EVERYTHING YOU NEED IN AUDIO VISUAL EQUIPMENT FOR YOUR SCHOOL

3 MONKEYS audiovisual

SPECIALISTS IN AUDIO VISUAL SYSTEMS FOR SCHOOLS

About Us

Formed in 2007 by founding director Francis Fragomeni, 3 Monkeys Audiovisual has grown into one of Perth's most respected AV design, supply and installation companies specialising in AV requirements for the Education market throughout WA.

With staff experienced in over 10,000 commercial & educational AV installation and hire jobs, you can be assured of the right system design & installation backed by training and ongoing support. We also bring the latest technology to schools such as our "EduTouch" interactive LED panels and our legendary "Triple PA" undercover area PA system.

With over 80 years of combined experience, our sales & design team prides itself on offering the best possible solutions for your school with unparalleled customer service.

Our School Audio Visual products and services include

- Undercover area PA and projection systems
- Interactive LED panels and Whiteboards
- Portable PA systems
- School theatre / stage lighting
- Automated bell/alert/evacuation systems
- Audiovisual equipment hire

Why choose us?

1. Reliable, quality audiovisual equipment that works
2. Expert advice on the right equipment and set up
3. Professional installation with a neat and tidy finish
4. Thorough training, personalised service, timely support
5. Reputable professional school AV specialists

Triple PA Sound System

Designed specifically for multipurpose **school halls and undercover areas**, our versatile system will provide clear intelligible sound for all of your school's events from school assemblies, right through to full school productions, sports carnivals, Anzac ceremonies and performances including visual presentations and movie nights.

Installed with 4 x 10" speakers and supplied with features such as:

- wireless microphones
- wireless bluetooth music connectivity
- laptop tray
- commercial grade CD/USB player.

The system is installed by pro technicians, tuned, tested and complimented with a fun and interactive staff training session so teachers & students will use it to its full potential.

System Features

- Combo equipment road case on lockable wheels
- Power distribution & surge protection system
- Professional audio mixing console
- Built In wireless microphone system with 2 x handheld wireless microphones *(more may be added on request*
- Large button commercial grade CD/USB/MP3 player
- Bluetooth connectivity for music playback
- Powerful dual channel amplifier
- Sliding tray for laptop or iPad
- Convenient lockable storage draw
- iPod/MP3 audio connection
- PC/Laptop audio connection *(laptop not included)*
- 4 x 10 inch commercial speaker system - Installed
- Expandability

THE 3 MONKEYS audiovisual TRIPLE PA SYSTEM

**Presentation**   **Performance**   **Public Address**

Connection

Connection of your Triple PA road case to your newly installed speaker system is quick and easy.

We install a speaker wall plate in a secure location where your road case will be housed (AV cupboard or store room) and two cables from the side of the road case are easily locked into the wall plate.

And you're away….it's that easy !

Speaker input wall plates

Equipment is fully protected when not in use

Heavy duty castors with "locks"

Installed Speaker System

Four 10 inch commercial grade speakers are permanently mounted with secure wall mount brackets and provide even coverage of sound throughout your undercover area or school hall.

These speakers are chosen for their durability and precise reproduction of vocal and music sources.

THE **3 MONKEYS** audiovisual TRIPLE PA SYSTEM

Presentation   **P**erformance   **P**ublic Address

Portable Speaker Kit

The Portable Speaker Kit is a multipurpose accessory, used independently of the installed speaker system.

This means you can simply unplug your Triple PA road case from the wall, wheel it to any other desired location and quickly plug in your *"portable speaker kit"* enabling you to have excellent audio for events such as:

- School Sports Carnivals
- Assemblies in locations other than your undercover area
- Anzac ceremonies
- School fetes
- Movie nights
- Discos
- Or as an extension to the installed speaker system eg: in Performance Overflow area/s (parents viewing area)

Additional speakers can be added to increase coverage as required.

This system includes:
- 2 x 12" speakers (larger than installed speakers)
- 2 x speaker stands (with carry bag)
- speaker leads.

Overflow Speaker Outputs

Additionally, the above portable speaker kit can be utilized to expand the coverage of an installed speaker system (Parent overflow area).

This requires inclusion of the optional **Overflow Speaker Output** plates during installation.

"NOW THAT'S CLEVER!"

THE **3 MONKEYS audiovisual** TRIPLE PA SYSTEM

Presentation **P**erformance **P**ublic Address

Choir Microphone Kit

Connected to your Triple PA system, these sensitive microphones will pick up on stage performers and transmit audio through your newly installed speaker system.

The kit consists of :

- 2 x Professional Choir Microphones
- 2 x heavy duty microphone stands
- 2 x long microphone leads to connect to the Triple PA System.
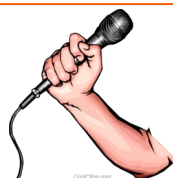

hand held wireless

head worn wireless

lapel wireless

hand held cabled

Wireless Microphones

Your Triple PA system may be configured with any wireless microphone option of your choice.

Additional to hand held wireless microphones some schools also consider the inclusion of head worn microphones for:

- School Productions
- Dance Instructors
- Physical Education Instructors
- Presenters who wish to remain "hands free'

hand held wireless & optional mic stand

Undercover Area Projection

Consisting of high-grade components and a simple "one touch" operating system our **Undercover Area Projection Solutions** offer schools bright and powerful projection with a fully automated electric screen and a simple to operate wall connection plate.

Your investment is protected in a sturdy projector cage, guarding it from ball sports or possible theft.

Our one touch solution eliminates the requirement for complex remote control units that are often lost, broken or require new batteries.

Operation of the system is intuitive and requires very little staff training.

Site Visit

We start with an obligation free site visit. One of our friendly and   experienced staff will measure the dimensions of your undercover area as well as the existing amount of ambient lighting in order to best recommend the right projector & screen size for your area.
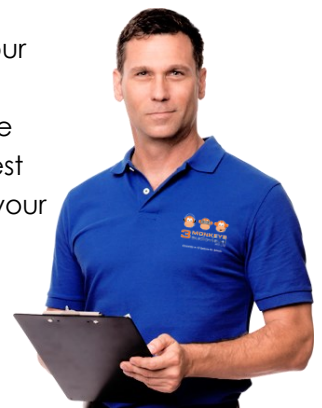

Projector & Cage

3 Monkeys AV uses a high quality/high output projector (usually between 5000 to 7000 ansi lumens) as most of your presentations will be made *during the day.*

The result is far better picture quality than using smaller light output projectors.

Screen

Our screens are carefully chosen for their optimum fabric quality. The result… bright, vibrant images and longer lasting results.

Screen size is : 130" (16:10) image size 2800 x 1750mm or will be determined by available space.

Transmission

Transmitter for HDMI or VGA/audio

This slick looking panel will allow _simple and easy_ connection from either a dvd player or laptop via either VGA or HDMI connections…. Simple!

This can be set to _auto switch_ between whichever input is connected.

Cost Saving Green Control Solution
With Auto Shut Down Feature

Ease Of Use:
This wall mounted control system will turn on the projector, lower your screen and automatically select the input source, i.e. HDMI or VGA connection.

