

SX-8300

TOWER SPEAKER

The 3-way SX-8300 flagship tower speaker features RBH's award-winning aluminum cone technology, and easily outperforms tower speakers costing much more. The SX-8300 lets its listeners experience their favorite movies and music in a way never thought possible, until now. Remarkable full-range performance is provided by the three 8-inch subwoofers, dual 6½-inch mid-range woofers and a 1-inch silk dome tweeter. Dual rear-firing flared ports help the SX-8300 achieve its full-range response, and dual 5-way binding posts allow for increased performance through bi-amplification with a subwoofer amplifier such as the SA-400.
