

## Amazon Seller Central

# Exemption sheet for Battery and battery-powered products

### What are Dangerous Goods?

A product will be regulated as dangerous good if any of its components are classified as dangerous goods or substances or are otherwise regulated by any official organization that governs safe transport, storage, or handling of goods.

For more information on dangerous goods, please consult the Dangerous Goods Identification Guide in Seller Central Help.

### Examples of Dangerous Goods

**Important note:** This exemption sheet is required and will be accepted only for **products that may contain batteries** (even if the batteries are not included with the product or if the product is to be plugged-in) or that are otherwise regulated as dangerous goods. If your product does not belong to that category but is otherwise regulated as dangerous good or contains hazardous substances (e.g. cleaners, essential oils, paint related products), please provide a Safety Data Sheet (SDS) (from the manufacturer) instead of a battery exemption sheet.

This exemption sheet must be **completely filled out** before being submitted: **all cells in red must be filled out** (move to the right). For **complete instructions**, please go to the **Instructions tab of this Exemption sheet**.

Date:

2019/6/12

First name:

MingerDirect

Last name:

**Disclaimer:** By submitting this document to Amazon, you **hereby confirm** that you have **checked the information you provide is correct**. In the case of **erroneous or incomplete information** in this exemption sheet, **Amazon reserves its right to take the corresponding actions without prior notice**. These actions include but are not limited to: blocked purchase order placement, classification and inbound delay of inventory at your expense.

*If there is anything else you would like to tell us about your products, please use this box to share comments.*

## Exemption sheet for Battery and battery-powered products - Instructions

This exemption sheet will be accepted for 19 ASINs maximum. If you want to provide information for more than 19 battery or battery-powered products, please submit a new template.

**Important note:** Cells in **RED** must be filled out, and cells in **BLACK** must be left empty.

### Page 1

1. Fill out your **first and last name** in the corresponding fields. Do not enter your company name:

First name:		Last name:	
-------------	--	------------	--

### Page 2

2. Enter the ASIN of your product (e.g. B0023M098N). Do not enter the UPC / EAN / FNSKU or the product name, only the ASIN:

<b>ASIN</b>
B0023M098N

3a. If your product is **not** a kit (does not come with additional battery or battery-powered devices): Enter the name of your product, **as it appears on the detail page** (Amazon webpage)

<b>ASIN</b>	<b>Product name</b>
B0023M098N	Powerbank S14KP

**Important note:** Do **not copy/paste** the product name directly from the detail page. Type it in instead, otherwise you may experience formatting issues.

3b. If your product **is a kit** (comes with different battery or battery-powered devices): Fill out one row per item within the kit, **even if the product is not sold with the battery**. The product name should then be the name of

<b>ASIN</b>	<b>Product name</b>
B0023M098N	Drone
B0023M098N	Remote Control

**Important note:** If your product includes **multiple items**, you must submit documentation for each item. For example, for a shaving kit with the shaver and a cleaning solution, you must fill out this exemption sheet for the battery item ("shaver") and submit a Safety Data Sheet for the chemical/substance item ("cleaning solution").

4. From the drop-down menu, select if the your product (or item within a kit) is sold with a battery / batteries or not. Select "Yes" **even if the battery is not removable and/or non-rechargeable**. If your product does not contain / is not a battery itself / is not sold with any batteries, then select "No":

<b>ASIN</b>	<b>Product name</b>	<b>Are batteries sold with the product or is the</b>
-------------	---------------------	--

ASIN	Product name	Are batteries sold with the product or is the product a battery?
B0023M098N	Powerbank S14KP	Yes

**Important note:** If you select "No" to the "Are batteries sold with the product or is the product a battery?" question, then **do not fill out any other columns** (battery chemical composition, battery packaging, etc.). If you do, the exemption sheet will be rejected as conflicting.

5. If you answered "Yes" to the "Are batteries sold with the product or is the product a battery?", please select from the drop-down menu what battery composition / type your product is / contains / is sold with:

ASIN	Product name	Are batteries sold with the product or is the product a battery?	Chemical composition / cell type of the battery
B0023M098N	Powerbank S14KP	Yes	Alkaline

6. If you have selected a **lithium** composition or type (CR2032, CR123A, CR123, lithium metal, lithium ion, 18650-Li-ion, lithium polymer) in column L, you must select a battery packaging type in the drop-down menu. Please select the packaging based on the definitions below:

- Select "**In equipment**" if the battery is preinstalled or assembled in the item (e.g. Kindle tablet)
- Select "**With equipment**" if the battery is packed with, but not inside, the device it powers. For example, a cell phone with the removable battery packed alongside the phone. If your product has both a battery preinstalled in the device (e.g. tablet) and a battery packed alongside (e.g. spare battery for the tablet), then
- Select "**Standalone**" if the product is a battery sold alone (e.g. replacement laptop battery) or if the battery is sold with items that it does not power (e.g. a spare cell phone battery sold with a charger). External battery chargers (e.g. powerbanks) are standalone batteries

ASIN	Product name	Are batteries sold with the product or is the product a battery?	Chemical composition / cell type of the battery	Battery packaging
B0023M098N	Powerbank S14KP	Yes	Lithium Ion	Standalone

**Important note:** If you selected a battery composition or type **other than lithium** in column L, do not fill out the "Battery packaging" question. If you do, the exemption sheet will be rejected as conflicting.

7. If you have selected a **lithium-ion** composition or type (lithium ion, 18650-Li-ion, lithium polymer) in column L, you must also provide the **energy content in watt-hours (Wh)** of your product. The Wh can usually be found printed on the battery itself or in the product's manual. It can also be calculated from the battery **nominal voltage (V)** and **amp-hour (Ah)** rating. A Wh calculator is available at the link below:

[Wh calculator](#)

ASIN	Product name	Are batteries sold with the product or is the product a battery?	Chemical composition / cell type of the battery	Battery packaging	Watt-hours
B0023M098N	Powerbank S14KP	Yes	Lithium Ion	Standalone	52 Wh

**Important note:** If you selected a battery composition or type **other than lithium-ion** in column L, do not fill out the "Watt-hours" column. If you do, the exemption sheet will be rejected as conflicting.

8. If you have selected a **Lead Acid** composition in column L, you must let us know if the lead acid battery is spillable or not. To know if your lead acid battery product is spillable or not, refer to the product manual. If you select "non-spillable", then the battery itself **must be plainly and durably marked "non-spillable"** or "**non-**

ASIN	Product name	Are batteries sold with the product or is the product a battery?	Chemical composition	Battery	Watt-
------	--------------	--	----------------------	---------	-------

ASIN	Product name	Do batteries sold with the product or is the product a battery?	Chemical composition / cell type of the battery	Battery packaging	Watt-hours	Spillability
B0023M098N	Powerbank S14KP	Yes	Lead Acid			Non-spillable

**Important note:** If you selected a battery composition other than **Lead Acid** in column L, do not fill out the "Spillability" column. If you do, the exemption sheet will be rejected as conflicting.
