SENCOR

EVERY TIME, EVERY DAY

FOR YOUR COMPLETE COOKING AND FOOD PREPARATION

Cooking and eating is special in many ways. It is one of the oldest house works. Workday breakfast and dinner are a natural occasion for the entire family to meet and a home-cooked weekend lunch is a great opportunity for regular or larger family and friend reunions.

Cooking was also behind early global trade (in spices). In the past century we witnessed a technological revolutions: the arrival of electric home appliances. They all save our time and allow us to make home dishes easily. Recently, new cooking and eating trends have gained popularity – vegetarian and vegan cooking, slow foods and molecular cuisine, as well as a return to the traditional old recipes and fusion cooking.

At SENCOR we want to reflect it all! We design and deliver modern stylish kitchen appliances that are practical, reliable, safe and useful and meet the most demanding expectations.

SENCOR FROM BREAKFAST TO DINNER

A perfect breakfast?

Start your day with fresh coffee or tea made with a SENCOR coffee maker, espresso machine or water kettle. And for cooked breakfast, such as pancakes, oatmeal, porridge, boiled or scrambled eggs and toast, the modern SENCOR induction hotplates and toasters are perfect choices. For some late morning snack, such as a fruit or vegetable smoothie use a powerful SENCOR stick blender.

Quick and easy weekday lunch

SENCOR rice cookers are equipped with a steaming basket for entire steamed dish with fish and vegetables or meat dumplings and steamed rice in one go. A quick stir fry is the best prepared on induction hotplate and grilled meat and vegetables on one of the modern SENCOR contact or table top grills. And if you are in a real hurry, a SENCOR microwave oven helps you to heat up any meal in seconds. Check SENCOR microwave cooking tips.

Workday dinner for all

With a SENCOR electric oven it's possible to roast a pumpkin for a perfect puree or a creamy pumpkin soup easy. Or prepare pasta bakes, moussaka and pies. You can use the built-in rotisserie for a perfect roasted chicken. Naturally, the induction hotplates are perfect if you want to make a great stir-fry or cook some hearty sauce, chilli or cassoulet.

WHY CHOOSE SENCOR

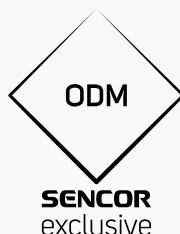

These are just some of the examples and ideas how SENCOR kitchen appliances can make your life easier, tastier and more fun. Check out the remaining 104 pages to find many great products, as well as SENCOR hints, tips and recipes.

COMPLEX SOLUTIONS

Cooking is for more and more people hobby, entertainment and opportunity to enjoy time with the loved ones. SENCOR loves to be part of this phenomenon and develops a complete range of appliances.

INNOVATIONS

SENCOR loves innovation! New materials and constant improvements are crucial for us in every step of our production and development. Our experts initiate product engineering to reach highest European standard in every detail.

MARKET LEADER

SENCOR as a market leader in household appliances segment follows trends in line with the latest technology. SENCOR applies innovations, ensures high quality, uses safe materials, and brings inspirational design for an affordable price to millions of households around the world.

TECHNOLOGIES & MATERIALS

The appliances are developed and manufactured with advanced technologies and made of safe ecological materials.

TITANIUM COATING

For proceeding fresh food SENCOR often uses titan coating to preserve vitamins, nutrients, and enzymes while prevention of possible oxidation and germs multiplication.

EXTRA LONG WARRANTY

SENCOR appliances meet high-quality European standards of workmanship and durability and are carefully tested. For this reason, SENCOR can guarantee extended warranty periods.

reddot award
product design

DESIGN & COLORS

The design should be fun! SENCOR combines style with practice usability. Most SENCOR appliances are available in a variety of timeless design and also in wide range of trendy colors collections.

BOROSILICATE GLASS

Borosilicate glass is commonly used in demanding laboratory conditions or automotive industry, so we use it in our appliances to ensure top durability and long life.

STAINLESS STEEL

We use only the high-quality stainless steel, which you may find in most of our appliances.

BPA FREE

Plastic parts in all SENCOR products are safe for health and environment, and always BPA free.

TRITAN

Tritan, which was originally developed for rocket science, is used for jugs, bottles and other jars as it is safe and very durable.

COFFEE PREPARATION

Coffee is one thing almost everyone around the world can agree upon, it is that much of a global phenomenon. All across the globe, people sip coffee throughout the day either for its health benefits or for the social customs it has become. The variety of recipes and prescriptions for roasting, brewing, and serving coffee reflects the diversity of consumer tastes and cultural preferences. All techniques begin with properly roasted, freshly ground coffee; freshly boiling water; and absolutely clean utensils. There are many ways how to prepare coffee, and SENCOR knows how to lead you through it - with a selection of machines and appliances that will help.

HAVE YOUR ESPRESSO ANY TIME

AUTOMATIC ESPRESSO MACHINES

No need to go to a café to enjoy a cup of good coffee, today you can prepare it yourself at home. Modern SENCOR espresso machines are fully automatic - LED panel with touch buttons ensures easy and convenient operation and pump pressure of 19 bars an excellent coffee.

With a single touch you can conjure up a frothy latté or a creamy cappuccino with milk micro foam. If you wish, the machine will also remember your cup size for the next time. Modern SENCOR espresso keeps your favourite variety of coffee beans in a well-sealed container and the stainless steel grinder uses 5 grinding levels to suit your wish. The patented pre-steaming system gives coffee a fuller taste, while the modern Thermoblock heating system ensures optimal beverage temperature. The durable Tritan container for your milk or soy drink gets simply attached to the appliance and the 1.1 l removable water tank is easy to fill.

Moreover, the smart SENCOR automatic espresso machines are automatically cleaned and feature a descaling program. Despite their huge performance, the appliances are relatively compact to fit into smaller kitchens too.

WHY CHOOSE SENCOR AUTOMATIC ESPRESSO MACHINE

- 19 bar pump pressure for top results
- First coffee in less than a minute
- Practical LED panel with touch buttons for easy use
- Practical functions for hot water, descaling and automatic self cleaning
- Removable parts dishwasherable
- Elegant compact design

Fully Automatic Espresso/Cappuccino Machine

SES 9020NP

Your own a SENCOR barista – compact, practical and easy to use. This fully automatic espresso machine will be the darling of your kitchen at home or in the office. At 180 mm, it is narrower than a regular A4 sheet of paper, so you won't have a hard time finding space for it. With its durable TRITAN milk container and patented brewing unit, not just a perfect espresso, but also cappuccino or latte is just one touch away. It is also outstandingly fast with the first drops of your espresso or other favourite coffee arriving just 42 seconds after you make your "order". And thanks to its compact size of just 180 mm in width, it will easily fit into your kitchen at home.

MAKE COFFEE JUST YOU LIKE IT

PUMP ESPRESSO MACHINES

Become a real barista in the comfort of your home. With SENCOR pump espresso you can prepare your coffee exactly the way you feel and like. Not only your skilful hands, but also a 20 bar pump pressure, an excessively fast preheating and a boiler with Thermoblock system join to conjure it up.

A single touch is enough to run Espresso, Double Espresso, Cappuccino, Latté and Frothed Milk program. As a real professional you will appreciate the cup warmer plate or the electronic controller with a sensor for a more accurate beverage temperature. One or two cups can fit under the stainless steel filter, and not necessarily the cups for one sip, there is enough room for extra-large mugs.

The removable 1.4 liter water tank features a water level indicator and its transparent milk container has a detachable frothing device for easy cleaning. And when it comes to the cleaning – SENCOR pump espresso has an automatic self-cleaning function and a descaling program so you don't have to worry about anything. Just comfortably enjoy your favorite coffee.

WHY CHOOSE SENCOR PUMP ESPRESSO MACHINE

- Powerful appliance with 20 bar pump pressure
- Innovative Thermoblock system
- Quality and durable materials for perfect results
- Very simple and safe to use
- Practical functions and accessories (preheating of even large cups, descaling, automatic self-cleaning)
- Elegant stylish design

Pump Espresso Machine

SES 4050SS/SES 4040BK

● SES 4050SS ● SES 4040BK

Thanks to the thermoblock-based advanced heating system, these pump espresso and cappuccino machines pre-heat and are ready for action really fast.

They also include the pre-brewing function which intensifies espresso flavour and are very easy to control with a one-touch choice of your favourite espresso-based coffee with or without milk. You only have to choose your preferred style and design.

