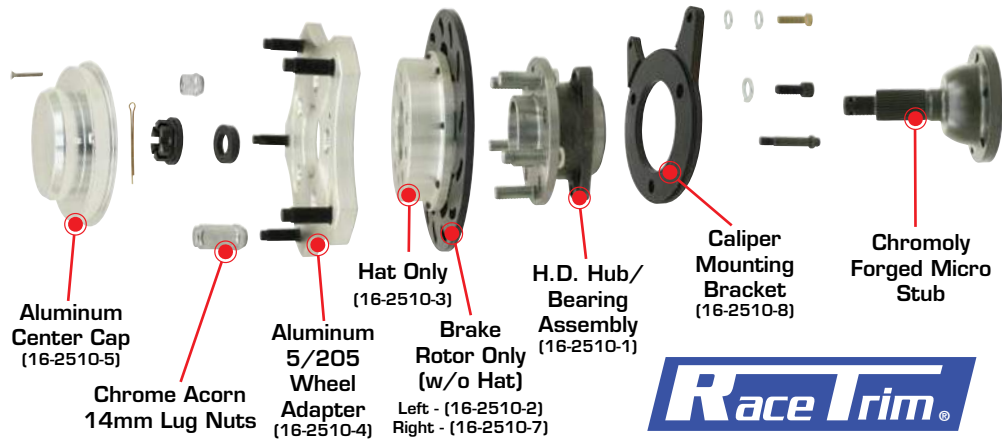

Race Trim

RACE-TRIM MICRO STUB BRAKE KITS

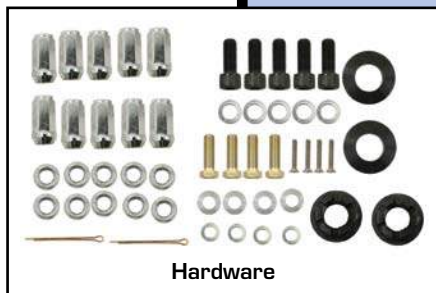

State of the art suspension is just one step away! Micro-stub brake systems are necessary if you are going to use a rear suspension that is different from a VW style trailing arm arrangement. This Race-Trim kit utilizes the best of the best in both components and materials used. 4-piston brake calipers, vented rotors, forged chromoly stub axles, forged hub assemblies, 6061 T-6 aluminum alloy rotor hats & wheel adapters. This combination gives you the winning edge, whether it's for racing or just an all out turbo long-travel sand car! Kits come complete ready for fab-in installation and are sold as a set. In addition we also offer a Micro-Arm flange tube to facilitate installation of the Race-Trim Micro Stub brake kit to a tubular trailing arm. Bolt pattern is 5 on 205.

- 16-2510 Race-Trim Micro Stub Brake Kit, for 930 C.V. Joints
- 16-2511 Race-Trim Micro Stub Brake Kit, for 934 C.V. Joints
- 16-2516 Mount Tube Only for Race-Trim Micro Stub Kit, Pair (Not included in brake kits)

FORGED 1 PIECE CHROMOLY MICRO-STUB AXLES

Leading manufacturers of high performance, off-road and drag racing drivetrains will tell you that a forged 4340 chromoly part is better and stronger than 300m from billet. Our 930 and 934 micro stub axles are 1.490" diameter, 33 spline (equivalent to a 2500 G.M. truck). We use 4340 chromoly forgings which are then 100% CNC machined. The splines are cold formed/rolled rather than cut and extend the entire length of the shaft, opposed to being "back cut". The inner portion of flange has a very deep radius. Hardened axle nut washers are included. Both parts are black oxidized.

- 16-2310 Microstub Axle w/ washer for 930 C.V. Joint, Each
- 16-2311 Microstub Axle w/ washer for 934 C.V. Joint, Each

For more information on this micro stub brake kit, please refer to the next page.

SUSPENSION & STEERING

16-2510-1

HUB/ BEARING ASSEMBLY

The Race-Trim hub / bearing assembly features a 33 spline 1.490" center section with sealed, heavy duty bearing and 14mm pressed in grade 10.9 studs (equivalent to a 2500 G.M. truck). The bolt pattern is 5 on 4.750". The bearing is not replaceable.

16-2510-1 Replacement Hub Bearing Assembly, Each

16-2510-8

MOUNTING BRACKETS

The black oxidized caliper mounting brackets are supplied with the kit. These brackets are .390" thick with a machined groove to properly register the optional chassis mounting tubes.

16-2510-8 Replacement Bracket, Each

16-2510-7

16-2510-2

11 1/4" VENTED BRAKE ROTOR

The .360" thick, 11.250" diameter rotor which is blanchard ground and black oxidized, is bolted to a .460" thick aluminum hub assembly with 5/16" grade 8 bolts. The hub is machined with a receiver groove to mate with the wheel adapter. Rotor only, is sold separately w/o the hat.

16-2510-2 Replacement Left Rotor Only, Each

16-2510-7 Replacement Right Rotor Only, Each

16-2510-4

ALUM. 6061-T6 WHEEL ADAPTER

The .650" thick wheel adapter allows you to utilize the 5/205 bolt pattern wheels that are available in the market today. It is machined to integrate into the rotor and hub/bearing assemblies to create a solid braking unit. The 14mm studs are pressed in.

16-2510-4 Replacement Wheel Adapter, Each

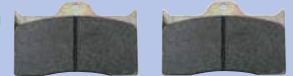

16-2525-7

WILWOOD HIGH PERFORMANCE FORGED CALIPERS

We include Wilwood forged calipers, long recognized as a leader in competition disc brakes. Calipers feature 4 Stainless Steel Pistons. Poly Matrix Competition Pads sold separately.

16-2525-7 Replacement Caliper, w/o Pads, Each

16-2525-6 Replacement Pads, Two Pair

16-2525-6

16-2510-5

WHEEL ADAPTER CENTER CAP

A satin finish aluminum center cap is attached to the center of the wheel adapter by two 10-24 stainless steel counter sunk allen screws. The Race-Trim logo is engraved in the center giving the kit that finished looked.

16-2510-5 Replacement Cap, Each

16-2413 (930 C.V.)

16-2414 (934 C.V.)

930 AND 934 C.V. BOLTS

Both micro stubs are supplied with the necessary C.V. bolts.

16-2413 Repl. 3/8" x 24, 12 point, grade 8 (930), 6 pcs.

16-2414 Repl. 7/16" x 20, 12 point shouldered, grade 10.9 (934), 6 pcs.

16-2516
Not Included
in Kits

HARDWARE / CHASSIS MOUNT TUBE

The optional 6.500" diameter mount tubes are the popular choice of fabricators and chassis builders. They are a thick wall, angle cut piece that registers into the pre-cut groove on the caliper bracket providing a gap free fit for welding. This allows you to weld on the appropriate tabs and brackets.

16-2516 Mounting Tubes Only, Pair

SUSPENSION & STEERING

WARNING: It is extremely important that brake lines be installed by a trained mechanic. Proper length of each line in relation to wheel travel and steering angle is critical to avoid brake failure. Equally important is brake lines must be free flowing and have no contamination. Additionally, all calipers must be bled properly, regardless of kit purchased. Do not attempt brake line or caliper installation without the experience to properly evaluate all of these issues.

BRAKE LINE RESIDUAL PRESSURE VALVES

Maintains minimum constant line pressure to help eliminate excessive pedal travel and create a much firmer and responsive pedal feel. The two pound valve is recommended for disc brake applications while the 10 pound valve is mostly used on drum brake applications. EMPI's residual pressure valves are made from billet aluminum and are color coded and marked for easy identification and in-line mount using standard SAE brake line fittings.

- 16-3155** 2 PSI Residual Pressure Valve, SAE
- 16-3156** 10 PSI Residual Pressure Valve, SAE

- 17-2928** 2 PSI METRIC Residual Pressure Valve (Aluminum)
Easy Installation with 10mm x 1.0 Female Metric Threads on each end.
- 17-2932** 2 PSI SAE Residual Pressure Valve (Aluminum), 1/8" NPT Both Ends
Easy Installation with 1/8" NPT Male / 1/8" NPT Female Threads.

BRAKE LINE RESIDUAL PRESSURE VALVE KIT

Our 2PSI Residual Valve for Disc Brake applications with Metric female threads on both ends packaged with a 7.5" brake line makes installation a true Plug 'n Play. This kit utilizes our P/N 17-2928 valve.

- 17-2935** 2 PSI Residual Pressure Valve with a 7.5" brake line, Kit

BRAKE PROPORTIONING VALVE

This EMPI Knob-style Proportioning Valve enables you to adjust front to rear brake bias with a twist of a knob. Provides up to a 50% reduction. Fitting ports are 1/8" NPT. Valve includes two fittings to adapt to 3/16" SAE brake line. Allows easy adjustment of front to rear brake bias.

- 16-3157** Brake Proportioning Valve

EMPI HYDRAULIC PARK LOCK

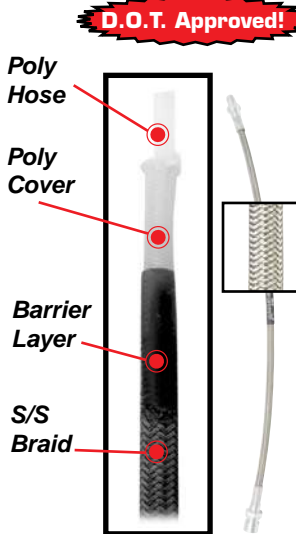

This hydraulic Park Lock uses line pressure to hold your brakes locked. Just push brake pedal down and push the Park Lock lever. (Not to be used as an emergency brake).

- 3155** EMPI Hydraulic Park Lock

BRAIDED STAINLESS STEEL BRAKE LINE KITS

EMPI's Stainless Steel Brake Lines are made of super tough braided stainless steel covers over Poly hose, and are **D.O.T. approved** - which is important in such a critical part as a brake hose. Because they are made with the stock size fittings, no adapters are needed to insure a correct fit, and it lessens the chance of leakage. Stainless Steel Brake Line Kits must be installed at all four corners, never mix rubber and stainless in the same brake system. Caution should be used when installing any new brake line. If you have any doubt about your ability to install them correctly, please let a trained professional mechanic do the job. **Made in USA.**

- 5585** 4-Piece Braided **Stainless** Brake Line Kit, Type 1, 58-64
- 5586** 4-Piece Braided **Stainless** Brake Line Kit, Type 1, 65-68
- 5587** 4-Piece Braided **Stainless** Brake Line Kit, Type 1, 69-on w/I.R.S.
- 5588** 4-Piece Braided **Stainless** Brake Line Kit, Super Beetle, 71-73
- 5589** 4-Piece Braided **Stainless** Brake Line Kit, Super Beetle, 73 1/2-on
- 98-6713-B** Braided **S/S** Brake Line, Front, M/F, 480mm (18.90"), Type 1 thru 64, Type 2 thru 54, Each

SUSPENSION & STEERING

WARNING: It is extremely important that brake lines be installed by a trained mechanic. Proper length of each line in relation to wheel travel and steering angle is critical to avoid brake failure. Equally important is brake lines must be free flowing and have no contamination. Additionally, all calipers must be bled properly, regardless of kit purchased. Do not attempt brake line or caliper installation without the experience to properly evaluate all of these issues.

DUAL CIRCUIT MASTER CYLINDERS

If you are installing disc brakes to all four wheels, the use of this master cylinder is mandatory. The stock master cylinder cannot supply the additional pressure or the correct bias needed in a 4-wheel disc brake application. The answer is our 20.6mm bore Dual Circuit Master Cylinder. We offer one unit for all standard Beetles and another for Super Beetles only. **Recommended for all 4-Wheel Disc Brake applications.**

EMPI Brand

- 113 611 015BDD 16-9554** 20.6mm Dual Circuit Master Cylinder (**All Beetles**), Ea
- 133 611 015HDD 17-2808** 20.6mm Dual Circuit Master Cylinder (**Super Beetle Only**), Ea

16-9554

211 611 011J

99% of the calls we received concerning problems with brake installation comes down to 1 problem...**AIR IN THE LINES**. No one wants to hear it, after having bled the system 2 or 3 times...but spongy pedal, pads dragging, etc., almost always is the cause of air trapped in the system.

Be sure to Bench Bleed a new master cylinder if installed. There are a few different '1-Man Bleeders' available - Mityvac and others. Use our new Quick Bleeders...make it easy on yourself and your helpers.

If installing new Disc Brake Calipers, rotate them to where the bleeder is around 12 O'Clock for bleeding...easier to get the air going straight up...then rotate them into position when you are done.

When all else fails, take the car to a professional for bleeding and adjusting. Small price to pay if you do not have the patience!

BUGGY MASTER CYLINDER

The large 22mm bore Master Cylinder is large enough to handle 2 or 4 wheel set-ups. Available complete with reservoir or replacement reservoir only.

6112 22mm Buggy Master Cylinder, w/Residual Valve and Reservoir
98-6020-B Plastic Reservoir Only
 (Ref. P/N: 211 611 301C)

98-6021-B 22mm Buggy Master Cylinder Only w/Residual Valve
 (Ref. P/N: 211 611 011JCH)

98-6022-B 22mm Buggy Master Cylinder Only w/o Residual Valve.
 For use with Disc Brakes. (Does not include reservoir)

BUGGY MASTER CYL. W/POLISHED ALUM. RESERVOIR

Every year it's the first thing on your shopping list...New brake reservoir to replace the sun baked or leaking one from last season. EMPI puts an end to the vicious cycle with this polished Billet Aluminum Reservoir, it's the best looking and last one you will need.

6114 22mm Buggy Master Cylinder w/Residual Valve and Polished Aluminum Reservoir

16-7040 Polished Billet Aluminum Master Cylinder Reservoir Only w/Cap

98-6021-B 22mm Buggy Master Cylinder Only w/Residual Valve
 (Ref. P/N: 211 611 011JCH)

POLISHED/CHROME BUGGY MASTER CYLINDER

Large 22mm bore, Polished/Chrome Master Cylinder for 2 or 4 wheel brake applications while adding a show-look to your buggy. Chose a Billet or Plastic reservoir.

16-7041 **NEW!** 22mm Polished/Chrome Buggy Master Cylinder, w/Residual Valve
16-7042 **NEW!** 22mm Polished/Chrome Buggy Master Cylinder, w/o Residual Valve

BUGGY MASTER CYLINDER WITH BILLET ALUMINUM RESERVOIR

Complete Type 2 Master Cylinder with the great looking Billet Aluminum Buggy Master Cylinder Reservoir to add that billet flare to your Buggy. Billet Aluminum Buggy Master Cylinder Reservoir fits Type 2 (thru 66) master cylinders (EMPI P/N 16-7041, 16-7042 and 98-6021-B/211 611 011JCH).

6116 **NEW!** Buggy Master Cylinder with Billet Aluminum Reservoir, Set

18-1015 **NEW!** Aluminum Buggy Master Cylinder Reservoir, Each

SUSPENSION & STEERING

STOCK MASTER CYLINDER RESERVOIRS

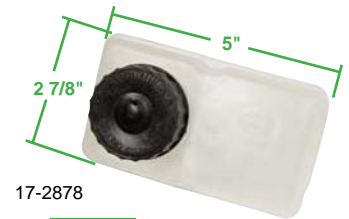

113 611 301G	98-6671-B	Reservoir, Brake Fluid, Incl. Cap, Type 1 61-66, Ghia 61-66
113 611 301L	98-6672-B	Reservoir, Brake Fluid, w/Cap, Type 1 68-79, Type 3 66-73

DUAL CIRCUIT RESERVOIR

Eliminates fittings and installs directly to your '67 & later dual-circuit master cylinder. No hoses or fittings required - perfect mounting solution for buggies. Also fits EMPI P/N 16-9554 & 17-2808.

17-2878	Dual Circuit Master Cylinder Reservoir, Type 1 67 & Later
---------	---

BRAKE LIGHT SWITCHES

Brake light switches deteriorate with age causing them to malfunction. If your brake lights don't come on with a small amount of pressure applied to the brake pedal, it's time to replace your switch. We recommend always using a new switch when installing a new master cylinder.

98-2057	Brake Light Switch, 3 Prong (Bulk P/N: 113 945 515G)
98-2058	Brake Light Switch, 2 Prong (Bulk P/N: 113 945 515H)

QUICK BLEEDERS

For EMPI Disc Brake Kits...the patented Quick Bleeder is a one-person brake bleeder screw that speeds up the job of purging old fluid and air from your newly installed Brake Calipers. The Quick Bleeder has a unique check ball design which allows old fluid and air to be pushed out but closes between pumps, preventing the old fluid and air from re-entering the system.

22-5287	7mm x 1.0 Bleeder Screws, Pr., Fits P/N 98-1150-B Calipers
22-5288	8mm x 1.0 Bleeder Screws, Pr., Fits P/N 22-2956-B, 22-2957-B, 22-6123-B & 22-6124-B Calipers
22-5290	10mm x 1.0 Bleeder Screws, Pr., Fits P/N 22-6125-B, 22-6126-B, 22-2959-B & 22-2960-B Calipers

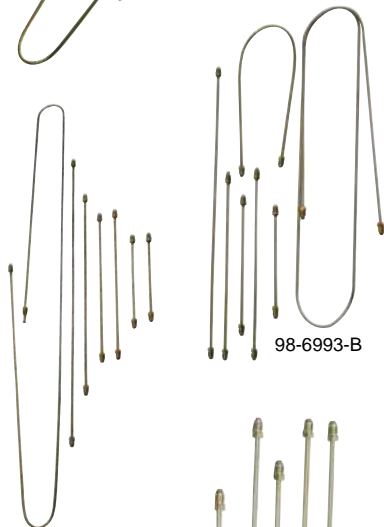

BRAKE HOSES

Don't overlook the brake hoses when doing brake system work, even when hoses appear good from the outside, aging hoses can swell shut on the inside causing restricted flow resulting in pulling or binding of the brakes.

113 611 701	98-6700-B	Brake Hose, M/F 480mm, Front, Type 1, thru 64, Type 2, thru 54

211 609 619	98-6121-B	C Clip, Parking Brake Lever Pin, Type 1 50-79, Ghia 56-74, Type 2 55-79, Type 3 64-73, Each

99% of the calls we received concerning problems with brake installation comes down to 1 problem...**AIR IN THE LINES**. No one wants to hear it, after having bled the system 2 or 3 times...but spongy pedal, pads dragging, etc., almost always is the cause of air trapped in the system.

Be sure to Bench Bleed a new master cylinder if installed. There are a few different '1-Man Bleeders' available - Mityvac and others. Use our new Quick Bleeders...make it easy on yourself and your helpers.

If installing new Disc Brake Calipers, rotate them to where the bleeder is around 12 O'Clock for bleeding...easier to get the air going straight up...then rotate them into position when you are done.

When all else fails, take the car to a professional for bleeding and adjusting. Small price to pay if you do not have the patience!

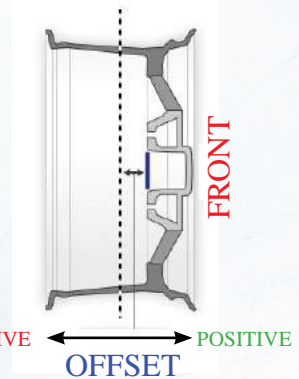

Wheel Tech

The applications listed with the wheels in this catalog are very basic. There are many variables when installing aftermarket wheels. Clearance issues - fender, brake, shock tower...wheel stud & lug nut/bolt length, size and more. There may be fitment challenges when mounting aftermarket wheels. Some wheels may require spacers to clear disc brake calipers or a long snout on a brake drum. Some may not fit with certain disc brake kits at all...some may not fit with certain brake Drums. Some may not fit within the fender area with spacers. Measure and calculate as much as possible BEFORE purchasing wheels. Then be certain to fit the wheel on your vehicle BEFORE MOUNTING tires on the wheels. Once tires are mounted, the wheels cannot be returned.

EMPI Wheel Patterns, or PCDs:

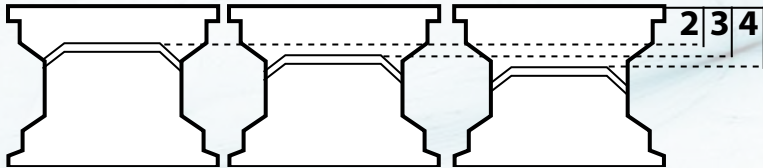

- 5 X 205 – VW to 1967 (12mm Lug Bolt)
- 4 X 130 – VW 68 & Later (14 mm Lug Bolt)
- 5 X 112 – VW Bus 71 & Later (14mm Lug Bolt)
- 5 X 100 – New Beetle (14mm Lug Bolt)
- 5 X 130 – Porsche Pattern (14mm Lug Nut)
(which will require wheel adapters or modified drums/rotors for use on a VW)

Wheel Off-set or ET

Off-set is the distance in mm between the center line of the wheel rim, and the hub mounting surface of the wheel. You can have positive (+), negative (-) or neither (0). Off-set determines the position of the wheel under the fender.

How to Measure Wheel Backspace

Items Required to Measure Wheel Backspace:

- Tape Measure
- Straight Edge
- Wheel w/o Tire (preferred)

The easiest way to measure backspace is to place the wheel face down on the floor so the backside of the wheel is facing up. Lay a straight edge diagonally across the inboard flange of the wheel. With a tape measure, measure the distance from where the straight edge contacts the inboard flange to the hub mounting pad of the wheel. This measurement is backspace. The above drawing shows three wheels with 2", 3", and 4" backspace.

It is imperative that the correct Lug Nuts/Bolts are used to secure the wheel to the vehicle. All Lug Bolts need to be checked to be certain that they are not interfering with internal brake parts. All Lug Nuts need to be checked to be certain that they are in fact tightening the wheel to the rotor/drum and not bottoming out on the stud leaving the wheel loose. This is the responsibility of the installer.

Lug Nuts / Bolts

60° Conical (Tapered) Lug Nuts/Bolts All EMPI Wheels (except wheels with 5 X 130 PCD) are made for 60° Conical (Tapered) Lug Nuts/Bolts.

Ball Seat (Rounded) Lug Nuts/Bolts

All EMPI Wheels with a 5 X 130 PCD are made for Ball Seat (Rounded) Lug Nuts/Bolts as are Bead-Lock and Off-Road Wheels. (Except 5 X 112 PCD Wheels).

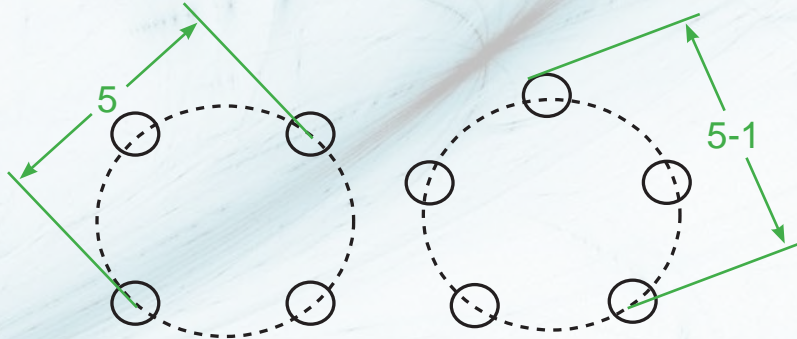

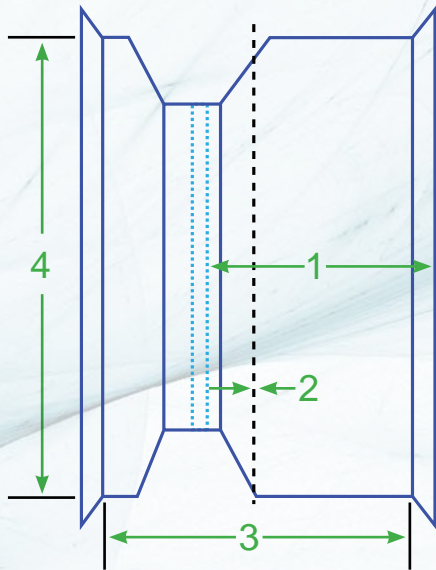

Small Diameter or "Tuner" Lug Nuts/Bolts

EMPI 5 X 112 and 5 X 100 PCD Wheels are made for Small Diameter or "Tuner" Lug Nuts/Bolts. The PCD is small and close to the center hub, requiring a smaller Lug Nut Bore.

