Notes to Unaudited Condensed Consolidated Financial Statements

Cleveland-Cliffs Inc. and Subsidiaries

NOTE 1 - BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Business, Consolidation and Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with SEC rules and regulations and, in the opinion of management, include all adjustments (consisting of normal recurring adjustments) necessary to present fairly the financial position, results of operations, comprehensive income (loss), cash flows and changes in equity for the periods presented. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Management bases its estimates on various assumptions and historical experience, which are believed to be reasonable; however, due to the inherent nature of estimates, actual results may differ significantly due to changed conditions or assumptions. The results of operations for the three and nine months ended September 30, 2020 are not necessarily indicative of results to be expected for the year ending December 31, 2020 or any other future period. Due to the acquisition of AK Steel, certain balances have become material and are no longer being condensed in our Statements of Unaudited Condensed Consolidated Financial Position, such as balances for *Right-of-use asset*, *operating lease* and *Operating lease liability, non-current*. As a result, certain prior period amounts have been reclassified to conform with the current year presentation. These unaudited condensed consolidated financial statements should be read in conjunction with the financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2019 and in our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2020 and June 30, 2020.

Proposed acquisition of substantially all of the operations of ArcelorMittal USA

On September 28, 2020, we entered into a Transaction Agreement with ArcelorMittal S.A., pursuant to which Cliffs will acquire substantially all of the operations of ArcelorMittal USA for an aggregate purchase price of approximately \$1.4 billion, consisting of (i) \$505 million in cash, (ii) 78,186,671 of our common shares, par value \$0.125 per share, and (iii) 583,273 shares of a new series of our Serial Preferred Stock, Class B, without par value, to be designated as the "Series B Participating Redeemable Preferred Stock" at closing. The cash portion of the purchase price is subject to customary working capital and purchase price adjustments.

We expect to complete the Transaction in the fourth quarter of 2020. Completion of the Transaction is subject to various customary closing conditions, including the receipt of required regulatory approvals in identified jurisdictions, including the expiration or termination of the waiting period under the Hart-Scott-Rodino Act, and it is possible that factors outside of our control could result in the Transaction being completed at a later time or not at all. The Transaction Agreement also contains certain termination rights that may be exercised by either us or ArcelorMittal S.A. We plan to complete the Transaction as soon as reasonably practicable following the satisfaction or waiver of all applicable conditions.

Acquisition of AK Steel

On March 13, 2020, we consummated the Merger, pursuant to which, upon the terms and subject to the conditions set forth in the Merger Agreement, Merger Sub was merged with and into AK Steel, with AK Steel surviving the Merger as a wholly owned subsidiary of Cliffs. Refer to NOTE 3 - ACQUISITION OF AK STEEL for further information.

AK Steel is a leading North American producer of flat-rolled carbon, stainless and electrical steel products, primarily for the automotive, infrastructure and manufacturing markets. The acquisition of AK Steel has transformed us into a vertically integrated producer of value-added iron ore and steel products.

COVID-19

In response to the COVID-19 pandemic, we made various operational changes to adjust to the demand for our products. Although steel and iron ore production have been considered "essential" by the states in which we operate, certain of our facilities and construction activities were temporarily idled during the second quarter of 2020. Most of these temporarily idled facilities were restarted during the second quarter, and the remaining operations were restarted during the third quarter.

Basis of Consolidation

The unaudited condensed consolidated financial statements consolidate our accounts and the accounts of our wholly owned subsidiaries, all subsidiaries in which we have a controlling interest and two variable interest entities for which we are the primary beneficiary. All intercompany transactions and balances are eliminated upon consolidation.

Reportable Segments

The acquisition of AK Steel has transformed us into a vertically integrated producer of value-added iron ore and steel products and we are organized according to our differentiated products in two reportable segments - the Steel and Manufacturing segment and the Mining and Pelletizing segment. Our new Steel and Manufacturing segment includes the assets acquired through the acquisition of AK Steel and our previously reported Metallics segment, and our Mining and Pelletizing segment includes our three active operating mines and our indefinitely idled mine.

Investments in Affiliates

We have investments in several businesses accounted for using the equity method of accounting. We review an investment for impairment when circumstances indicate that a loss in value below its carrying amount is other than temporary. Investees and equity ownership percentages are presented below:

Investee	Segment Reported Within	Equity Ownership Percentage
Combined Metals of Chicago, LLC	Steel and Manufacturing	40.0%
Hibbing Taconite Company	Mining and Pelletizing	23.0%
Spartan Steel Coating, LLC	Steel and Manufacturing	48.0%

We recorded a basis difference for Spartan Steel of \$32.5 million as part of our acquisition of AK Steel. The basis difference relates to the excess of the fair value over the investee's carrying amount of property, plant and equipment and will be amortized over the remaining useful lives of the underlying assets.

Significant Accounting Policies

A detailed description of our significant accounting policies can be found in the audited financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2019 filed with the SEC, which were updated and can be found in the unaudited condensed consolidated financial statements included in our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2020 and June 30, 2020 filed with the SEC. There have been no material changes in our significant accounting policies and estimates from those disclosed therein.

Recent Accounting Pronouncements

Issued and Adopted

On March 2, 2020, the SEC issued a final rule that amended the disclosure requirements related to certain registered securities under SEC Regulation S-X, Rule 3-10, which required separate financial statements for subsidiary issuers and guarantors of registered debt securities unless certain exceptions are met. The final rule replaces the previous requirement under Rule 3-10 to provide condensed consolidating financial information in the registrant's financial statements with a requirement to provide alternative financial disclosures (which include summarized financial information of the parent and any issuers and guarantors, as well as other qualitative disclosures) in either the registrant's *Management's Discussion and Analysis of Financial Condition and Results of Operations* or its financial statements, in addition to other simplifications. The final rule is effective for filings on or after January 4, 2021, and early adoption is permitted. We elected to early adopt this disclosure update for the period ended March 31, 2020. As a result, we have excluded the footnote disclosures required under the previous Rule 3-10, and applied the final rule by including the summarized financial information and qualitative disclosures in *Part I - Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations* of this Quarterly Report on Form 10-Q and [Exhibit 22.1](#), hereto.

Issued and Not Effective

In August 2020, the Financial Accounting Standards Board issued *Accounting Standards Update No. 2020-06, Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40)*. This update requires certain convertible instruments to be accounted for as a single liability measured at its amortized cost. Additionally, the update requires the use of the "if-converted" method, removing the treasury stock method, when calculating diluted shares. The two methods of adoption are the full and modified retrospective approaches. We expect to utilize the modified retrospective approach. Using this approach, the guidance shall be applied to transactions outstanding as of the beginning of the fiscal year in which the amendment is adopted. The final rule is effective for fiscal years beginning after December 15, 2021. Early adoption is permitted for fiscal years beginning after December 15, 2020, including interim periods within those fiscal years. We are continuing to evaluate the impact of this update to our financials and would expect to adopt at the required adoption date of January 1, 2022.

Prior to the Merger, our iron ore pellet sales agreement with Severstal, subsequently assumed by AK Steel, required supplemental payments to be paid by the customer during the period 2009 through 2013. Installment amounts received under this arrangement in excess of sales were classified as deferred revenue in the Statements of Consolidated Financial Position upon receipt of payment and the revenue was recognized over the term of the supply agreement, which had extended until 2022, in equal annual installments. As a result of the termination of that iron ore pellet sales agreement, we realized \$34.6 million of deferred revenue, which was recognized within *Realization of deferred revenue* in the Statements of Unaudited Condensed Consolidated Operations, during the nine months ended September 30, 2020.

We have certain other sales agreements that require customers to pay in advance. Payments received pursuant to these agreements prior to revenue being recognized are recorded as deferred revenue in *Other current liabilities*.

NOTE 3 - ACQUISITION OF AK STEEL

Overview

On March 13, 2020, pursuant to the Merger Agreement, we completed the acquisition of AK Steel, in which we were the acquirer. As a result of the Merger, each share of AK Steel common stock issued and outstanding

immediately prior to the effective time of the Merger (other than excluded shares) was converted into the right to receive 0.400 Cliffs common shares and, if applicable, cash in lieu of any fractional Cliffs common shares.

The acquisition combined Cliffs, North America's largest producer of iron ore pellets, with AK Steel, a leading producer of innovative flat-rolled carbon, stainless and electrical steel products, to create a vertically integrated producer of value-added iron ore and steel products. The combination is expected to create significant opportunities to generate additional value from market trends across the entire steel value chain and enable more consistent, predictable performance through normal market cycles. Together, Cliffs and AK Steel have a presence across the entire manufacturing process, from mining to pelletizing to the development and production of finished high value steel products, including Next Generation Advanced High Strength Steels for automotive and other markets. We expect the combination will generate additional cost synergies, which we have identified and already set into motion savings of approximately \$150 million, primarily from consolidating corporate functions, reducing duplicative overhead costs, and procurement and energy cost savings, as well as operational and supply chain efficiencies. The combined company is well positioned to provide high-value iron ore and steel solutions to customers primarily across North America.

Total net revenues for AK Steel for the most recent pre-acquisition year ended December 31, 2019 were \$6,359.4 million. Following the acquisition, the operating results of AK Steel are included in our unaudited condensed consolidated financial statements and are reported as part of our Steel and Manufacturing segment. For the three months ended September 30, 2020, AK Steel generated *Revenues* of \$1,261.7 million and a loss of \$30.4 million included within *Net income (loss) attributable to Cliffs shareholders*, which included \$14.6 million and \$2.4 million related to amortization of the fair value inventory step-up and severance costs, respectively. For the period subsequent to the acquisition (March 13, 2020 through September 30, 2020), AK Steel generated *Revenues* of \$2,194.3 million and a loss of \$292.0 million included within *Net income (loss) attributable to Cliffs shareholders*, which included \$74.0 million and \$35.1 million related to amortization of the fair value inventory step-up and severance costs, respectively.

Additionally, we incurred acquisition-related costs in connection with the acquisition of AK Steel, excluding severance costs, of \$0.6 million and \$25.6 million for the three and nine months ended September 30, 2020, respectively, which were recorded in *Acquisition-related costs* on the Statements of Unaudited Condensed Consolidated Operations.

Refer to NOTE 7 - DEBT AND CREDIT FACILITIES for information regarding debt transactions executed in connection with the Merger.

The Merger was accounted for under the acquisition method of accounting for business combinations. The acquisition date fair value of the consideration transferred totaled \$1.5 billion. The following tables summarize the consideration paid for AK Steel and the estimated fair values of the assets acquired and liabilities assumed at the acquisition date.

The fair value of the total purchase consideration was determined as follows:

	(In Millions)
Fair value of Cliffs common shares issued for AK Steel outstanding common stock	\$ 617.6
Fair value of replacement equity awards	3.9
Fair value of AK Steel debt	913.6
Total purchase consideration	<u>\$ 1,535.1</u>

The fair value of Cliffs common shares issued for outstanding shares of AK Steel common stock and with respect to Cliffs common shares underlying converted AK Steel equity awards that vested upon completion of the Merger is calculated as follows:

Fair value of debt included in consideration	\$ 913.6

Valuation Assumption and Preliminary Purchase Price Allocation

We estimated fair values at March 13, 2020 for the preliminary allocation of consideration to the net tangible and intangible assets acquired and liabilities assumed. During the measurement period, we will continue to obtain information to assist in finalizing the fair value of assets acquired and liabilities assumed, which may differ materially from these preliminary estimates. If we determine any measurement period adjustments are material, we will apply those adjustments, including any related impacts to net income, in the reporting period in which the adjustments are determined. We are in the process of conducting a valuation of the assets acquired and liabilities assumed related to the acquisition, most notably, inventories, including manufacturing supplies and critical spares, personal and real property, leases, investments, deferred taxes, asset retirement obligations, pension and OPEB liabilities and intangible assets and liabilities, and the final allocation will be made when completed, including the result of any identified goodwill. Accordingly, the provisional measurements noted below are preliminary and subject to modification in the future.

The preliminary purchase price allocation to assets acquired and liabilities assumed in the Merger was:

	(In Millions)		
	Initial Allocation of Consideration	Measurement Period Adjustments	Updated Preliminary Allocation
Cash and cash equivalents	\$ 37.7	\$ 2.0	\$ 39.7

Net identifiable assets acquired	1,394.3	(1.1)	1,393.2
Goodwill	141.2	0.7	141.9
Total net assets acquired	<u>\$ 1,535.5</u>	<u>\$ (0.4)</u>	<u>\$ 1,535.1</u>

During the second and third quarter of 2020, we made certain measurement period adjustments to the acquired assets and liabilities assumed due to clarification of information utilized to determine fair value during the measurement period. The *Inventories* measurement period adjustments of \$39.8 million resulted in a favorable impact of \$0.2 million and \$8.0 million, respectively, to *Cost of goods sold* for the three and nine months ended September 30, 2020.

The goodwill resulting from the acquisition of AK Steel was assigned to Precision Partners, our downstream tooling and stamping operations, and AK Tube, our tubing operations, that are reporting units included in the Steel and Manufacturing segment. Goodwill is calculated as the excess of the purchase price over the net identifiable assets recognized and primarily represents the growth opportunities in lightweighting solutions to automotive customers, as well as any synergistic benefits to be realized from the acquisition of AK Steel. None of the goodwill is expected to be deductible for income tax purposes.

The preliminary purchase price allocated to identifiable intangible assets and liabilities acquired was:

	(In Millions)	Weighted Average Life (In Years)
Intangible assets:		
Customer relationships	\$ 77.0	18
Developed technology	60.0	17
Trade names and trademarks	11.0	10
Total identifiable intangible assets	<u>\$ 148.0</u>	<u>17</u>
Intangible liabilities:

The above-market supply contracts relate to the long-term coke and energy supply agreements with SunCoke Energy, which includes SunCoke Middletown, a consolidated VIE. Refer to NOTE 16 - VARIABLE INTEREST ENTITIES for further information.

Pro Forma Results

The following table provides unaudited pro forma financial information, prepared in accordance with Topic 805, for the three and nine months ended September 30, 2020 and 2019, as if AK Steel had been acquired as of January 1, 2019:

	(In Millions)			
	Three Months Ended September 30,		Nine Months Ended September 30,	
	2020	2019	2020	2019
Revenues	\$ 1,646.0	\$ 1,937.6	\$ 4,265.1	\$ 5,958.7
Net income (loss) attributable to Cliffs shareholders	(6.0)	84.2	(123.9)	213.3

The unaudited pro forma financial information has been calculated after applying our accounting policies and adjusting the historical results with pro forma adjustments, net of tax, that assume the acquisition occurred on January 1, 2019. Significant pro forma adjustments include the following:

1. The elimination of intercompany revenues between Cliffs and AK Steel of \$135.6 million and \$394.8 million for the three and nine months ended September 30, 2020, respectively, and \$153.5 million and \$410.8 million for the three and nine months ended September 30, 2019, respectively.
2. The 2020 pro forma net loss was adjusted to exclude \$14.6 million and \$74.0 million of non-recurring inventory acquisition accounting adjustments incurred during the three and nine months ended September 30, 2020, respectively. The 2019 pro forma net income was adjusted to include \$74.0 million of non-recurring inventory acquisition accounting adjustments for the nine months ended September 30, 2019.
3. The elimination of nonrecurring transaction costs incurred by Cliffs and AK Steel in connection with the Merger of \$0.7 million and \$29.1 million for the three and nine months ended September 30, 2020, respectively.
4. Total other pro forma adjustments included expense of \$10.0 million for the three and nine months ended September 30, 2020, primarily due to increased interest expense, offset by reduced amortization expense, depreciation expense and pension and OPEB expense. Total other pro forma adjustments for the three and nine months ended September 30, 2019 included expense of \$1.1 million and \$7.0 million, respectively, primarily due to reduced interest and amortization expense, offset by additional depreciation expense and pension and OPEB expense.
5. The income tax impact of pro forma transaction adjustments that affect *Net income (loss) attributable to Cliffs shareholders* at a statutory rate of 24.3% resulted in an income tax benefit of \$5.6 million and \$2.1 million for the three and nine months ended September 30, 2020, respectively, and an income tax benefit of \$2.1 million and \$4.5 million for the three and nine months ended September 30, 2019, respectively.

The unaudited pro forma financial information does not reflect the potential realization of synergies or cost savings, nor does it reflect other costs relating to the integration of the two companies. This unaudited pro forma financial information should not be considered indicative of the results that would have actually occurred if the acquisition had been consummated on January 1, 2019, nor are they indicative of future results.

NOTE 4 - SEGMENT REPORTING

Our Company is a vertically integrated producer of value-added iron ore and steel products. Our operations are organized and managed in two operating segments according to our upstream and downstream operations. Our Steel and Manufacturing segment is a leading producer of flat-rolled carbon, stainless and electrical steel products, primarily for the automotive, infrastructure and manufacturing, and distributors and converters markets. Our Steel and Manufacturing segment includes subsidiaries that provide customer solutions with carbon and stainless steel tubing products, advanced-engineered solutions, tool design and build, hot- and cold-stamped steel components, and complex assemblies. Construction of our HBI production plant in Toledo, Ohio, included as part of our Steel and Manufacturing segment, is expected to be completed with production beginning in the fourth quarter of 2020. Our Mining and Pelletizing segment is a major supplier of iron ore pellets to the North American steel industry from our mines and pellet plants located in Michigan and Minnesota. All intercompany transactions were eliminated in consolidation.

We evaluate performance on a segment basis, as well as a consolidated basis, based on Adjusted EBITDA, which is a non-GAAP measure. This measure is used by management, investors, lenders and other external users of our financial statements to assess our operating performance and to compare operating performance to other companies in the steel and iron ore industries. In addition, management believes Adjusted EBITDA is a useful measure to assess the earnings power of the business without the impact of capital structure and can be used to assess our ability to service debt and fund future capital expenditures in the business.

Debt Extinguishments - 2020

On April 24, 2020, we used the net proceeds from the offering of the additional 9.875% 2025 Senior Secured Notes to repurchase \$736.4 million aggregate principal amount of our outstanding senior notes of various series, which resulted in debt reduction of \$181.2 million. During the second quarter of 2020, we also repurchased an additional \$11.2 million aggregate principal amount of our outstanding senior notes of various series with cash on hand. On June 1, 2020, we redeemed \$7.3 million aggregate principal amount of our outstanding 2020 IRBs.

On March 13, 2020, in connection with the Merger, we purchased \$364.2 million aggregate principal amount of 7.625% 2021 AK Senior Notes and \$310.7 million aggregate principal amount of 7.50% 2023 AK Senior Notes upon early settlement of tender offers made by Cliffs. The net proceeds from the offering of 6.75% 2026 Senior Secured Notes, along with a portion of the ABL Facility borrowings, were used to fund such purchases. As the 7.625% 2021 AK Senior Notes and 7.50% 2023 AK Senior Notes were recorded at fair value just prior to being purchased, there was no gain or loss on extinguishment. Additionally, in connection with the final settlement of the tender offers, on March 27, 2020, we purchased \$8.5 million aggregate principal amount of the 7.625% 2021 AK Senior Notes and \$56.5 million aggregate principal amount of the 7.50% 2023 AK Senior Notes with cash on hand.

The valuation of financial assets and liabilities classified in Level 2 is determined using a market approach based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable. Level 2 assets include commercial paper and commodity hedge contracts. Our commodity hedge contracts primarily include those related to natural gas, electricity and zinc, and our foreign exchange contracts include Canadian dollars.

The Level 3 assets consist of a freestanding derivative instrument related to a certain supply agreement and derivative assets related to certain provisional pricing arrangements with our customers. The Level 3 liabilities consist of derivative liabilities related to certain provisional pricing arrangements with our customers.

The supply agreement included in our Level 3 assets contains provisions for supplemental revenue or refunds based on the hot-rolled coil steel price in the year the iron ore product is consumed in the customer's blast furnaces. We account for these provisions as a derivative instrument at the time of sale and adjust the derivative instrument to fair value through *Revenues* each reporting period until the product is consumed and the amounts are settled.

The provisional pricing arrangements included in our Level 3 assets/liabilities specify provisional price calculations, where the pricing mechanisms generally are based on market pricing, with the final revenue rate to be based on market inputs at a specified point in time in the future, per the terms of the supply agreements. The difference between the estimated final revenue rate at the date of sale and the estimated final revenue rate at the measurement date is characterized as a derivative and is required to be accounted for separately once control has transferred upon delivery. The derivative instruments are adjusted to fair value through *Revenues* each reporting period based upon current market data and forward-looking estimates provided by management until the final revenue rates are determined.

The following table illustrates information about quantitative inputs and assumptions for the derivative assets and derivative liabilities categorized in Level 3 of the fair value hierarchy:

NOTE 9 - PENSIONS AND OTHER POSTRETIREMENT BENEFITS

We offer defined benefit pension plans, defined contribution pension plans and OPEB plans, primarily consisting of retiree healthcare benefits, to most employees as part of a total compensation and benefits program. The defined benefit pension plans are noncontributory and benefits generally are based on a minimum formula or employees' years of service and average earnings for a defined period prior to retirement.

As a result of the acquisition of AK Steel, we assumed the obligations under AK Steel's defined benefit pension plans and OPEB plans. Noncontributory pension and various healthcare and life insurance benefits are provided to a significant portion of our employees and retirees. AK Steel also contributes to multiemployer pension plans according to collective bargaining agreements that cover certain union-represented employees and defined contribution pension plans. The AK Steel pension and OPEB plans were remeasured as of March 13, 2020.

The following are the components of defined benefit pension and OPEB costs (credits):

As a result of the CARES Act enacted on March 27, 2020, we have deferred pension contributions starting in the second quarter of 2020. Based on prior funding requirements, we made defined benefit pension contributions of \$0.9 million and \$4.9 million for the three and nine months ended September 30, 2020, respectively, compared to defined benefit pension contributions of \$5.6 million and \$12.3 million for the three and nine months ended September 30, 2019, respectively. OPEB contributions for our voluntary employee benefit association trust plans are typically made on an annual basis in the first quarter of each year, but due to plan funding requirements being met, no OPEB contributions for our voluntary employee benefit association trust plans were required or made for the three and nine months ended September 30, 2020 and 2019.

NOTE 10 - INCOME TAXES

Our 2020 estimated annual effective tax rate before discrete items as of September 30, 2020 is 35.5%. The estimated annual effective tax rate differs from the U.S. statutory rate of 21.0% primarily due to the deduction for percentage depletion in excess of cost depletion related to our Mining and Pelletizing segment operations, as well as non-deductible transaction costs, executive officers' compensation, global intangible low-taxed income and income of noncontrolling interests for which no tax is recognized. The 2019 estimated annual effective tax rate before discrete items as of September 30, 2019 was 9.6%. The increase in the estimated annual effective tax rate before discrete items is driven by the change in the mix of income, as well as transaction costs and other acquisition-related charges that were incurred only in 2020.

For the three and nine months ended September 30, 2020, we recorded discrete items that resulted in an income tax benefit of \$5.0 million and \$8.6 million, respectively. The discrete adjustments are primarily related to the release of uncertain tax positions due to favorable resolution of an international audit issue. The discrete adjustments also include interest on uncertain tax positions and the refunds received during the year of amounts sequestered by the Internal Revenue Service on previously filed AMT credit refund claims. For the three and nine months ended September 30, 2019, we recorded discrete items that resulted in an income tax benefit of \$0.5 million and \$1.3 million, respectively.

NOTE 11 - ASSET RETIREMENT OBLIGATIONS

The following is a summary of our asset retirement obligations:

	(In Millions)	
	September 30, 2020	December 31, 2019
Asset retirement obligations ¹	\$ 186.4	\$ 165.3
Less current portion	4.4	2.1

¹ Includes \$33.7 million and \$22.0 million related to our active operations as of September 30, 2020 and December 31, 2019, respectively.

The accrued closure obligation is predominantly related to our indefinitely idled and closed iron ore mining operations and provides for contractual and legal obligations associated with the eventual closure of those operations. Additionally, we have included in our asset retirement obligation \$16.7 million for our integrated steel facilities and other operations acquired in the Merger. The closure date for each of our active mine sites was determined based on the exhaustion date of the remaining iron ore reserves and the amortization of the related asset and accretion of the liability is recognized over the estimated mine lives. The closure date and expected timing of the capital requirements to meet our obligations for our indefinitely idled or closed mines is determined based on the unique circumstances of each property. For indefinitely idled or closed mines, the accretion of the liability is recognized over the anticipated timing of remediation. As the majority of our asset retirement obligations at our steelmaking operations have indeterminate settlement dates, asset retirement obligations have been recorded at present values using estimated ranges of the economic lives of the underlying assets.

The following is a roll forward of our asset retirement obligation liability:

Derivatives Designated as Hedging Instruments - Cash Flow Hedges

Exchange rate fluctuations affect a portion of revenues and operating costs that are denominated in foreign currencies, and we use forward currency and currency option contracts to reduce our exposure to certain of these currency price fluctuations. Contracts to purchase Canadian dollars are designated as cash flow hedges for accounting purposes, and we record the gains and losses for the derivatives and premiums paid for option contracts in *Accumulated other comprehensive loss* until we reclassify them into *Cost of goods sold* when we recognize the associated underlying operating costs.

