MARKETING CONTENT

Susie Cuebas

The CMP Pool Products Catalog is a team project that included CMP Marketing, Engineering, Sales and Customer Service. Thank you to the entire team and to each individual that has contributed to the 2021 CMP Pool Products Catalog.

- EVERYTHING MATTERS®

©2021 CMP, LLC
All rights reserved

This annual catalog is one of our most important customer tools, in combination with award-winning customer service and tech support. CMP is committed to supporting pool professionals with systems and programs that set you up for success. Because when the difference is in the details, everything matters®.

WHAT'S NEW FOR 2021

BOBÉ® WATER & FIRE FEATURES

The newest part of the CMP family completes our collection of designer features with fire products and real metal scuppers.

Bobé brand products are truly special. **Be sure to check them out on page 55**

NEXT GENERATION AOP SYSTEMS

DEL joined the CMP family three years ago, and we are thrilled to introduce our first next-gen technology—more powerful than ever and driven by your feedback.

The new DEL AOP models are certified, smart and easy to install.

CMP PRODUCT CROSS REFERENCES

Cross references are a useful tool for making the switch to CMP Products. PLEASE NOTE: The Cross References Charts previously near the front of the catalog have moved to page **264**

BOX AND BAG QUANTITIES

Box Quantities are listed for most items. If a bag quantity is also available, it will be indicated as "box/bag," such as "24/6" where "24" is the box quantity, and "6" is the bag quantity.

Currently CMP does not apply a surcharge for broken carton orders. Please help us maintain this policy by ordering in full carton quantities. **Thank you for your cooperation.**

THANK YOU FOR USING THE 2021 CMP POOL PRODUCTS CATALOG

COLOR REFERENCE

The standard CMP numbering scheme for designating the color of plastic products is indicated within the part number as follows:

A B C D E - F G **H** - I J K

The standard colors for pool products are determined by the "H" digit where:

- 0 = White
- 1 = Light Gray
- 2 = Chrome / Stainless Steel
- 3 = Brass
- 4 = Black
- 7 = Dark Gray
- 9 = Non-Standard / Custom

EXAMPLE: 23500-001-000 (1 = LIGHT GRAY)

LIGHT GRAY

BLACK

LOOK FOR THESE ICONS
THROUGHOUT THE CATALOG
INDICATING AVAILABLE COLORS

DARK GRAY

TAN

LIGHT BLUE

DARK BLUE

Product color examples above are for approximate reference only.

NON - STANDARD COLORS

Non-standard colors for pool products are determined by the combination of the "G" and the "H" digits. The "H" digit of "9" indicates Non-Standard, and the "G" digit, specifies color. Non-standard colors include Tan, Clear, Light Blue, Dark Blue, etc. For details on ordering specific non-standard colors, call or email CS@c-m-p.com

CUSTOM COLORS

Additional colors are available upon request. Custom colors can be provided. Please call for details. Minimum order required.

FITTINGS

Unless otherwise specified fitting bodies and other undershirt components are molded in white or gray.

METAL FINISHES

CMP uses polished and plated stainless steel in metal finish components. Additional metal finishes are available upon request.

BACK OR BOTTOM PORT

FILTERED WATER ONLY

RADIUS CUT COMPATIBLE

IMPORTANT: Natural Wonders waterfalls are to be used only with filtered water. We recommend using a cartridge filter dedicated to the waterfall feed line. See the CMP water feature filter page 28. The rock trap is always recommended to capture large debris in the pipes. 12" and 18" waterfalls should be no more than 12" above the water line. Waterfalls over 36" have multiple water inlets. As a waterfall is installed higher above the pool water level the base of the flume will narrow and begin to "break up." Call customer service for more information.

NATURAL WONDERS® ARCH WATERFALLS

CMP Natural Wonders® Arch Waterfalls create a beautiful arching sheet of water. A powerful display that enhances any backyard.

PRODUCT FEATURES

- Back port or bottom port
- Heavy-duty PVC construction

FILTERED WATER ONLY

NOT RADIUS CUT COMPATIBLE

IMPORTANT: Natural Wonders waterfalls are to be used only with filtered water. We recommend using a cartridge filter dedicated to the waterfall feed line. See the CMP water feature filter page 28. The rock trap is always recommended to capture large debris in the pipes. 12" and 18" waterfalls should be no more than 12" above the water line. Waterfalls over 36" have multiple water inlets. Call customer service for more information. ARCH WATERFALL LIP CANNOT BE CUT. *All "L" dimensions are +/- 0.33".

NATURAL WONDERS® RAINFALLS

The Natural Wonders® RainFall clear lip design allows it to blend into any surroundings. Colors from adjacent tile, rock, or concrete transmit through the clear material and reflect throughout the lip. This blends the RainFall into any installation application.