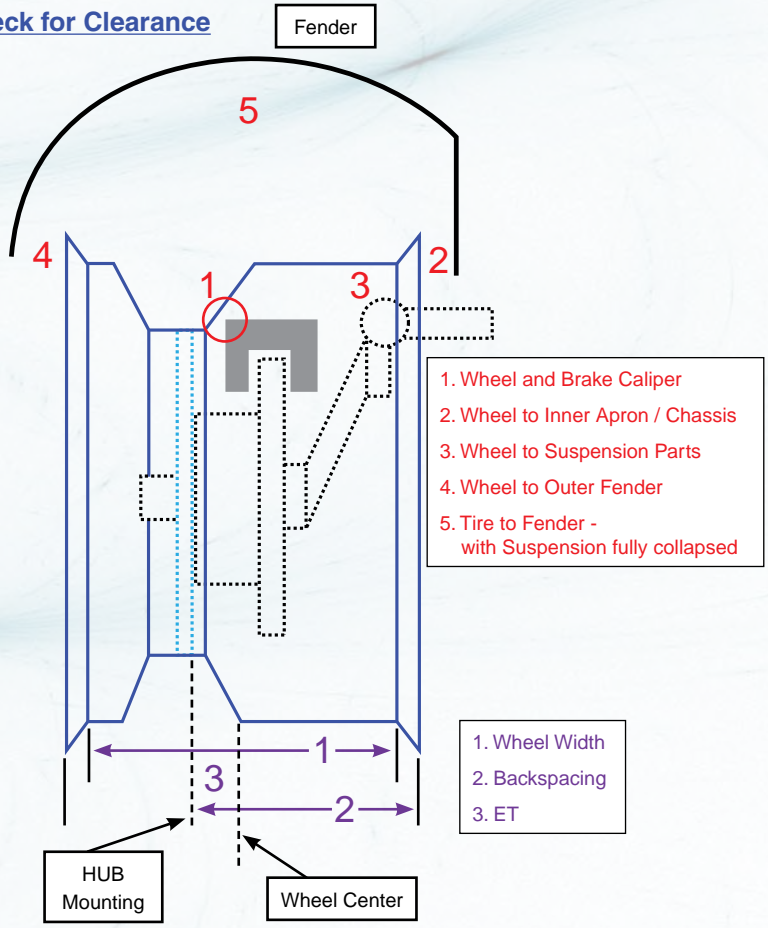

Identifying Wheel Dimensions

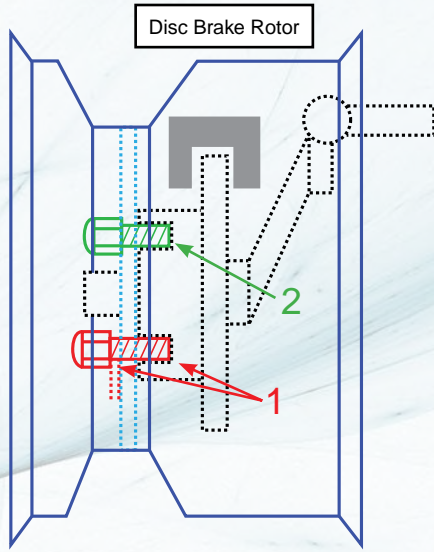

- 1. Back Spacing
From the inside of the wheel where it contacts the hub to the inside edge of the wheel.
- 2. ET
From the inside of the wheel where it contacts the hub to the Center of the wheel.
- 3. Rim Width
From the inside of the outer lip at the bead seating point to the inner lip.
- 4. Rim Diameter
The measured diameter of the wheel from the bead seating point (not the outer edge).
- 5. PCD - Bolt Pattern
4-Lug Wheel is a direct measurement.
5-1. 5-Lug Wheel measures 'approximately' from one hole to the outer edge of the hole diagonally across from it.

Check for Clearance

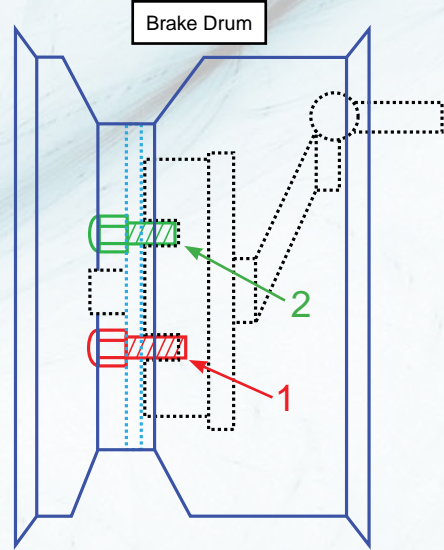

Proper Lug Bolt Length

Measure for proper Lug Bolt Length

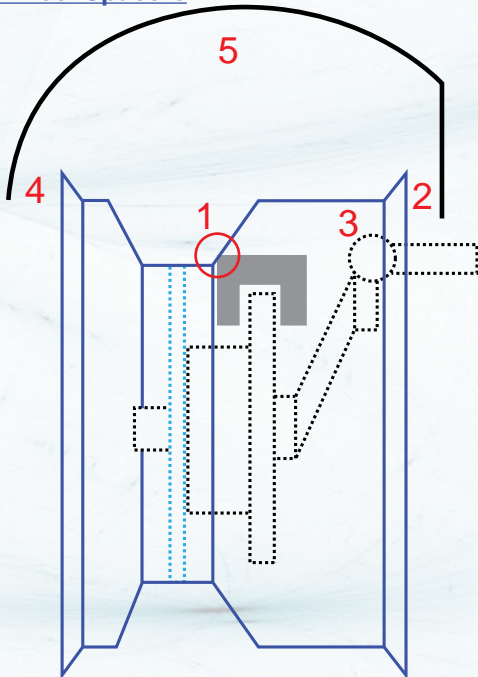

1. Lug Bolt Length - must not bottom out in hub while leaving a gap - therefore not seating the wheel.
2. Lug Bolt must seat and secure wheel to hub.

Measure for proper Lug Bolt Length

1. Lug Bolt Length - must not extend into drum and interfere with brake parts.
2. Lug Bolt must seat and secure wheel to hub while not touching internal brake parts.

Wheel Spacers

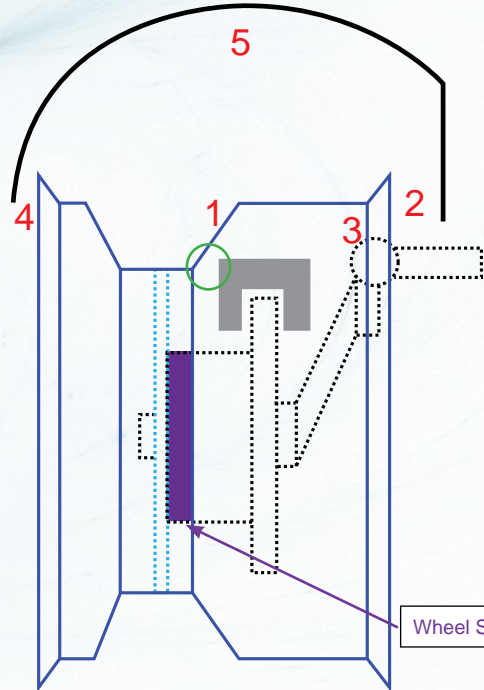

1. Brake Caliper
2. Inner Fender / Apron
3. Suspension
4. Outer Fender

Wheel Spacers...

This example shows that when the wheel is placed on the hub for mounting - the wheel does NOT clear the Brake Caliper.

To gain the necessary clearance, a Wheel Spacer may be used. Install the narrowest Wheel Spacer possible to allow enough clearance between the Wheel and the Brake Caliper.

Remember -adding the Wheel Spacer thickness reduces the off-set and brings the wheel out closer to your fender. You must re-check for ALL other clearance issues.

Wheel Spacer

This example shows that when the wheel is placed on the hub for mounting with the addition of a Wheel Spacer - the wheel clears the Brake Caliper.

By adding the Wheel Spacer thickness, the off-set has been reduced and the wheel is now closer to your fender.

You must re-check for ALL other clearance issues.

w/ Ring Installed

RACE-TRIM BEAD-LOCK WHEELS

w/o Ring

Pressure-Cast Aluminum Wheels with Forged Bead-Lock Rings and Grade 8 Hardware. These wheels are built for the Dirt...and Sand. Wheels feature a Machine finish. All Bead-Lock wheels are drilled and tapped 48 times. Bead-Lock Rings are available in your choice of Polished Aluminum or Powder-Coated Candy Red, Candy Blue or Matte Black.

SIZE (in.)	STYLE	ET	B/S (in.)	SEAT	PCD	P/N

WHEEL ADAPTERS

Allows use of popular wheels without drilling drums or hubs.

- 9502** Chevy. Wheel to 5 Lug VW, Steel, Pair (Chevy. 4 3/4" Pattern, 7/16" x 20 Thread)
- 9503** VW 4 Lug Wheel to 5 Lug VW, Steel, Pair (1/2" x 20 Thread)
- 9504** Chevy Wheel to 4 Lug VW, **Aluminum**, Pair (Chevy. 4 3/4" Pattern, 7/16" x 20 Thread) Studs Included
- 9505** Ford Wheel to 5 Lug VW, Steel, Pair (Ford 4 1/2" Pattern, 1/2" x 20 Thread)
- 9506** VW 5 Lug Wheel to 4 Lug VW, Steel, Pair (Tapped Holes are 12mm x 1.5)
- 9499** 911 Porsche Wheel to 5 Lug VW, Steel, Pair (14mm x 1.5 Thread)
- 9500** 911 Porsche Wheel to 4 Lug VW, **Aluminum**, Pair (14mm x 1.5 Thread) Studs Included
Must use P/N: 70-2863 studs listed on page 285 for mounting
- 9481** VW 5 Lug Wheel to 5x130, Steel, Pair (Tapped Holes are 14mm x 1.5 Thread)
- 9482** VW 5 Lug Wheel to 5x112, Steel, Pair (Tapped Holes are 14mm x 1.5 Thread)
- 9580** Replacement Off-Set Stud for P/N 9504, Each
- 9588** Replacement Standard Stud for P/N 9504, Each

FLUSH MOUNT VALVE STEMS

Using these Flush Mount Valve Stems adds to the appearance of any custom wheel. Stem adapter is attached for inflation and replaced by a smooth cap for a smooth, clean look.

- 9514** Flush Mount Valve Stems, Set of 4

TAPERED ALUMINUM LUG WASHERS

These tapered aluminum washers allow correct seating of lug bolts or nuts on thin walled flat surface aluminum off road wheels. For use with 14mm studs.

- 10-1035** Tapered **Aluminum** Lug Washers, Set of 5

VALVE STEMS

Chrome Valve Stem with Hex Cap - same stem that is supplied with EMPI wheels.

- 9710** Chrome Valve Stems, Set of 4

SCISSOR JACK

Originally made for Type 2's, but will work on Sedans & Ghias offering extra jacking height. Great for use on lowered cars.

- 98-0109-B** Scissor Jack Type 2 & Type 1, Each (Ref P/N: 237 011 031)

WHEELS & TIRES

WHEEL STUDS & CHROME LUG NUTS

Make changing tires a little easier by installing studs on your drums or rotors. Easy installation. No drilling required. Available for use with steel or mag wheels. The lug nuts listed in this section have a 13/16" hex heads.

- 9515 Wheel Studs, M14-1.5 to 1/2-20, Set of 4
- 9516 Wheel Studs, M12-1.5, Both Ends, Set of 5
- 9517 Wheel Studs, M14-1.5, Both Ends, Set of 5 (Porsche)
- 9484 Wheel Studs, M14-1.5, Both Ends, Set of 4

Ask sales person for details.

CHROME STEEL LUG NUTS - 60° SEAT

Now you can have the look of Porsche-Style Lug Nuts for your EMPI or aftermarket wheels featuring 60° seat. Made of Steel with Chrome finish and have a 19mm Hex head. Available in both 12 & 14mm.

- 70-2870 Chrome Steel 60° Lug Nuts 12mm, Set of 5
- 70-2872 Chrome Steel 60° Lug Nuts 14mm, Set of 4

All Lug Bolts need to be checked to be certain that they are not interfering with internal brake parts. Grinding for clearance may be necessary and is the responsibility of the installer.

60° CHROME LUG BOLTS

60° Taper fits most new EMPI and other aftermarket custom wheels. Quality chrome finish. These bolts have 19mm Hex Heads and 24mm threaded area. Remember to check for proper clearance.

- 9711** Chrome Lug Bolts - 12mm, 60°, Set of 5
For EMPI 5x205 wheels
- 9712** Chrome Lug Bolts - 14mm, 60°, Set of 4
For EMPI 4x130 wheels

BALL SEAT CHROME LUG BOLTS

Replace your stock lug bolts with Chrome Lug Bolts. Comes in a variety of lengths for a positive fit. Remember to check for proper clearance. All these Bolts have a 22mm Head and Ball Seat.

- 9564** Chrome Lug Bolts - M12-1.5, 15mm Long, Set of 5, Steel Wheels
- 9565** Chrome Lug Bolts - M12-1.5, 20mm Long, Set of 5,
Steel / Aluminum Wheels
- 9568** Chrome Lug Bolts - M14-1.5, 20.5mm Long, Set of 4,
Steel / Aluminum Wheels

CHROME LUG NUTS (SMALL O.D.)

Known as "Tuner" style, these Chrome Lug Nuts are small in diameter and will accommodate a smaller lug hole - as used on 5x112 and 5x100 wheels where the Bolt Pattern is tight.

- 9547** 14mm Small Dia, 60°, for all 5x112 wheels
Chrome w/ tool, Set of 5
- 9548** 1/2" Small Dia, 60°, for all 5x112 wheels
Chrome w/ tool, Set of 5
- 9549** 12mm Small Dia, 60°, for all 5x112 wheels
Chrome w/ tool, Set of 5

60° LONG LUG BOLTS

Wheels with Spacers add up to the need for Longer Lug Bolts. These 12mm, 60° Seat Long Lug Bolts give you 47mm total shaft length. Check to make certain that they don't interfere with brake components inside the drum – trim as necessary.

- 70-2875** Long Lug Bolts - 12mm, Set of 5

LONG WHEEL STUDS

Wheels with Spacers add up to the need for Longer Wheel Studs. These 12 & 14mm, Long Wheel studs give you an extra 5mm (3/16") on the Wheel Side of the Stud to help compensate – that's nearly 1/2" longer than our Standard Wheel Studs. Because they are Studs, they don't interfere with brake components inside the drum.

- 70-2876** Long Wheel Studs, M14-1.5 to 1/2-20, Set of 4
- 70-2877** Long Wheel Studs, M12-1.5 Both Ends, Set of 5
- 70-2878** Long Wheel Studs, M14-1.5 Both Ends, Set of 5

P/N	Wheel Side	Rotor Side
70-2876	34mm	11mm
70-2877	35mm	10mm
70-2878	35mm	10mm

All Lug Bolts need to be checked to be certain that they are not interfering with internal brake parts. Grinding for clearance may be necessary and is the responsibility of the installer.

EMPI COMPETITION STUDS & NUTS

Quality studs are chamfered for brake shoe clearance and feature a starting shoulder for easy nut alignment. Available for Drum or Disc Brake applications. Requires machining for press fit installation. A 9/16" drill bit should be used, may require reaming to 37/64". The Porsche style nut has a 19mm hex head.

- 70-2850 Stud - Drum, M14-1.5 x 1.855" Long, Black. Set of 5
- 70-2810 Stud - Disc, M14-1.5 x 2.20" Long, Black, Set of 5

- 70-2860 Porsche-Style Nut, Zinc, M14-1.5, Ball Seat, Set of 5
- 70-2860-7 Bulk Porsche-Style Nut, Zinc, M14-1.5, Ball Seat, Ea. (Ref. P/N: N020 112 1)

ALUMINUM ALLOY LUG NUTS

If you have Porsche Alloy's or the desire for a quality lug nut then we have you handled. Lug nuts are made from aluminum alloy and are available black anodized or chromed aluminum, which can easily be polished. Both are M14-1.5 x 1 1/4" long thread and are for the original metric ball seat mounting type. These alloy lug nuts have a 19mm hex head.

- 70-2865 Porsche Style Alloy Lug Nuts, Aluminum, Black Anodized, Set of 5
- 70-2867 Porsche Style Alloy Lug Nuts, Aluminum, Chrome Finish, Set of 5

CHROME STEEL LUG NUTS

These steel lug nuts are 14mm with a 19mm hex head, with ball seat.

- 70-2868 Porsche Style Alloy Lug Nuts, Steel with Chrome Finish, Set of 5

LONG CHROME LUG NUTS

1 3/4" thread length capability allows these chrome steel 60 degree acorn style lug nuts ample clearance for most applications that have long press in studs. These are also very popular for play cars and race cars where deep dish rims make it difficult to remove and install standard depth lug nuts. These lug nuts have a 19mm hex head.

- 70-2862 Chrome Lug Nuts, M14-1.5 x 1 3/4" Long, Set of 5

14MM VW STYLE LUG BOLT WITH 17MM HEAD

Ever had a problem with the socket being too big to fit into the hole in your wheel adapters? This new lug bolt is the answer to that problem. These nuts are zinc plated, M14-1.5 x 21mm long under the head. A 14mm thread bolt with the smaller 17mm head allows the socket to fit into wheel adapters including EMPI P/N: 9500.

- 70-2863 14mm VW Style Lug Bolt w/17mm Head, Set of 5

CHROME WHEEL LOCKS

Chrome Wheel Locks to protect your wheels. All EMPI locks are the "socket type" which helps limit stripping out. Supplied with tool.

- 70-2700 M12-1.5, VW Bolt Type, Ball Seat, 29mm Threaded Area, Set of 4
- 70-2701 M14-1.5, VW Bolt Type, Ball Seat, 28mm Threaded Area, Set of 4
- 70-2702 M12-1.5, Mag Nut, Set of 4
- 70-2703 1/2-20, Mag Nut, Set of 4
- 70-2704 1/2-20, Acorn Nut, Set of 4
- 70-2705 M12-1.5, Acorn Nut, Set of 4
- 70-2706 12mm-1.5, 60°, Bolt, 23mm threaded area, Set of 4
- 70-2707 14mm-1.5, 60°, Bolt, 23mm threaded area, Set of 4
- 70-2708 14mm-1.5, Ball Seat for 911 Alloys, Bolt, 25mm threaded area, Set of 4

All Lug Bolts need to be checked to be certain that they are not interfering with internal brake parts. Grinding for clearance may be necessary and is the responsibility of the installer.

- 4500** Quick Shift Kit, Cast Aluminum
- 4501** Quick Shift Kit, Hi-Tech Plastic

URETHANE & STOCK SHIFT COUPLERS - EARLY STYLE

Urethane is the way to go for a shift coupler if you want to take sloppy play out of the equation. This early style coupler works for all Type 1 thru 64 along with other applications like off-road cars that use this style of shift linkage coupler. Supplied with new set-screws as well. Stock shift couplers also available.

- 16-5102** Urethane Shift Coupler, Early Style
- 98-1079** Early Shift Coupler
(Bulk P/N: 111 711 175B)
- 98-1026-2** Grub Screw for Coupler, Each
(Ref. P/N: 211 711 189A)

URETHANE SHIFT COUPLER - LATE STYLE

Much like the original one it replaces, this fits Type 1 65-on and other applications that use this style of coupler. The key improvement on this unit is the two inserts for the cage have been made out of urethane so the shifter linkage will be much tighter and responsive. This is a must do upgrade for almost every car out there that uses this style of shift coupler.

- 16-5103** Shift Coupler, w/Urethane Inserts, Type 1 65-79,
Ghia 65-74, Type 2 68-79, Type 3 All
(Ref. P/N: 311 798 211)

Heavy Gage Steel Cage with heavy duty bolt and Urethane Inserts make this H.D. Coupler the one to use for any performance application.

- 16-5105** H.D. Shift Coupler w/Urethane Inserts & Hardware.,
Type 1 65-79, Ghia 65-74, Type 2 68-79, Type 3 All

URETHANE SHIFT CAGE INSERTS

Urethane Inserts Only for 16-5103 and 16-5105 Shift Couplers.

- 16-5104**  Urethane Inserts Only for 16-5103 and 16-5105 Shift Couplers,
Pair

CHASSIS COMPONENTS

98-1013-B

BUMPER CONVERSION BRACKETS

Now there is a way to install early blade style bumpers onto a 68-73 Beetle! These conversion brackets bolt directly onto 68-73 Beetles and exit out of the stock fender/bracket hole. These do not fit Super Beetles. Due to their size and design, being made to an early bracket dimension at the fender, they allow for installing early fenders on your car at the same time. Finished with a nice satin black powdercoat these brackets help make for a great resto-custom upgrade. Mounting holes are slotted to accomodate most manufacturer's bumpers.

- 15-2045 Brackets, Type 1, 68-73, to Early Bumper, Front, Pair
- 15-2046 Brackets, Type 1, 68-73, to Early Bumper, Rear, Pair

Shipped By Truck Only

ORIGIN PLATES

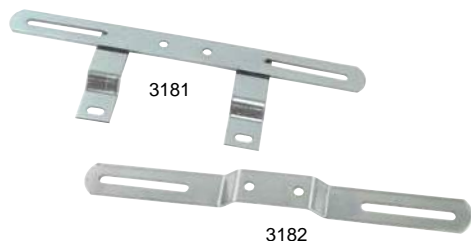

Get the vintage "Euro" look with our Origin Plates. These plates were common in Europe to show other motorists where you were from; different letters designated the various countries. Available with the letter "D", for Deutschland (Germany) or the EMPI globe logo. The stainless steel bracket easily attaches to the rear bumper bracket of pre 1967 sedans and convertibles. Each plate comes with bracket and necessary hardware.

- 6464 Deck Lid Rain Deflector w/Hardware, All Type 1

EMPI VINTAGE TYPE 2 SIDE STEPS

It's back...It's true, EMPI has re-issued the vintage Type 2 Front Side Step. The EMPI step is by far one of the most popular and sought after early Type 2 accessories. True to the original, we have faithfully reproduced the step to be just like the original with the EMPI logo as the step! Fits early bus 1959-1967. Two steps are included for left and right sides with zinc plated brackets and mounting hardware. The EMPI Front Side Step is one of the first items to be reintroduced for the "EMPI Vintage Parts" program. Now also available with a machined and polished 6061 T-6 Billet Aluminum EMPI logo for that custom Cal-Look application! **The Aluminum Step has a female thread in the center. The rubber step has a stud offset to one side. Left and Right are the same.**

EXTERIOR ACCESSORIES

FRONT HOOD GAS STRUTS

If you're tired of that same old "squawk" when you open the front hood, we've got just what you need. These up-to-date struts are an affordable and functional update to any street or show car and provide the correct amount of resistance to avoid buckle.

16-9542 Front Hood Gas Struts, Type1 except 73 1/2-79 S/B, Pair

CHROME DECK LID BRACKETS & SPRING

Replaces stock brackets and spring with Chrome versions.

8661 Chrome Deck Lid Spring, Each
8662 Chrome Deck Lid Brackets, Pair

BILLET ALUMINUM DECK LID STAND-OFF

Trick looking Polished Billet Aluminum Deck Lid Stand-off functions to raise your deck lid about 2.5" while looking awesome. Comes with set screws. Fits early T-handle cars only, 50-64.

17-2948 Billet Aluminum Deck Lid Stand-Offs, Type 1, Each

DECKLID HINGE BRACKET

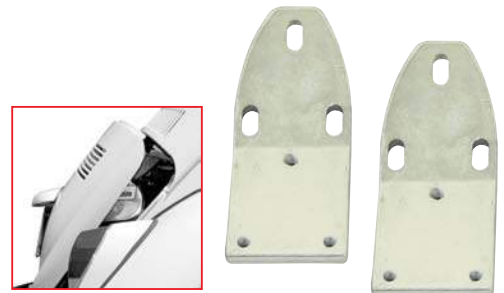

16-9837 Decklid Hinge Bracket, M6-1.0 Threaded, Pair
16-9837-7 Bulk Decklid Hinge Bracket, M6-1.0 Threaded Type 1 1950-79, Each
(Bulk P/N: 111 827 171)

DECK LID STAND-OFFS

Bolts between your deck lid brackets and body to lift and hold top of deck lid away from the body allowing improved cooling. Made from cast aluminum. Fits all Type 1.

9141 Deck Lid Stand-Offs w/Hardware, Pair

DECK LID QUICK RELEASE PINS

By removing the existing deck lid hinge pins and using these quick release clip/pins you can easily remove your deck lid for engine tuning any time you want. Great for sedans with dual carburetors where you can never get your arm into the right spot or for those of you who happen to always hit their head on the deck lid!

8669 Deck Lid Quick Release Clips, Pair

MOLDING KITS

Replace those old and dull moldings with our high quality bright anodized aluminum 7 piece molding kits. Fits Type 1, Bugs, except Super Beetle. **(Clips are not included).** Each kit is boxed.

EMPI DOOR PANEL KITS

With EMPI's new Universal Door Panel Kit you only need to stock one part number for all 65-77 Type 1 sedans. The innovative design has knock-outs for early and late handle locations, also the clip holes are spaced to accommodate early and late spacing patterns for a perfect fit. The rear panels even have a knock-out for the ash tray. Constructed out of Masonite, (Not cardboard) and O.E. style vinyl for durable long life and that original look. The front door panels feature map pockets on both left and right sides. Each kit includes front and rear, left and right panels. All EMPI Panel Kits feature map pockets both right and left.

BAMBOO PACKAGE TRAY

One of the best accessories ever made, this tray fits under the dashboard of a Type 1 sedan providing a handy shelf to keep all your "stuff" within easy reach. EMPI's version is true bamboo and wicker, a design that's been popular since the fifties. Fits all Type 1 sedans except Super Beetle. (Includes all necessary mounting hardware)

- 4870** Bamboo Style Tray, Type 1 Sedan (Exc. S/B)

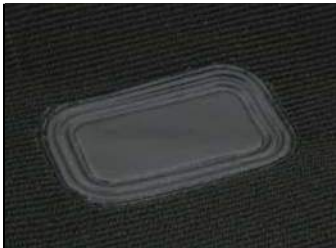

EMPI DELUXE CARPET KITS

Our quality Deluxe Carpet Kits feature...

- Loop Carpet for comfort and noise reduction...
- Hi-count weave for superior wear and stain resistance...
- Superior backing for a easy installation and smooth, lump-free finish...
- Heavy duty heel pad - stitched in for extended wear...
- Pre-cut, bound and sewn for easy installation. Late model patterns are available for applications with and without the factory steel passenger footrest... check your VW before ordering.

Heater Grommets....