This system **eliminates the requirement for complex remote control units** that are often lost, broken or require new batteries. Operation of the system is intuitive and requires very little staff training.

Cost Savings:
The system's _auto shut off feature_ automatically shuts down the projector after a period of inactivity. This environmentally friendly feature **saves on electricity usage and cost** as well as extending projector lamp life.

The cost and environmental savings don't stop there.

Minimizing lamp life results in **reduced wastage of lamps** as well as projector servicing and repairs.

The inclusion of a **Cost Saving Green Control Solution** is a true investment in your audiovisual system as well as environment.

supporting
carbon**neutral**
Turn Emissions into Trees®
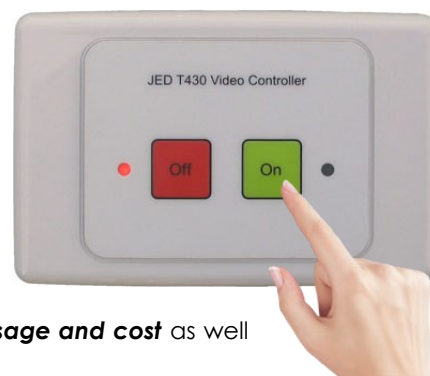

For every Green Control system sold and installed by 3 Monkeys Audiovisual, we donate funds to Carbon Neutral to plant 10 Trees for Revegetation in WA.

You've upgraded your pa and projection systems… but can your audience SEE the performers?

Our **Lighting Solution** will add that "slick-wow" factor and are supplied with a pre-programmed lighting console and full post installation training.

Pre-programmed lighting scenes are accessed by simply moving a clearly labelled control lever (fader).

Staff and students will have the option to expand their creativity with future assemblies, school productions or awards ceremonies.

Two **lighting bars** are carefully positioned and installed in a suitable location above your performance area.

These bars are equipped with 4 high powered and eco friendly LED stage lights (8 in total) and all power cables located within the lighting bar.

Lighting Controller

Our lighting controller gives you all the manual controls and automation you need to get the most out of your LED lights.

Best of all, **it's so easy to use** you don't need to be a lighting expert to run it.

We program "scenes" in this control system so that you may simply push a button to access different lights.

Full training is supplied post installation

Never miss another school bell

Easy to Use

We make it simple, painless & easy to use….

With a combined team experience of over 80 years in the Audio and Visual Industry, 3 Monkeys Audiovisual is highly endorsed by many satisfied Educational Institutions.

We custom design & install effective and simple to use Automated School Bell/Paging Systems, complete with Alert Tone Generators.

It all starts with a site visit to your School by one of our friendly, approachable and highly informative team members. We listen to your needs, make recommendations and then design your system to suit your School's needs.

Our install team is part of our company...we do not sub-contract any work! This ensures our high level of quality control and your premises are left clean and tidy upon completion.

All of our systems are backed by our 2 year warranty and come with full staff training upon final hand over.

desk top mic   outdoor speakers   indoor speakers

Programmed timer with your school bell times—up to 50 events per day including Australian Standard Tones (Bell, Evac, Alert, etc...) OR ANY tone, voice, music or audio message of your choice.

Easy 1 button Evac/Alert.

Easy to use… Never miss another school bell 🙂

Lectern Package

The high quality **3 Monkeys AV** lectern is stylishly designed and without the heavy barrier look of older style lecterns, will be a valuable addition for all of your School's assemblies, award ceremonies or presentation nights.

A full width work area will easily accommodate a double width foolscap file or laptop together with a practical size lip at the bottom.

Four enclosed castor wheels make it easy to manoeuvre, each wheel equipped with locks for added safety.

Features

- A full width courtesy tray with welded steel support allows a glass of water, laser pointer, A/V controller

- The work area is at a comfortable working angle

- The cleverly designed steel framework is strong and practical yet gives an aesthetically pleasing and balanced appearance

- Heavy duty powder coat paint work ensures a durable presentation

- Designed to accept custom logos and artwork *(optional extra)*

Accessories: Gooseneck Microphone, LED light, power supply & cable

- High quality 18 inch lectern microphone

- LED gooseneck light with power supply

- 20 metre microphone cable

gooseneck mic   **lectern light**   **connection cable**

Fold & Roll Staging

The **3 Monkeys Fold & Roll School Staging Solution** is the proven solution for a growing list of Schools who require a stage which is fast and easy to erect and store.

In fact it only takes one person to operate this stage.

The complete unit is simply wheeled along on its easy glide castor wheels into position, the wheels are locked and the stage deck is lowered. The gas-struts make lowering and raising the deck a smooth operation.

This unique Australian design eliminates pinch points, heavy lifting and the need for more than one person to operate the staging system.

Each Fold & Roll podium may be used singularly or join multiple Fold & Roll units simply & safely together in a variety of size and shape configurations.

Once the stage is no longer required, storage is not an issue as the stage deck units store upright slotted compactly together - a minimalist mobile storage solution.

Optional stage skirting and backdrop curtains also available on request.

Shown here with optional side step & stage skirting
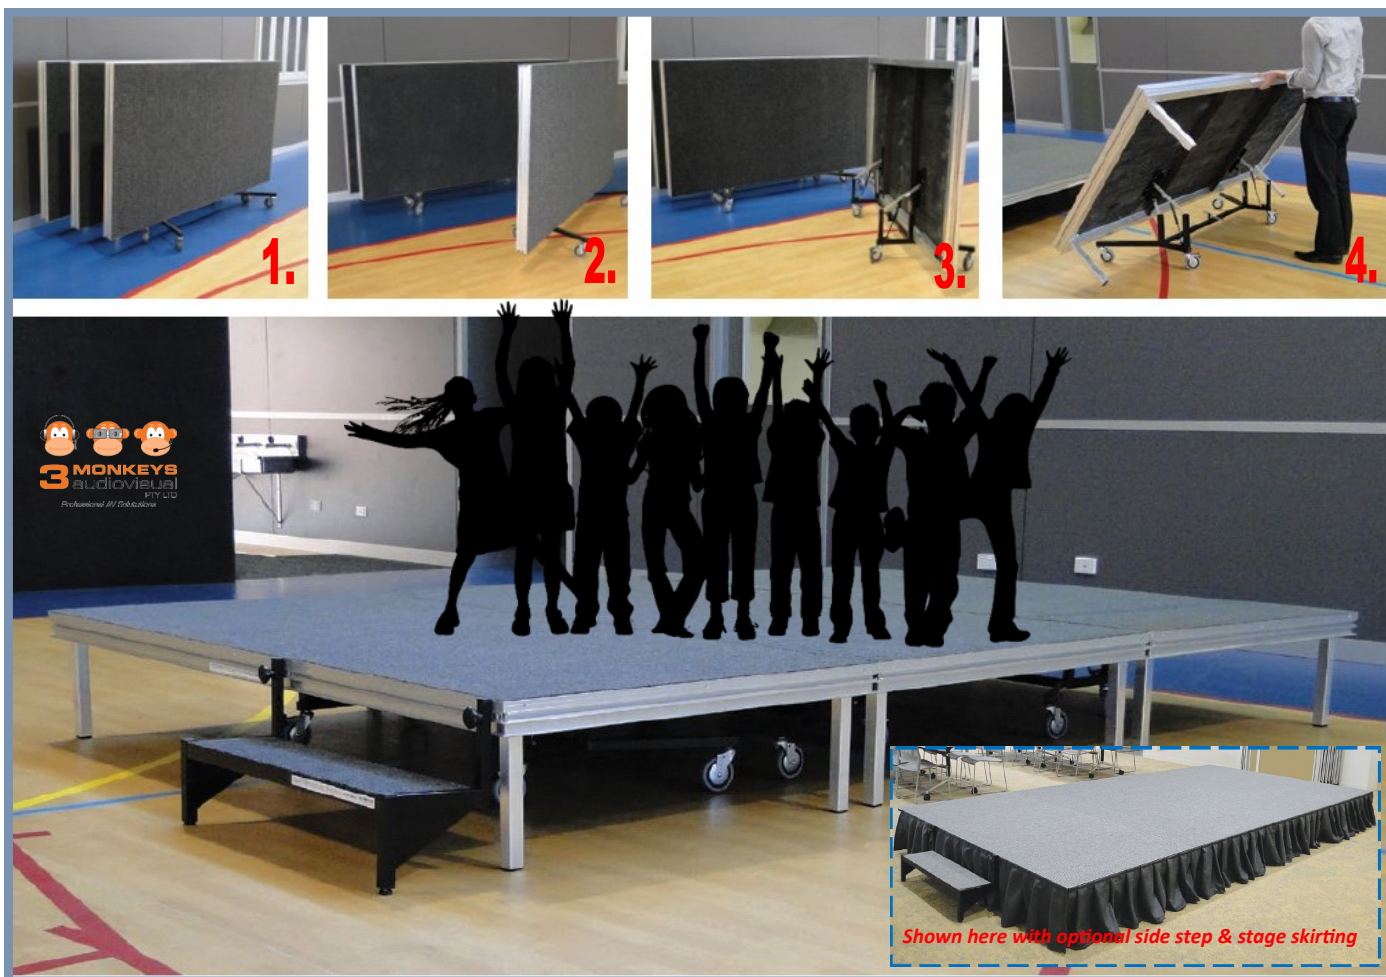

