| 4.1                   | <p><b>First Aid:</b></p> <p><u>Ingestion:</u> DO NOT INDUCE VOMITING! Consult physician immediately or contact the nearest Poison Control Center or local emergency number. Provide an estimate of the time and amount of the substance that was swallowed. Do not give anything by mouth to a convulsing or unconscious person.</p> <p><u>Eyes:</u> If product gets in the eyes, flush with copious amounts of lukewarm water for at least 15 minutes. If irritation occurs, contact a physician.</p> <p><u>Skin:</u> If irritation occurs and product is on the skin, rinse thoroughly with lukewarm water, followed by a thorough washing of the affected area with soap and water for at least 15 minutes. Get immediate medical attention. If irritation persists, contact a physician immediately.</p> <p><u>Inhalation:</u> Remove victim to fresh air. If not breathing, clear victim's airway and start artificial respiration. If victim is having trouble breathing, give supplemental oxygen, if available. Seek immediate medical attention.</p> |

| 4.2                            | Effects of Exposure:                       | <p><u>Ingestion:</u> If product is swallowed, immediate burning in mouth, throat and abdomen and severe swelling of the larynx, skeletal muscle paralysis affecting the ability to breathe, circulatory shock and convulsions.</p> <p><u>Eyes:</u> It is anticipated that this material will be corrosive to the eyes upon direct or prolonged contact. Irritating to the eyes direct contact can produce severe eye damage.</p> <p><u>Skin:</u> It is anticipated that this material will be corrosive to the skin upon direct or prolonged contact. Irritating to skin in (especially in some sensitive individuals), direct or prolonged contact can produce severe irritation to the skin especially after prolonged and/or repeated contact.</p> <p><u>Inhalation:</u> Inhalation vapors and mist of products can produce irritation of mucous membranes; however, inhalation of vapors in excess of the levels listed in Section 3 (Composition and Ingredient Information) can cause central nervous system depression (e.g., drowsiness, dizziness, headaches, nausea).</p> |                                                                                                                                                                                                                                                                                                                         |  |  |        |  |   |              |  |   |                  |  |   |                      |  |   |      |      |       |
| 4.3                            | Symptoms of Overexposure:                  | Overexposure may aggravate existing conditions. Exposure to large concentrations can cause headache, irritation of the eyes, nose and throat, and, if long continued, drowsiness and lassitude, loss of appetite, and inability to concentrate.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                                                                                                                                                                                                                                                                                                         |  |  |        |  |   |              |  |   |                  |  |   |                      |  |   |      |      |       |
| 4.4                            | Acute Health Effects:                      | Olfactory fatigue may occur. Contact with the eyes may cause permanent damage. Harmful by inhalation, ingestion and through skin contact. Corrosive - causes burns. May cause CNS depression.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                         |  |  |        |  |   |              |  |   |                  |  |   |                      |  |   |      |      |       |

|--------------------------------|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.1                            | Spills: | <p>Before cleaning any spill or leak, individuals involved in spill cleanup must wear appropriate Personal Protective Equipment.</p> <p>For <u>small spills</u> (e.g., &lt; 1 gallon (3.8 L)) wear appropriate personal protective equipment (e.g., goggles, gloves). Maximize ventilation (open doors and windows). Remove spilled material with absorbent material and place into appropriate closed container(s) for disposal. Dispose of properly in accordance with local, state and federal regulations. Wash all affected areas and outside of container with plenty of warm water and soap. Remove any contaminated clothing and wash thoroughly before reuse.</p> <p>For <u>large spills</u> (e.g., ≥ 1 gallon (3.8 L)), deny entry to all unprotected individuals. Dike and contain spill with inert material (e.g., sand or earth). Transfer liquid to containers for recovery or disposal and solid diking material to separate containers for proper disposal. Remove contaminated clothing promptly and wash affected skin areas with soap and water. Keep spills and cleaning runoffs out of drains, municipal sewers and open bodies of water.</p> |