Molded in our most popular kits - 3081, 3073 & 3980

Now that the floor, cowl and heater channel areas look great with the new carpet...Complete the 'clean' look with our Trunk and Rear Well Carpet Kits (see Page 332)

REPLACEMENT BULBS

EMPI offers a complete line of halogen headlight bulbs to fit most any application. Pick the style that fits your light and then choose the wattage best suited for your driving conditions. Be sure to check the vehicle's charging capacity to avoid overloading the system (watts ÷ volts = amps). Check your local laws regarding wattage and color for street applications. [See page 415 for H1, H2 and H3 Bulbs](#)

ELECTRICAL ACCESSORIES

IGNITION SWITCHES

Stock-Style or Universal switches for all applications.

- 98-2050** Ignition Switch w/Keys, Type 1, 58-67
(Bulk P/N: 111 905 803D)
- 98-2053** Ignition Switch (Electrical Only), Type 1, 68-70
(Bulk P/N: 311 905 865A)
- 98-9023-B** Ignition Lock Cylinder, w/Keys, Type 1 68-70, Ghia 68-70,
Type 3 68-70, Each
(Ref. P/N: 113 905 853)
- 98-2051** NEW! Ignition Switch w/Keys, Type 2, 55-67
(Bulk P/N: 211 905 811C)
- 9306** Universal Ignition Switch w/Keys for 6 or 12-Volt Systems

IGNITION SWITCH (ELECTRICAL)

This switch is the electrical part of the switch located behind the ignition lock cylinder. Fits Type 1 72-74.

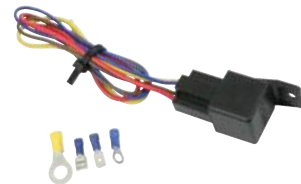

- 98-9052** NEW! Ignition Switch, Type 1 72-74
(Bulk P/N: 111 905 865K)

HARD-START RELAY KIT - 12 VOLT

Allows increased juice to the starter by momentarily by-passing the ignition switch. Easy installation.

- 17-2917** Hard-Start Relay Kit

REPLACEMENT TURN SIGNAL SWITCHES

- 98-9576** Turn Signal Switch, Type 1, 62-67, Ghia, 62-67, Black
(Bulk P/N: 141 953 517F) Do Not connect dimmer switch wire on early cars
OEM Type 1 62-65 is ivory in color. EMPI's is black.
- 98-9539** Turn Signal Switch, Type 1, 68-70
(Bulk P/N: 311 953 513B)
- 98-9537** Turn Signal Switch, Type 1, 71
(Bulk P/N: 111 953 513C)
- 98-9538** Turn Signal Switch, Type 1, 72-79
(Bulk P/N: 111 953 513F)

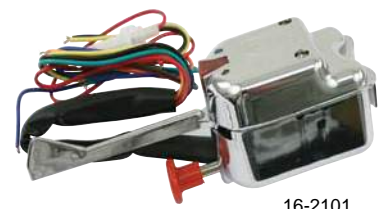

UNIVERSAL CHROME TURN SIGNAL SWITCH

EMPI's Universal Turn Signal Switch has a chrome plated metal housing & arm and includes an emergency flasher switch. Mounts on flat or rounded surfaces and comes with color coded wiring schematic. Six wire construction allows for use on either 1 or 2 tail light bulb configurations. Works on both 6 & 12-Volt systems.

NOTE: L.E.D. lights need additional electronic flashers and wiring.

- 16-2101** Universal Turn Signal Switch

HORNS

Stock replacement horns.

98-2030 6-Volt Horn, Each
(Bulk P/N: 111 951 111H)

98-2031 12-Volt Horn, Each
(Bulk P/N: 111 951 113B)

PUSH BUTTON STARTER SWITCH

Great for off-road use. Also, can be installed as a remote switch for use when adjusting timing. 12 Volt.

9367 Momentary Push Button Starter Switch, Sealed

SEALED TOGGLE SWITCHES

Heavy duty switches with rubberized coating or our NEW injected-molded hard rubber body - all feature toggle lever boots and provide weather resistance for extreme use. Great for Baja's, Buggies, etc. 20 Amp.

9360 Sealed Toggle Switch, Molded, On/Off

9361 Sealed Toggle Switch, Off/On/On

9362 Sealed Toggle Switch, Molded, Off/On/Momentary-On

9363 Sealed Toggle Switch, On/Off/On (2-Pole)

INDICATOR/WARNING LIGHTS

Universal indicator lights can be used for all accessories. Available in standard with 3/8" lens or larger "Super" size with 9/16" lens and chrome bezel. "Super" bezels have a .900" O.D. and standard bezels have a .640" O.D. Standard size installs into 1/2" holes, "Super" size require a 3/4" hole. 12 Volt, 2 Watt.

VDO GAUGE MOUNTING ACCESSORIES

Secure mounting guarantees performance for all gauges and tachometers while adding a clean look for all applications.

V240101 Mount Cup, 2 1/16" w/Long Housing

V600401 Stud Mount Conversion Kit, 3 1/8"
V600402 Stud Mount Conversion Kit, 2 1/16"

V240864 Gauge Hole Cover, 2 1/16"

V240005 Anti-Glare Ring, 2 1/16", Pack of 2

VDO BULBS & SOCKETS

- V600802** Bulb, 9/32" 12V/2W, 4 pcs.
- V600816** Socket for V600802, Steel, Each
- V600804** Bulb, 11/32" 12V/2W, 4 pcs.
- V600819** Socket for V600804, Each
- V600809** Bulb, Peanut Style, 4 pcs.
- V600815** Bulb, Large Peanut Style, 4 pcs.
- V600813** Insulated Bulb Socket, 3/8", Each
- V600840** Insulated Bulb Socket, Peanut Style, Each

VDO LIGHT DIFFUSERS

The easy and convenient way to change the lighting color in your VDO gauge. Simply slips over the light bulb to give your dash a whole new color at night.

- V600853** Light Diffuser – Red, 9/32, (4 pcs)
- V600856** Light Diffuser – Green, 9/32", (4 pcs)
- V600857** Light Diffuser – Red, 11/32", (4 pcs)
- V600859** Light Diffuser – Red, Peanut, (4 pcs)
- V600860** Light Diffuser – Green, Peanut, (4 pcs)

ELECTRIC SPEEDO TO CABLE CONVERSION KIT

This kit allows you to hook up an electronic speedometer into a Type 1 sedan without modifying your drums or rotors. The custom designed cable utilizes the O.E.M. dust cap hole with an inductive sensor on the opposite end, which can be easily wired to your electronic speedometer.

16-9290 Electric Speedo to Cable Conversion Kit

DUST BOOT

98-9809-B Dust Boot, Speedometer Cable, Type 1 61-77,
Ghia 56-74, Each

SHOW BARS

Fully jig-welded for precision fit these show bars are available in 4 point, made from 2" O.D. tubing or 6 Point made from 1 1/2" O.D. tubing. Fits all Bugs except Convertible. **(Not for competition use) Shipped by Truck only.**

- 3116 Show Bars, 4 Point - Bolt-In or Weld-In, .1025" Wall Thickness, (Raw)
- 3119 Show Bars, 6 Point - Weld-In, .095" Wall Thickness, (Raw)

OFFSET HOLE - COLORED SHOW BAR PADDING

Offset hole location allows padding to be positioned to provide more protection for driver/passengers. Manufactured in pre-cut 3 foot lengths with 1 1/2" I.D. **(10 pieces per bulk box, priced per box). (Ordering 1 = 10 pcs.)**

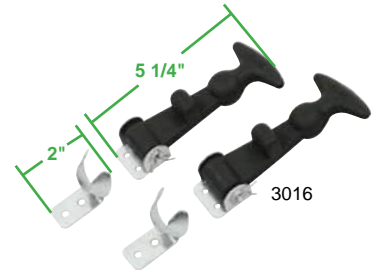

- 16-2096 Roll Bar Pad, Black, 10-Piece Box
- 16-2092 Roll Bar Pad, Blue, 10-Piece Box

RUBBER HOOD HOLD-DOWNS

Strong black synthetic rubber latches are self-aligning, rattle free and feature plated steel hardware. A must for your Baja Bug.

- 3016 Rubber Hood Hold-Downs, Pair

CHROME HOOD HOLD DOWNS

Chrome Steel, spring-loaded hood hold downs for securing your 1-Piece front end. Also great for other body panels, tool boxes, trailer ramps and other applications.

- 3011 Chrome Hood Hold Downs

BAJA HOOD PIN KITS

Chrome hold-down with "Pit Pins" holds any hood or deck lid.

- 3017 Hood Pin Kit w/Lanyards, Pair

BAJA BUMPER HARDWARE

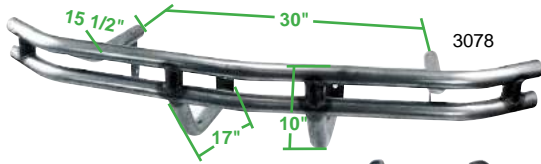

Replacement hardware fits all of our 1 1/2" tube bumpers. Weld on flanges for custom applications.

- 3841 Bumper Flange, 1 1/2" Tube, Pair
- 3841-7 Bulk Bumper Flange, 1 1/2" Tube, Each
- 3837 Hardware Only, Firewall Mount, 4 pcs.
- 3838 Hardware Only, Shock Mount, 4 pcs.
- 3840 Hardware Only, Front Bumpers, 2 pcs.

DOUBLE TUBE BAJA BUMPERS

Feature the added protection and good looks of double 1 1/2" steel tubes. Fits all Type 1 Bugs, except S/B. Comes complete with hardware.

FRONT BUMPER

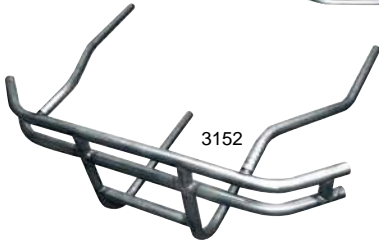

3078 Double Tube Bumper, Front (Raw)

REAR BUMPER

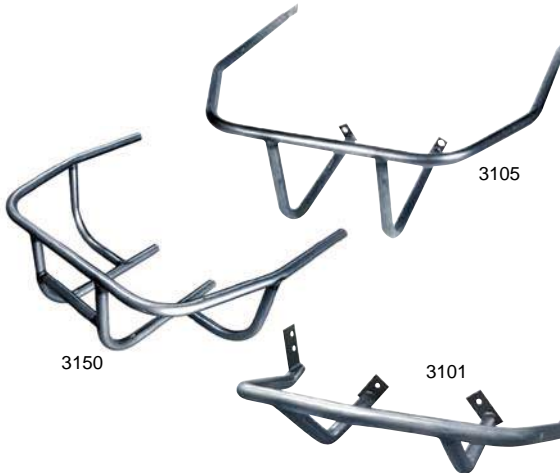

3079 Double Tube Bumper, Rear, Fire Wall Mount (Raw)
Shipped by Truck Only

3152 Double Tube Bumper, Rear, Shock Tower Mount (Raw)
Shipped by Truck Only

BAJA BUMPERS

Protect your Baja's exposed nose and engine from damage with 1 1/2" steel tube bumpers. Fits all Type 1 Bugs except S/B. Comes complete with hardware.

3101 Baja Bumper, Front, Fits Wide & Bug Eye (Raw)

3105 Baja Bumper, Rear, Shock Tower Mount (Raw)
Shipped by Truck Only

3150 H.D. Baja Bumper, Rear, Shock Tower Mount (Raw)
Shipped by Truck Only

BAJA SIDE BARS

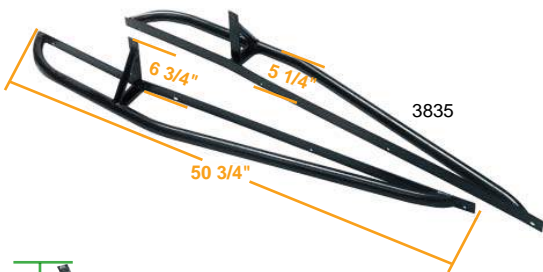

Replaces running boards and offers side protection from rocks and brush. Available in low mount and high mount versions. The top mounting point of the high mount version is approximately half way up the quarter panel for added strength. Comes unpainted, ready to prime and paint. Fits all Type 1 Bugs.

LOW MOUNT

3835 Low Mount Baja Bars, 1 1/4" Tube, (Raw), Pair

HIGH MOUNT

3839 High Mount Baja Bars, 3/4" Tube, (Raw), Pair

STAINLESS STEEL BAJA BUMPERS

Protect your Baja's exposed nose and engine from damage with 1 1/2" stainless steel tube bumpers. Fits all Type 1 Bugs except S/B. Comes complete with hardware. **Hardware is not Stainless Steel.**

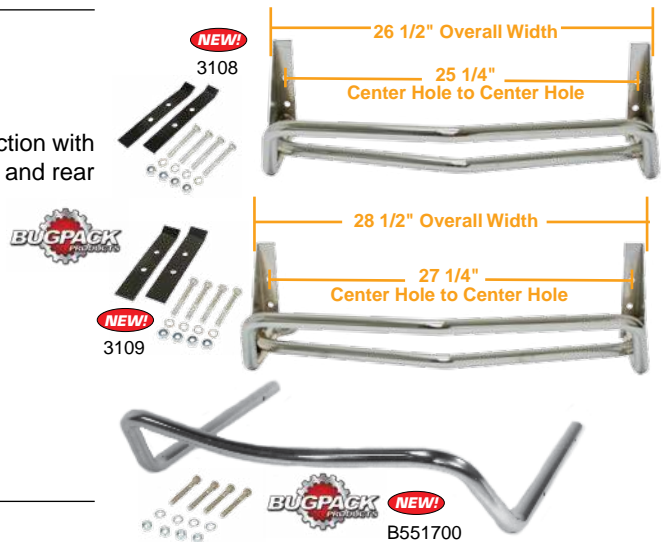

- 3117 **NEW!** Stainless Steel Baja Bumpers, Front Fits Wide & Bug Eye
- 3118 **NEW!** Stainless Steel Baja Bumper, Rear, Shock Tower Mount **Shipped by Truck Only**

CHROME TUBULAR BUMPERS

Designed for Baja Bugs and Dune Buggies to give excellent protection with an off-road look in a quality chrome finish. Separate kits, for front and rear installation, each kit includes hardware.

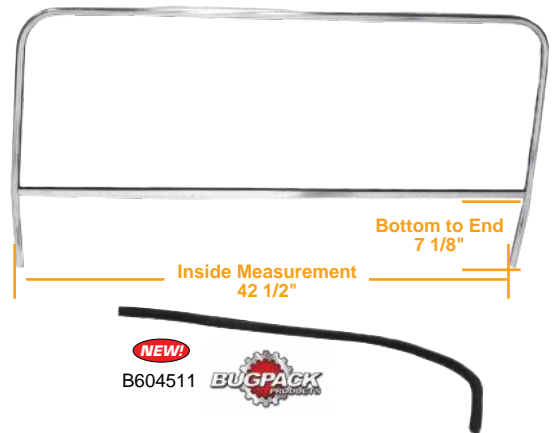

- 3108 **NEW!** Chrome Buggy King Pin Front Bumper
- 3109 **NEW!** Chrome Buggy Ball Joint Front Bumper
- B551700 **NEW!** Chrome Tubular Rear Bumper

BUGPACK DUNE BUGGY WINDSHIELDS

Without question we manufacture the finest Dune Buggy windshields. Exclusive production methods enable us to build many styles and sizes without expensive costs. All frames are a polished and anodized aluminum extrusion to provide custom looks and strength. Windshields are made to fit the body precisely so be sure to include the necessary measurements when ordering. Frames can be ordered without AS-1 safety glass if local installation is available. Kits include all mounting rubber, glazing vinyl and bottom brace.

- B604510 **NEW!** Windshield W/16" Glass, 41 3/4-42" **Shipped by Truck Only.**
- B604511 **NEW!** Windshield W/16" Glass, 42 1/4-42 1/2" **Shipped by Truck Only.**
- B604512 **NEW!** Windshield W/16" Glass, 43 1/2-43 3/4" **Shipped by Truck Only.**
- B604711 **NEW!** Windshield Frame Only, 41 3/4-42 1/2" **Shipped by Truck Only.**
- B604712 **NEW!** Windshield Frame Only, 43 1/2-43 3/4" **Shipped by Truck Only.**

REPLACEMENT PARTS FOR WINDSHIELD KITS

- 18-1057 **NEW!** Replacement Seal for Windshield, 10ft
- 18-1058 **NEW!** Replacement Bottom Seal for Windshield, 44 inch

FUEL FILLER / GAS COVER

Flange with flush screw-in cover for access to internal fuel fillers. Made of high impact black plastic. Mounts on flat surfaces.

16-6032 Flush Mount Access Flange & Cover

PULLEY GUARDS

Protect your pulley and belt from the "Big Chunks". Also avoid injury due to accidental contact when engine is running. Choose from two styles made of heavy gauge steel and chrome plated. Includes mounting hardware.

8665 Chrome Pulley Guard, Louvered
9136 Chrome Pulley Guard, Mesh

CHROME PUSH ROD TUBE PROTECTORS

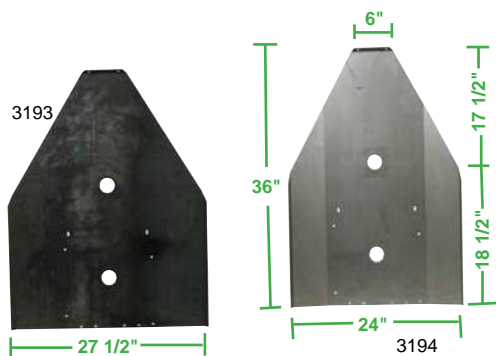

Chrome plated steel protectors look good and protect push rod tubes against engine damage from rocks and debris.

8950 Chrome P/R Tube Protectors, Boxed, Pair

OFF-ROAD SKID PLATES

Bug or Buggy - save your engine and trans from damage from the "Big Chunks". Made from heavy gauge steel and includes mounting hardware.

3193 Universal Baja Bug Skid Plate
 (Fits with Stock Heater Boxes) +
3194 Univ. Buggy Skid Plate
 (Must Use Off-road Exhaust System) +

UPPER & LOWER FRONT END SUPPORTS

Help eliminate bent front beams with these supports. Upper Supports bolt to beam and body while Lower Supports bolt from beam to pan. Made from heavy wall steel tubing. Fits all Type 1 except S/B. Pan modification is necessary.

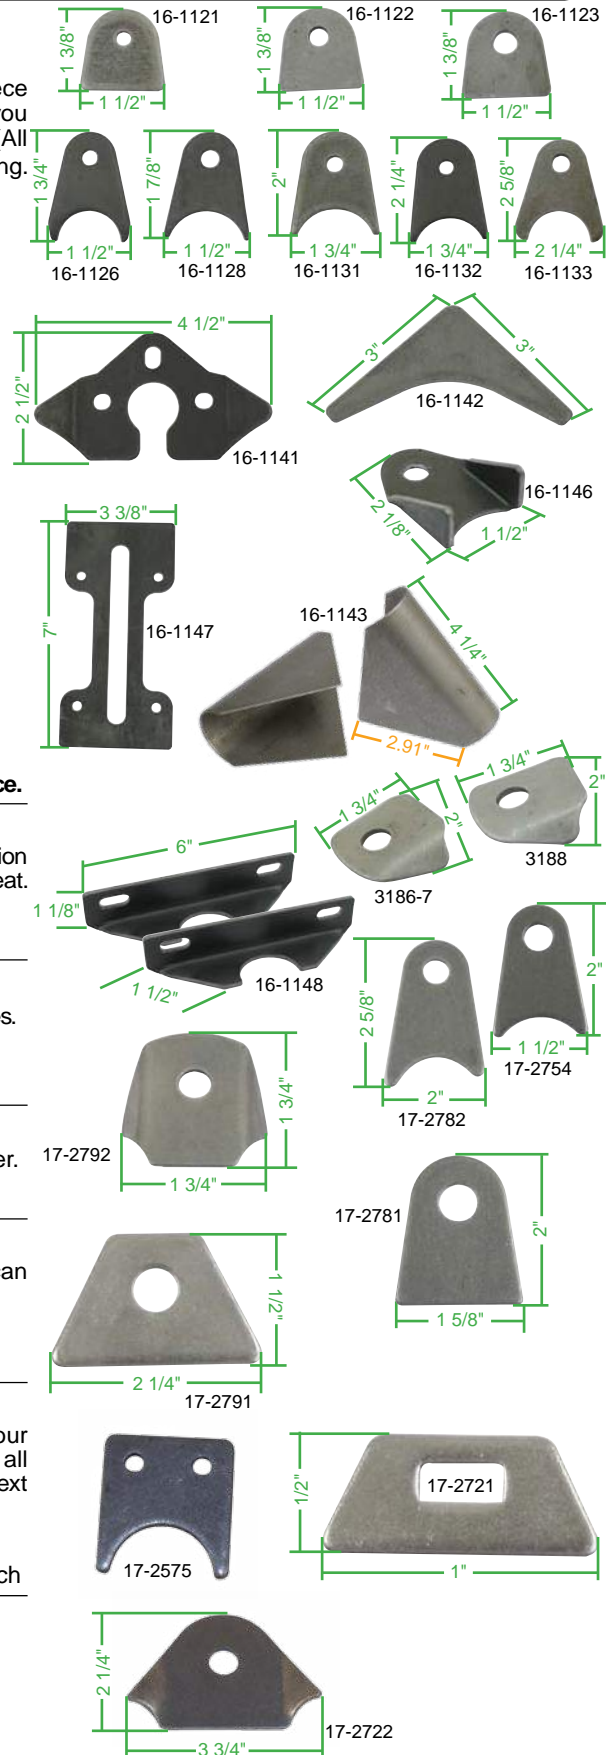

3842 Lower Front End Supports, Raw, Pair
3843 Upper Front End Supports, Raw, Pair

UNIVERSAL TABS, MOUNTS & BRACKETS

Fabrication is a whole lot easier when you can just pick up a pre-made piece and weld it in place. EMPI now offers a large selection of items to help you out when you're setting up a new chassis or just re-working an old one. (All items are raw). The radius on all tabs is made to accommodate 1 1/2" tubing.

- 16-1121 Flat Mount Tab, 1/4" Hole, Set of 4
- 16-1122 Flat Mount Tab, 5/16" Hole, Set of 4
- 16-1123 Flat Mount Tab, 3/8" Hole, Set of 4
- 16-1126 1" Tube Tab, 1/4" Hole, Set of 4
- 16-1128 1 1/4" Tube Tab, 5/16" Hole, Set of 4
- 16-1131 1 1/2" Tube Tab, 5/16" Hole, Short, Set of 4
- 16-1132 1 1/2" Tube Tab, 5/16" Hole, Long, Set of 4
- 16-1133 1 1/2" Tube Shock Mount Tab, 7/16" Hole, Set of 4
- 16-1141 Oil Filter Adapter Mount, Each
- 16-1142 90 Degree Flat Gusset, Set of 4
- 16-1143 90 Degree Formed Gusset, Set of 4
- 16-1146 90 Degree Formed Mount Tab, 3/8" Hole, Set of 4
- 16-1148 Aluminum Gas Tank Mounts, Fits 8" or 10", Pair
- 16-1147 Pedal Mount Bracket, Fits EMPI, CNC, Each
- 3186 Universal Mounting Tab, 3/8" Hole, Set of 4
- 3186-7 Bulk Universal Mounting Tab, 3/8" Hole, Each
- 3189 Universal Mounting Tab, 1/2" Hole, Set of 4
- 3188 Bulk Universal Mounting Tab, 1/2" Hole, Each

Note: Most flanges are available in bulk. Ask your sales person for assistance.

CHROMOLY SEAT TAB

Radiused for 1 1/2" tubing. These chromoly tabs make mounting suspension seats easy. Available in tall and standard heights to elevate the front of the seat.

- 17-2754 Chromoly Tab, Seat Mount Standard, Pair
- 17-2782 Chromoly Tab, Seat Mount Tall, Pair

FORMED CHASSIS TABS

These tabs are a fabricators most popular choice. Available with 3/8" or 1/2" holes.

- 17-2792 Chromoly Tab, 3/8", Set of 4
- 17-2793 Chromoly Tab, 1/2", Set of 4

CHROMOLY SEAT BELT TAB

The chromoly material makes bolting that seat belt set that much stronger.

- 17-2781 Chromoly Tab, Seat Belt, Set of 4

SEAT OR BELT MOUNTING TAB

A universal design used to mount mostly seats or seat belts. This tab can be used almost anywhere. Available in mild steel or chromoly. Set of 4.

- 17-2720 Tab, Seat Belt, Mild Steel, Set of 4
- 17-2791 Tab, Seat Belt, Chromoly, Set of 4

UNIVERSAL TAB

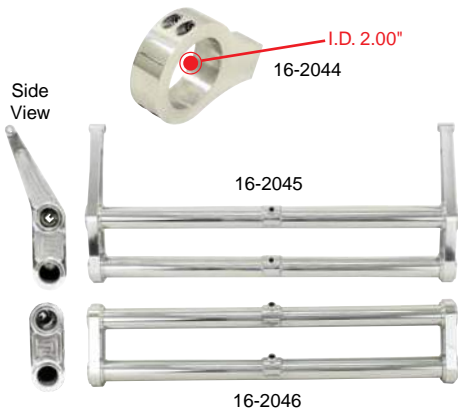

That's right. Look at this little beauty. A tab that you can weld onto your chassis and zip tie your wires and lines to. No more black zip ties going all the way around the tubes. These take the detail of your vehicle to the next level. Set of 4.