Epson Ultra Short Throw LCD Data Projector

Our Interactive Whiteboard (IWB) Solution consists of an Epson Ultra Short Throw *interactive* projector mounted above a porcelain white board.

A wall mounted input plate allows the presenter to plug in their computer/laptop and annotate over their presentation using finger or supplied electronic pens. *(Note: not all models have finger touch capability)*

Speakers mounted either side of the projector provide crisp, clear audio throughout the classroom.

Epson Ultra Short Throw LCD Data Projector Interactive: Features
* 3,200, 3,500 or 3,800 ansi lumens (brightness) models available
* Interactive Model – Finger and/or Pen Interactive
* Dual Pen Interactivity (2 x Pens Included)
* Multi-PC Projection with Moderator Function
* Self Calibration
* USB Display / Present and Slideshow
* Network Display / Monitor and Present
* Cloning Function
* 2 x HDMI / 2 x D-Sub / S-Video / RCA Inputs

Porcelain Finish Whiteboard

The whiteboard we supply with this package is designed specifically for use with extreme short throw projectors.

The surface is a rigid, very flat finish allowing for both pen and finger touch calibration.

Standard whiteboard markers can of course still be used on this surface for dry erasable annotation.

Features:
- Millimeter perfect flat Projection Surface
- Aluminium trim with concealed corners and secure brackets
- Porcelain surface

Speakers

A pair of Powered Classroom Speakers are mounted on either side of the projector for the reproduction of any audio source connected via the wall input plate.

Connectivity

A wall input plate is installed to the side of the whiteboard for easy connection of VGA & Audio or HDMI connection for any audio or visual device. (Laptop, PC, ipad etc...)

All internal cabling is included for connection within 5m of the projector and speakers.

PC connecting cables supplied include:
- HDMI, VGA & Audio, USB

These cables will allow any PC or device to be connected to the system.

Interactive LED Panels

EduTouch 55", 65", 70", 75"

We specialise in interactive LED technology and can offer varying screen sizes ranging from 55 to 75 inch and large format 86 and 98 inch options.

Wall mount or mobile trolley options are available to suit your school.

Ongoing staff training & support is provided offering teachers the ability to use superior, maintenance free technology.

This brings greater flexibility and support to the classroom as well as delivering the "wow" factor to your students.

All of our EduTouch panels come standard with:

• EasiNote Software

• Easiteach Next Generation

• Perceptual Skills

• Read Me Literacy

• Snowflake Multiteach 5

Your investment is backed with a

5 year "on site" manufacturer's warranty
for added peace of mind.

Key Features:

• Touch control (white board functionality without a pc)

• Web browsing

• 20 point touch (55" to 75" panels)

• PC module optional for all EduTouch panels

• Toughened 3mm glass

• 5 year warranty

• MAC and Windows compatible
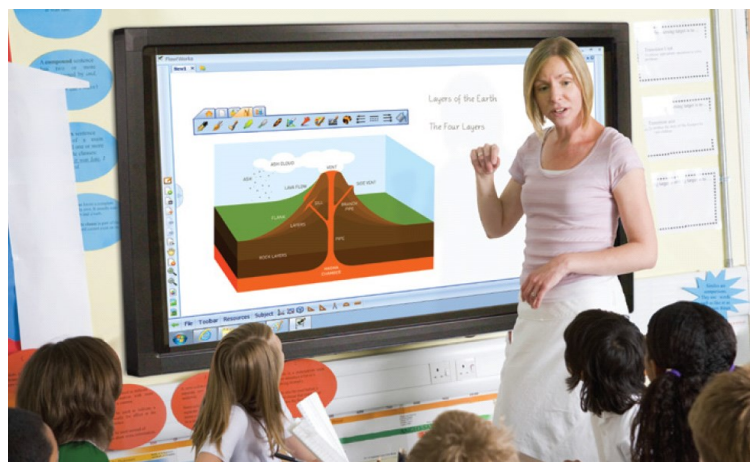

55" Panel

Kindy Solution

The EduTouch Kindy Solution is designed specifically for use within the **Kindergarten & Pre-School** environment.

An EduTouch 55" Panel is mounted securely to a Kindy trolley finished in a natural beech wood colour (pictured) .

The education software included with the EduTouch Kindy Solution provides teachers with a fully interactive education solution with the flexibility of using your existing software .

The solution enables gesturing and other multi-touch functions similar to that of handheld devices such as iPhone, iPad and other smart phone and tablet brands (a function many younger school learners are comfortable with).

Software included:

- Snowflake Multiteach
- EasiNote
- Perceptual Skills
- Easiteach Next Generation

Optional pc module

- Intel Core i5
- Memory 4GB DDR3
- Hard Drive 500GB SATA
- Wi-Fi
- Windows 7/8.x

Edutouch Trolley Options

Height Adjustable Mobile Trolleys - electric or gas strut

The EduTouch **Height Adjustable Trolley** is a versatile mobile solution that allows for height adjustability via either:

- Manually   : through **gas strut** supports

or ...