We are exposed to fluctuations in market prices of raw materials and energy sources. We may use cash-settled commodity swaps and options to hedge the market risk associated with the purchase of certain of our raw materials and energy requirements. Our hedging strategy is to reduce the effect on earnings from the price volatility of these various commodity exposures, including timing differences between when we incur raw material commodity costs and when we receive sales surcharges from our customers based on those raw materials. Independent of any hedging activities, price changes in any of these commodity markets could negatively affect operating costs.

The following table presents the notional amount of our outstanding hedge contracts:

Derivatives Not Designated as Hedging Instruments

Customer Supply Agreement

A supply agreement with one customer provides for supplemental revenue or refunds to the customer based on the hot-rolled coil steel price at the time the iron ore product is consumed in the customer's blast furnaces. The supplemental pricing is characterized as a freestanding derivative instrument and is required to be accounted for separately once control transfers to the customer. The derivative instrument, which is finalized based on a future price, is adjusted to fair value through *Revenues* each reporting period based upon current market data and forward-looking estimates provided by management until the pellets are consumed and the amounts are settled.

Provisional Pricing Arrangements

Certain of our supply agreements specify provisional price calculations, where the pricing mechanisms generally are based on market pricing, with the final revenue rate based on certain market inputs at a specified period in time in the future, per the terms of the supply agreements. Market inputs are tied to indexed price adjustment factors that are integral to the iron ore supply contracts and vary based on the agreement. The pricing mechanisms typically include adjustments based upon changes in the Platts 62% Price, Atlantic Basin Pellet Premium, Platts international indexed freight rates and changes in specified PPI. The pricing adjustments generally operate in the same manner, with each factor typically comprising a portion of the price adjustment, although the weighting of each factor varies based upon the specific terms of each agreement. The price adjustment factors have been evaluated to determine if they qualify as embedded derivatives. The price adjustment factors share the same economic characteristics and risks as the host sales contract and are integral to the host sales contract as inflation adjustments; accordingly, they have not been separately valued as derivative instruments.

Revenue is recognized generally upon delivery to our customers. Revenue is measured at the point that control transfers and represents the amount of consideration we expect to receive in exchange for transferring goods. Changes in the expected revenue rate from the date that control transfers through final settlement of contract terms is recorded in accordance with Topic 815 and is characterized as a derivative instrument and accounted for separately. Subsequently, the derivative instruments are adjusted to fair value through *Revenues* each reporting period based upon current market data and forward-looking estimates provided by management until the final revenue rate is determined.

NOTE 13 - SHAREHOLDERS' EQUITY**Acquisition of AK Steel**

As more fully described in NOTE 3 - ACQUISITION OF AK STEEL, we acquired AK Steel on March 13, 2020. At the effective time of the Merger, each share of AK Steel common stock issued and outstanding prior to the effective time of the Merger was converted into, and became exchangeable for, 0.400 Cliffs common shares, par value \$0.125 per share. We issued a total of 126.8 million Cliffs common shares in connection with the Merger at a fair value of \$617.6 million. Following the closing of the Merger, AK Steel's common stock was de-listed from the New York Stock Exchange.

¹ The dividend declared on September 3, 2019 included a special cash dividend of \$0.04 per common share.

Subsequent to the dividend paid on April 15, 2020, our Board temporarily suspended future dividends as a result of the COVID-19 pandemic in order to preserve cash during this time of economic uncertainty.

Preferred Stock

We have 3,000,000 shares of Serial Preferred Stock, Class A, without par value, authorized and 4,000,000 shares of Serial Preferred Stock, Class B, without par value, authorized; no preferred shares are issued or outstanding. Pursuant to the terms of the Transaction Agreement, we agreed to issue ArcelorMittal S.A. 583,273 shares of a new series of our Serial Preferred Stock, Class B, without par value, to be designated as the "Series B Participating Redeemable Preferred Stock" at closing of the pending Transaction.

Share Repurchase Program

In November 2018, our Board authorized a program to repurchase outstanding common shares in the open market or in privately negotiated transactions, up to a maximum of \$200 million, excluding commissions and fees. In April 2019, our Board increased the common share repurchase authorization by an additional \$100 million, excluding commissions and fees. During the nine months ended September 30, 2019, we repurchased 24.4 million common shares at a cost of \$252.9 million in the aggregate, including commissions and fees. The share repurchase program was effective until December 31, 2019.

NOTE 15 - RELATED PARTIES

We have certain co-owned joint ventures with companies from the steel and mining industries, including integrated steel companies, their subsidiaries and other downstream users of steel and iron ore products. In addition, we have certain long-term contracts, and from time to time, enter into other sales agreements with these parties, and as a result, generate *Revenues* from related parties.

Hibbing is a co-owned joint venture with companies that are integrated steel producers or their subsidiaries. The following is a summary of the mine ownership of the co-owned iron ore mine at September 30, 2020:

Other current assets

A supply agreement with one customer provides for supplemental revenue or refunds to the customer based on the hot-rolled coil steel price at the time the product is consumed in the customer's blast furnaces. The supplemental pricing is characterized as a freestanding derivative. Additionally, the customer also has certain provisional pricing arrangements where the difference between the estimated final revenue rate at the date of sale and the estimated final revenue rate at the measurement date is characterized as a derivative and is required to be accounted for separately once control has transferred upon delivery. Refer to NOTE 12 - DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES for further information.

NOTE 16 - VARIABLE INTEREST ENTITIES

SunCoke Middletown

We purchase all the coke and electrical power generated from SunCoke Middletown's plant under long-term supply agreements. SunCoke Middletown is a VIE because we have committed to purchase all the expected production from the facility through 2032 and we are the primary beneficiary. Therefore, we consolidate SunCoke Middletown's financial results with our financial results, even though we have no ownership interest in SunCoke Middletown. SunCoke Middletown had income before income taxes of \$11.8 million and \$31.3 million for the three and nine months ended September 30, 2020, respectively, that was included in our consolidated income before income taxes.

The assets of the consolidated VIE can only be used to settle the obligations of the consolidated VIE and not obligations of the Company. The creditors of SunCoke Middletown do not have recourse to the assets or general credit of the Company to satisfy liabilities of the VIE. The consolidated balance sheet as of September 30, 2020 includes the following amounts for SunCoke Middletown:

NOTE 18 - COMMITMENTS AND CONTINGENCIES**Purchase Commitments***HBI production plant*

In 2017, we began to incur capital commitments related to the construction of our HBI production plant in Toledo, Ohio; however, due to the COVID-19 pandemic, we temporarily halted construction in March 2020. In June 2020, we resumed construction and now expect to complete the project and begin production in the fourth quarter of 2020. In total, to complete the project, we expect to spend approximately \$1 billion on the HBI production plant, excluding capitalized interest, of which \$940.2 million was paid as of September 30, 2020. As of September 30, 2020, we have contracts and purchase orders in place for \$97.8 million.

Contingencies

We are currently the subject of, or party to, various claims and legal proceedings incidental to our operations. These claims and legal proceedings are subject to inherent uncertainties and unfavorable rulings could occur. An unfavorable ruling could include monetary damages, additional funding requirements or an injunction. If an unfavorable ruling were to occur, there exists the possibility of a material effect on the financial position and results of operations for the period in which the ruling occurs or future periods. However, based on currently available information we do not believe that any pending claims or legal proceedings will result in a material effect in relation to our consolidated financial statements.

Environmental Contingencies

Although we believe our operating practices have been consistent with prevailing industry standards, hazardous materials may have been released at operating sites or third-party sites in the past, including operating sites that we no longer own. If we reasonably can, we estimate potential remediation expenditures for those sites where future remediation efforts are probable based on identified conditions, regulatory requirements or contractual obligations arising from the sale of a business or facility. For sites involving government required investigations, we typically make an estimate of potential remediation expenditures only after the investigation is complete and when we better understand the nature and scope of the remediation. In general, the material factors in these estimates include the costs associated with investigations, delineations, risk assessments, remedial work, governmental response and oversight, site monitoring, and preparation of reports to the appropriate environmental agencies.

The following is a summary of our environmental obligations:

	(In Millions)	
	September 30, 2020	December 31, 2019
Environmental obligations	\$ 40.9	\$ 2.0
Less current portion	6.4	0.3
Long-term environmental obligations	\$ 34.5	\$ 1.7

We cannot predict the ultimate costs for each site with certainty because of the evolving nature of the investigation and remediation process. Rather, to estimate the probable costs, we must make certain assumptions. The most significant of these assumptions is for the nature and scope of the work that will be necessary to investigate and remediate a particular site and the cost of that work. Other significant assumptions include the cleanup technology that will be used, whether and to what extent any other parties will participate in paying the investigation and remediation costs, reimbursement of past response costs and future oversight costs by governmental agencies, and the reaction of the governing environmental agencies to the proposed work plans. Costs for future investigation and remediation are not discounted to their present value, unless the amount and timing of the cash disbursements are readily known. To the extent that we have been able to reasonably estimate future liabilities, we do not believe that there is a reasonable possibility that we will incur a loss or losses that exceed the amounts we accrued for the environmental matters discussed below that would, either individually or in the aggregate, have a material adverse effect on our consolidated financial condition, results of operations or cash flows. However, since we recognize amounts in the consolidated financial statements in accordance with GAAP that exclude potential losses that are not probable or that may not be currently estimable, the ultimate costs of these environmental matters may be higher than the liabilities we currently have recorded in our consolidated financial statements.

Except as we expressly note below, we do not currently anticipate any material effect on our consolidated financial position, results of operations or cash flows as a result of compliance with current environmental regulations. Moreover, because all domestic steel and iron ore producers operate under the same federal environmental regulations, we do not believe that we are more disadvantaged than our domestic competitors by our need to comply with these regulations. Some foreign competitors may benefit from less stringent environmental requirements in the countries where they produce, resulting in lower compliance costs for them and providing those foreign competitors with a cost advantage on their products.

According to RCRA, which governs the treatment, handling and disposal of hazardous waste, the EPA and authorized state environmental agencies may conduct inspections of RCRA-regulated facilities to identify areas where there have been releases of hazardous waste or hazardous constituents into the environment and may order the facilities to take corrective action to remediate such releases. Environmental regulators may inspect our major iron ore and steelmaking facilities. While we cannot predict the future actions of these regulators, it is possible that they may identify conditions in future inspections of these facilities which they believe require corrective action.

Under authority from CERCLA, the EPA and state environmental authorities have conducted site investigations at certain of our facilities and other third-party facilities, portions of which previously may have been used for disposal of materials that are currently regulated. The results of these investigations are still pending, and we could be directed to spend funds for remedial activities at the former disposal areas. Because of the uncertain status of these investigations, however, we cannot reliably predict whether or when such spending might be required or its magnitude.

On April 29, 2002, AK Steel entered a mutually agreed-upon administrative order on consent with the EPA pursuant to Section 122 of CERCLA to perform a Remedial Investigation/Feasibility Study (“RI/FS”) of the Hamilton Plant site located in New Miami, Ohio. The plant ceased operations in 1990 and all of its former structures have been demolished. AK Steel submitted the investigation portion of the RI/FS and completed supplemental studies. We currently have accrued \$0.7 million for the remaining cost of the RI/FS. Until the RI/FS is complete, we cannot reliably estimate the additional costs, if any, we may incur for potentially required remediation of the site or when we may incur them.

On September 26, 2012, the EPA issued an order under Section 3013 of RCRA requiring a plan to be developed for investigation of four areas at the Ashland Works coke plant. The Ashland Works coke plant ceased operations in 2011 and all of its former structures have been demolished and removed. In 1981, AK Steel acquired the plant from Honeywell International Corporation (as successor to Allied Corporation), who had managed the coking operations there for approximately 60 years. In connection with the sale of the coke plant, Honeywell agreed to indemnify AK Steel against certain claims and obligations that could arise from the investigation, and we intend to pursue such indemnification from Honeywell, if necessary. We cannot reliably estimate how long it will take to complete the site investigation. On March 10, 2016, the EPA invited AK Steel to participate in settlement discussions regarding an enforcement action. Settlement discussions between the parties are ongoing, though whether the parties will reach agreement and any such agreement’s terms are uncertain. We currently have accrued \$1.4 million for the projected cost of the investigation and known remediation. Until the site investigation is complete, we cannot reliably estimate the costs, if any, we may incur for potential additional required remediation of the site or when we may incur them.

On May 12, 2014, the Michigan Department of Environment, Great Lakes, and Energy (“EGLE”) (previously the Michigan Department of Environmental Quality) issued to Dearborn Works an Air Permit to Install No. 182-05C (the “PTI”) to increase the emission limits for the blast furnace and other emission sources. The PTI was issued as a correction to a prior permit to install that did not include certain information during the prior permitting process. On July 10, 2014, the South Dearborn Environmental Improvement Association (“SDEIA”), Detroiters Working for Environmental Justice, Original United Citizens of Southwest Detroit and the Sierra Club filed a Claim of Appeal of the PTI in the State of Michigan, Wayne County Circuit Court, Case No. 14-008887-AA. The appellants and EGLE required the intervention of Severstal Dearborn, LLC (later merged into AK Steel Corporation) in this action as an additional appellee. The appellants allege multiple deficiencies with the PTI and the permitting process. On July 2, 2019, the Circuit Court dismissed the PTI appeal and ruled that EGLE appropriately issued the permit modification. The appellants have appealed that decision. Until the appeal is resolved, we cannot determine what the ultimate permit limits will be. Until the permit limits are determined and final, we cannot reliably estimate the costs we may incur, if any, or when we may incur them.

On August 21, 2014, the SDEIA filed a Complaint under the Michigan Environmental Protection Act (“MEPA”) in the State of Michigan, Wayne County Circuit Court, Case No. 14-010875-CE. The plaintiffs allege that the air emissions from Dearborn Works are impacting the air, water and other natural resources, as well as the public trust in

such resources. The plaintiffs are requesting, among other requested relief, that the court assess and determine the sufficiency of the PTI's limitations. On October 15, 2014, the court ordered a stay of the proceedings until a final order is issued in Wayne County Circuit Court Case No. 14-008887-AA (discussed above). When the proceedings resume, we intend to vigorously contest these claims. Until the claims in this complaint are resolved, we cannot reliably estimate the costs we may incur, if any, or when we may incur them.

On November 18, 2019, November 26, 2019, and March 16, 2020, EGLE issued Notices of Violations ("NOVs") with respect to the basic oxygen furnace electrostatic precipitator at Dearborn Works alleging violations of manganese, lead and opacity limits. We are investigating these claims and will work with EGLE to attempt to resolve them. We intend to vigorously contest any claims which cannot be resolved through a settlement. Until a settlement is reached with EGLE or the claims of the NOVs are otherwise resolved, we cannot reliably estimate the costs, if any, associated with any potentially required work.

In addition to the foregoing matters, we are or may be involved in proceedings with various regulatory authorities that may require us to pay fines, comply with more rigorous standards or other requirements or incur capital and operating expenses for environmental compliance. We believe that the ultimate disposition of the proceedings will not have, individually or in the aggregate, a material adverse effect on our consolidated financial condition, results of operations or cash flows.

Other Contingencies

In addition to the matters discussed above, there are various pending and potential claims against us and our subsidiaries involving product liability, commercial, employee benefits, and other matters arising in the ordinary course of business. Because of the considerable uncertainties which exist for any claim, it is difficult to reliably or accurately estimate what the amount of a loss would be if a claimant prevails. If material assumptions or factual understandings we rely on to evaluate exposure for these contingencies prove to be inaccurate or otherwise change, we may be required to record a liability for an adverse outcome. If, however, we have reasonably evaluated potential future liabilities for all of these contingencies, including those described more specifically above, it is our opinion, unless we otherwise noted, that the ultimate liability from these contingencies, individually and in the aggregate, should not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

NOTE 19 - SUBSEQUENT EVENTS

We have evaluated subsequent events through the date of financial statement issuance.

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

Management's Discussion and Analysis of Financial Condition and Results of Operations is designed to provide a reader of our financial statements with a narrative from the perspective of management on our financial condition, results of operations, liquidity and other factors that may affect our future results. We believe it is important to read our Management's Discussion and Analysis of Financial Condition and Results of Operations in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2019 and in our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2020 and June 30, 2020, as well as other publicly available information.

Overview

Founded in 1847, Cleveland-Cliffs is among the largest vertically integrated producers of differentiated iron ore and steel in North America. With an emphasis on non-commoditized products, we are uniquely positioned to supply both customized iron ore pellets and steel solutions to a quality-focused customer base. AK Steel, a wholly-owned subsidiary of Cleveland-Cliffs, is a leading producer of flat-rolled carbon, stainless and electrical steel products. The AK Tube and Precision Partners businesses provide customer solutions with carbon and stainless steel tubing products, die design and tooling, and hot- and cold-stamped components. In 2020, we expect to be the sole producer of HBI in the Great Lakes region. Headquartered in Cleveland, Ohio, we employ approximately 11,000 people across mining and steel manufacturing operations in the United States and Canada.

On September 28, 2020, we entered into the Transaction Agreement with ArcelorMittal S.A., pursuant to which Cliffs will acquire substantially all of the operations of ArcelorMittal USA. Upon completion of the Transaction, we will be the largest flat-rolled steel producer in North America. We will also be the largest iron ore pellet producer in North America. We expect to complete the Transaction in the fourth quarter of 2020, subject to the receipt of regulatory approvals and the satisfaction of other customary closing conditions. We believe the transaction will transform us into a more efficient and flexible fully-integrated steel system, increasing our exposure in several

desirable end markets and creating a more resilient balance sheet. Unless otherwise noted, discussion of our business and results of operations in this Quarterly Report on Form 10-Q refers to our continuing operations on a stand-alone basis without giving effect to the Transaction.

Throughout 2020, the COVID-19 pandemic negatively disrupted, to varying degrees, effectively all of the end markets that we serve. As a result, we saw decreased demand for our steel and raw material products from the industrial markets that were impacted, most notably the automotive industry. However, during the third quarter of 2020, our business conditions rapidly improved as automotive customers have now resumed effectively full production in their previously idled facilities, and we have resumed operations at all of our temporarily idled facilities.

The largest market for our steel products is the automotive industry in North America, which makes light vehicle production a key driver of demand. In the first nine months of 2020, North American light vehicle production was approximately 9.2 million units, a 26% reduction from the prior year's comparable period. The reduction is a result of automotive plants shutting down throughout the United States in response to the COVID-19 pandemic, with the most severe impact occurring in the second quarter of 2020. During the third quarter of 2020, automotive production recovered dramatically in response to increased demand from dealers, whose inventories had become severely depleted due to the shutdowns. We expect the industry to continue to operate at a healthy pace due to continued strong consumer light vehicle demand.

In our Steel and Manufacturing segment, we also sell our steel products to the infrastructure, manufacturing, electrical power, distributors and converters markets, which have shown signs of improvement, but not to the level of the automotive recovery. Shipments to the distributors and converters markets, for example, remained slower than normal for most of the third quarter of 2020 due to lower than normal demand and high inventories which resulted in a reduced hot-rolled coil pricing average.

For our Mining and Pelletizing segment, the key driver of our business is demand for raw materials from U.S. steelmakers. During the first eight months of 2020, the U.S. produced approximately 47 million metric tons of crude steel, which is 20% lower than the same period in 2019, representing about 4% of total global crude steel production. U.S. total steel capacity utilization was approximately 66% in the first nine months of 2020, which is an approximate 18% decrease from the same period in 2019.

The price for domestic hot-rolled coil steel, an important attribute in the pricing for our iron ore pellets and certain of our steel products, averaged \$526 per net ton for the first nine months of 2020, 16% lower than the same period last year. The price of hot-rolled coil steel was negatively impacted by lower demand related to the COVID-19 pandemic. However, we are encouraged that the price has recovered dramatically since August 2020 to above \$650 per net ton, as a result of improved supply-demand fundamentals.

The two other important indices that impact pricing in our Mining and Pelletizing segment are the Platts 62% Price and the Atlantic Basin Pellet Premium. The Platts 62% Price averaged \$100 per metric ton in the first nine months of 2020, a 6% increase compared to the same period in 2019. The Platts 62% Price continued its strong performance in the third quarter of 2020, as Chinese demand for iron ore remains strong. The Atlantic Basin Pellet Premium averaged \$29 per metric ton for the first nine months of 2020, a 54% decrease compared to the same period in 2019, as weakness in the steel market outside of China has driven reduced demand for higher quality raw materials.

For the three and nine months ended September 30, 2020, our consolidated *Revenues*, including *Realization of deferred revenue* of \$34.6 million for the nine months ended September 30, 2020, were \$1,646.0 million and \$3,097.8 million, respectively. For the three and nine months ended September 30, 2019, our consolidated *Revenues* were \$555.6 million and \$1,455.8 million, respectively. For the three and nine months ended September 30, 2020, we had net loss from continuing operations attributable to Cliffs shareholders of \$0.02 and \$0.51 per diluted share, respectively, and consolidated Adjusted EBITDA of \$126.3 million and \$67.0 million, respectively. For the three and nine months ended September 30, 2019, we had net income from continuing operations attributable to Cliffs shareholders of \$0.33 and \$0.80 per diluted share, respectively, and consolidated Adjusted EBITDA of \$144.1 million and \$413.7 million, respectively. See "– Results of Operations – Segment Information" below for a reconciliation of our consolidated *Net Income (loss)* to Adjusted EBITDA.

Strategy

Our key strategic initiatives include:

Optimizing our Fully-Integrated Steelmaking Footprint

Upon expected completion of the Transaction to acquire substantially all of the operations of ArcelorMittal USA, Cliffs will be transformed into a fully-integrated steel enterprise with the size and scale to achieve improved through-the-cycle margins. The Transaction will form us into the largest flat-rolled steel producer in North America with combined 2019 shipments of approximately 17 million net tons. The pending Transaction is consistent with our U.S.-centric strategy and furthers our commitment to environmentally and socially conscious steelmaking, providing self-sufficiency in environmentally friendly HBI and pellets, and expands our relationship with our union partners.

The Transaction includes six steelmaking facilities, eight finishing facilities, two iron ore mining and pelletizing operations, and three coal and cokemaking operations. These assets build upon our existing high-end steelmaking and raw material capabilities, and also open up new markets to us. Once the Transaction is completed, our focus will be on the integration of these facilities within the Cliffs footprint. The combination will provide us additional scale and technical capabilities necessary in a competitive and increasingly quality-focused marketplace.

We expect the Transaction to improve our production capabilities, flexibility, and cost performance. We have identified approximately \$150 million of cost synergies through asset optimization, economies of scale, and duplicative overhead savings. The Transaction also enhances optionality for future production of merchant pig iron, to complement our HBI offering in the metallics space.

Maximizing our Commercial Strengths

With the completed acquisition of AK Steel and the expected completion of the Transaction to acquire substantially all of the operations of ArcelorMittal USA, we will be positioned to enhance our offering of a full suite of products encompassing all steps of the iron ore and steel manufacturing process. We will enhance our industry-leading market share in the automotive industry, where our portfolio of high-end products will deliver a broad range of differentiated solutions for this highly sought after customer base.

Both before and after the expected completion of the acquisition of substantially all of the operations of ArcelorMittal USA, our product offering is expected to place heavy emphasis on the high-quality end of the spectrum, compared to other suppliers of steel in the domestic and global marketplace. Since 2015, AK Steel has de-emphasized the marketing of commodity-grade steel such as hot-rolled coil and focused on high-end applications and solutions, emphasizing niche products primarily for the automotive industry, which is well known for its extremely selective buying behavior. The AK Steel expertise, equipment capabilities and delivery reliability differentiate us from what most U.S.-based steelmakers are capable of offering. It also allows for the ability to minimize the pricing influence of volatile market indices with more focus on fixed-price agreements.

We also produce iron ore pellets, the most advanced and sophisticated iron ore product in the marketplace. The major global iron ore producers primarily sell iron ore fines, a commodity-grade product that makes up the vast majority of the seaborne iron ore trade. Our pellets are iron ore fines that have been further processed into homogenous feedstock that allow for enhanced efficiency within a blast furnace, offering steelmakers improved productivity and environmental performance. The sophisticated and tailor-made nature of our pellets allows us to charge a premium when compared to other iron ore products available in the marketplace. Upon the expected completion of the ArcelorMittal USA acquisition, we expect to transfer the vast majority of our pellets on an intercompany basis.

Our Toledo HBI production plant, when operational, will allow us to offer another unique, high-quality product to discerning raw material buyers. EAF steelmakers primarily use scrap for their iron feedstock, and our HBI will offer a sophisticated alternative with less impurities, allowing the steelmakers to increase the quality of their respective end steel products and reduce reliance on imported metallics.