PRODUCT FEATURES

- Two Rows of Water Streams
- Clear Lip Face
- Heavy-Duty PVC Construction
- Back Port 1.5" Spigot
- 6-15 GPM per Foot

NATURAL WONDERS® STREAMFALLS

Natural Wonders® Streamfalls are a unique pool water feature: a series of miniature sheer descents adds character and style. Large openings minimize the chance of any clogging from debris.

PRODUCT FEATURES

- Wide Openings Prevent Clogging
- Individual Streams 1/4" × 1/2"
- Heavy-Duty PVC Construction
- Lip Can Be Radius Cut (see pg 18)
- Back Port 1.5" Spigot
- 6-20 GPM per Foot

	ARCH HEIGHT ABOVE LIP	1.5"	1.5"	1.5"	1.5"	1"				
	PROJECTION	17"	17"	15"	15"	12"				

GRAPH REPRESENTS PROJECTION RANGE, NOT STREAM PATTERN

12" & 18" STYLES

At the tested 40" height, the flume on these sizes of classic waterfall is very narrow. For a more traditional appearance, we recommend installing the 12" at max height of 18" (8" projection) and 18" at max height of 24" (9" projection).

DRY WALL EFFECT

Low flow installations may cause the mounting surface to become wet when the waterfall is flowing. To achieve a dry wall effect, it is best to aim for the higher end of the recommended GPM range. At the low end of the recommended GPM range the waterfall flume will still appear good, but you may be in the potential "drip zone." (Example: For a dry wall on a 36" waterfall, 36 GPM will give the best results.)

EXTENDED HEIGHTS AND PROJECTION

For a more dramatic effect, it is possible to achieve increased projection and heights above 40" by increasing the gallons per minute. Results outside of tested parameters may vary.

TEST CONDITIONS

Testing was performed in a laboratory setting under optimum conditions. Environmental factors such as weather, construction method and hydraulic variations can alter appearance.

WATERFALL METAL FACE TRIM PLATES

Beautiful real metal accents for your waterfall. CMP Metal Face Trim Plates are available in three different finishes to fit any outdoor decor. They are the perfect way to complement and enhance your pool design.

PRODUCT FEATURES

- Complements Any Pool Finish
- Quick & Easy Installation
- Durable, Real Metal Trim Plates
- Available for 12"-48" Sizes
- For Natural Wonders Waterfalls and original LED Waterfall.

INSTALLATION

1. Clean surface of waterfall lip. Make sure there is no debris, silicone or other material covering the lip. Also make sure the lip is dry.
2. Peel just a little of the protective tape on the front to make sure the waterfall plate is the correct color.
3. Turn plate over and remove RED tape on back of the plate (leave the tape on the other side in place until after plate is installed)
4. Carefully place the plate over opening. Do not press down until you are sure the plate is directly over the opening and is covering all the waterfall face (use the lip guard if it is still available)
5. Once you are sure the plate is positioned correctly, press firmly to secure to the waterfall and remove protective tape.

FIG 1

INSTALLATION GUIDE

1. Determine the proper size of the main feed pipe: Use 1-1/2" pipe for up to 8 Deck Jets; Use 2" pipe for up to 12 Deck Jets; Use 2-1/2" pipe for up to 16 Deck Jets.
2. Install a ball valve on the main feed pipe near the pump to adjust the total water pressure delivered to the deck jets.
3. Reduce the piping to 3/4" pipe. When installing more than one deck jet it is necessary to create an equal pressure loop to equalize the pressure in the line.
4. The body is ABS plastic and designed to allow for 3/4" plumbing with straight pipe or an elbow. Use only PVC/ABS glue to secure.
5. Anchor the deck jet body and protective cover so that the top is level with the height of the finished deck. Use protective cover to protect deck jet while working on pool and laying deck.
6. Remove protective cover, wrap the threaded plug with Teflon tape, and install into the deck jet body. Be sure not to over tighten. Replace the protective cover. Leave the plug installed and keep the pipe pressurized during installation.
7. Once the deck is finished, remove the protective cover and remove the plug. Turn on the pump, open the valves, and run water through the lines to remove any debris that may have collected.
8. Take the jet nozzle housing assembly and install in the body by turning the installation tabs (*fig 1*). Hand tighten only. Do not overtighten.

IMPORTANT, PLEASE NOTE: This product must be installed and serviced by a pool and spa professional. These instructions must be followed exactly to ensure proper function of the parts.

ADJUSTABLE & NON-ADJUSTABLE DECK JETS

The ONLY deck jet that can be adjusted at the nozzle while running. Simply set the water flow at the pump, and then fine tune with the built in adjustable nozzle. Designed for simple installation and trouble-free use in residential and commercial pools.

