-  Under weight (BMI less than 18)
-  Healthy weight (BMI between 18 and 24.9)
-  Overweight (BMI between 25 and 29.9)
-  Obese (BMI between 30 and 34.9)
-  Severly Obese (BMI between 35 and above)

Draw a line down from the weight of the patient. Draw a line across from the height of the patient. Where the lines meet is the Body Mass Index (BMI).

**Adult BMI assessment should be coded using ICD-10: BMI Value set Z68.1-Z68.45**