Expanding our Customer Base and Product Offering

The completed acquisition of both AK Steel and the pending acquisition of substantially all of the operations of ArcelorMittal USA position us to benefit from a larger and more diverse base of customers, with less overall emphasis on commodity-linked contracts, particularly the Platts 62% Price and Atlantic Basin Pellet Premium. This expansion of our customer base into the automotive industry, as well as other steel consuming manufacturers, is expected to create resiliency by broadening our exposure to several diversified end steel markets. We will now generally supply more

advanced steel products than EAF steelmakers, who have gained market share from other blast furnaces on less advanced commodity-grade steels.

We are also seeking to expand our customer base with the rapidly growing and attractive electric vehicle market. At this time, we believe the North American automotive industry is approaching a monumental inflection point, with the adoption of electrical motors in passenger vehicles. As this market grows, it will require more advanced steel applications to meet the needs of electric vehicle producers and consumers. With our unique technical capabilities, we believe we are positioned better than any other North American steelmaker to supply the steel and parts necessary to fill these needs.

Additionally, although we have a different customer base compared to other blast furnace steelmakers, we cannot ignore the ongoing shift of steelmaking share in the U.S. away from the blast furnace producers to the EAF steelmakers. Over the past 25 years, the market share of EAFs has nearly doubled. However, as EAFs have moved to higher-value steel products, they require more high-quality iron ore-based metallics instead of lower-grade scrap as raw material feedstock. As a result of this trend, one of our top strategic priorities will be to become a critical supplier of the EAF market by providing these specialized metallics.

Once operational, we expect our HBI production plant to partially replace the over three million metric tons of ore-based metallics that are imported into the Great Lakes region every year from Russia, Ukraine, Brazil and Venezuela, as well as the nearly 20 million metric tons of scrap used in the Great Lakes area every year. The Toledo site is in close proximity to over 20 EAFs, giving us a natural competitive freight advantage over import competitors. Not only will our HBI production plant create another outlet for our high-margin pellets, but it also presents an attractive economic opportunity for us. As the only producer of DR-grade pellets in the Great Lakes region and with access to abundant, low-cost natural gas, we will be in a unique position to serve clients in the area and grow our customer base.

The completed acquisition of AK Steel and pending acquisition of substantially all of the operations of ArcelorMittal USA provide other potential outlets for HBI as it can also be used in integrated steel operations to increase productivity and reduce carbon footprint, allowing for more cost efficient and environmentally friendly steelmaking.

Strengthening our Legacy Mining and Pelletizing Business

We are the market-leading iron ore producer in the U.S., supplying differentiated iron ore pellets to major North American blast furnace steel production facilities. We have the unique advantage of being a low-cost, high-quality, iron ore pellet producer with significant transportation and logistics advantages to serve the Great Lakes steel market.

We recognize the importance of our current strong position in the North American blast furnace steel industry, and one of our top priorities is to enhance our Mining and Pelletizing business by continually evaluating opportunities to preserve our customer base, expand our production capacity and increase ore reserve life.

The acquisition of AK Steel is central to providing stability to our Mining and Pelletizing business, as sales to AK Steel accounted for 29% of our iron ore product revenue for the year ended December 31, 2019. The acquisition of AK Steel ensures pellet volume commitments for approximately 6 million long tons of pellets annually in a normalized environment to complement our existing long-term minimum volume pellet offtake agreements with other key integrated steel producers and pellets to be eventually consumed at our Toledo HBI production plant.

The pending Transaction to acquire substantially all of the operations of ArcelorMittal USA would further secure this business by integrating our largest external pellet customer into our business. This is expected to ensure pellet volume commitments of approximately 7 to 9 million long tons annually in a normalized environment. The pending Transaction will also add to our pellet footprint by approximately 8 million long tons of annual capacity, including ArcelorMittal USA's majority share of the Hibbing mine as well as the Minorca mine. The pellet production from these two mines is also expected to supply pellets to our own blast furnace operations.

Third Quarter 2020 Recent Developments

On September 28, 2020, we entered into the Transaction Agreement with ArcelorMittal S.A., pursuant to which Cliffs will acquire substantially all of the operations of ArcelorMittal USA for an aggregate purchase price of approximately \$1.4 billion, consisting of (i) \$505 million in cash, (ii) 78,186,671 of our common shares, par value \$0.125 per share, and (iii) 583,273 shares of a new series of our Serial Preferred Stock, Class B, without par value, to be designated as the “Series B Participating Redeemable Preferred Stock” at closing. The cash portion of the purchase price is subject to customary working capital and purchase price adjustments.

We expect to complete the Transaction in the fourth quarter of 2020. Completion of the Transaction is subject to various customary closing conditions, including the receipt of required regulatory approvals in identified jurisdictions, including the expiration or termination of the waiting period under the Hart-Scott-Rodino Act, and it is possible that factors outside of our control could result in the Transaction being completed at a later time or not at all. The Transaction Agreement also contains certain termination rights that may be exercised by either us or ArcelorMittal S.A. We plan to complete the Transaction as soon as reasonably practicable following the satisfaction or waiver of all applicable conditions.

COVID-19

In December 2019, COVID-19 surfaced in Wuhan, China, and has since spread to other countries, including the United States. In March 2020, the World Health Organization characterized COVID-19 as a pandemic. Efforts to contain the spread of COVID-19 intensified throughout 2020, and many countries, including the United States, took steps to restrict travel, temporarily close businesses and issue quarantine orders. It remains unclear how long and to what degree of severity the economic impact of the COVID-19 pandemic will be felt.

On March 27, 2020, President Trump signed into law the CARES Act. The CARES Act, among other things, includes provisions relating to refundable payroll tax credits, deferment of employer side social security payments, net operating loss carryback periods, AMT credit refunds, modifications to the net interest deduction limitations and technical corrections to tax depreciation methods for qualified improvement property. We have evaluated the impact the CARES Act will have on our business and are receiving liquidity relief due to our ability to accelerate the receipt of approximately \$60 million of AMT credit refunds, originally receivable in 2021 and 2022 but instead were collected in July 2020, and defer pension contributions and employer social security payments of approximately \$90 million.

We continue to utilize stringent social distancing procedures in our operating facilities, including checking employees’ temperatures and symptoms before entering the workplace each day and deep cleaning our operational facilities. Although we continue to utilize these measures, the outbreak of COVID-19 has heightened the risk that a significant portion of our workforce will suffer illness or otherwise be unable to perform their ordinary work functions.

Although steel and iron ore production have been considered “essential” by the states in which we operate, certain of our facilities and construction activities were temporarily idled during the second quarter of 2020 due primarily to temporarily reduced product demand. Most of these temporarily idled facilities were restarted during the second quarter, and the remaining operations were restarted during the third quarter.

We cannot predict whether our operations will experience additional disruptions in the future. We may also continue to experience supply chain disruptions or operational issues with our vendors, as our suppliers and contractors face similar challenges related to the COVID-19 pandemic. Because the impact of the COVID-19 pandemic continues to evolve, we cannot currently predict the extent to which our business, results of operations, financial condition or liquidity will ultimately be impacted.

To mitigate the impact of the COVID-19 pandemic, we took a number of steps throughout 2020 to solidify our liquidity position, including issuing \$520 million aggregate principal amount of secured debt, adding a \$150 million FILO tranche to our ABL facility, idling several facilities both temporarily and permanently, temporarily deferring our Chief Executive Officer’s compensation by 40%, temporarily deferring salaries by up to 20%, temporarily deferring other salaried employee benefits, and temporarily suspending capital expenditures. Lastly, our Board has suspended future dividends, which is a typical cash obligation of approximately \$100 million on an annualized basis.

In light of the sudden onset and unknown impact and duration of the COVID-19 pandemic, our previously released guidance for the fiscal year ending December 31, 2020, should not be relied upon.

Results of Operations - Consolidated

¹ Includes *Realization of deferred revenue* of \$34.6 million for the nine months ended September 30, 2020.

Revenues increased by \$1,090.4 million, or 196.3%, for the three months ended September 30, 2020, compared to the prior-year period. *Revenues*, including *Realization of deferred revenue*, increased by \$1,642.0 million, or 112.8%, for the nine months ended September 30, 2020, compared to the prior-year period. The increase for the three months ended September 30, 2020 was due to the addition of revenues from our new Steel and Manufacturing segment as a result of the AK Steel acquisition, which was completed on March 13, 2020, and an increase in the realized revenue rates within the Mining and Pelletizing segment, which were partially offset by a decrease in the sales volumes within the Mining and Pelletizing segment. The increase for the nine months ended September 30, 2020 was due to the addition of revenues from our new Steel and Manufacturing segment as a result of the AK Steel acquisition, which was completed on March 13, 2020, and was partially offset by a decrease in the sales volumes and realized revenue rates within the Mining and Pelletizing segment.

Refer to “– Results of Operations – Segment Information” for additional information regarding the specific factors that impacted revenue during the period.

Operating Costs

The following is a summary of *Total operating costs*:

	(In Millions)					
	Three Months Ended September 30,			Nine Months Ended September 30,

Cost of goods sold

The increases for the three and nine months ended September 30, 2020, were primarily due to the addition of activity from the Steel and Manufacturing segment of \$1,239.4 million and \$2,345.9 million, respectively, which was unfavorably impacted by temporary idle related costs of approximately \$39 million and \$149 million, respectively, resulting from the COVID-19 pandemic. *Cost of goods sold* for the three and nine months ended September 30, 2020 was partially offset by decreases at the Mining and Pelletizing segment of \$31.5 million and \$45.7 million, respectively, primarily due to a decrease in sales volumes. Mining and Pelletizing segment *Cost of goods sold* for the three and nine months ended September 30, 2020 included temporary idle related costs of approximately \$14 million and \$63 million, respectively, resulting from the COVID-19 pandemic.

Refer to “– Results of Operations – Segment Information” for additional information regarding the specific factors that impacted our operating results during the period.

Selling, general and administrative expenses

We had additional *Selling, general and administrative expenses* for the three and nine months ended September 30, 2020 for costs incurred related to AK Steel, which were partially offset by lower incentive compensation costs.

Acquisition-related costs

The *Acquisition-related costs* for the three and nine months ended September 30, 2020, include severance of \$2.4 million and \$38.3 million, respectively. Refer to NOTE 3 - ACQUISITION OF AK STEEL for further information on the acquisition.

Other Income (Expense)

The following is a summary of *Total other expense*:

	(In Millions)					
	Three Months Ended September 30,			Nine Months Ended September 30,		
	2020	2019	Variance Favorable/ (Unfavorable)	2020	2019	Variance Favorable/ (Unfavorable)
Interest expense, net	\$ (68.2)	\$ (25.3)	\$ (42.9)	\$ (167.9)	\$ (76.5)	\$ (91.4)
Gain (loss) on extinguishment of debt	—	—	—	132.6	(18.2)	150.8
Other non-operating income (expense):						
Net periodic benefit credits (costs) other than service costs component	9.3	(0.3)	9.6	29.9	(0.4)	30.3
Other	0.7	0.6	0.1	1.3	1.7	(0.4)
Total other expense	\$ (58.2)	\$ (25.0)	\$ (33.2)	\$ (4.1)	\$ (93.4)	\$ 89.3

The increases in *Interest expense, net* were primarily due to the incremental debt associated with the acquisition of AK Steel. These increases were partially offset by an increase in capitalized interest primarily related to construction of the HBI production plant.

The gain on extinguishment of debt for the nine months ended September 30, 2020 primarily relates to the repurchase of \$747.6 million aggregate principal amount of our outstanding senior notes of various series using the net proceeds from the additional \$555.2 million 9.875% 2025 Senior Secured Notes issuance and other sources of cash. The nine months ended September 30, 2020 were also impacted by the purchase of \$56.5 million aggregate principal amount of 7.50% 2023 AK Senior Notes and \$8.5 million aggregate principal amount of 7.625% 2021 AK Senior Notes pursuant to tender offers. Refer to NOTE 7 - DEBT AND CREDIT FACILITIES for further details.

The increases in net periodic benefit credits (costs) other than service cost component were primarily due to expected return on assets due to the acquisition of AK Steel pension assets and increased asset values for the plans held in 2019. Refer to NOTE 9 - PENSIONS AND OTHER POSTRETIREMENT BENEFITS for further detail on the components of net periodic benefit credits (costs) other than service cost component.

Income Taxes

Our effective tax rate is impacted by permanent items, primarily depletion. It also is affected by discrete items that may occur in any given period but are not consistent from period to period. The following represents a summary of our tax provision and corresponding effective rates:

	(In Millions, Except Percentages)					
	Three Months Ended September 30,			Nine Months Ended September 30,		
	2020	2019	Variance	2020	2019	Variance
Income tax benefit (expense)	\$ 22.4	\$ (4.8)	\$ 27.2	\$ 98.5	\$ (23.1)	\$ 121.6
Effective tax rate	110.9 %	5.0 %	105.9 %	38.9 %	9.1 %	29.8 %

The difference in the effective rate and income tax expense from the comparable prior-year periods primarily relates to the mix of income and certain non-deductible transaction related items, as well as discrete items recorded in each period.

Our 2020 estimated annual effective tax rate before discrete items is 35.5%. This estimated annual effective tax rate differs from the U.S. statutory rate of 21% primarily due to the deduction for percentage depletion in excess of cost depletion related to our Mining and Pelletizing segment operations, as well as non-deductible transaction costs, executive officers' compensation, global intangible low-taxed income and income of noncontrolling interests for which no tax is recognized. The 2019 estimated annual effective tax rate before discrete items at September 30, 2019 was 9.6%. The increase in the estimated effective tax rate before discrete items is driven by the change in the mix of income, as well as transaction costs and other acquisition-related charges that were incurred only in 2020.

For the three and nine months ended September 30, 2020, we recorded discrete items that resulted in an income tax benefit of \$5.0 million and \$8.6 million, respectively. The discrete adjustments are primarily related to the release of uncertain tax positions due to favorable resolution of an international audit issue. The discrete adjustments also include interest on uncertain tax positions and the refunds received during the year of amounts sequestered by the Internal Revenue Service on previously filed AMT credit refund claims. For the three and nine months ended September 30, 2019, we recorded discrete items that resulted in an income tax benefit of \$0.5 million and \$1.3 million, respectively.

Results of Operations - Segment Information

Adjusted EBITDA

We evaluate performance on a segment basis, as well as a consolidated basis, based on Adjusted EBITDA, which is a non-GAAP measure. This measure is used by management, investors, lenders and other external users of our financial statements to assess our operating performance and to compare operating performance to other companies in the steel and iron ore industries, although it is not necessarily comparable to similarly titled measures used by other companies. In addition, management believes Adjusted EBITDA is a useful measure to assess the earnings power of the business without the impact of capital structure and can be used to assess our ability to service debt and fund future capital expenditures in the business.

The following table provides a reconciliation of our consolidated *Net income (loss)* to Adjusted EBITDA:

	(In Millions)

Adjusted EBITDA	<u>\$ 126.3</u>	<u>\$ 144.1</u>	<u>\$ 67.0</u>	<u>\$ 413.7</u>

¹ EBITDA of noncontrolling interests includes \$11.9 million and \$31.2 million for income and \$4.3 million and \$10.1 million for depreciation, depletion and amortization for the three and nine months ended September 30, 2020, respectively.

The following table provides a summary of our Adjusted EBITDA by segment:

	(In Millions)					
	Three Months Ended September 30,			Nine Months Ended September 30,

Adjusted EBITDA from the Steel and Manufacturing segment for the three months ended September 30, 2020 was positively impacted by pent-up demand from the COVID-19 pandemic, which helped boost automotive production during the third quarter. Despite the positive third quarter results, Adjusted EBITDA for the nine months ended September 30, 2020 was negative as the second quarter of 2020 was unfavorably impacted by decreased customer demand resulting from the COVID-19 pandemic. As a result of the COVID-19 pandemic, we incurred temporary idle related costs resulting from production curtailments of approximately \$39 million and \$149 million for the three and nine months ended September 30, 2020, respectively. Additionally, *Cost of goods sold* as a percentage of *Revenues* for the nine months ended September 30, 2020 was unfavorably impacted by product sales mix primarily due to the COVID-19 pandemic, which resulted in lower sales volumes to automotive customers in the second quarter during the height of the COVID-19 stay-at-home orders and shutdowns.

Adjusted EBITDA from the Mining and Pelletizing segment for the three months ended September 30, 2020 decreased \$37.4 million, compared to the prior-year period, primarily due to lower *Revenues* of \$70.3 million, which was partially offset by lower *Cost of goods sold* of \$31.5 million. The lower *Revenues* were driven primarily by a decrease in sales volume of 0.8 million long tons due to reduced customer demand associated with the COVID-19 pandemic, which was partially offset by an increase in the average year-to-date realized product revenue rate, predominantly due to Platts 62% Price and lower index freight rates. The lower *Cost of goods sold* was primarily driven by the decrease in sales volume, which was partially offset by idle costs, excluding idle depreciation, depletion and amortization expense, of \$12 million as a result of the temporary idling of operations in response to reduced customer demand driven by the COVID-19 pandemic.

Adjusted EBITDA from the Mining and Pelletizing segment for the nine months ended September 30, 2020 decreased \$201.2 million, compared to the prior-year period, primarily due to lower *Revenues* of \$256.1 million, which was partially offset by lower *Cost of goods sold* of \$45.7 million. The lower *Revenues* were driven primarily by a decrease in sales volume of 1.7 million long tons and a decrease in the average year-to-date realized product revenue rate, predominantly due to lower Atlantic Basin Pellet Premiums and a decrease in the hot-rolled coil steel price. The lower *Cost of goods sold* was primarily driven by the decrease in sales volume, which was partially offset by idle costs, excluding idle depreciation, depletion and amortization expense, of \$52 million as a result of the temporary idling of operations in response to reduced customer demand driven by the COVID-19 pandemic.

Adjusted EBITDA from Corporate and eliminations for the three months ended September 30, 2020 and 2019 includes intercompany profit eliminations for iron ore sales from the Mining and Pelletizing segment to the Steel and Manufacturing segment of \$28.6 million and \$10.9 million, respectively. Additionally, Adjusted EBITDA from Corporate and eliminations for the three months ended September 30, 2020 and 2019 includes corporate and allocated *Selling, general and administrative expenses* of \$22.9 million and \$24.6 million, respectively.

Adjusted EBITDA from Corporate and eliminations for the nine months ended September 30, 2020 and 2019 includes intercompany profit eliminations for iron ore sales from the Mining and Pelletizing segment to the Steel and Manufacturing segment of \$90.3 million and \$12.5 million, respectively. Additionally, Adjusted EBITDA from Corporate and eliminations for the nine months ended September 30, 2020 and 2019 includes corporate and allocated *Selling, general and administrative expenses* of \$67.6 million and \$77.4 million, respectively.

Operating Results

Adjusted EBITDA for the three months ended September 30, 2020 was positive as pent-up demand from the COVID-19 pandemic helped boost automotive production during the quarter. As a result, sales to the automotive market accounted for 73% of *Revenues* during the third quarter. *Cost of goods sold* for the three months ended September 30, 2020 was unfavorably impacted by temporary idle related costs of approximately \$39 million, driven by the lingering effects of temporarily idled facilities in response to lower customer demand due to the COVID-19 pandemic.

Despite a positive third quarter, which showed significant signs of improvement, Adjusted EBITDA for the nine months ended September 30, 2020 was negative as the second quarter was impacted by decreased customer demand resulting from the COVID-19 pandemic. *Cost of goods sold* for the nine months ended September 30, 2020 was unfavorably impacted by idle related costs of approximately \$149 million, driven by the temporary idling of facilities in response to lower customer demand due to the COVID-19 pandemic. Additionally, *Cost of goods sold* as a percentage of *Revenues* was unfavorably impacted by product sales mix primarily due to the COVID-19 pandemic, which resulted in lower sales volumes to our automotive customers in the second quarter during the height of the COVID-19 stay-at-home orders and shutdowns.

Production

During the third quarter, certain of our facilities, which were previously temporarily idled in response to the COVID-19 pandemic, including Dearborn Works, Mansfield Works, all Precision Partners stamping facilities and approximately 65% of AK Tube production, were all restarted and resumed production. Dearborn Works hot strip mill, anneal and temper operations and AK Coal remain permanently idled as part of the permanent cost reduction efforts.

Adjusted EBITDA decreased by \$37.4 million during the three months ended September 30, 2020, compared to the prior-year period, primarily due to the decrease in revenues of \$70.3 million, offset partially by the decrease in cost of goods sold of \$31.5 million, as discussed below.

Revenues decreased by \$68.7 million during the three months ended September 30, 2020, compared to the prior-year period, excluding a decrease in domestic freight of \$1.6 million, driven by:

- Lower sales volume of 0.8 million long tons, primarily due to reduced demand as certain customer blast furnaces remained idled in response to the COVID-19 pandemic, which resulted in decreased revenue of \$80 million.
- This decrease was offset partially by an increase in the average year-to-date realized product revenue rate of \$2.41 per long ton, or 2.5%, during the three months ended September 30, 2020, compared to the prior-year period, which resulted in an increase of \$11 million, predominantly due to:
 - An increase in the Platts 62% Price, which positively affected the realized revenue rate by \$31 million, or \$6 per long ton; and
 - Lower index freight rates, a component in most of our contract pricing formulas, which positively affected the realized revenue rate by \$24 million, or \$5 per long ton.
 - These increases were offset partially by lower Atlantic Basin Pellet Premiums, which negatively affected the realized revenue rate by \$45 million, or \$9 per long ton.

Cost of goods sold decreased \$29.9 million during the three months ended September 30, 2020, excluding the domestic freight decrease of \$1.6 million, compared to the same period in 2019. This is predominantly due to a decrease in sales volume, as discussed above, of 0.8 million long tons, which resulted in decreased costs of \$55 million period-over-period. This was offset partially by idle costs of \$14 million as a result of the temporary idling of operations in response to reduced customer demand driven by the COVID-19 pandemic, that were incurred during the three months ended September 30, 2020.

Production

Production for the three months ended September 30, 2020, decreased 11.6% compared to the same period in 2019, predominantly due to the temporary idling of the Northshore and Hibbing mines in response to the COVID-19 pandemic and resulting decreased customer demand. Both the Northshore and Hibbing mine operations were restarted during the third quarter.

² Includes intercompany sales to our Steel and Manufacturing segment of 3,028 thousand long tons and 384 thousand long tons for the nine months ended September 30, 2020 and 2019, respectively.

³ Includes *Realization of deferred revenue* of \$34.6 million for the nine months ended September 30, 2020.

The following table presents certain operating results on a per ton basis:

³ Includes *Realization of deferred revenue* of \$34.6 million for the nine months ended September 30, 2020.

Adjusted EBITDA decreased by \$201.2 million during the nine months ended September 30, 2020, compared to the prior-year period, primarily due to the decrease in revenues of \$256.1 million, offset partially by the decrease in cost of goods sold of \$45.7 million, as discussed below.

Revenues decreased by \$252.3 million during the nine months ended September 30, 2020, compared to the prior-year period, excluding a decrease in domestic freight of \$3.8 million, driven by:

- Lower sales volume of 1.7 million long tons, primarily due to reduced demand as customers idled their blast furnaces in response to the COVID-19 pandemic, which resulted in decreased revenue of \$177 million; and
- A decrease in the average year-to-date realized product revenue rate of \$6.28 per long ton, or 6.1%, during the nine months ended September 30, 2020, compared to the prior-year period, which resulted in a decrease of \$76 million, predominantly due to:
 - Lower Atlantic Basin Pellet Premiums, which negatively affected the realized revenue rate by \$11 per long ton, or \$131 million; and
 - A decrease in the hot-rolled coil steel price, which negatively affected the realized revenue rate by \$5 per long ton, or \$59 million.

- These decreases were offset partially by:
 - The *Realization of deferred revenue* of \$35 million, or \$3 per long ton, as a result of the termination of the AK Steel iron ore pellet sales agreement;
 - An increase in the Platts 62% Price, which positively affected the realized revenue rate by \$31 million, or \$3 per long ton; and
 - Lower index freight rates, a component in most of our contract pricing formulas, which positively affected the realized revenue rate by \$25 million, or \$2 per long ton.

Cost of goods sold decreased \$41.9 million during the nine months ended September 30, 2020, excluding the domestic freight decrease of \$3.8 million, compared to the same period in 2019. This is predominantly due to a decrease in sales volume, as discussed above, of 1.7 million long tons, which resulted in decreased costs of \$118 million period-over-period. This was offset partially by idle costs of \$63 million as a result of the temporary idling of operations in response to reduced customer demand driven by the COVID-19 pandemic, that were incurred during the nine months ended September 30, 2020.

Production

Production for the nine months ended September 30, 2020, decreased 22.4% compared to the same period in 2019, predominantly due to the temporary idling of the Tilden, Northshore and Hibbing mines in response to the COVID-19 pandemic and resulting decrease in customer demand.

Liquidity, Cash Flows and Capital Resources

Our primary sources of liquidity are *Cash and cash equivalents* and cash generated from our operations, availability under the ABL Facility and other financing activities. Our capital allocation decision-making process is focused on preserving healthy liquidity levels while maintaining the strength of our balance sheet and creating financial flexibility to manage through the inherent cyclical demand for our products and volatility in commodity prices. We are focused on maximizing the cash generation of our operations, reducing debt, and aligning capital investments with our strategic priorities and the requirements of our business plan, including regulatory and permission-to-operate related projects.