This water feature has an eyeball nozzle hidden from view by a decorative cap. Multiple plumbing options make this deck jet easier to install. Just 3-5 GPM creates a stream up to 10 feet high. Also available in non-adjustable with interchangeable nozzles.

C-M-P.COM/DECK-WALL-JETS

DIMENSIONS

DECK JET WRENCH

Use for nozzle removal and installation for both adjustable and non-adjustable jets.

Can also be used to assist in adjusting nozzle flow and direction. May also be adjusted by hand without the wrench.

NATURAL WONDERS® GUNITE FOUNTAINS

Natural Wonders Gunite Pool Fountains are a great way to add natural beauty to your pool install. Simply adjust the flow with a CMP ball valve to achieve the perfect look. Add an air blower for increased power. These fountains install simply with standard size fittings. Add a fresh new dimension to beach entries, spas, sun shelves, tanning ledges, and landscape features.

FLUSH BUBBLER FOUNTAIN

- Installs Flush with Pool Floor; No Exposed Components Above the Waterline
- Available in Four Color Options
- 1-1/2" MIP
- Pictured with Air Blower Inline

WATER FEATURE FILTER

All water features must use filtered water for optimum performance and to prevent damage to the feature. The CMP water feature filter is the perfect accessory for waterfalls, deck jets, bubblers and other water features.

PRODUCT FEATURES

- 25 or 50 Square Foot Filtration
- Includes Pressure Gauge
- Ergonomic Lock Ring: Easy Lid Removal for Quick Filter Cleaning
- Unibody Construction

IMPORTANT: Natural Wonders waterfalls are to be used only with filtered water. We recommend using a cartridge filter dedicated to the waterfall feed line. Call customer service for more information.

TECHNICAL GUIDE

- 6-7/8" Wide
- 15-1/8" Height
- 2" Inlet/Outlet
- Max Pressure 50psi
- Cover Air Relief Plug
- Not Designed for Whole Pool Filtration

PROTECT YOUR WATER FEATURE: ONLY USE FILTERED POOL WATER

THE PREMIER LED POOL LIGHTING FAMILY

HIGH PERFORMANCE: DESIGNED FOR STYLE AND EFFICIENCY

Every Brilliant Wonders® LED Product has a light that is specifically engineered to each application. In fact we purposefully control the shape of the light and the shape of the water to create beautiful LED lighting effects.

SMART SYNC: LIGHTING FOR EVERY POOL

With Smart Sync® technology, you can synchronize Brilliant Wonders® brand LED Products with every major pool control system. Simply order the correct programming style for your pool controls system, install according to the pool control OEM guidelines and it just works.

GUNITE, VINYL, FIBERGLASS: INSTALL IN ANY POOL

Brilliant Wonders® products are also designed for a seamless installation. All of our fittings are available in a variety of colors and styles to match any pool design including flush installation options.

FRONTSIDE SERVICEABLE: EASY MAINTENANCE

Every Brilliant Wonders® product is designed to be serviceable right at the light. Each product is designed with a removable light module or LED strip that is easily accessible.

QUICK DISCONNECT WIRING: SIMPLE INSTALL & SERVICE

Why remove hundreds of feet of cord when a light has to be changed or serviced? You will save time and money with a Brilliant Wonders® quick disconnect for easy replacement and simple winterization. Brilliant Wonders quick disconnect cords are rated for safe outdoor pool and spa use.

THE NEXT GENERATION LED WATERFALL

How do you take the most popular lighted waterfall for pools and make it even better? Sometimes you just have to throw a curve. Introducing the industry's first cut-able, service-able, LED light-able waterfall.

Brilliant Wonders²

LED WATERFALL

1. CUSTOM CUTTABLE LED WATERFALL

For the first time an LED Waterfall that can be factory custom radius cut that also remains completely serviceable after installation.

2. ENHANCED "SAWTOOTH" WATER TEXTURE

The improved sawtooth embedded lip textures the flow of the waterfall. This enhances the LED light and color effects, creating unique smooth ribbons of water and light in the waterfall flume.

3. SLIM PROFILE WITH BESPOKE DOOR COVERS

This brand new design is 30% thinner for a minimal profile, with a clear face for a seamless installation. The innovative sliding service doors can be customized in the field with plaster, grout or stone. Optional LED access door covers in five colors are also included.

4. SERVICEABLE LIGHTING AFTER INSTALLATION

Even on a custom cut the internal LED strip is accessible through the built-in frontside access doors. The attached service cable and quick-disconnect mean accessing and installing the LED light is a breeze.

THE ORIGINAL BEST SELLING LED WATERFALL

CMP Brilliant Wonders® LED Waterfalls are the premier lighted waterfalls in the pool industry. The LED strip is built into the unit (instead of using external fiber optics) placing the light as close to the water as possible. This design makes a separate light source unnecessary.