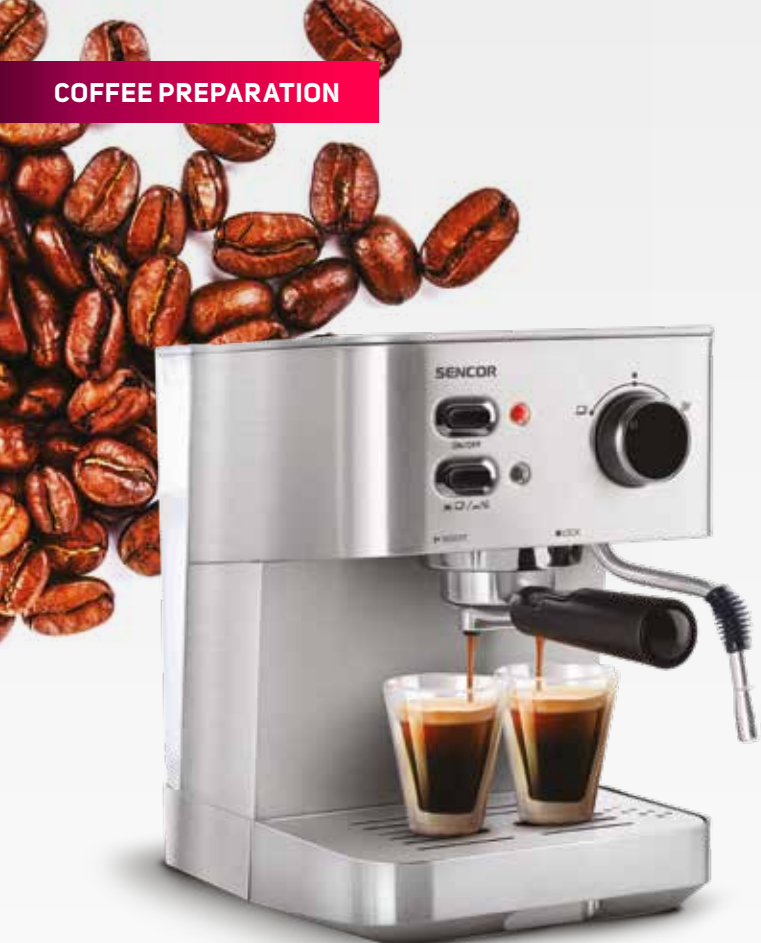

PROPERTIES

- **20 Bar Pump for Perfect Coffee**
- **Boiler Heating System with Thermoblock**
- **Excessively Fast Pre-heating**
- Pre-brewing System for Intensive Flavour
- One Touch Espresso, Double Espresso, Cappuccino, Latté, Frothed Milk Program

SES 4040BK

Pump Espresso Machine SES 4010SS

- Steam or hot water selection
- Metallic cup-warmer plate
- Removable 1.5 L water tank and drip tray
- ON/OFF switch with indicator light and water volume indicator
- Anti-slip feet for good stability

PRACTICAL WITH NO COMPROMISE

FILTER COFFEE MAKERS

Just imagine a morning this beautiful: being woken up by coffee aroma flowing directly into your bed... Reach out and pour yourself a proper cup for breakfast to start you up. Only filter or drip coffee can do this, and SENCOR coffeemakers can handle it perfectly.

Brewing up to 15 cups at once is a perfect fit for a 1.8 litre kettle. However, you do not have to drink it straight away, the non-stick hot-plate keeps the coffee in optimal serving temperature. Naturally, SENCOR coffee maker can prepare exactly as many cups as you wish with a help of a practical water level indicator. The LCD display supports intuitive operation and a drip-stop lock valve is an advantage too - it immediately stops beverage from dripping when the kettle is removed.

Not really a fan of coffee? No problem, SENCOR machines can brew tea too, using a removable washable permanent filter, or a paper filter size 4. So all you have to do is to figure out what to have with your coffee or tea for breakfast.

WHY CHOOSE SENCOR FILTER COFFEE MAKER

- Usefull appliance for up to 15 cups of coffee or tea
- Hot plate for temperature preservation
- Convenient LCD display with optional features
- Quality and safe materials
- Easy to use and clean
- Modern stylish design

Filter Coffee Maker

SCE 5070BK

There may be more than a dozen ways to make a coffee, but the traditional ground beans and filter approach is still the easiest and fastest way to make a strong coffee for the entire family or office, and keep it warm for another hour.

With this perfect coffee maker that has LCD display with functions you can brew up to 15 cups of delicious coffee or tea if you like. Ideal for households.

FRESH TASTE AND EXPERIENCE

COFFEE GRINDERS

Coffee aroma is known to quickly vanish once beans are ground, so nothing can beat fresh grinding. Having the coffee grinder is not a luxury, but an essential for all coffee lovers.

The best SENCOR electric coffee grinders feature steel grinding stones, providing fast and accurate grinding. Up to 17 different grind settings from fine to coarse ensure that coffee is always just right. Moreover, you can choose number of cups to have their coffee ground, the appliance will serve you and then turn itself off.

Thanks to the innovative design with planetary gear box driving, SENCOR coffee grinders have low noise operation. Transparent hopper holds up to 350 g of coffee beans. And what's more, some coffee grinders also cope with nuts, herbs or poppy seeds. The illuminated pushbutton ensures convenient operation and anti-slip feet an easy and stable grinding.

WHY CHOOSE SENCOR COFFEE GRINDER

- High-performance and quiet appliances
- Selection of different size models
- Up to 17 different grinding fineness settings
- High-quality steel grinding stones
- Ergonomic design with planetary gear box driving
- Easy to use and clean
- Practical safety features

Electric Burr Coffee Grinder

SCG 6050SS

Burr mills are the only proper way to grind coffee – the beans are crushed between two abrasive elements into a uniform grind that can usually be adjusted.

Another advantage is, that the beans are not heated as much as in blade grinders, thus preserving more aroma and protecting valuable oils. This model has a special cone-shaped steel burr head that ensures fast, precise grinding and no overwarming of the ground coffee. With 15 grind settings you can grind your coffee perfectly for espresso, filter or other brewing methods. Even tea lovers may use it.

PROPERTIES

- **Power input 150 W, 15 grind settings**
- **Cone-shaped steel burr head for fast and precise grinding with no overwarming**
- **Selector to automatically grind coffee for 2 to 10 cups**
- Hopper for up to 350 g of beans and a container for up to 150 g of ground coffee

Coffee Grinder

SCG 5050BK

This stylish black-and silver SENCOR model is equipped with a flat steel burr head and offers 17 levels of grind settings and can hold up to 180 g of coffee beans. There is also a rotating dial for automatically setting it to grind coffee for 2 to 12 cups.

PROPERTIES

- Power input 110 W, 17 grind settings
- Regulator to automatically grind coffee for 2 to 12 cups
- Hopper for up to 180 g of beans and container for up to 100 g of ground coffee
- Flat steel burr head for fast and precise grinding

Coffee Grinder

SCG 3050SS

With this coffee grinder equipped with hopper for up to 50 grams of coffee beans you can prepare 10 cups of coffee in one go. And it is not useful just for coffee beans it can perfectly suits grinding seeds, spices and walnuts or herbs.

PROPERTIES

- Power input 150 W
- Hopper for up to 50 grams of coffee beans (10 cups)
- Anti-slip feet for easy and stable grinding
- Power cord storage in the base

Coffee Grinder

SCG 2052WH

● SCG 2050RD ● SCG 2051BK ○ SCG 2052WH

This compact coffee grinder equipped with hopper for up to 60 grams of coffee beans which is enough for 12 cups of coffee in one go. The grinding consistency is even thanks to a special stainless steel chopping blade. You can also grind poppy seeds, spices and walnuts or herbs.

PROPERTIES

- **Power input 150 W**
- **Hopper for up to 60 grams of coffee beans (12 cups)**
- **Large safety button ensuring easy operation**
- Safety mechanism that prevents the coffee grinder from being started when not closed
- Anti-slip feet for easy and stable grinding
- Power cord storage in the case

Coffee Grinder

SCG 1050WH

● SCG 1050BK ○ SCG 1050WH

This coffee grinder is equipped with hopper for up to 50 grams of coffee beans which is enough for 10 cups of coffee. There is adjustable fineness of the ground coffee based on the grinding time. And it is not useful just for coffee beans it can perfectly suits grinding seeds, spices and walnuts or herbs.

PROPERTIES

- **Power input 150 W**
- **Large safety button ensuring easy operation**
- **Safety catch that prevents the coffee grinder from being started if not closed**
- Anti-slip feet for easy and stable grinding
- Power cord storage in the base

PERFECT VELVETY MILKY WAY

MILK FROTHERS

Do you like fluffy cappuccino, smooth latte or do you prefer strong macchiato? Then you cannot do without SENCOR milk frother and warmer. Three levels of automatic operation with combined light indication are able to froth both cold and warm milk, or just warm it up without frothing. Two types of easy to replace attachments are used to do so, using contactless magnetic attaching system inside the container.