Since the onset of the COVID-19 pandemic in the United States, our primary focus has been on maintaining adequate levels of liquidity to manage through a potentially prolonged economic downturn. In alignment with this, we have made several operational adjustments, including facility closures, idles, and extended maintenance outages. Along with the cost savings achieved through these operational adjustments, we have reduced planned capital expenditures for the year, reduced overhead costs and suspended our quarterly dividend payment. Additionally, on April 17, 2020 and April 24, 2020, we issued \$400.0 million aggregate principal amount and an additional \$555.2 million aggregate principal amount, respectively, of 9.875% 2025 Senior Secured Notes to further bolster our liquidity position and reduce debt. We also issued an additional \$120.0 million aggregate principal amount of 6.75% 2026 Senior Secured Notes on June 19, 2020, the net proceeds of which we intend to use to finance construction of our HBI production plant. Pending such use, the net proceeds were used to temporarily reduce the outstanding borrowings under our ABL Facility. We believe these measures will allow us to remain comfortable with our liquidity levels for an extended market downturn related to the COVID-19 pandemic.

Based on our outlook for the next 12 months, which is subject to continued changing demand from customers and volatility in iron ore and domestic steel prices, we expect to have ample liquidity through cash generated from operations and availability under our ABL Facility sufficient to meet the needs of our operations and service our debt obligations, as well as provide the \$505 million of cash required to be paid pursuant to the terms of the Transaction Agreement.

The following discussion summarizes the significant items impacting our cash flows during the nine months ended September 30, 2020 and 2019 as well as expected impacts to our future cash flows over the next 12 months. Refer to the Statements of Unaudited Condensed Consolidated Cash Flows for additional information. Unless otherwise noted, the following discussion refers to our continuing operations on a stand-alone basis without giving effect to the Transaction.

Operating Activities

Net cash used by operating activities was \$53.2 million for the nine months ended September 30, 2020, compared to net cash provided by operating activities of \$388.1 million for the comparable period in 2019. The increase in cash used by operating activities during the first nine months of 2020, compared to 2019, was due primarily to the slowing economy in connection with the COVID-19 pandemic resulting in reduced customer demand and the need to temporarily idle many of our operations, which had an adverse effect on our operating results.

Our U.S. cash and cash equivalents balance at September 30, 2020 was \$36.6 million, or 66% of our consolidated total cash and cash equivalents balance, excluding cash related to our VIE, of \$55.6 million. Additionally, we had a cash balance at September 30, 2020 of \$4.4 million classified as part of *Other current assets* in the Statements of Unaudited Condensed Consolidated Financial Position related to discontinued operations.

Investing Activities

Net cash used by investing activities was \$1,240.2 million and \$449.5 million for the nine months ended September 30, 2020 and 2019, respectively. During the first nine months of 2020, we had net cash outflows of \$869.3 million for the acquisition of AK Steel, net of cash acquired. This includes \$590.0 million to pay off AK Steel Corporation's former revolving credit facility and \$323.6 million to purchase outstanding 7.50% 2023 AK Senior Notes. Additionally, we had capital expenditures including capitalized interest of \$378.9 million and \$460.7 million for the nine months ended September 30, 2020 and 2019, respectively.

During the nine months ended September 30, 2020, we had cash outflows, including deposits and capitalized interest, of approximately \$270 million for development of the HBI production plant. This compares to net cash outflows, including deposits and capitalized interest, during the first nine months of 2019 of approximately \$370 million on development of the HBI production plant and approximately \$40 million on the upgrades at Northshore. Additionally, we spent approximately \$110 million and \$50 million on sustaining capital expenditures during the nine months ended September 30, 2020 and 2019, respectively. Sustaining capital spend includes infrastructure, mobile equipment, fixed equipment, product quality, environment, health and safety.

In response to the COVID-19 pandemic, we temporarily limited our cash used for capital expenditures to critical sustaining capital, but have now resumed growth capital spending, including the restart of Toledo HBI production plant construction in June 2020. The HBI production plant is expected to be completed and begin production in the fourth quarter of 2020. We anticipate total cash used for capital expenditures during the next 12 months to be approximately \$440 million, including capitalized interest.

Financing Activities

Net cash provided by financing activities was \$994.2 million for the nine months ended September 30, 2020, compared to net cash used by financing activities of \$366.9 million for the comparable period in 2019. Cash provided by financing activities for the nine months ended September 30, 2020, primarily related to the issuances of \$845.0 million aggregate principal amount of 6.75% 2026 Senior Secured Notes, \$955.2 million aggregate principal amount of 9.875% 2025 Senior Secured Notes and borrowings of \$800.0 million under the ABL Facility. The net proceeds from the initial issuance of \$725.0 million aggregate principal amount of the 6.75% 2026 Senior Secured Notes, along with cash on hand, were used to purchase \$372.7 million aggregate principal amount of 7.625% 2021 AK Senior Notes and \$367.2 million aggregate principal amount of 7.50% 2023 AK Senior Notes and to pay for the \$44.4 million of debt issuance costs in the first quarter of 2020. The net proceeds from the additional issuance of \$555.2 million aggregate principal amount of the 9.875% 2025 Senior Secured Notes were used to repurchase \$736.4 million aggregate principal amount of our outstanding senior notes. Additionally, during the nine months ended September 30, 2020, we repaid \$400.0 million under the ABL Facility.

Net cash used by financing activities during the first nine months of 2019 primarily related to the repurchase of 24.4 million common shares for \$252.9 million in the aggregate under the \$300.0 million share repurchase program. Additionally, we issued \$750.0 million aggregate principal amount of 5.875% 2027 Senior Notes, which provided net proceeds of approximately \$714 million. The net proceeds from the notes offering, along with cash on hand, were used to redeem in full all of our then-outstanding 4.875% 2021 Senior Notes and to purchase \$600.0 million aggregate principal amount of our outstanding 5.75% 2025 Senior Notes pursuant to a tender offer. In total, during the first nine months of 2019, we purchased \$724.0 million aggregate principal amount of senior notes for \$729.3 million in cash. During the first nine months of 2019, we also made a cash payment of \$44.2 million for the final annual installment related to the distribution of Empire partnership equity.

Additional uses of cash from financing activities during the first nine months of 2020 and 2019, included payments of cash dividends on our common shares of \$40.8 million and \$45.1 million, respectively.

We have temporarily suspended future dividend distributions as a result of the COVID-19 pandemic in order to preserve cash during this time of economic uncertainty. We anticipate future uses of cash and cash provided by financing activities during the next 12 months to include opportunistic debt transactions as part of our liability management strategy, such as the transactions that occurred during the first nine months of 2020, in addition to providing supplemental financing to meet cash requirements for business improvement opportunities.

¹ As of September 30, 2020, the ABL Facility had a maximum borrowing base of \$2.0 billion. The available borrowing base is determined by applying customary advance rates to eligible accounts receivable, inventory and certain mobile equipment.

Our primary sources of funding are cash on hand, which totaled \$60.0 million as of September 30, 2020, cash generated by our business, availability under the ABL Facility and other financing activities. The combination of cash and availability under the ABL Facility gives us \$1,183.0 million in liquidity entering the fourth quarter of 2020, which is expected to be adequate to fund operations, letter of credit obligations, sustaining and expansion capital expenditures and other cash commitments for at least the next 12 months. In connection with the announced Transaction with ArcelorMittal USA, we have received commitments to increase our existing ABL Facility. Upon completion of the Transaction, ArcelorMittal USA inventories and accounts receivable are expected to further increase the Company's proforma combined borrowing base, enhancing availability and overall liquidity.

As of September 30, 2020, we were in compliance with the ABL Facility liquidity requirements and, therefore, the springing financial covenant requiring a minimum fixed charge coverage ratio of 1.0 to 1.0 was not applicable.

Off-Balance Sheet Arrangements

In the normal course of business, we are a party to certain arrangements that are not reflected on our Statements of Unaudited Condensed Consolidated Financial Position. These arrangements include minimum "take or pay" purchase commitments, such as minimum electric power demand charges, minimum coal, diesel and natural gas purchase commitments and minimum railroad transportation commitments. We also have financial instruments with off-balance sheet risk, such as bank letters of credit and bank guarantees.

Market Risks

We are subject to a variety of risks, including those caused by changes in commodity prices and interest rates. We have established policies and procedures to manage such risks; however, certain risks are beyond our control.

Pricing Risks

Commodity Price Risk

Our financial results can vary for our operations as a result of fluctuations in market prices. We attempt to mitigate commodity price risk by aligning fixed and variable components in our customer pricing contracts, supplier purchasing agreements and derivative financial instruments.

Some customer contracts have fixed-pricing terms, which increase our exposure to fluctuations in raw material and energy costs. To reduce our exposure, we enter into annual, fixed-price agreements for certain raw materials. Some of our existing multi-year raw material supply agreements have required minimum purchase quantities. Under adverse economic conditions, those minimums may exceed our needs. Absent exceptions for force majeure and other circumstances affecting the legal enforceability of the agreements, these minimum purchase requirements may compel us to purchase quantities of raw materials that could significantly exceed our anticipated needs or pay damages to the supplier for shortfalls. In these circumstances, we would attempt to negotiate agreements for new purchase quantities. There is a risk, however, that we would not be successful in reducing purchase quantities, either through negotiation or litigation. If that occurred, we would likely be required to purchase more of a particular raw material in a particular year than we need, negatively affecting our results of operations and cash flows.

Certain of our customer contracts include variable-pricing mechanisms that adjust selling prices in response to changes in the costs of certain raw materials and energy, while other of our customer contracts exclude such mechanisms. We may enter multi-year purchase agreements for certain raw materials with similar variable-price mechanisms, allowing us to achieve natural hedges between the customer pricing contracts and supplier purchasing agreements. Therefore, in some cases, price fluctuations for energy (particularly natural gas and electricity), raw materials (such as scrap, chrome, zinc and nickel) or other commodities may be, in part, passed on to customers rather than absorbed solely by us. There is a risk, however, that the variable-price mechanisms in the sales contracts may not necessarily change in tandem with the variable-price mechanisms in our purchase agreements, negatively affecting our results of operations and cash flows.

Our strategy to address volatile natural gas rates, diesel rates and electricity rates includes improving efficiency in energy usage, identifying alternative providers and utilizing the lowest cost alternative fuels. If we are unable to align fixed and variable components between customer pricing contracts and supplier purchasing agreements, we use cash-settled commodity price swaps and options to hedge the market risk associated with the purchase of certain of our raw materials and energy requirements. Additionally, we routinely use these derivative instruments to hedge a portion of our natural gas, electricity and zinc requirements. Our hedging strategy is designed to protect us from excessive pricing volatility. However, since we do not typically hedge 100% of our exposure, abnormal price increases in any of these commodity markets might still negatively affect operating costs. The following table summarizes the impact of a 10% and 25% change in market price from the September 30, 2020 estimated price on our derivative instruments, thereby impacting our pre-tax income by the same amount.

Commodity Derivative	(In Millions)	
	Positive or Negative Effect on Pre-tax Income	
	10% Increase or Decrease	25% Increase or Decrease
Natural gas	\$ 8.2	\$ 20.5
Electricity	2.3	5.8
Zinc	1.1	2.6
Other	0.9	1.9

Additionally, our iron ore pellet revenue is impacted by pricing of iron ore, hot-rolled coil steel and iron ore pellet premiums. World market prices for these commodities have fluctuated historically and are affected by numerous factors beyond our control. The world market price that is most commonly utilized in our iron ore sales contracts is the Platts 62% Price, which can fluctuate widely due to numerous factors, such as global economic growth or contraction, change in demand for steel or changes in availability of supply.

Customer Supply Agreement

A supply agreement with one Mining and Pelletizing customer provides for supplemental revenue or refunds based on the hot-rolled coil steel price at the time the iron ore product is consumed in the customer's blast furnaces. At September 30, 2020, we had derivative assets of \$34.5 million, representing the fair value of the pricing factors, based upon the amount of unconsumed long tons and an estimated average hot-rolled coil steel price for the period in which the iron ore is expected to be consumed in the customer's blast furnaces, subject to final pricing at a future date. We estimate that a \$75 positive or negative change in the hot-rolled coil steel price realized from the September 30, 2020 estimates would cause the fair value of the derivative instrument to increase or decrease by approximately \$22 million, respectively, thereby impacting our consolidated revenues by the same amount. We have not entered into any hedging programs to mitigate the risk of adverse price fluctuations.

Refer to NOTE 12 - DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES for further information.

Provisional Pricing Arrangements

Certain of our customer supply agreements specify provisional price calculations, where the pricing mechanisms generally are based on market pricing, with the final revenue rate based on market inputs at a specified point in time in the future, per the terms of the supply agreements. At September 30, 2020, we had derivative assets of \$26.9 million and derivative liabilities of \$0.3 million, reflected as part of our revenue, representing the fair value of the provisional price calculations. We estimate that a positive or negative \$10 change in fourth quarter pricing from management's estimate of the Platts 62% Price would cause the fair value of the net derivative instrument position for provisional pricing arrangements to increase or decrease by approximately \$11 million, respectively. Additionally, we

estimate that a positive or negative \$10 change in fourth quarter pricing from management's estimate of the Atlantic Basin Pellet Premium would cause the fair value of the net derivative instrument position for provisional pricing arrangements to increase or decrease by approximately \$8 million, respectively. We have not entered into any hedging programs to mitigate the risk of adverse price fluctuations.

Foreign Currency Exchange Rate Risk

Exchange rate fluctuations affect a portion of Precision Partner's operating costs, reported within the Steel and Manufacturing segment, that are denominated in Canadian dollars, and we use forward currency contracts to reduce our exposure to certain of these currency price fluctuations. At September 30, 2020, we had outstanding option and forward currency contracts with a total contract value of \$29.3 million for the purchase of Canadian dollars. Based on the contracts outstanding at September 30, 2020, a 10% change in the U.S. dollar-to-Canadian dollar exchange rate would result in a pre-tax impact of \$1.5 million on the fair value of these contracts, which would offset the effect of a change in the exchange rate on the underlying operating costs. Refer to NOTE 12 - DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES for further information.

Valuation of Goodwill and Other Long-Lived Assets

We assign goodwill arising from acquired companies to the reporting units that are expected to benefit from the synergies of the acquisition. Goodwill is tested on a qualitative basis for impairment at the reporting unit level on an annual basis (October 1) and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying value. These events or circumstances could include a significant change in the business climate, legal factors, operating performance indicators, competition or sale or disposition of a significant portion of a reporting unit. As necessary, should our qualitative test indicate impairment, we perform a quantitative test to determine the amount of impairment, if any, to the carrying value of the reporting unit and its associated goodwill.

Application of the goodwill impairment test requires judgment, including the identification of reporting units, assignment of assets and liabilities to reporting units, assignment of goodwill to reporting units and if a quantitative assessment is deemed necessary in determination of the fair value of each reporting unit. The fair value of each reporting unit is estimated using a discounted cash flow methodology, which considers forecasted cash flows discounted at an estimated weighted average cost of capital. Assessing the recoverability of our goodwill requires significant assumptions regarding the estimated future cash flows and other factors to determine the fair value of a reporting unit including, among other things, estimates related to forecasts of future revenues, expected EBITDA, expected capital expenditures and working capital requirements, which are based upon our long-range plan estimates. The assumptions used to calculate the fair value of a reporting unit may change from year to year based on operating results, market conditions and other factors. Changes in these assumptions could materially affect the determination of fair value for each reporting unit.

Long-lived assets are reviewed for impairment upon the occurrence of events or changes in circumstances that would indicate that the carrying value of the assets may not be recoverable. Such indicators may include: a significant decline in expected future cash flows; a sustained, significant decline in market pricing; a significant adverse change in legal or environmental factors or in the business climate; changes in estimates of our recoverable reserves; and unanticipated competition. Any adverse change in these factors could have a significant impact on the recoverability of our long-lived assets and could have a material impact on our consolidated statements of operations and statement of financial position.

A comparison of each asset group's carrying value to the estimated undiscounted net future cash flows expected to result from the use of the assets, including cost of disposition, is used to determine if an asset is recoverable. Projected future cash flows reflect management's best estimate of economic and market conditions over the projected period, including growth rates in revenues and costs, and estimates of future expected changes in operating margins and capital expenditures. If the carrying value of the asset group is higher than its undiscounted net future cash flows, the asset group is measured at fair value and the difference is recorded as a reduction to the long-lived assets. We estimate fair value using a market approach, an income approach or a cost approach. While we concluded that an event triggering the need for an impairment assessment did not occur during the nine months ended September 30, 2020, a prolonged COVID-19 pandemic could impact the results of operations due to changes to assumptions that would indicate that the carrying value of our asset groups may not be recoverable.

Interest Rate Risk

Interest payable on our senior notes is at fixed rates. Interest payable under our ABL Facility is at a variable rate based upon the applicable base rate plus the applicable base rate margin depending on the excess availability. Additionally, we have outstanding IRBs with fixed and variable rates. As of September 30, 2020, we had \$400.0 million outstanding under the ABL Facility. An increase in prevailing interest rates would increase interest expense and interest paid for any outstanding borrowings from the ABL Facility. For example, a 100 basis point change to interest rates under the ABL Facility at the current borrowing level would result in a change of \$4.1 million to interest expense on an annual basis.

Supply Concentration Risks

Many of our operations and mines rely on one source each of electric power and natural gas. A significant interruption or change in service or rates from our energy suppliers could materially impact our production costs, margins and profitability.

Forward-Looking Statements

This report contains statements that constitute "forward-looking statements" within the meaning of the federal securities laws. As a general matter, forward-looking statements relate to anticipated trends and expectations rather than historical matters. Forward-looking statements are subject to uncertainties and factors relating to our operations and business environment that are difficult to predict and may be beyond our control. Such uncertainties and factors may cause actual results to differ materially from those expressed or implied by the forward-looking statements. These statements speak only as of the date of this report, and we undertake no ongoing obligation, other than that imposed by law, to update these statements. Uncertainties and risk factors that could affect our future performance and cause results to differ from the forward-looking statements in this report include, but are not limited to:

- severe financial hardship, bankruptcy, temporary or permanent shutdowns or operational challenges, due to the ongoing COVID-19 pandemic or otherwise, of one or more of our major customers, including customers in the automotive market, key suppliers or contractors, which, among other adverse effects, could lead to reduced demand for our products, increased difficulty collecting receivables, and customers and/or suppliers asserting force majeure or other reasons for not performing their contractual obligations to us;
- uncertainty and weaknesses in global economic conditions, including downward pressure on prices caused by the COVID-19 pandemic, oversupply of imported products, reduced market demand and risks related to U.S. government actions with respect to Section 232, the USMCA and/or other trade agreements, treaties or policies;
- uncertainties associated with the highly competitive and highly cyclical steel industry and reliance on the demand for steel from the automotive industry;
- continued volatility of steel and iron ore prices and other trends, which may impact the price-adjustment calculations under certain of our sales contracts;
- our ability to cost-effectively achieve planned production rates or levels, including at our HBI production plant currently under construction;
- our ability to successfully identify and consummate any strategic investments or development projects, including our HBI production plant;
- the impact of our steelmaking customers reducing their steel production due to the COVID-19 pandemic, or increased market share of steel produced using methods other than those used by our customers, or increased market share of lighter-weight steel alternatives, including aluminum;
- our ability to maintain adequate liquidity, our level of indebtedness and the availability of capital could limit cash flow available to fund working capital, planned capital expenditures, acquisitions, and other general corporate purposes or ongoing needs of our business;
- our actual economic iron ore reserves or reductions in current mineral estimates, including whether any mineralized material qualifies as a reserve;

- our ability to maintain appropriate relations with unions and employees;
- the ability of our customers, joint venture partners and third-party service providers to meet their obligations to us on a timely basis or at all;
- events or circumstances that could impair or adversely impact the viability of a production plant or mine and the carrying value of associated assets, as well as any resulting impairment charges;
- uncertainties associated with natural disasters, weather conditions, unanticipated geological conditions, supply or price of energy, equipment failures, infectious disease outbreaks and other unexpected events;
- adverse changes in interest rates, foreign currency rates and tax laws;

- additional debt we incur, or other proposed financing transactions we may enter into, in connection with the Transaction may negatively impact our credit profile and limit our financial flexibility.

For additional factors affecting our business, refer to *Part II – Item 1A. Risk Factors* of this Quarterly Report on Form 10-Q. You are urged to carefully consider these risk factors.

Non-GAAP Reconciliations

We present cash cost of goods sold rate per long ton, which is a non-GAAP financial measure that management uses in evaluating operating performance. We believe our presentation of non-GAAP cash cost of goods sold is useful to investors because it excludes depreciation, depletion and amortization, which are non-cash, and freight, which has no impact on sales margin, thus providing a more accurate view of the cash outflows related to the sale of iron ore. The presentation of this measure is not intended to be considered in isolation from, as a substitute for, or as superior to, the financial information prepared and presented in accordance with GAAP. The presentation of this measure may be different from non-GAAP financial measures used by other companies. Below is a reconciliation in dollars of this non-GAAP financial measure to our Mining and Pelletizing segment cost of goods sold.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Information regarding our market risk is presented under the caption "Market Risks," which is included in our Annual Report on Form 10-K for the year ended December 31, 2019, and *Part I – Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations* of this Quarterly Report on Form 10-Q.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based solely on the definition of "disclosure controls and procedures" in Rule 13a-15(e) promulgated under the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of the end of the period covered by this report, we carried out an evaluation under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, the Chief Executive Officer and the Chief Financial Officer concluded that our disclosure controls and procedures were effective.

The Company acquired AK Steel during March 2020. We are currently integrating the processes and internal controls of AK Steel. Except for the AK Steel acquisition, there was no change in the Company's internal control over financial reporting during the quarter ended September 30, 2020 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting. We have not experienced any material impact to our internal control over financial reporting due to the COVID-19 pandemic. We are continually monitoring and assessing the impact of the COVID-19 pandemic on our internal controls to minimize the impact on their design and operating effectiveness.

PART II - OTHER INFORMATION

Item 1. *Legal Proceedings*

We have described the material pending legal proceedings to which we are a party in our Annual Report on Form 10-K for the year ended December 31, 2019, and in our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2020 and June 30, 2020. Additional information for this item relating to certain environmental and other contingencies may be found in NOTE 18 - COMMITMENTS AND CONTINGENCIES to the consolidated financial statements in *Part I – Item 1. Financial Statements* of this Quarterly Report on Form 10-Q and is incorporated herein by reference.

Item 1A. *Risk Factors*

We caution readers that our business activities involve risks and uncertainties that could cause actual results to differ materially from those currently expected by management. We described the most significant risks that could impact our results in Part II, Item 1A, "Risk Factors" in our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2020, and the additional risk factors presented below update and supplement that disclosure.

RISKS RELATED TO THE PROPOSED TRANSACTION

The Transaction Agreement may be terminated in accordance with its terms and the Transaction may not be completed.

The Transaction Agreement contains a number of conditions that must be satisfied or waived in order to complete the Transaction. Those conditions include, among others:

- the receipt of required regulatory approvals in the United States, Germany and Austria;
- the absence of any governmental order or law prohibiting the consummation of the Transaction;
- the accuracy of our and ArcelorMittal S.A.'s respective representations and warranties under the Transaction Agreement (subject to the materiality standards set forth in the Transaction Agreement);
- the performance by us and ArcelorMittal S.A. of our respective obligations under the Transaction Agreement in all material respects;
- the receipt of consents and/or waivers under certain joint venture agreements to which ArcelorMittal USA is a party; and
- the absence of a material adverse effect (as described in the Transaction Agreement) on us or ArcelorMittal S.A.

These conditions to the closing of the Transaction may not be fulfilled in a timely manner or at all, and, accordingly, the Transaction may be delayed or may not be completed.

In addition, if the Transaction is not completed by June 28, 2021 (subject to either party being entitled to extend the date by three months (or such other period as the parties may agree in writing) if required antitrust approvals have not yet been obtained or there is an impediment under any antitrust law), either party may choose not to proceed with the Transaction. The parties can mutually decide to terminate the Transaction Agreement at any time.

Failure to complete the Transaction could negatively impact the price of our common shares as well as our future business and financial results.

If the Transaction is not completed for any reason, our business and financial results may be adversely affected, including as follows:

- we may experience negative reactions from the financial markets, including negative impacts on the market price of our common shares;
- the manner in which customers, vendors, business partners and other third parties perceive us may be negatively impacted, which in turn could affect our ability to compete for new business or obtain renewals in the marketplace more broadly;

- we may experience negative reactions from employees, which may adversely affect, among other things, productivity and occupational safety; and
- we will have expended significant time and resources that could otherwise have been spent on our existing businesses and the pursuit of other opportunities that could have been beneficial to us, and our ongoing business and financial results may be adversely affected.

We are subject to business uncertainties while the Transaction is pending, which could adversely affect our business.