- Automated   : **built in electric motor**

The panel is securely mounted to the trolley and the overall design provides stability. Compatible with all EduTouch panels (55", 65", 70", 75", 86" and 98").

The trolley allows for proper cable management maintaining a professional look at all times.

A laptop arm can be mounted on either side of trolley (supplied) and the EduTouch Height Adjustable Mobile Solution fits through standard doorways.

The EduTouch interactive panel supports 20 point touch (55"-86") based on infrared technology, making it easy to perform touch and gesture based interactive activities. It can bring great flexibility to your kindy, classroom, lecture room, conference room or other business centres.
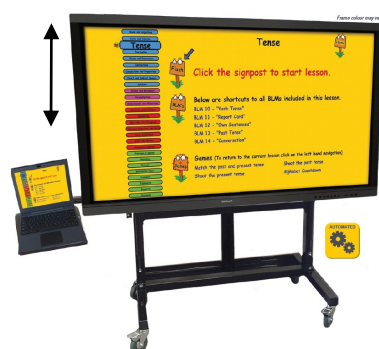

Electric automated trolley may be adjusted with "up/down" buttons
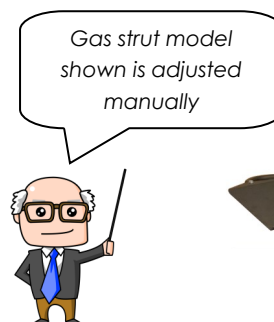

Gas strut model shown is adjusted manually

Automated Mobile Solution - 55" & 65" displays only

The EduTouch Automated Mobile Solution was designed to provide flexibility in the classroom, allowing for use of the EduTouch panel in a *vertical* position for classroom teaching or in a *horizontal* position , as an interactive table with smaller groups of students.

PC Module

Optional PC module fitted in side of panel

An optional "PC Module" instantly turns your new EduTouch interactive panel into a giant computer screen. This does away with the need to attach an external laptop or pc hard drive and avoids having to turn on multiple sources. Not to mention all those extra cables!!!

Both your LED panel and internal pc module are activated with "one" simple switch on the front of the panel.

PC Module features:

- Intel Core i5, 4GB Memory
- 500GB Hard Drive
- Integrated 10/100/1000Mbit/s Network Card
- Wi-Fi - 802.11b/g/n (2.4GHz)
- Windows 7 Home Premium OEM or Windows 10 Pro OEM

PC Module slots into side of panel and is powered via panel's internal power—no messy cables.

FREE

Over $4,400.00 worth of Software...absolutely **FREE!**

RM EasiTeach

Software designed to make every classroom interactive

RM Easiteach Next Generation is designed to help you create and deliver motivational and engaging lessons.

The tools within Easiteach are rich & powerful but easy to use, removing barriers and allowing you to make the most of your existing hardware.

Easiteach has been designed to support all lessons and is useful in any educational setting, regardless of student age or ability. Build in widgets and multimedia assets in a range of topic areas help fuel ideas and bring lessons to life.

You and your students can use Easiteach to create multi model activities that can include animation, video, sound, text, numbers and hyperlinks all on one page.

Key Features

Multi-language - wide range available

Multi-device — Easiteach works on all interactive technologies. Ability to export Easiteach documents as common file format files also means you are not restricted by the software .

Media bank — Easiteach's localised and searchable media bank comprises over 4,500 curriculum-based resources   including over 70 videos.

Multi-touch — Supports object manipulation on multi-touch devices.

Record sound and video — The ability to record sound and video directly on to a page.

Text-to-speech capabilities — Type letters, words and sentences on to a page and listen to them being read back to you.

Handwriting and Shape Recognition — Write words or draw shapes freehand and Easiteach's writing and shape recognition tools will   recognise your markings.

Key Features cont:

Widget bank — Access a range of constantly updated mini-applications bringing you a growing bank of added extras such as calculator, clock, periodic table, protractor, picture reveal, dice, random item generator, navigator and more.

Easily-accessible toolbars — Designed to make the functionality you want easier to find and aid cross-curricular use.

Language tools — e.g. cloze tool, remove punctuation, and word wallet.

***Numeracy tools*** — e.g. number lines and number grids.

Content packs — Easiteach comes with a range of content as standard, such as

- templates (e.g. writing frames, mindmaps, number lines etc)

- diagrams (e.g. Venn diagrams and flow charts etc)

- lesson aids (e.g. grid overlays, timelines, fractions, shapes, symbols and speech bubbles etc) and

- activities (e.g. wordsearch, crossword, map builder and fraction wall etc).

You can use this content as it comes or adapt these ideas to create your own innovative resources.

RM EasiTeach - Teaching Benefits
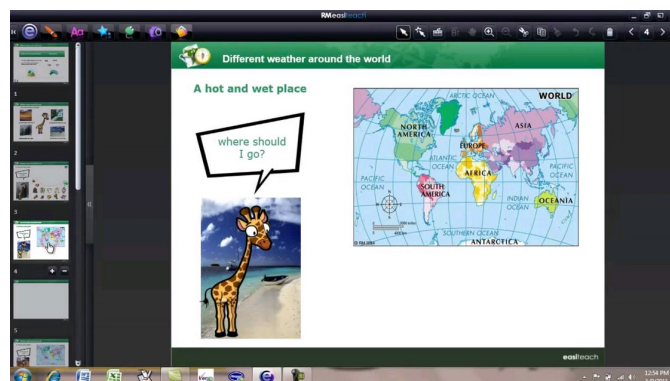

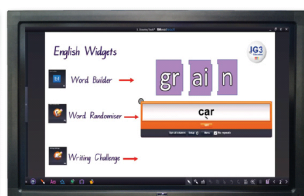

Teaching Benefits

• **Engage students** and bring lessons alive by incorporating videos and animations into your classroom presentations.

• Keep students **motivated and focused** on a task for longer by using the whiteboard interactively, allowing all students to get involved in the lesson.

• **Transform teaching and learning** by creating lessons in various modes suited to different learning styles and needs. Even add additional peripherals such as electronic microscopes or digital cameras and scanners.

• **Enhance student understanding** of concepts and processes by using visual and animated models to demonstrate.

• **Improve student retention** by using eye-catching and rich multimedia such as videos or interactive Flash activities as part of your teaching.

• **Encourage effective questioning**, group discussion and collaboration by using the range of interactive tools.

• Easily and rapidly **customise learning objects** from a range of existing content and adapt it to the needs of the class in real time.

• **Customise text** for your students with simple narration tools using a sound recorder.

• **Improve students skills in numeracy** by using number lines, grids and other mathematical tools and widgets.

• **Improve efficiency** by sharing interactive lessons and activities with other teachers via the Easiteach World site: www.easiteach.com

Edutouch Software

## Easi Note / Easi Touch

Increase your presentation to a higher level

EasiNote software incorporates multiple tools to invigorate your presentation. You can for example write on the screen and add your own marks which can be easily saved as PDF, PowerPoint or JPG files.

Processing images or video is easy with EasiNote software; software supports multi-touch system.