- 17-2721 Universal Tab, Set of 4
- 17-2575 Universal Mounting Tab for Reservoirs, Raw, Each

LARGE OFF ROAD LIGHT / WHIP TAB

Extra wide tab works well when mounting lights or whips.

- 17-2722 Tab, Large, Set of 4

EMPI ALUMINUM LINK PIN AXLE BEAM

Polished Aluminum Link Pin beam is lightweight and attractive for all Sand Buggy applications. Available with or without shock towers. (Not for Sedans or Heavier Buggies). To use a stock steering damper, use EMPI's new Billet Aluminum Steering Damper Mount. **Urethane bushings: For 16-2045 use 16-5139 and for 16-2046 use B658411. These bushings are listed on pages 194, 203 and 372.**

- 16-2045** EMPI Aluminum Link Pin Beam, w/Shock Towers
- 16-2046** EMPI Aluminum Link Pin Beam, w/o Shock Towers
- 16-2044** Aluminum Billet Steering Damper Mount

FRONT END CLAMPS

Mount a VW front beam to a tube chassis with our Front End Clamps. Made from heavy duty stamped steel. Choose chrome plated for that custom look or raw for fabrication. Also use these to mount aluminum beam and baja tube bumpers.

- 3162** Chrome Axle Beam Clamp Kit, 4 pcs.
- 3162-7** Bulk Chrome Axle Beam Clamp, Each
- 3161** Raw Axle Beam Clamp Kit, 8 pcs., Includes Hardware
- 3161-7** Bulk Raw Axle Beam Clamp, Each

BRAKE LINE TAB

For the chassis fabricator building that next project.

- 17-2716** Tab, Brake Lines, Pair

90 DEGREE CHASSIS GUSSET

Add extra strength to chassis corners, uprights and roll cages.

- 17-2723** Gusset, 90 Degree, .115" Thick, **Set of 4**
- 16-1143** Gusset, 90 Degree, .078" Thick, **Set of 4**

SHOCK RESERVOIR BRACKET

This weld-on bracket replaces the old urethane and hose clamp method. Sold as pairs. For 2.0" Reservoirs.

- 17-2719** Bracket, Shock Reservoir, Pair

STAINLESS STEEL LINE CLAMPS

These stainless steel clamps put the finishing touch on those clutch and brake line installations. Available for 3/16" or 1/4" line. Set of 4.

- 17-2717** Stainless Steel Clamp, 3/16" Line, **Set of 4**
- 17-2718** Stainless Steel Clamp, 1/4" Line, **Set of 4**

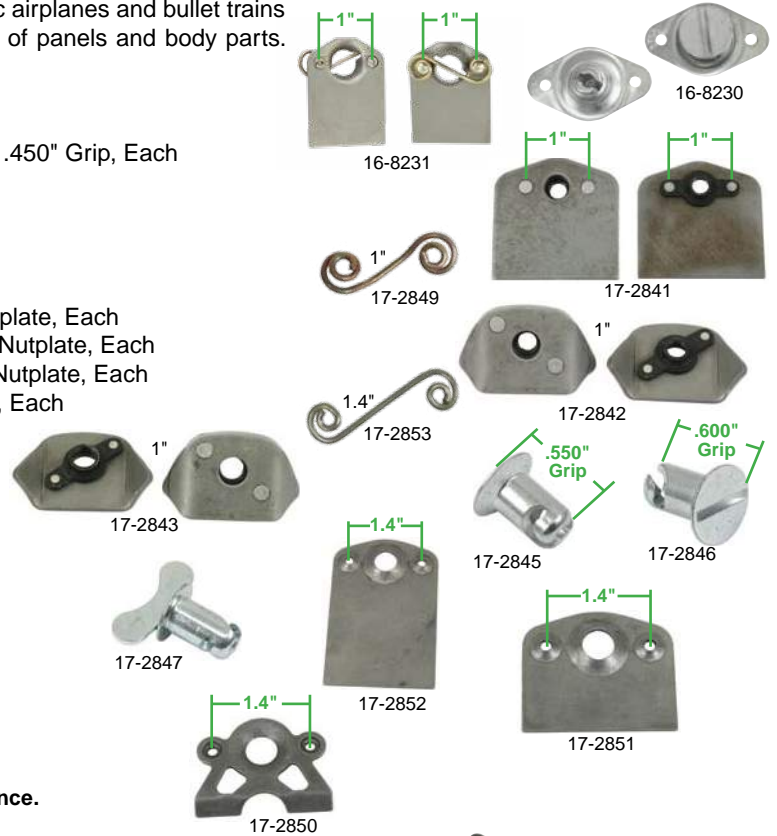

QUICK RELEASE FASTENERS

These are the fasteners that are used to hold supersonic airplanes and bullet trains together. Designed for quick removal and replacement of panels and body parts. (Buttons are for 5/8" installed height).

- 16-8230 Self-Ejecting Button Only, 5/16" x .450" Grip, Each
- 16-8232 Self Ejecting Button Only, 20 pcs.

- 16-8231 Fastener Tab w/Spring, Each
- 16-8233 Fastener Tab w/Spring, 20 pcs.
- 17-2841 Fastener Tab, Flat w/5/16"-24 Nutplate, Each
- 17-2842 Fastener Tab, Formed w/5/16"-24 Nutplate, Each
- 17-2843 Fastener Tab, Formed w/3/8"-24 Nutplate, Each
- 17-2850 Fastener Tab, Formed, Lightened, Each
- 17-2851 Fastener Tab, Flat, Short, Each
- 17-2852 Fastener Tab, Flat Long, Each

- 17-2845 Button Stud, Short Non-Ejecting
13/32" x .550" Grip, Each
- 17-2846 Button Stud, Long Non-Ejecting
13/32" x .600" Grip, Each
- 17-2847 Wing-Nut, Non-Ejecting, Each
- 17-2849 Spring Only for Tabs (1"), Each
- 17-2853 Spring Only for Tabs (1.4"), Each

Note: Available in Bulk. Ask your Sales Person for Assistance.

LONG TRAVEL SHOCK TOWER KIT

Use EMPI's pre-cut components to convert the stock VW Link Pin axle beam to an off road high-jumping long travel set up. Use with shocks with at least 10" shaft travel. Fabrication and welding required.

(P/N: 97-1014 KYB KG5530 shock is recommended for this application)

- 17-2646 Long Travel Shock Tower Kit (10") for Link Pin, Set, Raw

BEAM MOUNTING BRACKETS

Steel mounting brackets for installing a beam front end to a chassis or frame head. Fits all aftermarket beams, or stock king-pin beam. **MUST BE WELDED**

- 17-2648 Beam Mounting Brackets, Pair

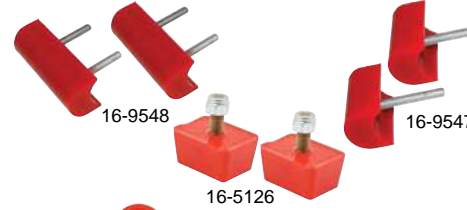

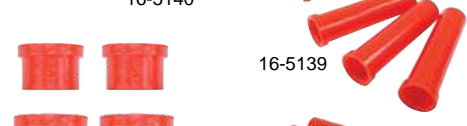

BATTERY BOX

- 16-9503 Battery Box, 5 1/8" x 7 7/8", Weld onto Frame,
Fits Smaller Batteries, Complete with Hardware

URETHANE BUSHINGS, COUPLERS & STOPS

The strength and durability of Urethane will out-last and out-perform standard rubber products in every application. From Shift Couplers to Bump Stops, install Urethane and never look back! All urethane is red in color except where noted. [See page 203 for dimensions.](#)

CHROMOLY LINK PINS

4140 Chromoly link pins for heavy duty forged trailing arms. Available in 45/64" (17.9mm) O.D. and 7/8" (22.2mm) O.D. Set of 4.

- 17-2799** Chromoly Link Pins 45/64" (17.9mm), Set of 4
Smooth Area 82.6mm, Overall Length 116.70mm
- 17-2555** Chromoly Link Pins 7/8" (22.2mm), Set of 4
Smooth Area 92.8mm, Overall Length 125.00mm

LINK PIN SPINDLE GUSSET KIT

Strengthen your stock Link Pin spindles with these gussets/supports. The 4 piece kit includes two gussets that weld to the spindle carriers and two that weld to the spindles to triangulate the tie rod arms. This helps these stock components withstand the extra stresses of off-road driving. Welding required.

- 3166** Link Pin Spindle Gusset Kit, 4 pcs., Raw

LINK PINS FOR MULTI-SHOCK TRAILING ARMS

These extended link pins are designed to accommodate front trailing arms set up for Multi-Shocks.

- 17-2554** Multi-Shock Link Pins, Pair

LINK PIN SHIMS

Link pin shims for 45/64" (17.9mm) and 7/8" (22.2mm) link pins.

- 17-2758** Shims, Link Pin 45/64" (17.9mm), Set of 5
- 17-2557** Shims, Link Pin 7/8" (22.2mm), Set of 5

LINK PIN BUSHINGS

Link pin bushings for 45/64" (17.9mm) and 7/8" (22.2mm) link pins. **(Press In)**

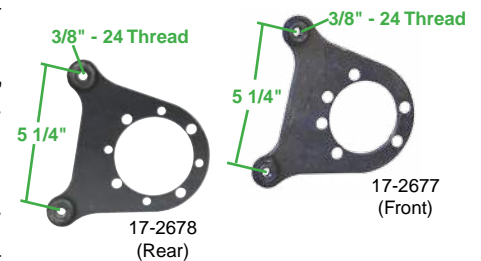

- 17-2757** Bushings, Link Pin 45/64" (17.9mm), Set of 4
- 17-2556** Bushings, Link Pin 7/8" (22.2mm), Set of 4

4 PISTON CALIPER BRACKETS

Install the popular 4 piston calipers on front and rear axles. Bolt patterns are 5 1/4" on center. 3/8"-24 threaded mounting holes. Can be used with EMPI P/N # 16-2525-7 Calipers.

- 17-2677** Caliper Bracket, Front, VW Ball Joint Spindles, Left / Right, Ea.
- 17-2678** Caliper Bracket, Rear, VW Swing Axle and IRS, Each

LINK PIN DISC BRAKE BRACKET

Allows you to put OE calipers on a link pin spindle. M10 x 1.5 thread.

- 17-2753** Bracket, Disc Brake Link Pin, Each

2 PISTON CALIPER BRACKET

This bracket allows you to use the VW OEM 2 piston caliper or EMPI P/N 98-1150-B Caliper. These must be fabricated to fit your desired application. M10 x 1.5 thread. **Must be welded on.**

- 17-2679** OEM Caliper Bracket, Pair

EMPI FORGED H.D. KING PIN SPINDLE KIT

Complete Spindle, Knuckle and Pin set with beefed up Forged spindles. Gussets forged into the spindle and steering arm for added strength. Great for your Baja or Buggy. FORGED Gussets built into the spindle and steering arm. Use stock VW tie rods.

22-2976

FORGED H.D. King Pin Spindle Kit, Pair

NEW DESIGN

Gussets on the knuckles have been machined for steering clearance.

SPINDLE COMPONENTS

- 98-4051-B** Spindle Nut, Left
(Ref. P/N: 111 405 671)
- 98-4052-B** Spindle Nut, Right
(Ref. P/N: 111 405 672)
- 9616** Aluminum Linkpin Clamp Nut, Pair
- 17-2795** King Pin Conversion Bearing, Inner, Each
O.D. = 1.977", I.D. = .9845"
- 17-2796** King Pin Conversion Bearing, Outer, Each
O.D. = 1.570", I.D. = .7875"
- 98-1156-B** Axle Seal
(Ref. P/N: 321 501 641)
- 17-2797** Combo Spindle Bearing, Inner, Each
O.D. = 2.437", I.D. = 1.251" (Race Ref. #15244)
- 17-2798** Combo Spindle Bearing, Outer, Each
O.D. = 2.052", I.D. = 1.0005"
- 98-5021-B** Axle Seal
(Ref. P/N: 113 501 315H)

HEAVY DUTY AXLE BEAM THRU RODS

A proven off road design that eliminates torsion leaf springs and replaces them with steel rods allowing you to use coil-over shocks. Must be used with P/N 17-2548 clamps.

- 17-2545** Thru Rod, Stock Width Beam, Pair, 40.5" Long, Boxed
- 17-2546** Thru Rod, 5" and 6" Wider Beam, Pair, 46.5" Long, Boxed
- 17-2547** Thru Rod, 8" Wider Beam, Pair, 48.75" Long, Boxed

THRU ROD CLAMPS

Must be used when using P/N 17-2545, 17-2546, and 17-2547 beam thru rods. These clamps thread onto the ends of the rods and tighten with a set screw, securing the rods in place. Sold in sets of 4.

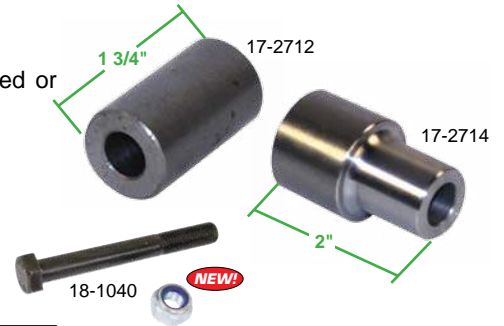

- 17-2548** Clamp, Thru Rod, Set of 4

SHOCK BOSS / SHOCK BOLT

For fabricating shock mounts. Comes in 1/2" or 12mm x 1.5 bolt sizes. Threaded or unthreaded.

- 17-2712 Shock Boss, Unthreaded 1/2", 1 3/4" Long, Each
- 17-2713 Shock Boss, Unthreaded 12mm, 1 3/4" Long, Each
- 17-2714 Shock Boss, Threaded 12mm, 2" Long, Each
- 17-2715 Shock Boss, Threaded 1/2", 2" Long, Each
- 18-1040 **NEW!** Shock Bolt w/ Nut, 12mm x 1.5, 100mm Long, Each

MISALIGNMENT SHIM FOR HEIM ENDS

Stainless steel adapter for Heim end alignment and offset. 3/4" OD x 5/8" ID x 1/2".

- 17-2645 S/S Misalignment Shim, Heim end, Each

HEAVY DUTY TIE ROD ENDS

Ford Tie Rod Ends have Zerk Fitting on the back (pictured).

- 17-2591 Tie Rod End Ford, Left Hand 3/4" - 16 Thread Shank, Each
- 17-2592 Tie Rod End Ford, Right Hand 3/4" - 16 Thread Shank, Each

POLISHED STAINLESS STEEL HEAVY DUTY TIE ROD ENDS

- 17-2595 S/S Tie Rod End I.H., Left Hand 3/4" - 16 Thread Shank, Each
- 17-2596 S/S Tie Rod End I.H., Right Hand 3/4" - 16 Thread Shank, Each

CHROME STEERING ARMS

Chrome steering arms to connect tie rods to VW steering boxes.

- 17-2565 Steering Arm, Chrome, Large Shaft, Small Tie Rod End, 46-65, Each
- 17-2566 Steering Arm, Chrome, Small Shaft, Small Tie Rod End, 66-68, Each
- 17-2567 Steering Arm, Chrome, Small Shaft, Large Tie Rod End, 69-77, Each

ALUMINUM LINK PIN CLAMP NUTS

Machined Aluminum nuts for all Link Pin front spindles.

- 9616 Aluminum Link Pin Clamp Nuts, Pair

Race Trim

RACE-TRIM MICRO STUB BRAKE KITS

State of the art suspension is just one step away! Micro-stub brake systems are necessary if you are going to use a rear suspension that is different from a VW style trailing arm arrangement. This Race-Trim kit utilizes the best of the best in both components and materials used. 4-piston brake calipers, vented rotors, forged chromoly stub axles, forged hub assemblies, 6061 T-6 aluminum alloy rotor hats & wheel adapters. This combination gives you the winning edge, whether it's for racing or just an all out turbo long-travel sand car! Kits come complete ready for fab-in installation and are sold as a set. In addition we also offer a Micro-Arm flange tube to facilitate installation of the Race-Trim Micro Stub brake kit to a tubular trailing arm. Bolt pattern is 5 on 205.

(See pages 244-245 for additional details on this item).

- 16-2510 Race-Trim Micro Stub Brake Kit, for 930 C.V. Joints
- 16-2511 Race-Trim Micro Stub Brake Kit, for 934 C.V. Joints
- 16-2516 Mount Tube Only for Race-Trim Micro Stub Kit, Pair (Not Installed) (Not included in brake kits)
- 16-2525-7 Replacement Caliper, Each, w/o pads
- 16-2525-6 Replacement Pads, Two Pair
- 16-2510-2 Replacement Left Rotor Only, Each
- 16-2510-7 Replacement Right Rotor Only, Each
- 16-2510-1 Replacement Hub Bearing Assembly, Each
- 16-2510-4 Replacement Wheel Adapter, Each
- 16-2510-3 Replacement Aluminum Hub, Each
- 16-2510-5 Replacement Cap, Each
- 16-2510-8 Replacement Bracket, Each
- 16-2413 Repl. 3/8" x 24, 12 point, grade 8 (930), 6 pcs.
- 16-2414 Repl. 7/16" x 20, 12 point shouldered, grade 10.9 (934), 6 pcs.
- 16-2310 Microstub Axle w/ washer for 930 CV Joint, Each
- 16-2311 Microstub Axle w/ washer for 934 CV Joint, Each

RACE-TRIM FRONT DISC BRAKE KITS OFF-ROAD & SAND CARS W/ COMBO SPINDLES

State of the art braking! This Race-Trim kit utilizes the best of the best in both components and materials used. Billet Wilwood calipers and pads, 5/205 Bolt Pattern. Supplied with 14mm Studs, Chrome Lug Nuts and Polished Aluminum Center Caps. Bearing races are pressed into hubs.

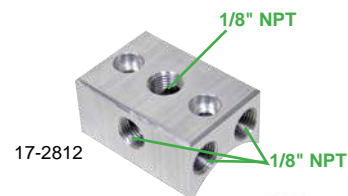

- 16-2517 Race-Trim Off-Road Front Disc Brake Kit, for Combo Spindles
- 16-2517-3 Replacement Rotor, Left / Right Only, Each
- 16-2517-6 Replacement Caliper, Each, w/o Pads
- 16-2517-7 Replacement Pads, Two Pair

BILLET BRAKE LINE UNION

Billet brake union allows clean installation of all brake lines to one location. Tapped 1/8" NPT. Two other holes on top are for mounting.

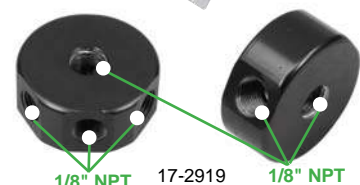

- 17-2812 Billet Brake Line Union, Each

UNIVERSAL BRAKE LINE UNION

Trick brake line union allows clean installation of brake lines. Tapped 1/8" NPT.

- 17-2919 Universal Brake Line Union, Each

POLISHED ALUMINUM BUGGY MASTER CYLINDER

Large 22mm bore, Polished Aluminum Master Cylinder for 2 or 4 wheel brake applications while adding a show-look to your buggy. Chose a Billet or Plastic reservoir.

- 16-7041** 22mm Polished Aluminum Buggy Master Cylinder, w/Residual Valve
- 16-7042** 22mm Polished Aluminum Buggy Master Cylinder, w/o Residual Valve

BUGGY MASTER CYLINDER

The large 22mm bore Master Cylinder is large enough to handle 2 or 4 wheel set-ups. Available complete with reservoir or replacement reservoir only.

- 6112** 22mm Buggy Master Cylinder, w/Residual Valve and Reservoir
- 98-6020-B** Plastic Reservoir Only
(Ref. P/N: 211 611 301C)
- 98-6021-B** 22mm Buggy Master Cylinder Only w/Residual Valve
(Ref. P/N: 211 611 011JCH)
- 98-6022-B** 22mm Buggy Master Cylinder Only w/o Residual Valve.
For use with Disc Brakes. (Does not include reservoir)

BUGGY MASTER CYL. W/POLISHED ALUM. RESERVOIR

Every year it's the first thing on your shopping list...New brake reservoir to replace the sun baked or leaking one from last season. EMPI puts an end to the vicious cycle with this polished Billet Aluminum Reservoir, it's the best looking and last one you will need.

- 6114** 22mm Buggy Master Cylinder w/Residual Valve and Polished Aluminum Reservoir
- 16-7040** Polished Billet Aluminum Master Cylinder Reservoir Only w/Cap
- 98-6021-B** 22mm Buggy Master Cylinder Only w/Residual Valve
(Ref. P/N: 211 611 011JCH)

BUGGY MASTER CYLINDER WITH BILLET ALUMINUM RESERVOIR

Complete Type 2 Master Cylinder with the great looking Billet Aluminum Buggy Master Cylinder Reservoir to add that billet flare to your Buggy.

- 6116** Buggy Master Cylinder with Billet Aluminum Reservoir, Set

BILLET ALUMINUM BUGGY MASTER CYLINDER RESERVOIR

Great looking Billet Aluminum Buggy Master Cylinder Reservoir to add that billet flare to your Buggy. Includes Billet Cap and gasket. Fits Type 2 (thru 66) master cylinders (EMPI P/N 16-7041, 16-7042 and 98-6021-B/211-611-011JCH).

- 18-1015** Aluminum Buggy Master Cylinder Reservoir, Each

BRAKE LINE FITTING KIT

Includes 6 brass 1/8NPT (Male) to 3/16 American Inverted Brake Line (Female) for use when plumbing Pedal Assemblies, Turning Brakes, etc.

- 16-2550** Brake Line Fittings, Brass, Package of 6

RACK & PINION UNITS

3147 Rack & Pinion Unit, 4 Mounting Holes, 14"
5/8 - 36 Spline Shaft, 1 1/2 Turns Lock to Lock, Each, (Boxed)

16-2043 Bolt-In Mount for P/N: 3147 Rack & Pinion

16-2180 Rack & Pinion Unit, 2 Mounting Holes, 11"
5/8 - 36 Spline Shaft, 1 1/2 Turns Lock to Lock, Each, (Boxed)

RACK & PINION COMPONENTS

3142 Broached Coupler Only for all R & P Units
(36 Spline)

3143 Splined Stub Adapter only for all R & P Units
(36 Spline)

3149 U-Joint for Rack & Pinion,
5/8"-36 Splines on both ends (Black)

16-9572 U-Joint for Rack & Pinion,
5/8"-36 Splines on both ends (Chrome)

16-2187 Boot Clamp for P/N: 16-2183 and 17-2600, Each

16-2188 Clevis for P/N: 16-2183 and 17-2600,
5/8-18 R.H. Thread, Each

16-2191 Replacement Boot for P/N: 16-2185/86, Each

3144 Replacement Boot for P/N: 3147 / 16-2180/81/82, Each

16-2193 Bracket for P/N: 16-2181/82, Each

3145 Tie Rod Kit for P/N: 3147

3148 Chrome Tie Rod Set w/ Link Pin, Tie Rod End and Clevis, Ea.
Fits 3147 and 16-2180 Rack & Pinion Units

RACK AND PINION MOUNTING BRACKETS

This weld-on bracket allows you to install several different rack and pinion units to your vehicle. Available for stock beams and widened beams.

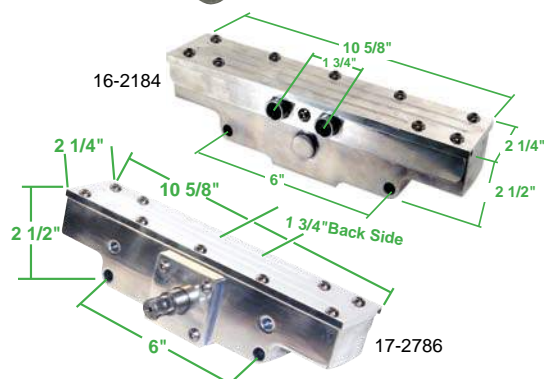

17-2604 Rack Mounting Bracket, Stock Beam, Each

17-2605 Rack Mounting Bracket, Wide Beam, Each

CENTER LOAD RACK AND PINION UNITS

Designed for front steer spindles, these Rack & Pinion Units load from the front center of the rack. Distance between mounting holes is 6".

16-2184 Polished Center Load Rack, 5/8"- 36 Spline Shaft,
Each (Boxed)

17-2786 Polished Billet Center Load Rack, 5/8"- 36 Spline Shaft,
Each (Boxed)

TIE ROD RELOCATION KIT

Eliminate added bump steer and unnecessary tie rod end wear on all lowered ball joint & Link pin front ends. Relocates tie rod end to underside of steering knuckle for improved angles. Requires drilling and the use of late model tie rod ends. Front-end alignment will be necessary for a complete installation.

B661311 **NEW!** Tie Rod Relocation Bushing Kit, Pr.

URETHANE TIE ROD BOOTS

Made from urethane, these boots are made to withstand the abuse of off-road racing. Superior design keeps dust and dirt from wearing out tie rod end prematurely and they look good.

B557521 **NEW!** Urethane Tie Rod Boots, Stock VW, Red, 4 Pc.

HEAVY DUTY ALUMINUM RACK AND PINION TIE RODS

Tie rods with I.H. ends for heavy duty rack and pinion boxes. 1" aluminum tube 24 1/4" long. Sold each.

17-2598 Heavy Duty Aluminum Tie Rod, I.H. Ends, 3/4" Threaded Shank Zerk Fitting on Side, Each, (Bagged)

CHROME TIE RODS

High luster chrome tie rods add the finishing touch to street cars, sand rails or buggies. Provided in see thru poly bags with header card for easy display.

