Chapter 2: General Operation

Chapter 3: Advanced Functions

Chapter 4: Other Information

ATTENTION:
This product is qualified for the BEE Star rating in the 'Home / Standard' Mode. The Objectives of Star Labeling Program is designed to promote energy efficient products and practices.
When the television is initially set up,it is designed to meet the BEE Star Labeling requirements while maintaining optimum picture quality.
- Changes to certain functionalities of this television (TV Guide, Picture/sound etc) may change the power consumption.
- Depending upon such changed setting (eg., Retail mode),the power consumption may vary which possibly could exceed the stated energy consumption.
To reset the television to Star rating qualified settings, select 'Home' mode from the initial set-up procedure in 'factory settings' under the 'Set-up' menu.

Safety Precautions

Safety Precautions

## Warning

Handling the mains plug and lead

Insert the mains plug fully into the socket outlet. (If the mains plug is loose, it could generate heat and cause fire.)
Ensure that the mains plug is easily accessible.
Do not touch the mains plug with a wet hand. (This may cause electrical shock.)
Do not use any mains lead other than that provided with this TV. (This may cause fire or electrical shock.)
Do not damage the mains lead. (A damaged lead may cause fire or electrical shock.)
• Do not move the TV with the lead plugged in the socket outlet.
• Do not place a heavy object on the lead or place the lead near a high-temperature object.
• Do not twist the lead, bend it excessively or stretch it.
• Do not pull on the lead. Hold onto the mains plug body when disconnecting the lead.
• Do not use a damaged mains plug or socket outlet.

If you find any abnormality, remove the mains plug immediately!

110 – 240 V ~
50/60 Hz

• Mains plug types vary between countries.

Power source

• This TV is designed to operate on:
  • 110 – 240 V ~ 50/60 Hz
  • Table-top use / Wall Hanging

Do not use External Voltage Stabilizer with the TV Set

• Inferior Quality stabilizer may cause damage to the TV.
• Warranty is not valid if external stabilizer is used

Do not remove covers and NEVER modify the TV yourself

• Do not remove the rear cover as live parts are accessible when it is removed. There are no user serviceable parts inside. (High-voltage components may cause serious electrical shock.)
• Have the TV checked, adjusted, or repaired at your local Sanyo service center.

Do not expose to direct sunlight and other sources of heat

• Avoid exposing the TV to direct sunlight and other sources of heat.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

Do not expose to rain or excessive moisture

• To prevent damage which might result in electric shock or fire, do not expose this TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

Do not insert foreign objects into the TV

• Do not allow any objects to drop into the TV through the air vents. (Fire or electrical shock may result.)

Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base

• The TV may fall off or tip over.

Use only the dedicated pedestals / mounting equipment

• Using an unapproved pedestal or other fixtures may make the TV unstable, risking injury. Be sure to ask Sanyo service center to perform setup
• When mounting the product on a wall or ceiling, be sure to install the product according to the method recommended by the manufacturer. This is a safety feature.

Use Environment

• Do not place the set on an unstable cart, stand, or table.

• Place the set on a place that allows good ventilation.

• Do not use the set near damp, and cold areas. Protect the set from overheating.

• Keep the set away from direct sunlight.

• Apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

• Do not use the set near dust place.

Cleaning

• Clean the set by wiping the screen and the cabinet with a soft, clean cloth or some special liquid cleaner.

• Do not apply excessive force to the screen when cleaning.

• Do not use water or other chemical cleaner to clean the screen as this may damage the surface of the TV screen.

Hanging the TV Set on the Wall

Warning: This operation requires two people.

To ensure a safe installation, observe the following safety notes:

• Check that the wall can support the weight of the TV set and wall mount assembly.

• Follow the mounting instructions provided with the wall mount.

• The TV set must be installed on a vertical wall.

• Make sure to use only screws suitable for the material of the wall.

• Make sure that the TV set cables are placed so that there is no danger of tripping over them.

All other safety instructions about our TV sets are also applicable here.

Note:
Graphics contained within this operating instructions are for presentation only.

WARNING:
The batteries shall not be exposed to excessive heat such as sunshine, fire or the like.

Base Installation

To fix the double support base on the unit by screws, the installation is completed.

1 Connect the pedestal to the TV set

Put the two pedestals on the designated positions of the TV set carefully.
Lay your TV flat (screen down) on the edge of a table or bench. Make sure that you put down a soft cushion or cloth so that your TV is not scratched.

2 Fasten and tighten the screws

Carefully put in screws and fasten them securely.