Features

- Features are based on simple image-symbol tool pallet

- Versatile writing, shape and drawing tools

- Software includes i.a. drape and spotlight functions, video and image processing software. Different image devices can easily be inserted to the software

- Versatile writing tools

- Easy to add marks on different files (PPT, Word, Excel, PDF). All marks can be easily saved as different file formats: PDF, PPTX, DOCX, JPG

- Versatile screen capture tools and screen recording

- Additional special tools and applications for i.a. math and physics

SCHOOL TEACHERS | SCHOOL LEARNERS | HOME LEARNERS
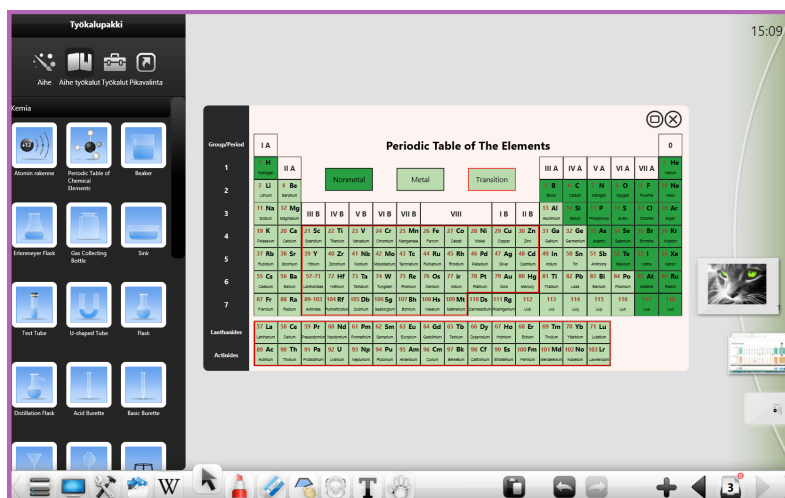

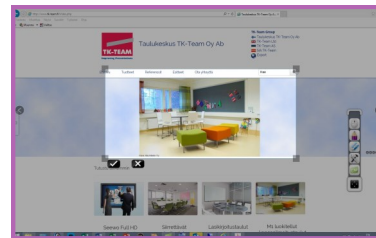

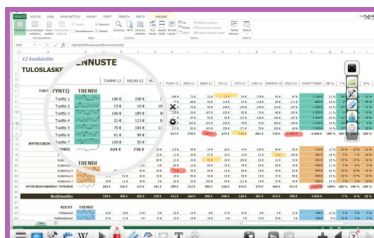

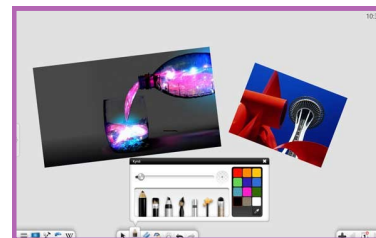

Read Me!®
Designed and produced by practising teachers

What is ReadMe?

ReadMe is a literacy tool that can be effectively used by all teachers. The idea for ReadMe evolved through years of experience, teaching English literacy classes in junior High School.

• The ReadMe programme provides the same stimulations and challenges students have grown to expect.

• Bringing together advanced teaching techniques and modern technology, the lessons capture students attention and concentration.

• ReadMe offers a comprehensive programme of 27 lessons that cover basic grammar skills, poetry analysis and text types.

• ReadMe suits a wide audience. As the lesson content is drawn from subjects across the curriculum, diversity and wide appeal is guaranteed.

• Students who are reluctant readers do not always engage with lessons presented in the "chalk & talk" manner; ReadMe offers an alternative.

How does it Work?

ReadMe is platform independent and compatible with all web browsers including Internet Explorer, Chrome & Firefox on all devices, i.e. iPad, iPhone, Android, Windows Smart Phone, Windows & Mac PC's and Note-books.

• The lessons are accompanied by 131 black line masters (the student workbook), which are fully reproducible and include an answer book.

• ReadMe presents important content in a fresh challenging fashion that is both interesting and engaging.

• By simplifying and examining the rules of grammar, poetry, language and genres, the lessons clearly explain how the English language works.

• Many of the interactive tasks are self-correcting, and are accompanied by compelling sound effects.

• Learning that is fun is learning that is retained, so some lessons conclude with a game. This enjoyable activity serves to consolidate learning.

• Now updated to include both Spanish and Chinese translations for activity instructions.

- Mathematical concepts and relations
- Concentration and association
- Spatial perceptions
- Sizes, proportions, succession
- Problem solving
- Reasoning skills and decision making
- Language skills and alphabet
- Hand eye co-ordination
- Reasoning and classification, etc.

Snowflake

SNOWFLAKE ULTIMATE SUITE

Snowflake is a multi-touch applications suite, with easy to customise content. The wide collection of applications, gives you a unique way to present products and services.

Show media content like images, videos, brochures and websites in an engaging fashion.

Key Features

• Professional applications

• Multiple games

• Compatible with every language in the world

• Tested on all the major multitouch technology hardware platforms

• Free upgrades

• Free customer support help desk

• TUIO support

• Ultra fast performance, due to C++ backbone

• Save, print and email

• Landscape and portrait mode.

SNOWFLAKE MULTITEACH 5

Snowflake MultiTeach 5 helps children to learn while having loads of fun! Children have short attention spans, Snowflake MultiTeach 5 solves that problem by making education more fun, engaging and memorable.

Snowflake MultiTeach is a fun educational suite of interactive multitouch applications designed to help kids learn while they play! The suite includes a wide range of configurable apps designed so that kids can work and learn collaboratively with their teachers and friends.

Comes with 30+ apps with pre-loaded and customisable content.

Key Features

• Windows 7, 8 & 10

• Works with any single, dual & multitouch display

• Phone, Skype & email support included

• Updates & upgrades included

• Online Customer Support & Help Desk included

• Support to change texts into any language

• Landscape & portrait mode

• TUIO support.

• Zones : true multi-user collaboration app

• Nodes: collaborative project creation app

• MultiTeach® Lessons Community: online based community where teachers can upload and share their lessons and also can access a vast library of free lessons created by other teachers

• Create custom lessons with dynamic content (images, videos, sounds, text)

• Snowflake Remote: free app for iOS and Android
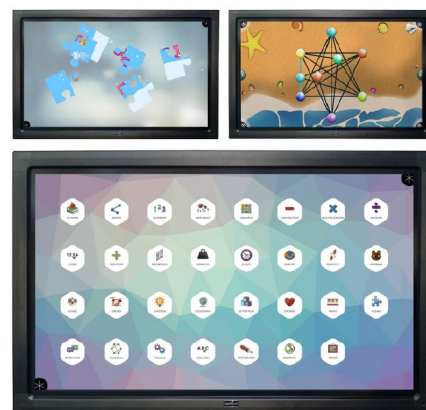

We make teachers happy

Mevo Live Event Camera Kit
with 10 hour booster battery and stand

Meet "Mevo"… the live event camera

Imagine a parent **never missing** another school assembly, production, awards ceremony, sports carnivals….

Set up your Mevo Camera on the stand provided, press record ….and walk away!

Edit your shots in real-time on your mobile device or tablet. Zoom, pan and cut with ease using just your Mevo camera and app (available on iOS and Android).

Don't want to do the work? Mevo's intuitive autopilot editing mode follows the action so you can sit back and enjoy the show.

