

## Regulatory Compliance - RTMHUB2

### Specifications

|                     |                               |
|---------------------|-------------------------------|
| Description         | R-TEC Hub                     |
| Item #              | RTMHUB2                       |
| Input Voltage       | 5 V DC                        |
| Input Current Max.  | 1 A                           |
| Wi-Fi Frequency     | 2.4 GHz, 802.11b/g/n          |
| Radio Frequency     | 433.92 MHz                    |
| Transmission Range  | 60'                           |
| RF Modulation       | N/A                           |
| IP Rating           | IP20                          |
| Internet Connection | Ethernet, Wi-Fi               |
| Ethernet Cable      | 39"                           |
| USB Cable           | 31"                           |
| Temp Working        | 32° F - 140° F (0° C - 60° C) |
| Class               | N/A                           |

Rollease Acmeda declares that this equipment is compliance with the essential requirements and is tested to comply with:

|                 |                                                                        |
|-----------------|------------------------------------------------------------------------|
| 2014/35/EU      | The Low Voltage Directive                                              |
| 2014/30/EU      | The Electromagnetic Compatibility Directive                            |
| 2014/53/EU      | The Radio Equipment Directive                                          |
| 2011/65/EU      | The RoHS Directive                                                     |
| IEC 60950-1     | Information Technology Equipment - Safety Part 1: General Requirements |
| IEC 62321-3-1   | XRF Spectroscopy and Chemical Confirmation Test                        |
| EN 55032        | EMC of Multimedia Equipment - Emission Requirements                    |
| EN 55035        | EMC of Multimedia Equipment - Immunity Requirements                    |
| EN 61000-3      | EMC limits                                                             |
| EN 300 220      | SRD operating in the frequency range 25MHz to 1000MHz                  |
| EN 300 328      | Data Transmission Equipment operating in the 2.4GHz                    |
| Draft EN301 489 | EMC Standard for Radio Equipment and Services                          |
| FCC Part 15     | 47 CFR Part 15 – Radio Frequency Devices                               |

### Statement Regarding FCC / IC Compliance (CAN ICES-3 (B)/NMB-3(B))

This device complies with Part 15 of the FCC Rules / Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) L'appareil ne doit pas produire de brouillage; (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

MODIFICATION: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Do not dispose of in general waste.

Please recycle batteries and damaged electrical products appropriately.
