ORDER OF CEREMONY

Welcome

Mason Memories

National Anthem

Santiago Alfonzo Meza
BA Music and Environmental and
Sustainability Studies '20
*Accompanied by the Patriots Fife and Drum Corps
and The 8th Green Machine Regiment Band*

Welcoming Remarks

Gregory Washington
President, George Mason University

Commencement Speaker

The Honorable Charniele L. Herring
Majority Leader, Virginia House of Delegates

Student Performance

Bobby Lacy II
BA Music '16
Current Student, MA in Arts Management

Presentation of Degree Candidates

Mark R. Ginsberg, Provost
and Executive Vice President

Ann Ardis

Dean, College of Humanities
and Social Sciences

Fernando Miralles-Wilhelm

Dean, College of Science

Robert E. Baker

Interim Dean, College of Education
and Human Development

Maury Peiperl

Dean, School of Business

Germaine Louis

Dean, College of Health
and Human Services

Kenneth Ball

Dean, Volgenau School
of Engineering

Rick Davis

Dean, College of Visual
and Performing Arts

Alpaslan Özerdem

Dean, Carter School for Peace
and Conflict Resolution

Mark Rozell

Dean, Schar School of Policy
and Government

Ken Randall

Dean, Antonin Scalia Law School

Henry N. Butler

Dean (2015-20), Antonin Scalia Law School

Conferral of Degrees

President Gregory Washington

Alumni Toast

*The music for today's program is provided
by the Green Machine Funk Band, except
where otherwise noted. Special thanks
to Michael W. Nickens (Doc Nix).*

Letter from the President

Congratulations, graduates! Our faculty, staff, and administration proudly honor you today for your outstanding achievement. We look forward to sharing the George Mason University spirit with your families and friends and other distinguished guests at our fifty-third Commencement.

You are completing your academic journey at Mason far differently from how you began it. You're making history while living history, weathering the pandemic with a determination and adaptability that will serve you well no matter your path.

Graduates, I assure you there is no face mask strong enough to conceal the smiling admiration we have for you today. Your resilience and grit have been an inspiration to your fellow Patriots.

Beginning in March, when the university quickly shifted 5,200 courses online, to this fall, when our Safe Return to Campus entailed hybrid learning, you approached hurdles as opportunities. And now you have earned a degree from a Carnegie Classification Tier 1 public research university that also is one of the most diverse institutions in the country.

If tradition holds, about one-third of our undergraduates today are in the first generation of their families to earn a four-year degree. Mason's inclusive excellence is defined by success stories like you—resolute strivers who prove year after year that opportunity should be as widely dispersed as talent. At Mason, it is.

Starting today, you're a valued member of an esteemed alumni group more than 200,000 strong. Mason alumni can attest that the value of their Mason degree grows with each passing year. The very definition of a Patriot is to be devoted, and I urge you to stay connected to the university that prepared you for success and rewarded your hard work. Our stories are joyously, and forever, intertwined.

Lead with integrity. Place community above self. Allow your heart and your head to define your sense of purpose. Share your many gifts. Speak your truth.

I know your milestones are just beginning.

Gregory Washington

President, George Mason University

**The Honorable
Charniele L. Herring**

*Majority Leader, Virginia House
of Delegates*

Born into a military family, Charniele Herring moved often as a child before landing permanently in Northern Virginia. She and her mother became homeless while Herring was a teenager and stayed in a shelter while she attended West Springfield High School during the day and her mother searched for work. The experience of being homeless shaped Herring’s character and taught her the values of hard work, resilience, and looking out for those people society often overlooks. Thanks to a state program, Herring attended George Mason University, where she earned a bachelor’s degree in economics in 1993, before earning a JD from Catholic University’s Columbus School of Law. She has worked in law firms, been a solo practitioner,

and is currently general counsel to Admin & Logistics, a government contracting firm.

Herring was elected to the General Assembly in a 2009 special election, the first African American woman from Northern Virginia ever elected to Virginia’s legislature, where she has served as minority whip and minority caucus chair. She currently serves as the chair of the Courts of Justice Committee, State Crime Commission, and the Committee on District Courts. In 2020, her peers chose her as majority leader of the House of Delegates in recognition of her decade of exceptional service to the commonwealth. Herring is the first woman and the first African American to ever be majority leader as well as the first to ever be chair of the Courts of Justice Committee.

George Mason University

Since its beginnings in 1957, George Mason University has experienced a steady transformation from regional commuter school to national powerhouse. Mason's rise is no coincidence, but instead reflects a purposeful path committed to embracing new ideas and adapting to the evolving needs of the community. More than a half-century later, Mason's reach extends across the commonwealth and into the global arena, with a diverse student body comprising students from all 50 states and 130 countries, a campus in South Korea, and world-renowned faculty and researchers dedicated to both focusing on complex problems and nurturing the next generation of thinkers and leaders.

Even as Mason continues to make an impact regionally, nationally, and globally, we have never wavered in our commitment to inclusivity and our belief that higher education should be accessible to all.

Guided by our motto of Freedom and Learning, Mason strides into the future with a spirit of innovation, an acceptance of wide-ranging viewpoints and cultures, and a conviction to stand firm to our principles. In a rapidly changing world of increasing complexity, George Mason University is in a unique position to make change happen by producing the leaders and solutions that our world needs.

George Mason, the Man

George Mason IV was the primary author of the Virginia Declaration of Rights and Virginia's first constitution, written in May and June 1776, which served as examples for other states. He was highly regarded by contemporaries for his intellect and abilities. Thomas Jefferson described him as "a man of first order wisdom," and James Madison described him as "the soundest and clearest reasoner I have ever listened to." A reluctant public servant, he has been referred to as the "forgotten" or "unknown" founder.

In 1787, Mason attended the Constitutional Convention in Philadelphia. James Madison, although known as the Father of the Constitution, attributed much of the final document to Mason. Mason refused, however, to sign the Constitution, because it did not guarantee the rights of the people. By his principled opposition, Mason ultimately assured the adoption of the federal Bill of Rights based on his Virginia Declaration of Rights. As demonstrated in the

language set forth in Mason's own documents, he was acutely aware of the moral depravity of slavery—yet he owned slaves. He proposed an elimination of the slave trade as a first step toward eventual emancipation, yet he did not make provisions for the care or release of his own slaves upon his death.

On April 12, 1996, a seven-foot statue of George Mason presenting his handwritten draft of the Virginia Declaration of Rights was dedicated at the university. In 2021, the Enslaved Children of George Mason memorial will be installed on Wilkins Plaza in proximity to the statue. The statue serves as a constant reminder of the ideals of freedom and learning most important to both Mason the man and the university that bears his name, while the memorial honors the memory of two of the hundreds of individuals enslaved by Mason. Together, these landmarks illustrate the complicated legacy of George Mason, the man.

Highlights of George Mason University's History

The university's formal history began in 1957 as University College, the Northern Virginia branch of the University of Virginia (UVA), offering courses in engineering and the liberal arts. It opened in a renovated elementary school in the Bailey's Crossroads area of Fairfax County with an enrollment of 17 students.

In 1958, the Town (now City) of Fairfax purchased 150 acres and donated the land to the University of

Virginia for a permanent branch campus, then known as George Mason College.

Just 14 years later, George Mason University became an independent member of Virginia's system of colleges and universities when Virginia's governor signed legislation in 1972.

Mason has achieved many milestones across the decades. Here are just a few highlights.