Standard accessories

| Remote Control	AV Cable	Pedestal	Screws	Battery	Operating Instructions
				(AA size, 2 pcs)	
			4 screws ST M4 x 12		

● Accessories may not be placed all together. Take care not to throw them away unintentionally.

● This product contains possibly dangerous parts (such as plastic bags), that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

Optional accessories

Please contact Sanyo service center to purchase the recommended optional accessories. For additional details, please read the manual of the optional accessories.

Warning

● Failure to use a Sanyo bracket or choosing to mount the unit yourself will be done at the risk of the consumer. Always be sure to ask a qualified technician to carry out set up. Incorrect fitting may cause equipment to fall, resulting in injury and product damage. Any damage resulting from not having a professional installer mount your unit will void your warranty.

● When any optional accessories or wall hanging brackets are used, always ensure that the instructions provided are followed fully.

● Do not mount the unit directly below ceiling lights (such as spotlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.

● Take care when fixing wall brackets to the wall. Wall mounted equipment shall not be grounded by metal within the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.

● To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use.

ANTENNA cable

AC cord

■ **Power Connection**

Connect the TV's power cable to a power outlet.
110 – 240 V ~
50/60 Hz

(Note)

- Do not place the RF cable under the TV.
- To obtain optimum quality picture and sound, an aerial, the correct cable(75Ω coaxial), and the correct terminating plug are required.
- If a communal aerial system is used, you may require the correct connection cable and plug between the wall aerial socket and the TV.
- Your Sanyo Service Centre or dealer may be able to assist you in obtaining the correct aerial system for your particular area and the accessories required.
- Any matters regarding aerial installation, upgrading of existing systems or accessories required, and the costs incurred, are the responsibility of you, the Customer.

Introduction

External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment.

- Check the type of terminals and cable plugs are correct when connecting.
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor.
  Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.

VCR

Note: If your device has an HDMI connection, we recommend you use that to get the best quality possible.

- If the external device has a DVI output only, use a DVI to HDMI adapter cable to connect to the HDMI terminal.
  Connect the audio cable to the PC AUDIO IN jack on the TV.

Note: For the audio receiver control Sound Out, firstly you must have a device which supports HDMI Sound Out, then connect it to the HDMI1 port. When the "Sound Out Setting" is enabled on your TV, the TV set's speakers will mute automatically and the audio will be outputted on your sound device system.

Remote Control Functions

Most of your television's functions are available via the menu that appear on the screen. The remote control supplied with your set can be used to navigate through the menu and to configure all general settings.

POWER ⏻	(On/Off button) Turns the TV on or off.
INPUT	when short press open the **Input** ▲/▼ to select the desired source, then press **Input** button to exit.
USB	Goes to the USB menu.
MUTE	(**MUTE**) Reduces the TV's volume to its minimum level. Press again to restore the volume.
PICTURE	Toggles through the picture preset settings: Vivid,Sports, Standard Cinema,Soft,User.
SOUND	Toggles through the sound modes: Music, Cinema,Standard, Speech and User.
AUDIO ONLY	Press to select Audio only mode ON or OFF.
SLEEP	Sets the TV to turn off after a given amount of time.
MENU	Brings up the menu system.
RETURN	Exit the menu and return to the previous menu.
▲▼◄►	(up, down, left and right direction buttons) Highlights different items in the menu system and adjusts the menu controls.
OK	Confirms your selection.
INFO	Displays the status information.
EXIT	Exits the menu system.
⏮	This key will function as previous song, video, picture in USB.
⏯	This key will function as play & pause in USB mode.
⏹	This key will function as stop in USB mode.
⏭	This key will function as next song, video, picture in USB.
VOL +/-	Increases or decreases the TV's volume.
CH ∧/∨	Scans up or down through the current channel list.
◄◄	This key will function as backward play in USB.
►►	This key will function as forward play in USB.
0-9	(numeric buttons) Enters channel numbers.
FREEZE	This key will function to freeze the Picture except on USB Mode.
ASPECT	Aspect Ratio : Selects the picture size 4:3, 16:9, Zoom1, Zoom2, Full and Just Scan. Note:Some options may not be selectable for certain signal sources.

Buttons on the TV

Take a certain model for an example:

1. POWER

Standby or switch on the TV.

2. SOURCE

Press it to display input source list. Press it continuously to select preferred source and confirm by (VOL+) button. It can be used to confirm submenu in MENU operation.

3. MENU

Display or exit MENU.

4. VOL-/+

To be used to adjust volume.

5. CH-/+

To be used to change channels.