SENCOR milk frother and milk heater is simply ideal for making most Italian style coffees. Moreover, the built-in thermostat guarantees the result temperature to be always optimal 68 ° C, just as a smooth milk froth should be. It also prevents milk from overheating. Non-stick coating makes cleaning much easier.

WHY CHOOSE SENCOR MILK FROTHER

- Different levels of automatic operation
- Quality manufacturing and non-adhesive materials
- Practical attachments with modern contactless magnetic system
- Easy to use with overheating safety features
- Thermostat for accurate temperature
- Stylish design

Milk Frother

SMF 4000 BK

This milk frother is suitable for preparing latté, capuccino, frappé or other beverages that include frothed or hot milk.

There are three full automatic operating modes, so you can choose exact speed that suits your taste. With thermostatically controlled final temperature of 68°C its easy and safe tool.

PROPERTIES

- **Power input 650 W**
- **Anti-slip handle**
- **Induction heating with patented technology for more efficient preparation**
- Inside are maximum milk level marks (150/300 ml)
- Heat insulated outer case
- Automatic transition to stand-by mode
- Overheating protection

If you like to have fun while preparing coffee, this milk frother is suitable for you. It is so easy with three full automatic operating modes, to find the right speed to prepare latte, cappuccino, frappe or other beverages that include frothed or hot milk.

And thermostatically controlled final temperature of 68°C makes it a safe tool.

PROPERTIES

- **Power input 450 W**
- **Anti-slip handle**
- **Heating base with a covered heating spiral**
- Inside are maximum milk level marks (100/200 ml).
- Heat insulated outer case
- Automatic transition to stand-by mode
- Overheating protection

RECIPE

GINGERBREAD COFFEE

Once you try this delicious coffee, it will become your regular pleasure. Its easy to make, takes 20 minutes to prepare and 10 to cook, and everybody will love it- guaranteed by SENCOR!

Ingredients:

½ cup molasses, ¼ teaspoon baking soda, ¼ cup brown sugar, 1 teaspoon ground ginger, ¾ teaspoon ground cinamon, 6 cups hot brewedcoffee from SENCOR espresso machine, 1 ½ cups sweetened whipped cream

Directions:

1. In a small bowl, mix together the molasses, brown sugar, baking soda, ginger and cinnamon until well blended. Cover and refrigerate for at least 10 minutes.

2. Add about a ¼ cup of coffee to each cup, then stir in about a tablespoon of the spice mixture until dissolved. Fill cup to within an inch of the top with coffee. Stir in half and half to taste, then garnish with whipped cream and a light dusting of cloves.

KETTLES

Quick, efficient, convenient and automatic – these are the typical benefits of most electric kettles, a kitchen appliance class introduced more than a century ago. Electric kettles became popular especially after the first fully automatic models were introduced in the late 1950s.

Today, many advanced kettles offer more than just bringing water to boiling point at the touch of a button. You can set a lower than boiling temperature, and some kettles will even maintain it - and there are even special types of kettles for brewing perfect tea. SENCOR offers a wide range of electric kettles – from large 2,5 litre models and those with advanced functions, such as operation indicated with a coloured light and variable temperature setting and maintaining to small 1 litre single button models. All SENCOR kettles use top quality safe materials like BPA-free plastic, heat-resistant borosilicate glass or German SCHOTT GLASS and high-quality stainless steel (SUS 304).

A close-up photograph of three glasses filled with a dark red liquid, likely hot water or tea. Each glass contains several cinnamon sticks, star anise, and slices of citrus fruit (lemon and orange). The glasses are set on a dark, textured surface, possibly a wooden table. The lighting is warm, highlighting the textures of the ingredients and the liquid.

HOT WATER QUICK AND EASY

ELECTRIC KETTLES

A commonplace no kitchen can miss. They are fast, practical, heating water without talking back. However, SENCOR smart kettles can do much more. Feel free to set the water temperature, making the preparation of different kinds of tea, but also baby milk, super easy. Some of them can even keep the temperature at your desired level until you arrive, up to two hours.

The temperature can be set between 60 ° C and 100 ° C, and once reached a sound will let you know. Removable and washable filter catches any dirt or scale. Tea lovers will appreciate a kettle with a removable basket for tea blends or herbs. The triple safety system ensures that the kettle switches off automatically when removed from the base or when boiling point is reached, and prevents overheating when accidentally turned on without water.

You can also choose both elegant design and material. SENCOR offers glass, metal, plastic or even porcelain kettles. Naturally, in the wide range of colours.

WHY CHOOSE SENCOR KETTLE

- Powerful and energy-saving appliances
- Stainless steel foldable lid with design patent
- Temperature setting and innovative keep warm function
- Modern design with touch control panel
- Easy to operate with triple safety system
- Easy to clean removable parts

Intelligent Water Kettle

SWK 1590SS

This stylish stainless kettle combined with top quality glass has variable temperature setting from 70 to 100 degrees Celsius. It's perfect for all types of hot beverages or while cooking, as it maintains a set temperature for up to 120 minutes. There is overheat protection when switched on without water, an automatic shutdown after removal from the base and automatic shutdown when boiling point is reached. Which makes it very safe also for hearing-impaired users.

PROPERTIES

- **1.5 l volume, 1500 W power input**
- **Intuitive control with two buttons – on/off and temperature setting**
- **Electronic temperature control with temperature setting 70-100°C**
- On/Off sound indication
- Power cord storage in the base, double sided scale of fullness
- Removable stainless steel tea strainer for ingredients and herbs
- Elegant stainless steel design
- High quality heat resistant borosilicate glass

CONTROLLER ENSURES
DURABILITY

Variable Temperature Kettle

SWK 1791WH

○ SWK 1791WH ● SWK 1792BK

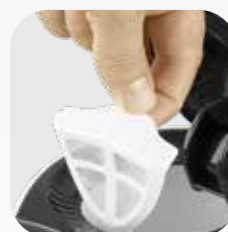

This SENCOR electric kettle always shows the water temperature to a degree (Celsius) with its built-in LCD, and it also displays the heating progress with a coloured light. You can also set one of the four temperature levels (50/60/70/85 °C) or choose boiling (100 °C) and, after reaching it, the kettle will play a sound and maintain the temperature for another 30 minutes.

What is even better, after reaching the boiling point, this kettle will show the actual water temperature for another 30 minutes – so if you come back after some time, you can immediately see if the water is still hot enough for your desired type of tea or other hot drink.

PROPERTIES

- **1,7 l volume, 2 400 W power input – very fast boiling**
- **Intuitive control with three buttons – on/off, temp setting, temp maintaining**
- **Water temperature setting and maintaining (30 minutes): 50-60-70-85 °C**
- Water temperature displayed to 1 °C with a built-in LCD and indicated with a coloured light
- Start of operation and reaching set temperature indicated with a sound
- BPA-free plastic parts, stainless steel lid
- Power cord storage in the base, double sided scale of fullness
- Button operated lid, removable and washable filter
- Central 360° connector Otter

Stainless Steel Kettle

SWK 1080SS

This is durable smaller volume kettle made from high quality borosilicate glass and stainless steel.

Useful is its removable stainless steel tea basket, perfect for tea and herbs or spices, very easy to clean. There is triple safety system, light indicator for impaired users and lid with safety lock mechanism.

PROPERTIES

- **Power input 2 200 W**
- **Volume 1 L**
- **Electronic adjustable temperature control (60-70-80-90-100°C)**
- Three operating modes
- Central 360° STRIX connector with triple safety system
- High quality borosilicate heatproof glass
- LED display inbuilt in stainless steel base shows actual temperature for easy control
- Double-sided water level mark
- Lid fitted with safety locking mechanism

Variable Temperature Kettle **SWK 1890SS**

With variable temperature setting from 60 to 100 degrees Celsius (in 10-degree increments) and the option to maintain a set temperature for up to 120 minutes.

This stylish electric kettle is perfect for all types of hot beverages or as a handy reservoir of hot water to use when cooking. The kettle announces when the set temperature is reached with a sound and also an indicator light, which is very practical for hearing impaired users.

PROPERTIES

- **1,8 l volume, 2 200 W power input**
- **Intuitive control with two buttons - on/off and temperature setting**
- **Water temperature setting and maintaining (120 minutes): 60-100 °C**
- Reaching the set temperature indicated with a sound and an indicator light
- Stainless steel and heat resistant glass body, BPA-free parts
- Power cord storage in the base, double sided scale of fullness
- Button operated lid, removable and washable dirt/scale filter
- Central 360° connector

Variable Temperature Kettle **SWK 1760BK**

● **SWK 1760BK** ○ **SWK 1761WH**

With its wide range of temperature settings (45-100 °C in 5 °C increments, with the option of maintaining the temperature for up to 240 minutes) and an LCD display for exact water temperature monitoring, this kettle will satisfy even the most demanding customers.