C-M-P.COM/BRILLIANT-WONDERS-LED-WATERFALL

SERVICEABLE LED LIGHTING

- Front-side Door for LED Strip and Wiring Access
- Quick-Disconnect LED Strip is Easy to Service and Easy to Replace
- All LEDs are Contained and Protected Inside the Waterfall Unit

DESIGNED TO OUT-SHINE

- "Sawtooth" Lip Design
- Churns the Water, Enhancing LED Light and Color
- Creates Smooth Ribbons of Water and Light

SMART SYNC® LED WATERFALL ADAPTER

- Synchronize with Other Brilliant Wonders LED Products
- Also Sync with LED Products and Controls from other Pool Product OEMs
- One Adapter for up to 8ft of LED Waterfalls

Brilliant Wonders®

LED WATERFALLS

Ambient lighting effects the appearance of all LED Waterfalls. The appearance of the light in waterfalls will change depending on surroundings, time of day and viewing angles. CMP takes extreme care to ensure our photos of LED products represent the appearance of an actual installation. LED water features are designed for backyard ambiance and there can not be a guarantee as to how bright the water will appear in each individual pool.

LED WATERFALL SMART SYNC® ADAPTERS

ADAPT LED WATERFALLS TO MULTIPLE LIGHTING STYLES

With one control box, synchronize your waterfall with LED products from CMP® and the most popular pool LED lighting and automation.

Simple to install, and field-programmable with a built-in control dial.

UNIVERSAL PROGRAMMING

The Smart Sync® adapter acts as the "external brain" for the LED Waterfall. Simply select your desired programming using the built-in dial switch.

60W MODEL WITH DIMMER SWITCH

The 60W design can control up to 12 total feet of LED Waterfalls. Plus a new integrated dimmer switch that adjusts to the perfect brightness level.

*Smart Sync 60 W
Includes Adjustable
Dimmer Switch*

PRODUCT FEATURES

- Brilliant Wonders® Smart Sync® Technology
- Compatible with Lighting and Controls from all Major Pool OEMs
- Compact Size For Easy Installation, No Specialized Tools Required
- Program in the Field with a Simple Dial Control
- LED Color Indicator Light Built In for Easy Reference

P/N	DESCRIPTION
25677-900-000	SMART SYNC 36 WATT LED WATERFALL ADAPTER
25677-950-000	SMART SYNC 60 WATT LED WATERFALL ADAPTER

IMPORTANT! The Smart Sync LED Waterfall Adapter should not be used with any other Brilliant Wonders products. Never use in conjunction with the LED Waterfall Colorwheel Controls. Use of the LED Waterfall Smart Sync Adapter requires connection to an OEM control system or control switch.

LED WATERFALL SMART SYNC® ADAPTER

- Smart Sync is Installed Between 12VAC Power Source and LED Waterfall
- Must be Mounted in a NEMA approved weatherproof enclosure
- Select Program Mode to Match CMP or OEM Lighting and Controls

WHEN SHOULD I USE THE SMART SYNC® ADAPTER?

1. Install the Smart Sync Adapter to use controls or synchronize with lighting from CMP, Zodiac International, Pentair Water Pool & Spa, Inc or Hayward Industries.
2. You can also use the Smart Sync Adapter if you will be controlling your lighting with a switch.
3. DO NOT use the Smart Sync Adapter if you are using the LED Waterfall Colorwheel controls. These are not compatible and may cause permanent damage to the controls.

SMART SYNC® ADAPTER INSTALL GUIDE

12V DC 12V AC

NOT COMPATIBLE

COLORWHEEL LED WATERFALL CONTROL

PRODUCT FEATURES

- Advanced Programmable Lighting Control
- Remote with Touch-sensitive Color Control Wheel
- Total Control of LED Colors
- Program and Save Settings
- Control Color, Brightness and Cycle Speed
- Up to 90ft Range Depending on Installation
- Remote Charges via USB
- UL Recognized DC Power Supply

FULLY PROGRAMMABLE

Save and recall your favorite colors and shows at any time using the remote control

TOTAL COLOR & DIMMING CONTROL

With the touch sensitive Colorwheel Remote, select any custom color in the rainbow, set custom brightness with the dimming controls and control color changing speed.

C	25650-100-100	CONTROLLER ONLY
D	25650-100-210	PLASTIC POWER SUPPLY BOX (NEVER USE A METAL BOX OR INSTALL IN CONTROLS BOX)

IMPORTANT! The Colorwheel LED Waterfall Control should not be used with any other Brilliant Wonders products. Never use in conjunction with the Smart Sync LED Waterfall Adapter. Always use 12V DC power.