Save the video to the internal SD memory card for later upload to your school website.

(Stream live to your school facebook page - bandwidth dependant)

Streams to
livestream
facebook.
Periscope
You Tube

Transform a single frame from Mevo into multiple live shots right from the app. Every edit you make automatically becomes part of the final cut.

Ideal applications

- Assemblies
- Awards ceremonies
- School productions
- Sports carnivals
- Record a lesson
- PD sessions
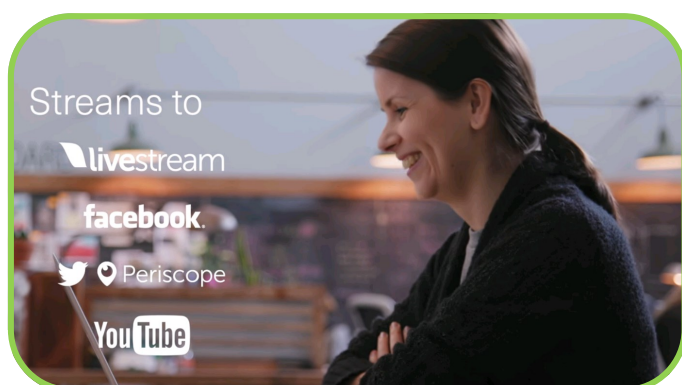

Our package is supplied with:

- Mevo Live Event Camera Kit with 10-Hour Booster Battery & Stand
- Delivery and personal training session

Ladibug Document Camera

Our **DC170 Ladibug** document camera is equipped with a specialized 2 x sensor zoom and a professional image sensor to deliver high quality vivid colours.

The internal memory can store up to 240 images and the one touch video recording allows recording of standalone video presentations without the need of a PC.

The joint-less highly flexible gooseneck enables a 360 degree viewing angle and object viewing from just 4cms to observe an object's finer details.

Adjustable side lamp design prevents reflections. Press one button to get the perfect image quality every time.

The DC170 Ladibug makes presentations and teaching more interactive and attractive.

Key Features

- Full HD 1080p output resolution

- High speed 30fps dynamic image

- VGA and HDMI output

- Professional 2x sensor zoom

- Superior sensor delivery and crystal-clear image quality

- Built-in microphone

- One-Touch synchronous audio/ video recording

- Built-in SD card slot- supports SDHC and SDXC; expandable to 64GB

- Joint-less, highly flexible gooseneck

- Plug-and-Play design

- Auto tune function: unique image optimization

- Innovative built-in power supply

- Compatible with all major brands of whiteboards

Swivl - C-Series Robot
iPad/iPhone document camera

Meet "Swivl" - A rotating base that acts as a cameraman for your mobile device.

Place your mobile device on the rotating base, wear the lanyard microphone/tracker around your neck and your device's camera will follow you wherever you walk around the room. The best part is that the microphone in your tracker will always clearly pick up your voice.

This innovative teaching aid was centred around the idea that great content requires great delivery.

Even the most eloquent recorded presentation can fall on deaf ears if the production and delivery are half-baked.

Swivl's iOS app is free! - With this technology, you can add new depth to your lecture, presentation, or recording of PD sessions.

Upload unlimited amount of videos to Swivl's cloud and share content with colleagues or students.

S swivl™

Your personal cameraman!
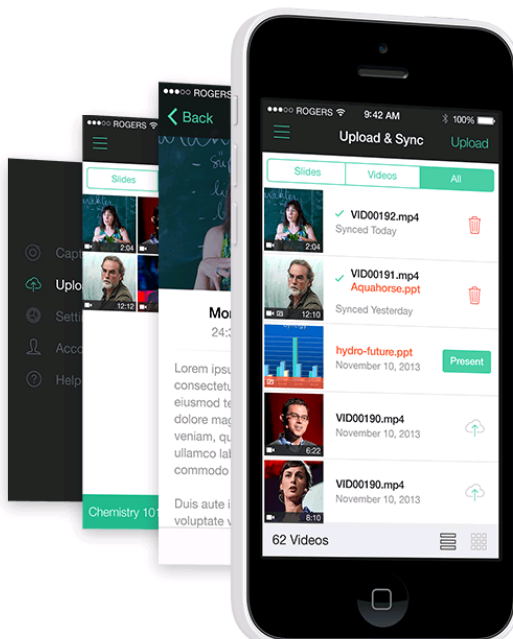

Videos uploaded to "S-cloud" are easily accessed and shared with colleagues or students.

Robot + Capture App + Cloud

Swivl - C-Series Robot
iPad/iPhone document camera

Description

Swivl - Your Personal Cameraman! Teach. Flip. Share. Review. Just Swivl It!

Redefining video for education. Swivl is a front-of-room assistant and video capture solution. It leverages the devices you already have and provides tools that make video valuable.

Swivl Robot
Turns your mobile device into a presentation delivery tool, a front-of-room assistant and automated video solution. It follows you, stops to focus on whiteboards or small groups when needed and can be used anytime, anywhere.

One-click control
The Swivl Marker can be worn or held, and gives you one click control. It has a built-in wireless microphone to capture the voices you need to hear. Add a second marker and place it wherever you need to capture group conversations.

Swivl Capture App The hub for control and content management. Wirelessly upload content with ease. Customise the Swivl Robot performance. Use it as a heads-up dashboard for presented content, reminders and time tracking to help you perform.

Swivl Cloud It's a video collaboration tool, a lecture capture platform, an observational coaching solution, and a video conferencing portal. The magic is in the synergy between applications. The best part? Storage is unlimited. Sign up for free.

Uses
Video Coaching
Used in K-12 and higher ed, Swivl massively accelerates professional development and supports teachers in training. Swivl's video tools enable teachers to implement reflective practices, build their own spotlight libraries, and benefit from more frequent coaching. Pre-service teachers are often required to video their student teaching. It is a great time for them to start getting comfortable with video coaching and using Swivl for reflective practices.

Engaging Content
As the trend towards personalised learning continues, Swivl gives teachers the tools they need to succeed. With Swivl, mastering innovative techniques like blended learning and flipped classroom, or accommodating slower paced learners or absentees is a breeze. In higher ed, frequent lecture capture is proven to save time and improve outcomes. It's just been too costly and inflexible to implement on a broad scale. That is...until now.

Student Skills
Just like their teachers, students benefit from self-evaluation, feedback and expert guidance. Video provides opportunities for live expert consultations and a mechanism for feedback on student presentations and language practice. Swivl is built to bring reflective practices to students. It captures group interactions and post project reflections to aid skill development. It can also help students with disabilities adjust and succeed in class.

Educational Organisational Solutions
Swivl can help you increase efficiency within your organisation. It can help optimise presentations, collaborate with teams remotely, or engage key decision makers wherever they are. With Swivl you can easily record important meetings to keep teachers and admin staff abreast of Organisation, School District, Education Office developments. Swivl also allows you to set up channels that will help onboard new staff quickly and with minimal disruptions to the flow of your school operations.

With over 80 years of combined experience, 3 Monkeys Audiovisual offers every possible solution available on the market.