PROPERTIES

- **1,7 l volume, 2 400 W power input – very fast boiling**
- **Intuitive control with four buttons – on/off, temp setting + / -, temp maintaining**
- **Water temperature setting and maintaining (up to 240 minutes): 45-50-55-60-65-70-75-80-85-90-100 °C**
- Water temperature displayed to 1 °C with a built-in LCD and indicated with a coloured light
- Start of operation and reaching the set temperature indicated with a sound
- BPA-free plastic parts, stainless steel lid
- Power cord storage in the base, double sided scale of fullness
- Button operated lid, removable and washable filter
- Central 360° connector

Stainless Steel Kettle

SWK 2550SS

Premium quality stainless steel kettle with volume of 2,5 liter is useful for large family or for the office.

Dual safety ensures the protection against overheating when turned on without water and automatic shut-off when boiling point is reached. Led indicator also makes it safe for hearing-impaired users.

PROPERTIES

- **Volume 2,5 l, 3 000 W power input**
- **Very fast boiling**
- **Premium quality stainless steel (SUS304) for long durability**
- Lid easily opened by pressing a button
- Dual safety system protection against overheating when turned on without water and automatic switch off when reaching boiling point is reached
- Central 360° connector

Stainless Steel Kettle

SWK 1799SS

This durable kettle made from high quality stainless steel will serve you for a long time. It's useful for making all types of tea thanks to thermometer on front side, that shows current water temperature.

Great for family kitchen due to a dual safety system against overheating and automatic shut-off, and also safety lid fitted with locking mechanism.

PROPERTIES

- **Power input 2 200 W**
- **Volume 1,7 L**
- **Water temperature measurement by thermometer gauge**
- High quality stainless steel SUS 304
- Dual safety system
- Lid fitted with safety locking mechanism
- Dirt and lime scale filter

Glass Kettle

SWK 2080BK

Simple and practical: with a heatproof glass body you can easily see how the water boiling progresses, the internal led indicator is a practical and beautiful way of indicating the kettle is on (also useful for hearing-impaired users). The two litre volume makes this electric kettle ideal for larger families or small offices.

**PROPERTIES**

- **Volume 2,0 l, 2 200 W power input**
- **Dirt and limescale filter**
- **Double-sided water level mark**
- Power cord storage in the base
- Internal LED light
- Suitable also for hearing impaired users (indicator light for operation)
- Stainless steel heating base with a concealed heating spiral
- Lid easily opened by pressing a button
- Dual safety system

Glass Kettle

SWK 1785BK

This practical electric kettle is made of the BPA free plastic and resistible glass, so its comfortable and safe for use.

Dual safety ensures the protection against overheating when turned on without water and automatic shut-off when boiling point is reached. Led indicator also makes it safe for hearing-impaired users.

PROPERTIES

- **Volume 1,7 l, 2 200 W power input**
- **Dirt and limescale filter**
- **Double-sided water level mark**
- Power cord storage in the base
- Internal LED light
- Suitable also for hearing impaired users (indicator light for operation)
- Stainless steel heating base with a covered heating spiral
- Lid easily opened by pressing a button
- Dual safety system

Modern, BPA-free plastic is attractive not only thanks to its affordability and wide range of bright colours, but also because it conducts (and removes) less heat – and thus improves the efficiency of an electric kettle. It is also ideal for large volume kettles above 2 litres – perfect for big families or an office environment.

Plastic Kettle

SWK 2510WH

○ SWK 2510WH ● SWK 2511BK

There are situations when size does matter. This SENCOR electric kettle offers 2,5 litre volume, which translates into 10 large mugs of tea – perfect for a large family breakfast or an office environment. The no-nonsense simple and practical design uses a BPA-free plastic body and a stainless-steel heating base with a covered heating element.

PROPERTIES

COOKING

Even a pot can be highly intelligent. Don't you believe? Try those by SENCOR. They are perfectly multifunctional. Cooking infinitely slowly, even for 12 hours, to prepare an ideal broth, and frying brightly without fat to flood you with hundreds of healthy fries in a few minutes. They prepare rice in many ways better than the best Asian chef can do, but they also bake, steam, or quickly cook in high pressure. Their lids release the finest delicacies you can think of. So entrust them and let your cooking change instantly.

SIMPLE AND HEALTHY COOKING

PRESSURE COOKERS

Tender meat, which just melts on your tongue, plus a lot of thick sauce so rich in taste – only a pressure cooker can do so. Moreover, the latest cookers by SENCOR do much more than pressure steaming. They are truly multifunctional: bake or roast like the best oven and also cook like an electric or gas stove, while being 50 percent faster, more efficient, and using less energy. At the same time, SENCOR pressure cookers are able to feed a large family even with all the distant relatives. No wonder, the inner bowl takes food for seven people.

Thanks to its pre-set programs, the appliance cooks, fries, stews, bakes, roasts, cooks both in pressure and steam, all with a minimum amount of water or oil needed. It even sets the temperature and cooking time for you, and its control LED display is intuitive and clear. You do not have to stand by the pot at all, it can prepare everything without any help of yours. With the postponed start function you set up everything you need and once back from work, you will be greeted with a freshly baked cake. Lovers of slow roasting will be pleased too; the multifunctional pressure cooker SENCOR can handle that too.

WHY CHOOSE SENCOR PRESSURE COOKER

- Very long life and economical operation
- Innovative quality materials
- Fully automatic
- Customizable programs and modes for multi-use
- High volume
- Easy to use and dishwasher safe
- Rich in accessories

SLOW COOKERS

Meals full of rich taste, yet made with no big effort - that is slow cooking, today's modern trend, preserving all the necessary vitamins, juices and minerals in the food. SENCOR slow cookers suit the trend perfectly, as they prepare healthy food without using unnecessary fats or flavourings. With a 6-liter cooking pot, they feed up to seven diners, all you have to do is cut the ingredients, put them in a pot and press one of the settings on a clear digital controller. The appliance can for example cook meat for 14 hours until an absolutely perfect broth is ready. And 8 hours are enough for an amazing sauce.

Moreover, SENCOR slow cooker is multifunctional, cooking diet meals in steam, roasting, and thanks to five frying pre-sets even preparing the most amazing schnitzels and fries far and wide. And if that is not enough, think of a homemade yogurt it makes. The slow cooker works overnight, while you are at your job or on a trip. However, it always welcomes you with the aroma of an amazing, freshly prepared meal.

WHY CHOOSE SENCOR SLOW COOKER

- Powerful and fully automatic operation
- Quality non-stick PFOA-free coating with ideal heat transfer
- Perfect for healthy cooking
- Easy digital control
- Choice of preset functions, yoghurt making included
- Practical design and large volume

Slow Cooker

- Cook 2-8 hours, Steam 5-120 mins, Yoghurt 6-12 hours)
- 3mm thick aluminium wall
- Digital LED Control display for the most comfortable cooking

RECIPE

BARBECUE PULLED PORK RECIPE

Barbecue pulled pork recipe made in a slow cooker is perfect for weeknight meals. Serve on sandwich rolls with a side of Summertime Slaw.

INGREDIENTS FOR 8 SERVINGS

3 pounds fresh pork shoulder, well trimmed
 3 tablespoons Barbecue Seasoning
 1/2 cup Tomato Ketchup
 1/2 cup cider vinegar
 1/4 cup firmly packed brown sugar
 2 teaspoons Worcestershire Sauce
 1 teaspoon ground mustard

Place pork in cooker. Mix barbecue seasoning, ketchup, vinegar, brown sugar, Worcestershire sauce and ground mustard until blended. Pour over pork. Cover. Cook 8 hours on LOW or 4 hours on HIGH. Remove pork from slow cooker. Shred pork, using 2 forks. Return pork to slow cooker, mix and heat with sauce before serving. Serve on sandwich rolls topped with slaw and any remaining sauce, if desired.

PERFECT RICE, SIMPLE AND EASY

RICE COOKERS

It is not easy to cook rice as needed. Sometimes we want it to be loose, while another recipe requires it to be sticky... But you don't have to be a sworn lover of Asian cuisine to appreciate SENCOR rice cookers.

Thanks to 11 different functions, these special cookers can prepare all kinds of rice, even the sushi type. Just select the function on the digital display, nothing else. There is no need to look after it at all, the operation is fully automatic. Once finished, they turn themselves off and even manage to keep the finished rice warm for up to 6 hours, let's say before you get back from a trip. They have a volume of 1.8 litres, which means that they can cook up to 1.5 kilograms of rice at once and that is really a decent portion to eat. You do not have to worry about the water boiling away, the appliances have a special protection feature, as well as overheating prevention. Moreover, the unique steam release valve prevents the pot from any leakage while cooking.