COLORWHEEL LED WATERFALL CONTROL

SPECIFICATIONS

- For Brilliant Wonders® LED Waterfall ONLY
- 12 Volt DC
- ETL Certified when installed with LED Waterfall
- Must be Mounted in a NEMA approved weatherproof enclosure
- Do not install in pool controls box or any metal box. Metal will block the signal from the remote.
- Control must be within 90ft for remote to operate.
- Controller and power supply is not compatible with other CMP controls or LED lighting products. To synchronize with other products use the Smart Sync LED Waterfall Control.

KEY	DESCRIPTION
ON/OFF	Turn on and off the receiver (or LED light).
PAUSE	Press to stay on current color.
MODE	Press to select next or previous mode.
SPEED	Press to adjust program speed
BRIGHTNESS	Press to increase or decrease brightness.
TOUCH CIRCLE	Touch to select a color.
SCENE MODE	Press 1-9 to load stored modes. Hold for three seconds to store current mode. Press Play to cycle modes.

COLORWHEEL CONTROL INSTALL GUIDE

COLORWHEEL REMOTE SETUP

1. Power off the controller and remote
2. Turn on controller
3. Press and hold the On/Off button on controller until you hear a tone (keep holding)
4. Within 5 seconds turn on the remote. Press and hold #1 Key until remote flashes green
5. You should now be back in sync.

NOT COMPATIBLE

FULL-SIZED BRILLIANCE IN A SMALL-SIZED PACKAGE

PRODUCT FEATURES

- Bright and Efficient Cree® RGBW LED Light
- Installs in Gunite, Fiberglass & Vinyl Pools
- Compact Size is Versatile and Economical
- Light-focusing for Bright Lighting Using Only 8 Watts
- Built in Smart Sync® Technology
- Stream Shoots over 30 inches High
- Non-Metallic Design: No Bonding, No Grounding
- Flush Finish Installation
- Completely Serviceable from the Top
- ETL Listed

1. BEAM-FOCUSING LENS

Our unique beam-focusing lens design focuses the light directly on the bubbler "flume," concentrating every photon for maximum LED light transfer and eye popping brightness.

2. SMART SYNC® TECHNOLOGY

Available with Brilliant Wonders® Smart Sync programming to synchronize with lighting and controls from major pool OEMs.

3. IP68 WATERPROOF QUICK DISCONNECT

Use the waterproof quick-disconnect cord to remove the light module for service or winterization without pulling up to 150 feet of cord.

4" LED Bubbler Light Module

Brilliant Wonders®

4" LED BUBBLER

4. MINIMALIST, FLUSH INSTALLATION

The 4" LED Bubbler installs flush with the pool floor in a gunite pool with the housing completely hidden from view for a clean installed appearance.

5. DIRECTIONAL NOZZLE

Take control over flume direction, even on inclined beach entries. Every kit also includes nozzle reducers for perfect flow adjustment.

6. GUNITE, FIBERGLASS & VINYL INSTALLATION

Vinyl/Fiberglass kits are available in five different colors to match and complement any pool finish. Attaches using heavy duty brass inserts in the Bubbler body for a secure and durable installation.

Brilliant Wonders®

LED LAMINARS

1. STAINLESS STEEL PRECISION NOZZLE

A high performance stainless steel nozzle is the premier choice for quality and durability.

2. SMART SCREENS

Fine mesh screens calm the water like never before for a smooth water stream. Unlike other laminar screens, Brilliant Wonders Smart Screens are simple to install with soft molded edges for easy handling.

3. PREMIER FILTER MEDIA

Soft and safe layers of built-in filtration media that are easy to clean and inexpensive to replace.

4. TANGENTIAL FLOW ENGINEERING

Precisely engineered flow minimizes turbulence for a glass-like laminar flow, increasing light transfer and minimizing water entry splash.

5. BEAM-FOCUSING LENS

Our unique beam-focusing lens design places the light source closer to the nozzle

6. SMART SYNC®

Available with Brilliant Wonders® Smart Sync programming to synchronize with lighting and controls from major pool OEMs.

7. IP68 WATERPROOF QUICK DISCONNECT

Absolutely the easiest LED laminar light to install and service. For the first time ever, you can use the quick-disconnect cord to remove the laminar cannon for service or winterization without pulling 100 feet of cord.

LIGHTING NOTES: Ambient lighting effects the appearance of all laminars. CMP does not offer a “thumper” feature so the light will be in the clear stream only. The appearance of the light in all Laminars will change depending on surroundings, time of day and viewing angles. CMP takes extreme care to ensure all photos and videos of LED Products accurately represent the appearance of the real installation.

