SECTION 1
RULES AND OTHER GOVERNING PROVISIONS
GENERAL RULES AND REGULATIONS

ITEM 1000

DESCRIPTION OF GOVERNING CLASSIFICATION AND EXCEPTIONS

The term "Uniform Freight Classification" when used herein means Freight Tariff UFC 6000-series.

ITEM 1010

STATION LISTS AND CONDITIONS

This tariff is governed by OPSL 6000-series to the extent shown below:

- A. For additions and abandonments of stations and except as otherwise shown herein, for prepay requirements, changes in names of stations, restrictions as to acceptance or delivery of freight and changes in station facilities.
 - B. When a station is abandoned as of a date specified in the above named tariff, the rates from and to such station, as published in this tariff, are inapplicable on and after that date.
-

ITEM 1020

EXPLOSIVES, DANGEROUS ARTICLES

For rules and regulations governing the transportation of explosives and other dangerous articles, also specifications for shipping containers and restrictions governing the acceptance and transportation of explosives and other dangerous articles, see BOE 6000-series.

ITEM 1030

REFERENCE TO TARIFFS, PRICE AUTHORITIES, ITEMS, NOTES, RULES, ETC.

Where reference is made in this tariff to tariffs, price authorities, items, notes, rules, etc., such references are continuous and include supplements to and successive issues of such price authorities and reissues of such items, notes, rules, etc.

ITEM 1040

TERMINAL OR TRANSIT PRIVILEGES OR SERVICES

1. Shipments made under the rates contained in this tariff are entitled also to terminal and transit services and privileges, and are subject to the charges, allowances, rules, and regulations legally applicable thereto.
 2. When such charges, allowances, rules, or regulations are provided for in separate price authorities; corresponding or conflicting provisions contained in this tariff will not apply.

ITEM 1050

CONSECUTIVE NUMBERS

1. Where consecutive numbers are represented in this tariff by the first and last numbers connected by the word "to" or a hyphen, they will be understood to include both of the numbers shown.
2. If the first number only bears a reference mark, such reference mark also applies to the last number shown and to all numbers between the first and last numbers.

ITEM 1060

CAPACITIES AND DIMENSIONS OF CARS

For marked capacities, lengths, dimensions and cubical capacities of cars, see Official Railway Equipment Register (RER 6413-series)

ITEM 1070

NATIONAL SERVICE ORDERS

This tariff is subject to provisions of Tariff NSO 6100-series

ITEM 1080

REVISION NUMBERS

This tariff will be amended by reprinting the page and showing a revised page number. Revision numbers will be used in consecutive numerical order beginning with "IST Revised Page". A revised page cancels any uncanceled revised or original pages which bear the same page number.

ITEM 1090

**DEFINITION OF TERMS USED IN CONNECTION WITH
CHARGES NAMED HEREIN**

COMPETITIVE TRAFFIC

Competitive traffic is where the industry is located on a railroad performing the switching service and such road does itself or in connection with another road or roads, form a route via which local or joint through rates apply under which the switching road may secure a line-haul between the industry and the point of origin or destination of the shipment (SEE EXCEPTION).

EXCEPTION: Provisions of this Item will not apply in connection with the CSXT. (See Item 1330)

SECTION 1
RULES AND OTHER GOVERNING PROVISIONS
GENERAL RULES AND REGULATIONS

ITEM 1090 (continued)

**DEFINITION OF TERMS USED IN CONNECTION WITH
CHARGES NAMED HEREIN**

CONSTRUCTIVE PLACEMENT

When, due to some disability on the part of the consignor or consignee, a car cannot be placed for loading or unloading at a point previously designated by the consignor or consignee, and is placed elsewhere, it is considered as being under constructive placement and subject to demurrage rules and charges, the same as if it were actually placed at the designated point.

INDUSTRIAL TRACKS

A track serving a particular industry, whether located upon the property of NS or upon property owned or leased by the industry.

INTERCHANGE TRACKS

Interchange tracks are tracks on which cars are interchanged between NS and connecting lines.

INTERMEDIATE SWITCHING

A switching movement between interchange tracks of one carrier to interchange tracks of another carrier within the switching limits of the same station

INTERSTATE TRAFFIC

Traffic moving from a point in one state to a point in another state, or a shipment moving from a point in a state to another point in the same state but moving outside the state while in transit.