If you still think that SENCOR rice cooker cannot do much, there is more for you to see. Thanks to its Oatmeal function it can prepare porridge, just as thick as you wish. It can also process legumes, cooking them until perfectly tender. The slow cooking function conjures strong broths or sauces up and can also re-heat dishes. Not just a few tasks done, do you agree?

WHY CHOOSE SENCOR RICE COOKER

- Powerful and energy-saving device
- Quality functional materials for better results
- Automatic operation to save time
- Various adjustable modes and programs for rice and other dishes
- Digital display for easy operation
- Practical functions and safety features
- Easy to clean and timeless design

Rice Cooker

SRM 3150SS

More than just a rice cooker: with 11 special cooking functions, a digital display and 24-hour timer, this is not a regular rice cooker.

But that by no means suggests it would be less capable of preparing perfect steamed rice: it has all the important functions and features, such as equal heat distribution technology, a special aluminium pot with quality non-stick surface, and automatic operation and shut-off which switches the cooker to „keep warm“ mode for up to 6 hours.

PROPERTIES

- **1,5 l volume (1 300 g of rice), 700 W power input**
- **Equal heat distribution technology for perfect results**
- **Stainless steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: steaming basket, spoon, ladle, measuring cup
- For steam cooking of all types of rice, including sushi rice
- Fully automated operation, keep warm function (up to 6 hours)
- 11 special cooking functions, 24-hour timer
- Triple safety system (overheating, water boiling away, auto off)
- Lid with steam escape valve

Rice Cooker

SRM 1891RD

● SRM 1890SS ● SRM 1891RD

With its 1,8 litre volume, you can easily prepare up to 1,5 kg of any type of rice, including sushi rice. Fully automated rice steaming is much easier thanks to a special steam release valve, which prevents the pot from overflowing.

The top lid is hinged and has a round glass window for better control and monitoring of the steaming or cooking process. The automatic shut off switches the cooker to „keep warm“ mode for up to 6 hours. The practical steaming basket is great for healthy steaming of vegetables or Asian dumplings – it can even be done together with rice, to save energy.

**PROPERTIES**

- **1,8 l volume (1 500 g of rice), 700 W power input**
- **Equal heat distribution technology for perfect results**
- **Stainless steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: steaming basket, spoon, spatula, measuring cup
- For steam cooking of all types of rice, including sushi rice
- Fully automated operation, keep warm function (up to 6 hours)
- Triple safety system (overheating, water boiling away, auto off)
- Easy to clean
- Glass lid with steam escape valve

Rice Cooker

SRM 2800SS

This SENCOR rice cooker in a stainless steel outer finish is the perfect match for you. With its 2,8 l volume, you can prepare up to 2,3 kg of rice at once – all in a hassle free and fully automated way, which is amount enough for feeding a big family or hosting a large sushi party.

The simple glass lid is very practical as it lets you see all the contents and, together with the quality aluminium pot with its non-stick coating, makes cleaning a snap.

PROPERTIES

- **2,8 l volume (2 300 g of rice), 1000 W power input**
- **Equal heat distribution technology for perfect results**
- **Stainless steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: spatulas for rice, measuring cup
- For steam cooking of all types of rice, including sushi rice
- Fully automated operation, keep warm function (up to 6 hours)
- Triple safety system (overheating, water boiling away, auto off)
- Easy to clean
- Glass lid with steam escape valve

Rice Cooker

SRM 1550SS

For mid-size families is this version of SENCOR rice cooker working on steam cooking principle just perfect. With the volume of 1,5 l it cooks up to 1 300g of rice, including sushi rice.

This is such simple way to prepare perfect rice, especially when the operation is fully automated. As by the other models there is a glass lid through which you can control the inside. High quality aluminium with non-stick coating used for the pot and a stainless steel outer finish, both easy for cleaning.

PROPERTIES

- **1,5 l volume (1 300 g of rice), 500 W power input**
- **Special steam cooking principle**
- **Stainless steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: spatulas for rice, measuring cup
- For steam cooking of all types of rice, including sushi rice
- Fully automated operation, keep warm function (up to 6 hours)
- Automatic shut-off, anti-slip feet
- Easy to clean
- Glass lid with steam escape valve

Rice Cooker

SRM 1000SS

This version of SENCOR rice cooker also works on steam cooking principle and is perfect for standard families. With the volume of 1 l it cooks up to 800g of rice, including sushi rice, and the operation is fully automated.

Also very practical is the simple glass lid through you simply see all the contents. Used materials are high quality aluminium pot with its non-stick coating and a stainless steel outer finish, both easy for cleaning.

PROPERTIES

- **1 l volume (800 g of rice), 400 W power input**
- **Special steam cooking principle**
- **Stainless steel outer body, aluminium cooking pot with non-stick surface**
- Included accessories: spatulas for rice, measuring cup
- For steam cooking of all types of rice, including sushi rice
- Fully automated operation, keep warm function (up to 6 hours)
- Automatic shut-off, anti-slip feet
- Easy to clean
- Glass lid with steam escape valve

CRISPY AND **LIGHT**, FRYING WITH **AIR**

VITA **FRYERS**

Do you like fried meals? French fries, schnitzels, chicken wings, but also donuts? Feel free to enjoy them every day! SENCOR vita deep fryers fry without unnecessary fat, and therefore all the delicacies are healthy enough for a nutritional specialist to take his hat off in front of them.

Thanks to 12 pre-set programs and various attachments, the deep fryer can handle whole chicken, pizza, steak, hamburger, cake and many other delicacies. All programs are clearly visible on a digital display, there is no need to search for anything, just simple few clicks make the oven work. Moreover, with its volume of 11 litres there are always enough fries to feed the entire family and still have some left for your neighbours.

And how does it work? Inside the deep fryer there is a special system, which circulates hot air evenly, frying the ingredients from all sides with no additional fat required. If necessary, it even mixes the food itself during cooking. Unlike conventional fryers filled up with litres of oil, no odour escapes thanks to the efficient filters.

WHY CHOOSE SENCOR VITA FRYER

- Highly efficient and fast operation
- Innovative solutions for healthy diet
- Special nanoceramic filter for odour control
- Many optional programs and functions
- Touch control LED display for easy operation
- Large volume and practical design for every kitchen

Multifunction Vita Fryer

SFR 5400WH

Food cooked with this vita fryer without the use of excess oil is ideal healthier alternative for all the fried food lovers.

It's easy to operate and clean, and is ready for frying in 3 minutes. The enhanced unique air circulation system ensures consistent heating of every piece of food. Vita fryers will always have that perfect crunch on the outside while remaining soft on the inside.

You can choose from 12 optional programmes: Pre-Fried Fries, Fish / Seafood, Hamburgers, Pizza, Steak, Frozen Chicken Drumstick, Home Made French Fries, Chicken, Cake, Cookies.

PROPERTIES

- **Volume of 11 l and power input 1800 W**
- **12 optimal cooking programs**
- **Double heating elements design for high efficiency**
- LED display, touch sensitive control panel
- Special air circulation and oil free frying system
- Temperature setting range 60 - 200°C

- Air filter to reduce odours
- Rapid heating in 3 minutes
- Time switch for 60 minutes with sound alarm
- Cool Touch Housing system – surface is cool to the touch
- Safety lock prevents accidental basket removal
- Automatic shutdown
- Detachable power cord

Vita Fryer

SFR 3220WH

This fryer is perfect for small family and offers standard and comfortable easy operation and cleaning.

PROPERTIES

- **1500 W power input**
- **2.6 l frying basket volume**
- **Oil-free frying system**
- Temperature setting range 80 - 200 °C
- Air filter to reduce odours
- Rapid heating in 3 minutes
- Time switch for 30 minutes with sound alarm
- Cool Touch Housing system – surface is cool to the touch
- Safety lock prevents accidental basket removal
- Automatic shutdown

CRISPY AND CROUNCHY EVERY MORNING

ELECTRIC TOASTERS

Crunchy toasts and crispy rolls – we could hardly imagine our breakfast without them. Whether we spread butter, jam and honey on, or have cheese or ham with them, everything suddenly tastes better. Top-class SENCOR toasters are simply the indispensable helpers.

They crispy-toast up to four pieces at once, while 9 toasting intensity levels can be set on the electronic timer. The appliance holds both thin and thick slices to warm up evenly and eject automatically when finished. And if a broken bit happens to be left inside, you can easily eject it too and avoid burning it.

Is your bread in the freezer right now? Never mind, SENCOR toaster can defrost it, using its light indicator to show when ready to eat. It also warms up a cooled toast and not just a toast: thanks to handy attachments the toaster can do with crispy bread, rolls or croissants.

SENCOR toasters are available in various colours, you can choose not only the fashionable stainless steel design, but also other various colours to perfectly match with your kitchen.