The Brilliant Wonders® 1.5" nicheless LED pool and spa light is versatile, easy to install and designed to sell. Illuminate a pool, accent a spa or showcase steps, swim-outs and spill overs.

Brilliant Wonders®

LED LIGHTING

1. HIGH PERFORMANCE. WATER COOLED.

Precise engineering delivers a perfect balance of brightness, energy savings and longevity. Over 50,000 hours of low voltage LED life saves customers' money and reduces service calls.

2. BUILT-IN CMP SMART SYNC® TECHNOLOGY

Automatically synchronize with lighting and controls from most pool OEMs.

3. QUICK DISCONNECT INSTALLATION & SERVICE

Installs in any 1.5" pool wall fitting and locks in place with a quarter-turn. Industry-first waterproof quick disconnect IP68 connection for rapid service, winterizing or replacement.

4. THE BEST DESIGN FOR ANY POOL TYPE

Choose the right fitting for the perfect look in any pool. For gunite pools, the flush fitting creates the most seamless 1.5" LED light install on the market. For vinyl and fiberglass, faceplates in fifteen different styles completely disguise the wall fitting.

PRODUCT FEATURES

- Installs in Gunite, Fiberglass & Vinyl Pools
- Flush wall fitting option for dry conduit installations
- Bright & Efficient Cree® LEDs Outlast and Outperform Other Lights
- Maximized LED Projection & Precise Beam Angle Minimizes Shadows
- Full Color, Full Stainless and Color Accent Stainless Faceplate Options
- Small Size can Retrofit and Replace Almost Any Nicheless Light

Water Features 58

Fire Features 65

Planters 78

Bobé® products are artisan made at the point where traditional craftsmanship and technology meet. Professional artisans design and manipulate structures made of heavy-duty copper and steel. Meanwhile, state-of-the-art machinery precision builds the Perfect Flame™ burner and stamps designer water features.

You won't find another brand like Bobé®. It's where the elements of fire and water are manipulated to create the highest quality outdoor designer features that inspire.

Find Your Element™

ARTISAN CRAFTED

Tig welded, Hand polished, Made in Phoenix, AZ

HIGH QUALITY

Heavy grade materials, Perfect Flame™ design, Solid metal construction

MADE BY CMP

Industry-leading water features, Award-winning customer support

HOW TO ORDER BOBÉ PRODUCTS

We are making it much easier to order from Bobé! In the past most Bobé products were ordered by specifying size and materials using an order sheet, even if they had a part number. Catalog product orders with no modifications *no longer require* completing a detailed specification order sheet. All products can now be ordered using the standardized part number.

* NON-STANDARD OPTIONS

Some products and variations take extra care or require longer lead times. Throughout the catalog these items are indicated in the Ordering Guides with an orange asterisk.* You can always contact bobesales@c-m-p.com for more information on specific lead times.

SPECIAL ORDERS

Bobé has a long history of working with talented designers to create customized products for special installations. Many of our products can be ordered with different finishes or custom sizing. Special order options are noted on each page. Any special orders will effect lead times and pricing and must be quoted on a per-job basis.

For details on special orders visit bobewaterandfire.com/order

ORDERING FOR NATURAL GAS OR LIQUID PROPANE

All fire products must now be specified as Natural Gas or Liquid Propane when ordered. Fire product part numbers all end in "XX." Replace the "XX" with "LP" for Liquid Propane or "NG" for Natural Gas when ordering.

MATERIALS

Product photography in this catalog shows materials in their "natural" state. Metals like copper and Cor-ten will change color and patina, even before they are delivered.

For more information view material guide on page 80

WHAT'S INCLUDED?

- Complete Manual fire products include: Burner, Media Pan, Key Valve Kit, Valve, Key, Flange, Street Elbow, 12" Nipple and Reducer
- Complete Auto fire products include: Burner, Media Pan, Igniter/Sensor, Valve Box, Transformer and Regulator
- All fire products for propane also include Air Mixer
- Glass/rock media is sold separately

PURE FLOW WATERFALL

The Pure Flow waterfall is engineered to flow based on pressure. The result is a beautifully thick sheet of water that can flow up to 3' into your pool.

Constructed of marine grade stainless steel that is 1/8" and 1/4" thick, you will never again worry about warping or caving. The waterfall has an integrated mechanism that breaks up and slices debris to help prevent clogs. The Pure Flow waterfall is the next level of pool waterfall engineering.