INTER-TERMINAL SWITCHING

A switching movement between an industrial track or team track on the tracks of NS and an industrial track or team track on connecting lines on traffic having origin and destination within the switching limits of the same station or industrial switching district. Charges of connecting carriers will be in addition to charges provided herein

SECTION 1
RULES AND OTHER GOVERNING PROVISIONS
GENERAL RULES AND REGULATIONS

ITEM 1090 (continued)

**DEFINITION OF TERMS USED IN CONNECTION WITH
CHARGES NAMED HEREIN**

INTRASTATE TRAFFIC

Traffic moving from a point in a state to another point in the same state that does not move outside of the state while in transit.

INTRA-PLANT SWITCHING

A switching movement from one track to another or between two locations on the same track within the confines of the same (single) plant or industry.

INTRA-TERMINAL SWITCHING

A switching movement of traffic originating at and destined to points located on the tracks of this company within the switching limits of one station or industrial switching district.

LINE-HAUL

Movement between stations that are not located within the switching limits of the same station.

▲ NON-COMPETITIVE TRAFFIC

Non-competitive traffic is where the industry is located on a railroad performing the switching service, and such road does not itself or in connection with another road or roads form a route via which local or joint through rates apply, under which the switching road may secure a line-haul between the industry and the point of origin or destination of the shipment. Where reconsigning, stop-off, or transit privileges accorded on other lines prevent NS from participating in the movement as an originating or terminating line-haul carrier, such traffic will be considered to be non-competitive. (See Exception)

EXCEPTION

Provisions of this Item will not apply in connection with CSXT (See Item 1330)

(item concluded on following page)

▲ - Change in wording which results in neither increase nor reduction in charges.

SECTION 1
RULES AND OTHER GOVERNING PROVISIONS
GENERAL RULES AND REGULATIONS

ITEM 1090 (concluded)

**DEFINITION OF TERMS USED IN CONNECTION WITH
CHARGES NAMED HEREIN**

RECIPROCAL SWITCHING

An arrangement between carriers serving the same station or switching district where the carrier physically serving the industry performs switching service for loading or unloading on behalf of the other carrier on shipments having an immediately preceding or following line-haul movement via the other carrier. NS will provide reciprocal switching only to or from NS customers specifically listed in Section 5 of this tariff. Line -haul shipments to or from NS customers not listed in Section 5 must move in NS line-haul service.

TEAM TRACK

A track or tracks assigned by NS for use of the general public. All team tracks are closed to reciprocal switching.

ITEM 1100

**RULE FOR COMPUTING RATES ON CHARGES PER TON
WHEN RATE OR CHARGE IS PUBLISHED PER 100 POUNDS**

The rates or charges per 100 pounds will be converted to rates or charges per ton of 2000 pounds and applied per ton of 2000 pounds where provision is made that rates or charges apply per net ton of 2000 pounds and the rates or charges so arrived at will apply per ton of 2240 pounds where provision is made that rates or charges apply per gross ton of 2240 pounds.

ITEM 1110

NON-APPLICATION OF RATES ON SCRAP AUTOMOBILE BODIES

Charges provided in this tariff will not apply on Scrap Automobile Bodies, crushed flat, loose or in bundles, loaded on flat cars.

ITEM 1120

SWITCHING CHARGE ON RAILROAD COMPANY MATERIAL

Railroad company material moving via owner line on non-revenue billing between industrial siding served by NS and interchange tracks with connecting line will be subject to the intra-terminal switching charge published in Section 7 of this tariff.

CARS ORDERED AND NOT USED

1. Except as otherwise provided, the charges published in this tariff include:
 - A. The switching of an empty car to be loaded and the return of the same car loaded.
 - B. The switching of loaded car for unloading and the return of the same car empty.
2. Unless otherwise specified, if a car moves fully or partially loaded in each direction, switching charge will be assessed in each direction.
3. Except as otherwise provided, if an empty car is ordered and the service of switching and placing it has been performed, and the car is subsequently released back to carrier without being loaded, \$450.00 per car, in addition to applicable demurrage and detention charges, will be assessed against the party ordering but not using the equipment (See Exceptions).
4. For movement of empty cars not covered by Paragraphs 1 and 3 of this item, the charge will be \$450.00 per car.

DELINQUENT PAYMENT

5. Whenever NS issues a bill or bills for cars ordered not used that remains unpaid after a period of 90 days or more from the date of the bill, NS may, on not less than 30 days notice, require the customer to provide NS with an irrevocable letter of credit or enter into another payment security program.
6. Under this program, customer must make available to NS a sum of money or security sufficient to cover charges for cars ordered not used that may reasonably be expected to be levied against each car destined for delivery to customer prior to delivery of that car based on customer's traffic volume and level of delinquency for the previous year. The amount to be required will be determined by a review of previous levels of cars ordered not used charges billed by NS against customer's accounts.
7. Refusal or failure of customer to enter such a payment security program will result in the issuance of an embargo against acceptance by NS of any or all traffic to be handled for customer's account.