WHY CHOOSE SENCOR ELECTRIC TOASTER

- Great performance thanks to quality and functional material
- Choice of various functions and toasting intensity
- Easy to operate and clean
- Wide use in every kitchen
- Safety features

Toaster

STS 6051GR

| ● STS 6056GD | ● STS 6057CH | ● STS 6058BK |

Any metallic colour you like. The latest SENCOR line of toasters is available either in traditional stainless steel (STS 5050SS) or nine metallic colours (STS 6050GG-6058BK) to mix or match with the colours of your other kitchen appliances, or kitchen itself.

With an easy electronic timer control and three buttons for toasting, defrosting and manual control (stop), it has all it takes for a perfect breakfast every day.

PROPERTIES

- **Power input 1000 W**
- **Nine metallic colours**
- **Electronic timer for 9 intensity levels**
 - Automatic ejection and shut-off
 - Auto-centring for thinner and thicker slices
 - Toaster rack for warming and crisping buns or croissants
 - Three in one function: defrosting, reheating manual control (cancel)
 - High lift for easy removal of smaller slices
 - Easy to clean crumb tray by one touch

Toaster

STS 2652RD

● STS2651SS ● STS 2652RD

Modern design stylish stainless steel toaster that can make two crunchy thick or thin toasts. Suitable for frozen bread or pastry reheating.

**PROPERTIES**

- **Power input 850 W**
- **2 toasting slots for making up to two toasts simultaneously**
- **Stainless steel finish**
- Automatic centering function for even heating of thick and thin toasts
- Electronic timer - 7 browning levels
- Buttons for immediate interruption of operation, reheating and frozen bread
- Slide-out crumb tray

Toaster

STS 5070SS

Who would choose to wait. Even in a household of two, making the morning toast means running the toaster at least twice for four slices of bread. And in a larger family, toasting bread for 4, 5, 6 or more people becomes an ordeal.

So why not go for a 4-slotted toaster with double capacity? It has all the cool features of smaller models, like an easy to set electronic timer with 9 intensity levels and automatic centring function to handle either thin or thick slices, and a toaster rack for warming or crisping buns – actually, it has two toaster racks.

PROPERTIES

- **Power input 1600 W**
- **Electronic timer for 9 intensity levels**
- **Automatic ejection and shut-off**
- Auto-centring for thinner and thicker slices
- Toaster rack for warming and crisping buns or croissants
- Three in one function: defrosting, reheating, manual control (cancel)
- High lift for easy removal of smaller slices
- Easy to clean crumb tray

Toaster

STS 3050BK

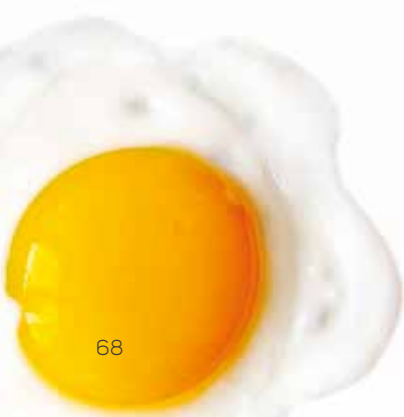

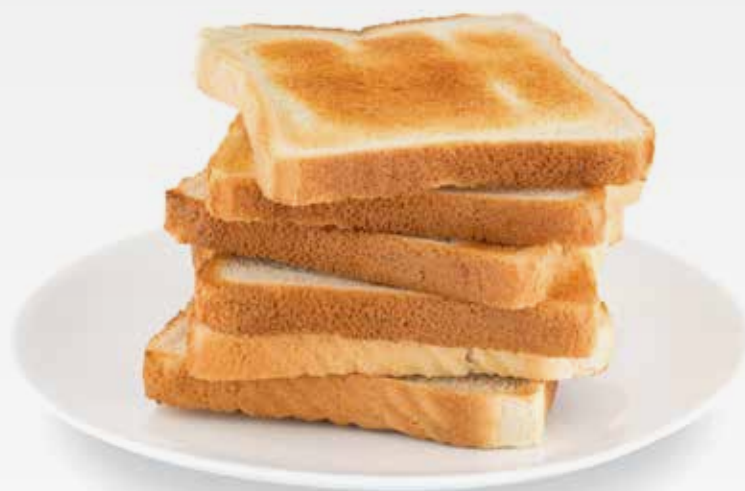

○ STS 3051WH ● STS 3050BK

This elegant long thin toaster is perfect for making one bigger piece of bread or two classic size toasts, into nice crunchy snack.

There is also automatic centring function for toasting equally on both sides thin or thick pieces. You will certainly have a challenge to choose from classic black or simply white color as both are very classy.

PROPERTIES

- **Power input 850 - 1000 W**
- **One long opening for toasting a whole slice of bread or two toasts**
- **Stainless steel finish**
- Automatic centering function for even heating of thick and thin toasts
- Electronic timer - 7 toasting levels
- Buttons with indicator light for immediate interruption of operation, reheating and frozen bread
- High lift function for easy removal of smaller bread pieces

SAVE ENERGY AND TIME

INDUCTION COOKTOPS

The progress is relentless and changes the way food is prepared too. At the same time, the induction cooking definitely dominates. Its advantages include higher heat transfer efficiency, very fast heating, its evenness and better control. Induction cooking is absolutely ideal as it does not emit any heat itself at all, which you will appreciate not only in hot summer.

SENCOR induction cooktops are the top class, proud of their cool-to-touch glass-ceramic hob plate and minimal heat loss. Compared to common appliances, they save half energy and significantly reduce the cooking time.

Their two independent induction cooking zones can take a pot up to 19 centimetres in diameter. A large, clear and readable LCD display is a plus too, offering the option of 20°C-step temperature regulation in the range of 60 °C to 240 °C, and a timer to activate the delayed shut-off.

WHY CHOOSE

SENCOR INDUCTION COOKTOP

- Long-life high-quality glass ceramic hob plate
- Extremely economical operation and minimal heat loss
- Very fast heating and time saving
- Large LCD display for easy operation
- Many pre-set heating levels
- Individual temperature control
- Timeless design

Induction Cooktop

SCP 5404GY

This dual zone induction cooktop is made of cool-to-touch glass ceramic induction hotplate with minimum heat loss as heat goes directly in the cookware and the efficiency is over 90%. There is huge saving on time 60% and on power 50%. Operation is very safe and easy.

PROPERTIES

- **Power input 2 900 W (200-1300 W for small zone and 200-1600 W large zone)**
- **Special glass surface for easy and hygienic cleaning**
- **Microprocessor control of all processes**
- 10 preset heating levels
- Two independent induction cooking zones (diameter 14,5 and 16,7 cm)
- Automatic cookware detection for induction cooking
- Large legible LCD display
- Temperature control in the range 60 - 240 °C in 20 °C steps
- Timer for activation of a delayed shut off in the range 1 - 180 minutes adjustable in 1-minute steps
- Touch sensor control panels
- Suitable cookware diameter is 12 -19 cm

Induction Cooktop

SCP 5303GY

Another dual zone induction cooktop is made of cool-to-touch glass ceramic induction hotplate with minimum heat loss as heat goes directly in the cookware and the efficiency is over 90%. There is huge saving on time 60% and on power 50%. Operation is very safe and easy.

**PROPERTIES**

- **Power input 2 900 W (200-1300 W for small zone and 200-1600 W large zone)**
- **Special glass surface for easy and hygienic cleaning**
- **Microprocessor control of all processes**
- Two independent induction cooking zones (diameter 14,5 and 16,7 cm)
- Automatic cookware detection for induction cooking
- Large legible LCD display
- Temperature control in the range 60 - 240 °C in 20 °C steps
- 10 preset heating levels
- Timer for activation of a delayed shut off in the range 1 - 180 minutes
- Touch sensor control panels
- Suitable cookware diameter is 12 -19 cm

Induction Cooktop

SCP 4202GY

Another dual zone induction cooktop is made of cool-to-touch glass ceramic induction hotplate with minimum heat loss as heat goes directly in the cookware and the efficiency is over 90%. There is huge saving on time 60% and on power 50%. Operation is very safe and easy.

PROPERTIES

- **Power input 2 900 W (200-1300 W for small zone and 200-1600 W large zone)**
- **Cool-to-touch glass ceramic induction hotplate (induction creates heat directly in the cookware)**
- **Special glass surface for easy and hygienic cleaning**
- Microprocessor control of all processes
- Two independent induction cooking zones (diameter 14,5 and 16,7 cm)
- Automatic cookware detection for induction cooking
- Large legible LCD display
- Temperature control in the range 60 - 240 °C in 20 °C steps
- 10 preset heating levels
- Timer for activation of a delayed shut off in the range 1 - 180 minutes
- Suitable cookware diameter is 12 -19 cm

Induction Cooktop

SCP 3201GY

Another single induction cooking zone cooktop is made of cool-to-touch glass ceramic induction hotplate with minimum heat loss as heat goes directly in the cookware and the efficiency is over 90%. There is huge saving on time 60% and on power 50%. Operation is very safe and easy.

