What should I do if the device does not connect to the Wi-Fi network?

- For a Bluetooth device, ensure the device is powered on and mobile Bluetooth is activated.
- Hold the smartphone close to the device, and ensure surrounding networks are not transmitting any strong interference.
- In the event of an incorrect Wi-Fi password, reset Wi-Fi on the device and enter the correct password.

How should I reset Wi-Fi on the device?

Press and hold the "Mode" and "Timer" buttons on the screen for 5 seconds. The Wi-Fi icon will blink, indicating the Wi-Fi has been reset successfully.

If the device still won't connect after you reset the Wi-Fi and enter the correct password, ensure Wi-Fi on both your smartphone and the app has been turned.
