NOTICE OF CHANGE TO TEXT AS ORIGINALLY PROPOSED

You are receiving this notice because you provided comments or expressed an interest in receiving notice of changes to the California Department of Corrections and Rehabilitation (CDCR) amendments to the California Code of Regulations concerning Authorized Personal Property.

Notice of Change to Regulations 20-14 was noticed to the public on August 28, 2020. The full text of the originally proposed amendments and the Authorized Personal Property Schedule (APPS) that is incorporated by reference is shown in original single underline and ~~striethrough~~ format. The changes provided in this Notice of Change to Text and APPS as Originally Proposed are indicated by **bold double underline** for additional added text, and ~~**bold double striethrough**~~ for additional deleted text to the originally proposed text.

REVISIONS TO REGULATION TEXT:

Section 3006(c)(20) is amended to change the text “and/or” to only use the word “and” to align with department policy.

Section 3044(c)(3) is amended:

- For document consistency, the term “network accessible tablet” is amended to read “network capable tablet.”
- The language stating that the Senior Hearing Officer shall contact the tablet vendor to temporarily suspend or restrict discretionary features is removed, and the sentence is rearranged. This is necessary as the Senior Hearing Officer is able to perform this function themselves without having to contact the vendor to make these changes.
- To align with department policy, “and/or” is changed to only use the word “and.”

Section 3044(d)(2)(E) is amended to replace the text “will be” with “are” in reference to an inmate’s Kiosk access. The section now reads:

Kiosk access during the inmate’s non-work or non-training hours are limited only by institution or vendor capabilities.

Section 3133 is removed from the proposed text of regulations as tablets will be authorized at all institutions. It is no longer necessary to add new subsection 3133(h) concerning forwarding electronic communication, and existing 3133(h) does not need to be renumbered to 3133(i).

Section 3190(b) is amended to update “Wardens Advisory Group/Religious Review Committee” to it’s current name, “Statewide Religious Review Committee.”

Sections 3190(b)(1)-(5) are amended to add a placeholder for the new revision date of the APPS. The revision date will reflect the date this regulatory action is approved by the Office of Administrative Law and filed with the Secretary of State.

Section 3190(k)(8) is amended to remove unnecessary words related to specific institutions because the tablet and kiosk program is now at all institutions. The term "Authorized Personal Property Schedule" is amended to make a minor, typographical correction.

REVISIONS TO APPS:

1. For additional clarity, the placeholder for the new revision date "XX/XX/21" is used.
2. For additional clarity, the Table of Contents throughout the APPS are updated for accuracy.
3. In the Exemptions section:
 - Text related to Network Capable Tablets at specific institutions is removed and is now more appropriately reflected in the Registerable Property of the APPS matrixes by security level and privilege group.
 - Concerning the institution, Avenal State Prison, the text "Administrative Segregation Units" and "Entertainment appliances are not permitted in units with physical plant limitations" is removed. These changes are necessary because Avenal State Prison no longer has an Administrative Segregation Unit.
 - The institution reference, "CALIFORNIA OUT-OF-STATE-FACILITIES (COCF)," and the text "Administrative Segregation Units" and "Entertainment appliances are not permitted in units with physical plant limitations" are deleted. These changes are necessary as California Out-of-State-Facilities are closed and no longer operating. The institution reference, "COMMUNITY CORRECTIONAL FACILITIES (FEMALE)," and the text "All AC appliances, hot pots and warmers, and extension cords, are not permitted" are deleted. These changes are necessary as the Community Correctional Facilities (Female) are closed and no longer operating.
 - The institution reference, "COMMUNITY CORRECTIONAL FACILITIES (CCF) – MALE INMATES" and the text "AC appliances are not permitted. Battery operated televisions are not permitted" is removed. These changes are necessary as the Community Correctional Facilities (Male Inmates) are closed and no longer operating.
 - The institution reference, "DEUEL VOCATIONAL INSTITUTION," and the text "Administrative Segregation Units" and "Entertainment appliances are not permitted in units with physical plant limitations" is removed. These changes are necessary as Deuel Vocational Institution is scheduled to close in September 2021.
4. Levels I and II male inmates and male inmates assigned to Conservation Camps are authorized to use network capable tablets as the tablet and kiosk program is now at all institutions.
 - The following bullet is added to the registerable property matrix:
INMATES ARE PERMITTED ONE NETWORK CAPABLE OR ONE NON-NETWORK CAPABLE TABLET.
 - The following text is added as authorized registerable property for Levels I and II male inmates and male inmates assigned to Conservation Camps:

TABLETS - NETWORK CAPABLE (Levels I and II male inmates and inmates assigned to Conservation Camps only.) Must have the capability to store and download content such as music and books based on the device capabilities. Must have clear-case technology, internal rechargeable battery, and a headphone jack. The tablet must not have audio/video recording or picture taking capability. Must have tamper-resistant security screws or similar security measures to prevent access to internal components. Screen size cannot exceed ten inches.

- For consistency with this item, the quantity of one is authorized for this item.
- For additional clarity and document consistency, the required capabilities and the authorized screen size of the network capable tablets are established.

The purpose of the established limitations was provided on pages 21-22 of the Addendum to the Finding of Emergency – Proposed Changes to the Authorized Personal Property Schedule of this regulatory action. The Addendum to the Finding of Emergency– Proposed Changes to the Authorized Personal Property Schedule was published on August 28, 2020, and is available on the Department’s public website, www.cdcr.ca.gov.

The Addendum to the Finding of Emergency – Proposed Changes to the Authorized Personal Property Schedule provides the following purpose statements for the established limitations for this item:

Must be approved by the Secretary: As provided (or stated) in subsection 3006(a), wireless communication devices are prohibited as contraband due to security concerns; therefore, in order to ensure institution heads do not arbitrarily allow variations of wireless communication devices at their institutions, and to ensure the entire Directorate is aware of any proposed wireless communication devices, it was decided the approval should come from one source, the Secretary. This will also ensure any wireless communication devices proposed in the future are reviewed and scrutinized by the Directorate and all necessary stakeholders prior to the Secretary’s approval.

Capability to download and store content such as music and books. Tablets must be able to store the purchased content.

Must have clear-case technology: This restriction is consistent throughout the APPS. Clear-case appliances are necessary for safety and security of the institution/facility, and in order to curtail the introduction or concealment of contraband. Clear case technology allows staff to visibly search appliances without having to open and inspect the appliances, thereby reducing the department’s liability and the possibility of damage to the appliance during the search process.

Must have tamper-resistant security screws or something similar to prevent access to internal components: This restriction is necessary to enable staff to prevent tampering with the appliances or the concealment of contraband within the appliance.

Screen shall not exceed ten inches: Limiting the screen size is necessary to maintain the personal property limits of six cubic feet set forth by Title 15.

Additionally, this screen size limit provides for standardization of products that are readily available to inmates.

Must have internal rechargeable battery: This restriction is necessary for safety and security of staff and inmates by limiting potential weapon stock.

Must not have external speakers and must have a headphone jack: This restriction is consistent throughout the APPS for appliances that have sound capability. These requirements are necessary as a safety and security measure as the sounds from an entertainment device can mask the assault on an inmate or staff member, the manufacturing of a weapon, or to intentionally create a distraction of staff while misconduct is occurring.

Must not have cameras, microphones, or audio/video recording or picture taking capability: This is necessary because on June 26, 2018, California Correctional Peace Officers Association and the Department stipulated to these restrictions.

These restrictions are necessary for safety and security of the institution, as taking recordings inside the institution could compromise the security of the institution. Institutions maintain sensitive information such as institution blueprints and security procedures to preserve the safety and security of the public, and recordings may compromise safety and security. For the safety of institution staff, inmates may not have the capability to take pictures or video recordings of institution staff or institution riots.

5. Administrative Segregation Units (ASU) / Segregated Housing Units (SHU) / Psychiatric Housing Units (PSU) male inmates are authorized to use network capable tablets as the tablet and kiosk program is now at all institutions.

- The following bullet is added to the registerable property matrix:
INMATES ARE PERMITTED ONE NETWORK CAPABLE TABLET.
- The following text is added in the table for authorized registerable property:
TABLETS - NETWORK CAPABLE
Must have the capability to store and download content such as music and books based on the device capabilities. Must have clear-case technology, internal rechargeable battery, and headphone jack. The tablet must not have audio/video recording or picture taking capability. Must have tamper-resistant security screws or similar security measures to prevent access to internal components. Screen size cannot exceed ten inches.
- For consistency concerning this item, a quantity of one is authorized for this item.
- For additional clarity and document consistency, the required capabilities and the authorized screen size of the network capable tablets are established.