PROPERTIES

- **Power input 1800 W**
- **Cool-to-touch glass ceramic induction hotplate (induction creates heat directly in the cookware)**
- **Special glass surface for easy and hygienic cleaning**
- Microprocessor control of all processes
- Single induction cooking zone (diameter 16,7 cm)
- Automatic cookware detection for induction cooking
- Large legible LCD display
- Temperature control in the range 60 - 240 °C in 20 °C steps
- 10 preset heating levels in the range 200 - 1800 W
- Timer for activation of a delayed shut off in the range 1 - 180 minutes adjustable in 1-minute steps
- Suitable cookware diameter is 12 -19 cm

GRILLS

Fond of a summer barbecue? So why couldn't you indulge yourself during the cold autumn or frosty winter time? Just move inside and prepare your favourite steaks, chicken wings or spicy cheese in the comfort of your home. SENCOR grills and sandwich makers will help you to do so. Grill plates are non-stick, so you can conveniently wash them in the dishwasher. Contact grills adapt to every dish, they can cope even with a pound steak, while the sandwich makers conjure a sandwich or a waffle up. So go ahead!

GRILLS

All year round grilling, so healthy without unnecessary extra fat, that is something only home contact grills can do. It has been a long time since the food got burnt on them and it took more time to clean the plate than the cooking itself.

Today's modern grills have the 3rd generation non-stick plates and intuitive digital controls to help you prepare your A-grade delicacies. Naturally, they feature programs for various cooking styles, heating and defrosting. You can set the grill plates to fit the different thicknesses of ingredients today, prepare a pound steak as well as corn. Moreover, thanks to the bottom grooved plate, you can enjoy creating various patterns on your steak or sandwich to give your dish a hallmark of originality.

Are you worried about the health aspects of grilling? Forget it. Modern electric grills are recommended by nine out of ten nutrition specialists. Thanks to the brilliant non-stick surface no oil is needed, plus an automatic temperature regulator prevents the food from burning. Meat and vegetables and other delicacies are perfectly grilled, while retaining their flavour and all the important vitamins. Also cleaning is easy. Often a paper towel wipe is enough, but if you insist on absolute cleanliness, simply take the grill plates out and wash them in the dishwasher. Grilling has never been this easy.

WHY CHOOSE SENCOR GRILL

- High quality 3rd generation non-stick plates
- Integrated heating coil for better performance and even grilling
- Ideal for healthy grilling
- Easy digital control
- Choice of several different programs
- Exclusive glass design

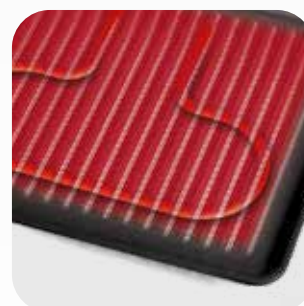

Multi-purpose Contact Grill

SBG 6650BK

Thanks to the third generation of non-stick grill plates, dishwasher safe with integrated heating spirals, this SENCOR contact grill excels at both maintenance with easy cleaning and perfect grilling – even without added oil. This is also helped by the precise automated temperature control with an LCD display showing the set temperature, heating-up and timer.

With three operating positions (closed, open 90° and flat-open), you can use it either as a contact or flat table top grill. With two types of grill plates, ridged (bottom) and smooth (top), you can easily grill meat or vegetables to your liking or press sandwiches and baguettes.

The timeless combination of stainless steel and glass give this contact grill a stylish appearance that will look gorgeous on your kitchen counter (of course you can easily stow it away).

PROPERTIES

- **Non-stick grill plates (3rd gen.) with integrated heating spiral**
- **Large dimensions of grilling plates 30x25 cm**
- **Automatic temperature control with LCD, heating indicator and timer**
- Parallelogram mechanism for even pressure distribution
- Easy to clean, dishwasher safe plates, removable oil drip tray and grill plates
- 3 operating positions (closed / open 90° / open 180°)
- Insulated handle, anti-slip feet, lid lock
- 2 000 W power input, power cord storage
- Ridged (ideal for steaks) and flat (for smaller vegetables, burgers or seafood) grilling surface

Intelligent Contact Grill

SBG 6031SS

Looking for a contact grill that will help you get perfect results (virtually) every time? Search no more, as the SENCOR intelligent contact grill does just that. It offers seven intelligent programs (plus manual) for frozen foods, bacon, chicken, sausage, steak, fish and burger.

With its thickness sensor, it will even show in the built-in display the doneness of grilled food – so you no longer need to search or experiment to get that medium rare steak or burger.

The grill even takes care of temperature control – you only have to put the food on the plate and crave it when it is done to your liking.

**PROPERTIES**

- **Non-stick grill plates (2nd gen.) with integrated heating spirals**
- **Large dimensions of grilling plates 31x25 cm**
- **7 intelligent programs with thickness and temperature sensor plus manual**
- Easy to clean, dishwasher safe plates, removable oil drip tray
- 3 operating positions (closed / open 90° / open 180°)
- Heat insulated handle (sandwich pressing), anti-slip feet
- 2 100 W power input, power cord storage
- Cool Touch surface

Multi-purpose Contact Grill

SBG 5030BK

Like the SBG 6650BK, this SENCOR multi-purpose contact grill also offers third generation plates with integrated heating spirals and non-stick surface that allow grilling without added oil.

Solid construction of glass, aluminium and quality durable plastic, as well as its 7 kg weight, ensure this grill stands rock still and provides enough grilling space even for a large family dinner or small home party.

PLATES WITH INTEGRATED HEATING SPIRAL
with for perfect temperature control and fast grilling.

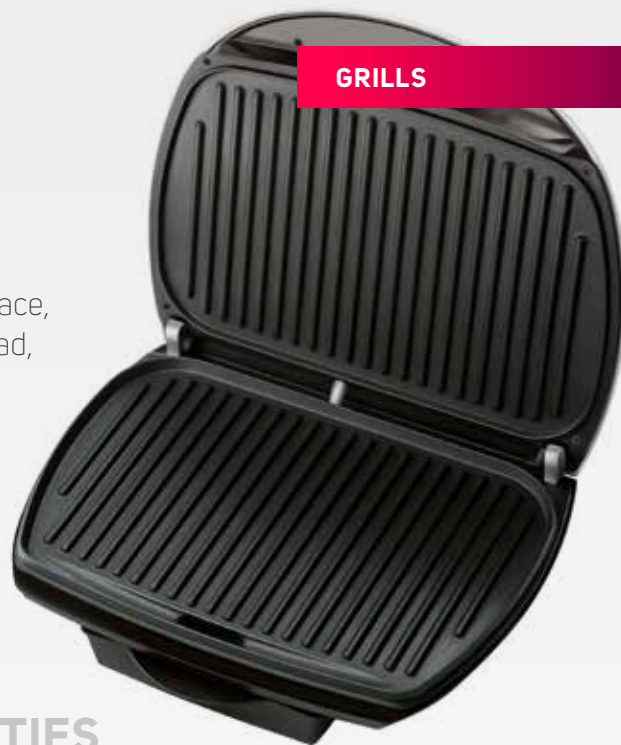

Panini Grill

SBG 3701SL

With this SENCOR panini grill, with the extra big grilling surface, you can easily prepare tasty snack like stuffed panini or bread, grilled vegetables or even a meat for proper family dish.

And all food can meet the healthy requirements as you don't need to add oil. The grill is from high quality non-stick surface, easy to clean and very light so suitable for travelling as well.

**PROPERTIES**

- **Suitable for grilling meat, paninis, vegetables, etc.**
- **Light and very portable**
- **Meets healthy grilling requirements**
- Automatic temperature control with light (100° - 220°)
- Parallelogram mechanism (also downward pressure), heat insulated handle, anti-slip feet
- 1750 W power input, power cord storage

Tabletop Electric Grill

SBG 106BK

This tabletop grill is a perfect indoor and outdoor party and feast beast. You can use it to grill vegetables, seafood, sausages or steaks for your guests or place it right in the middle of your dining or garden table and arrange for self-service grilling by each diner.

**PROPERTIES**

- **Perfect for indoor**
- **Light and portable, with large non-stick surface 47x31 cm**
- **Two grilling surfaces – flat and ridged for all types of food**
- Heat insulated handles, anti-slip feet and overheating protection
- Variable temperature control (100 - 220 °C) and keep warm (60 °C)
- Easy cleaning with paper towel or damp cloth

ONE MACHINE UNEXPECTED POSSIBILITIES

SANDWICH MAKERS

Throwing a piece of meat on a grill, preparing a toast or panini and ending up with a sweet waffle? Nothing is impossible. Moreover, where at least three appliances used to be needed, a single one can handle all the tasks now. The magic is in the exchangeable plates with differently shaped surfaces.