Uncertainty about the effect of the Transaction on employees, suppliers and customers may have an adverse effect on us. These uncertainties may impair our ability to attract, retain and motivate key personnel until the Transaction is completed and for a period of time thereafter, and could cause our suppliers, customers and others that deal with us to seek to change their existing business relationships with us.

The Transaction may be less accretive than expected, or may be dilutive, to our earnings per share, which may negatively affect the market price of our common shares.

The Transaction may be less accretive than expected, or may be dilutive, to our earnings per share. Estimates of our earnings per share in the future are based on preliminary estimates that may materially change. In addition, future events and conditions could decrease or delay any accretion, result in dilution or cause greater dilution than is currently expected, including:

- adverse changes in market conditions;
- commodity prices for iron ore and steel;
- production levels;
- operating results;
- competitive conditions;
- laws and regulations affecting the iron ore and steel businesses;
- capital expenditure obligations;
- higher than expected integration costs;
- lower than expected synergies;
- adverse changes to the value or timing of liabilities we would assume in connection with the Transaction; and
- general economic conditions.

Any dilution of, or decrease or delay of any accretion to, our earnings per share could cause the price of our common shares to decline.

Following completion of the proposed Transaction, our debt may limit our financial flexibility.

As of September 30, 2020, we had \$4.5 billion of outstanding indebtedness, including amounts drawn under our ABL Facility. In connection with entering into the Transaction Agreement, we have obtained commitments to increase our ABL Facility. Although the receipt of such financing is not a condition to the closing of the Transaction, the unavailability of such financing could adversely impact the financial condition and liquidity of the combined company.

Any increase in our indebtedness, including any issuance of long-term debt or any additional amounts drawn under our ABL Facility, could have adverse effects on our financial condition and results of operations, including:

- increasing our vulnerability to changing economic, regulatory and industry conditions;
- limiting our ability to compete and our flexibility in planning for, or reacting to, changes in our business and industry;
- limiting our ability to borrow additional funds; and

- requiring us to dedicate a substantial portion of our cash flow from operations to payments on our debt, thereby reducing funds available for working capital, capital expenditures, acquisitions, share repurchases, dividends and other purposes.

In addition, in connection with executing our business strategies following the Transaction, we expect to continue to evaluate the possibility of acquiring additional assets and making further strategic investments, and we may elect to finance these endeavors by incurring additional indebtedness. Our ability to arrange any additional financing for the purposes described above or otherwise will depend on, among other factors, our financial position and performance, as well as prevailing market conditions and other factors beyond our control. We cannot assure you that we will be able to obtain such financing on acceptable terms or at all.

We will assume substantial pension and OPEB liabilities associated with ArcelorMittal USA following the completion of the Transaction, and future funding obligations related to these liabilities could restrict cash available for our operations, capital expenditures or other business purposes, or require us to borrow additional funds.

Following the completion of the proposed Transaction, we will assume substantial funded and unfunded pension and OPEB liabilities related to the employees of ArcelorMittal USA who become employees of the Company as well as certain former employees and/or retirees of ArcelorMittal USA and its predecessor companies. Funding obligations with respect to pension and OPEB plans are affected directly by the value of plan assets, the projected and actual rate of return on plan assets, and the actuarial assumptions used to measure such pension and OPEB plan obligations, including the rate at which future obligations are discounted. Continued volatility in the capital markets may have a further negative impact on the funded status of certain pension and OPEB liabilities associated with ArcelorMittal USA that we will assume following the completion of the proposed Transaction, which may in turn increase attendant funding obligations. Further, changing market or economic conditions, regulatory changes or other factors may require us to make substantial cash contributions to such pension and OPEB plans in the future, preventing the use of cash for other purposes and adversely affecting our liquidity. In the event we are unable to fund these pension and OPEB obligations through cash from operations, we may be required to seek funding from other sources, including through additional borrowings, which could materially increase our outstanding debt or debt service requirements.

We will incur significant transaction costs and other integration-related costs in connection with the Transaction, which may be in excess of those anticipated by us.

We expect to continue to incur a number of non-recurring costs associated with completing the Transaction, transitioning the operations of ArcelorMittal USA from ArcelorMittal S.A. to Cliffs, and achieving anticipated synergies. These fees and costs have been, and will continue to be, substantial. We anticipate that the substantial majority of non-recurring expenses will consist of costs relating to completing the Transaction and include, among others, fees paid to financial, legal and accounting advisors, employee retention costs, severance, change of control and benefit costs, and filing fees.

We also anticipate incurring transaction fees and costs related to formulating and implementing integration plans, including facilities and systems consolidation costs and employment-related costs, as well as reimbursing ArcelorMittal S.A. for certain costs incurred for a period of time after the completion of the Transaction for transition services provided to us with respect to the acquired business. We will continue to assess the magnitude of these costs, and additional unanticipated costs may be incurred in the Transaction and the integration of the two companies' businesses. Although we expect that the elimination of duplicative costs, as well as the realization of other efficiencies related to the integration of the businesses, should allow us to offset integration-related costs over time, this net benefit may not be achieved in the near term or at all. In addition, many of these costs will be borne by us even if the Transaction is not completed.

The Company, ArcelorMittal S.A. or their respective directors and officers may be targets of securities class action and derivative lawsuits that could result in substantial costs and may delay completion of the Transaction.

Securities class action lawsuits and derivative lawsuits are often brought against public companies and their directors and officers when companies enter into agreements for transactions similar to those contemplated by the Transaction Agreement, and such lawsuits may be brought against us, ArcelorMittal S.A. or our respective directors and officers in connection with the Transaction Agreement. Even if the lawsuits are without merit, these claims can result in substantial costs and divert management time and resources. An adverse judgment could result in monetary damages, which could have a negative impact on our liquidity and financial condition. Additionally, if a plaintiff is successful in obtaining an injunction, then that injunction may delay completion of the Transaction, which may

adversely affect our business, financial position and results of operations. Currently, we are not aware of any securities class action lawsuits or derivative lawsuits having been filed in connection with the Transaction.

Even if we complete the proposed Transaction, we may fail to realize all of the anticipated benefits of the Transaction, and our integration of ArcelorMittal USA may not be as successful as anticipated.

The success of the Transaction will depend, in part, on our ability to realize the anticipated benefits and cost savings from combining our businesses with ArcelorMittal USA's businesses. The anticipated benefits and cost savings of the Transaction may not be realized fully or at all, may take longer to realize than expected, may require more non-recurring costs and expenditures to realize than expected or could have other adverse effects that we do not currently foresee. Some of the assumptions that we have made, such as with respect to anticipated operating synergies or the costs associated with realizing such synergies, and significant long-term cash flow generation, may not be realized. In addition, there could be potential unknown liabilities and unforeseen expenses associated with the Transaction and/or ArcelorMittal USA's businesses that were not discovered in the course of performing due diligence.

The Transaction involves numerous operational, strategic, financial, accounting, legal, tax and other functions, systems and management controls that must be integrated. We expect to enter into an intellectual property license agreement, steel supply agreement and transition services agreement with ArcelorMittal S.A. to facilitate our operation of ArcelorMittal USA following the closing of the Transaction. If ArcelorMittal S.A. were unable or unwilling to perform its obligations under these agreements in a timely and efficient manner, or if these agreements were to terminate unexpectedly and we are not able to enter into replacement arrangements on acceptable terms or at all, then our integration of ArcelorMittal USA may take longer and be more costly than anticipated.

In addition, we are still in the process of integrating AK Steel's businesses with our historical businesses, and if the Transaction is completed as planned, we will begin the process of integrating ArcelorMittal USA's businesses, as well. The process of concurrently integrating both AK Steel's and ArcelorMittal USA's businesses with our historical businesses may present additional challenges. Difficulties in integrating the companies may result in the combined company performing differently than expected, in operational challenges or in the failure to realize anticipated expense-related efficiencies. Following completion of the Transaction, we may also experience challenges associated with managing the larger, more complex, integrated businesses. The integration process may result in the loss of key employees, the disruption of ongoing businesses, or inconsistencies in standards, controls, procedures and policies.

Following completion of the proposed Transaction, ArcelorMittal S.A. will be a significant shareholder of the Company, which may limit the ability of other shareholders to influence corporate decisions.

Under the Transaction Agreement, we will issue approximately 78 million of our common shares to ArcelorMittal S.A. in connection with the closing of the Transaction. As a result, following completion of the Transaction, ArcelorMittal S.A. will beneficially own approximately 16.4% of our outstanding common shares (based on the number of our outstanding common shares as of October 22, 2020). Although ArcelorMittal S.A. will be subject to certain restrictions and requirements under an Investor Rights Agreement with respect to its ownership and voting of our common shares following the closing of the Transaction, at such a level of beneficial ownership, ArcelorMittal S.A. may be able to exert significant influence over us and actions requiring the approval of our common shareholders.

Following completion of the proposed Transaction, the market price of our common shares may decline in the future as a result of the sale of our common shares held by ArcelorMittal S.A. or our current shareholders.

We will enter into an Investor Rights Agreement with ArcelorMittal S.A. in connection with the closing of the Transaction, which will initially limit ArcelorMittal S.A. and its affiliates' ability to sell our common shares held by them. Specifically, the Investor Rights Agreement will provide that, without our written consent, ArcelorMittal S.A. will not, and will cause its affiliates not to, directly or indirectly, in one or more transactions, sell, assign or otherwise encumber, whether pursuant to a loan, pledge or otherwise, through swap or hedging transactions or otherwise (each, a "Transfer"), (i) any of our common shares for a period ending on the six-month anniversary of the effective date of the Investor Rights Agreement and (ii) 50% or more, in the aggregate, of the number of our common shares held by ArcelorMittal S.A. and its affiliates during the period commencing on the six-month anniversary of the effective date of the Investor Rights Agreement and ending on the first anniversary of the effective date of the Investor Rights Agreement. On and following the one-year anniversary of the effective date of the Investor Rights Agreement, ArcelorMittal S.A. and its affiliates will be permitted to Transfer 100% of our common shares held by them, subject to certain restrictions on Transfers to persons whose beneficial ownership of our common shares following any such Transfer would exceed 5% or 10% of the then-outstanding common shares.

Other shareholders may also seek to sell our common shares held by them following, or in anticipation of, completion of the Transaction. These sales (or the perception that these sales may occur), coupled with the increase in the outstanding number of our common shares, may affect the market for, and the market price of, our common shares in an adverse manner.

The ability to use our pre-Transaction net operating loss (“NOL”) carryforwards and certain other tax attributes to offset future taxable income may be subject to certain limitations.

If a corporation undergoes an “ownership change” within the meaning of Section 382 of the IRC, the corporation’s NOL carryforwards and certain other tax attributes arising before the “ownership change” are subject to limitations after the “ownership change.” An “ownership change” under Section 382 of the IRC generally occurs if one or more shareholders or groups of shareholders who own at least 5% of the corporation’s equity increase their ownership in the aggregate by more than 50 percentage points over their lowest ownership percentage within a rolling period that begins on the later of three years prior to the testing date and the date of the last “ownership change.” If an “ownership change” were to occur, Section 382 of the IRC would impose an annual limit on the amount of pre-ownership change NOL carryforwards and other tax attributes the corporation could use to reduce its taxable income, potentially increasing and accelerating the corporation’s liability for income taxes, and also potentially causing tax attributes to expire unused. The amount of the annual limitation is determined based on a corporation’s value immediately prior to the ownership change.

The Transaction as currently structured is not expected to result in us succeeding to any material amount of ArcelorMittal USA NOLs for U.S. federal and state tax purposes.

As of December 31, 2019, we had U.S. federal NOL carryforwards of approximately \$2.0 billion and state NOL carryforwards of approximately \$1.5 billion. Our ability to utilize the \$2.0 billion U.S. federal NOL carryforwards may be limited if we experience an “ownership change” under Section 382 of the IRC. Similar rules with respect to the \$1.5 billion state NOL carryforwards may apply under state tax laws. The rules for determining whether we will experience an “ownership change” as a result of the Transaction requires a complex analysis that must take into account, among other facts, certain sales of our common shares over which we may have no control. Based on such rules, and certain facts that may require certain assumptions, we do not expect to experience an “ownership change” solely as a result of the Transaction. However, the issuance of our common shares to ArcelorMittal S.A. in the Transaction, in conjunction with other issuances or sales of our common shares (including certain transactions involving our common shares that are outside of our control), could cause us to experience an “ownership change.” Subsequent “ownership changes” may further affect the limitation in future years, and similar rules may also apply under state and foreign tax laws.

Consequently, we may not be able to utilize a material portion of our NOL carryforwards and other tax attributes, which, in addition to increasing our U.S. federal income tax liability, could adversely affect our share price, financial condition, results of operations and cash flows.

Following completion of the proposed Transaction, we may record tangible and intangible assets, including goodwill, that could become impaired and result in material non-cash charges to our results of operations in the future.

The Transaction will be accounted for as an acquisition by us in accordance with GAAP. Under the acquisition method of accounting, the assets of ArcelorMittal USA will be recorded, as of completion of the Transaction, at their respective fair values and added to our assets. Our reported financial condition and results of operations for periods after completion of the Transaction will reflect ArcelorMittal USA balances and results after completion of the Transaction but will not be restated retroactively to reflect the historical financial position or results of operations of ArcelorMittal USA for periods prior to the Transaction.

Under the acquisition method of accounting, the total purchase price will be allocated to ArcelorMittal USA’s tangible assets and identifiable intangible assets based on their fair values as of the date of completion of the Transaction. The excess, if any, of the purchase price over those fair values will be recorded as goodwill. To the extent the value of tangible or intangible assets, including goodwill, becomes impaired, we may be required to incur material non-cash charges relating to such impairment. Our operating results may be significantly impacted from both the impairment and the underlying trends in the business that triggered the impairment.

Completion of the proposed Transaction may trigger change in control or other provisions in certain agreements to which ArcelorMittal USA is a party, including those governing its joint ventures.

The completion of the Transaction may trigger change in control or other provisions in certain agreements to which ArcelorMittal USA is a party and to which the combined company will be subject following the Transaction. These include agreements governing ArcelorMittal USA's joint ventures. If we are unable to obtain consents to the Transaction from the counterparties or negotiate waivers of those provisions, the counterparties may exercise their rights and remedies under the agreements, which may include terminating the agreements, seeking monetary damages, or buying or selling joint venture ownership interests. Even if we are able to obtain consents or negotiate waivers, the counterparties may require consideration for granting such consents or waivers or seek to renegotiate the agreements on terms less favorable to us.

We are committed to protecting the occupational health and well-being of each of our employees. Safety is one of our core values and we strive to ensure that safe production is the first priority for all employees. Our internal objective is to achieve zero injuries and incidents across the Company by focusing on proactively identifying needed prevention activities, establishing standards and evaluating performance to mitigate any potential loss to people, equipment, production and the environment. We believe that through these policies we have developed an effective safety management system.

Under the Dodd-Frank Act, each operator of a coal or other mine is required to include certain mine safety results within its periodic reports filed with the SEC. Section 6.5 Regulatory Matters.

(a) In furtherance and not in limitation of Section 6.4, (i) as promptly as practicable, but no later than ten days, after the date of this Agreement, Seller and Buyer will prepare and file or cause to be filed with the Antitrust Authorities a Notification and Report Form under the HSR Act with respect to the Transaction, (ii) as soon as reasonably practicable after the date of this Agreement, Seller and Buyer will prepare and file or cause to be filed with the Antitrust Authorities all other forms and filings required under all other Antitrust Laws (other than the HSR Act) with respect to the Transaction and (iii) Seller and Buyer shall respond promptly to any requests by Antitrust Authorities for additional information or documentary materials. All filing fees payable in connection with the filings required under the Antitrust Laws will be split equally by Buyer and Seller. In exercising the foregoing rights, each Party shall act as reasonably and as promptly as practicable. Buyer has the responsibility for determining the strategy with respect to obtaining any such approvals or early terminations so long as such strategy is otherwise consistent with the terms of this Section 6.5 and in good faith consultation with Seller after giving due consideration to Seller's views. Any Party may reasonably designate any competitively sensitive material provided to the other under this Section 6.5 as "outside counsel only."

(b) In connection with resolving any impediments under any Antitrust Law and obtaining the Consents from the Governmental Entities contemplated by Section 6.5(a), Buyer shall, and shall cause its Affiliates, to use reasonable best efforts to obtain such Consents, including by negotiating, effecting and undertaking (or being required to agree or consent to) any sale, license, divestiture or

Notwithstanding the foregoing or anything in this Agreement to the contrary, in no event shall Buyer, Seller or any of their respective Affiliates be obligated to commit to take any action pursuant to this Section 6.5(b), the consummation of which is not conditioned on the consummation of the Closing.

(c) Subject to Section 6.5(b), from the date of this Agreement through the date of termination of the required waiting period under the HSR Act or other approval or termination of applicable waiting period under any other Antitrust Law, Buyer and its Affiliates and Seller and its Affiliates will take reasonable best efforts to obtain such approvals or the expiration of the required waiting periods.

(d) Expenses. Except as otherwise provided in this Agreement, Buyer, on the one hand, and Seller, on the other hand, shall each bear their respective fees, commissions and other expenses incurred by them in connection with the negotiation and preparation of this Agreement and in preparing to consummate the Transactions, including the fees and expenses of their respective counsel, accountants and consultants.

Section 6.6 Notification of Certain Matters. During the Pre-Closing Period, each Party shall promptly notify the other Party of any occurrence of which it is aware that is reasonably likely to result in any of the conditions set forth in Article VIII becoming incapable of being satisfied; provided, however, that either Party's failure to give notice of any such occurrence as required pursuant to this Section 6.6 shall not be taken into account in determining whether the conditions to the Closing set forth in Article VIII have been satisfied.

Section 6.12 Assets of the Business. If at any time following the Closing it becomes apparent that any asset (tangible or intangible) that should have been transferred to Buyer pursuant to this Agreement was not so transferred, or any asset (tangible or intangible) not related to the Business was inadvertently transferred to Buyer, Seller shall, and shall cause its applicable Affiliates to, and Buyer shall, and shall cause its applicable Affiliates to, in each case, as promptly as practicable, (A) transfer all rights, title and interest in such asset to Buyer, the Target Group Companies, or as Buyer may direct, or to Seller or as Seller may direct, as applicable, in each case for no additional consideration; and (B) hold its right, title and interest in and to such asset in trust for the applicable transferee until such time as the transfer is completed.

Section 6.13 Confidential Information; Information Required for the Business.

(a) The terms of the Confidentiality Agreement shall be deemed incorporated herein by reference as if set forth herein and, notwithstanding the Closing or any termination of this Agreement prior to the Closing, the Confidentiality Agreement shall continue in full force and effect in accordance with its terms except that, upon the Closing, Buyer’s obligations thereunder with respect to Transaction Information (as such term is defined in the Confidentiality Agreement), exclusively related to the Target Group or the Business, shall terminate. With respect to Transaction Information that does not exclusively relate to the Target Group or the Business, such Transaction Information shall remain subject to (i) the terms and conditions of the Confidentiality Agreement for three (3) years after the Closing Date and (ii) the terms of the IP License Agreement (to the extent applicable).

(b) Notwithstanding anything in this Agreement to the contrary, Seller and its Affiliates shall have the right to retain, following the Closing, copies of any Business Books and Records relating to the Target Group Companies, and any system associated with such Business Books and Records or such other information which Seller in good faith determines it or any of its Affiliates is reasonably likely to need access for bona fide business or legal purposes.

Section 6.16 Restrictive Covenants.

(a) Seller agrees that neither it nor any of its Affiliates shall directly or indirectly for the period beginning on the Closing Date and ending on the 18th month anniversary of the Closing Date (the "Restriction Period"), solicit, hire, engage, or retain (or arrange to have any other Person do so) any individual who is or has been at any time during the period commencing on the date of this Agreement and ending upon the expiration of the Restriction Period, an employee of the Target Group or Buyer; provided, however, that (i) general solicitations for employment that are not directed at such employee shall be permitted (including through the use of employment agencies, or in a newspaper, magazine or other publication, or on the internet or other electronic listing), (ii) Seller and its Affiliates shall not be restricted in hiring any such Person who responds to any such general solicitation and (iii) the foregoing shall not be deemed to prevent Seller or any of its Affiliates from employing any Person who has not been employed by any Target Group Company or Buyer for at least three (3) months. The provisions of this Section 6.16(a) shall apply mutatis mutandis to Buyer with respect to the Retained Employees.

(b) It is in the intention of the parties that if any of the restrictions or covenants contained in this Section 6.16 are held to cover a geographic area, a range of activities or to be for a length of time which is not permitted by Law, or in any way construed to be too broad or to any extent

invalid, such provision shall not be construed to be null, void and of no effect, but to the extent such provision would be valid or enforceable under Law, a court or other tribunal of competent jurisdiction shall construe and interpret or reform this Section 6.16 to provide for a covenant having the maximum enforceable geographic area, range of activities, time period and other provisions (not greater than those contained herein) as shall be valid and enforceable under such Law.

Section 6.17 Misdirected Funds. If, after Closing (a) any cash or funds relating to the Business is received by Seller or its Affiliates (other than the Target Group) and such cash or funds is properly and reasonably for the account of Buyer or any of its Affiliates (including the Target Group), then Seller shall promptly pay (or cause its Affiliate to pay) such cash or funds to Buyer or any of its relevant Affiliates, (b) any cash or funds relating to the Business is paid by Seller or its Affiliates (other than the Target Group) and such cash or funds should properly and reasonably have been paid by Buyer or any of its Affiliates (including the Target Group), then Buyer shall promptly pay (or cause its Affiliate to pay) such cash or funds to Seller, (c) any cash or funds relating to Seller's and its Affiliates' business (other than the Target Group) is received by Buyer or its Affiliates (including the Target Group) and such cash or funds is properly and reasonably for the account of Seller or any of its Affiliates, then Buyer shall promptly pay (or cause its Affiliate to pay) such cash or funds to Seller or any of its relevant Affiliates, or (d) any cash or funds relating to Seller's or its Affiliates' business (other than the Target Group) is paid by Buyer or its Affiliates (including the Target Group) and such cash or funds should properly and reasonably have been paid by Seller or any of its Affiliates, then Seller shall promptly pay (or cause its Affiliate to pay) such cash or funds to Buyer.

Section 6.18 PBGC Coordination. From and after the date of this Agreement, Seller will notify Buyer promptly of any notice or other communication received by any Target Group Company or any of its Subsidiaries from the PBGC regarding any defined benefit pension plan of a Target Group Company or any of its Subsidiaries. In the event of any such notice or communication, Seller will consult with Buyer, with respect to (i) any communications with the PBGC or its representatives and (ii) will not enter into any Contract with the PBGC without Buyer's prior written consent (which shall not be unreasonably withheld, conditioned or delayed).

Section 6.19 Employees.

(a) For a period beginning at the Effective Time and ending on the twelve-month anniversary thereof (the "Continuation Period"), Buyer will, or will cause the applicable Target Group Company to, provide to each employee who is employed by the Target Group or its Subsidiaries on the Closing Date (each, a "Company Employee") for so long as such Company Employee remains an employee of Buyer or the Target Group or its Subsidiaries during the Continuation Period, (i) base salary or regular hourly wage, (ii) annual incentive compensation opportunity, (iii) severance benefits and (iv) employee compensation and benefits in the aggregate that are, no less favorable than the base salary or regular hourly wage, annual incentive compensation opportunity, severance benefits and employee compensation and benefits in the aggregate that were provided by the Target Group and its Subsidiaries to such Company Employee immediately before the Effective Time; provided, however, that the requirements of this sentence shall not apply to Company Employees who are covered by a collective bargaining agreement. Seller agrees to provide to Buyer such information as Buyer may reasonably request to comply with this Section 6.19. Following the Closing, Buyer and its Affiliates agree to honor, in accordance with their terms, the agreement entered between the Target Group Company or its Subsidiaries and any Business Employee, other than, for the avoidance of doubt, any Retained Employee, in the form of the change in control agreement template provided in folder 7.3.4.1 of the Seller Data Room other than, for the avoidance of doubt, the Retained Agreements.

(b) Any equity incentive awards (including restricted shares, restricted stock units, deferred shares, performance shares, stock options, etc.) held by a Company Employee pursuant to a plan or arrangement of Seller or any of its Affiliates shall become fully vested and non-forfeitable on the

Closing Date, and all stock options shall remain outstanding for the original term of such options as if such Company Employee had remained in the continuous employment of Seller and its Affiliates.