Note:-
The location and names of the function buttons and power button on the TV may vary according to TV mode.
Switching on

Follow the instructions on this page on how to switch on your TV set and the remote control before going on to following pages describing how to use the channel set-up procedure.

1. Insert two AA batteries in the remote control.

   Precautions on using batteries:
   - Only use the battery types specified.
   - Make sure you use the correct polarity.
   - Do not mix new and used batteries.
   - Do not use rechargeable batteries.
   - Do not expose batteries to excessive heat such as sunshine, fire or the like, throw them in a fire, recharge them or try to open them, as this could cause them to leak or explode.
   - Remove the batteries from the remote control if you are not using it for a long period of time.

2. Connect the power cable **FIRST** to the television, **THEN** to a mains socket. (Note: If the power cable is connected to the television, please only connect the power cable to the mains socket.)

   Your TV set should only be connected to an AC supply. It must not be connected to a DC supply. If the plug is detached from the cable, do not, under any circumstances, connect it to a mains socket, as there is a risk of electric shock.

   Note: The figures are for representation only. The location of the power socket at the back of the television might differ depending on the model.

3. Connect an outside aerial to the **ANTENNA IN** socket at the back of the TV set.

   The aerial socket (75 OHM - VHF / UHF / cable) can be used for connecting an external aerial or other equipment fitted.

4. When powered on, the TV will be turned on directly or be in standby. Note: For some models, switch the TV on by pressing the power button.

   If the power indicator lights up red, the TV set is in standby mode. Press the ⏻ button on the remote control or on the TV set to turn on the TV.

Switching off
● To put the TV set into standby mode, press the ⏻ button on the remote control or on the TV, the TV set remains powered up, but with low energy consumption.

● To switch off the TV set, unplug the mains socket from the mains outlet. Note: For some models, press the power button to switch off the TV set .

Menu Function

The following instructions will introduce how to access and operate the main menu of the TV. Please note that some function might be unavailable in certain input source.

Notes:

1.Some non-standard mobile storage device may not be recognized. Please change to use the standard device.
2.This system supports the following file formats:
Picture format: JPEG、BMP、PNG

Meida	File Text	Codec	
		Video	Audio
Movie	.avi	MJPEG, Xvid, MPEG-2, MPEG-4, H.264	MP3, AAC, MP2, PCM
	.mp4	MPEG-2, MPEG-4, H.264	
	.ts / .trp	MPEG-2, H.264	
	.mkv / .mov	MPEG-4, H.264	
	.mpg	MPEG-1, MPEG-2	
	.dat	MPEG-1	MP2
	.vob	MPEG-2	
Music	.mp3	/	MP3
	.m4a	/	AAC

Note: For coding files, there are many kinds of nonstandard coding method, so this system can not be guaranteed to support the file formats using any coding method.

Notes:

1. Under the following conditions, this system cannot decode the file and the file cannot be play normally:
-The parameters of file, such as the pixel of picture, code rate of audio and video file, sampling rate of audio file, exceed the limit of the system;
-The format of file is not matched or the file is harmed.
Note: The code rate of this system does not support exceed 20Mbps.

2. Hot plug: Do not disconnect when the system is reading or transmitting data, avoid damaging the system or the device.

3. Pay attention to the power supply of the device when you are using a mobile hard disk or a digital camera. If the power supply is not sufficient or not stable, you may encounter problems during operating or can not operate at all. In this case, please restart the device, or unplug the device and plug it again, and ensure that its power supply is normal.

4. The system supports standard USB1.1 and USB2.0 devices, such as standard U-disks, MP3 players, mobile hard disks, etc..

5. For obtaining better audio and video quality, It is suggested to use the external device which accords with USB2.0 standard.
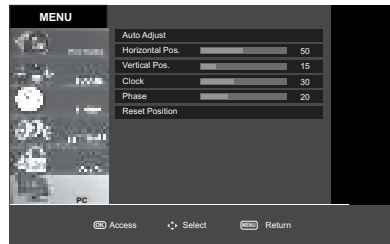

6. When playing the video with high compression ratio, these phenomenon, such as picture standstill and menu long time response, are normal.

7. For some USB device with power supply, such as large size hard disk, MP4, etc., Suggests using it with power to avoid electric power shortage. The parameters of file, such as the pixel of picture, code rate of audio and video file, sampling rate of audio file, exceed the limit of the system.

PC Settings

Display the menu by pressing the MENU button. Press the up or down direction button to select the **PC** icon and press the OK button to enter the PC menu.
Note: This function is only available in PC mode.

Auto Adjust: Press the right direction or OK button to adjust the picture's position, phase and clock automatically. The menu will auto exit when finishing the adjusting. Note: This function is only available in PC mode.