- **1968**—First class of 52 students graduates
- **1972**—The university separates from UVA
- **1974**—The Office of Admissions hires Mason's first Black admissions officer, Andrew Evans
- **1976**—Mason's baseball team reaches the National Association of Intercollegiate Athletics World Series
- **1980**—Fall enrollment is 13,293, including international students representing 58 countries
- **1981**—Mason begins offering graduate classes on the Arlington Campus, known then as the Metro Campus
- **1983**—The university awards its first doctoral degree, a doctor of arts in education
- **1985**—Women's soccer wins the NCAA Division I National Championship
- **1986**—James Buchanan wins the Nobel Prize in Economic Sciences
- **1992**—Kraken, the first Komodo dragon born in captivity outside of Indonesia, is hatched at Mason and quickly becomes a media star
- **1996**—The Johnson Center opens and is the first multi-use building of its kind on a university campus
- **1996**—The George Mason Statue is dedicated. Created by Wendy M. Ross, the seven-and-a-half-foot statue shows George Mason presenting his first draft of the Virginia Declaration of Rights
- **2002**—Vernon Smith wins the Nobel Prize in Economic Sciences
- **2005**—In recognition of a \$10 million gift from Ernst and Sara Volgenau, the School of Information Technology and Engineering is renamed the Volgenau School of Engineering
- **2006**—The Mason men's basketball team becomes the original "Cinderella" team of March Madness as it makes its exciting run from an at-large bid to the NCAA Tournament's Final Four
- **2009**—*U.S. News & World Report* names Mason the nation's No. 1 University to Watch on its first list of up-and-coming schools. Since that time, Mason has remained on the list
- **2010**—The grand opening is held for the Hylton Performing Arts Center
- **2011**—After years of planning and fundraising, a new state-of-the-art Ritchey Chretien telescope is installed in the Research Hall Observatory
- **2013**—Mason joins the Atlantic 10 conference
- **2014**—Mason Korea is established as part of the Incheon Global Campus in Songdo, Korea

- **2015**—The Prince William Campus is renamed the Science and Technology Campus
- **2016**—Mason enters the R1 Highest Research Activity tier of the Carnegie Classification of Institutions of Higher Education, joining an elite group of 131 research universities and signaling Mason’s leading role in tackling some of society’s most pressing challenges, while reaffirming our status as an innovation engine for the state and region
- **2016**—A \$30 million combined gift to the George Mason University Foundation renames Mason’s law school in honor of the late U.S. Supreme Court Justice Antonin Scalia
- **2017**—ADVANCE, a new partnership between Mason and Northern Virginia Community College, is established to provide a seamless path for transfer students to earn four-year degrees
- **2017**—In recognition of a \$10 million gift from Dwight C. Schar, the School of Policy, Government, and International Affairs is renamed the Schar School of Policy and Government
- **2018**—The new Peterson Family Health Sciences Hall, named in honor of the Peterson Family, opens on the Fairfax Campus, allowing all of the College of Health and Human Services to be housed in one location for the first time
- **2020**—The School for Conflict Analysis and Resolution is renamed the Jimmy and Rosalynn Carter School for Peace and Conflict Resolution as a tribute to the Carters’ steadfast commitment to peacemaking through nonviolence
- **2020**—Gregory Washington is named Mason’s 8th president and first Black president
- **2020**—Mason-sponsored research surpasses \$200 million

Our Vision Statement

We are an innovative and inclusive academic community committed to creating a more just, free, and prosperous world.

Spotlight on Extraordinary Students

This year, we invited our individual colleges and schools to highlight extraordinary students who demonstrated a commitment to excellence in a variety of ways.

College of Humanities and Social Sciences

Nivedita Anjaria

Selected as the college's Outstanding Undergraduate Student, Nivedita Anjaria is receiving her BA in psychology, with a concentration in forensic psychology and a minor in criminology, law and society. She was a research assistant in the Modeling Decision-Making in the Legal System (MoDiLS) criminology lab and a mentor and tutor with Mason's Early Identification Program. As a student, Anjaria was also a member of the Honors College and participated in the Psychology Club and the Indian Student Association. She works off campus doing therapy with children with autism.

Peter Jacobsen

Peter Jacobsen, who is receiving his PhD in economics, personifies a commitment to scholarship and is the college's Outstanding Graduate Student. In addition to stellar performance in his course work, Jacobsen designed and taught four classes while publishing multiple papers in academic journals. He is now an assistant professor of economics and the Gwartney Professor of Economic Education and Research at the Gwartney Institute at Ottawa University in Ottawa, Kansas.

College of Science

Monica Gertz

A nontraditional student from an underprivileged background, Monica Gertz is receiving her PhD in neuroscience. She previously earned a BS in chemistry and biochemistry from Mason, and she is the first winner of the National Science Foundation Graduate Research Fellowship in Mason's history. Gertz was recently appointed as a postdoctoral associate in the department of genetic medicine at Weill-Cornell Medical College, a position that she hopes will allow her to explore and develop improved techniques to safely deliver localized

doses of viral vectors for gene therapy using focused ultrasound, with clinical applications.

Sayomi Kamimoto

An exemplary mathematics PhD student, Sayomi Kamimoto is graduating with a highly prestigious National Research Council Research Associate award, an honor bestowed each year by the National Academies of Science, Engineering, and Medicine since 1954 to "a few postdoctoral and senior scientists and engineers of unusual promise" for tenure as guest researchers at participating laboratories. Kamimoto is one of the PhD students supported by the Industrial Immersion Program, which places mathematics graduate students in close contact with industrial and government lab partners. Her time at the Naval Research Laboratory, where she's spent one day a week for the last two years, is a collaboration that resulted in a record number of scientific publications in top research journals.

College of Education and Human Development

Rafael Aragao

Rafael Aragao is receiving a BS in health, fitness, and recreation resources and is enrolled in the accelerated master's program in sport management. A college Dean's List awardee each semester, Aragao has a 4.0 GPA.

Jennifer Melfie

Jennifer Melfie is receiving a master of education. She served as president of Chi Sigma Iota. Additionally, Melfie was the lead author on a presentation for the Virginia School Counselor Association Conference and was a coauthor on a presentation for the National Evidence-Based School Counseling Conference.

School of Business

Rupali Patel

Rupali Patel is receiving her BS in information systems and operations management. She made the most of her Mason Business experience, growing her professional network through Delta Sigma Pi and internships at PricewaterhouseCoopers, while giving back to the School of Business as a student ambassador.

Hirad Alemi

Hirad Alemi, who is receiving an MS in real estate development, has a growing interest in multifamily and residential development. He hopes to use the opportunity of joining his fellow MS in real estate development alumni to create lasting professional relationships and learn from industry leaders and fellow classmates.

College of Health and Human Services

Gabrielle Jackson

Receiving her BS in community health, Gabrielle Jackson is a recipient of a Fulbright U.S. Student Program Grant, an award in one of the most prestigious international exchange programs. She will head to Colombia to be an English teaching assistant.

Megan Harvey

Megan Harvey, who is receiving her doctor of nursing practice, is now the telehealth lead and research scientist at the Mason and Partners Clinics. As a student, she developed policies and protocols for rural telehealth and COVID-19 testing.

Volgenau School of Engineering

Joo Park

Joo Park is receiving his BS in information technology with a concentration in cybersecurity. As a senior, he worked on his capstone project, "HR/Payroll Transformation," with Manassas Park Fire and Rescue. As a student, he also earned Security+ and AWS Certified Solutions Architect certifications. He now works as a cyber analyst for Deloitte Cyber.

College of Visual and Performing Arts

Mohammed Saffouri

Mohammed Saffouri is receiving a BA in film and video studies.

Estrella Sejin Hong

Estrella Sejin Hong, a native of Seoul, South Korea, is receiving a doctor of musical arts. She also received both her undergraduate and graduate degrees in music from Mason. Hong previously studied piano at the National Conservatory of Music in Buenos Aires and earned a bachelor of science in biochemistry from the University of California, Los Angeles. She was invited to do graduate research in the chemistry department at Harvard University, with her outstanding work resulting in three patents. A fluent speaker of Spanish, Korean, and English, Hong teaches Keyboard Skills at Mason as a graduate lecturer.

