eve energy

Get Started

Safety Instructions

- Do not connect appliances to this remote controlled socket-outlet if the instruction manual of the appliances prohibits being remote controlled (for example appliances according to EN 60335-2-9 like grills, toasters and similar portable cooking appliances, or portable kitchen appliances, or appliances with heating elements like ovens or heaters, etc.).
- Do not connect any appliances to this remote controlled socket-outlet which are radiating heat a nd may cause ignition or burning of surrounding materials (for example radiation heaters, portable heaters, portable floodlights, desk lamps, etc.).
- Take into consideration that connected appliances might be moved by pets, cleaning staff or other persons who are not aware of the remote control functions.
- Do not connect any appliances with potential hazards by moving parts (for example drills, table saws, blenders, etc.).
- The connection/installation of this product should be in a suitable area with the remote controlled socket-outlet easily readable and accessible for disconnection actions.
- Only voltage free if the plug is pulled. **Do not connect in series.**

Specifications

Frequency range: 2402 – 2480MHz

Max RF e.i.r.p. power: < 6 dBm

Degree of protection: IP20

Class I product with earth contact in plug and socket-outlet

Pollution degree: 2

Ambient air temperature: 0 °C - 35 °C

Rated impulse withstand voltage: 2.5KV

Number of operating cycles: 10.000 cycles

Circuit disconnection: Relay

Proof Tracking Index (PTI): 175

Level of glow wire test: Level 1

Type of load: Resistive load or filament load

①
Plug Eve Energy into a powered socket.
