

TOP NEW HOME FLOOR PLANS OF 2021

Your guide to the latest new home trends by Holt Homes

Rooted in Quality

Holt Homes' Building Practices

Standard building practices simply won't do.

We commit to building with attention, care and quality PNW materials—and to making sure every one of our buyers gets a superior built home.

As you tour this home, ask our agent about some of the features below.

OPTIMIZED FRAMING PACKAGE

Manufactured precut framing is the most efficient use of materials and provides consistent and durable assembly onsite.

POSTS & BEAM MAIN FLOOR SYSTEM / I JOIST ON 2ND & 3RD FLOORS (IF APPLICABLE)

Durable main floor system and engineered I-joist floors systems that minimize floor movement that will reduce floor squeaks – even in the craziest households.

HOUSE TIGHTENING MEASURES USING TYVEK® WHOLE HOUSE DRAIN WRAP SYSTEM

Optimizes your home's energy performance by reducing air infiltration through the thermal shell and sealing all exterior wall penetrations. System comes with a 10-year manufacturer protection warranty on water intrusion.

HARD SURFACE FLOORING

Say goodbye to dust mites, mold, household dust and debris, or harmful chemicals that can off-gas into the home over time. Hard flooring provides a surface that is more durable and easier to clean than carpet.

WATER EFFICIENT KITCHEN & BATHROOM FAUCETS

Faucets use aerators to mix air with the flowing water without impacting pressure – saving up to 500 gallons of water per year, and reducing your water bills.

JAMES HARDIE® FIBER CEMENT SIDING & TRIM

This material is extremely durable (40+ years), making it an efficient alternative to traditional wood siding.

WINDOW AND DOOR FLASHINGS SYSTEM

It rains in the PNW! This system provides extra protection against outside water penetration – especially in the vulnerable areas around doors and windows.

LOCAL MATERIALS

As a local company, we go the extra mile to support area manufacturers, tradesmen and to use materials that reflect our regional architecture and design. In fact, the overwhelming majority of the raw materials used to build Holt Homes originate within 500 miles of the building site.

At Holt Homes, we develop new communities, and we build individual homes. That means we take great pride in caring for the land as well as for the house on it.

We are equally and deeply connected to both.

That connection to community – that sense of place and of people – **influences everything we do.**

When you buy from Holt, you're engaging a partner who's fully rooted in providing unmatched service. Rooted in commitment to top quality. Rooted in blending beauty and functionality. **And rooted right here in the Pacific Northwest.**

Rooted Here.