The purpose for the established item limitations is provided above as stated in the Addendum to the Finding of Emergency-Proposed Changes to the Authorized Personal Property Schedule.

6. Privilege Groups A and B female inmates are authorized to use a network capable tablet or a non-network capable tablet. Privilege Groups C and D female inmates are authorized to use network capable tablets. These changes are necessary as the tablet and kiosk program is now at all institutions.

- The two following bullets are added to the registerable property matrix:

PRIVILEGE GROUPS A AND B ARE PERMITTED ONE NETWORK CAPABLE OR ONE NON-NETWORK CAPABLE TABLET.

PRIVILEGE GROUPS C AND D ARE PERMITTED ONE NETWORK CAPABLE TABLET.

- The following text is added in the table for registerable property for Privilege Groups A, B, C, and D female inmates:

TABLETS - NETWORK CAPABLE

Must have the capability to store and download content such as music and books based on the device capabilities. Must have clear-case technology, internal rechargeable battery, and a headphone jack. The tablet must not have audio/video recording or picture taking capability. Must have tamper-resistant security screws or similar security measures to prevent access to internal components. Screen size cannot exceed ten inches.

- For consistency concerning this item, the quantity of one is authorized for this item.
- For additional clarity and document consistency, the required capabilities and the authorized screen size of the network capable tablets are established.

The purpose for the established item limitations is provided above as stated in the Addendum to the Finding of Emergency-Proposed Changes to the Authorized Personal Property Schedule.

The comment period on these changes shall close on, October 15, 2021. Please submit comments to Regulation and Policy Management Branch, Department of Corrections and Rehabilitation, P.O. Box 942883, Sacramento, CA, 94283-0001; fax to (916) 324-6075 or e-mail to rpmb@cdcr.ca.gov before the close of the comment period. Only those comments relating directly to the enclosed changes will be considered.

15-DAY RE-NOTICE TEXT OF PROPOSED REGULATIONS

In the following, **double underline** indicates additional text and **~~double strikethrough~~** indicates additional deleted text to the originally proposed text presented in the original single underline and strikethrough format.

Title 15. Crime Prevention and Corrections

Division 3. Adult Institutions, Programs and Parole

Chapter 1. Rules and Regulations of Adult Operations and Programs

Article 1. Behavior

3000. Definitions.

The following are definitions of terms as used in these regulations:

....

Effective communication means providing the inmates, to the extent possible or as required by federal law, the communication assistance necessary to allow them to understand and participate in programs, services and activities. For inmates with disabilities, staff may provide assistive devices or other methods of accommodation. For inmates with other communications needs (including Limited English Proficiency (LEP)), staff are responsible for providing other forms of assistance. For due process events, staff are subject to additional requirements: If the inmate is LEP, has a verified disability or has a Test of Adult Basic Education (TABE) reading score of 4.0 or lower, the employee is also required to accurately identify the communication need, to document the provision of any assistance provided that is consistent with the inmate's communication need, and to document the method staff used to determine the inmate understood. In instances where a staff member cannot achieve effective communication, despite the provision of relevant accommodations or assistance, staff shall document their efforts and their inability to achieve effective communication and shall notify the facility's ADA/LEP Coordinator.

Electronic Communication means any transfer of signs, signals, writings, images, sound, data or intelligence of any nature, transmitted in whole or in part by a wire, radio, electromagnetic, photoelectric or photo-optical system.

....

Joint Venture Program (JVP) means a contract entered into between the director and any public entity, nonprofit or for profit entity, organization, or business for the purpose of employing inmate labor.

Kiosk means a small stand-alone device providing information and services on a computer screen.

....

Violent Offense, for the purpose of conducting parole revocation hearings, refers to any felony listed in section 667.5(c) of the Penal Code.

Wireless Communication Device means any device that is capable of transmitting signs, signals, writings, images, sounds, data or intelligence of any nature, in whole or in part, by a radio, electromagnetic, photoelectric or photo-optical system, but does not require a wire connection to transmission source. This includes, but is not limited to, cellular telephones, computers, internet phones, mobile phones, hybrid cellular devices, hybrid Internet devices, hybrid wireless devices, smart watches, wireless router and mobile Wi-Fi hotspot devices; Bluetooth or similar devices, mobile high-definition link devices, intelligent virtual assistant devices or similar smart home products, personal digital assistants, tablets, video recorders, facsimile machines, two-way radios, and pagers.