(c) For purposes of vesting, eligibility to participate and benefit entitlement (but excluding benefit accruals) under the employee benefit plans of Buyer and its Affiliates providing benefits to any Company Employees after the Effective Time as required pursuant to Section 6.19(a) (the “New Plans”), each Company Employee will be credited with his or her years of service with the Target Group and its Subsidiaries before the Effective Time to the extent such service was recognized by the Target Group and its Subsidiaries under any similar Business Employee Plan in which such Company Employee participated or was eligible to participate immediately prior to the Effective Time, except to the extent such credit would result in a duplication of benefits. In addition, to the extent such Company Employee is eligible to participate in a New Plan pursuant to Section 6.19(a), and without limiting the generality of the foregoing, (i) Buyer will use best efforts (including by directing its third party insurance providers or third party administrators) to waive any waiting time in any and all New Plans of the same type as any Employee Plans in which such Company Employee participated immediately before the consummation of the transactions contemplated hereby (such plans, collectively, the “Old Plans”), and (ii) for purposes of each New Plan providing medical, dental, pharmaceutical or vision benefits to any Company Employee, Buyer will ensure that all pre-existing condition exclusions and actively-at-work requirements of such New Plan are waived for such employee and his or her covered dependents. Buyer will ensure that the Company Employee is given credit, under the applicable New Plan providing medical, dental, pharmaceutical or vision benefits, for amounts paid prior to the Effective Time during the year in which the Effective Time occurs under a corresponding Old Plan during the same period for purposes of satisfying all deductible, coinsurance and maximum out-of-pocket requirements applicable to such employee and his or her covered dependents as though such amounts had been paid in accordance with the terms and conditions of the New Plan.

(d) If requested in writing by Buyer at least five Business Days prior to the Effective Time, the Target Group will take (or cause to be taken) all actions necessary to terminate, effective no later than the Business Day immediately prior to the Effective Time, any of the Target Group’s 401(k) plan (the “Terminated Plans”). Seller shall provide Buyer with evidence that such Terminated Plans have been terminated (the form and substance of which shall be subject to review and approval by Buyer) not later than the Business Day immediately preceding the Effective Time. Buyer shall permit each eligible Company Employee to become a participant in a 401(k) plan of Buyer or any of its Subsidiaries (the “Buyer 401(k) Plans”) and make rollover contributions of “eligible rollover distributions” (within the meaning of Section 401(a)(31) of the Code, including all participant loans) in cash or notes in an amount equal to the eligible rollover distribution portion of the account balance distributed to each such Company Employee from such plan to the Buyer 401(k) Plans. Prior to the Closing Date, Seller shall remove the employees set forth on Schedule 1.1(a) of the Disclosure Schedules from their employment with any Target Group Company and transfer such employees to any Affiliate of Seller (other than to a member of the Target Group), and any and all Liabilities relating to such employee shall be assumed by such Affiliate of Seller (and, for the avoidance of doubt, such employees will not be considered Company Employees and Buyer will have no Liability with respect to any such employees).

(e) Nothing in this Agreement, expressed or implied, will (i) confer upon any Company Employee or any other Person any right to continue in the employ or service of Buyer, the Target Group or any of their Affiliates, or will interfere with or restrict in any way the rights of Buyer, the Target Group or any of their Affiliates, which rights are hereby expressly reserved, to discharge or terminate the services of any Company Employee or any Person at any time for any reason whatsoever, with or without cause, (ii) constitute an amendment to any Business Employee Plan or any employee benefit or compensation plan of Buyer or any of its Affiliates, (iii) obligate Buyer, the Target Group or any of their Affiliates to maintain any particular compensation or benefit plan, program, arrangement, policy or contract, or (iv) prevent Buyer, the Target Group or any of their Affiliates from amending or terminating any of their benefit plans in accordance with their terms. Notwithstanding any provision in this Agreement to the contrary, nothing in this Section 6.19 will create any third party beneficiary rights in any current or

former service provider of the Company or its Affiliates, or any beneficiaries, dependents, or collective bargaining representative thereof, or in any other Person.

(f) Buyer shall take and cause its Affiliates to take all steps required to be taken pursuant to Seller's labor agreements (set forth on Schedule 6.19(f) of the Disclosure Schedules) by a potential purchaser in connection with the sale of Seller's business, stock or assets to such purchaser, to the extent such obligations are consistent with applicable Law, including, but not limited to, the recognition of all affected unions, the establishment by agreement with the unions of terms and conditions of employment of the employees covered by those labor agreements (to be effective as of the Closing Date), the assumption or continuation of all applicable labor agreements and any other obligation required by the labor agreements set forth on Schedule 6.19(f) of the Disclosure Schedules, and Seller shall reasonably cooperate with Buyer in connection therewith. Prior to the Closing Date, Seller shall (i) assign the collective bargaining agreement identified on Schedule 1.1(f)(ii), covering the Retained Employees in the research department at the Indiana Harbor facility, and all obligations thereunder, and (ii) transfer the Retained Employees covered by that agreement, to a member of the Seller Group that is not a member of the Target Group.

(g) Seller or its applicable Affiliate shall take all actions necessary to cause the Retained Agreements to be assigned to Seller prior to the Closing Date. Seller will retain all Liabilities with respect to the Retained Agreements. For the avoidance of doubt, this Section 6.19(g) applies to the Retained Agreements without regard to which entity employs the party to the Retained Agreement after the Closing Date.

Section 6.20 Pension Transfer.

(a) Prior to the Closing Date, Seller shall establish (or cause an Affiliate to establish) a tax-qualified defined benefit pension plan and a related trust (collectively, "Seller Pension Plan") to accept a transfer of assets and liabilities from the ArcelorMittal USA LLC Pension Plan (or any successor plan) ("AM Pension Plan"). Effective as of the Closing Date, in accordance with the provisions of this Section 6.20, all liabilities for benefits (including ancillary benefits) accrued under the AM Pension Plan for the Adjusted Retained Employees (as defined below) will transfer to and be assumed by the Seller Pension Plan. Without limiting the generality of the foregoing, following the Closing Date, the Seller Pension Plan shall provide to the Adjusted Retained Employees all benefits (including ancillary benefits) earned by such individuals under the AM Pension Plan, up to the Closing Date. For purposes of this Section 6.20, "Adjusted Retained Employees" shall mean each Retained Employee whose employment with Seller or its Affiliates has remained intact to the Closing Date.

(b) As soon as reasonably practicable after the Closing Date, Buyer shall cause a transfer of assets from the AM Pension Plan to the Seller Pension Plan, and Seller shall cause the Seller Pension Plan to accept such transfer. The amount of such transfer shall be equal to the assets of the AM Pension Plan allocated as of the Closing Date with respect to the Retained Employees under the rules of Section 414(l) of the Code (the "Retained Employee Pension Amount"). The value of benefit liabilities taken into account for purposes of the calculation of the Retained Employee Pension Amount shall be calculated using the actuarial assumptions mutually agreed to by the Buyer's Actuary (as defined below) and Seller's Actuary (as defined below), in accordance with the requirements of Section 414(l) of the Code. The transfer of the Retained Employee Pension Amount will be in cash or, if agreed to by Buyer and Seller, in-kind. The "Buyer's Actuary" will be an actuary of Willis Towers Watson, and the "Seller's Actuary" will be an actuary of Aon.

(c) Within a sufficient period of time prior to any transfer described in Section 6.20(b), Seller shall deliver to Buyer the Seller's Actuary determination of the Retained Employee Pension Amount. Unless Buyer notifies Seller of an objection to the Seller's Actuary determination of the Retained Employee Pension Amount within 30 calendar days following Seller's delivery of the Seller's Actuary determination, such determination will become final and binding on Seller, Buyer, and their respective

Affiliates. Any notice of objection from Buyer must be in writing and specify in reasonable detail the nature of any objection. If such notice of objection is made, the actuarial review process set forth in Section 6.20(d) shall be followed.

(d) In the event that Buyer provides a notice of objection pursuant to Section 6.20(c), Seller's Actuary and Buyer's Actuary will discuss such determinations objected to (the "Disputed Calculations") in good faith and seek to reach an agreement during the 20 calendar day period following Seller's receipt of such notice of objection. If the Seller's Actuary and Buyer's Actuary reach agreement within such 20 calendar day period, such agreed upon determination of the Retained Employee Pension Amount shall be final and binding on Seller, Buyer, and their respective Affiliates. In the event the Seller's Actuary and Buyer's Actuary are unable to reach an agreement on the Disputed Calculations during such 20 calendar day period or Seller's Actuary and Buyer's Actuary cannot agree on the actuarial assumptions pursuant to Section 6.20(b), they will jointly select and retain an actuary of Mercer (the "Independent Actuary") within 14 calendar days of failing to reach agreement. The Independent Actuary shall be instructed to determine and resolve the Disputed Calculations or select actuarial assumptions, as applicable, pursuant to the terms set forth in this Section 6.20 within 20 calendar days after selection of the Independent Actuary. The Independent Actuary's selection of actuarial assumptions or final determination of the Disputed Calculation, as applicable, will be final and binding on Seller, Buyer, and their respective Affiliates unless, with respect to the Disputed Calculation, there is an arithmetic error in the Independent Actuary's final determination of the Disputed Calculation. The costs of the Independent Actuary will be borne by the Buyer and Seller in equal amounts.

(e) All transfers contemplated by this Section 6.20 shall be conducted in compliance with ERISA, the Code, and any other applicable Laws. Buyer and Seller, and their designated representatives, shall cooperate and use commercially reasonable efforts to accomplish the actions contemplated in this Section 6.20 as soon as reasonably practicable after the Closing Date, or if earlier, by the date specified for such action in this Section 6.20. Seller shall be responsible for the payment for all costs of Seller's Actuary and for all other fees and expenses incurred by Seller in connection with this Section 6.20. Buyer shall be responsible for the payment for all costs of Buyer's Actuary and for all fees and expenses incurred by Buyer in connection with this Section 6.20.

Section 6.21 Exclusivity. During the Pre-Closing Period, Seller and the Target Group Companies will not, and will not authorize any officer, director, Affiliate, employee, agent or other Authorized Representative of Seller or a Target Group Company to, (i) solicit, initiate or encourage the submission of inquiries, proposals or offers from any Person (other than Buyer and its Authorized Representatives) relating to an investment in or any business combination with the Target Group, or the sale of a material portion of the assets or equity of the Target Group or any Target Group Company (a "Competing Transaction"), (ii) enter into or participate in any negotiations, or initiate any discussions or continue any discussions initiated by others, regarding any Competing Transaction, or furnish to any other Person any information with respect to the assets or business of the Target Group or any Target Group Company for the purpose of pursuing a possible Competing Transaction, or (iii) otherwise participate in, assist, facilitate or encourage any effort or attempt by any other Person to do any of the foregoing. If at any time during the Pre-Closing Period, Seller or any Target Group Company receives a proposal or inquiry related to a Competing Transaction or that could lead to a Competing Transaction, Seller shall promptly (but in no event within two Business Days following the receipt of such proposal or inquire) provide notice of such proposal or inquiry to Buyer, including the identity of the Person making such proposal or inquiry and copies of any written submissions (or summaries of any oral statements) setting forth the terms of any such Competing Transaction. During the Pre-Closing Period, Seller and the Target Group Companies will, and each will cause their respective officers, directors, Affiliates, employees, agents and other Authorized Representatives to, (a) immediately cease and cause to be terminated any existing discussions or negotiations with any Persons (other than Buyer and its Authorized Representatives) conducted heretofore with respect to any Competing Transaction, (b) terminate all physical and electronic data room access previously granted to any Person other than Buyer and its Authorized Representatives, and (c) promptly request each Person that has executed a confidentiality

agreement in the last twelve (12) months in respect of a Competing Transaction to return or destroy all information heretofore furnished to such Person or its Authorized Representatives by or on behalf of Seller or the Target Group.

Section 6.22 Internal Restructuring. Prior to the Closing, Seller shall, and shall cause its Subsidiaries to, complete, as promptly as reasonably practicable, the Internal Restructuring in a manner that is substantially in accordance with Schedule 6.22 of the Disclosure Schedules; provided that any deviation from the Internal Restructuring as contemplated by Schedule 6.22 that would reasonably be expected to result in an adverse Tax or other consequence to Buyer or any of its Affiliates (including the Target Group) in a Post-Closing Tax Period shall not be made without Buyer's prior written consent which shall not be unreasonably withheld; provided that consent shall be automatically given if (i) Seller compensates Buyer for the out-of-pocket costs of such adverse Tax or other consequence, including losses resulting from the Buyer's inability to receive a fair market value basis in assets of any Target Group Company (either through a Section 338 Election or otherwise) as the result of such assets or the stock of a Target Group Company being contributed (or deemed contributed) to an entity that is treated as a corporation for U.S. federal income tax purposes and (ii) the Tax Adjustment determined under Section 6.24(b) is reduced by any amount that would not otherwise be incurred by Buyer but for such deviation. Seller shall provide drafts of the documentation to implement the Internal Restructuring not less than five Business Days prior to execution thereof and consider in good faith any comments of Buyer thereto. Following completion of the Internal Restructuring, Seller shall promptly provide Buyer with such documentation reasonably demonstrating the completion of the Internal Restructuring.

Section 6.23 Termination of Overhead and Shared Services. Buyer acknowledges and agrees that, except as otherwise expressly provided in the Transition Services Agreement, effective as of the Closing Date all Overhead and Shared Services provided to the Target Group shall cease and Seller and its Affiliates shall have no further obligation to provide any such Overhead and Shared Services to the Target Group.

Section 6.24 Section 338 Election.

(a) Seller and Buyer shall cooperate in good faith to assist the other Party in determining the additional Tax costs or Tax benefits to such other Party of an election under Section 338(h)(10) or Section 338(g) of the Code (each, a "Section 338 Election") with respect to the sale of any Target Group Company to Buyer hereunder and shall use commercially reasonable efforts to provide to the other Party, as such Party may reasonably request, any information necessary for such Party to make such determination. To the extent permitted by Law, at Buyer's sole discretion, (i) Buyer and ArcelorMittal North America Holdings LLC shall jointly file an election pursuant to Code Section 338(h)(10) for all Target Group Companies organized under the laws of the United States or its territories that are treated as corporations for US Tax purposes, and (ii) Buyer shall file an election pursuant to Code Section 338(g) for all Target Group Companies not organized under the laws of the United States or its territories that are treated as corporations for US Tax purposes (each a "Section 338 Election").

(b) As a condition precedent to making the Section 338 Election, Buyer shall pay to Seller the amount of additional consideration necessary to cause Seller's after-Tax net proceeds from the sale of the Target Group Company's stock with the Section 338 Election to be equal to the after-Tax net proceeds that Seller would have received had the Section 338 Election not been made, taking into account all appropriate state, federal and local Tax implications (the "Tax Adjustment"). The amount of the Tax Adjustment shall be paid to Seller prior to or at the time Seller signs Form 8023 to make the Section 338 Election. Seller shall provide Buyer with a schedule computing the Tax Adjustment within 20 days after the Parties have agreed to the allocation of the Final Cash Purchase Price. In making such calculation of the Tax Adjustment, the Parties shall, on an election-by-election basis, use the highest corporate U.S. federal, state and local Tax rate to which any income or gain actually included by a U.S. taxpayer would be taxed as a result of each Section 338 Election (taking into account the unavailability of any deduction under Section 250 of the Code or similar provision under state and local law), and any

items of income, deduction, gain, loss or credits of Seller not resulting from such Section 338 Election shall be ignored.

Section 6.25 BBA Election. Notwithstanding anything to the contrary in this Agreement, Seller will not, and will not permit any other Person to, elect under Section 1101(g)(4) of the Bipartisan Budget Act of 2015 to have the amendments made by such provisions apply to any income Tax Return of any Target Group Company or Target JV with respect to any Tax period beginning on or before December 31, 2017. The Seller agrees that if the IRS (or applicable state Governmental Entity) issues a notice of final partnership adjustment assessing an "imputed underpayment" against any Target Group Company or Target JV with respect to any Tax period ending on or prior to the Closing Date beginning after December 31, 2017, or any Tax period beginning on or before December 31, 2017 for which an election under Section 1101(g)(4) of the Bipartisan Budget Act of 2015 was made, such entity shall make the election under Code Section 6226 (or any similar provision of Law) and Seller agrees to cooperate, and to cause its respective Affiliates and the "partnership representative" and "designated individual" (as those terms are used in Code Section 6223 and Treasury Regulations Section 301.6223-1(b)(3) (or any similar provision of Law)) of the Target Group Company or Target JV (as applicable), to cooperate with Buyer and its Affiliates in making such election, including by timely providing information reasonably requested by Buyer or the Target Group Company or Target JV and assisting such entity in the preparation of any statements or other information required to be provided to the IRS or any other Person as required by Code Section 6226 and the Treasury Regulations promulgated thereunder (or any similar provision of Law).

Section 6.26 Takeover Statute. If any Interested Shareholder Statute or Takeover Statute is or may become applicable to the Transactions, Buyer and its board of directors shall use their reasonable best efforts to grant such approvals and take such actions as are in accordance with applicable Law so that such Transactions may be consummated as promptly as practicable on the terms contemplated by this Agreement and otherwise act to eliminate (or to the extent elimination is not possible, minimize) the effects of such statute or regulation on such Transactions.

Section 6.27 JV Matters.

(a) In connection with the joint venture agreements between certain Target Group Companies and Nippon Steel Corporation ("NSC"), Buyer agrees for a period of three (3) years after the Closing Date (the "I/N Post-Closing Period") to, or to cause the Target Group Companies to, maintain or effect:

(i) the supply of steel products manufactured by I/N Tek L.P. (the "Tek JV") and I/N Kote L.P. (the "Kote JV") to NSC Listed Customers (as defined in the Amended and Restated Sales Agreement, dated as of December 20, 2002 (the "Kote Sales Agreement")) during the I/N Post-Closing Period upon market competitive commercial terms (including those in respect of quality, volumes and pricing) consistent in all material respects with the existing arrangements with such NSC Listed Customers contemplated by the Kote Sales Agreement, to the extent such NSC Listed Customers place orders for such steel products;

(ii) the continuation of the arrangements of personnel currently dispatched by NSC to the Kote JV and the Tek JV for purposes of providing technical services to NSC Listed Customers during the I/N Post-Closing Period, to the extent NSC determines that such dispatch is necessary, with market-based compensation for such dispatch being payable by the I/N JVs to NSC consistent with, and not inferior than, the compensation paid to personnel of the I/N JVs with equivalent experience, roles and responsibilities;

(iii) the retention of certain employees of the I/N JVs set forth on Schedule 6.27(a)(iii) in the current roles and responsibilities for purposes of providing services to NSC Listed Customers; and

(iv) the sales of steel products to N/S Sales, Inc. during the I/N Post-Closing Period, with product mix, volumes and pricing consistent in all material respects with the Amended and Restated Commercial Agreement, dated as of December 20, 2002.

(b) Promptly after the date hereof, Seller shall cause its applicable Affiliate to deliver notice pursuant to Section 10(b) of the Amended and Restated Basic Agreement for I/N Tek, dated as of December 20, 2002 (the "Tek Basic Agreement") and Section 10(b) of the Amended and Restated Basic Agreement for I/N Kote, dated as of December 20, 2002 (the "Kote Basic Agreement"), that Seller and its Affiliates have elected to proceed with a III Business Transfer (as defined in the Tek Basic Agreement and the Kote Basic Agreement), and thereafter shall keep Buyer reasonably informed on a current basis of any communications or discussions with NSC with respect thereto. In the event that NSC timely delivers notice pursuant to Section 10(b) of the Tek Basic Agreement to require an Affiliate of Seller to purchase (the "Tek Put") the Partnership Interest (as defined in the Tek Basic Agreement) held by NS Tek, Inc. ("NS Tek"), and/or pursuant to Section 10(b) of Kote Basic Agreement to require an Affiliate of Seller to purchase (the "Kote Put") the Partnership Interest (as defined in the Kote Basic Agreement) held by NS Kote, Inc. ("NS Kote"), then Seller shall deliver to Buyer a copy of such written notice (the "Put Notice") and the provisions of Schedule 6.27(b) shall apply.

(c) Notwithstanding anything herein to the contrary, neither the consummation of the Tek Put or the Kote Put, if applicable, nor the determination of the Transfer Price with respect thereto, shall be a condition to the Closing; provided, however, that if either the Tek Put or the Kote Put is exercised, the Parties shall cooperate to cause the Closing to occur concurrently with the closing of the Tek Put and/or the Kote Put to the extent practicable.

Section 6.28 Business Employee List. Seller will make available to Buyer within 30 days of the date hereof a list of current Business Employees setting forth for each such employee, as applicable, title, date of hire, employer, work location, annual salary or hourly rate, any bonus or incentive compensation opportunities, total compensation for 2019, union affiliation, exempt/non-exempt classification, visa status, and indicating whether any such employee is on a leave of absence. Such list shall be correct and complete as of the date of this Agreement and Seller shall provide periodic updates to such information upon written request by Buyer.

Section 6.29 Litigation Matters.

(a) During the Pre-Closing Period, Seller and Buyer shall cooperate to cause Affiliates of each of Seller and Buyer to be parties in interest to the Litigation Matter 1, effective as of the Closing. Any proceeds received by Seller or Buyer or any of their respective Affiliates in connection with the final disposition of the Litigation Matter 1 shall be distributed equally (50% / 50%) between Seller and Buyer; provided that Seller shall also have the right to settle the Litigation Matter 1 in connection with the settlement of other disputes with Litigation Party 1 or a transaction with Litigation Party 1, without any compensation to Buyer. Seller shall have sole control and discretion over the prosecution, settlement or other disposition of the Litigation Matter 1.

(b) During the Pre-Closing Period, Seller and Buyer shall cooperate to cause Affiliates of each of Seller and Buyer to be parties in interest to the Litigation Matter 2, effective as of the Closing. Any proceeds received by Seller or Buyer or any of their respective Affiliates in connection with the final disposition of the Litigation Matter 2 shall be distributed equally (50% / 50%) between Seller and Buyer. Buyer shall have sole control and discretion over the prosecution, settlement or other disposition of the Litigation Matter 2.

(c) Each Party shall bear its own costs and expenses incurred in connection with the Litigation Matter 1 and the Litigation Matter 2. Except as expressly provided in this Section 6.29, neither Party may assign, sell, delegate or otherwise transfer any of its rights, interests or obligations under the

Litigation Matter 1 or the Litigation Matter 2 without the prior written Consent of the other Party, and any such purported assignment, sale, delegation or transfer shall be null and void.

Section 6.30 Transition Services Agreement and Supply Agreement; TSR Services. During the Pre-Closing Period, the Parties shall negotiate in good faith (i) the terms of the Buyer Services (as this term is defined in the Transition Services Agreement) and the Seller Services (as this term is defined in the Transition Services) on terms reasonably acceptable to Seller and Buyer (it being acknowledged and agreed by the Parties that the Buyer Services (as this term is defined in the Transition Services Agreement) shall include the TSR services on the terms set forth in the form of Transition Services Agreement attached hereto as Exhibit D (the “TSR Services”) and (ii) the Supply Agreement on terms set forth in the term sheet attached hereto as Exhibit C and otherwise on terms reasonably acceptable to Seller and Buyer.

ARTICLE VII TAX RETURNS AND DISPUTES

Section 7.1 Preparation and Filing of Tax Returns.

(a) Seller shall prepare, or cause to be prepared, all Tax Returns for the Target Group Companies for any Pre-Closing Tax Period, other than such period that includes a Pre-Closing Straddle Period (each a “Pre-Closing Tax Return”). In the case of a Pre-Closing Tax Return that includes only a Target Group Company (whether stand alone, consolidated, group, unitary or combined) (a “Target Group Pre-Closing Tax Return”) Seller shall prepare, or cause to be prepared, such Tax Return in accordance with applicable Law and on a basis consistent with the manner in which such Tax Returns were prepared in previous years, and shall, make the election described in Code Section 754 for the taxable year in which the transactions contemplated by this Agreement occur. Seller shall provide to Buyer, for its review and comment, copies of such Target Group Pre-Closing Tax Returns at least twenty (20) Business Days prior to the date such returns are due, and Seller shall in good faith consider incorporating reasonable comments of Buyer in such Tax Return. In the event that Buyer in good faith determines that it cannot file such Tax Returns as prepared by Seller, Buyer and Seller shall follow the notice, dispute, and Independent Accountant provisions in Section 2.7, *mutatis mutandis*. Seller shall file, or cause to be filed (with Buyer’s reasonable cooperation, if necessary), all Target Group Pre-Closing Tax Returns when due, and pay any Tax shown to be due on such Tax Return.