ITEM 1130 (continued)

CHARGES ON LOADED AND EMPTY CARSEXCEPTIONS

1. The charge will not apply if release of the empty car results from carrier's failure or inability to place or constructively place the car ordered on the day for which it was requested. Carrier will have fulfilled its obligation of furnishing the car on the day for which ordered if the car is available for loading on the day before or the day after the day for which it was ordered.
2. The charge will not apply if release of the empty car results from the shipper or carrier appropriating a car, which becomes available locally, to fill the car order.
3. ♦ The charge will not apply if the party ordering the car advises Railroad within twenty-four (24) hours of actual placement, that the car is refused or rejected because it is not in proper condition for loading; was not the proper type ordered; or the loading of which would be in violation of any outstanding car service orders or loading rules.
4. The charge will not apply on special type flat cars with mechanical designation "FD", "FG", "FW" or "FM" listed in Tariff RPS 6740-series, or other applicable tariffs, for which charges are provided therein.

ITEM 1140

EMPTY CARS RETURNED UNFIT FOR LOADING

When an empty car is received from a connecting carrier for loading by an industry located on the NS, and is refused by the industry because the car is not in proper condition to load and must be returned to the connecting carrier, a charge of \$450.00 per car will be assessed against the connecting carrier. The charge will be made for one direction only.

ITEM 1150

NON-APPLICATION ON CIRCUS AND SHOW OUTFITS

This tariff is not applicable on circus trains or show outfits.

ITEM 1160

**NON-APPLICATION ON PASSENGER AND OTHER RAILWAY
EQUIPMENT MOVING ON OWN WHEELS**

This tariff is not applicable on passenger and other railway equipment moving on own wheels. For provisions to apply see NSRQ 4900-series or NSQ 71118-series for certain machinery commodities.

ITEM 1170

▲ ADDITIONAL CUT CHARGES

(See Notes 1 and 2)

At Origin:

The rates on unit train shipments of grain, grain products or soybeans, include the placement of the entire empty unit train in one cut at consignor's facility. When due to consignor's inability to take delivery of the entire train in one cut for loading, any additional cuts provided by NS will be assessed at a charge of ♦ \$8,500.00 per cut which will be in addition to the line-haul charges.

At Destination:

The rates on unit shipments of grain, grain products, or soybeans, include the placement of the entire loaded unit in one cut at consignee's facility. When due to consignee's inability to take delivery of the entire unit in one cut for unloading, any additional cuts provided by NS will be assessed at a charge of ♦ \$8,500.00 per cut which will be in addition to the line-haul or switch charges.

Note 1: Subject to demurrage and storage rules and charges as provided in NS 6004 – Series.

Note 2: A cut is defined as the quantity (one or more) of cars delivered to and removed from the track or tracks of the consignee at destination.

ITEM 1180

**CARS BILLED "TO ORDER", ETC. WILL NOT
 BE HANDLED IN SWITCHING SERVICE**

Cars will not be accepted for handling in intra-terminal or inter-terminal switching service under the provisions of this tariff if billed "to order", "to notify", "order care of", deliver only or surrender of "written order", "original bill of lading", "draft" or any other document.

ITEM 1200

CARS HELD FOR DIVERSION OR RECONSIGNMENT ON NS

Except as otherwise provided, cars received from and/or delivered to connections, which are held for diversion or reconsignment on tracks of the NS awaiting placement on consignee's private or assigned siding served by the NS, and which are diverted or reconsigned to destinations on roads other than NS beyond the original destination will be subject to reciprocal switching charge, in each direction, between interchange with connections and the original consignee's private or assigned siding. No switching charge will be assessed on the outbound movement when NS is accorded the outbound line-haul movement.

EXPLANATION OF NOTES

Note 1 - NS will switch only inbound grain from interchange tracks with CC, CPRS, or UP subject to a charge of \$148.00 per car when tendered in lots of not less than 25 cars per shipment or \$81.00 per car when tendered in lots of not less than 50 cars per shipment. Other traffic will not be switched.

Note 2 - Not open to Reciprocal Switching.

Note 3 - This facility is open to reciprocal switching only on non-competitive traffic. Non-competitive traffic is traffic on which NS does not itself or in connection with another road or roads form a route via which local or joint through rates apply, under which NS may secure a road-haul between the industry and the point of origin or destination (as the case may be) of the shipment.