3006. Contraband.

Section 3006 introductory paragraph is unchanged but shown as reference:

Inmates may possess only the personal property, materials, supplies, items, commodities and substances, up to the maximum amount, received or obtained from authorized sources, as permitted in these regulations. Possession of contraband as defined in section 3000 may result in disciplinary action and confiscation of the contraband.

Subsection 3006(a) is amended to read:

(a) Dangerous Property. Inmates ~~may~~ shall not possess or have under their control or constructive possession any weapons, explosives, explosive making material, poisons or any destructive devices, nor shall they possess or assist in circulating any writing or voice recording which describes the making of any weapons, explosives, poisons, or destructive devices, or cellular telephones, or Inmates shall not possess wireless communication devices capable of making or receiving wireless communications, except as expressly authorized by the Secretary, pursuant to subsection 3190(k)(8).

Subsection 3006(b) is unchanged.

Subsection 3006(c) is unchanged but shown as reference:

(c) Except as authorized by the institution head, inmates shall not possess or have under their control any matter which contains or concerns any of the following:

Subsections 3006(c)(1) through 3006(c)(19) are unchanged.

Subsection 3006(c)(20) is amended to read:

(20) Any ~~cellular telephone or~~ wireless communication device accessory and/or component including, but not limited to, a ~~s~~Subscriber Identity ~~m~~Module (SIM) card), memory storage device, ~~cellular phone~~ battery, wired or wireless headset, and ~~cellular phone~~ charger, except as expressly authorized by the Secretary, pursuant to subsection 3190(k)(8).

Article 3.5 Credits

3044. Inmate Work Groups and Privilege Groups.

Subsections 3044(a) through 3044(b)(9) are unchanged.

Subsection 3044(c) is unchanged but shown as reference:

(c) Privileges. Privileges for each work group shall be those privileges earned by the inmate. Inmate privileges are administratively authorized activities and benefits required of the secretary, by statute, case law, governmental regulations, or executive orders. Inmate privileges shall be governed by an inmate's behavior, custody classification and assignment. A formal request or application for privileges is not required unless specified otherwise in this section. Institutions may provide additional incentives for each privilege group, subject to availability of resources and constraints imposed by security needs.

Subsections 3044(c)(1) through 3044(c)(2) are unchanged.

Subsection 3044(c)(3) is amended to read:

(3) Disciplinary action denying, modifying, or suspending a privilege for which an inmate would otherwise be eligible shall be for a specified period not to exceed 30 days for an administrative rule violation or 90 days for a serious rule violation. Loss of privileges shall not preclude a general population inmate from possessing a network ~~accessible~~ **capable** tablet for CDCR approved and mandatory functional uses when there is no alternative to perform the function, including, but not limited to: approved educational programs, filing appeals and/or grievances, and/or scheduling medical appointments. If the disciplinary sanctions provide for a temporary suspension of services, the Hearing Officer or Senior Hearing Officer may ~~contact the tablet vendor to have~~ **suspend or restrict** specific discretionary features ~~suspended or restricted~~ for the time specified in the disposition of the rules violation report.

INMATE PROPERTY

(REV. 4/1/14 ~~7/6/20~~ XX/XX/21)

MATRIX - AUTHORIZED PERSONAL PROPERTY SCHEDULE (APPS)

Facilities may submit requests to be exempted from the personal property items detailed in these schedules. These Exemption Requests are to be submitted to the Chief, Standardized Procedures Unit (SPU). All requests must include rationale and supporting data such as incident reports, physical plant limitations, etc. In the case of an emergency, where the safety of inmates, staff, or other persons are at immediate risk, the requesting institution may immediately act to restrict an item but must notify the SPU. An exemption request shall be submitted to the SPU within five working days of any locally imposed restriction. Exemption requests will be processed through the appropriate Associate Director and then submitted to the Deputy Director, Division of Adult Institutions (DAI) for approval/disapproval.

Inmates may request to have items added to the APPS through their Inmate Advisory Council (IAC). All IAC requests are subject to review by local institutional administration and may be included with any facility Exemption Requests forwarded to the DAI.