- 22-2825** Chrome Tie Rod, Left, Early
- 22-2826** Chrome Tie Rod, Left, Late
- 22-2827** Chrome Tie Rod, Right, Early
- 22-2829** Chrome Tie Rod, Right, Early w/o Damper
- 22-2828** Chrome Tie Rod, Right, Late
- 22-2830** Chrome Tie Rod, Right, Late w/o Damper

CHROME RACK & PINION TIE ROD KIT

For use with the Center Mount Rack and Pinion box. These Tie Rods have Link Pin Tie Rod Ends on one end and an adjustable Clevis end on the other, making for an easy installation. **No Welding Is Required.** Fits 3147 and 16-2180 Rack and Pinion Units.

3148 Chrome Tie Rod Set w/ Link Pin, Tie Rod End and Clevis, Ea

RACK AND PINION U-JOINTS

A complete line of steering U-Joints to accommodate the variety of rack and pinion units available.

17-2629

17-2622	3/4" Smooth, 3/4" Smooth, Each
17-2623	3/4" Smooth, 5/8" 36 Spline, Each

17-2613

STEERING SHAFTS, SPLINED BOTH ENDS

17-2612	Shaft, 3 3/4" Long, 3/4" 36 Spline, Each
17-2613	Shaft, 3 3/4" Long, 3/4" 48 Spline, Each

STEERING SHAFT MOUNT

This weld-on mount adds that extra detail to your sand rail or off road car. Available in 3/4" or 7/8" shaft size. This bracket welds on easily to your roll cage cross bar replacing the old tab and bearing look. A machined bronze bushing is inside to cut down on shaft wear. All have 5 1/8" O.A.L.

17-2580

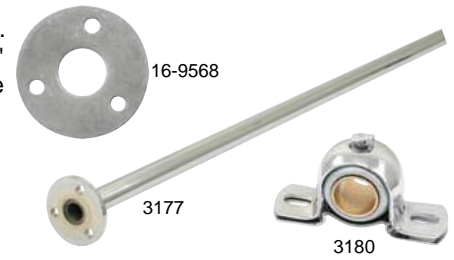

17-2580	Mount, Steering Shaft, 3/4", Raw, Each
17-2582	Mount, Steering Shaft, 7/8", Raw, Each

CHROME STEERING SHAFT & SUPPORTS

Steering shafts are available in 7/8" or 3/4" diameters and 60" long (cut to length). The 3 Bolt Flange fits all EMPI steering wheels. The steering shaft support fits 7/8" steering shaft and it's self-aligning for easy installation. Uses oil impregnated bronze bushing with oiling cup for long life.

- 3177 Chrome 7/8" Steering Shaft, Each Ups +
- 17-2579 Chromoly 3/4" Steering Shaft, Each Ups +
- 3180 Chrome Steering Shaft Bearing, 7/8", Each
- 17-2803 Chrome Steering Shaft Bearing, 3/4", Each
- 16-9568 3 Hole Steering Flange Only, Raw, Each

STEERING WHEEL QUICK DISCONNECT

Allows steering wheel removal in seconds. Great for safety and easy access. Made from Aluminum with a steel insert. Requires Welding. **(Not for street use)**

- 3172 Steering Wheel Quick Disconnect 3/4" Tubing
- 16-9567 Steering Wheel Quick Disconnect 7/8" Tubing

QUICK STEERING ADAPTER KIT

This bolt on adapter plate will reduce steering wheel travel almost one full turn, lock-to-lock. Designed for off-road use only, do not use this on a street driven car. All necessary hardware is supplied for attachment to your existing 1961 & later steering pitman arm. For Type 1 use only. **(Not for street use)**

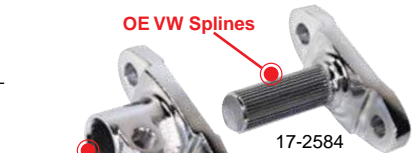

- 22-2823 Quick Steer Kit - thru 5/68
- 22-2824 Quick Steer Kit - 5/68 & Later

CHROME STEERING BOX AND SHAFT COUPLER

Chrome stock couplers for VW steering box and shaft. OE VW Splines.

- 17-2584 Stock Steering Coupler, Chrome, 2 pc. Set

URETHANE STEERING COUPLER

- 16-5150 Urethane Steering Coupler Kit (Red)
- 16-5149 **NEW!** Urethane Steering Coupler Kit (Black)

QUICK RELEASE STEERING COUPLER

Another design of quick release for off road steering wheels. With a pull ring design and splined shaft. Available for 3/4" and 7/8" steering shafts. There are two sets of mounting holes on this steering wheel quick release allowing you to use either a 5/16-18 bolt or a 1/4-20 bolt. **Fits 3-Bolt Flange Steering Wheels. (Not for street use)**

- 17-2800 Quick Release, Splined, 3/4", 2 pc. Set
- 17-2570 Quick Release, Splined, 7/8", 2 pc. Set

COUPLING DISC TYPE 2

Coupling Disc Steering Shaft for Type 2

- 98-4169-B **NEW!** Coupling Disc, Steering Shaft, Type 2 68-79
(Ref. P/N: 211 415 417)

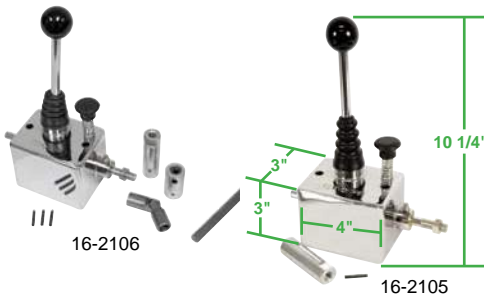

ALUMINUM CLAMP NUTS

These machined aluminum clamps are perfect for eliminating steering shaft movement and play. Available for both 3/4" and 7/8" shafts.

- 17-2585 Clamp Nut, 3/4" Shaft, Each
- 17-2586 Clamp Nut, 7/8" Shaft, Each

EMPI CHROME SUPER SHIFTERS

Perfect for sand rails and custom buggies. EMPI's Super Shifters feature precise short shifting and reverse lock-out. Available with cut to length linkage for rear engine applications.

- 16-2105
- 16-2106
- 16-2161

EMPI Universal Super Shifter Only, Chrome
EMPI Universal Super Shifter w/Linkage, Chrome
Replacement Boot Only for 16-2105 / 16-2106

SHIFT ROD ADJUSTER

Shortened or fabricated shift rod? These weld on adjusters are what you need. Choose for early or late style coupler according to your application ([See shift couplers on this page](#))

- 16-2070
- 17-2724

Shift Rod End, for Early Style Coupler, Each
Shift Shaft Adjuster, for Late Style Coupler, Each

URETHANE & STOCK SHIFT COUPLERS - EARLY STYLE

Urethane is the way to go for a shift coupler if you want to take sloppy play out of the equation. This early style coupler works for all Type 1 thru 64 along with other applications like off-road cars that use this style of shift linkage coupler. Supplied with new set-screws as well. Stock shift couplers also available.

- 16-5102
 - 98-1079
 - 98-1026-2
- Urethane Shift Coupler, Early Style
Early Shift Coupler
(Bulk P/N: 111 711 175B)
Grub Screw for Coupler, Each
(Ref. P/N: 211 711 189A)

POWER STEERING RESERVOIR WITH FILTER

Prolong the life of your power steering units with this reservoir-tank with spin-on filter. Available in 2 different mounting styles. The fittings are -8AN return and -10AN pump side.

- 17-2576
 - 17-2577
- Reservoir with Filter, with Bracket, Each
Reservoir with Filter, with Clamp on, Each

POWER STEERING RESERVOIR TANK

Aluminum reservoir tank for power steering units. The fittings are -8AN and -10AN.

- 17-2572
- Reservoir, Power Steering with Clamp on, Each

CHARLYNN SHAFT KEY

For Charlynn torque generator key way.

- 17-2561
- Charlynn Shaft Key, Each

URETHANE SHIFT COUPLER - LATE STYLE

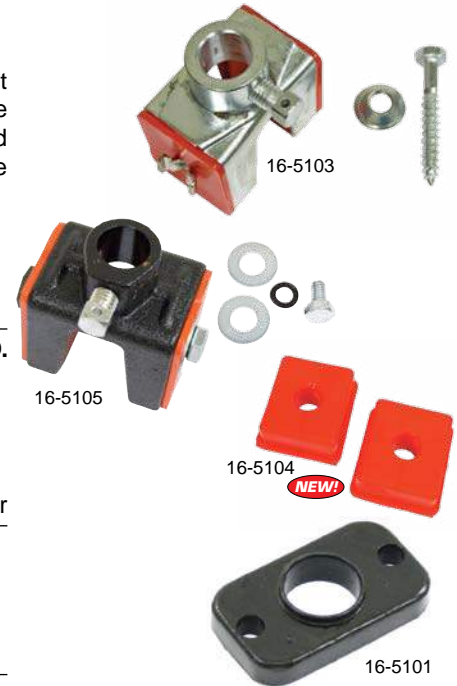

Much like the original one it replaces, this fits Type 1 65 on and other applications that use this style of coupler. The key improvement on this unit is the two inserts for the cage have been made out of urethane so the shifter linkage will be much tighter and responsive. This is a must do upgrade for almost every car out there that uses this style of shift coupler.

16-5103 Shift Coupler, w/Urethane Inserts, Type 1 65-79, Ghia 65-74, Type 2 68-79, Type 3 All, Kit
(Ref. P/N: 311 798 211)

Heavy Duty Steel Cage with heavy duty bolt and Urethane Inserts make this H.D. Coupler the one to use for any performance application.

16-5105 H.D. Shift Coupler w/Urethane Inserts & Hardware., Type 1 65-79, Ghia 65-74, Type 3 All, Kit

16-5104  Urethane Inserts Only for 16-5103 and 16-5105 Shift Couplers, Pr

URETHANE SHIFT BUSHING

Will mount to EMPI's Universal Shifter Box, P/N 3158

16-5101 Urethane Shift Bushing, Each

RACE SHIFTER BOX WITH SHAFT

Steel box with bearing supported shaft. Cup is tapered and slotted for positive engagement with the shifter. Shaft is 1/2" O.D. and 10" long.

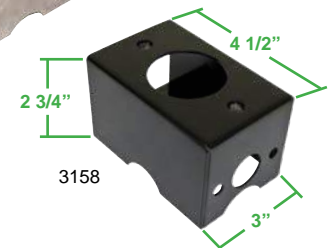

17-2726 Off Road Shifter Mount Box, Each

UNIVERSAL SHIFTER BOX

Accommodates VW shifters. Requires welding. This unit has 8mm x 1.25 Threads.

3158 Universal Shift Box, Black, Each
3158-7 Bulk Universal Shift Box, Black, Each

UNIVERSAL TYPE I SHIFT SHAFT

This universal shaft has the original style slotted cup on the shifter end and are blank on the other end. Raw steel. Length from end to end is 59 3/8".

17-2727 Universal Shift Shaft, 59" overall length, Each

TYPE I TO TYPE II COUPLER

Aligns Type I shift shaft to type II transmission coupler, aluminum.

17-2725 Type I to Type II Shift Shaft Coupler, Each

TRANSMISSION CENTER SUPPORT

Secures transmission from the bottom of the front case bolts. Supports from frame horns to reduce flex, zinc plated. Urethane stops included.

17-2536 Bolt On Center Transmission Support

BUS TRANSMISSION MOUNT

Weld in front mount brackets for late model bus transmission. Rear bolt mounts and hardware included.

17-2537 Bus Transmission Mount Kit

17-2538 Bus Transmission Center Mount Only

NEW DESIGN
 Polished Aluminum Body.
 Rebuildable

EMPI Billet Clutch Slave

Compatible with all hydraulic pedal assemblies. Note: proper straight angle mounting is critical to meet warranty requirements along with life of the unit. Brackets and heim ends are available for easier mounting and smoother operation. Housing is tapped 1/8 NPT in two spots. Female end of fitting supplied is 3/8-24. The other 1/8 NPT has a bleeder fitting in it.

- 16-2549 Clutch Slave Unit
- 16-2549-6 Rebuild Kit Only for 16-2549-0

EMPI CLUTCH SLAVE ACCESSORIES

It is imperative that the slave be mounted in a level position... Brackets and heim ends make it easier to mount with smoother action.

- 17-2814 Slave Bracket, Type 1, Each
- 17-2883 Billet Slave Bracket, Type 1, Each
- 17-2813 Billet Slave Bracket, Type 2, Each
- 17-2884 Billet Slave Bracket, Mendeola, Each
- 17-2817 Heim End 3/8"-24 Threads, 3/8" Ball, for EMPI Slave, Each
- 17-2818 Heim End 3/8"-24 Threads, 5/16" Ball, for CNC Slave, Each

USE DOT3 FLUID ONLY

RACE TRIM REBUILD KITS FOR PEDAL ASSEMBLIES AND TURNING BRAKES (P. 320)

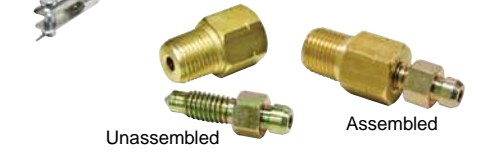

- 16-2544 Rebuild Kit for 3/4" Clutch - 7/8" Brake Master Cylinder P/N 16-2530, 16-2531, and 16-2533
- 16-2545 Rebuild Kit for 7/8" Clutch - 7/8" Brake Master Cylinder P/N 16-2532
- 16-2546 Rebuild Kit for 3/4" Single Master Cylinder P/N 16-2534
- 16-2547 Rebuild Kit for 3/4" Angled Turning Brake Assembly P/N 16-2541 and 16-2543
- 16-2548 Rebuild Kit for 3/4" Upright Turning Brake Assembly P/N 16-2540 and 16-2542

RACE TRIM MASTER CYLINDER - HIGH RESERVOIR

High Square Master Cylinder Reservoir can be used as a replacement for the EMPI Pedal Assemblies or in many other applications. Featuring a 3" high-capacity bowl they are 100% Polished with a Billet-style Knurled Cap. Available in 3/4" and 7/8" Bore sizes. Fitting size is 1/8" NPT.

- 17-2965 Master Cyl., 3/4" High Square Reservoir, Polished
- 17-2966 Master Cyl., 7/8" High Square Reservoir, Polished

UNIVERSAL BLEEDER VALVE

Get the air out with this Universal Bleeder Valve. It can be used with Master Cylinders, Turning Brakes or other applications with 1/8" NPT threads.

- 17-2934 Bleeder Valve 1/8" NPT, Pair

COMPLETE LINE OF RACE TRIM HYDRAULIC PEDAL ASSEMBLIES

Fully Polished and ready to bolt-in. Bore sizes included in the descriptions. A Shaft Pin to stop the shaft from rotating within the Pedal Base is included, along with instructions on how to drill shaft and install. EMPI Billet Clutch Slave needs to be ordered separately.

RACE TRIM DUAL PEDAL ASSEMBLY

Dual Pedal Assembly Fully Polished w/Aluminum mounting bracket and high square reservoirs with easy fill cap.

- 16-2530** Dual Pedal Assembly, 3/4" Clutch - 7/8" Brake, fitting size is 1/8" NPT.
- 16-2531** Dual Pedal Assembly w/Throttle Pedal, 3/4" Clutch - 7/8" Brake, fitting size is 1/8" NPT.

RACE TRIM SINGLE PEDAL ASSEMBLY

Single Pedal Assembly w/Dual Master Cylinders with built-in balance bar, or Single Master Cylinder. Fully Polished w/Aluminum mounting bracket and high square reservoirs with easy fill cap.

- 16-2532** Single Pedal Assembly w/Dual Master Cylinders 7/8" Brake - 7/8" Brake, fitting size is 1/8" NPT.
- 16-2533** Single Pedal Assembly w/Dual Master Cylinders 7/8" Brake - 3/4" Brake, fitting size is 1/8" NPT.
- 16-2534** Single Pedal Assembly w/Single Master Cylinder. 3/4" Brake/Clutch, fitting size is 1/8" NPT.

RACE TRIM TURNING BRAKES

All of our turning brakes are Fully Polished with Chrome levers and Black popular ball grips. Available in Dual and Single Handle models, Upright or Angled. All feature 3/4" bore. The flow through system design does not interfere with your normal brake pedal. Available in Dual and Single Handles. The fitting size used on these is 1/8" NPT.

RACE TRIM SINGLE HANDLE TURNING BRAKES

- 16-2540** Turning Brake, Single Handle, Upright, 3/4"
- 16-2541** Turning Brake, Single Handle, Angled, 3/4"

RACE TRIM DUAL HANDLE TURNING BRAKES

- 16-2542** Turning Brake, Dual Handle, Upright, 3/4"
- 16-2543** Turning Brake, Dual Handle, Angled, 3/4"

BRAKE LINE FITTING KIT

Includes 6 brass 1/8NPT (Male) to 3/16 American Inverted Brake Line (Female) for use when plumbing Pedal Assemblies, Turning Brakes, etc.

- 16-2550** Brake Line Fittings, Brass, Package of 6

HYDRAULIC PEDAL ASSEMBLIES

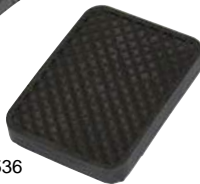

Bore sizes included in the descriptions. EMPI Billet Clutch Slave needs to be ordered separately, P/N: 16-2549 sold separately.

HEAVY DUTY 4 WHEEL SINGLE PEDAL ASSEMBLY

Single steel brake pedal with balance bar built in. Easy fill reservoir caps. Bore size indicates both master cylinders on the unit. Fitting size is 1/8" NPT.

BILLET DELUXE PEDAL SLIDE

Constructed from billet aluminum this pedal slide fits most brand name hydraulic pedal assemblies. The base for the throttle pedal is incorporated into the unit, making for a very smooth and simple pedal adjustment. Use with P/N 17-2750 throttle cable extender. Hardware included.

- 17-2752 Deluxe Pedal Slide, Billet, w/ Throttle Pedal Provision, Each
- 17-2751 Pedal Slide, Billet, w/o Throttle Pedal Provision, Each

PEDAL ASSEMBLY MOUNT

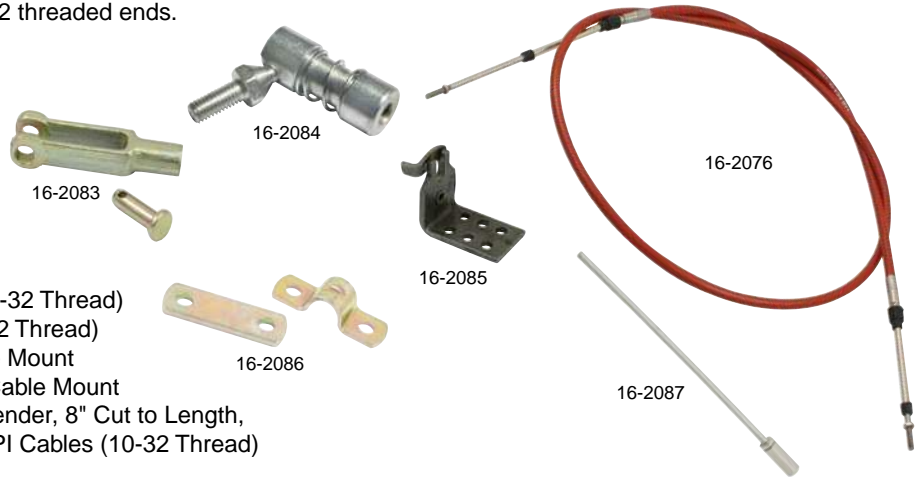

Easily mounts your VW brake and clutch pedal assembly. Requires welding.

- 3159 Pedal Assembly Mount, Raw, Each
- 3159-7 Bulk Pedal Assembly Mount, Raw, Each

EMPI SHIELDED CONTROL / THROTTLE CABLES

Heavy Duty universal EMPI Cables for all your throttle cable needs. Requires mounting hardware. All cables have 10-32 threaded ends.

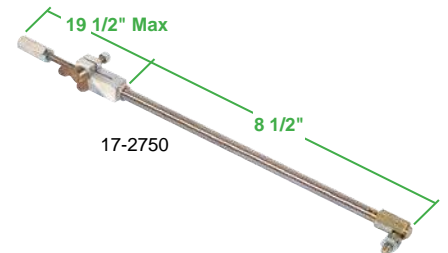

- 16-2076 Control Cable - 6'
- 16-2077 Control Cable - 7'
- 16-2078 Control Cable - 8'
- 16-2079 Control Cable - 9'
- 16-2080 Control Cable - 10'
- 16-2081 Control Cable - 11'
- 16-2082 Control Cable - 12'
- 16-2084 Cable Ball End (10-32 Thread)
- 16-2083 Cable Clevis (10-32 Thread)
- 16-2085 Hook Clamp Cable Mount
- 16-2086 Clamp and Shim Cable Mount
- 16-2087 Throttle Cable Extender, 8" Cut to Length, for Morse and EMPI Cables (10-32 Thread)

THROTTLE CABLE EXTENDER

This makes adjusting the throttle cable quick and easy when using our pedal slide assemblies. Unit has a maximum of 19 1/2" of extension.

- 17-2750 Cable Extender, Adjustable, Each

ROLLER PEDAL CABLE BRACKET

Referred to as the "wish-bone", this stainless steel bracket is for use with all of our hydraulic pedal assemblies and provides for a direct attachment of the throttle cable without compromising bends.

- 16-9553 S/S Roller Pedal Cable Bracket

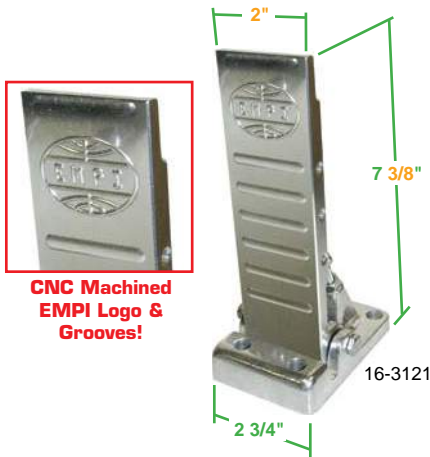

FOOT PEDAL KIT (ALUMINUM)

Designed to be used with roller pedal to give smooth foot action on the throttle assembly. Lightweight cast aluminum construction. Fits sedans or buggies. Compliments our roller pedal P/N 3160.

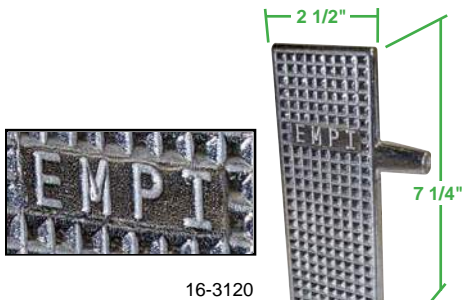

B556900 **NEW!** Aluminum Foot Pedal Only

BILLET THROTTLE PEDAL

Billet Aluminum, spring-loaded throttle pedal. Positive action and great looks. Pedal features full-throttle stop and multi-position 10-32 threads for cable hook-up.

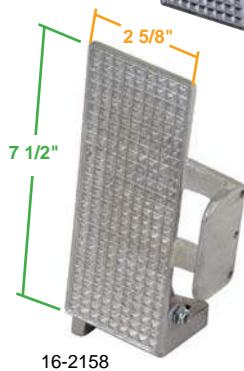

16-3121 EMPI Billet Throttle Pedal w/Ball Milled Grooves & EMPI Logo

EMPI UNIVERSAL THROTTLE PEDAL (ALUMINUM)

EMPI's heavy duty cast aluminum throttle pedal features a cast in grip pattern face and a ball burnished finish for a long lasting shine. Cable attachment has a 10-32 thread.

16-3120 Universal Throttle Pedal

ALUMINUM THROTTLE PEDALS W/ FOOT BRACE

16-2158 Angled Throttle Pedal, Unpolished

CABLE SHORTENING KITS

Shorten your clutch, emergency brake and throttle cables quickly and easily. A must for buggies with shortened pans.

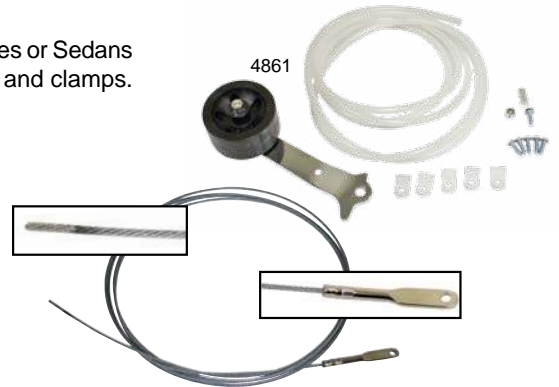

- 3167** Complete Cable Shortening Kit, Includes P/N: 3168, 3169 & 3170
- 3168** Cable Shortening Kit, Clutch Only
- 3169** Cable Shortening Kit, Emergency Brake Only
- 3170** Cable Shortening Kit, Throttle Only (Fits on cable only)
- 3171** Throttle Cable Extending Kit, 2 pcs. (Fits on cable end or cable)
- 3171-7** Round PC only for Throttle Cable Extending Kit, Each

H.D. THROTTLE CABLE KIT

H.D. throttle cable puts an end to cable failure. Includes plastic tubing for Buggies or Sedans with rusted throttle tubes. Cable kit includes 9-foot heavy duty cable, tubing and clamps.

