# Install Peace Of Mind

GAF

Whether you install the ultra-dimensional Timberline® UHD Shingles or Timberline® HDZ Shingles, you'll be getting all the benefits that only a genuine Timberline® roof can provide!

## Install To **Protect.**

When you install GAF Timberline® Shingles with **Advanced Protection®** Shingle Technology, you're getting the very best combination of weight and performance that modern manufacturing technology can deliver. In fact, you won't find a shingle that surpasses Timberline® on:

- ✓ Toughness
- ✓ Wind uplift resistance
- ✓ Flexibility
- ✓ Fire resistance

That's why every Timberline® Shingle comes with a GAF transferable Lifetime limited warranty\* — for your peace of mind! — plus the backing of the Good Housekeeping Seal.\*\*

\*See GAF Shingle & Accessory Limited Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Limited Warranty and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

\*\*Timberline® High Definition® Shingles have earned the prestigious Good Housekeeping Seal (applicable in U.S. only).

## Install To **Invest.**

Your roof can represent up to 40% of your home's "curb appeal." Timberline® Shingles not only protect your most valuable asset but also beautify your home for years to come — and add to its resale value.

An independent research firm surveyed U.S. homeowners about the brand of architectural shingles they preferred based on appearance. The result: **more homeowners preferred the look of Timberline® Shingles** to the other leading brands.<sup>1</sup>

So why settle for anything less than a genuine Timberline® roof?

<sup>1</sup>Based on a 2014 survey of U.S. homeowners commissioned by GAF comparing the appearance of two popular Timberline® High Definition® Shingle colors to the comparable colors of other leading brands.

**NOTE:** It is difficult to reproduce the color clarity and actual color blends of these products. Before selecting your color, please ask to see several full-size shingles.

## Install To Impress.

Timberline® Shingles are unlike any others, thanks to our proprietary shadow bands. Each shadow band is applied using a sophisticated, computer-controlled "feathering" technique. When combined with our randomly blended top layer, it results in a shingle with exceptional depth and dimension — **and a striking look unmatched by any other brand.**

But don't just take our word for it. See for yourself. When you compare Timberline® Shingles to typical architectural shingles, it's easy to see why they'll look sharper and more beautiful on your roof — while enhancing the resale value of your home.

Whatever you're looking for, there's a Timberline® Shingle to fit your taste and your budget.

*Here's What Female Homeowners Have To Say...*

GAF recently received the Women's Choice Award for being the brand that is a "gold standard when it comes to meeting **high standards of quality and service**," as rated by female homeowners in the U.S.

The GAF logo is a red square with the letters "GAF" in white, bold, sans-serif font.

# Install Advanced Protection®

State-of-the-art  
technology helped  
us design our  
Advanced  
Protection® Shingles.

Test models similar to those used in America's space program, combined with some of the hardest minerals found on Earth, help GAF Advanced Protection® Shingles perform and protect like nothing else. No one makes a better asphalt shingle for toughness, flexibility, and heroic resistance to wind, weather, and fire. Plus, their advanced design requires fewer natural resources to manufacture and transport.

*Sophisticated computer models (similar to those used to test the space shuttle) help predict long-term stresses at 10,000 points on GAF Shingles.*

Engineered layer by layer for maximum durability.

## Advanced Protection® Shingles: the inside story.

**Tough to the core.** The high-strength fiberglass core at the heart of the system uses GAF proprietary low-profile technology for a shingle with extraordinary durability.

**Engineered with you in mind.** Unique asphalt formulations for every plant, plus custom adhesives designed to stand up to the specific climate challenges in your area, including temperature extremes from Arizona to Alaska.

**Protection on top of protection.** Ceramic-coated granules, made from some of the hardest minerals on Earth, protect against UV damage while providing vivid color that will stand the test of time.
