

## H-Series H135 Professional miniLab ISFET pH Meter with Calibration Buffer Set

**Product #:** H135

USD Price: \$293.00

Ships within 2 weeks

### H-Series miniLab H120, H125, and H128 Pocket pH Meters

Hach H135 miniLab Professional, featuring a pocket-size, waterproof, rugged pH meter. Allows for up to a three-point calibration. 15-mL dropper bottle of pH 4, 7, and 10 calibration buffers included. Durable non-glass solid-state (ISFET) pH sensor. Replaceable reference electrode. Minimum one-drop sample or calibration buffer volume.

#### Silicon chip non-glass pH sensor

Ideal for applications where glass is prohibited.

#### Stores dry with minimal maintenance

Silicon chip does not require storage solution.

#### 1-Point calibration on Model H130 (suggested range: 5.0 to 9.0 pH)

Buffer included

#### 1, 2, or 3-point cal on Models H135 and H138

Buffers in a convenient dropper bottle

#### Automatic temperature compensation (ATC)

---

## Specifications

|                               |   |
|-------------------------------|---|
| AC and USB Operation:         | -   |
| Accuracy:                     | Accuracy: $\pm 0.5^{\circ}\text{C}$   |
| Automatic Method Recognition: | pH 4.01, 7.00, and 10.01<br>pH 4.01, 6.86, and 9.18                         |
| Battery Life:                 | continuous warning with 10 hour advance low battery and automatic power off |
| Battery Requirements:         | 2, 3V (CR2032)  |
| Calibration:                  | 1-, 2-, or 3-point  |
| Compliance Certifications:    | CE, WEEE  |
| Dimensions (H x W x D):       | 20 mm x 33 mm x 155 mm  |
| Display:                      | LCD with Temperature  |
| GLP Features:                 | -   |
| Inputs:                       | -   |
| Interface Languages:          | English   |
| Internal Data Storage:        | -   |
| Output:                       | -   |
| Power Supply:                 | Batteries (see Battery Requirements)  |

|                           |                              |
|---------------------------|------------------------------|
| Repeatability:            | ± pH                         |
| Resolution:               | Resolución: 0.1 °C o 0.1 °F  |
| Sensor:                   | ISFET silicon chip pH sensor |
| Temperature Compensation: | to                           |
| Warranty:                 | 1 year                       |
| Weight:                   | 0.17 lbs. (0.077 kg)         |