The modern sandwich maker is truly versatile and thanks to its variability it saves not only money but also time. It makes sandwiches briskly and without burning. The appliance itself knows when the snack is ready to serve, so you'll never be wrong. Thanks to the non-stick surface it is also easy to clean, and the use is so simple that even an absolute beginner cook can handle it. In short, bang for the buck.

So what are you having for a snack today?

WHY CHOOSE SENCOR SANDWICH MAKER

- High-performance and energy-saving device
- High-quality materials and non-stick surface
- Very easy to operate and clean
- Various options to use with exchangeable baking plates
- Automatic temperature control and safe operation
- Modern design for every kitchen

Sandwich Maker

SSM 8700

Sandwiches are perfect for breakfast, snack or even dinner.

Especially if you are busy and have no time for shopping and cooking, as there is always something at home you can use and prepare tasty sandwiches. This sandwich maker is perfect for its non-sticking baking surface treatment, which means easy cleaning. Also can make 8 triangle sandwiches so its quick to feed even bigger family.

PROPERTIES

- **Power input 1100 W**
- **Prepare 8 triangle sandwiches**
- **Non-stick baking surface, easy to clean**
- Automatic temperature control
- Heat insulated handle and body
- Power indicator – red indicator light
- Ready to bake indicator – green indicator light
- Option to store in a vertical position
- Anti-slip feet
- Safety thermal fuse
- Length of the power cord 75 cm

Sandwich Maker

SSM 9400SS

● SSM 9400SS ● SSM 9404RD

This sandwich maker has a non-stick baking surface treatment for easy operation and easy cleaning. You can prepare sandwiches or waffles and even grill meat!

**PROPERTIES**

- **Power input 700 W**
- **Non-stick baking surface, easy to clean**
- **Prepare 4 triangle sandwiches, grill meat or bake waffles**
- 3 exchangeable baking plates
- Automatic temperature control
- Heat insulated handle and body
- Power indicator – red indicator light
- Ready to bake indicator – green indicator light
- Option to store in a vertical position
- Safety thermal fuse
- Length of the power cord 85 cm

Sandwich Maker

SSM 9300

This sandwich maker has a non-stick baking surface treatment for easy operation and easy cleaning. You can prepare sandwiches or waffles and even grill meat!

PROPERTIES

- **Power input 700 W**
- **Prepares 4 triangular sandwiches, grilled meat or waffles**
- **Non-stick baking surface, easy to clean**
- Automatic temperature control
- 3 removable plates (for tasty sandwiches, grilling, waffle)
- Heat insulated body and handle
- Power indicator (ready for baking) – green light
- Vertical storage option
- Safety fuse

● SSM 4220SS ● SSM 4221RD

This stainless steel design sandwich maker has a non-stick baking surface treatment for easy operation and easy cleaning. You can prepare two square-shaped sandwiches with different filling, sweet variety or egg omelets!

**PROPERTIES**

- **Power input 700 W**
- **Stainless steel design**
- **Prepare 2 square-shaped sandwiches**
- Non-stick baking surface, easy to clean
- Heat insulated handle and body
- Power indicator – red indicator light
- Ready to bake indicator – green indicator light
- Option to store in a vertical position
- Anti-slip feet
- Safety thermal fuse
- Length of the power cord 85 cm

OVENS

It's been a long time since you had to load your stove with wood and heat it up thoroughly to make a plate of buns. And all that stoking! However, everything is automatic nowadays. SENCOR smart ovens fit your baking preferences perfectly. All you have to do is select your choice on the display. And then they bake, heat, grill, and defrost as vigorously as it gets. It is only up to you what procedure you choose. The oven takes care of everything else.

HEAT, **COOK** OR **BAKE** SIMPLY

MICROWAVE OVENS

When do you get your first microwave oven? When you don't have time to stand by a stove. When you need to have your food ready as quickly as possible. Fortunately, there is so much to choose nowadays!

Modern SENCOR microwave ovens provide not only heating, they can also grill, defrost, cook, and bake. There are a lot of programs for you to select on a digital panel. Just press one and the oven does the work for you. On top of that, programs get simplified and even without a manual you intuitively click through to what you need. Sophisticated ovens give you the benefit of so-called multiphase cooking - for example, they first defrost and then heat, or boil vigorously at first and then switch for a moderate boil. Microwave ovens that heat food up quickly while grilling the surface are the ideal find.

And which features to focus on when looking for your new microwave oven? First of all the power, the grill and other functions along with the volume. A big family will certainly use a microwave oven with a capacity of 20 liters. Stainless steel interior, which is easy to maintain, is an advantage as well.

WHY CHOOSE SENCOR MICROWAVE OVEN

- High quality and safe materials
- Plenty of preset programs and functions
- Simple digital control
- Safety features including child lock
- Modern design for various kitchen styles

Microwave Oven

SMW 6001DS

Smart and stylish – this SENCOR microwave oven offers 8 pre-programmed cooking menus (popcorn, coffee, fresh vegetables, potato, pizza, reheat, bacon and seafood) or manual control and 5 microwave power levels.

Auto cook is very handy and helps with all possible types of meals and their weight or even with multi stage cooking, that some recipes require. With its 20 litre volume it can accept even larger cooking and warming-up vessels. Functions like delayed start or up to 95-minute timer make it a truly capable oven, rather than a simple re-heating appliance. For better safety and to avoid the operation by small children, you can easily set the child lock.

PROPERTIES

- **Microwave power 700 W**
- **Microwave heating**
- **Stainless steel exterior housing**
- Dark grey enamel interior
- Digital controls
- Volume 20 l
- Preprogrammed cooking (8 menus)
- Multi-phase cooking
- Automatic defrost
- Quick start function
- Clock
- Delayed start
- 95-minute timer
- 5 microwave power levels
- Sound signals
- Child safety lock
- Handle to open the door

Microwave Oven

SMW 5220

This SENCOR microwave oven offers 8 pre-programmed cooking menus (popcorn, coffee, fresh vegetables, potato, pizza reheat, bacon, seafood) or manual control and also grilling mode.

With its 20 litre volume it can accept even larger cooking and warming-up vessels, and functions like delayed start or up to 95-minute timer make it a truly capable oven, rather than a simple re-heating appliance.

PROPERTIES

- **Microwave power 700 W**
- **Combination cooking mode (microwave + grill)**
- **White enamel exterior housing**
- White enamel interior
- Digital controls
- Volume 20 l
- Defrosting based on weight and time
- Quick start function
- 95-minute timer
- 5 microwave power levels
- Grill power 1000 W
- 2 combination cooking mode

Microwave Oven

SMW 4317SS

This durable SENCOR microwave oven in modern design made of quality stainless steel offers combination of heating, cooking and grill. With its 17 litre volume you can use bigger plates up to 25 cm and choose from 5 power levels.

PROPERTIES

- **Microwave power 700 W**
- **Combination cooking mode (microwave + grill)**
- **Quality stainless steel design**
- Volume 17 l
- 5 microwave power levels
- Defrost function
- 30-minute timer
- Easy manual control
- Sound signal to indicate end of program
- Stainless steel handle to open the door

Microwave Oven

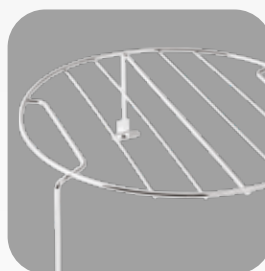

SMW 4217WH

This SENCOR microwave oven offers combination of cooking mode for microwave and grill and 4 microwave power levels.

With its 17 litre volume it can accept average cooking and warming-up vessels, and functions like delayed start or up to 30-minute timer

PROPERTIES

- **Microwave power 700 W, Grill power 900 W**
- **Combination cooking mode (microwave + grill)**
- **Enamel exterior housing**
- Enamel interior for easy cleaning
- Volume 17 l
- 4 microwave power levels
- Defrost function
- 30-minute timer
- Easy manual control
- Sound signals
- Handle to open the door
- Rotating plate diameter 245 mm
- Dimensions (w x h x d): 452 x 262 x 355 mm
- Weight: 11.5 kg

Microwave Oven

SMW 2117SS

Stainless is timeless – the beautiful brushed stainless-steel exterior of this SENCOR microwave oven will please you for many years to come. It will never rust and is easy to maintain. Maintenance is also simple thanks to the durable enamel-coated interior. Control and use is simple and convenient with two rotating dials and a large door handle.

PROPERTIES

- **700 W microwave power, 5 power levels including defrost**
- **Stainless steel will never rust or lose its eye-catching design**
- **Rotating plate 245 mm, 30-minute timer with sound signal**
- Large inner space for up to 25 cm plates
- Timeless stainless steel or white/black enamel exterior, white enamel interior