All of our portable systems are tested, labelled, quality controlled and offered with a full training session covering operating and valuable maintenance tips, so your system will work for you first time, every time.

From hand held models through to larger units with built in wheels and extendable pull along handles, these systems also offer features such as wireless microphones, built in blue tooth or cd players all operational from the flick of a single switch.

Mipro MA-101A

Belt Pack Transmitter

Hand held microphone   **Head worn microphone**

Rechargeable lithium battery for improved reliability, longer life, reduced weight and higher performance. Choose from either handheld transmitter microphone or belt pack transmitter with headset microphone option.

Lightweight, robust and battery operated, it can be hand carried, shoulder strapped or mounted on a microphone stand and ideal for addressing small crowds or as voice reinforcement for a teacher in loud classroom environments.

<u>Ideal applications include:</u>

- School classrooms
- Places of worship
- Presentations, seminars and meetings
- Day-care activities; playground duty
- Indoor/outdoor gatherings
- Tour guides & Paging
- Fire fighters, law enforcement, search & rescue
- Street performers
- Factory or company tours

Mipro MA-707

The MA-707 is the most popular choice by Schools & Educators alike.

A versatile and rugged system that can be used indoors and outdoors and provides excellent full range music reproduction as well as quality intelligible speech.

It offers an ideal public address solution for medium to large crowds, is easily transportable with its pull out handle & built in wheels and can run up to 2 wireless microphones of your choice (hand held or headset).

The addition of an optional Mipro extension speaker or the popular "sports speaker kit" enables the system to cover even larger outdoor audiences for events such as sports carnivals, Anzac Ceremonies, etc.

Ideal applications include:

- Schools
- Weddings & funeral services
- Public auctions
- Places of worship
- Presentations, seminars and meetings
- Shopping centre & trade show presentations and promotions
- Aerobic & fitness centres
- Parades & fetes
- Street performers
- Park and recreational facilities
- Emergency interventions

Mipro MA-708 & 808

Bringing a host of impressive features and functionalities, the MA-708 and MA-808 are both high powered pa systems used for larger events. Now with built in "bluetooth" for wireless music playback!

Both offer unparalleled audio performance and craftsmanship.

The rugged one-piece speaker cabinet houses a highly efficient & light weight amplifier that drives two-way loudspeakers with intelligibility for guaranteed powerful and clear sound.

Both models are ideal public address solutions for medium to large crowds .

Ideal applications include:

- Schools
- Weddings & funeral services
- Public auctions
- Places of worship
- Large meetings and public gatherings
- Presentations, seminars and meetings
- Shopping centre presentations and promotions
- Aerobic & fitness centres
- Parades & fetes
- Street performers
- Park and recreational facilities
- Emergency and rescue situations

3 MONKEYS audiovisual PTY LTD

Specialists in AV Systems for Schools

Everything you need in audio visual

Sports Speaker Kit

The Sports Speaker Kit Consists of

- 2 x outdoor Horn Speakers

- Speaker Stands and

- Cables to connect in seconds....

Connected to your existing medium to large portable PA system these speakers will cover a very large outdoor area and may be used for sports carnivals, Anzac Ceremonies, fetes etc....

Extension Speaker

Extension Speakers are also available to compliment the audio from your existing medium to large portable PA system.

These are particularly effective when trying to address a larger audience for functions where both speech and/or music is involved.

From an audience perspective, the extension speaker will look the same as the main portable PA speaker.

Microphones

Your portable p.a system may be complimented with a variety of microphones such as :

• Standard Microphone with Cable

• Wireless Hand held, Headset or Lapel options

Note:

Wireless microphones will require the installation of a wireless receiver module in the rear of your portable PA speaker.

hand held & cable	headset option	lapel option	wireless hand held	receiver module

Other handy accessories

We specialise in other handy accessories such as:

• Speaker and Microphone Stands

• Protective speaker covers

• Stands carry bags

• Microphone wind socks

• Audio & Microphone Cables

• Batteries—standard & re-chargeable

• Cd players—standard or Bluetooth models

• Megaphones

Servicing

Portable PA servicing

Just like a motor vehicle, your portable PA system should be serviced annually to ensure it performs as per its manufacturer's standards.

Servicing includes:

• Checking all internal connections

• Internal dust clean and lubrication

• Check/replace internal batteries

• Check all microphone & audio inputs

• Re-tuning of wireless microphones

• Addressing any other faults

"Do I need training?"

A common question: *"I've never used a p.a system before, how do I get the most out of my new PA system?"*

At 3 Monkeys Audiovisual we don't just "hand you a cardboard box!" All of our PA systems are fully charged, tuned, clearly labelled and tested over a 24 hour period prior to collection or delivery.

We further offer a fun and comprehensive training session conducted by our PA System specialist, with over 20 years experience in the audio industry.

This informative session will leave you feeling confident about setting up and using your Portable PA System in any environment .

Topics covered include:

- Correct procedure for turning the system on and off, including modules and accessories

- Correct microphone technique for hand held, head worn and lapel microphones

- Correct microphone settings – volume (avoiding feed back)

- Maintenance of wireless microphones, belt pack transmitters, head sets etc.

- Formatting music files for USB players

- Pairing of Bluetooth devices

- Operation of CD/MP3 players

- Operation of internal recording devices

- Connecting auxiliary devices such as iPods, phones etc.

- Connection of extension speaker/s

- Speaker placement - in relation to audience and environmental conditions

- How to avoid unwanted noises - (feedback, pops, crackles & hums)

- Ongoing maintenance, care and correct charging procedure of internal speaker batteries

- Handling and Transportation

3 MONKEYS audiovisual PTY LTD

Specialists in AV Systems for Schools

We make teachers happy

3 Monkeys AV has a complete Hire Department to cater for all of your school's AV requirements for special events and temporary situations when purchase and installation of equipment is not possible or required.

"Kyle" : Hire Manager

We specialise in:

- Portable projectors

- Portable pa's

- Audio & Lighting—large events *(end of year productions, graduation ceremonies, concerts)*

- Display panels

- Lecterns & podiums

Your event will run smoothly with no AV problems

- Our AV Hire specialists visit your location to conduct a free site survey.

- After visiting the location and obtaining your AV requirements we design an AV Hire Action Plan and proposal.

- Following acceptance of our proposal we book your date, allocate the required equipment and co-ordinate hire personnel for the delivery and set up.

- Your pre tested AV system will be delivered well before time, allowing for set up, testing and training.

- With correct equipment set up and training along with *24 hour on call support*, we can ensure your event will be hassle free.

- After your event, we remove our equipment neatly and discreetly at a time that does not impact your staff or guests.

Servicing & Repairs

Scheduling your AV equipment for regular servicing will extend the life of your existing AV systems and reduce equipment failure rates and/or down time.

A 3 Monkeys AV full service will keep you informed as to the condition of your existing AV system enabling you to schedule equipment upgrades as required.

Our service technicians can also pre-warn you to prevent equipment failures happening.

We also provide a call out repair service whereby a qualified technician will attend site, assess faults and provide a comprehensive report enabling you to make an informed decision.