(b) Following the Closing Date, Buyer shall prepare, or cause to be prepared, and file, or cause to be filed, all Straddle Period Tax Returns required to be filed by the Target Group Company, Buyer shall prepare all such Straddle Period Tax Returns in a manner consistent with Seller’s past practices, except as otherwise required by Law. Buyer shall deliver to Seller, for its review and comment, a draft of each such Straddle Period Tax Return at least thirty (30) Business Days prior to the date such returns are due (or such shorter period of time as is reasonable under the circumstances), together with a proposed calculation of the Taxes allocable to the Pre-Closing Tax Period. Within fifteen (15) Business Days following receipt thereof, Seller shall deliver to Buyer written notice of any objection with respect to the calculation of Taxes on such Straddle Period Tax Return or the portion of such Taxes allocable to the Pre-Closing Straddle Period. In the event that Buyer notifies Seller of a disagreement pursuant to the immediately preceding sentence, Buyer and Seller agree to use their respective reasonable efforts to resolve any disagreements with respect to such return or calculation; provided, however, that in the event that Buyer and Seller are unable to resolve such dispute within five (5) Business Days, Buyer and Seller shall submit such disputed items to a nationally known independent accounting firm selected by Seller and Buyer (which firm shall not then be providing any services to Buyer, the Target Group or Seller) for resolution under the procedures set forth in Section 2.5(e), *mutatis mutandis*. No later than five (5) calendar days prior to the due date of the applicable Tax Return, Seller shall pay to Buyer an amount equal to the portion of such Taxes allocable to the Pre-Closing Tax Period, as finally determined by the Parties or the independent accounting firm, as applicable, and determined without regard to any activities or operations of the Target Group outside the Ordinary Course of Business on the Closing Date but following the Closing, to the extent such Taxes were not included in Net Working

Capital and result in a reduction to the Closing Cash Payment Amount or a negative post-Closing adjustment to the Final Cash Purchase Price. Taxes for any Straddle Period shall be allocated to the Pre-Closing Straddle Period (i) in the case of real property, personal property and other ad valorem Taxes, on the basis of a daily proration and (ii) in the case of all other Taxes, on the basis of an interim closing of the books as of the Closing Date, provided, that for purposes of determining any Taxes imposed as a result of ownership of a Target Group Company with respect to income included under Code Sections 951 and 951A, the tax year of each of the Target Group Companies that is a "controlled foreign corporation" within the meaning of Code Section 957 shall be deemed to end as of the end of the Closing Date, and such income shall be included on an interim closing of the books method.

(c) Any Tax refunds and any amounts credited against Tax that are received by a Target Group Company or to which the Buyer or a Target Group Company becomes entitled after the Closing Date, that are attributable to a Pre-Closing Tax Period or Pre-Closing Straddle Period shall be for the account of Seller, except (i) to the extent that such refund or credit is attributable to the carryback of Tax attributes (including without limitation a net operating loss, net capital loss, foreign tax credit, or research and development credit) arising in a taxable year beginning after the Closing Date, or (ii) to the extent that such refund or credit is included in the calculation of Net Working Capital, and, in either case, the carryback of such Tax attribute does not reduce the amount of any refund that would otherwise be received by Seller. Buyer shall pay over to Seller any such refund within ten (10) days after receipt thereof. For the avoidance of doubt, Buyer shall, at the reasonable request and expense of Seller, pursue any Tax refund and pursue the collection of any indirect Tax recoverable from third parties.

(d) Buyer and Seller shall cooperate fully, as and to the extent reasonably requested by the other party, in connection with the filing of Tax Returns pursuant to this Section 7.1 and any audit, litigation, claim of refund or other proceeding with respect to Taxes. Such cooperation shall include the retention and (upon the other party's request) the provision of records and information which are reasonably relevant to any such audit, litigation or other proceeding and making employees available on a mutually convenient basis to provide additional information and explanation of any material provided hereunder (including in the case of any consolidated income Tax Returns of ArcelorMittal North America Holdings LLC, pro forma copies of such returns showing the items relevant to a Tax Dispute (as defined below), of members of the Target Group). Buyer shall and shall cause the Target Group to retain all books and records with respect to Tax Disputes pertinent to the Target Group relating to any taxable period beginning before the Closing Date until the expiration of the statute of limitations (and, to the extent notified by Buyer or Seller, any extensions thereof) of the respective taxable periods, and shall abide by all record retention agreements entered into with any Taxing Authority.

Section 7.2 Audits, etc. Buyer and Seller will promptly notify the other respective Party Seller in writing upon receipt by Buyer, Seller, or their respective Affiliates, Buyer or any Affiliate of Buyer (including the Target Group Companies after the Closing Date) of written notice of any inquiries, claims, assessments, audits or similar events with respect to Taxes: (i) relating to taxable periods which end on or prior to the Closing Date for which that Seller may be liable for under this Agreement, (any such inquiry, claim, assessment, audit or similar event, a "Tax Dispute"), and (ii) relating to any Tax liability or Tax position of any Target Group Company or Target JV for any Post-Closing Tax Period. Seller shall have the right (but not the obligation), at its sole expense, to control such any Tax Dispute. If Seller elects to control such Tax Dispute, Seller or an Affiliate designated by Seller will have the exclusive authority to represent the Target Group with respect to such Tax Dispute before the IRS, any other Taxing Authority or any other Governmental Entity, and to control the defense, compromise or other resolution of any Tax Dispute, including responding to inquiries, filing Tax Returns and settling audits; provided, however, that Seller or such Affiliate will not enter into any settlement of or otherwise compromise any Tax Dispute that increases or may increase any Liability of Buyer or any Target Group Company (to the extent not reimbursed by Seller pursuant to Section 10.2), without the prior written consent of Buyer, which consent will not be unreasonably withheld or delayed. Seller or such Affiliate will not enter into any settlement of or otherwise compromise any Tax Dispute that affects or may affect the ongoing Tax Liability or positions of Buyer or any of its Affiliates without the prior written consent of Buyer, which consent will not be

unreasonably withheld or delayed. Buyer shall have the right (but not the obligation) to participate in the defense of such Tax Dispute and to employ separate counsel at its own expense. Seller or such Affiliate will keep Buyer fully and timely informed with respect to the commencement, status and nature of any Tax Dispute. Upon reasonable request by Buyer, Seller or such Affiliate will, in good faith, consult with Buyer regarding the conduct of or positions taken in any such proceeding. Seller or such Affiliate will not file or cause or permit to be filed any amended Tax Return relating to such matters without the prior written consent of Buyer, which consent will not be unreasonably withheld or delayed.

Section 7.3 Tax Sharing Agreements. All tax sharing agreements or similar agreements with respect to or involving any Target Group Company shall be terminated as of the Closing Date and, after the Closing Date, no Target Group Company shall be bound thereby or have any Liability thereunder.

Section 7.4 Transfer Taxes. All stock transfer, documentary, stamp, recording, sales and use and other similar Taxes (including interest, penalties and additions to any such Taxes) ("Transfer Taxes") incurred in connection with the Transactions shall be borne fifty percent (50%) by Seller and fifty percent (50%) by Buyer. The party customarily responsible for filing a Tax Return with respect to such Transfer Taxes shall timely prepare and shall file such Tax Return. Seller and Buyer shall cooperate in preparing, executing and filing any Tax Returns with respect to such Transfer Taxes, including supplying in a timely manner any information that is reasonably necessary to complete such Tax Returns.

ARTICLE VIII CONDITIONS TO CLOSING

Section 8.1 Conditions Precedent to Obligations of Buyer and Seller. The respective obligations of each Party to consummate the Transactions are subject to the satisfaction (or, where legally permissible, waiver by such Party in writing) at or prior to the Closing Date of each of the following conditions:

(a) No Adverse Order. No Order shall have been issued by a Governmental Entity of competent jurisdiction and remain in effect and no Law shall have been enacted, in each case, which would have the effect of preventing, enjoining or restraining in any material way the consummation of the Transactions.

(b) Antitrust Authorizations. All applicable waiting periods (and any extensions thereof) under any Antitrust Laws set forth on Schedule 8.1(b) of the Disclosure Schedules will have expired or been terminated and any approvals, notices or other requirements under the other Antitrust Laws set forth on Schedule 8.1(b) of the Disclosure Schedules shall have been made, obtained or satisfied, as applicable.

Section 8.2 Conditions Precedent to Obligation of Seller. The obligation of Seller to consummate the Transactions is subject to the satisfaction (or, where legally permissible, waiver by Seller) at or prior to the Closing Date of each of the following additional conditions:

(a) Accuracy of Buyer's Representations and Warranties. The representations and warranties of Buyer contained in this Agreement shall be true and correct (without giving effect to any limitation or qualification on any representation or warranty indicated by the words "Buyer Material Adverse Effect" or "material") in each case on and as of the date hereof and as of the Closing Date as if made at and as of such time (other than representations and warranties that speak as of a specific date prior to the Closing Date which shall be true and correct as of such earlier date), except where the failure of any such representations and warranties, individually or in the aggregate, to be so true and correct has not had and would not reasonably be expected to have a Buyer Material Adverse Effect; provided that (i) the Buyer Fundamental Representations shall be true and correct in all material respects in each case on and as of the date hereof and as of the Closing Date as if made at and as of such time (other than representations and warranties that speak as of a specific date prior to the Closing Date which shall be

true and correct as of such earlier date) and (ii) the representations and warranties set forth in Section 5.12(b) shall be true and correct in all respects on and as of the date hereof.

(b) Covenants and Agreements of Buyer. Buyer shall have performed and complied with in all material respects with each of the covenants and agreements required to be performed by it at or prior to the Closing.

(c) Buyer Closing Certificate. At or prior to the Closing, Seller shall have received a certificate signed by a duly authorized officer of Buyer certifying to the fulfilment of the conditions set forth in Section 8.2(a), Section 8.2(b) and Section 8.2(e) (the "Buyer Closing Certificate").

(d) Closing Deliveries. On or prior to the Closing Date, Buyer shall have delivered all the deliveries required to be delivered by it under Section 2.6(c).

(e) No Buyer Material Adverse Effect. Since the date of this Agreement, a Buyer Material Adverse Effect shall not have occurred.

(f) Consent. On or prior to the Closing Date, Seller shall have received the Consent set forth on Schedule 8.2(f) of the Disclosure Schedules.

Section 8.3 Conditions Precedent to Obligations of Buyer. The obligation of Buyer to consummate the Transactions is subject to the satisfaction (or, where legally permissible, waiver by Buyer) at or prior to the Closing Date of each of the following additional conditions:

(a) Accuracy of Certain Representations and Warranties. The representations and warranties of Seller contained in this Agreement shall be true and correct (without giving effect to any limitation or qualification on any representation or warranty indicated by the words "Material Adverse Effect" or "material") in each case on and as of the date hereof and as of the Closing Date as if made at and as of such time (other than representations and warranties that speak as of a specific date prior to the Closing Date which shall be true and correct as of such earlier date), except where the failure of any such representations and warranties, individually or in the aggregate, to be so true and correct has not had and would not reasonably be expected to have a Material Adverse Effect; provided that (i) the Fundamental Representations shall be true and correct in all material respects in each case on and as of the date hereof and as of the Closing Date as if made at and as of such time (other than representations and warranties that speak as of a specific date prior to the Closing Date which shall be true and correct as of such earlier date) and (ii) the representation and warranties set forth in Section 4.8(a) shall be true and correct in all respects on and as of the date hereof and as of the Closing Date as if made at and as of such time.

(b) Covenants and Agreements of Seller. Seller shall have performed and complied with in all material respects with each of the covenants and agreements required to be performed by it at or prior to the Closing.

(c) No Material Adverse Effect. Since the date of this Agreement, a Material Adverse Effect shall not have occurred.

(d) Seller Closing Certificate. At or prior to the Closing, Buyer shall have received a certificate signed by a duly authorized officer of Seller certifying to the fulfilment of the conditions set forth in Section 8.3(a), Section 8.3(b) and Section 8.3(c) (the "Seller Closing Certificate").

(e) Consent. On or prior to the Closing Date, Seller shall have delivered the Consent set forth on Schedule 8.3(e) of the Disclosure Schedules to Buyer.

(f) Closing Deliveries. On or prior to the Closing Date, Seller shall have delivered all the deliveries required to be delivered by it pursuant to Section 2.6(b).

ARTICLE IX TERMINATION

Section 9.1 Termination Events. This Agreement may be terminated and the Transactions may be abandoned at any time prior to the Closing:

(a) by mutual written consent of Seller and Buyer;

(b) by either Seller or Buyer by giving written notice to the other Party if the Closing shall not have occurred by June 28, 2021 (the "Outside Date"), unless extended by written agreement of Seller and Buyer; provided, that the Outside Date may be extended by Seller or Buyer for a period of three months (or such other period as Buyer and Seller may agree in writing) in the event the condition set forth in Section 8.1(b) or, if and only if relating to an Order arising under any Antitrust Law, Section 8.1(a), have not been satisfied and all other closing conditions to the respective obligations of the Parties to close hereunder that are capable of being fulfilled by the Outside Date have been satisfied or waived (or, with respect to the conditions that by their terms must be satisfied at the Closing, would have been so satisfied if the Closing would have occurred as of such date); provided, further, that the right to terminate this Agreement under this clause (b) shall not be available to any Party whose failure to fulfill any obligation under this Agreement has been the principal cause of, or resulted in, the failure of the Closing to occur on or before such date;

(c) by either Seller or Buyer by giving written notice to the other Party if any Governmental Entity shall have issued an Order permanently restraining, enjoining or otherwise prohibiting the consummation of the Transactions, and such Order shall not be subject to appeal or shall have become final and unappealable; provided, that the right to terminate this Agreement under this clause (c) shall not be available to any Party whose failure to fulfill any obligation under this Agreement has been the principal cause of the imposition of such Order;

(d) by Seller, by giving written notice to Buyer if either any of the representations and warranties of Buyer contained in Article V shall fail to be true and correct, or there shall be a breach by Buyer of any covenant or agreement of Buyer in this Agreement, that, in either case, (i) would result in the failure of a condition set forth in Section 8.2(a) or Section 8.2(b), as applicable, and (ii) which is not curable or, if curable, is not cured upon the occurrence of the earlier of (A) the 30th day after written notice thereof is given by Seller to Buyer and (B) the day that is the Business Day prior to the Outside Date; provided, that Seller may not terminate this Agreement pursuant to this Section 9.1 if Seller shall have breached any representation, warranty or agreement contained herein that would result in the failure of a condition set forth in Section 8.3(a) or Section 8.3(b), as applicable; or

(e) by Buyer, by giving written notice to Seller if any of the representations and warranties of Seller contained in Article III or Article IV shall fail to be true and correct, or there shall be a breach by Seller of any covenant or agreement of Seller in this Agreement that, in either case, (i) would result in the failure of a condition set forth in Section 8.3(a) or Section 8.3(b), as applicable, and (ii) which is not curable or, if curable, is not cured upon the occurrence of the earlier of (A) the 30th day after written notice thereof is given by Buyer to Seller, and (B) the day that is the Business Day prior to the Outside Date; provided, that Buyer may not terminate this Agreement pursuant to this Section 9.1 if Buyer shall have breached any representation, warranty or agreement contained herein that would result in the failure of a condition set forth in Section 8.2(a) or Section 8.2(b), as applicable.

Section 9.2 Effect of Termination. In the event of any termination of this Agreement pursuant to Section 9.1, all rights and obligations of the Parties hereunder shall terminate without any Liability on the part of either Party or its Subsidiaries and Affiliates in respect thereof, except that if this Agreement is

terminated by a Party because of the knowing and willful breach of this Agreement by the other party or because one or more conditions to the terminating Party's obligations under this Agreement is not satisfied as a result of the other Party's knowing and willful failure to comply with its obligations under this Agreement, the terminating Party's right to pursue all legal and contractual remedies for breach of Contract and Losses shall survive such termination unimpaired. Notwithstanding the foregoing, the obligations of the parties under the Confidentiality Agreement and under this Section 9.2, the fee allocation sentence of Section 6.5(d), the indemnification, reimbursement and expense provisions of Section 6.7(f), Section 6.13, and Article XI (except for Section 11.12) shall survive such termination and remain in full force.

ARTICLE X NO SURVIVAL; INDEMNIFICATION

Section 10.1 Survival. The representations and warranties set forth in (i) Section 3.3 (*No Violation or Conflict*), Section 4.5(b) and (c) (*Imposition of Liens; Consents*), Section 4.7(b) (*Finance Lease Obligations*), Section 4.7(c) (*Pension Liabilities*), Section 4.9 (*Material Contracts*) solely with respect to the Contracts set forth in subsection (g) (joint venture agreements) and (i) (Contracts with restrictive covenants) of the definition of "Material Contracts", Section 4.11(a) (*Sufficiency and Condition of Assets*), Section 4.13(b) (*Intellectual Property; IT Systems*), Section 4.23 (*AML Laws; Anti-Corruption Laws; Sanctions*), and Section 4.24 (*Compliance with Export Control and Import Laws*) (the "Surviving Representations") shall survive the Closing for a period of 15 months after the Closing Date, on which date they shall terminate and (ii) the Fundamental Representations shall survive until the fifth anniversary of the Closing. The covenants contained in this Agreement that apply or are to be performed or complied with prior to the Closing Date shall survive the Closing until the date that is twelve months from the Closing Date and all of the covenants contained in this Agreement to be performed or complied with after the Closing Date shall not be subject to any limitation period unless otherwise expressly specified in this Agreement, except that any covenant included in this Agreement that is related to Taxes shall survive until the sixtieth (60th) day after the expiration of the applicable statute of limitations. Notwithstanding the foregoing, any representation or warranty in respect of which indemnity may be sought under this Agreement shall survive the time at which it would otherwise terminate pursuant to this Section 10.1 if written notice of the inaccuracy or breach thereof giving rise to such right of indemnity has been given to the Party against whom such indemnification may be sought prior to such time.

Section 10.2 Indemnification by Seller. Subject to Section 10.1 and Section 10.6, from and after the Closing, Seller shall indemnify and hold harmless Buyer, the Target Group and any of their respective representatives, officers, members, agents, directors, employees, controlling persons and Affiliates, and any of their respective successors and assigns (collectively, the "Buyer Group") against and in respect of any and all Losses arising or resulting directly or indirectly from or in connection with any of the items set forth below; provided that, notwithstanding anything to the contrary in this Agreement, Buyer acknowledges that (i) Buyer has not bargained for any net operating losses, Tax credits or similar Tax attributes (other than purchased Tax basis in any Target Group Company stock or asset) of the Seller, Seller's Affiliates or any Target Group Company, and has no expectation of, or entitlement to any specific amount of such Tax attributes, and (ii) Buyer shall have no right under this Agreement to be indemnified or held harmless for any reduction in or loss of such Tax attributes that otherwise would have been transferred to Buyer in connection with the Transaction:

- (a) any breach or inaccuracy of any:
 - (i) Surviving Representation by Seller contained in this Agreement or
 - (ii) Fundamental Representation by Seller contained in this Agreement;
- (b) any breach or violation of any covenant, obligation or agreement of Seller contained in this Agreement;

- (c) all Pre-Closing Taxes not otherwise included in Net Working Capital or Indebtedness;
- (d) all Liabilities arising under the operation of any assets or businesses of Seller and its Affiliates (other than the Business or the Target Group);
- (e) all Liabilities (i) with respect to awards under the ArcelorMittal Equity Incentive Plan, the ArcelorMittal Global Stock Option Plan or any other equity awards granted by Seller or its Affiliates prior Closing, (ii) with respect to any contractual obligations of Seller, the Target Group or their Affiliates, in effect on or prior to Closing to grant equity-based awards and (iii) with respect to any employee benefit plan of Seller or its Affiliates other than the Business Employee Plans sponsored and maintained by the Target Group, in each case not otherwise included in Net Working Capital or Indebtedness;
- (f) all Liabilities with respect to the Retained Agreements;
- (g) any Liabilities with respect to ArcelorMittal USA LLC's role as servicer or administrator under the GMPA during the period following the Closing;
- (h) any Business Guarantee to the extent not released prior to the Closing; and
- (i) any incremental Liabilities incurred or arising solely as a result of the actions taken pursuant to the Internal Restructuring, provided that all such Liabilities related to Taxes shall be governed exclusively by Section 10.2(c).

Section 10.3 Indemnification by Buyer. Subject to Section 10.1 and Section 10.6, Buyer shall indemnify and hold harmless Seller and its Affiliates and any of their respective officers, directors, controlling persons, agents, members, employees, successors, and representatives, and any of their respective successors and assigns (the "Seller Group") against and in respect of any and all Losses arising or resulting directly or indirectly from or in connection with the items set forth below:

- (a) any breach or inaccuracy of any of the Buyer Fundamental Representations made by Buyer in this Agreement;
- (b) any breach or violation of any covenant, agreement or obligation to be performed by Buyer after the Closing pursuant to this Agreement;
- (c) any Financial Assurance to the extent not released prior to the Closing; and
- (d) all Liabilities arising under the operation of the Target Group or the Business at or following the Closing other than any other Liabilities specifically retained by Seller or its Affiliates pursuant to this Agreement, including those Liabilities set forth in Section 10.2 (except for Liabilities relating to any breach of this Agreement by Seller or its Affiliates).

Section 10.4 Conduct of Claims. Except as provided in Section 7.2:

- (a) Any Party seeking indemnification (the "Indemnified Party") shall give the Party from whom indemnification is requested (the "Indemnifying Party") prompt written notice after the Indemnified Party has received notice or otherwise learns of the assertion by a Person other than the Buyer Group or the Seller Group of a Claim (a "Third Party Claim") that has given or could reasonably give rise to a right of indemnification under this Agreement. Such notice shall state the amount of Losses, if known (which shall not be conclusive of the final amount of such Claim), and shall contain a reference to the provisions of this Agreement in respect of which such right of indemnification is claimed (the "Claim Notice"). The failure of the Indemnified Party to so notify the Indemnifying Party shall not relieve the Indemnifying Party of its obligations hereunder except to the extent that the Indemnifying Party is

prejudiced thereby. If, within 30 days of receipt of the Claim Notice, the Indemnifying Party acknowledges in writing its obligation to indemnify the Indemnified Party hereunder against any Losses that may result from such Third Party Claim, then the Indemnifying Party shall have the right to assume the control of the defense of such Third Party Claim through counsel reasonably satisfactory to the Indemnified Party, and all costs and expenses incurred by the Indemnifying Party in defending such Third Party Claim shall be a Liability of, and shall be paid by, the Indemnifying Party, subject to the limitations set forth in this Article X; provided, however, that the Indemnifying Party shall not be entitled to assume control of such defense and shall pay the reasonable fees and expenses of a single counsel (plus a single local counsel for each jurisdiction where required) retained by the Indemnified Party if (i) the Claim for indemnification relates to or arises in connection with any criminal proceeding, action, indictment, allegation or investigation, (ii) the Claim seeks an injunction or equitable relief against the Indemnified Party or would be detrimental in a material way to the reputation or relations with customers or suppliers of the Target Group or the Business, (iii) the Indemnified Party has been advised by legal counsel that there is a conflict of interest between the Indemnified Party and the Indemnifying Party in the conduct of the defense of such Third Party Claim, (iv) due to the limitations elsewhere in this Article X, the Indemnifying Party's indemnification liability in respect of such Third Party Claim is less than the amount for which the Indemnified Party would be responsible or (v) the Indemnifying Party failed or is failing to or refuses to prosecute or defend such Third Party Claim. In the event that the Indemnifying Party notifies the Indemnified Party that it desires to and is otherwise entitled to defend the Indemnified Party against such Third Party Claim, except as hereinafter provided, the Indemnifying Party shall have the right to defend the Indemnified Party by appropriate proceedings. The Indemnifying Party must conduct its defense of the Third Party Claim actively and diligently thereafter in order to preserve its rights in this regard. If the Indemnifying Party elects not to (whether explicitly or by its actions) defend any Third Party Claim, fails to notify the Indemnified Party of its election as herein provided, contests its obligation to indemnify the Indemnified Party for Losses relating to such Third Party Claim under this Agreement or is not entitled to assume the defense of any Third Party Claim, the Indemnified Party may defend against, negotiate, settle or otherwise deal with such Third Party Claim. If the Indemnified Party defends any Third Party Claim because the Indemnifying Party is not entitled to or elects not to defend such Third Party Claim, then the Indemnifying Party shall reimburse the Indemnified Party for the reasonable, documented and out-of-pocket costs and expenses (including legal fees and expenses) of defending such Third Party Claim promptly upon submission of periodic bills but only if such costs and expenses are subject to indemnification under Section 10.2 or Section 10.3, as applicable.

(b) Subject to Section 10.4(a), the party not controlling the defense of a Third Party Claim (the "Non-controlling Party") may participate therein at its own expense; provided, however, that an Indemnified Party shall be entitled to participate in any such defense with separate counsel at the expense of the Indemnifying Party if (i) so requested by the Indemnifying Party to participate or (ii) in the reasonable opinion of counsel to the Indemnified Party a conflict or potential conflict exists between the Indemnified Party and the Indemnifying Party that would make such separate representation advisable. The party controlling such defense (the "Controlling Party") will keep the Non-controlling Party reasonably advised of the status of such suit or proceeding and the defense thereof and will consider in good faith recommendations made by the Non-controlling Party with respect thereto. The Non-controlling Party will furnish the Controlling Party with such relevant information as it may have with respect to such suit or proceeding (including copies of any summons, complaint or other pleading which may have been served on such party and any written Claim, demand, invoice, billing or other document evidencing or asserting the same) and will otherwise cooperate with and, at the reasonable request of the Controlling Party, assist the Controlling Party in the defense of such suit or proceeding and will give the Controlling Party and its counsel, during normal business hours and upon reasonable advance notice, access to the relevant business records and other documents, and shall permit them to consult with the employees and counsel of the Indemnified Party.

