

HOME ARMOR

Home Armor E-Z Hose End Products deliver superior cleaning due to a patented process of a bleach-based formula delivered through a hose end.

YOU CAN SEE THE CLEAN INSTANTLY.

A bleach-based formula is still the most effective for cleaning exterior surfaces because it delivers an "instant clean appearance" with minimal scrubbing. The formula will not harm plants when used as directed on the label.

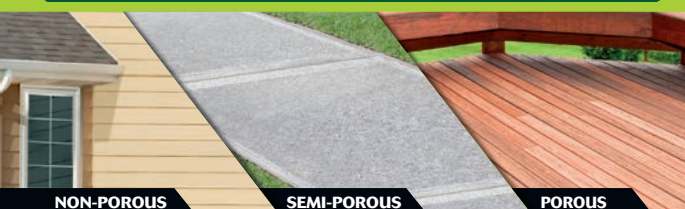

THE RIGHT STRENGTH FOR THE RIGHT SURFACE.

Surface types require different strengths of formula. Home Armor provides both House and Deck formulas that deliver the right concentration for the surface:

Regular Formula
Standard Concentration

Stronger Formula
Higher Concentration

NON-POROUS

SEMI-POROUS

POROUS

Vinyl Siding, Aluminum,
Painted Wood

Concrete, Brick,
Stucco

Wood

POWERFUL SPRAY BLASTS AWAY DIRT.

The powerful sprayer removes dirt & debris and reaches hard-to-clean areas without a ladder.

TRY MOLD ARMOR

E-Z DECK & FENCE WASH

BEFORE

AFTER

SPRAY ON • WAIT 10 MINUTES • RINSE
NO SCRUBBING

"I sprayed on the house where it had green stuff from the oak trees and in five minutes it was gone. Wow, it worked just like it said. I cleaned the rest of the house and then used the deck product on my deck. It brings it back to looking like new. Great product!"

- WG Orlando, Florida

SAY GOODBYE TO MOLD & MILDEW STAINS!
