SAFETY DATA SHEET

Section 1. Identification of the material and the supplier

Product: Acid Descaler
Product Code: GRKD
Product Use: Removes mineral deposits that build up in dishwashing machines.

New Zealand Supplier: Car Clean Products NZ Limited
Address: 33 Ha Crescent
Wiri
Auckland

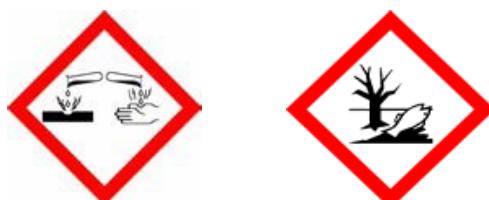

Telephone: 09 250 0091
Fax Number: 09 250 0092

Emergency Telephone: **0800 POISON (0800 764 766)**

Date of MSDS Preparation: April 2019

Section 2. Hazards Identification

Potential Health Effects

Swallowed	Liquid is corrosive to mucous membranes
Eyes	Extremely irritating can cause damage.
Skin	Extremely irritating to skin can cause immediate burns.

Inhalation
Exposure Vapour is corrosive and irritating to the respiratory tract.
to high concentrations may cause bronchitis

Section 3. Composition / Information on Ingredients

Ingredients	Proportion (% mass)	Cas No
Water	<80	7732-18-5
Phosphoric Acid	<50	7664-38-2
Alcohol Ethoxysulphate	<1	9004-82-4
Ethylene Glycol monobutyl ether	>1	111-76-2
Nitrilotriacetic acid	<5	5064-31-3

Section 4. First Aid Measures

Routes of Exposure:

Eye Hold eyes open and flush with water for at least 15 minutes. Seek medical attention immediately. **TAKE THIS SDS or CONTAINER**

Skin Immediately remove contaminated clothing and wash skin and clothes thoroughly with soap and water.

Ingestion Do not induce vomiting. Give large quantity of milk or water. Seek medical attention immediately. **TAKE THIS SDS or CONTAINER.**

Inhalation Remove to fresh air. If breathing is difficult, seek medical attention immediately

Section 5. Fire Fighting Measures

Suitable Extinguishing media Dry Chemical powder

Fire and Explosion hazards Non combustible liquid but will form corrosive vapour

Fire Fighting Instructions Fire fighters must use recommended protective equipment and self-contained breathing apparatus.

Hazchem Code 2X

Section 6. Accidental Release Measures

Land Spill or Leaks	Wear protective gloves and goggles and protect exposed skin. Remove unprotected personnel from the area. Contain spill with sand, earth or vermiculite. Transfer to a waste container. Label container as hazardous waste, toxic and corrosive, for approved disposal.
Water	Small spills and leaks should not pose any long term effects to aquatic environment. Large spills should be advised to the nearest regional council pollution officer to assist with containment and remediation.

Section 7. Handling and Storage

Handling Advice	For normal label use it is advisable to wear goggles and gloves. For bulk handling and transfer use a full-face mask, gloves, and safety gumboots.
Storing Procedures	Store away from heat and direct sunlight. Do not store next to food or feedstuffs. Check regularly for leaks. Ensure adequate ventilation. Keep out of reach of children.

Section 8 Exposure Controls / Personal Protection

Engineering Controls:	Use in well ventilated area. Ensure containers have hazardous labels.
Personal Protective Equipment:	Advisable to wear PVC or Viton gloves for normal label use. For bulk use and transfer also wear SAA approved acid vapour respirator and PVC safety gumboots.

Section 9 Physical and Chemical Properties

Physical State:	Liquid
Colour:	
Odour:	Sharp, acidic
pH:	<1
Solubility in water:	100%
Boiling point:	100°C
Freezing Point:	0°C
Flash Point:	Not applicable
Specific Gravity:	1.0
Vapour Pressure@ 25°C, mmHg:	Treat as water

Section 10. Stability and Reactivity

Chemical Stability	Stable, but will give off corrosive vapour
Conditions to Avoid	High temperatures
Incompatibility	Metals and strong alkalis
Hazardous Decomposition Products	Can form hydrogen in the presence of zinc or aluminium. Toxic fumes in a fire.

Section 11 Toxicological Information

Acute Inhalation Toxicity	LC ₅₀ Mouse (inhalation) 4Hour 14mg/L air
Long term Effects	Insufficient information is available to establish any chronic effects
Toxicological Data	Insufficient information available

Section 12. Ecotoxicological Information

Environmental Precautions:

<i>Ecological Toxicity</i>	<i>Toxic to all forms of marine organisms, terrestrial vertebrates and invertebrates.</i>
----------------------------	---

Environmental Fate:

Soil *Biodegradable, not likely to persist*

Water *Biodegradable, not likely to persist*

Environmental Exposure Limits EEL_{water} : Not set

Section 13. Disposal Considerations

Dispose of waste at an appropriate waste disposal facility in accordance with local authority bylaws

Section 14 Transport Information

Road, Rail, Marine and Air Transport

UN No	3264
Class-primary	8
Packing Group	III
Proper Shipping Name	Corrosive liquid acid inorganic N.O.S. (Phosphoric Acid)

Section 15 Regulatory Information

HSNO Classification	Acutely toxic class 6.1D, Corrosive to metals 8.1A Corrosive to skin 8.2C Corrosive to eye 8.3A Ecotoxic to terrestrial vertebrates 9.3C
Group Standard ERMA Approval No	Cleaning Products (Corrosive) HSR002526

Section 16 Other Information

Supplied in 1lt, 5lt, 20lt containers. Code: GRKD-1, GRKD-5 & GRKD-20.

The information herein is given in good faith, but no warranty, express or implied is made.

Please contact the New Zealand proprietor, Car Clean Products NZ Limited,
Phone: 09 250 0091, if further information is required.

ACID DESCALER

PURPOSE:

Removes mineral deposits and sanitises. Suitable to remove the heaviest lime scale build up from dishwashing and glass washing machines.

DIRECTIONS:

Switch off the machines dosing equipment (if applicable). Dilute descaler depending on the build up if scale and spray directly onto the affected areas. Run the machine and rinse thoroughly with clean water. Repeat as often as required until descaler residue is gone.

WARNING:

Corrosive to human tissue. Harmful if swallowed, inhaled or absorbed through the skin. May cause burns to skin and eyes.

KEEP OUT OF REACH OF CHILDREN.