Why choose 3 Monkeys for your school AV

1. Reliable, quality audiovisual equipment that works

- We use top AV brands with proven performance and reliability.
- Many of our AV items are specifically designed for schools, such as our interactive LED and Whiteboard solutions and Triple P.A System.
- Every AV system is assembled and tested in our workshop by qualified technicians before installing in your school in order to minimize any potential AV problems occurring later.
- As school AV specialists, all of our equipment has been thoroughly road tested and proven by our existing client base.
- 3 Monkeys AV is at the forefront of school audiovisual technology, bringing you the latest time saving and breakthrough educational systems.

2. Expert advice on the right equipment and set up

- Our AV specialist team have over 80 years collective experience.
- With over 10,000 AV installations and hire jobs, our consultants and technicians know the best solutions for your school.
- To determine the best products and systems for your school, we conduct a unique 3 Stage "School AV System Analysis and Plan". This involves:

1. Site meeting to identify your needs
2. Preparation of a plan (proposal, budget, implementation timeline)
3. Presentation to explain your various options.
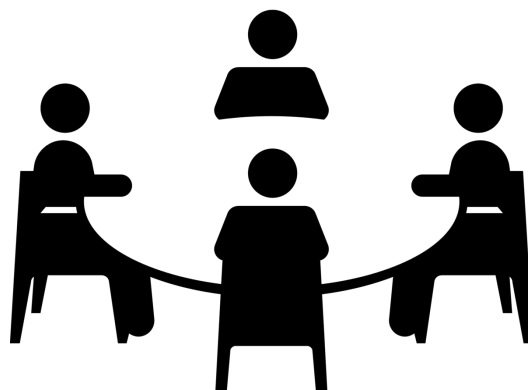

3. Professional installation with a neat and tidy finish

- Our installation technicians are fully employed (not contractors), ensuring quality control on our workmanship and installation.
- With ex teachers on staff, our design and installation takes into account many "teaching requirements" that others are unaware of.
- Our project manager and technicians are conscious of minimizing disruptions during installation periods.
- We believe in leaving your environment as we found it, so our installers carry vacuums, drop sheets, dust pans and brushes.
- Your AV install will have a neat, tidy & clean finish, with all cables hidden or contained within conduits or ducts.

4. Thorough training, personalised service and timely support

- All our school AV installs include comprehensive training to ensure your staff get the full benefit of the equipment and system.
- As specialists in school AV, we have both AV trainers and ex teachers to educate your teachers your teachers in using the audiovisual equipment effectively.
- As schools are our focus, we are committed to providing regular ongoing phone and face to face support.
- Whilst many others sell AV product and move on, 3 Monkeys AV will provide timely support, customer service and troubleshooting for the life of your AV equipment & systems.

5. Reputable, professional school AV specialists

- 3 Monkeys AV is a team of specialists who have worked in all areas of audiovisual in Perth over the last 25 years.

- All our staff are well presented, wear company uniform, mind their language and remember their working environment is your school.

- Our company is fully insured and professionally run. We carry licenses with APRA and ACMA.

- Our specialist staff are all police cleared, hold Working With Children Checks and have completed all relevant safety training.

- You will be looked after by a WA owned and operated team that cares about your school and teachers.

Here's what others had to say about 3 Monkeys AV…

"We have found 3 Monkeys AV to be the ultimate professional team. From initial enquiry, quote, install to training – all staff were friendly, helpful and knowledgeable. Nothing was too much trouble, and we were kept informed at all stages of the install. We cannot get enough of our system!! The quality of the sound system is AMAZING! In fact at our assemblies, we have been inundated with parent feedback about how amazing the children sound. Being able to entertain over 400 students in one room with a movie where they can all see and hear clearly is a dream! "Lana Viska - Manager Corporate Services – Hampton Park Primary School

3 Monkeys AV are an extremely professional and well organized business. There was no pressure to agree to the proposal and we were left to make our decision without any unrealistic deadlines. Once the decision was made to go ahead with the proposal they liaised with us regularly and installed the equipment in a timely manner. The training session was more than enough and the commitment to ongoing support was genuine. The advice given is based on their many years' experience and knowledge of what will work in the areas that the equipment will be required. The installation team is cordial and easy to work with and are happy to carry out the tasks with a minimum of disruption. "Mark Powell – Principal – Matthew Gibney Catholic Primary School

The Equipment is first class quality. Enzo is very personable and accommodating and answered all of their questions. He is prepared to take the time to go through everything. He has been fantastic at attending to all of our needs. We did purchase the most expensive option, as we were wanting a professional look and sound, as well as ease of use. It was an absolute please to deal with all concerned at 3 MAV, whether it was on the phone or onsite. They were very helpful, professional and their workmanship was very neat and tidy. Nola Smith – Principal – Aubin Grove Primary School

The service has been brilliant. We were very, very happy with the price that we paid for the PA System. As soon as we got the quote we decided to go ahead with it immediately as it was such good value. I was very happy dealing with 3 Monkeys as I didn't feel like I was being sold something that I didn't want or need. I was advised specifically on what we needed and exactly how it would work. Dealing with 3 Monkeys was really, really good. I just felt like I was being valued for what my needs were at that time, which encouraged us to use them again when we needed other products. Kaye Savage-Morton – Principal – St Joseph's School Queens Park

The performance is brilliant. We've had no trouble. The ease of use is superb. The families who have attended our assemblies have all said that they can at last hear everything at the assemblies. Everything has been terrific. The simplicity of it all is excellent. The value for money has been great. The service provided was excellent. It was all done in a day. There were no hassles whatsoever from the workers who came out or the equipment. Gerard Foletta – Deputy Principal – Medina Primary School

We are extremely pleased with the Triple PA System. The clarity of the sound, the fact that we don't have any issues with the PA or microphones not working, is great. The system is so easy to use. I was very impressed with the service I received. When the system was installed the whole process was quick, easy and very simple. It is a top of the range product and it is definitely worth it. The people are excellent to deal with, all through the company. 3MAV always provide good products and service and I can't think of anything they can do to improve. We are very happy dealing with them! Jennifer Webb – Principal – Settlers Primary School

3 MONKEYS audiovisual PTY LTD

Our FREE "School AV System Analysis & Plan" (Valued at $250)

1. Site Inspection & System Analysis

First up, we visit your School and assess your needs and or frustrations with your existing system.

We take digital photographs, measurements and discuss what it is you would like to achieve, review different options available for your budget and then provide our recommendations.

2. AV System Plan

Following your System Analysis we go back to our office and custom design a system for you taking into account specific requirements and other important factors such as functionality, ease of use and aesthetics.

Our design team will use their 80 years of combined industry experience to produce a system schematic illustrating interconnection and layout.

3. Presentation of your AV Plan

So that you have a clear understanding of the proposed AV system, we present you with a detailed *"System Plan & Proposal"* including system design options, product information and budget options.

Any additions or alterations are considered and if required, we adjust the proposal accordingly.

Our 3 Stage Analysis ensures the system we recommend meets your requirements and budget whilst considering implementation timelines *(not worked out after the sale)* in order to supply you with all the information to make a fully informed decision.

Call 9228 1681 to discuss your school's AV requirements. From this conversation, we can either organise an immediate proposal for simpler requests or book your FREE *"School AV System Analysis and Plan".*