| 7. HANDLING & STORAGE INFORMATION |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 7.1                               | Work & Hygiene Practices: | Do not ingest. Do not get in eyes, on skin, on clothing. Avoid breathing vapor/ spray/ mist. Avoid prolonged contact with the product. After use, wash hands and exposed skin with soap and water. Do not eat, drink or smoke while handling product.                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 7.2                               | Storage & Handling:       | <b>KEEP OUT OF REACH OF CHILDREN.</b> Do not store above 50 °C (122 °F). Keep containers closed until used. Open containers slowly on a stable surface. Keep container closed tightly when not in use. Empty container may contain residual amounts of this product; therefore, empty containers should be handled with care. Keep product from entering sewers, drains, drinking water supply, or any natural waterway. Store containers in a cool, dry location, away from direct sunlight, other light sources, or sources of intense heat. Store away from incompatible materials (See Section 10, Stability and Reactivity). Material should be stored in secondary containers as appropriate. |
| 7.3                               | Special Precautions:      | Open containers slowly on a stable surface. Keep container tightly closed when not in use. Empty containers may contain residual amounts of this product; therefore, empty containers should be handled with care.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|                                                                                   |  |                                                        |  |  |                   |  |                               |                              |  |

| 8.2                                        | Ventilation & Engineering Controls:          | When working with large quantities of product, provide adequate ventilation (e.g., local exhaust ventilation, fans). Ensure that an eyewash station, sink or washbasin is available in case of exposure to eyes.                                                                                                                       |       |      |        |         |         |      |      |      |                                                                                                                                                                         |
| 8.3                                        | Respiratory Protection:                      | No special respiratory protection is required under typical circumstances of use or handling. If necessary, use only respiratory protection authorized per U.S. OSHA's requirement in 29 CFR §1910.134, or applicable U.S. state regulations, or the appropriate standards of Canada, its provinces, E.C. member states, or Australia. |       |      |        |         |         |      |      |      |                                                                                                                                                                         |
| 8.4                                        | Eye Protection:                              | Wear chemical splash goggles where there is a potential for eye contact. Use safety glasses with side shields under normal use conditions. If necessary, refer to U.S. OSHA 29 CFR §1910.133, Canadian standards, or the European Standard EN166.                                                                                      |       |      |        |         |         |      |      |      |   |
| 8.5                                        | Hand Protection:                             | Rubber or neoprene, when needed especially if it is anticipated that prolonged & repeated skin contact will occur during use of this product for routine industrial use. If necessary, refer to U.S. OSHA 29 CFR §1910.138, the appropriate standards of Canada or the EU member states.                                               |       |      |        |         |         |      |      |      |                                                                                      |
| 8.6                                        | Body Protection:                             | No special body protection is required under typical circumstances of use and handling. Wear appropriate protective clothing, long sleeves, coveralls or other as needed. If necessary, refer to appropriate standards of Canada, the EU member states, or U.S. OSHA.                                                                  |       |      |        |         |         |      |      |      |                                                                                                                                                                         |

## DEFINITION OF TERMS

A large number of abbreviations and acronyms appear on a SDS. Some of these that are commonly used include the following:

### GENERAL INFORMATION:

|                   |                                                                      |
|-------------------|----------------------------------------------------------------------|
| <b>CAS No.</b>    | Chemical Abstract Service Number                                     |
| <b>RTECS No.</b>  | Registry of Toxic Effects of Chemical Substances Number              |
| <b>EINECS No.</b> | European Inventory of Existing Commercial Chemical Substances Number |

### EXPOSURE LIMITS IN AIR:

|              |                                                                |
|--------------|----------------------------------------------------------------|
| <b>ACGIH</b> | American Conference on Governmental Industrial Hygienists      |
| <b>IDLH</b>  | Immediately Dangerous to Life and Health                       |
| <b>NOHSC</b> | National Occupational Health and Safety Commission (Australia) |
| <b>OSHA</b>  | U.S. Occupational Safety and Health Administration             |
| <b>PEL</b>   | Permissible Exposure Limit                                     |
| <b>STEL</b>  | Short Term Exposure Limit                                      |
| <b>TLV</b>   | Threshold Limit Value                                          |
| <b>TWA</b>   | Time Weighted Average                                          |

### FIRST AID MEASURES:

|            |                                                                                                                                                                                      |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>CPR</b> | Cardiopulmonary resuscitation - method in which a person whose heart has stopped receives manual chest compressions and breathing to circulate blood and provide oxygen to the body. |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### HAZARDOUS MATERIALS IDENTIFICATION SYSTEM: HMIS

#### HEALTH, FLAMMABILITY & REACTIVITY RATINGS:

|   |                 |
|---|-----------------|
| 0 | Minimal Hazard  |
| 1 | Slight Hazard   |
| 2 | Moderate Hazard |
| 3 | Severe Hazard   |
| 4 | Extreme Hazard  |

|                            |
|----------------------------|
| <b>HEALTH</b>              |
| <b>FLAMMABILITY</b>        |
| <b>PHYSICAL HAZARDS</b>    |
| <b>PERSONAL PROTECTION</b> |