The Jimmy and Rosalynn Carter School for Peace and Conflict Resolution

Lily Krietzberg

Receiving a BA in conflict analysis and resolution, Lily Krietzberg is recognized for academic excellence and outstanding contributions to the Carter School community.

Brandon S. Brown

Brandon Brown is receiving his MS in conflict analysis and resolution. As a student, he exemplified the power of education to transform and to create a sense of hope and possibility, restoring himself as he worked with others to do the same.

Schar School of Policy and Government

Emma Lyons

Emma Lyons is receiving her BA and majored in both government and international politics, and history. She received a prestigious scholarship to attend the Presidential Sites Summer in Washington, D.C., in 2018. In spring 2020, Lyons had a unique internship with the Fairfax Circuit Court's Department of Historic Records, which hosts an archive of legal and public records for Fairfax County dating back to the beginning of the 18th century. Her project involved digitizing census records, looking at school records at the time of segregation, and tracking changes over the past 100 years.

 Samantha Elise Wheary
 Grace Soe Yadanar
 William Austin Zimmerman

Candidates for Master's Degrees

Program in Biodefense

Master of Science

Corey Andrew Bowman
 Daniel Franklin Cooper
 Edward Thomas Cope
 Joseph Paul DeFranco
 Kayla R. Hine
 Michael S. Krug
 Kaitlin Elise Miller
 Alexandra Renee Pugh
 Georgia Ray

Program in International Commerce and Policy

Master of Arts

Karim Gamal Abdelghany
 May Talal Alsada
 Kennedy Alsop
 Maimoona K. Asghar
 Brian A. Bowling
 Marie Jose Anne Caroline Chatelain
 Diana Katerina De Loza
 Sean Michael Dubiel
 Jose C. Flores
 Mayra Dennisse
 Flores-Valverde
 Michael Heard

Ryan Christopher Krysiak
 Xiang Li
 Renxi Liu
 Nathan R. Lotze
 Leslie Marie Guylaine Andree Malher
 Melanie Ariel Murphy
 Han Qi
 Gabriela Michelle Rivera
 Giancarla Kristel Rojas Mendoza
 Danielle Saralegui
 Tyler Jacob Stone
 Frank Douglas Sturek Jr.
 Yiyang Tang
 Shan Zhang
 Jason Matthew Zimmermann

Program in International Security

Master of Arts

Ryan M. Berry
 Bridger Gregory Bissell
 Warren George Bloom
 Brian Boone
 Dejza Nicole Brower+
 Bruno Garbeto Carvalho
 Aaron J. Clarke
 Amanda Darby
 Elizabeth Deahl
 Elina Driscoll

Andrew J. Eberly-Howerton
 Samuel J. Erger
 Jacob John Ferguson
 Teodora Georgieva
 Alexander C. Geyer
 Faith E. Hawkins
 Joshua E. Henderson
 Voke Ashley Kalegha
 Jordan L. McFadden
 Connor Douglas Monie
 Natalie Layne Morano
 Cody Pasielski
 Nicholas Dustin Pilley
 Blaze D. Ray
 Autumn Lynne Richards
 Shahrad Shahseta
 Laila C. Smith
 Ho Seob Song
 Mackenzie N. Staber
 James Randolph Suber
 Grace Wakim
 Samuel Shires Wilson

Program in Organization Development and Knowledge Management

Master of Science

Rachel T. Adamos
 Nathaniel Joseph Becker
 Aliza Brown
 Friderike Annette Butler

Alice Carpenter-Pierce
 Khudadad Cheema
 Munkhchimeg Dashnyam
 Angela D'Iorio
 Audrey Rose Ford
 Susan L. Johnson
 Jacqueline Marie Kalinowski
 Samantha Brienne Kopf
 Ajay Narayanan
 Gabriela Alexandra Padilla Cespedes
 John Gustav Peterson
 Lea M. Pickett
 Madiha Rizwan
 Lyndsea Brooke Seril
 Ramsha F. Sultan
 Jacob Thompson
 Maria Antonieta Torres Ornelas

Program in Peace Operations

Master of Science

Margaret Adele Love

Program in Political Science

Master of Arts

Fahad Mohammed A Al Hashan

+Indicates University Scholar

Alexander Morgan Davies
Curtis K. Edmonds
Ashley Frederickson
John Holt
Carl C. Lewelling
Jennifer Therese Lovell
Hannah A. Lutz
Kourtney Miller
Ali Nayyef
Cormac P. O'Rourke
Lois Osborne
Younan Zhao

Program in Public Administration

Master of Public Administration

Deborah Acheampong
Louie Al-Hashimi
Kenneth P. Balbuena
Caroline T. Ball
Samantha Lynne Brien
Maura Ann Carroll
Mary Catherine Christesen
Emily M. Collins
Charles Javon Cooley
Katisha Chamara Cooper
King
Taylor A. Cooper
Daniel Sullivan Creed
Nana Yaa Anyamah Dankyi
Matthew C. Dehler
Ashley N. Delinay-Patton
Anh Detrick
David John Dixon
Holly Marie Eichhorst
Julia Fiala
Alison B. Firich
Neil C. Gavigan
Whitney Alixandra Green
Keith Grupposo
Colleen Mary Harwood
Kevin P. Hines
Nakish Jordan
Tyler J. Joyave
Jaskiran Kaur

Ryan Michael Kennedy
Darcy Kipp Kim
Natasha Maryah King
Brian K. Larkin
Emily Grace Skaggs
Lawrence
Bradley M. Libby
Jessica Martin
Bobbi Mason
Aripra R. Mohan
Robert Moreau
Haley Mustone
William C. Neely
Emelia Rebecca Newstead
Augusta Nissly
Ankur B. Patel
Douglas Bruce Petersen
Alicia M. Pettis
Jennifer Lynnette Prioleau
Matthew Puia
David Reaves
Emily E. Reilly
Brian Scott Ritchey
Emily Ann Rogers
Savannah Schafer
Natalie Ruth Schultz
Bethany Ayana Showell
Chelsea Skovran
Michael Patrick Snellings
Amber Elizabeth Styles
Saba Aliye Teferra
Justin Karl Valentine
Michele Watson Crone
Brandi Weachter
Michael Jenkins White
Sterling Girard Wiggins
Andrew C. Wright
Kendall Paige Young
Helen Yu
Tamar Zakaraia