- 4860** H.D. Throttle Cable Kit
- 4861** H.D. Throttle Cable Kit, w/Roller Pedal
- 4860-7** H.D. Throttle Cable Only, 9' Long (Skin Packed)
- 4860-6** **NEW!** Bulk H.D. Throttle Cable Only, 9' Long
- 4862-7** H.D. Throttle Cable Only, 16' Long (Skin Packed)
- 4862-6** **NEW!** Bulk H.D. Throttle Cable Only, 16' Long

RACING THROTTLE CABLE

Super heavy duty stainless steel 1/8" throttle cable is virtually indestructible. Comes in a sufficient length to satisfy all custom installations.

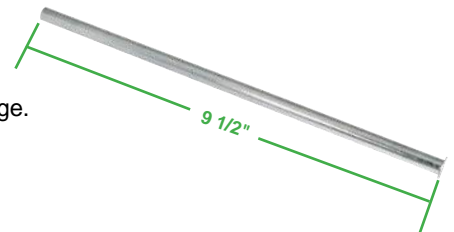

- B551010** **NEW!** Racing Throttle Cable 11'

THROTTLE CABLE TUBE

Stock throttle tube passes through fan housing protecting cable from wear and breakage.

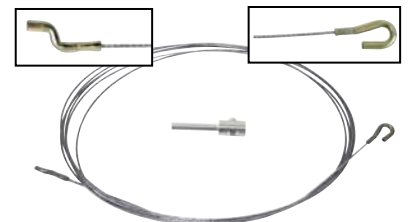

- 98-1002** Stock Throttle Cable Tube
(Bulk P/N: 043 129 893)

UNIVERSAL THROTTLE CABLE KIT

Small diameter cable fits thru stock cable tube. Features stock "Dog Leg" on one end and Loop on other. Choose your application...cut off the other. Includes cable adapter. The 15' cable is long enough for most applications.

- 4863** Universal Throttle Cable Kit

16-9924

IRS CLIPS FOR CUSTOM TORSION HOUSING

Heavy duty IRS clips for custom torsion housing. Sold in pairs with hardware. Welding required.

16-9924 IRS Clips, Custom Torsion, Pair

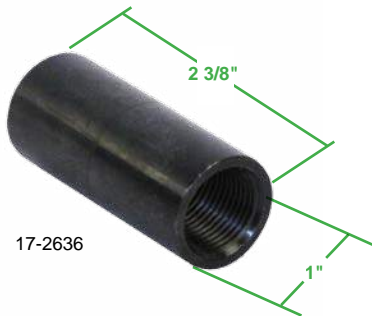

17-2675

SPRING PLATE CONVERSION KIT

This kits enables you to remove your stock torsion bars and adapt your housing to heim end trailing arms and coil over shocks. Perfect for that extra travel you are looking for. **(Rod Ends not included)**

17-2675 Conversion Plate, Stock VW Torsion Housing, 4 pc. Kit Offset to Clear Stock Housing

17-2636

CHROMOLY THREADED BUNG

Can be used for a variety of chassis needs. Available in left hand and right hand threads, for 1" tubing.

17-2635 Threaded Bung, 3/4"-16 Left Hand Thread, 1" x.120 2 3/8" Long, Each

17-2636 Threaded Bung, 3/4"-16 Right Hand Thread, 1" x.120 2 3/8" Long, Each

17-2698

17-2789

TORSION TUBE END PLATES

Long travel style end plates. Weld on.

17-2789 Torsion End Plate, Outer, Pair

17-2698 Torsion End Plate, Inner, Pair

17-2696

17-2697

POLISHED STAINLESS TORSION END PLATE

Polished stainless steel end plates with stainless spacers for IRS torsion.

17-2696 Torsion End Plate, **Stainless**, Swing Axle, Pair

17-2697 Torsion End Plate, **Stainless**, I.R.S., Pair

CHROME AXLE BEARING CAPS

17-2699 IRS Axle Bearing Cap, Chrome Steel, Fits P/N 17-2707 and 17-2708, Pair

17-2699

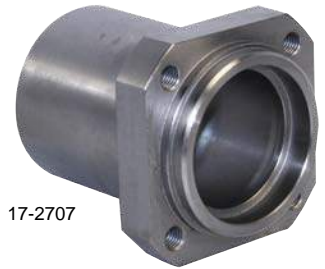

CUSTOM AXLE BEARING HOUSING

For fabricating IRS trailing arms. Uses stock VW bearings and spacer kits. Aluminum bearing cap 17-2700 sold separate. Holes tapped to 10mm - 1.5 thread.

17-2707 Axle Bearing Housing, IRS, Steel, Each (Boxed)

17-2707

BILLET AXLE BEARING CAP

17-2700 IRS Billet Aluminum Bearing Cap for stock application. Fits P/N 17-2707 and 17-2708, Each

17-2700

BILLET AXLE BEARING HOUSING

For aftermarket trailing arms. Uses IRS Bearings and seals. Use bearing cap 17-2700 for best results.

17-2708 Billet Aluminum Bearing Housing, IRS, Each (Boxed)

17-2708

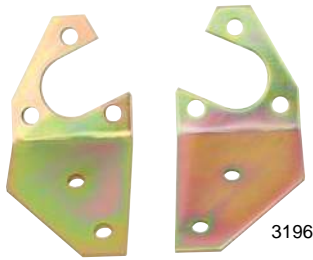

REPLACEMENT SWING AXLE BEARING HOUSINGS

For 66 and earlier, short axle. Sold in pairs. Bearing not included.

16-9923 Swing Axle Bearing Housing, Pair (Boxed)

16-9923

SWING AXLE SHOCK MOUNT KIT

Pre-formed steel plates bolt-on using the rear swing axle flange bolts to provide lower shock mounting points for up to four shocks on custom applications. Not compatible with stock shock mounts.

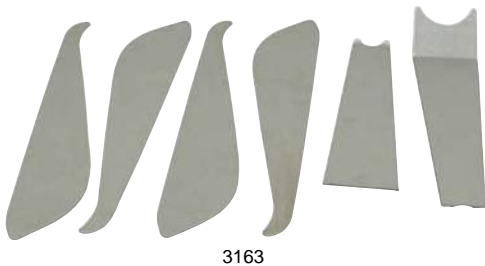

3196 Shock Mount Kit, Swing Axle, Pair, Zinc Plated (Bolt-On Installation)

I.R.S. SHOCK MOUNT KIT

Designed for use on stock I.R.S. rear trailing arms that have been boxed, to provide lower mounting points for up to six shocks. Welding required. Not compatible with stock shock mounts.

3197 Shock Mount Kit w/6 Shock Bushings, I.R.S., Pair, Raw (Requires Welding)

I.R.S. BOX KIT

Strengthen your stock I.R.S. trailing arms with this box and gusset set. Six pre-cut steel pieces weld to the inside back, top and bottom of the stock I.R.S. rear trailing arms greatly improving strength and rigidity. An economical alternative to custom fabricated trailing arms. Not compatible with stock shock mounts. Welding required.

3163 I.R.S. Box Kit, 6 pcs., Raw

I.R.S. CONVERSION CLIPS

Convert any Swing Axle pan to I.R.S. with these clips. Welding required.

3164 I.R.S. Conversion Clips, Pair, Raw

BUS TRANSMISSION MOUNT

Weld in front mount brackets for late model bus transmission. Rear bolt mounts and hardware included.

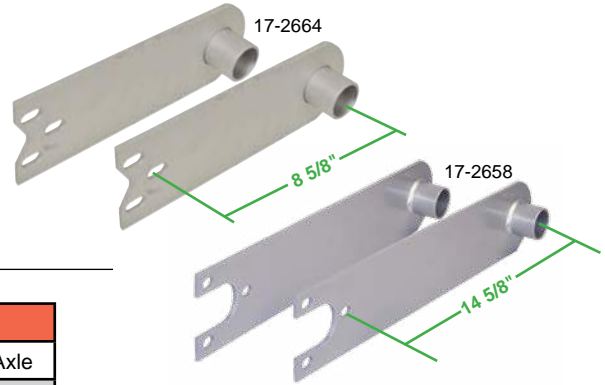

17-2537 Bus Transmission Mount Kit

17-2538 Bus Transmission Center Mount Only

HEAVY DUTY SPRING PLATES (PAINTED)

- 17-2658 Swing Axle for 21 3/4" Bars, Pair (Boxed)
- 17-2660 Swing Axle for 24 11/16" Bars, Pair (Boxed)
- 17-2662 Swing Axle for 26 9/16" Bars, Pair (Boxed)
- 17-2664 IRS Transmission for 21 3/4" Bars, Pair (Boxed)
- 17-2788 IRS Transmission for 24 11/16" Bars, Pair (Boxed)
- 17-2667 IRS Transmission for 26 9/16" Bars, Pair (Boxed)

MODEL YEAR -VS- APPLICATION CHART

SIZE	DESCRIPTION	APPLICATIONS
21 3/4" Long	Short Torsion Bar	60-68 Type 1 Swing Axle
24 11/16" Long	Intermediate Torsion Bar	49-59 Type 1 Swing Axle
24 11/16" Long	Intermediate Torsion Bar	69-72 Type 1 IRS
24 11/16" Long	Intermediate Torsion Bar	65-67 Type 3 Swing Axle
26 9/16" Long	Long Torsion Bar	73 & L Type 1 IRS

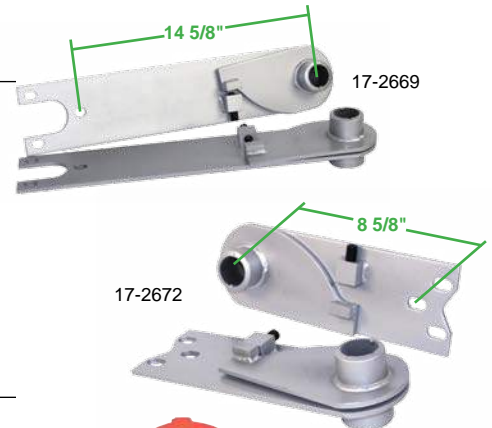

NOTE: Measure tube extension past spring plate intermediate 4" long 6".

THE MODEL YEAR VS APPLICATION AND TORSION BAR SPRING RATE CHARTS SHOWN ARE A GUIDELINE ONLY. INDIVIDUAL APPLICATIONS MAY VARY.

ADJUSTABLE SPRING PLATES (PAINTED)

Adjust your ride height quick and easy.

- 17-2669 Swing Axle for 21 3/4" Bars, Pair (Boxed)
- 17-2670 Swing Axle for 24 11/16" Bars, Pair (Boxed)
- 17-2671 Swing Axle for 26 9/16" Bars, Pair (Boxed)
- 17-2672 IRS Transmission for 21 3/4" Bars, Pair (Boxed)
- 17-2673 IRS Transmission for 24 11/16" Bars, Pair (Boxed)
- 17-2674 IRS Transmission for 26 9/16" Bars, Pair (Boxed)

URETHANE BUSHINGS

The strength and durability of Urethane will out-last and out-perform standard rubber products in every application. From Shift Couplers to Bump Stops, install Urethane and never look back! All urethane is red in color except where noted.

- 16-5130 Urethane Knobby Bushings - 1 3/4" I.D., Pair
- 16-5131 Urethane Knobby Bushings - 1 7/8" I.D., Pair
- 16-5132 Urethane Knobby Bushings - 2" I.D., Pair
- 16-5133 Urethane Smooth Bushings - 1 3/4" I.D., Pair
- 16-5134 Urethane Smooth Bushings - 1 7/8" I.D., Pair

Urethane Bushing Application Guide

For use with Stock Spring Plates:

- Type 1, Swing Axle, 1950-1959: 1 7/8" Round Inner – 1 7/8" Round Outer
- Type 1, Swing Axle, 1960-1968: 1 7/8" Knobby Inner – 1 3/4" Knobby Outer
- Type 1, I.R.S., 1969-1979: 1 7/8" Knobby Inner – 1 7/8" Round Outer
- Type 1, All with Semi-Automatic Trans: 1 7/8" Knobby Inner – 1 7/8" Round Outer
- Type 3, Swing Axle, 1965-1968: 1 7/8" Knobby Inner – 1 7/8" Knobby Outer
- Type 3, I.R.S., 1969-1979: 1 7/8" Knobby Inner – 1 7/8" Round Outer

For Use with Aftermarket Spring Plates Listed on this Page:

The tubes welded on the spring plates are different than stock. The O.D. of the inner tube is also different than the O.D. of the outer tube.

- Non-Adjustable Spring Plates: 1 3/4" O.D. on Inner Tube – 1 7/8" O.D. on Outer Tube
- Adjustable Spring Plates: 2" O.D. on Inner Tube – 1 7/8" O.D. on Outer Tube

LIMIT STRAPS

Limiting suspension travel to a functional distance, cuts down on CV joint, axle, and boot wear. Single or Double Straps...Available from 12" to 32" in 2" increments. Black strap with Gold Zinc ends.

17-2683	Straps 12", Pair
17-2684	Straps 14", Pair
17-2685	Straps 16", Pair
17-2686	Straps 18", Pair
17-2687	Straps 20", Pair
17-2863	Straps 22", Pair
17-2688	Straps 24", Pair
17-2864	Straps 26", Pair
17-2865	Straps 28", Pair
17-2866	Straps 30", Pair
17-2867	Straps 32", Pair

For extreme applications, heavy vehicles or just added support, double-up with these Double Limit Straps...**Double the thickness of material for double strength.**

17-2890	Double Straps 12", Pair
17-2891	Double Straps 14", Pair
17-2892	Double Straps 16", Pair
17-2893	Double Straps 18", Pair
17-2894	Double Straps 20", Pair
17-2895	Double Straps 22", Pair
17-2896	Double Straps 24", Pair
17-2897	Double Straps 26", Pair
17-2898	Double Straps 28", Pair
17-2899	Double Straps 30", Pair
17-2900	Double Straps 32", Pair

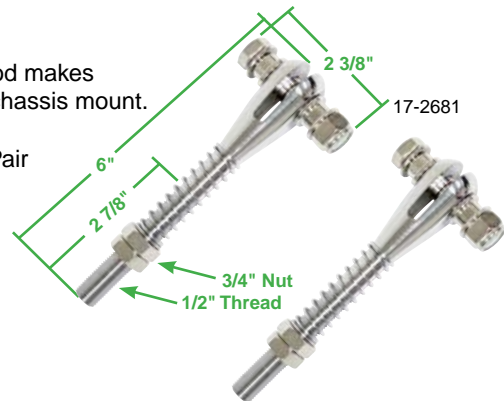

LIMIT STRAP CLEVIS

Perfect for installing limit straps. The spring loaded rod makes for easy adjustment. Use with our 17-2682 weld on chassis mount.

17-2682

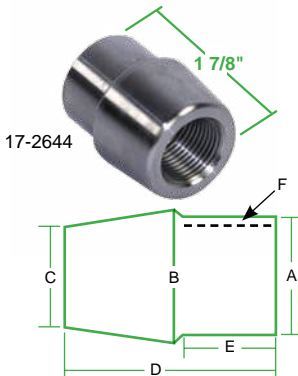

17-2681	Clevis, Limit Strap, Chrome, Pair
17-2682	Forged Clevis Mount, MUST BE WELDED , Pair

17-2681

CHROMOLY TAPERED BUNGS

Used mainly for fabricating tie rods on off road applications. Available in 4 different tubing sizes and left or right hand thread.

17-2644

		THREAD	A	B	C	D	E	F

Race Trim® HI-BACK SEATS

LOW-BACK ROADSTER STYLE SEATS

Low-Back Roadster-Style Seat with a Steel Tube Frame, comfortable foam padding with good lateral and thigh support and a fixed back (no recline), finished in Black Vinyl, Low design that is perfect for Buggies, Kit Cars, VWs and other applications where a super- short seat height is of benefit.

62-2880 **NEW!** Low-Back Roadster-Style Seat, Black, Each

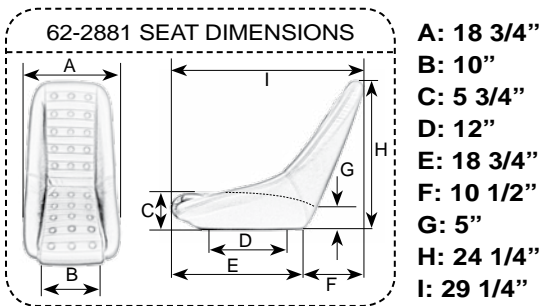

62-2880 and 62-2881 are Universal and do not come with brackets or adaptors, so remember that each application will require custom fitment. Covers are not replacable. This seat has four (4) 8mm x 1.25 female threaded inserts on the bottom.

LOW-BACK ROADSTER STYLE SEATS W/ POLISHED VENT GROMMETS

Low-Back Roadster-Style Seat with a Steel Tube Frame, comfortable foam padding with good lateral and thigh support and a fixed back (no recline), finished in Black Vinyl with Polished Vent Grommets, Low design that is perfect for Buggies, Kit Cars, VWs and other applications where a super- short seat height is of benefit.

62-2881 **NEW!** Low-Back Roadster-Style Seat, Black w/ Polished Vent Grommets, Each

Race Trim[®] HI-BACK SEATS

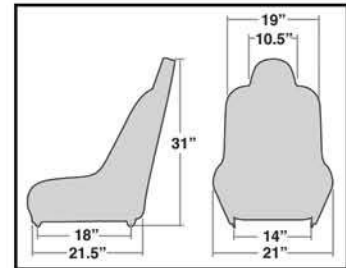

62-2777 Black Leather Look Vinyl w/ Carbon Fiber Look Accents

Features:

- New look and feel of leather with the durability of vinyl
- Carbon Fiber look accents
- Fully welded and painted steel frame construction
- Dense foam cushioning
- Weather-proof suspended bladder
- Rigid suspension straps
- 5-Point seat belt slots accept all latch-style belts
- Standard tab style mount point
- Classic square stitch style
- Fixed headrest integrated into frame
- Mounting kits and sliders, see page 402

Carbon Fiber Look Accents

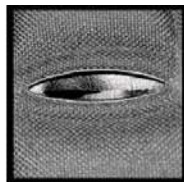

Dimensions:

- Overall width: 21"
- Overall height: 31" (Includes tabs)
- Shoulder width: 19"
- Mounting point side to side: 14"
- Mounting point front to back: 18"

The Look & Feel of Leather

Crotch slot accepts anti-submarine belts

4-Point standard mounting tabs

Grommets away from frame eliminates contact wear

Race Trim seats and products are for off-road vehicles only, not intended for street or highway use

Race Trim HI-BACK SEATS

- 62-2750 Black Vinyl / Tweed Fabric
- 62-2751 Black Vinyl / Black Fabric

RACE-TRIM SEAT MOUNTS & SLIDERS

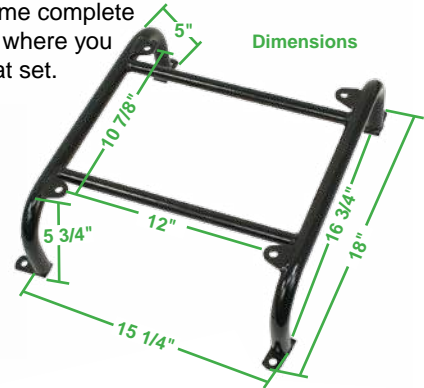

Race-Trim makes it easy to mount their seats or other seats into most any application with these universal mounts and sliders. Mounts are designed to raise the seat approx. 4 inches (low mount) or 6 inches from the floor surface. Choose from a slider only for driver/passenger or slider on the driver side and tilt for the passenger side. Mount kits come complete with the slider mechanism where applicable. Sliders are available for custom applications where you want to fabricate your own mounting arrangement. Slider only's are supplied as a per seat set.

POLY BUCKET SEATS AND COVERS

EMPI's super strong double walled polyethylene High and Low Back Seats just got better. The seat and back areas have been re-contoured for added comfort and lumbar support. The finish has been upgraded for a great show car look. EMPI seats feature a strong double wall shell, contemporary design, permanent-mounting inserts molded into the base, slots for seat belts and shoulder straps. Use without seat covers for low maintenance or add our thickly padded high grade vinyl covers in black or assorted colors with (2) snap fasteners for that one-off custom look and added comfort. Seat covers now come with two harness slots making them usable on many manufacturers' poly seats. New tooling with EMPI molded into the plastic. Now uses 6 - 10mm x 1.5 threaded inserts.

BILLET ALUMINUM BUGGY DASH PANEL

If you want a horizontal mounting dash panel instead of, or in addition to a center console, then this beauty is the one for you! Made from aluminum, it is CNC machined to exact tolerances including a 1 1/2" radius countersink so it nests onto the steering column cross tubes of most off-road cars. The front panel insert bolts in so it can be reversed if you want to change the gauge/switch position layout. A plain non-drilled insert is also available separately so you can do a custom layout of your choice.

- 16-3055** Aluminum Dash Panel-2 gauge holes, 6-switch/light holes
- 16-3056** Insert Only, No Holes, for P/N: 16-3055 Dash Panel

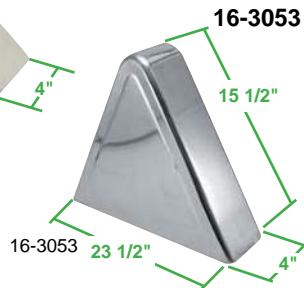

POLISHED ALUMINUM BUGGY CENTER CONSOLES

EMPI's universal Buggy Consoles are manufactured from heavy duty aluminum, precision welded and fully polished.

- 16-2052** Center Console w/o Gauge Holes

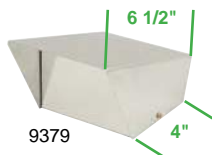

- 16-3052** High Rise Console w/o Gauge Holes

- 16-3053** Aluminum Tall Center Console, No Holes

ALUMINUM SWITCH BOXES

A great way to mount gauges, switches and warning lights in cars, trucks, buggies, carts or boats. Protects sensitive electronic gauges and switches from the elements. Rugged brushed aluminum construction and compact design makes them truly universal.

- 9379** 4" Box, w/o Holes
4 1/4" x 3" Face I.D.

- 9382** 9" Box w/o Holes
9 3/16" x 3" Face I.D.

*See Electrical Pages 358 for Switches and Controls

POLISHED STAINLESS STEEL GAS TANK KITS

Highly Polished Stainless Steel...Great looks and No Rust...ever! Stronger with a more durable finish - that won't dull - like polished Aluminum. Available in 5 lengths, 8" and 10" Diameter and include Polished Stainless Steel Straps (2), Stainless Steel Hardware and a Black Plastic Gas Cap. Gallons are estimated. **(Off-Road Use Only)**

STAINLESS STEEL GAS TANKS 10" DIAMETER

- 3895 S/S Gas Tank, 10" X 16", Center Fill, 5 Gallon

Available for 2.0" and 2.5" reservoirs. Fits 1 1/2" tubing.

17-2710 Reservoir Clamp, Billet, 2.0", Each
 17-2711 Reservoir Clamp, Billet, 2.5", Each

BILLET ALUMINUM BRAKE LINE BRACKET

EMPI's billet aluminum brake line brackets provide the high tech solution to brake line mounting. Split clamping design allows for quick, easy placement plus the ability to relocate without leaving a mounting hole. Fits 3/16" brake line.

- 17-2831 Polished Aluminum Brake Line Bracket, 3/4"
- 17-2832 Polished Aluminum Brake Line Bracket, 1"
- 16-9569 Polished Aluminum Brake Line Bracket, 1 1/2"

- 16-7021 Polished Aluminum Brake Line Bracket, 1 1/4" Front Brake Line, Long-Travel A-Arm Suspension
- 17-2830 Billet Brake Line Bracket, Swing Axle Rear Brake Line - Clamps to Swing Arm

BILLET ALUM. UNIV. TACH MOUNT BRACKET

EMPI's Billet Aluminum Bracket makes mounting your monster style tach quick and easy. Polished mount clamps onto 1 1/2" tubing and has 1" wide pivoting mount block for the tach band to bolt to. Check your tach mounting point for width. Spacers and longer bolts may be required.

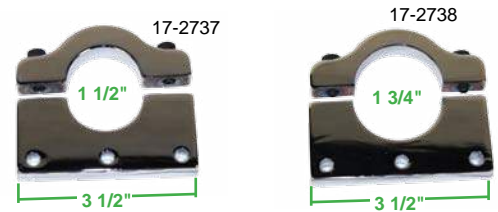

- 16-7023 Polished Alum. Univ. Tach Mount Bracket for 1 1/2" tubing

SIDE DRILLED BILLET BRACKETS 3 1/2" WIDE

Available for 1 1/2" and 1 3/4" tubing.

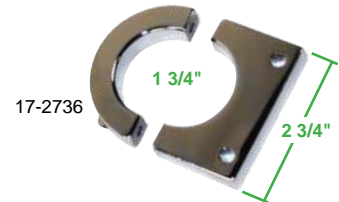

- 17-2737 Side Drilled Bracket, Billet, 1 1/2", Each
- 17-2738 Side Drilled Bracket, Billet, 1 3/4", Each

SIDE DRILLED BILLET BRACKETS 2 3/4" WIDE

Available for 1 3/4" tubing.

- 17-2736 Side Drilled Bracket, Billet, 1 3/4", Each

BILLET FOOT REST

Fits 1" tubing. The foot pad position is adjustable.

