

Epson SureColor® F-Series

Next Generation Dye-Sublimation Transfer Printers

Sales Reference Guide

Typical Dye-Sublimation Applications
100% Performance Polyester

■ Fabric Production for Cut-and-Sew Markets

- A digital replacement for the traditional screen printing process of dye sublimation transfer methods for final bolt fabric production
- Garments include high-end fashion, athletic wear, sports jerseys, and swimwear etc.
- Any polyester-based sublimation or mixed fabrics - high-performance poly fabrics
- Not compatible with cotton, rayon, or other natural fabrics

■ Soft Signage

- Short-run or photo quality soft sign making up to 64" wide
- Unique soft signage for trade show or special events
- Flags, stretch frames, table throws, drapes, roll-up banners, back-lit and rigid surfaces.

■ Custom Specialty Products

- Typical mouse pads, awards, photo gifts, and other unique dye sublimation products
- Promotional products and any customized or personalized product

Presenting the new generation of Epson SureColor F-Series Dye-Sublimation Transfer Printers

On-demand digital textile printing, limited only by your own creativity.

Epson PrecisionCore™

Next-Generation Print Head Technology

720
nozzles
per inch

Epson PrecisionCore TFP

Actual print head used in the
SureColor F-Series printers

■ Extreme Print Quality

- Print resolutions up to 1,440 x 720 dpi 8-pass for amazing image quality
- Precision dot control for outstanding clarity and sharpness for garment imaging

■ Fast Print Speeds

- True 720 nozzles per inch dedicated to each color ink
- Quite possibly one of the fastest dye-sublimation transfer printers in it's class

■ Commercial-Grade Reliability

- The PrecisionCore print chip is ideal for printing with dye sublimation ink chemistry
- Co-developed with Epson UltraChrome DS ink technology for extreme reliability
- Capable of very high-production, with very little downtime for maintenance

Epson UltraChrome[®] DS Ink

All New High Density Black Ink Technology

EPSON[®]

Epson UltraChrome Dye-Sublimation Ink Technology

■ Developed Specifically for the Epson PrecisionCore TFP Print Head

- Significantly increases the overall print head life
- The SureColor F-Series printers are designed to be used exclusively with Epson UltraChrome DS inks and not with any other brands of cartridges or inks. Using Epson genuine ink is important for reliable performance and high image quality.

■ New High Density Black Ink

- Newly formulated ink for achieving dramatic color intensity and high color contrast
- Superior overall image quality - both image definition and text sharpness are amazing
- Less ink consumed to product rich dark colors and solid blacks

■ Safety First

- Epson UltraChrome DS inks comply with the AZO certification and meet the Oeko-Tex Safety Standard

Oeko Tex - 100

Simple Ink Refill Packs

Less environmental impact
versus standard plastic
cartridges

Replaceable IC Chip

Available only with a refill pack

Purchased in Packs of 6 Only

Each color sold in sets of 6 per Carton
Helps to reduce your overall cost-per-ml

Epson SureColor F9200

High Productivity for Digital Dye-Sublimation Transfer

PRECISION**CORE**

EPSON®

Epson SureColor F9200

\$25,995 MSRP

Powerful Speeds = Extraordinary Productivity.

Better Performance, More Profit.

C M Y HDK

Print speeds up to:

1,044 ft²/hr

615 ft²/hr

172 ft²/hr

Prices are MSRP | All data as of Aug 2015 | Print speeds are engine speeds only. Total throughput time depends on RIP workflow, file size, print resolution, ink coverage, networking, etc.
Printer comes with 90-day limited on-site warranty, extendable for one full year with product registration. Extended on-site service plans available. Up to two plans may be purchased for a maximum coverage period of three years.
Warranty and extended service coverage is void if any non-Epson cartridges, inks or ink delivery system is used.

Epson Dye-Sublimation Papers

High Performance Papers

■ High Performance Dye Sublimation Papers

- Three main paper types – standard multi-purpose, tack adhesive, and production
- Multi-purpose is great for transferring onto mouse pads, t-shirts, ceramics, etc.
- Textile-Adhesive is recommended for high-end fabric and apparel production
- Production is a lightweight paper ideal for roll-to-roll applications

■ Enhanced Dye Transfer Performance

- Unique chemical coating technology allows for heavy ink loads with low cockling, superior clarity, and sharpness that only Epson can deliver
- Incredible high-transfer yield properties for amazing performance and productivity

■ Competitive Pricing

- For about the same cost as typical branded or other high-quality paper solutions, you can have a genuine Epson media technology with full support

Selling Proposition

Epson SureColor F-Series

Number One Reason

Turn-key Solution

■ **Industrial-Level Production Speeds**

- Outstanding everyday production speeds
- Dramatically reduces the number of printers needed for full production capacity

■ **Designed for High Reliability**

- Print head and ink technology developed to work together for improved reliability
- Developed to be a dye-sublimation solution - not a 'hacked' Epson photo printer

■ **High Image Quality**

- Epson UltraChrome DS with HDK ink technology produces amazing color with rich blacks
- Capable of producing true photographic output with smooth tonal transitions

■ **Low Cost-of-Ownership**

- Be more profitable with low initial printer costs and low operating costs

■ **Completely Supported by Epson**

- World class service and support directly from one source

Specifications are subject to change without notice

Print speeds for the SureColor F-Series are based on print engine speed only, in bi-directional mode. Total throughput times depend upon front-end RIP, file size, printer resolution, ink coverage, networking, etc.

The SureColor F-Series are designed to use only Epson ink cartridges and refill packs and no other brands of new or refilled cartridges, or other brands of ink or bulk ink systems. Using Epson ink is important for reliable performance and high image quality.