Program in Public Policy

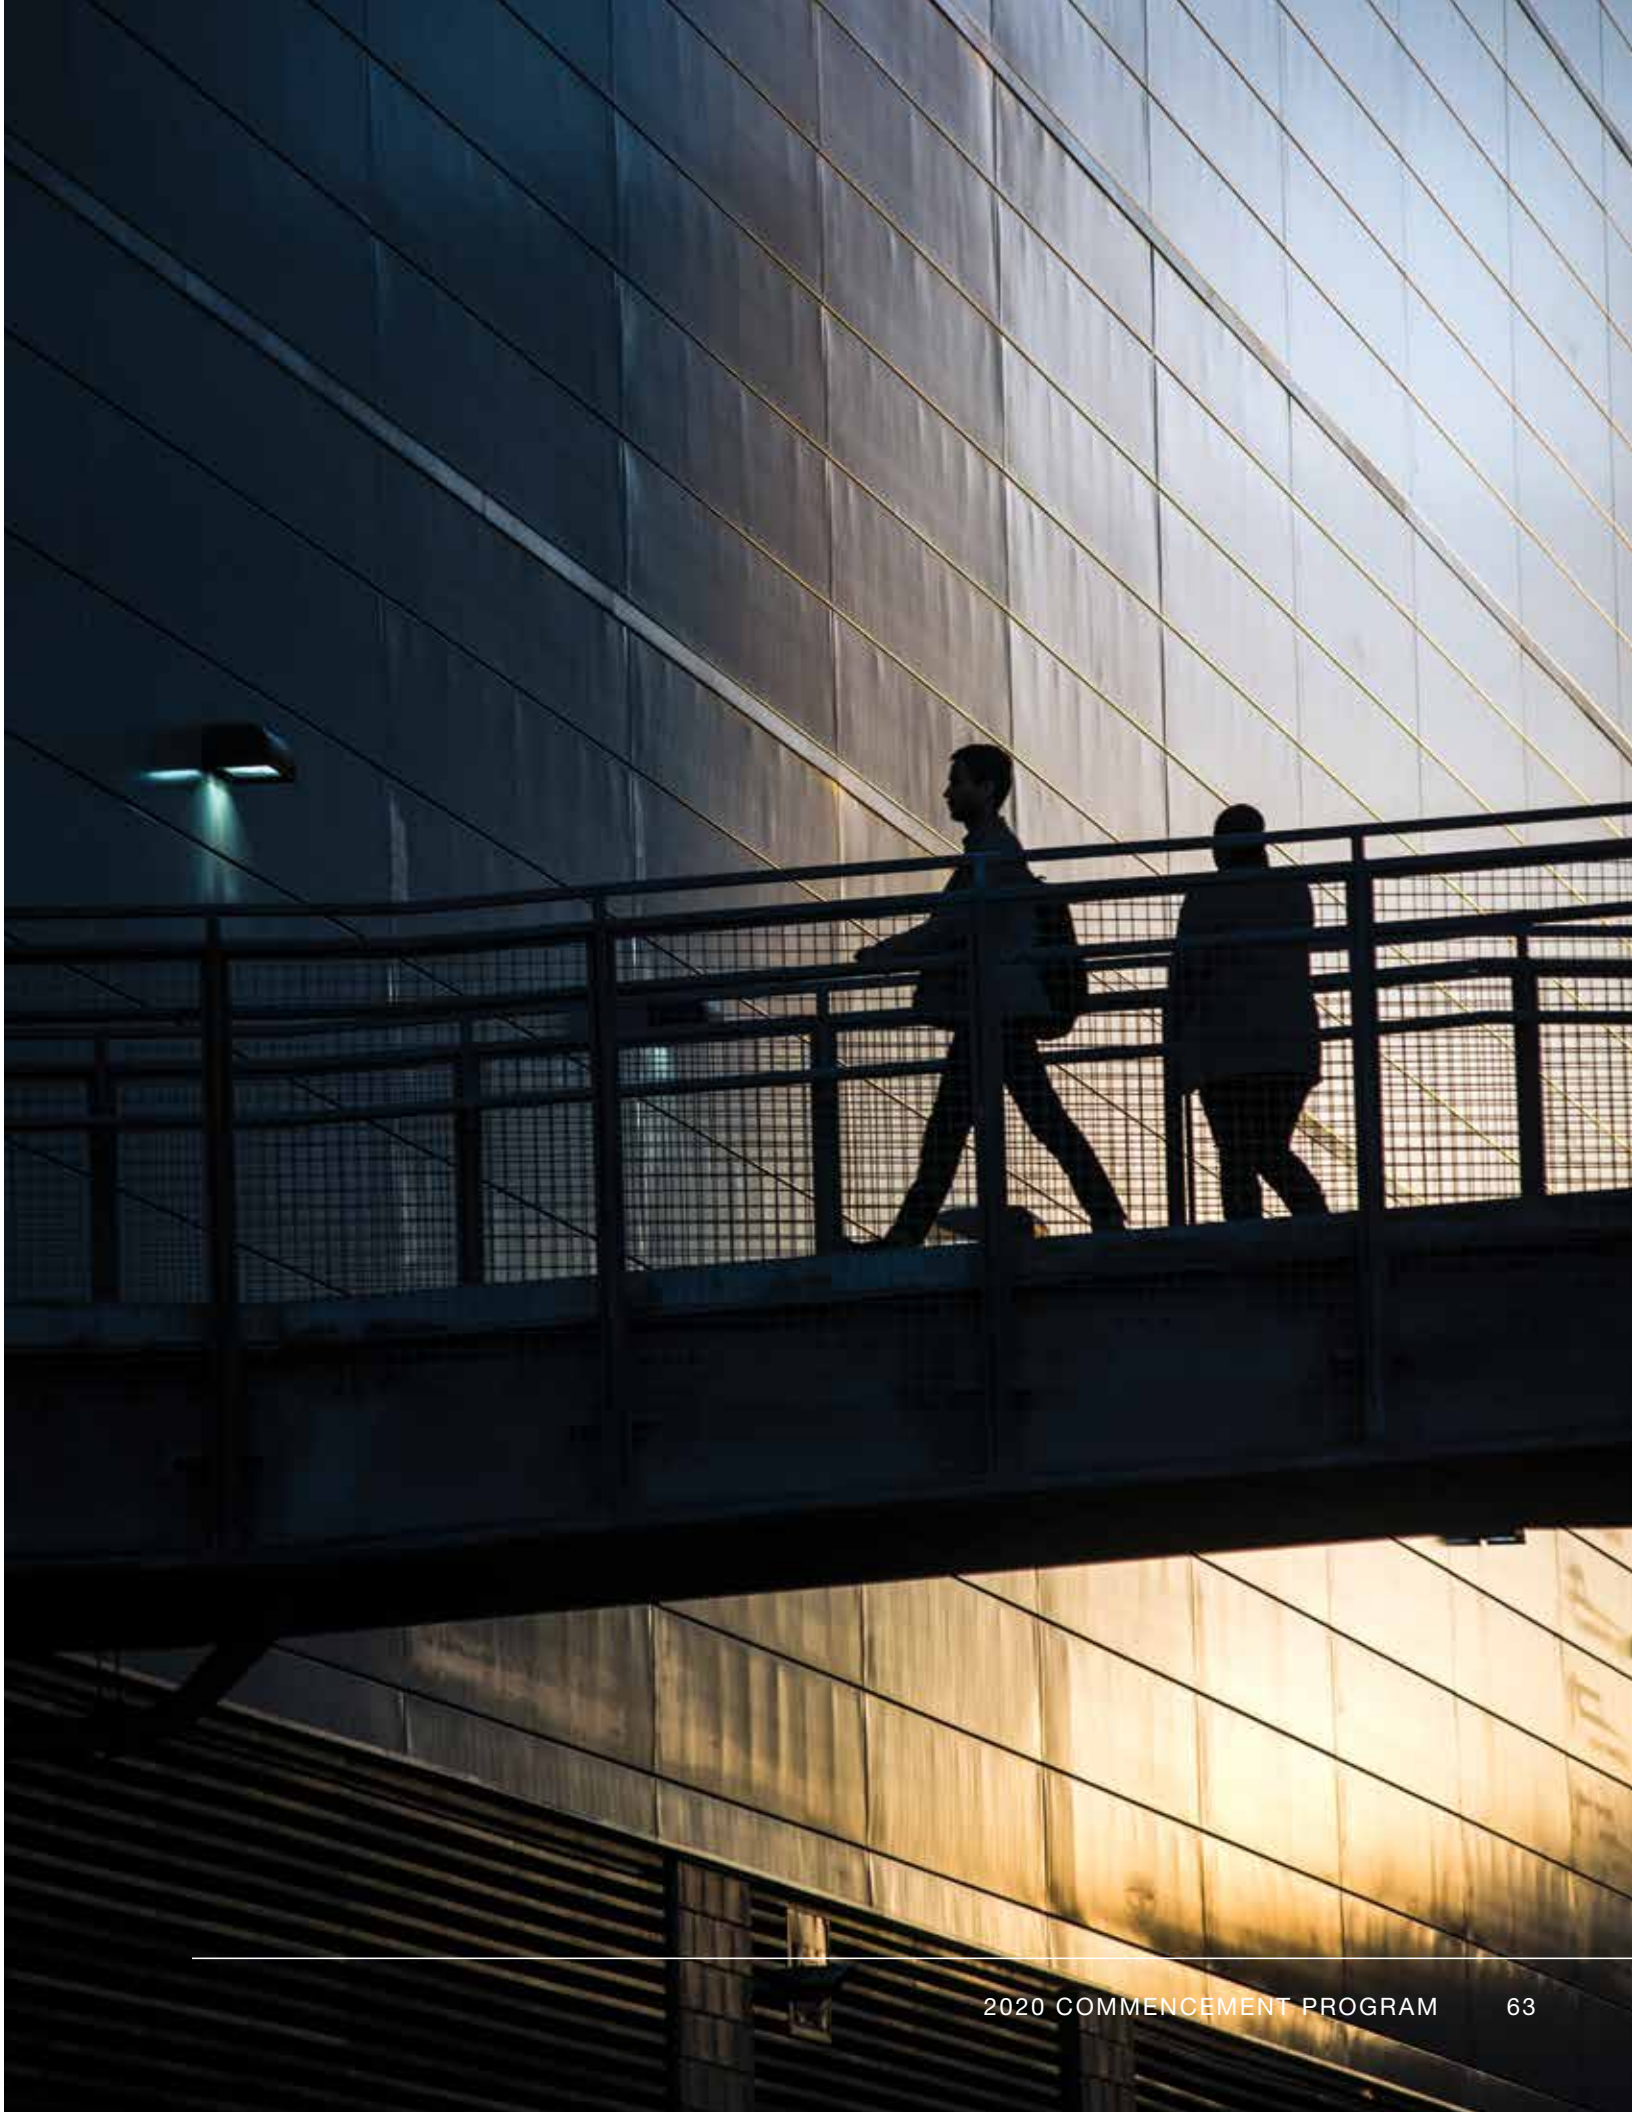

Master of Public Policy
Eric De'Andre Adams

Karl Gustav Becker
Jason Bowers
Cody Austin Bowles
Benjamin Patrick Broadmeadow
Erin Brown
Ian Patrick Chamberlin
Laura Chambers
Benjamin Bryson Christensen
Kelly E. Clayton

Doctoral Programs

Doctor of Musical Arts

Lisa Clare Eckstein

The Wind Band Music of Mark Camphouse: A Study of Twelve of His Musical Compositions, His Characteristic Sound, and the Inspiration behind His Works

Advisor: Charles Ciorba, PhD, Reva and Sid Dewberry
Family School of Music

Estrella Sejin Hong

Musical Geometry of Chords and Melodies Based on the Atomic and Molecular Models

Advisor: Tom C. Owens, PhD, Reva and Sid Dewberry
Family School of Music

Leigh Pilzer

Gerry Mulligan, Soloist: Transcription and Analysis of His Small-Group Solos on "Line for Lyons," "Curtains," and "The Flying Scotsman"

Advisor: Gregory J. Robinson, PhD, Reva and Sid Dewberry
Family School of Music

Christopher J. Redden-Liotta

Hugo Distler's Der Jahrkreis: A Pedagogical Journey through the Church Year

Advisor: Lisa Billingham, DMA, Reva and Sid Dewberry
Family School of Music

Benjamin Ryer

Reviving, Continuing, and Transforming: Stylistically Varied Approaches to Klezmer in the Late 20th and Early 21st Centuries

Advisor: Jesse Guessford, DMA, Reva and Sid Dewberry
Family School of Music

Mark R. Thiele

The Original Wind Band Commissions of "The President's Own" United States Marine Band

Advisor: Tom C. Owens, PhD, Reva and Sid Dewberry
Family School of Music

Doctor of Nursing Practice

Heather Alsup-Morton

Implementing the DHA PI #6025.04 (Pain Management and Opioid Safety in the Military Health System) at Fort Belvoir Community Hospital

Advisor: Rebecca Sutter, DNP, APRN, FNP-BC, School of Nursing

Karleny Ivonne Beltran Alvarado

Becoming a Health Literate Organization: A Universal Precautions Approach to Address Low Health Literacy

Advisor: Caroline Sutter, DNP, APRN, FNP-BC, School of Nursing

Peter Bizon

Mitigating Health Care Burnout

Advisor: Ana Stoehr, PhD, RN, School of Nursing

Devanne A. Chandler

Trauma-Informed Workshop at a Faith-Based Organization: Improving Awareness among Faith-Based Childcare Leaders

Advisor: Cathleen Scully, DNP, APRN, AGNP-BC, School of Nursing

Tracy K. Davidson

Virginia AHEC Scholar's Program: A Framework for Evaluation, Telling the Scholar's Story