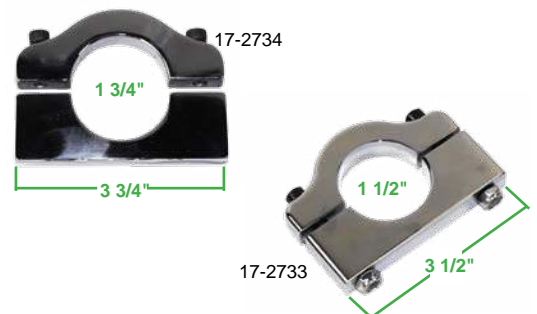

- 17-2741 Foot Rest, Billet, Each

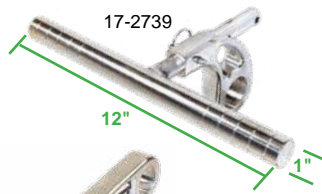

BILLET BRACKET, UNDRILLED

Available for 1 1/2" and 1 3/4" tubing. The 1 1/2" bracket is a thru-bolt design and the 1 3/4" bracket has threaded bolts and is 3 3/4" wide.

- 17-2733 Billet Bracket, Undrilled, 1 1/2", Each
- 17-2734 Billet Bracket, Undrilled, 1 3/4", Each

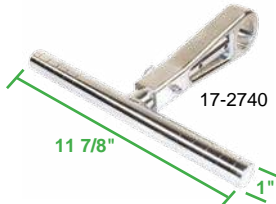

BILLET GRAB HANDLES

Clamp on billet grab handles. Available in 2 styles: straight and angled. Fits 1 1/2" tubing.

- 17-2739 Billet Grab Handle, Angled, Each
- 17-2740 Billet Grab Handle, Straight, Each

90 DEGREE GRAB HANDLES / FOOT REST

Weld-in, pre-bent grab handles are radiused on the ends for a clean fit. Available raw or chrome.

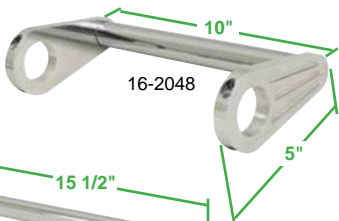

- 17-2748 90 Degree Grab Handle, Raw, Each
- 17-2749 90 Degree Grab Handle, Chrome, Each

45 DEGREE GRAB HANDLE / FOOT REST

A slightly different look. These weld-in tubes are bent at a 45 degree angle. The ends are radiused for a clean fit. Available raw or chrome.

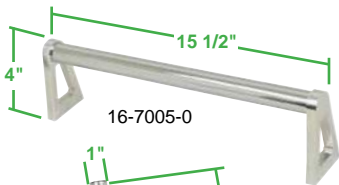

- 17-2755 45 Degree Grab Handle, Raw, Each
- 17-2756 45 Degree Grab Handle, Chrome, Each

BILLET ALUMINUM BUGGY GRAB BAR & FOOT REST

Hold on tight and keep your feet firmly planted with our Billet Aluminum Grab Bar and Foot Rest.

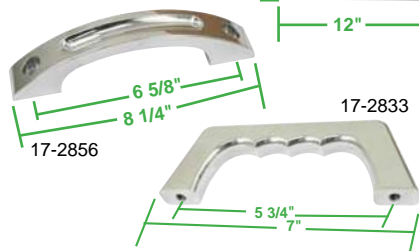

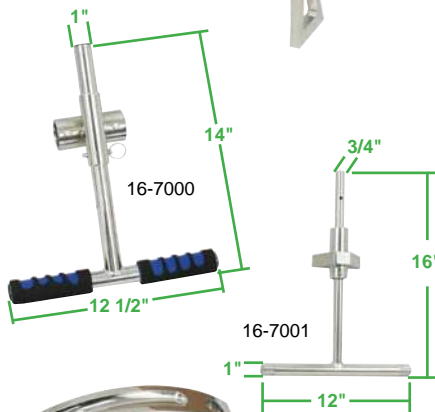

- 16-2048 Billet Grab Bar, For 1 1/2" Tubing
- 16-7005 Billet Foot Rest, Direct Mount

ADJUSTABLE GRAB HANDLES

Something to hold on to. Give your riders the extra safety of a firm handhold. Both have a telescoping length adjustment to suit tall or short passengers and soft rubber grips (P/N: 16-7000) for a secure hold. Choose from the heavy walled steel tube type with dual half cap clamp design that is chrome plated or the fully polished Billet Aluminum Adjustable type with radius mount and sleeved housing. Both are designed to fit 1 1/2" frame tubing.

- 16-7000 Adjustable Steel/Chrome Grab Handle
- 16-7001 Adjustable Billet Aluminum Grab Handle

BILLET GRAB HANDLE

Get a Grip! Bolt-on billet grab handles with grip or smooth design.

- 17-2833 Billet Grab Handle, 5/16" Hole, Each
- 17-2856 Billet Grab Handle, 5/16" x 18, Each

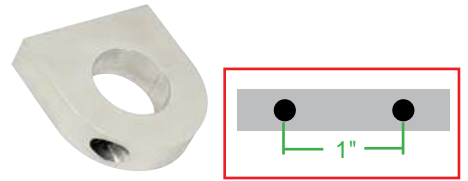

BILLET MOUNTS AND BRACKETS

Combine function and beauty with these custom machined and fully polished aluminum Billet mounts and brackets. All 4 universal mounts have the same 1/4"-20 x 1" mounting screw spacing to make them interchangeable for various accessories.

- 16-7007 Billet Universal Mount for 1" Tubing
- 16-7008 Billet Universal Mount for 1 1/4" Tubing
- 16-7009 Billet Universal Mount for 1 1/2" Tubing
- 16-9570 Billet Universal Mount for 1 3/4" Tubing

BILLET GPS MOUNT

Welcome to the 21st century, it's time you take that little bobbing dash compass and throw it as far as you can. GPS is here and can be a real lifesaver when exploring unknown territory. EMPI's polished aluminum GPS mount securely holds your hand held unit in clear view for quick reference. Features polished aluminum construction with adjustable thumb screws to fit most hand held GPS units.

- 16-7011 Polished Aluminum Billet GPS Mount for 1 1/2" Tubing

16-7011

BILLET OFF-ROAD REGISTRATION STICKER BRACKET

Many states require the registration of off-road vehicles and issue a sticker that must be displayed on the vehicle. EMPI's polished aluminum sticker bracket provides a clean conspicuous way to display your sticker. 4 1/4" x 2 3/4" plate accommodates most stickers. Use any universal mount from above to accommodate mounting for your application.

- 16-7020 Off-Road Registration Sticker Bracket

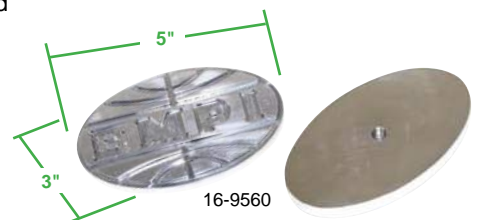

16-7020

EMPI BILLET ALUMINUM STEP

As featured on EMPI's own "Sand Pincher" Sand Rail, these Polished Billet Steps add flare to your tall, long travel sand rail foot pegs. 3/8" x 24 threaded hole.

- 16-9560 EMPI Billet Aluminum Step, Pr.

16-9560

BILLET FOOT PEGS

Bolt-on billet foot pegs. Knurled design, tapped for 1/2" x 20 mounting.

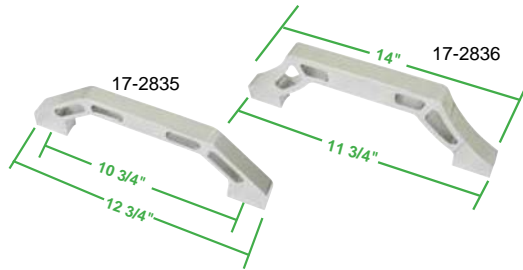

17-2834

Billet Foot Pegs, Pair

BILLET SIDE STEPS

Bolt-on billet side steps in two cool styles.

17-2835

Billet Side Step, Short, 1/2 x 13 Coarse, Each

17-2836

Billet Side Step, Long, 1/2 x 13 Coarse, Each

BILLET HEADSET HANGERS

Bolt-on a billet place to hang your headsets when not in use.

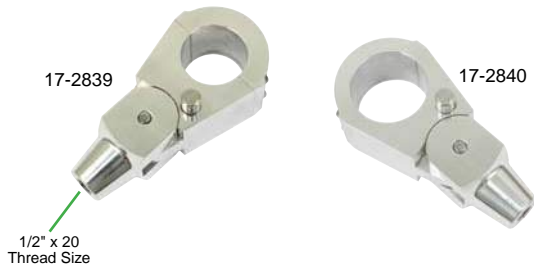

17-2837

17-2837

Billet Headset Hanger, 1 1/2", Each

BILLET DELUXE WHIP ANTENNA MOUNTS

Bolt-on billet deluxe whip antenna mount, adjustable for sweep angle.

Length = 4 7/16", Height = 3", Width = 2 1/2"

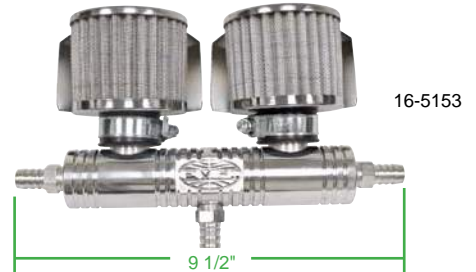

EMPI BILLET BREATHER

Function and form. Finish off your sand rail with these Polished Billet Breather Tubes. Available with colored EMPI covers or with chrome shielded covers.

- 16-2049 Billet Breather Tube w/Blue Filter Covers
- 16-2050 Billet Breather Tube w/Red Filter Covers
- 16-5153 Billet Breather Tube w/Shielded Filter Covers

- 16-5151 Replacement Filter w/Shielded Cover for P/N: 16-5153, Each
- 16-5152 Replacement Filter for P/N: 16-2049 & 16-2050, Each

BILLET VERTICAL BREATHER

EMPI's Billet polished canister type breather box features high quality all aluminum construction with removable lid for easy servicing of the foam element, provisions for up to four breather lines and a split type mounting clamp that makes installation as easy as tightening two screws. Washable foam insert separates oil from vapors while keeping out dust and dirt. Vapors are released from vents under the cap. (See page 423 for mounting clamps in additional sizes)

- 16-7030 Polished Alum. Vented Breather Box, 1 1/2" Tube Mount

CRANK CASE BREATHER

Gauze element breather with chrome top and bottom plates and 1/2" centered hole. Available shielded and unshielded. Also offset hole version for extra clearance.

- 9052 Gauze Breather Filter, Shielded (1/2" centered hole)
- 9053 Gauze Oil Filler Breather, (1/2" offset hole) Hole location is very close to the edge.

8544

EMPI CAST ALUMINUM OIL BREATHER KIT

Reduce crankcase pressure, eliminate blow-by and oil loss. High revving modified engines require more crankcase ventilation than the stock breather can supply. With the EMPI Aluminum Oil Breather Kit the blow-by oil is collected in the foam filter and the air vapors are vented to the atmosphere. New features include the EMPI logo cast in the top, improved heavy duty breather hose, plus internal changes that includes a screen mesh shelf to elevate the foam filter element.

- 8544** Complete Engine Oil Breather Kit
- 9242** Replacement Hose, Black (8 Feet)

17-2941

EMPI OIL FILLER & BREATHER BOX

The EMPI dual-purpose Oil Filler & Breather Box includes a system of internal baffles that separate the oil from the air then returns the oil back to the engine. It mounts upright on the alternator stand making for easy oil filling and was designed to look like part of the engine. The Billet Aluminum filler cap seals with an O'ring. Aluminum construction offers great looks and leak-free operation featuring an O'ring seal and Button-head Allen top screws. Vent your valve covers, crankcase, air cleaners...whatever your requirements. Comes with attaching nut, O'rings, gasket and instructions. There are 4 threaded ports and all are 1/4" NPT.

- 17-2941** Oil Filler & Breather Box Kit

8540

OFF-ROAD BREATHER

Designed for maximum breathing filtration. The chrome steel tower design returns the blow-by oil to the engine while the high capacity gauze filter with spun aluminum top cover keeps dirt out during deceleration.

- 8540** Off-Road Breather Kit
- 8541** Replacement Gauze Element, Each

16-8240

16-8241

BILLET UNIVERSAL OIL FILTER MOUNT

EMPI's Bolt-On Full Flow Oil Filter Mounts make filter mounting easy. Inward and outward polished aluminum exhaust flange mounts accommodate most off-road and drag race applications.

- 16-8240** Billet Inward Facing Exhaust Flange Oil Filter Mount
- 16-8241** Billet Outward Facing Exhaust Flange Oil Filter Mount

STAINLESS STEEL RADIATOR OVERFLOW TANKS

A compact design constructed of polished stainless steel. 13 3/4" overall length and 2" diameter. Available with or without welded mount tabs.

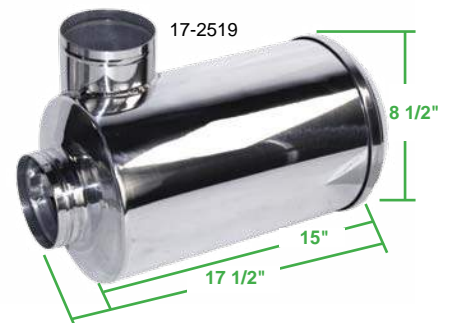

- 17-2534 Overflow Tank, **Stainless Steel**, with Bracket, Each (Boxed)
- 17-2535 Overflow Tank, **Stainless Steel**, w/o Bracket, Each (Boxed)

ALUMINUM AIR FILTERS

This design is used by almost every off road race car racing today. Available with 4" inlets and 4" outlets in either 12" or 15" length housings. This aluminum air filter uses a 2 phase inner filtering system. Choose from right or left side in the 4" X 4" models in both 12" and 15" bodies.

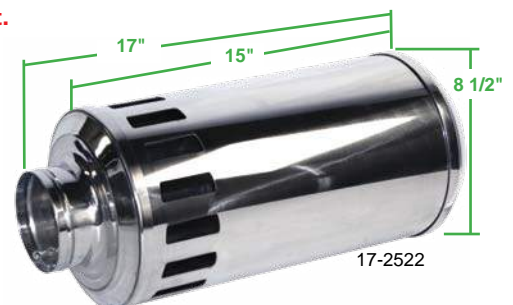

- 17-2516 Air Filter, Polished **Aluminum**, 12" Body, 4" Inlet, 4" Outlet Left Side, Each (Boxed)
- 17-2517 Air Filter, Polished **Aluminum**, 12" Body, 4" Inlet, 4" Outlet Right Side, Each (Boxed)
- 17-2519 Air Filter, Polished **Aluminum**, 15" Body, 4" Inlet, 4" Outlet Left Side, Each (Boxed)
- 17-2520 Air Filter, Polished **Aluminum**, 15" Body, 4" Inlet, 4" Outlet Right Side, Each (Boxed)

SLOTTED AIR FILTER

The same concept as our other Air Filters, but with a slotted non-directional inlet. Available in 12" and 15" bodies. 4" outlet only. **Supplied without filter element.**

- 17-2521 Slotted Air Filter, Polished **Aluminum**, 12" Body Each (Boxed)
- 17-2522 Slotted Air Filter, Polished **Aluminum**, 15" Body Each (Boxed)

17-2689

AXLE STRAPS

Save your paint. Loop these straps around your chassis or trailing arms and hook your tie down to these. Sold in pairs.

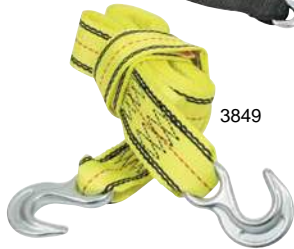

- 17-2689 Axle Strap, 2" Wide x 24" Long, Pair
- 17-2969 Axle Strap, 2" Wide x 16" Long, Pair

17-2690

TOW STRAPS

Sold with hooks on each end or with loops on each end. Available in 1 1/2" widths rated at 3300 lbs., 2" width rated at 8,000 lbs, 2 1/2" widths rated at 5500 lbs., and 3 1/2" widths rated at 10,000 lbs. Always use caution when using tow straps.

3849

- 3849 Tow Strap with Hooks, 2" x 15', 8,000 lbs, Yellow, Boxed, Each
- 17-2690 Tow Strap with Hooks, 1 1/2" x 13', 3300 lbs, Black, Each
- 17-2691 Tow Strap with Hooks, 2 1/2" x 13', 5500 lbs, Black, Each
- 17-2692 Tow Strap with Hooks, 3 1/2" x 13', 10,000 lbs, Black, Each

17-2693

- 17-2693 Tow Strap with Loops, 1 1/2" x 13', 3300 lbs, Black, Each
- 17-2694 Tow Strap with Loops, 2 1/2" x 13', 5500 lbs, Black, Each
- 17-2695 Tow Strap with Loops, 3 1/2" x 17', 10,000 lbs, Black, Each

17-2860

TIE DOWNS - CAMLOCK STYLE

Quickly and easily secure your gear, ATV or pit bike with these 1" wide tie downs. Vinyl coating protects from scratches and spring-loaded hook quickly and securely attaches to truck or trailer. Pull to tighten. Release by depressing cam lock lever. Vinyl hook can also hook into sewn-in strap to create a soft-tie axle strap.

- 17-2860 Tie Downs, 1" Camlock, 5' Long, Each

17-2861

17-2862

RATCHET TIE DOWNS

Easily ratchet-down to secure your gear, ATV or pit bike with these 1" wide tie downs. Vinyl coating protects from scratches and spring-loaded hook quickly and securely attaches to truck or trailer. Ratchet to tighten, pull release bar to loosen. Locks when ratchet is closed. 2" model features vinyl grips. Attach end clips to sewn-in hook to create built-in axle strap.

- 17-2861 Tie Downs, 1" Ratchet, 5' Long, Each
- 17-2862 Tie Downs, 2" Ratchet, 5' 5" Long, Each

TOOLS & TOW BARS

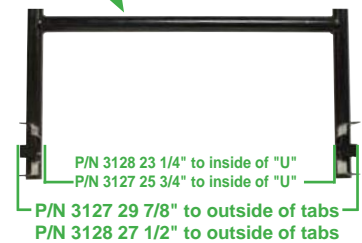

TOW BARS

All heavy duty steel construction, easy to install and available with 2" ball receiver. Includes pins & clips. The Super Beetle Tow Bar includes mounting plate. Narrowed Tow Bar fits 2" Narrow Beams. Never back up when using a tow bar.

- 3127 Tow Bar, Sedan/Buggy, 2" Ball
- 3128 Tow Bar, Sedan/Buggy, w/ 2" Narrow Beam, 2" Ball

- 3131 Tow Bar, Super Beetle, 2" Ball, w/Mounting Plate
- 3131-7 Tow Bar Only, Super Beetle, 2"
- 3190 Mounting Plate Only, for P/N: 3131

- 3137 Replacement Pins & Clips, Long, for P/N: 3127, Pair
- 3138 Replacement Pins & Clips, Short, for P/N: 3131, 3131-7, Pair

Center to Center of the tabs

UNIVERSAL TOW BAR

Easy to adapt to most cars. Complete with mounting plate and hardware. May require drilling and fitting. Never back up when using a tow bar. (Intended for light duty use only).

- 3133 Universal Tow Bar 2", w/Mounting Plate
- 3131-7 Tow Bar Only, 2"
- 3192 Mounting Plate Only, for P/N: 3133

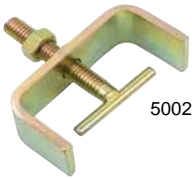

EMPI SPARE TIRE TOOL BOX

EMPI brings back another old favorite with our reproduction of the ever popular and useful spare tire tool box. The EMPI globe logo embossed lid folds down to reveal a true to original assortment of tools to help with roadside repairs. Fits all stock and chrome rims that utilize hub cap clips. Supplied with tools. Tools supplied should be considered for show only and not for actual use.

BENCH ENGINE STAND

Mounts to work bench. Features swivel head. Use for holding engines or transmissions. 1 5/8" male tube that slides into mount.

- 5001 Bench Engine Stand

H.D. ENGINE STAND

Holds engine or transmission. Features swivel head, H.D. steel construction with metal casters for mobility. Knock-down style allows for UPS shipments.

- 5007 H.D. Engine Stand, Knock-down

PROFESSIONAL VW ENGINE STAND

For the Pro Engine Builder, or for safely displaying engines in your showroom. This Pro VW Engine Stand features 2 long, diagonal forward legs for stability and strength. Urethane-clad Wheels each with brake and a 4-arm, gusseted Head to firmly hold the engine case. Painted brilliant Red for durability and good looks. Built to work hard, last long and look good! Unit is supplied knock-down in a box.

- 5015 Professional VW Engine Stand

HEAVY DUTY ENGINE FLOOR DOLLY

EMPI's Heavy Duty Engine Floor Dolly features heavy gauge steel for strength and 4 industrial swivel caster wheels for stability. Use for all VW Air Cooled Engines. Outside dimensions are 11.5" wide by 12.75" long by 6.5" high.

5005 Heavy Duty Engine Floor Dolly

UNIVERSAL VALVE ADJUSTMENT TOOL

Allows for easier valve adjustment.

5888 Valve Adjustment Tool, 13mm

PISTON RING COMPRESSOR

Compress piston rings for easy piston installation. Use with common pliers.

5764 Ring Compressor, 83-87mm
5765 Ring Compressor, 88-94mm

FLYWHEEL SEAL INSTALLATION TOOL

Easily installs rear main seal using stock gland nut.

5775 Flywheel Seal Installation Tool

DELUXE FLYWHEEL SEAL INSTALLATION TOOL

Installs rear main seal without removing dowel pins.

5774 Deluxe Flywheel Seal Installation Tool

CRANK PULLEY PULLING AID TOOL

Helps to remove crankshaft pulley.

5784 Crank Pulley Aid

VW CLUTCH ADJUSTING WRENCH

Makes clutch adjustment a cinch.

5810 Clutch Adjustment Tool, Air-cooled

TOOLS & TOW BARS

SCISSOR JACK

Originally made for Type 2's, but will work on Sedans, & Ghias offering extra jacking height. Great for use on lowered cars.

98-0109-B Scissor Jack Type 2 & Type 1, Each
(Ref P/N: 237 011 031)

PUSH ROD MEASURING TOOL

Adjust out, lock down, measure, and cut push rods.

16-9600 Push Rod Measuring Tool, Each

BENCH MOUNT HEAD ASSEMBLY TOOL

Bench model for easy removal of valve springs.

5742 Bench Mount Head Assembly Tool, Boxed

CONDENSER INSTALLATION TOOL

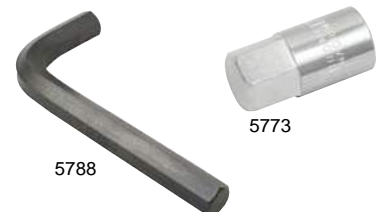

Eliminate broken wires and plugs while reducing installation time when installing the condenser in a press-in type distributor. Tool provides clearance for the wires while making square contact with the plug.

5772 Condenser Installation Tool

TRANSAXLE DRAIN PLUG TOOLS

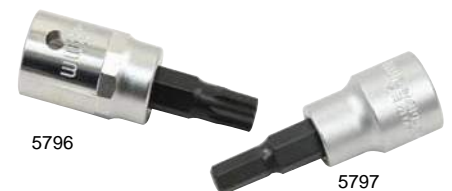

5773 Trans Drain Plug Tool, 17mm, 3/8" Drive
5788 Trans Drain Plug Wrench, 17mm

C.V. JOINT BOLT SOCKET

Available for 6-Point and 12-Point 8mm Hex C.V. joint bolts.

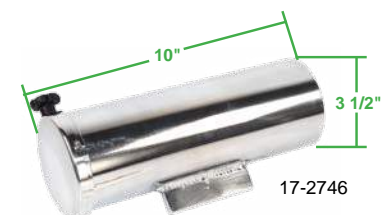

5796 C.V. Joint 12-Point Hex Socket, 8mm, 3/8" Drive
5797 C.V. Joint 6-Point Hex Socket, 8mm, 3/8" Drive

TOOL CARRIERS

An attractive and compact method of carrying your emergency tools in your off road vehicle, street rod, or boat. Made from 3 1/2" polished aluminum tube, the lid snaps into place and is secured with a screw-in knob. This is a bolt on application.

17-2746 Tool Carrier, Bolt on, Each (Boxed)

GLAND / AXLE NUT SOCKETS

Remove gland or axle nuts with this socket and your breaker bar.

- 5770** Gland/Axle Nut Socket, 36mm, 1/2" Drive
5769 Axle Nut Socket, 46mm, 3/4" Drive

AXLE NUT TOOLS

Remove rear axle nuts with this tool and your 1/2" breaker bar.

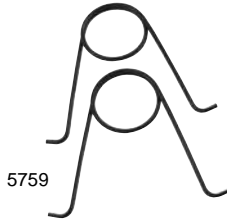

- 5748** Axle Nut Removal Tool, 36mm
 For all Type 1, 3 & 4 and Type 2, 62 & Prior
5749 Axle Nut Removal Tool, 46mm
 For Type 2, 63 & Later

DECK HEIGHT MEASURING TOOL

Accurately check critical deck height for appropriate valve clearance and compression.

- 5756** Deck Height Measuring Tool

VALVE LIFTER RETAINING CLIPS

Holds lifters in place during engine assembly.

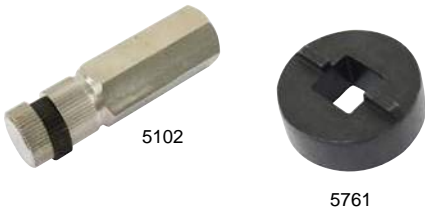

- 5759** Valve Lifter Retaining Clips, Pair

END-PLAY MEASURING TOOL

Accurately measure crankshaft end play.

- 5760** End-Play Measuring Tool

OIL FILLER NUT TOOLS

Easily install or remove oil filler. For the really tough to remove nut, use the internal nut removal tool.