#### PERSONAL PROTECTION RATINGS:

|          |                                                                                                                                                                                                                                                                                                                                                 |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A</b> |                                                                                                                                                                                                                                                              |
| <b>B</b> |                                                                                                                                                                           |
| <b>C</b> |                                                                                        |
| <b>D</b> |     |
| <b>E</b> |     |
| <b>F</b> |     |

|          |                                                                                                                                                                                                                                                                                                                                                 |
|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>G</b> |                                                                                        |
| <b>H</b> |     |
| <b>I</b> |                                                                                        |
| <b>J</b> |     |
| <b>K</b> |     |
| <b>X</b> | Consult your supervisor or SOPs for special handling directions.                                                                                                                                                                                                                                                                                |

|                                                                                                             |                                                                                                                          |                                                                                                                         |                                                                                                                  |

### OTHER STANDARD ABBREVIATIONS:

|                |                                                  |
|----------------|--------------------------------------------------|
| <b>Carc</b>    | Carcinogenic                                     |
| <b>Irrit</b>   | Irritant                                         |
| <b>NA</b>      | Not Available                                    |
| <b>NR</b>      | No Results                                       |
| <b>ND</b>      | Not Determined                                   |
| <b>NE</b>      | Not Established                                  |
| <b>NF</b>      | Not Found                                        |
| <b>SCBA</b>    | Self-Contained Breathing Apparatus               |
| <b>Sens</b>    | Sensitization                                    |
| <b>STOT RE</b> | Specific Target Organ Toxicity – Repeat Exposure |
| <b>STOT SE</b> | Specific Target Organ Toxicity – Single Exposure |

### NATIONAL FIRE PROTECTION ASSOCIATION: NFPA

| FLAMMABILITY LIMITS IN AIR:     |                                                                                                                                       |
|---------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| <b>Autoignition Temperature</b> | Minimum temperature required to initiate combustion in air with no other source of ignition                                           |
| <b>LEL</b>                      | Lower Explosive Limit - lowest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source  |
| <b>UEL</b>                      | Upper Explosive Limit - highest percent of vapor in air, by volume, that will explode or ignite in the presence of an ignition source |

### HAZARD RATINGS:

|                |                 |                                                                                     |
|----------------|-----------------|-------------------------------------------------------------------------------------|
| 0              | Minimal Hazard  |  |
| 1              | Slight Hazard   |                                                                                     |
| 2              | Moderate Hazard |                                                                                     |
| 3              | Severe Hazard   |                                                                                     |
| 4              | Extreme Hazard  |                                                                                     |
| <b>ACD</b>     | Acidic          |                                                                                     |
| <b>ALK</b>     | Alkaline        |                                                                                     |
| <b>COR</b>     | Corrosive       |                                                                                     |
| <b>W</b>       | Use No Water    |                                                                                     |
| <b>OX</b>      | Oxidizer        |                                                                                     |
| <b>TREFOIL</b> | Radioactive     |                                                                                     |

### TOXICOLOGICAL INFORMATION:

|                                                                                                                               |                                                                       |
|-------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|
| <b>LD<sub>50</sub></b>                                                                                                        | Lethal Dose (solids & liquids) which kills 50% of the exposed animals |
| <b>LC<sub>50</sub></b>                                                                                                        | Lethal concentration (gases) which kills 50% of the exposed animal    |
| <b>ppm</b>                                                                                                                    | Concentration expressed in parts of material per million parts        |
| <b>TD<sub>01</sub></b>                                                                                                        | Lowest dose to cause a symptom                                        |
| <b>TCLO</b>                                                                                                                   | Lowest concentration to cause a symptom                               |
| <b>TD<sub>01</sub>, LD<sub>01</sub>, &amp; LD<sub>01</sub> or TC, TC<sub>01</sub>, LC<sub>01</sub>, &amp; LC<sub>01</sub></b> | Lowest dose (or concentration) to cause lethal or toxic effects       |
| <b>IARC</b>                                                                                                                   | International Agency for Research on Cancer                           |
| <b>NTP</b>                                                                                                                    | National Toxicology Program                                           |
| <b>RTECS</b>                                                                                                                  | Registry of Toxic Effects of Chemical Substances                      |
| <b>BCF</b>                                                                                                                    | Bioconcentration Factor                                               |
| <b>TL<sub>m</sub></b>                                                                                                         | Median threshold limit                                                |
| <b>log K<sub>ow</sub> or log K<sub>oc</sub></b>                                                                               | Coefficient of Oil/Water Distribution                                 |
