

Keep People Informed with Viking's Automated Voice Message Delivery System

Model K-6000-DVA can automatically notify up to 1000 people of an event or an event cancellation, school or business closing or delayed opening. The K-6000-DVA is designed to connect to a standard analog CO line, PABX station or VoIP ATA or FXS port. To activate the unit, an authorized official calls the K-6000-DVA, dials a 6 digit access code, selects a pre-recorded message or records a live message up to 1 minute, then activates the unit via a touch tone command to automatically call all the phone numbers in a pre-programmed group.

"Hudson Schools will be closed today due to incimate weather. After school activites are cancelled..."