- 5761** Oil Filler Nut Removal Tool, 1/2" Drive
5102 Oil Filler Nut Removal Tool w/Internal grip

VW & AUDI TENSION SPANNER

For adjusting camshaft belt tension.

- 5811** VW/Audi Tension Spanner

TOOLS & TOW BARS

TORQUE MULTIPLIER

Helps multiply torque when tightening gland nuts and axle nuts.
 Fits 12v and 6v flywheel, and 4x130 and 5x205 wheels.
 24 FT. LBS = 216 (Rear Axle Nut)
 30 FT. LBS = 270 (Gland Nut)

16-9602 Torque Multiplier, Kit

CASE SPLITTER

Insert in the oil pump hole and expand the case halves.

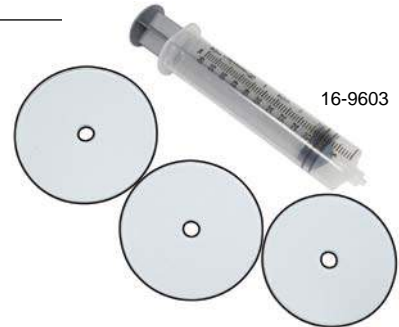

16-9601 Case Splitter, Kit

HEAD CC MEASURING KIT

Comes with discs for 85.5, 90.5 / 92 and 94mm Cylinders.

16-9603 Head CC Measuring Kit

GASGACINCH GASKET SEALER

The best for sealing engine cases and gaskets.

Sold in case quantity only. (If you order Quantity 1, you will get a case of 24 cans) 1 = 24.

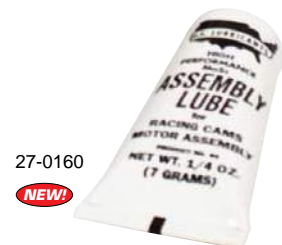

5124 GASGACINCH, 4 oz. Cans, 24 Per Case
(CANNOT be shipped via AIR)

MOLY ASSEMBLY LUBE

Applied to all bearing surfaces, cam and cam followers during assembly, this high grade moly lube insures proper lubrication upon initial engine start up and run in.

27-0160 **NEW!** Moly Assembly Lube, 1/4 oz. Tube

CARBURETOR SYNCHRONIZERS

Proper synchronization of dual carburetor set-ups is essential for peak performance. Accurately dial in your carbs. with one of these Carburetor Synchronizers. Our P/N: 5746 is the original, SU type, bubble gauge with pivoting gauge tube for down-draft or side-draft applications. P/N: 43-5712 includes two Adapters which allows for 1-tool usage on a wide spectrum of applications. The Pro-Synchronizer will not restrict airflow and features an easy to read 1-30 kg/h numbered scale for precise synchronization.

- 5746 SU Type Carburetor Synchronizer
- 43-5712 EMPI Universal Pro-Sync, w/2 Adapters (Boxed)

CARBURETOR TOOLS

These precision tools allow you to fine-tune your carburetors. The Jet Reamer Set features precision tapered reamers that cut to close tolerances. A selection of tapered reamers is packed in a protective plastic case. Know exactly what size you have cut your jets to with our Jet Size Gauges. Two size range gauges are available to fit all applications.

- 43-5715 Jet Reamer Kit
- 43-5716 Jet Gauge, .45mm - 1.50mm Range
- 43-5717 Jet Gauge, 1.50mm - 3.00mm Range

CIS FUEL INJECTOR PULLER

Easily removes CIS fuel injectors.

- 5787 CIS Fuel Injector Puller

INJECTION PUMP LOCKING PIN

Locks diesel injection pump in place when changing the camshaft belt.

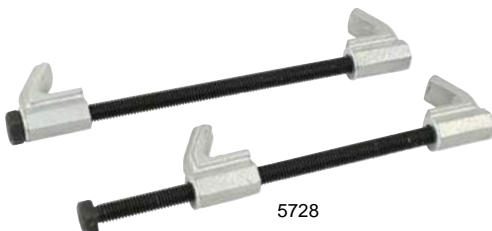

- 5780 Injection Pump Locking Pin

VW & AUDI STRUT NUT SOCKET

Removes/installs top shock retaining nut.

- 5825 Strut Nut Socket

COIL SPRING COMPRESSOR

Safely remove coil springs from struts. Tightens and compresses springs together.

- 5728 Coil Spring Compressor, Pair

TIE ROD PULLER

The design of this tool makes removal of the tie rod ends quick and easy without tearing the boots. Compact size allows you to carry the tool along on off-road outings for fast repairs in the field.

B708000 **NEW!** Tie Rod End Puller 18mm to 25mm Rods

B708000

TIMING LIGHT

Here's a tool nobody can do without. This static timing light is just what every tool box needs. Utilizes alligator clips for ease of timing and insuring good contact.

B700900 **NEW!** Static Timing Light

B700900

OIL PISTON PULLER

This quality tool has been designed to remove the oil pressure relief piston in VW engines. A piston which many times becomes stuck due to corrosion and gunk build-up and which should be cleaned for proper piston operation. With the tool's tip expanded, it grabs hold of the piston, pulling it out along with the tool. This precision made tool is a necessity when overhauling a VW engine, checking out oil pressure problems, or installing our oil piston and H.D. Spring kit.

B700200 **NEW!** Oil Piston Puller

B700200

STARTER BUSHING TOOL

Here's the answer when changing or repairing starter bushings. This tool is made to a high quality professional grade to give you years of trouble free service. The remover is designed to be used with only the starter removed.

B706211 **NEW!** Starter Bushing Puller, 12V

B706211

PINION NUT SOCKET

This quality tool solves the problem of removing and replacing the round nut that retains the pinion bearing in the 61-79 T-1 and 61-67 T-2 VWs. Believe us, this tool can be a life saver or stubborn pinion nuts.

B706525 **NEW!** Pinion Nut Socket

B706525

EMPI Universal Clamps - 7mm Wide

- 86-5831** Universal Stainless Steel Clamp, Small, 7mm Wide, 7" Long (100 pcs. in Poly Bag)
- 86-5833** Universal Stainless Steel Clamp, Small, 7mm Wide, 7" Long (10 pcs. in Poly Bag)

- 86-5832** Universal Stainless Steel Clamp, Large, 7mm Wide, 14.5" Long (100 pcs. in Poly Bag)
- 86-5834** Universal Stainless Steel Clamp, Large, 7mm Wide, 14.5" Long (10 pcs. in Poly Bag)

- 86-5837** Universal Stainless Steel Clamp, Extra Large, 7mm Wide, 16.5" Long (100 pcs. in Poly Bag)
- 86-5838** Universal Stainless Steel Clamp, Extra Large, 7mm Wide, 16.5" Long (10 pcs. in Poly Bag)

Uses standard crimp pliers. Clamps are shipped wrapped (Round).

EMPI Universal Clamps - 7mm Wide

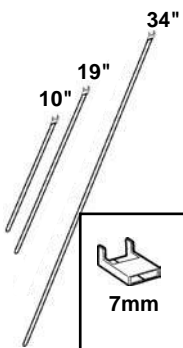

EMPI's Stainless Steel Universal Clamps are 7mm wide and are supplied in lengths of 365mm and 750mm, which will fit all C.V. Boots currently in use. These are the same type of clamp as used in all EMPI C.V. Joint Kits. Easy installation. **No special tools required. Use common pliers to pull tight and close Buckle. Clamps are shipped wrapped (Round).**

- 86-5795** Universal Clamp Kit, Pair (1-365mm and 1-750mm Clamp, Skinpacked)

- 86-5365** Universal Clamp 7mm Wide, 365mm Long (100 pcs. in Poly Bag)
- 86-5366** Universal Clamp 7mm Wide, 365mm Long (10 pcs. in Poly Bag)
- 86-5750** Universal Clamp 7mm Wide, 750mm Long (100 pcs. in Poly Bag)
- 86-5751** Universal Clamp 7mm Wide, 750mm Long (10 pcs. in Poly Bag)

EMPI Band and Buckle Clamps - 7mm Wide

EMPI's Stainless Steel Band Clamps with retaining buckles are 7mm wide and are supplied in lengths of 10", 19" and 34" for 7mm width. **Installation tool 86-5792 is required. Clamps are shipped flat.**

- 86-5780** Band Clamp 7mm Wide, 10" Long (100 pcs. in Poly Bag)
- 86-5781** Band Clamp 7mm Wide, 19" Long (100 pcs. in Poly Bag)
- 86-5794** Band Clamp 7mm Wide, 34" Long (100 pcs. in Poly Bag)
- 86-5793** **7mm Buckles** for 86-5780, 86-5781, 86-5794, 86-5798 (100 pcs. in Poly Bag)

Deluxe Installation Tool with Cutter

- 86-5792** Deluxe Tool with Ratchet and Cutter
Used with the following Clamps:
86-5780, 86-5781, 86-5794

TOOLS & TOW BARS

TOOLS, GREASE, PAINT

CV Joint Grease

86-3000/86-3005

86-3009

86-3039 / 86-3027

EMPI Moly C.V. Joint Grease meets the rigid factory fill requirements set by all major C.V. Joint manufacturers. Ask your current supplier if their grease is true moly based! EP-2 (Extreme Pressure) Additive provides superior protection against seizure under extreme pressure loads. Use EMPI Moly Grease for all long travel play car or racing applications.

- 86-3000** Moly Grease for C.V. Joints, 4 oz. packet
- 86-3005** Moly Grease for C.V. Joints, 3 oz. packet
- 86-3009** Red CV Grease, 14oz tube
- 86-3039*** 400 lb. Plastic Lined Drum of Grease
- 86-3027** 35 lb. Drum of Grease

***Shipped via Truck Only**

Grease CANNOT be shipped via AIR

C.V. Bolts

C.V. BOLTS

- 87-7701** Bolt for Type 1 C.V., M8 x 1 15/16", 12 Pt. Internal, Each (Bulk) (Ref. P/N: 113 501 229D)
- 16-2409** Bolt for Type 1 C.V., M8 x 1 15/16", 12 Pt. Internal, Set of 6
- 16-2410** Bolt for Type 1 & 2 C.V., 3/8" - 24 x 1 3/4", Allen Head, Set of 6
- 16-2412** Bolt for Type 1 & 2 C.V., 3/8" - 24 x 1 3/4", 12 Pt., External, Set of 6
- 16-2413** Bolt for 930 C.V., 3/8" - 24 x 2 1/4", 12 Pt., External, Set of 6
- 16-2415** Bolt for 930 C.V., 3/8" - 24 x 2 5/16", 12 Pt., External, Set of 6 (For P/N: 86-9312 Flange)
- 16-2414** Bolt for 934 C.V., 7/16" - 20 x 2 7/16", 12 Pt., External, Set of 6

C.V. JOINT BOLT SOCKET

Available for 6-Point and 12-Point 8mm Hex C.V. joint bolts.

- 5796** C.V. Joint 12-Point Hex Socket, 8mm, 3/8" Drive
- 5797** C.V. Joint 6-Point Hex Socket, 8mm, 3/8" Drive

TORQUE DISTRIBUTION WASHER

- 87-5080** Torque Distribution Washer for 90mm, T-1 Joint, Each
- 87-5081** Torque Distribution Washer for 100mm, T-2 Joint, Each
- 87-5871**  Torque Distribution Washer for 108mm, 930 Joint, Each

CLUTCH ALIGNMENT TOOLS

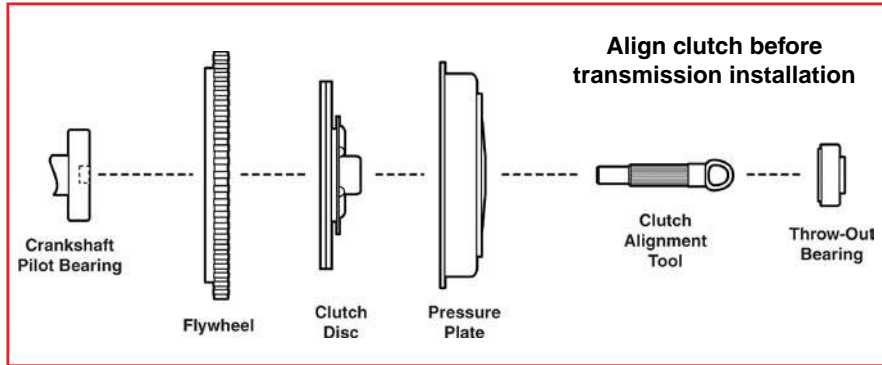

This tool makes a complicated job a cinch. When installing the pressure plate, this tool quickly and easily aligns the Pressure Plate and the Clutch Disc, centering on the Pilot Bearing, for quick and error-free installation. Made of High-Impact Plastic with Molded-in Splines and Peg Board Ring, these tools are made to be used again and again. All Clutch Tools are packaged in our distinctive EMPI 3-Color Display Cards. Once out of the package, each tool is easy to identify with molded-in part number and EMPI Blue color.

CHROMOLY COMPLETE AXLES FOR RHINO

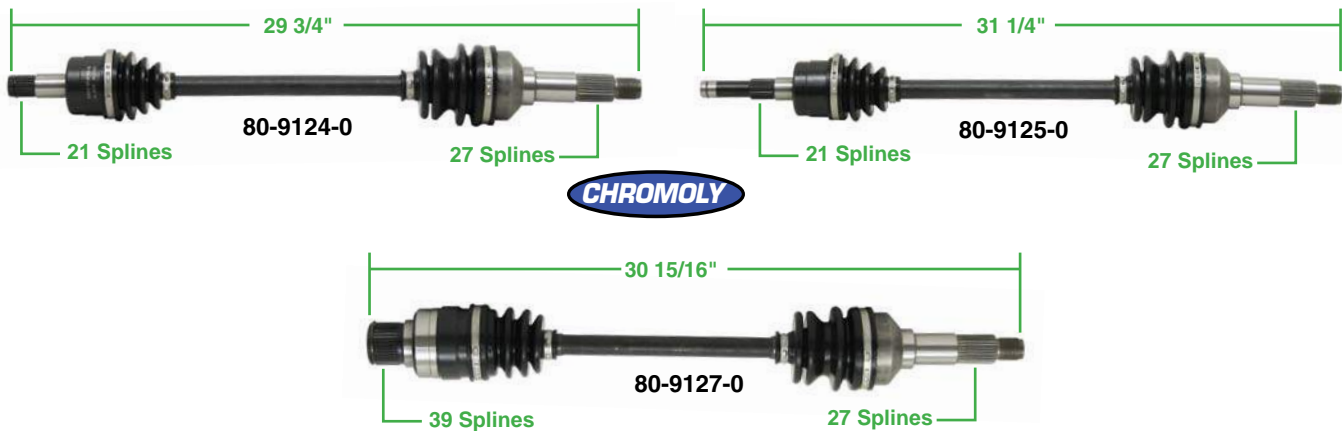

Be it mountain trails, sand, or off road, these axles and joints are for the owner who likes to have serious fun with his equipment. These units have 4340 chromoly outer housing (outboard end only), cages, inner races, and axle bars. They will take the punishment and not leave you stranded. All Axles are supplied with the spindle nut.

CHROMOLY

Rhino Extended Length Axles

Note: Must be used with aftermarket long travel 6" extended trailing arms. **EXCLUDES EXTENDED WHEELBASE SETUPS.**

- 80-9124-0 Chromoly Axle Assembly, Rhino 04-07, Left Front, Extended Length, Each
- 80-9125-0 Chromoly Axle Assembly, Rhino 04-07, Right Front, Extended Length, Each
- 80-9127-0 Chromoly Axle Assembly, Rhino 04-07, Right Rear, Extended Length, Each

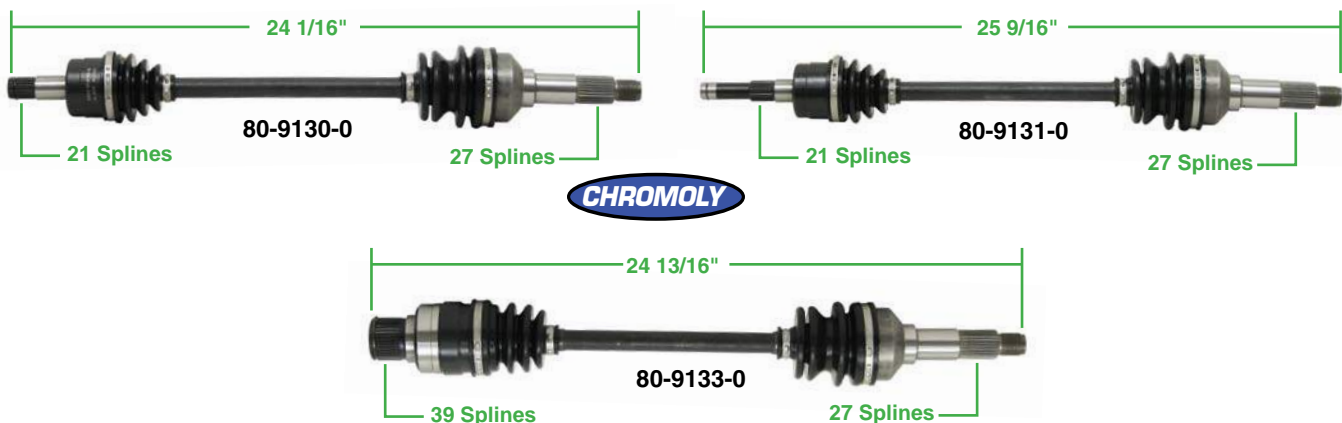

*All axle lengths are measured collapsed

CHROMOLY

Rhino OEM Length Axles

- 80-9130-0 Chromoly Axle Assembly, Rhino 04-07, Left Front, OEM Length, Each
- 80-9131-0 Chromoly Axle Assembly, Rhino 04-07, Right Front, OEM Length, Each
- 80-9133-0 Chromoly Axle Assembly, Rhino 04-07, Right Rear, OEM Length, Each

*All axle lengths are measured collapsed

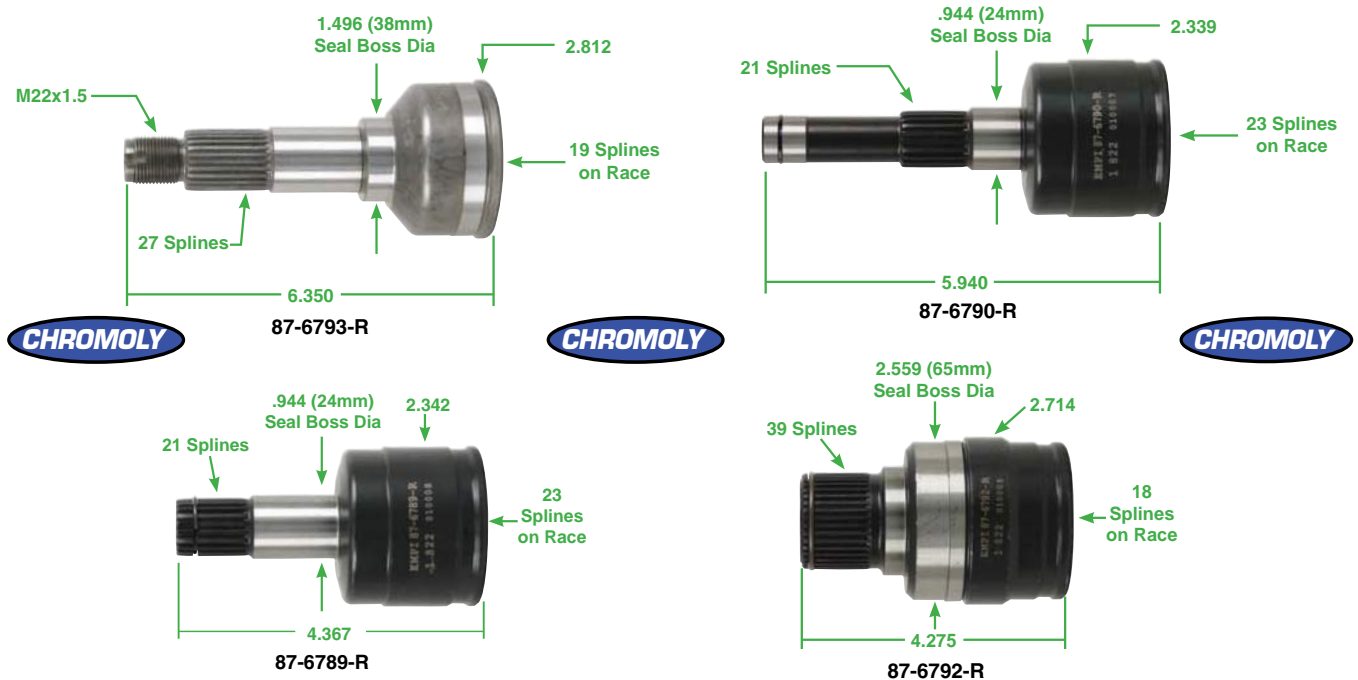

REPLACEMENT CV JOINTS FOR RHINO

These CV Joints are engineered for replacement on either OEM or EMPI produced axles. O.B. Joint (87-6793-R) is 100% chromoly. I.B. Joints have chromoly inner races and cages, making these CV Joints much stronger than OEM. As an added feature these CV Joints are 100% compatible with OEM center bars.

- 87-6789-R HP CV Joint, Rhino *04-07, Front Axle, Inboard End, Driver Side
- 87-6790-R HP CV Joint, Rhino *04-07, Front Axle, Inboard End, Passenger Side
- 87-6792-R HP CV Joint, Rhino *04-07, Rear Axle, Inboard End, Passenger Side
- 87-6793-R HP CV Joint, Rhino *04-07, Outboard End, All (Supplied with Nut)

**Late 04 (2nd Design)*

REPLACEMENT CV BOOT KITS FOR RHINO

Complete with Boot, Stainless Steel Clamps, Grease, and Installation Instructions. EMPI Replacement CV Boot Kits for Rhino come packaged in our distinctive 3-Color Trilingual Box.

- 86-2461-D Inner Front, Left & Right
- 86-2284-D Inner Rear, Left & Right
- 86-1188-D Outer Front & Rear, Left & Right

OFF-ROAD CV JOINTS

SUZUKI SAMURAI CHROMOLY CV JOINTS AND AXLE BARS

The Suzuki Samurai has quite an off road following and deserves quality components. Our 4340 Chromoly CV Joints and Axles will get the job done. An improved design over OE, these axles and joints must be used together.

- 87-9923-R** Chromoly CV Joint, Samurai, Suzuki, 86-95, Each
25 Splines on Bar End (Inner Race)
- 87-3168-0** Clip to hold O.B. CV Joint to Bar (10 pcs.)
- 81-1065-R** Chromoly Axle Bar, Samurai, Suzuki, 86-95, Short, Left, Each
25 Splines on Joint End, 26 Splines on Transmission End,
14.875" Long
- 81-1066-R** Chromoly Axle Bar, Samurai, Suzuki, 86-95, Long, Right, Each
25 Splines on Joint End, 26 Splines on Transmission End,
27.687" Long

TOYOTA TRUCK AND LAND CRUISER CHROMOLY CV JOINTS AND AXLE BARS (STOCK 27 SPLINE)

4340 Chromoly CV Joints and Axles. Manufactured for OE 27 spline. An improved design over OE. 87-9314-R Joint can be used with OE axle bars or EMPI axle bars. See specifications listed below.

- 87-9314-R** Toyota 27 Spline Chromoly CV Joint, Land Cruiser (FJ40) 75-84, Land Cruiser (FJ60) 8/80-1/90, Truck 79-85, Each
- 87-3043-0** Clip to hold O.B. CV Joint to Bar (10 pcs.)
- 87-8604-R** 27 Spline H/P Chromoly Axle Bar, Land Cruiser (FJ60) 8/80-1/90, Truck 79-85, 31.5" Long, Driver Side, Each
- 87-8605-R** 27 Spline H/P Chromoly Axle Bar, Truck 79-85, 15.25" Long, Pass. Side, Each
- 87-1264-R** 27 Spline H/P Chromoly Axle Bar, Land Cruiser (FJ40) 75-84, 28.937" Long, Driver Side, Each
- 87-1265-R** 27 Spline H/P Chromoly Axle Bar, Land Cruiser (FJ40) 75-84, Land Cruiser (FJ60) 8/80-1/90, 17.312" Long, Pass. Side, Each

TOYOTA TRUCK AND LAND CRUISER CHROMOLY CV JOINTS AND AXLE BARS (30 SPLINE)

4340 Chromoly CV Joints and Axles. Manufactured for 30 spline aftermarket applications. An improved design over OE. 30 spline Joint **must use EMPI axle bars**. See specifications listed below.

- 87-6766-R** 30 Spline Chromoly CV Joint, Land Cruiser (FJ40) 75-84, Land Cruiser (FJ60) 8/80-1/90, Truck 79-85, Each
- 87-3043-0** Clip to hold O.B. CV Joint to Bar (10 pcs.)
- 87-1266-R** 30 Spline H/P Chromoly Axle Bar, Land Cruiser (FJ60) 8/80-1/90, Truck 79-85, 31.5" Long, Driver Side, Each
- 87-1267-R** 30 Spline H/P Chromoly Axle Bar, Truck 79-85, 15.25" Long, Pass. Side, Each
- 81-1071-R** 30 Spline H/P Chromoly Axle Bar, Land Cruiser (FJ40) 75-84, 28.937" Long, Driver Side, Each
- 81-1072-R** 30 Spline H/P Chromoly Axle Bar, Land Cruiser (FJ40) 75-84, Land Cruiser (FJ60) 8/80-1/90, 17.312" Long, Pass. Side, Each