PRODUCT FEATURES

- Projection up to 3'
- Constructed of Marine Grade Stainless Steel
- No Warping or Caving
- Integrated Debris Destruct
- Not recommended for saltwater pools. For salt, use CMP Natural Wonders Waterfalls

STAINLESS STEEL

SCUPPER SPECIFICATIONS

- Stainless steel not recommended for saltwater pools. Bonding: All scuppers come with a bonding lug on the back. This is a grounding lug used to ground the scupper.
- Leveling: Scuppers should be installed 1/8in off level in the front. The scupper should be "pointed" down to the pool. This allows the water to flow off the lip and reduces spill back and a "wet" wall.
- All scuppers have a 1.5in NPT female back port threaded inlet (one inlet per foot of spillway).
- Bond Beam: Install either into the beam or on top. If installing in the beam, notch out 1in around the scupper to assist with leveling.
- Escutcheon Sizes: 1.5in has 4.5in diameter; 2in has 6in diameter; 3in has 9in diameter

Stainless steel not recommended for salt water environments. Copper will naturally patina.

BUILDER SERIES WATER + FIRE BOWLS

Builder Series bowls combine a complete fire pot with a scupper style spout of water. In this design a fire media pan sits at the top of the bowl. Water flows under the pan and out an extended lip at the front of the bowl.

Bobé bowls are hand constructed by skilled artisans. Each bowl is built from heavy grade material, fully TIG welded and polished.

PRODUCT FEATURES

- Perfect Flame™ Burner
- Square or Round Shapes
- Automatic Ignition or Manual Key Valve
- Copper or Stainless Steel; Powder Coat colors available by special order

Stainless steel not recommended for salt water environments. Copper will naturally patina. Pots should be installed with drainage for rain water. Lack of drainage can flood gas lines and require service. A cover is recommended for winter or periods of non-use.

ARTISAN SERIES WATER + FIRE BOWLS

The original combination of water and fire is really two bowls in one! A center bowl contains the media and fire element. This sits inside of the larger, outer bowl. Water flows completely around the fire in a "moat" style and then flows over the edge.

Bobé bowls are hand constructed by skilled artisans. Each bowl is built from heavy grade material, fully TIG welded and polished.

PRODUCT FEATURES

- Available in three different lip styles: Extended, Seamless and 360 Seamless
- Perfect Flame™ Burner
- Square or Round Shapes
- Automatic Ignition or Manual Key Valve
- Copper or Stainless Steel; Powder Coat available by special order

PERFECT FLAME®

All fire pots, water + fire bowls and fire lines use the Bobé Perfect Flame™ burner technology. Our burners are unlike any other, with a flame that burns bigger with a more natural fire look. One-of-a-kind brass water blockers prevent water intrusion and protect the burner.

- Tallest, thickest flame on the market
- 100% stainless steel and brass construction
- Compatible with automatic and manual systems
- Brass water-blockers prevent any and all rain water from entering the burner
- Machined arms have slope to prevent condensation from draining into center

PERFECT FLAME VS TYPICAL BURNER

FIRE POTS

The perfect showcase for the Perfect Flame™. Bobé fire pots are made to be the center of attention.

Each bowl is built from heavy grade material, fully TIG welded and polished.

PRODUCT FEATURES

- Perfect Flame™ Burner
- Square or Round Shapes
- Automatic Ignition or Manual Key Valve
- Copper or Stainless Steel; Powder Coat available by special order

FIRE POTS

SPECIFICATIONS

- Copper will naturally patina. The patina protects the metal and creates a unique color and style for every installation. For more information on patina & care see pg 80
- The bottom of all fire pots are open for plumbing / gas.
- Bottom measurement is equal to 1/2 pot width (Ex: 24" pot has 12" base)
- For other specifications, safety information and detailed gas and electrical requirements see product instructions.
- Pots should be installed with drainage for rain water. Lack of drainage can flood gas lines and require service.
- Manual fire pot includes: Perfect Flame™ Burner, Media Pan, Key Valve Kit, Valve, Key, Flange, Street Elbow, 12" Nipple, Reducer, Air Mixer (propane only), Built-In Vent Collar
- Auto fire pot includes: Perfect Flame™ Burner, Media Pan, Igniter/Sensor, Valve Box, Transformer, Regulator, Built-In Vent Collar, Air Mixer (propane only)
- DOES NOT INCLUDE: lava rock/colored glass, gas muffler

All fire units must be ventilated. Vent collars included on all fire pots. A cover is recommended for winter or periods of non-use. Stainless steel not recommended for salt water environments. Copper will naturally patina.

FLIGHT SERIES™

With clean lines and a clear view of the entire fire effect, you can look through the Flight Series' windows to see the flame from its billowing base up 3' to the peak of the flame.

Cor-ten® steel, with its rigid strength and beautiful weathering properties, perfectly complements this unique series.

PRODUCT FEATURES

- Unique, rugged, old world design
- Constructed of solid, extra heavy Cor-ten® Steel
- Round or Square
- 10" tall

PREFABRICATED FIRE PIT

Prefabricated fire pit kits are shipped as complete units with a stainless steel body and aluminum prefab structure. The perforated aluminum exterior provides a solid foundation to be covered with brick, stone, tile, or stucco.