H Position (Horizontal Pos.): Adjusts the picture's position left or right.

V Position (Vertical Pos.): Adjusts the picture's position upward or downward.

Clock: Adjusts the clock sync of the picture.

Phase: Adjusts the picture if there is flicker of screen letters, color misalignment, or blurring.

Reset Position
Press the OK button to restore the default position.

Press Return key to return to menu & Exit key to close the menu.

Troubleshooting

Most problems you encounter with your TV can be corrected by consulting the following troubleshooting list.

No picture, no sound

1. Check if the fuse or circuit breaker is working.
2. Plug another electrical device into the outlet to make sure it is working or turned on.
3. Power plug is in a bad contact with the outlet.
4. Check the signal source.

No color

1. Change the color system.
2. Adjust the saturation.
3. Try another channel. Black-white program may be received.

Remote control does not work

1. Change the batteries.
2. Batteries are not installed correctly.
3. Main power is not connected.

No picture, normal sound

1. Adjust the brightness and contrast.
2. Broadcasting failure may happen.

Normal picture, no sound

1. Press the **Vol+** button to increase volume.
2. Volume is set to mute, press the mute button to restore sound.
3. Change the sound system.
4. Broadcasting failure may happen.

Unorderly ripples on the picture

It is usually caused by local interference, such as cars, daylight lamps and hair driers. Adjust the antenna to minimize the interference.

Blank screen when connected computer system

Perhaps the TV can not recognize the resolution set by the PC. Suggest to change to the best resolution or other standard resolutions of the Windows system.

Snowy dots and interference

If the antenna is located in the fringe area of a television signal where the signal is weak, the picture may be marred by dots. When the signal is extremely weak, it may be necessary to install a special antenna to improve the reception.

1. Adjust the position and orientation of the indoor/outdoor antenna.
2. Check the connection of antenna.
3. Fine tune the channel.
4. Try another channel. Broadcasting failure may happen.

Ignition

Black spots or horizontal streaks appear, or the picture flutters or drifts. This is usually caused by interference from car ignition system, neon lamps, electric drills, or other electrical appliance.

Radio frequency interference

This interference produces moving ripples or diagonal streaks, and in some case, loss of contrast in the picture. Find out and remove the radio interference source.

Declaration of Conformity with the requirements of the E - Waste (Management) Rules-2016

The Product is in conformity with the requirements of the reduction of hazardous substances of the E-Waste Rules-2016

The content of hazardous substance with the exemption of the applications listed in SCHEDULE II of the E-Waste Rules-2016

1. Lead (Pb) – not over 0.1% by weight;
2. Cadmium (Cd) – not over 0.01% by weight;
3. Mercury (Hg) – not over 0.1% by weight;
4. Hexavalent chromium (Cr^{6+}) – not over 0.1% by weight;
5. Polybrominated biphenyls (PBBs) – not over 0.1% by weight;
6. Polybrominated diphenyls ethers (PBDEs) – not over 0.1% by weight;

Specifications

Model No.	XT-32S7201H		
Power Source	110 – 240 V ~ 50/60 Hz		
Power Consumption — Power Rating	60 W		
Power Consumption — Standby condition	< 0.5 W		
Display panel — Visible screen size	80 cm		
Display panel — Number of pixels	1,049,088 (1,366(W) x 768 (H))		
Dimensions (L x B x H)	73.5 cm x 19.0 cm x 47.3 cm (With Pedestal) 73.5 cm x 8.5 cm x 44.0 cm (TV only)		
Net weight	4.70 kg Net (With Pedestal) 4.64 kg Net (TV only)		
Gross Weight	6.8 kg		
Sound — Speaker	8 Ω		
Sound — Audio output	16 W (8 W + 8 W)		
TV System	PAL/SECAM/NTSC, BG/DK/I/L/MN		
Connection terminals — AV 1 IN	AUDIO L - R RCA PIN Type x 2		
	VIDEO RCA PIN Type x 1		
Connection terminals — AV 2 IN	AV 2 IN connector x 1 (Mini Jack x 1)		
Connection terminals — HDMI input	HDMI connector x 2		
Connection terminals — PC	PC(15 pins) x 1		
Connection terminals — PC AUDIO IN	PC AUDIO IN connector x 1		
Connection terminals — USB	USB 2.0 TYPE A Connectors x 2 DC 5 V, MAX. 500 mA		
Connection terminals — ANTENNA	Aerial connector x 1		
Connection terminals — AV OUT	AV OUT x 1		
Connection terminals — HEADPHONE	3.5 mm Jack x 1
