

POINT 1 To Do Wireless LAN (Wi-Fi®) Connections via Manual Settings

For Computers with Built-In Wireless LAN

Refer to "For Other Wireless LAN (Wi-Fi®) Devices" for OS (Mac).

* For made computers are not supported.

* For Windows 8.1, select (Desktop) in the Start screen to start.

1 Enable the wireless function on the computer.

* Refer to the user manual, etc., for your PC for how to connect.

2 Open the list of networks screen from the network icon in the task tray.

3 Click the network (SSID) of the product in the list of networks, and then click (接続 (Connect)).

* The factory set Network Name (SSID) of the product is on the label on the bottom of the product.

* The factory set Network Name (SSID) of the product is on the label on the bottom of the product.

Enter the 暗号化キー "encryption key" (security key, pass phrase, network key, password) for the product, and then click (次 (Next)) or (完了 (Finish)).

* If you used the Wi-Fi Settings Moving function, select the network name of the router you have been using until now, and then enter the 暗号化キー "encryption key".

The Wi-Fi connection settings are complete.

For Other Wireless LAN (Wi-Fi®) Devices

Refer to the user manual, etc., for your wireless LAN (Wi-Fi®) device for how to connect to Wi-Fi. When you do this, refer to the following to select the Network Name (SSID) of the product, and enter the encryption key.

■ Network Name (SSID)

Select the Network Name (SSID) of the product from the wireless LAN (Wi-Fi®) device you are using.

* The factory set Network Name (SSID) of the product is on the label on the bottom of the product.

* The product has a Primary SSID and a Secondary SSID (Multiple SSID function).

SSID (24GHz) WMM,N31,*****
SSID (5GHz) WMM,N31,*****
暗号化キー *****
Web PW *****

■ Encryption key

(Security key, pass phrase, network key, password)

Enter the encryption key that is displayed on the selected Network Name (SSID). The factory set value is 13 characters using single-byte alphabets (0-9, a-f).

* The factory set 暗号化キー "encryption key" of the product is on the label on the bottom of the product. (Check the Secondary SSID on Quick Setting Web.)

* All of the letters used in the factory set 暗号化キー "encryption key" are lowercase (a-z). The letters "G", "I", "Y" (uppercase I, "Y" (lowercase L), "O", and "o" are not used).

■ Precautions common to the main unit, AC adapter, au IC card, Ethernet cable (commercially available), and peripheral devices

Do not use, store, or leave the product in locations subject to high temperatures or accumulation of heat (e.g. by the fire, near a heater, under a heated blanket or bedding, in direct sunlight, or in a car in the hot sun).

Do not use the product in or near microwave ovens, cooking appliances, such as IH cooking heaters, or high pressure containers, such as pressure cookers.

Do not use the product if it is wet with any liquids, such as water (drinking water, sweat, seawater, urine of pet animals, etc.).

Do not splash sand, soil or mud on the product, or do not directly place the product on them. Also, do not touch the product with hands with soil etc. adhered.

Do not use the product if it is wet with any liquids, such as water (drinking water, sweat, seawater, urine of pet animals, etc.).

Do not use the product in locations exposed to water, such as a bathroom.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Do not do not subject the product to strong force, impacts, or vibration, such as letting it fall, stepping on it, or throwing it.

Safety Precautions (Observe Strictly)

■ Before using this product, thoroughly read these safety precautions for proper use.

■ The safety precautions shown here contain information to prevent damage to property and/or injury to the user or other people and must be observed.

■ The symbols in the following categories indicate the level of damage or injury that may occur due to incorrect usage or if the information provided is not observed.

⚠ DANGER This symbol indicates the potential and imminent danger of death or serious injury ⁽¹⁾ to a person from improper use.

⚠ WARNING This symbol indicates the possibility of death or serious injury ⁽²⁾ to a person from improper use.

⚠ CAUTION This symbol indicates the possibility of minor injury ⁽³⁾ to a person or physical damage ⁽³⁾ to a person from improper use.

¹ Serious injury: This refers to loss of sight, injury, burns (high- and low-temperature), electric shock, broken bones, injuries with residual aftereffects from poisoning, etc., and injuries requiring hospital admission for treatment or long-term hospital attendance as an outpatient.

² Minor injury: This refers to injuries, burns (high- and low-temperature), electric shock, etc. that do not require hospital admission for treatment or long-term hospital attendance as an outpatient.

³ Physical damage: This refers to extended damage to buildings, furniture, livestock, or pets, etc.

Do not short-circuit the DC plug while it is connected to a power outlet, also do not short-circuit the connection terminal while it is connected to the product or a computer. Also, do not allow the DC plug or connection terminal to touch your hands, fingers, or any part of your body.

Do not place heavy objects on the cable of the AC adapter or cables, and do not apply excessive force to the cables, such as by pulling them. Doing so might cause fire, burns, or electric shock.

When you insert or remove the power plug to or from a power outlet, or when you insert or remove the cables to or from the product or a computer, do not contact any type of metal, such as metal accessories.

Do not use an overvoltage travel voltage converter (travel converter) with the AC adapter.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not apply excessive force to connectors when the product is connected to the AC adapter or when the product is connected by cable to a computer.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch the cord of the AC adapter, DC plug, power plug, cables, or terminals with wet hands.

Do not touch
