FORD CO-PILOT360™ TECHNOLOGY

READY WITH AN ASSIST.

From the driveway to the highway, our driver-assist features¹ are designed to help you feel confidently in command. Transit Connect can even help you keep up when the weather changes quickly. Just set the standard Rain-Sensing Windshield Wipers to automatically activate, and let them do their work. With more available driver-assist features than any other vehicle in the class, Transit Connect is clearly a smart move.

FORD CO-PILOT360

PRE-COLLISION ASSIST WITH AUTOMATIC EMERGENCY BRAKING²

We should all drive defensively. By scanning the road ahead, this class-exclusive feature can alert you to potential collisions with vehicles or pedestrians detected in your path. If an impact is imminent and you don’t take action, brakes can apply automatically. It’s designed to only activate when needed.

Standard on every 2020 Transit Connect

BLIS® WITH CROSS-TRAFFIC ALERT

Changing lanes demands your full attention. Class-exclusive BLIS (Blind Spot Information System) can help by alerting you to vehicles detected in your blind spots.³ Cross-Traffic Alert helps by detecting and alerting you to traffic behind your vehicle as you’re slowly backing up.

Standard on XLT, TITANIUM; Available on XL

LANE-KEEPING SYSTEM

It happens. Listening to your favorite podcast, you wander too close to your lane’s edge. The class-exclusive Lane-Keeping System⁴ can help during a moment of distraction. If you drift out of your lane, it directs you with steering wheel torque to return, and can also alert you through vibration pulses. Stray a few times and a coffee cup icon lets you know it’s time for a break.

Standard on XLT, TITANIUM; Available on XL

AUTO HIGH-BEAM HEADLAMPS

Sound familiar? You turn on high beams entering a dark stretch of road – then forget to turn them off as traffic approaches. Auto High-Beam Headlamps can detect poor lighting and switch them on for you. They can also sense oncoming headlamps and dim automatically for other drivers.

Standard on XLT, TITANIUM; Available on XL

REAR VIEW CAMERA

Backing up requires a little multitasking. Our Rear View Camera helps by providing a great view of what’s behind your vehicle, helping you navigate Reverse with more confidence. It also helps when you’re lining up a trailer.

Standard on every 2020 Transit Connect

ADDITIONAL TECHNOLOGY

ADAPTIVE CRUISE CONTROL

Get help keeping pace on your journey. Class-exclusive Adaptive Cruise Control can maintain your selected speed and preset gap from the vehicle in front of you. If it detects traffic ahead slowing, your vehicle slows. When things clear, it can resume your set speed.

Available on XLT, TITANIUM

ENHANCED ACTIVE PARK ASSIST

Never pass up a potential parking space again. Class-exclusive Enhanced Active Park Assist makes it easy to park time after time – even in tight parallel or reverse perpendicular spots. Its sensors not only detect an appropriate spot, the system steers the vehicle into it while you control the brake, accelerator and shifter. It can provide assistance as you pull out of a parallel spot as well.

Available on TITANIUM

VOICE-ACTIVATED NAVIGATION

Taking the wrong exit can put a serious dent in your day. Stay confidently on course with our Voice-Activated Touchscreen Navigation System, which features SiriusXM® Traffic and Travel Link® services⁵ to help you avoid traffic, find fuel (gas or java), and so much more.

Standard on TITANIUM; Available on XL, XLT

Passenger Wagon TITANIUM. Blue. See owner’s manual for system limitations. ³BLIS replaces standard integrated blind spot mirrors. ⁴Lane-Keeping System does not control steering. ⁵Certain restrictions, 3rd-party terms and data rates may apply.