(c) The Indemnifying Party will not agree to any settlement or compromise of, or the entry of any judgment arising from, any such suit or proceeding without the prior written Consent of the Indemnified Party (such Consent not to be unreasonably withheld, conditioned or delayed) if such

settlement, compromise or entry of judgment (i) would create any Liability of the Indemnified Party for which the Indemnified Party is not entitled to indemnification hereunder, (ii) would provide for any admission of criminal liability or any injunctive relief or other non-monetary obligation affecting the Indemnified Party or (iii) does not include an unconditional release of the Indemnified Party from all Liability in respect of the Third Party Claim. The Indemnified Party will not agree to any settlement or compromise of, or the entry of any judgment arising from, any such suit or proceeding without the prior written Consent of the Indemnifying Party (such Consent not to be unreasonably withheld, conditioned or delayed).

(d) Any Claim for indemnification of Losses under this Article X that is not a Third Party Claim (a "Direct Claim") by an Indemnified Party shall be asserted by giving the Indemnifying Party prompt written notice thereof; provided that the failure to notify the Indemnifying Party shall not relieve the Indemnifying Party of its obligations hereunder except to the extent that the Indemnifying Party is prejudiced thereby. Such notice shall describe the Direct Claim in reasonable detail, state the amount of Losses, if known (which shall not be conclusive of the final amount of such Claim), and shall contain a reference to the provisions of this Agreement in respect of which such right of indemnification is claimed. The Indemnifying Party will have a period of 30 days within which to respond in writing to such Direct Claim. If the Indemnifying Party does not so respond within such 30 day period, the Indemnifying Party will be deemed to have rejected such Claim, in which event the Indemnified Party will be free to pursue such remedies as may be available to the Indemnified Party on the terms and subject to the provisions of this Article X and Article XI.

Section 10.5 Effect of Investigation. The right to indemnification and all other remedies based on any representation, warranty, covenant or obligation of Seller contained in or made pursuant to this Agreement shall not be affected by any investigation conducted with respect to, or any knowledge acquired (or capable of being acquired) at any time, whether before or after the execution and delivery of this Agreement or the Closing Date, with respect to the accuracy or inaccuracy of or compliance with, any such representation, warranty, covenant or obligation.

Section 10.6 Limitations on Indemnification.

(a) Dollar Limitations. Notwithstanding anything to the contrary in this Agreement, Seller shall be required to indemnify and hold harmless the Buyer Group under this Article X with respect to Losses arising under Section 10.2(a)(i) only if the aggregate amount of all Losses suffered or incurred by the Buyer Group for all such matters exceeds \$5,000,000 (the "Deductible") at which time Seller shall be required to pay or be liable for only such Losses in excess of the Deductible, subject to (b); provided, however that Seller shall not have any Liability under this Section 10.6(a) for any individual items where the Losses sustained by the Buyer Group are less than \$50,000 (and for this purpose one or more items deriving from or attributable to the same matter or concern shall be treated as an individual item) (each a "DeMinimis Item" and collectively the "DeMinimis Items") and the DeMinimis Items shall not be aggregated for purposes of this Section 10.6(a). Notwithstanding the foregoing, the Deductible shall not apply with respect to indemnification Claims for Losses of the Buyer Group (i) under Section 10.2(a)(ii) which arise out of or result from a breach of any of the Fundamental Representations and (ii) in the case of Fraud.

(b) Cap on Indemnification. Notwithstanding anything to the contrary in this Agreement, in no event shall the aggregate amount of all indemnification obligations of Seller under this Agreement for Claims by the Buyer Group (A) pursuant to Section 10.2(a)(ii) exceed the aggregate value of the Consideration and (B) pursuant to Section 10.2(a)(i) exceed \$50,000,000.

(c) Notwithstanding anything to the contrary contained herein, with respect to Section 10.2(a), in the case of any representation or warranty that is limited by the word "Material Adverse Effect," "material" or by any similar term or limitation, the failure of such representation or warranty, as the case may be, and the amount of Losses subject to indemnification hereunder shall be

determined as if the words “Material Adverse Effect,” “material” or any similar term or limitation were not included therein; provided that the foregoing shall not apply to use of “material” and derivatives thereof in the definitions of “Permitted Liens”.

Section 10.7 Losses Net of Insurance and other Payments to Buyer, etc.

(a) No Indemnified Party shall be entitled to recover in respect of a Third Party Claim or Direct Claim to the extent that it has actually received insurance proceeds under any applicable insurance policies in respect of the Losses to which such Third Party Claim or Direct Claim relates. If the Indemnifying Party settles or pays a Third Party Claim or Direct Claim in full hereunder, and the Indemnified Party subsequently recovers under a third party policy of insurance, which would reduce the Losses to which such Claim related, the Indemnified Party shall promptly pay to the Indemnifying Party the amount recovered under such third party policy of insurance (after taking into account any deductibles, retentions, costs of recovery, increase in premiums and similar amounts and reasonable costs, expenses or Taxes incurred by the Indemnified Party). The Indemnified Party shall use its commercially reasonable efforts to recover under insurance policies for any Losses to the same extent such Party would if such Losses were not subject to indemnification, compensation or reimbursement hereunder.

(b) Notwithstanding anything contained in this Agreement, any amounts payable pursuant to the indemnification obligations of this Agreement shall be paid without duplication, and in no event shall any Party be indemnified under different provisions of this Agreement for the same Losses (including any amount taken into account in the calculation of the Closing Cash Payment Amount).

(c) Each of Buyer and Seller shall (and shall cause its Affiliates to) use commercially reasonable efforts to pursue any commercially reasonable remedies available in order to mitigate and minimize any Losses subject to indemnification pursuant to this Article X promptly upon becoming aware of any event or circumstance that could reasonably be expected to constitute or give rise to such Losses. Nothing in this Agreement shall in any way restrict or limit any applicable general obligation under applicable Law or in equity of a party to mitigate any Losses subject to indemnification pursuant to this Article X and each Indemnified Party shall (and shall cause its Affiliates to), in accordance with any reasonableness standard under applicable Law which is applicable to such Losses, mitigate any such damages.

Section 10.8 Adjustment to Final Cash Purchase Price. Seller and Buyer agree to treat all payments made by Seller for the benefit of Buyer or payments made by Buyer for the benefit of Seller under all of the indemnification provisions of this Agreement as adjustments to the Final Cash Purchase Price for Tax purposes and that such treatment shall govern for purposes hereof except to the extent that the Laws of a particular jurisdiction provide otherwise.

Section 10.9 Exclusive Remedy; No Duplication; No Set-off.

(a) From and after the Closing, (i) this Article X shall be the sole and exclusive remedy of the Indemnified Parties (including Buyer and Seller) in connection with this Agreement and the Transaction, (ii) neither Buyer nor Seller shall be liable or responsible in any manner whatsoever (whether for indemnification or otherwise) to any Indemnified Party for breach of, any representation, warranty, covenant, agreement or obligation set forth in this Agreement or in connection with any of the transactions contemplated by this Agreement, except pursuant to the indemnification provisions set forth in this Article X; and (iii) each Party hereby waives, to the fullest extent permitted under applicable Law, any and all rights, claims and causes of action for breach of, any representation, warranty, covenant, agreement or obligation set forth in this Agreement or in connection with any of the transactions contemplated by this Agreement, that it may have against the other Party to this Agreement, its Affiliates and each of their respective Authorized Representatives, in each case, arising under or based upon predecessor or successor liability, contribution, tort, strict liability or any Law or otherwise, except pursuant to the indemnification provisions set forth in this Article X; provided, however, that nothing in this Section 10.9(a)

shall limit the rights or remedies of, or constitute a waiver of any rights or remedies by, any Person in respect of, including for any breach of (or shall otherwise operate to interfere with the operation of), Section 2.5, this Article X, Section 11.10, the Confidentiality Agreement or any other Transaction Document.

(b) Any Losses subject to indemnification hereunder shall be determined without duplication of recovery by reason of the state of facts giving rise to such Losses.

(c) Neither Buyer nor Seller shall have any right to set-off any unresolved claim for indemnification pursuant to this Article X against any payment due pursuant to any other provision of this Agreement or any other Contract between Seller or its Affiliates, on the one hand, and Buyer or its Affiliates, on the other hand.

Either Party may at any time change the address to which notices may be sent under this Section 11.1 by the giving of notice of such to the other Party in the manner set forth herein.

Section 11.2 Amendments; No Waivers.

(a) This Agreement may not be amended, supplemented or changed, and no provision hereof may be waived, except by an instrument in writing signed by the Parties.

(b) No action taken pursuant to this Agreement, including any investigation by or on behalf of any Party, will be deemed to constitute a waiver by the Party taking such action of compliance with any representation, warranty, covenant or agreement contained herein. The waiver by any Party of a breach of any provision of this Agreement will not operate or be construed as a further or continuing waiver of such breach or as a waiver of any other or subsequent breach. No failure or delay by any Party in exercising any right, power or privilege hereunder shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or further exercise thereof or the exercise of any other right, power or privilege.

Section 11.3 Successors and Assigns. This Agreement shall inure to the benefit of and be binding upon the Parties and their respective successors and permitted assigns. No Party may assign (by operation of Law, sale of substantially all of the assets of a Party or otherwise), delegate or otherwise transfer any of its rights, interests or obligations under this Agreement without the prior written Consent of the other Party, and any such purported assignment, delegation or transfer by any Party without such Consent shall be null and void; provided, however, that Buyer may, without such Consent, assign any of its rights pursuant to this Agreement to any Affiliate of Buyer or collaterally assign its rights hereunder to any lender or debt provider of Buyer or its Affiliates, provided however, that such assignment shall not relieve Buyer of its obligations hereunder.

Section 11.4 Governing Law; Jurisdiction.

(a) This Agreement, and all Claims or causes of action (whether in Contract or tort) that may be based upon, arise out of or relate to this Agreement or the negotiation, execution or performance of this Agreement (including any Claim or cause of action based upon, arising out of or related to any representation or warranty made in or in connection with this Agreement), will be governed by and construed in accordance with the Laws of the State of New York, without giving effect to principles or rules of conflict of laws to the extent such principles or rules would require or permit the application of Laws of another jurisdiction.

(b) The Parties hereby irrevocably submit to the exclusive personal jurisdiction of the courts of the State of New York and the Federal courts of the United States of America located in the State of New York solely in respect of the interpretation and enforcement of the provisions of this Agreement and of the documents referred to in this Agreement, and in respect of the transactions contemplated hereby and thereby, and hereby waive, and agree not to assert, as a defense in any action, suit or proceeding for the interpretation or enforcement of this Agreement, or of any such document, that it is not subject thereto or that such action, suit or proceeding may not be brought or is not maintainable in said courts or that the venue thereof may not be appropriate or that this Agreement or any such document may not be enforced in or by such courts, and the Parties irrevocably agree that all claims relating to such action, proceeding or transactions shall be heard and determined in such a New York State or Federal court. The Parties hereby consent to and grant any such court jurisdiction over the person of such Parties and, to the extent permitted by Law, over the subject matter of such dispute and agree that mailing of process or other papers in connection with any such action or proceeding in the manner provided in Section 11.1 or in such other manner as may be permitted by Law shall be valid and sufficient service thereof.

Section 11.5 Waiver of Jury Trial. EACH PARTY ACKNOWLEDGES AND AGREES THAT ANY CONTROVERSY THAT MAY ARISE UNDER THIS AGREEMENT IS LIKELY TO INVOLVE COMPLICATED AND DIFFICULT ISSUES AND, THEREFORE, EACH PARTY KNOWINGLY, VOLUNTARILY, IRREVOCABLY AND INTENTIONALLY, WAIVES ITS RIGHT TO TRIAL BY JURY IN ANY ACTION ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE TRANSACTION DOCUMENTS OR ANY TRANSACTIONS WHETHER SOUNDING IN CONTRACT, TORT, OR OTHERWISE.

Section 11.6 Counterparts. This Agreement may be executed in any number of counterparts, including electronically transmitted counterparts, each of which shall be deemed an original, but all such counterparts together shall constitute but one and the same agreement.

Section 11.7 Entire Agreement. This Agreement (including the Schedules, Disclosure Schedules and Exhibits hereto), together with the other Transaction Documents and the schedules, exhibits and other attachments thereto, constitutes the entire agreement among the parties with respect to its subject matter and supersedes all prior and contemporaneous agreements, understandings and negotiations, both written and oral, among the Parties with respect to such subject matter.

Section 11.8 Severability. If any term or provision of this Agreement or the application thereof to any circumstance shall, in any jurisdiction and to any extent, be invalid or unenforceable, such term or provision shall be, solely as to such jurisdiction, modified or eliminated to the minimum extent necessary to achieve, to the extent possible, the purpose of such term or provision, without invalidating or rendering unenforceable such term or provision in any other jurisdiction, the remaining terms and provisions of this Agreement or the application of such terms and provisions to circumstances other than those as to which it is held invalid or enforceable.

Section 11.9 Third Party Rights. Except as provided in Article X with respect to Indemnified Parties, this Agreement shall be for the sole and exclusive benefits of the Parties, and nothing expressed or implied in this Agreement is intended, nor shall be construed, to confer upon or give any Person other than the Parties any rights under or by reason of this Agreement; provided, however, that solely with respect to Section 11.12, the Non-Recourse Parties shall be express third-party beneficiaries and shall be entitled to expressly rely on and enforce the provisions of such Section.

Section 11.10 Specific Performance. The Parties each acknowledge and agree that they would be irreparably harmed if any of the provisions of this Agreement are not performed in accordance with their specific terms and that any breach of this Agreement by the other Parties could not be adequately compensated in all cases by monetary damages alone. Accordingly, the Parties each agree that, in addition to any other right or remedy to which a non-breaching Party may be entitled at Law or in equity, such non-breaching Party shall be entitled to enforce any provision of this Agreement by a decree of specific performance and to obtain temporary, preliminary, and permanent injunctive relief to prevent breaches or threatened breaches, without posting any bond or giving any other undertaking and each Party hereby irrevocably waives any right it may have to require the provision, furnishing or posting of any such bond or other security. In the event that any claim should be asserted to enforce the provisions of this Agreement, each Party agrees that it shall not allege, and each Party hereby waives the defense, that there is an adequate remedy available at law or that an award of specific performance is not an appropriate remedy for any reason at law or equity.

Section 11.11 Remedies Cumulative. The rights and remedies of the Parties are cumulative and not exclusive or alternative.

Section 11.12 No Recourse. Notwithstanding any other provision of this Agreement or any rights of any Party at Law or in equity (and whether in tort, Contract or otherwise), this Agreement may only be enforced against, and any Claim or cause of action based upon, arising out of or related to this Agreement, or the Transactions, may only be brought against, the Parties, and then only with respect to the specific obligations set forth herein with respect to such Party. No former, current or future Affiliate of Buyer or Seller or any former, current or future director, officer, employee, agent, representative, fund, general or limited partner, manager, member, shareholder or Affiliate, successor or assignee of any of Buyer or Seller or their respective its Affiliates (collectively, the "Non-Recourse Parties") will have any Liability, whether by the enforcement of any assessment or by any legal or equitable proceeding (whether in tort, Contract or otherwise), or by virtue of any statute, regulation or other applicable Law, for any obligations or Liabilities of the Parties or for any Claim based on, in respect of, or by reason of, the Transactions.

Section 11.13 Independent Investigation; No Other Representations and Warranties.

(a) Buyer has conducted its own independent investigation, review and analysis of, and reached its own independent conclusions regarding the Target Group and its operations, assets, condition (financial or otherwise) and prospects. Buyer has been represented by, and had the assistance of, counsel in the conduct of its due diligence, the preparation and negotiation of this Agreement and the other Transaction Documents, and the consummation of the transactions contemplated hereby and thereby. In entering into this Agreement, Buyer acknowledges that it has relied solely upon its own investigation, review and analysis and has not relied on and hereby expressly waives any reliance upon

any representation, warranty or other statement made by, on behalf of or relating to Seller or Seller's Affiliates, or any omissions therefrom, except for the representations and warranties expressly set forth in Article III and Article IV (and, with respect to such representations and warranties, subject to any limitations included in this Agreement) and Seller acknowledges that Buyer is relying on such representations and warranties in determining to enter into this Agreement.

(b) Buyer acknowledges and agrees that (i) the representations and warranties expressly set forth in Article III and Article IV are and shall constitute the sole and exclusive representations and warranties made with respect to the Target Group in connection with this Agreement or the transactions contemplated hereby and other than the representations and warranties expressly set forth in Article III and Article IV, none of Seller, any of Seller's Affiliates or any other Person has made or makes any representation or warranty, written or oral, express or implied, at law or in equity, with respect to the Target Group, including any representation or warranty as to (A) merchantability or fitness for a particular use or purpose, (B) the operation or probable success or profitability of the Target Group following the Closing, (C) the accuracy or completeness of any information regarding the Target Group made available to Buyer and its Authorized Representatives in connection with this Agreement or their investigation of the Target Group (including any estimates, projections, business plans, budgets or other forward-looking information provided by Seller, any of its Affiliates or any of their Authorized Representatives, which shall not be deemed to be or to include representations or warranties, except to the extent explicitly set forth in Article III and Article IV), (D) the consequences to the Target Group of not benefitting, after the Closing, from Overhead and Shared Services, and the Intragroup Agreements and, after the termination of Seller's obligation to provide any services under the Transaction Documents, from such services, (E) the capability or cost of alternative providers of Overhead and Shared Services (including information technology service providers) or the goods or services obtained via Intracompany Contracts or (F) the ability of Buyer to successfully and timely complete any migration off of Seller's or its Affiliates' information technology systems and data, and (ii) Buyer will have no right or remedy (and Seller will have no Liability whatsoever) arising out of, and Buyer expressly disclaims any reliance upon, any representation, warranty or other statement made by, on behalf of or relating to Seller or any of Seller's Affiliates, including in any materials, documentation or other information regarding the Target Group made available to Buyer or any of its Authorized Representatives in connection with this Agreement or their investigation of the Target Group (including information memoranda, data room materials, projections, estimates, management presentations, budgets and financial data and reports), or any errors therein or omissions therefrom, other than the representations and warranties expressly set forth in Article III and Article IV and the rights of Buyer expressly set forth in this Agreement in respect of such representations and warranties.

(c) Seller has conducted its own independent investigation, review and analysis of, and reached its own independent conclusions regarding Buyer and its operations, assets, condition (financial or otherwise) and prospects. Seller has been represented by, and had the assistance of, counsel in the conduct of its due diligence, the preparation and negotiation of this Agreement and the other Transaction Documents, and the consummation of the transactions contemplated hereby and thereby. In entering into this Agreement, Seller acknowledges that it has relied solely upon its own investigation, review and analysis and has not relied on and hereby expressly waives any reliance upon any representation, warranty or other statement made by, on behalf of or relating to Buyer or Buyer's Affiliates, or any omissions therefrom, except for the representations and warranties expressly set forth in Article V (and, with respect to such representations and warranties, subject to any limitations included in this Agreement) and Buyer acknowledges that Seller is relying on such representations and warranties in determining to enter into this Agreement.

(d) Seller acknowledges and agrees that (i) the representations and warranties expressly set forth in Article V are and shall constitute the sole and exclusive representations and warranties made with respect to Buyer and its Subsidiaries in connection with this Agreement or the transactions contemplated hereby and other than the representations and warranties expressly set forth in Article V, none of Buyer, any of Buyer's Affiliates or any other Person has made or makes any

representation or warranty, written or oral, express or implied, at law or in equity, with respect to Buyer and its Subsidiaries, including any representation or warranty as to (A) merchantability or fitness for a particular use or purpose, (B) the operation or probable success or profitability of Buyer and its Subsidiaries following the Closing, including any synergies related to the acquisition of the Target Group or (C) the accuracy or completeness of any information regarding Buyer and its Subsidiaries made available to Seller and its Authorized Representatives in connection with this Agreement or their investigation of Buyer and its Subsidiaries (including any estimates, projections, business plans, budgets or other forward-looking information provided by Buyer, any of its Affiliates or any of their Authorized Representatives, which shall not be deemed to be or to include representations or warranties, except to the extent explicitly set forth in Article V), and (ii) Seller will have no right or remedy (and Buyer will have no Liability whatsoever) arising out of, and Seller expressly disclaims any reliance upon, any representation, warranty or other statement made by, on behalf of or relating to Buyer or any of Buyer's Affiliates, including in any materials, documentation or other information regarding the Buyer and its Subsidiaries made available to Seller or any of its Authorized Representatives in connection with this Agreement or their investigation of Buyer and its Subsidiaries (including information memoranda, data room materials, projections, estimates, management presentations, budgets and financial data and reports), or any errors therein or omissions therefrom, other than the representations and warranties expressly set forth in Article V and the rights of Seller expressly set forth in this Agreement in respect of such representations and warranties.

Section 11.14 Retention of Legal Counsel. Recognizing that Cleary Gottlieb Steen & Hamilton LLP and other external legal counsel (collectively, "Seller Counsel") has acted as legal counsel to Seller, the Target Group Companies or their respective Affiliates prior to the date hereof, and that Seller Counsel intends to act as legal counsel to Seller and its respective Affiliates (which will no longer include the Target Group Companies) after the Closing, Buyer hereby (a) waives (on its own behalf) and (b) agrees to cause its Affiliates (including, after the Closing, the Target Group Companies) to waive any conflicts arising under such representation that may prevent Seller Counsel from representing Seller or any of its respective Affiliates after the Closing as such representation may relate to Buyer and the Target Group Companies or the transactions contemplated by this Agreement and the other Transaction Documents. In addition, all communications involving attorney-client confidences between Seller, the Target Group Companies or their respective Affiliates, on the one hand, and Seller Counsel, on the other hand, in the course of the negotiation, documentation and consummation of the transactions contemplated hereby shall be deemed to be attorney-client confidences that belong solely to Seller and its Affiliates (and not the Target Group Companies). Accordingly, neither Buyer nor the Target Group Companies shall have access to any such communications or to the files of Seller Counsel relating to such engagement from and after the Closing. Without limiting the generality of the foregoing, from and after the Closing, (i) Seller and its Affiliates (and not the Target Group Companies) shall be the sole holders of the attorney-client privilege with respect to such engagement, and neither Buyer nor any Target Group Company shall be a holder thereof, (ii) to the extent that files of Seller Counsel in respect of such engagement constitute property of the client, only Seller and its respective Affiliates (and not the Target Group Companies) shall hold such property rights and (iii) Seller Counsel shall have no duty whatsoever to reveal or disclose any such attorney-client communications or files to Buyer or any of the Target Group Companies by reason of any attorney-client relationship between Seller Counsel and the Target Group Companies or otherwise.

Mine Safety Disclosures

The operation of our mines located in the United States is subject to regulation by MSHA under the FMSH Act. MSHA inspects these mines on a regular basis and issues various citations and orders when it believes a violation has occurred under the FMSH Act. We present information below regarding certain mining safety and health citations that MSHA has issued with respect to our mining operations. In evaluating this information, consideration should be given to factors such as: (i) the number of citations and orders will vary depending on the size of the mine; (ii) the number of citations issued will vary from inspector to inspector and mine to mine; and (iii) citations and orders can be contested and appealed and, in that process, are often reduced in severity and amount, and are sometimes dismissed.

Under the Dodd-Frank Act, each operator of a coal or other mine is required to include certain mine safety results within its periodic reports filed with the SEC. As required by the reporting requirements included in §1503(a) of the Dodd-Frank Act, we present the following items regarding certain mining safety and health matters, for the period presented, for each of our mine locations that are covered under the scope of the Dodd-Frank Act:

- (A) The total number of violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a coal or other mine safety or health hazard under section 104 of the FMSH Act (30 U.S.C. 814) for which the operator received a citation from MSHA;
- (B) The total number of orders issued under section 104(b) of the FMSH Act (30 U.S.C. 814(b));
- (C) The total number of citations and orders for unwarrantable failure of the mine operator to comply with mandatory health or safety standards under section 104(d) of the FMSH Act (30 U.S.C. 814(d));
- (D) The total number of imminent danger orders issued under section 107(a) of the FMSH Act (30 U.S.C. 817(a));
- (E) The total dollar value of proposed assessments from MSHA under the FMSH Act (30 U.S.C. 801 *et seq.*);
- (F) Legal actions pending before the Federal Mine Safety and Health Review Commission involving such coal or other mine as of the last day of the period;
- (G) Legal actions instituted before the Federal Mine Safety and Health Review Commission involving such coal or other mine during the period; and
- (H) Legal actions resolved before the Federal Mine Safety and Health Review Commission involving such coal or other mine during the period.

During the three months ended September 30, 2020, our U.S. mine locations did not receive any flagrant violations under section 110(b)(2) of the FMSH Act (30 U.S.C. 820(b)(2)), or any written notices of a pattern of violations, or the potential to have such a pattern of violations, under section 104(e) of the FMSH Act (30 U.S.C. 814(e)). In addition, there were no mining-related fatalities at any of our U.S. mine locations during this same period.

Following is a summary of the information listed above for the three months ended September 30, 2020:
