

ARTERIALS

As many of you may know, I started in this business right out of college when I went to work for my Dad's company. With both my brother and sister already working there – it was a true family endeavor. When I launched Arteriors 29 years ago, it was always my dream for it to become "my" family business. As both my children and my business grew, I always hoped Tanner and Mackenzie would show an interest in the business, like I had at an early age. Well...it's finally happened. Two years ago, Mackenzie started working in product development after she graduated from Ole Miss. And just this past summer, Tanner joined our Contract division. It brings me such joy to have them working here alongside me and my extended family of customers, employees, suppliers and sales partners. It is truly a dream come true.

This catalog is also my opportunity to share a few other dreams my team has been working on this past year. From our new Upholstery collection to enhanced Custom capabilities for our contract customers and an international expansion that now includes certification in over 41 countries – we dream big at Arteriors...because Dreams do come true!

Once again, thank you for your ongoing support and loyalty.

Cheers,

A handwritten signature in black ink, appearing to read "Mark".

HUMAN *nature*

Many of our items are handmade and artisan-crafted, which is core to who Arteriors is. We seek sources that embrace traditional craftsmanship because we believe that the Human Touch is what makes a product artful and unique. That those small imperfections are the signature of the artisan, a way to know that your piece is distinctively yours, and has been handcrafted by a skilled individual.

We look at natural materials in the same way, embracing and celebrating Mother Nature's built in variances. Marble coloration and veining...cowhide pattern and color...wood grain...agate colorations...those deviations that once again confirm that you have a beautiful, unique piece like no other.

LAMPS

TANNER & KENZIE

Arteriors may have started as an accessory company 29 years ago, but we soon became known for innovative lamps with beautiful, handmade, hard back shades – most lined in fabric. Our diversity of materials, bold approach to scale, artisan sensibilities and a seemingly endless supply of classic design ideas have made our lamps favorites of designers, retailers and set designers. The fact that we stock and ship in 72 hours only further separates us from the competition.

CHANDELIERS & SCONCES

Often referred to as jewelry for the home, our chandelier, pendant and sconce designs exemplify the Arteriors aesthetic...mixing metal finishes, incorporating artesian techniques, playing with scale, resulting in an assortment that runs the gamut from modern to traditional, casual to elegant... something for everyone.

Many of our lighting fixtures are Damp Rated, signified by the water drop icon. That means these are approved for use in interior and exterior spaces subject to condensation...bathrooms, spas, covered patios and balconies.

FURNITURE

As we continually look for ways to grow, the addition of upholstery seemed like the next logical step. Please find our debut collection of upholstered seating which has a variety of options including 13 different fabric choices. Design your piece online, through your representative or at one of our showrooms. Made in the USA, each of these will beautifully complement a well-styled home just like the rest of our offering. In keeping with our artisan roots and appreciation for the handmade, all of our furniture is eclectic, unique and well curated featuring a variety of styles and materials. Diminutive drink tables to dining tables for eight, consoles to bar carts, our sophisticated furnishings will help you complete a room.

Please note we are now offering a selection of different sized glass tops for our pedestal dining tables.

ARTERIOS

FALL 2015 UPHOLSTERY COLLECTION

The Arteriors upholstery collection is designed with premium materials to provide a perfect balance of comfort and style. Each piece is handcrafted by artisans in the USA. We currently offer three fabric choices – Belgian Linen, Velvet and Leather in a variety of 13 color options.

Our standard No-Sag System consists of 8-gauge sinuous springs that are placed in a lateral direction with two 8-gauge runners mounted side-to-side for additional support.

All Arteriors upholstery comes standard with hypoallergenic foam with a polyester Dacron wrap. Seating upgrades are available on select frames.

All pillows are filled with a 90% Goose feather/10% Goose down blend.

We use a WOCA natural oil stain, which is plant-based, sustainable, and contains no artificial pigments or preservatives.

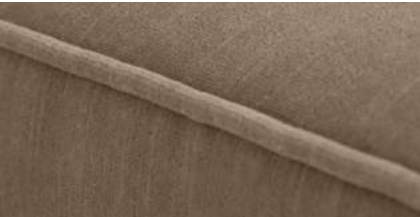

Our frames are constructed with FSC-Certified, kiln-dried 5/4 hardwoods that have been sustainably sourced and built to last.

*We offer a lifetime warranty on the frame.

FABRIC AND WOOD FINISH OPTIONS

100% Cotton Velvet*

Woven as a double cloth, the term “velvet” actually refers to the weave of the fabric, not the actual content itself. Velvet is characterized by durability, rich coloring and a soft hand.

100% Belgian Linen*

Linen fabric creates the perfect balance of beauty and brawn. Second only to silk in tensile strength, this 100% natural fiber is the natural choice if you are seeking a more relaxed look.

Leather*

Pure Aniline leathers are soft and “buttery” and will develop a rich patina over time, enhancing the appearance. Small surface imperfections are characteristic of high quality leather and are not to be considered defects.

Wood Finish Options

On our exposed wood we offer two low VOC wood stain - Dark Walnut or Grey Ash. These are hand applied and may have some color and grain variances.

*Dye lots and hide coloration can vary. Swatch samples are available to order online.

WALL DÉCOR

So much more than simply providing a reflection, mirrors and their placement have become an art form. No longer do we expect to see just one, alone, in the middle of a wall – multiples are now hung with an emphasis on the pattern they create, full-length mirrors are horizontal, and mirrors are leaning instead of hanging. Mirrors are no longer predictable!