Advisor: Caroline Sutter, DNP, APRN, FNP-BC, School of Nursing

Kimberly Ann Dexter

Assessing the Quality of a Telemental Health Training Initiative

Advisor: Rebecca Sutter, DNP, APRN, FNP-BC, School of Nursing

Katherine Heatherington Endres

Creating a Comprehensive Women's Reproductive Health Program in a Primary Care Setting

Advisor: Cheryl Oetjen, DNP, APRN, FNP-BC, School of Nursing

Pamela A. Fine

School Vape Prevention Toolkit: An Evidence-Based Program to Address the Teen Vaping Epidemic

Advisor: Tanya Haas, DNP, MSN, RN, School of Nursing

Simranjit Kaur Gulati

Keep the Elderly Safe and STEADI by Early Fall Risk Screening and Intervention Using the Stopping Elderly Accidents, Deaths, and Injuries (STEADI) Toolkit—A Quality Improvement Project

Advisor: Cathleen Scully, DNP, APRN, AGNP-BC, School of Nursing

Renee T. Hart

A Quality Improvement Plan for Integrating Behavioral Health into the Management of Chronic Pain

Advisor: Rebecca Sutter, DNP, APRN, FNP-BC, School of Nursing

Megan S. Harvey

Telemedicine for Vulnerable, Rural Populations: A Program Development for a Population Health Project

Advisor: Rebecca Sutter, DNP, APRN, FNP-BC, School of Nursing

Tanshanicka Shellamice Helem

“Save a Life in 20 Seconds”: Increasing Practitioner Awareness of Cervical Cancer Using Thermoablation as an Alternative Screen and Test Method

Advisor: Cheryl Oetjen, DNP, APRN, FNP-BC, School of Nursing

Enesha Hicks

Empowering ADN Students to Scale Barriers to BSN Pursuit

Advisor: Ana Stoehr, PhD, RN, School of Nursing

Geetanjali Jain

A Quality Improvement Project to Improve Health Literacy and Medication Adherence by Leveraging Internet-Based Tools in Patients with Chronic Diseases in a Primary Care Setting

Advisor: Caroline Sutter, DNP, APRN, FNP-BC, School of Nursing

Leah Marie Kujawski

Female Athlete Triad Evaluation and Screening in Female Adolescent Athletes: A Quality Improvement Project

Advisor: Shanti Chang, DNP, APRN, FNP-BC, School of Nursing

Mary S. Lefande

Quality Monitoring in the Assisted Living Setting

Advisor: Cheryl Oetjen, DNP, APRN, FNP-BC, School of Nursing

Katherine Maas

More than Words: From Practice to Scholarship

Advisor: Cheryl Oetjen, DNP, APRN, FNP-BC, School of Nursing

Abdul Malike

Improving the Knowledge and Confidence of Hospice Informal Caregivers in Medication Administration at the End of Life

Advisor: Cathleen Scully, DNP, APRN, AGNP-BC, School of Nursing

Jessica M. McKee

Existing Barriers and Interventions to Increase the Rate of Tdap Vaccination during Pregnancy

Advisor: Shanti Chang, DNP, APRN, FNP-BC, School of Nursing

Francisco Batista Morin

An Educational Toolkit on Substance Use Disorders and Opioid Use Disorders for Nurses

Advisor: Rebecca Sutter, DNP, APRN, FNP-BC, School of Nursing

Laurie Navarrete

Increasing Health Literacy of Advance Care Planning by Utilization of a Clinician Communication Toolkit

Advisor: Cathleen Scully, DNP, APRN, AGNP-BC, School of Nursing

Gracia North

Preparing Undergraduate Nurses to Practice to the Full Extent of Their Education and Training: An Evidence-Based Curriculum Enhancement Plan

Advisor: Tanya Haas, DNP, MSN, RN, School of Nursing

Vaibhaviben Patel

The Upstream and Downstream Use of Probiotics: A Targeted Learning Program to Increase Evidence-Based Use of Probiotics in Primary Care

Advisor: Cheryl Oetjen, DNP, APRN, FNP-BC, School of Nursing

Kristina Leigh Rivera

Transforming Clinical Practice: Trauma-Informed Care and Resiliency Training in Nursing Programs

Advisor: Shanti Chang, DNP, APRN, FNP-BC, School of Nursing

Jill Shields

Enhancing the Nurse's Professional Development: An Evidence-Based Mentorship Model Utilizing Nurse Leaders as Mentors

Advisor: Tanya Haas, DNP, MSN, RN, School of Nursing

Nikki E. Soriano

Saving the Nurse-Patient Relationship: A Quality Improvement Project

Advisor: Tanya Haas, DNP, MSN, RN, School of Nursing

Reyna St. Germain

Identification and Navigation of High-Risk Children to Systems of Support: A Quality Improvement Project

Advisor: Caroline Sutter, DNP, APRN, FNP-BC, School of Nursing

Sara Beth Vandeginste

Bridging the Knowledge Gap of Problematic Media Usage: A Quality Improvement Project

Advisor: Tanya Haas, DNP, MSN, RN, School of Nursing

Teresa Vu

Elevating Maternal Mental Health Care through Routine Screening of Prenatal Depression

Advisor: Caroline Sutter, DNP, APRN, FNP-BC, School of Nursing

Alissa Wong

Screening for Anxiety in School-Aged Children in Primary Care

Advisor: Shanti Chang, DNP, APRN, FNP-BC, School of Nursing

Doctor of Philosophy in Bioengineering

Manjurul Alam

Quantification and Characterization of Biomechanical Factors Influencing the Rupture Potential of Idealized and Patient-Specific Intracranial Saccular Aneurysms under Contact Constraint

Advisor: Padmanabhan Seshaiyer, PhD, College of Science

Doctor of Philosophy in Bioinformatics and Computational Biology

Paul Aiyetan

A Quantitative Systems Biology and Mechanistic Model Approach to Synthetic Lethality—Defining Reaction and Regulatory Pathways of Targeted Cellular Death in Cancer Cells

Advisor: Iosif Vaisman, PhD, School of Systems Biology

Bader Alharbi

Computational Approach to Understand Epigenetic Mechanism Arising from 5-Methyl-Cytosine Patterns

Advisor: M. Saleet Jafri, PhD, Neuroscience Program and School of Systems Biology

Fahad Almsned

Understanding the Genetic Nature of Multiple Sclerosis Using Next-Generation Sequencing Genomic Analysis Methods

Advisor: M. Saleet Jafri, PhD, Neuroscience Program and School of Systems Biology

Richi Gupta

Investigating the Effect of Diet on Intestinal Microbiota Composition and Metabolic Functions in Pigs

Advisor: Patrick Gillevet, PhD, Department of Biology

June Kang

Computational Analysis of the Phylogenomic Relationships of Human and Simian Adenoviruses and the Cross-species Transmissions

Advisor: Donald Seto, PhD, School of Systems Biology

Kamil Can Kural

Solving the Mysteries of Aging through the Study of Rare Diseases

Advisor: Ancha Baranova, PhD, School of Systems Biology

William Lau

Distinct and Pan-Disease Immune Signatures Derived from Multi-Disease Cohorts with Diverse Clinical Phenotypes

Advisor: Iosif Vaisman, PhD, School of Systems Biology

Thomas C. McCarty

Customizable Virus Vaccine Design Using Computational Targeting of Protein Structures

Advisor: Iosif Vaisman, PhD, School of Systems Biology

Mariam Namaweje

Computational Analysis of the Steric Gate Region in the Y-Family DNA Polymerases

Advisor: Iosif Vaisman, PhD, School of Systems Biology

Manal Othman

Classification and Prediction of Antimicrobial Peptides Using N-gram Representation and Machine Learning

Advisor: Iosif Vaisman, PhD, School of Systems Biology

Roshan Paudel

A Multi-Scale Computational Approach to Understand Calcium Dynamics and Arrhythmogenic Disorders Caused by Mutations in RyR2/CASQ2 Expressing Genes

Advisor: M. Saleet Jafri, PhD, Neuroscience Program and School of Systems Biology

Srilatha Sakamuru

Prediction of Chemical Activity against Various Disease-Related Targets with Machine Learning Methods

Advisor: Iosif Vaisman, PhD, School of Systems Biology

Doctor of Philosophy in Biosciences

Aslaa Ahmed

Synthetic Antimicrobial Peptides as a Multi-Purpose Therapeutic Strategy to Treat Venezuelan Equine Encephalitis Virus Infection and Associated Inflammation

Advisor: Aarthi Narayanan, PhD, School of Systems Biology

Heather Branscome

Stem Cell Extracellular Vesicles as a Holistic Approach for CNS Repair

Advisor: Fatah Kashanchi, PhD, School of Systems Biology

Taryn Rose Brooks-Faulconer

Identification and Molecular Characterization of a Natural Plant-Derived Anti-HIV Compound, Ahah-100

Advisor: Yuntao Wu, PhD, School of Systems Biology

Bibha Dahal

Cellular Factors Impacting Venezuelan Equine Encephalitis Virus-Induced Astrocyte Cell Death

Advisor: Kylene Kehn-Hall, PhD, School of Systems Biology

Alexandra D. Hudson

Molecular and Functional Analysis of Age and Sex Differences in Nicotine-Induced Cellular Signaling and Synaptic Plasticity

Advisor: Karl Fryxell, PhD, School of Systems Biology

Stephen Kassinger

Francisella Toxin-Antitoxin Systems

Advisor: Monique van Hoek, PhD, School of Systems Biology

Sarah Pierson

The Effect of a Specific Heat Shock Protein 90 Inhibitor on HIV-1

Advisor: Yuntao Wu, PhD, School of Systems Biology

Daniel Pinto

Functional Effects of Extracellular Vesicles on HTLV-1 Transmission

Advisor: Fatah Kashanchi, PhD, School of Systems Biology

Michael Schuit

Improving Quantification of Low-Titer Ebola Virus Aerosol Samples

Advisor: Kylene Kehn-Hall, PhD, School of Systems Biology

Syeda Fatima A. Zaidi

Fecal Volatile Organic Compound Metabolomics and Its Clinical Applications

Advisor: Robin D. Couch, PhD, Department of Chemistry and Biochemistry

Doctor of Philosophy in Chemistry and Biochemistry

Carol Alexander Ajjan

Noncovalent Binding of Anthracene and Ciprofloxacin with Molecular Pseudophase: Fluorescence and pH Studies

Advisor: Gregory Foster, PhD, Department of Chemistry and Biochemistry

Haley S. Ball

Development of Novel Antibiotics Targeting the First Committed Enzyme in the Methylerythritol Phosphate Pathway: MEP Synthase

Advisor: Robin D. Couch, PhD, Department of Chemistry and Biochemistry

Hameed Ahmad Khan

Whipworms and Inflammatory Bowel Disease: A Comparative Metabolomics Analysis Using XCMS, MZmine 2 and MS-DIAL

Advisor: Robin D. Couch, PhD, Department of Chemistry and Biochemistry

Nickolaus Weise

Analysis of Premature Degradation to High Performance Aerospace Military Coatings

Advisor: Gerald Weatherspoon, PhD, Department of Chemistry and Biochemistry

Doctor of Philosophy in Civil and Infrastructure Engineering

Yashar Alimohammadlou

Landslide Forecasting: Inventory, Susceptibility, and Hazard Analyses

Advisor: Burak Tanyu, PhD, Sid and Reva Dewberry Department of Civil, Environmental, and Infrastructure Engineering

Mohammadjavad Esfandiari

An Integrated Optimization-Based Computational Framework for Progressive Collapse Analysis

Advisor: Girum Urgessa, PhD, Sid and Reva Dewberry Department of Civil, Environmental, and Infrastructure Engineering

Pouya Gholizadeh

Improving Safety Decision-Making among Specialty Contractors Using Statistical Analysis and Machine Learning

Advisor: Behzad Esmaeili, PhD, Sid and Reva Dewberry Department of Civil, Environmental, and Infrastructure Engineering

Arslaan Khalid

Multi-scale and Multi-temporal Processes for Improving Real-Time Total Water Level Forecasting

Advisor: Celso Ferreira, PhD, Sid and Reva Dewberry Department of Civil, Environmental, and Infrastructure Engineering

Tasnuva Rouf

Improving Hyper Resolution Soil Moisture Estimation

Advisor: Viviana Maggioni, PhD, Sid and Reva Dewberry Department of Civil, Environmental, and Infrastructure Engineering

Jennifer Solakian

On the Performance of Satellite-based Precipitation Products for Simulating Stream Water Quality

Advisor: Viviana Maggioni, PhD, Sid and Reva Dewberry Department of Civil, Environmental, and Infrastructure Engineering

Selina Jahan Sumi

Compound Urban Flooding: The Emerging Hazard for Large Metropolitan Areas

Advisor: Celso Ferreira, PhD, Sid and Reva Dewberry Department of Civil, Environmental, and Infrastructure Engineering

Doctor of Philosophy in Climate Dynamics

Teresa Cicerone

The Sensitivity of the Tropical Atmosphere to Changes in Mixed-Layer Depth and Ocean Heat Flux Convergence over the Indian Ocean

Advisor: Tim DelSole, PhD, Department of Atmospheric, Oceanic, and Earth Sciences

Abdullah al-Fahad

The Influence of Tropical Diabatic Heating and Midlatitude Static Stability on Subtropical Anticyclones

Advisor: Natalie Burls, PhD, Department of Atmospheric, Oceanic, and Earth Sciences

Doctor of Philosophy in Communication

Hilda Patricia Garcia Cosavalente

Reproductive Health Information Seeking Matters: Predictors and Perceived Barriers among Young Peruvian Women

Advisor: Gary L. Kreps, PhD, Department of Communication

George Kueppers

Exploring Relationships among Perceived Stigma, Self-disclosure, Social Support, and Help-seeking Behavior in the Context of College Students' Interpersonal Mental Health Communication: A Sequential Multi-methodological Approach

Advisor: Gary L. Kreps, PhD, Department of Communication

Linda E. Maguire

Cognitive, Functional and Narrative Improvements after Individualized Singing Interventions in Dementia Patients

Advisor: Gary L. Kreps, PhD, Department of Communication

Ayodeji Otusanya

"If You Hadn't Come to See Me, You Would Probably Be Dead": Exploring Health Communication and Intercultural Communication Issues Surrounding PCOS

Advisor: Mark C. Hopson, PhD, Department of Communication

Di Pei

Chinese Parents' Medical Decisions for Children: Why Do They Choose Self-medication with Antibiotics?

Advisor: Xiaoquan Zhao, PhD, Department of Communication

Justin Rolfe-Redding

Communicating Hope about Societal Issues: The Case of Climate Change

Advisor: Edward Wile Maibach, PhD, Department of Communication

Sergei Samoilenko

Deconstructing Ad Hominem Attacks to Counter Contrarian Campaigns on Climate Scientists

Advisors: Timothy Gibson, PhD, and Katherine E. Rowan, PhD, Department of Communication

Doctor of Philosophy in Computational Sciences and Informatics

Gideon Kwadzo Gogovi

Polymers and Biomolecules in Solvents: A Molecular Dynamics Study

Advisor: Jason Kinser, DSc, Department of Computational and Data Sciences

Yijun Wei

An Advanced Artificial Intelligence System for Investigating the Tropical Cyclone Rapid Intensification

Advisor: Ruixin Yang, PhD, Department of Geography and Geoinformation Science

Doctor of Philosophy in Computational Social Science

Annetta G. Burger

Disaster through the Lens of Complex Adaptive Systems: Exploring Emergent Groups Utilizing Agent-Based Modeling and Social Networks

Advisor: Andrew Crooks, PhD, Department of Computational and Data Sciences

Paul K. Cummings

Developing a Hybrid Machine Learning and Agent-Based Model to Examine Decision-Making Heuristics

Advisor: Hamdi Kavak, PhD, Department of Computational and Data Sciences

Talha Oz

Emojis as Social Cues for User Role, Diversity, Events, and Place

Advisor: Andrew Crooks, PhD, Department of Computational and Data Sciences

Melonie Kaye Richey

Modeling Forced Population Migration Using Agent-Based Models

Advisor: Hamdi Kavak, PhD, Department of Computational and Data Sciences

Melanie Swartz

Collective Stress in the Digital Age

Advisor: Andrew Crooks, PhD, Department of Computational and Data Sciences

Xiaoyi Yuan

Geo-Textual Data Analytics Exploring Places and Their Connections

Advisor: Andrew Crooks, PhD, Department of Computational and Data Sciences

Doctor of Philosophy in Computer Science

Nasrin Akhter

Summarization, Visualization, and Mining of Molecular Landscapes

Advisor: Amarda Shehu, PhD, Department of Computer Science

Ivan Avramovic

Combinatorial Algorithms in Sorting and Broadcasting

Advisor: Dana Richards, PhD, Department of Computer Science

Georgios Georgakis

3D Model-Assisted Learning for Object Detection and Pose Estimation

Advisor: Jana Kosecka, PhD, Department of Computer Science

Qian Hu

Machine Learning for Student Modeling and Forecasting

Advisor: Huzefa Rangwala, PhD, Department of Computer Science

Xiaosheng Li

Efficient and Effective Mining of Time Series

Advisor: Jessica Lin, PhD, Department of Computer Science

Li Liu

Fortifying Multi-tenant Cloud Environments via Improved CPU Management

Advisor: Songqing Chen, PhD, Department of Computer Science

Sahar Sadat Seyed Mazloom

Learning on Large Scale Data with Security and Privacy

Advisor: Dov Gordon, PhD, Department of Computer Science

Mohammad Arifur Rahman

Efficient and Interpretable Machine Learning Algorithms for Predictive Analyses in Metagenomic Data

Advisor: Huzefa Rangwala, PhD, Department of Computer Science

Katherine “Raven” Russell

Large Scale Ad Hoc Information Centric Networks in Disrupted Environments

Advisor: Robert Simon, PhD, Department of Computer Science

Doctor of Philosophy in Conflict Analysis and Resolution**Philip Abbott**

Participatory Action Research with Theravada Buddhist Monks: A Study of Buddhism for Education of Cambodia’s Peace Work

Advisor: Susan Allen, PhD, Carter School for Peace and Conflict Resolution

Gerhard Botha

What Is the Nature of Witnesses “Being Heard” in the South African Truth and Reconciliation Commission Testimonies?

Advisor: Leslie Dwyer, PhD, Carter School for Peace and Conflict Resolution

César Estrada Pérez

Genocidal Mexico: The Unfolding of Mass Violence, Radical Categorization, and the Narratives of the “War on Drugs”

Advisor: Douglas Irvin-Erickson, PhD, Carter School for Peace and Conflict Resolution

Carol Daniel Kasbari

Everyday Resistance in the Occupied Palestinian Territories: A Study of the Tactics of Sumud and Their Effects on Power

Advisor: Richard Rubenstein, PhD, Carter School for Peace and Conflict Resolution

Saba Kidane

Post-Conflict Regime Transition in Sub-Saharan Africa: The Case of Eritrea and Namibia

Advisor: Juliette Shedd, PhD, Carter School for Peace and Conflict Resolution

Lauren Kinney

Engaging with Uncertainty in Anticipatory Intelligence: Narrative Complexity and Conflict Dynamics

Advisor: Sara Cobb, PhD, Carter School for Peace and Conflict Resolution

Lisa McLean

Sowing Life in Place of Death: Gender, Protest, and the Search for Disappeared Migrants in Mexico

Advisor: Leslie Dwyer, PhD, Carter School for Peace and Conflict Resolution

Julie Minde

Perceptions of Legitimacy of Maps and Mapping in Conflict Resolution

Advisor: Susan Allen, PhD, Carter School for Peace and Conflict Resolution

James Moon

The Tyranny of Piety: Power and Rhetoric in the Southern Baptist Convention Conflict

Advisor: Solon Simmons, PhD, Carter School for Peace and Conflict Resolution

Robert Nickels

Trans Lives in Patrolled Spaces: Stories of Precarity, Policing, and Policy in Washington, D.C.

Advisor: Sara Cobb, PhD, Carter School for Peace and Conflict Resolution

Nina Selwan

Reflection in the Field of Peacebuilding

Advisor: Karina Korostelina, PhD, Carter School for Peace and Conflict Resolution

Jessica Smith

Visualizing Voice: Framing Peace and Agency in Bosnia-Herzegovina

Advisor: Sara Cobb, PhD, Carter School for Peace and Conflict Resolution

Zhala Sultanli

Commemorations and the Politics of Memory: Narrative Dynamics and the Memory of the Second World War in Moldova

Advisor: Sara Cobb, PhD, Carter School for Peace and Conflict Resolution

Molly Tepper

Identity Security and the Just Society: An Approach to Conflict Analysis and Resolution

Advisor: Karina Korostelina, PhD, Carter School for Peace and Conflict Resolution

Laura Villanueva

Local to Global Peace: Japanese Civilians Actively Working for Peace

Advisor: Susan Allen, PhD, Carter School for Peace and Conflict Resolution

Robert Wellington

Sexual Orientation and Gender Identity as Cross-Cutting Identities in the Israeli-Palestinian Conflict: The Experience of LGBTQ Israeli Human Rights Activists

Advisor: Susan Allen, PhD, Carter School for Peace and Conflict Resolution

Carissa Western

Elusive Empowerment: Assessing the Impacts of Conflict on Gendered Relations, Identities and Opportunities in Northern Uganda

Advisor: Leslie Dwyer, PhD, Carter School for Peace and Conflict Resolution

Doctor of Philosophy in Criminology, Law and Society**Matthew D'Anna**

Black Swan Shootings: A Model for Predicting the Worst of the Worst Mass Shootings

Advisor: Christopher Koper, PhD, Department of Criminology, Law and Society

Sara Debus-Sherrill

Measuring Correctional Victimization: Modern Day Methods for an Age-Old Problem

Advisor: Danielle S. Rudes, PhD, Department of Criminology, Law and Society

Kate Doyle Feingold

Teaching Youth Their Miranda Rights: A Randomized Controlled Trial

Advisor: Linda M. Merola, PhD, Department of Criminology, Law and Society

Jennifer Lerch

Understanding Substance Use Trajectories among Probationers and the Impact on Re-arrest

Advisor: Danielle S. Rudes, PhD, Department of Criminology, Law and Society

Doctor of Philosophy in Cultural Studies**Sitah AlQahtani**

The Biopolitical Dimension of the Representation of Images of Atrocity: Newspaper Coverage of Serbian-Run Concentration Camps and Abu Ghraib Prison

Advisor: Alison Landsberg, PhD, Department of History and Art History

Melissa Beard

Reclaiming My Family's Story: Cultural Trauma and Indigenous Ways of Knowing

Advisor: Eric Gary Anderson, PhD, Department of English

Sarah Carpenter

With/In Limits: Play as Practice in the Digital Vernacular

Advisor: Roger N. Lancaster, PhD, Cultural Studies Program

Savannah Fetterolf

The Canon According to Google: A Critical Examination of the Arts and Culture Platform

Advisor: Alison Landsberg, PhD, Department of History and Art History

Kayla Keener

The Affect of Labor: The Production of Authenticity and Intimacy in Etsy, Kiva and Twitch

Ms. Amina J. Mohammed, Honorary Doctor of Humane Letters
Ms. Zainab Salbi*, Honorary Doctor of Humane Letters

**Denotes George Mason University Alumni*

The George Mason Medal

The George Mason Medal is designated by the George Mason University Board of Visitors to be the university's highest honorary award.

This medal is designed to honor George Mason, the man. Those receiving the award should have a record of service to their community, state, or nation consistent with the level and quality of George Mason's public service in his own time. George Mason, a native of Northern Virginia, was never elected to public office, but he was a public leader in the cause of freedom during the Revolutionary War and the formative years of the United States of America.

The George Mason Medal is awarded from time to time at the university's annual commencement exercises with a special and distinct place reserved on the program for the presentation of the medal.

Recipients

1980s

Mr. John T. Hazel Jr.

The Honorable John C. Wood

The Honorable Omer L. Hirst

1990s

The Honorable Dorothy McDiarmid

About the University Mace

George Mason University formal ceremonies begin with the entrance of the university mace, which features Mason's seal highlighting freedom and learning and is carried in the procession by the lead university marshal. The tradition of the mace derives from medieval times when a bodyguard held a mace during ceremonial functions with the intention of protecting the royal or dignitary. The mace symbolizes the university's governing authority and is present only when the president and the Board of Visitors are in attendance.

Alma Mater

Patriot Pride

George Mason, George Mason
We honor you today
Our alma mater is the source of Patriot Pride
From far and near 'round the world we come
To learn side by side.

Our namesake, George Mason
Saw truths that few could see
Declaring all of humankind is equally free
His truths live today in the heart and soul of
our university.

We love our George Mason
We're proud of the green and gold
Those colors stay with us,
Those colors grow with us,
Those colors keep us Patriots
True and bold.

Welcome to the Alumni Association

Dear Patriots,

Congratulations on becoming a Mason alum! The George Mason University Alumni Association is excited to welcome this new class to our thriving community of more than 200,000 members. Earning your degree is an incredible achievement, and while your time as a student is over, your relationship with Mason is only just beginning.

As an alum, you now have access to so many great benefits, resources, and opportunities for staying engaged with the university. Our website, alumni.gmu.edu, can provide you with more information.

As you embark on your post-grad journey, remember to keep in touch and let us know about the great things that are happening in your life after Mason. The George Mason University Alumni Association is your lifelong connection to the university and we look forward to connecting with you.

Congratulations again for earning your degree, and remember, Once a Patriot, Always a Patriot!

With Patriot Pride,

The George Mason University Alumni Association

STAY CONNECTED ON SOCIAL MEDIA!