PRODUCT FEATURES

- Drop-in fire pit structure only needs to be finished with tile, stone or other material
- Three foot fire pit size
- Prefabricated fire pits are measured by the width of the perforated aluminum structure
- For more fire pit options or to create a custom build, use DIY kits pg 73

Pits should be installed with drainage for rain water. Lack of drainage can flood gas lines and require service. A cover is recommended for winter or periods of non-use. All fire units must be ventilated. Stainless steel not recommended for salt water environments.

GLASS & ROCK MEDIA

Glass and rock add color and individuality that finishes off an installation. All glass is fire rated for use in our products. Different cuts of glass are available in over a dozen different colors.

PRODUCT FEATURES

- Fire-ready glass material - only use approved materials in fire pots and bowls
- All glass is tumbled to remove sharp edges
- Crushed glass: small pieces of colorful broken glass
- Pebbles: totally smooth rounded off pieces of glass
- Mirrored Glass: glass with a reflective finish on one side
- Lava Rock: natural stone media material

PLANTERS

Our planters are the perfect match for fire pots and water + fire bowls. Extremely durable, with the same build quality as our other outdoor pots and bowls.

Create an accent that stands out with a unique solid metal outdoor planter. Take advantage of the natural patina style of copper or go for a more modern look with sleek stainless steel.

PRODUCT FEATURES

- Square or Round Shapes
- Copper, Hammered Copper, Stainless Steel or Cor-ten
- Powder Coat colors available by special order
- The bottom of pots have a drain hole
- Optional planter tray sold separately

COPPER

STAINLESS STEEL

HAMMERED COPPER*

IMPORTANT: See Material Guide on page 80

Our Cor-ten® Planters are made from Cor-ten® steel. Cor-ten® naturally develops a brown rust-like appearance that is very unique.

PRODUCT FEATURES

- Solid Cor-ten® steel
- Every planter will develop a unique natural patina
- Unlike "rust", the brown patina actually protects the metal and gives each planter a natural one-of-a-kind appearance

Stainless steel not recommended for salt water environments. Copper will naturally patina.

BOBÉ® MATERIAL CARE GUIDE

HEAVYWEIGHT COPPER

PATINA: Dark brown to green to blue. All copper products will patina. Patina is a natural process of oxidation where copper reacts to the elements and produces a series of colors that build up in order to protect the copper. The final color can vary widely depending on location, environment and other factors.

WHAT COLOR WILL MY PRODUCT BE?

All products ship in their natural copper state.

Depending on where they are stored or transported, patina may begin to develop. It is **very likely** the color may change between manufacture and delivery and will continue to patina after installation. Copper can be cleaned after installation to reset the patina process.

CLEANING

Patina color may vary from piece to piece, even when delivered on the same day. If you prefer to restore the material after installation, a cleaning solution such as TarnX® may be used.

Hand Prints/Water Spots: Products develop hand prints from handling or water stains from water testing. The natural patina process will cover up the markings as the whole piece begins to darken.

316 MARINE GRADE STAINLESS STEEL

PATINA

Stainless steel does not develop a patina.

CLEANING

- Stainless steel can show water spots and deposits of minerals or other natural substances that appear, orange, white and/or brown. Over-chlorinating the pool or pH out of balance can result in rust.
- Clean using very fine red Scotch-Brite™ cleaning pads.
- In many cases, cleaning over time will greatly reduce reappearance of build-up.

SALTWATER

Stainless steel is not warranted for use in or around salt water.

COR-TEN®

PATINA

Cor-ten® steel is a type of untreated "weathering" steel that will develop a dark, "rusted" appearance. The natural oxidation is a protective layer that strengthens over time and does not require any maintenance or care.

IMPORTANT TO NOTE

- Cor-ten® steel products can stain the surfaces below them.
- Clear coating the steel will not permanently prevent rust or weathering of the metal.

WWW.C-M-P.COM/POOL-PRODUCTS/POOL-SANITIZERS

CMP POOL SANITIZER PRODUCTS

CMP is proud to offer a complete suite of sanitizer systems for pools. Our product line includes the most advanced brands for keeping a pool safe, clean and clear.

We strongly believe that every pool needs two sanitizers working together: a Residual system and an Advanced Sanitizers system. Residual systems include chlorine feeders and generators that maintain active chlorine in the water. Advanced Sanitizer systems include AOP, Ozone and UV-C products that destroy chlorine-resistant microbes and clear up chloramines.

ADVANCED SANITIZER SYSTEMS

DEL AOP

Ozone + UV-C systems that generate powerful hydroxyl radicals

DEL UV-C

Precision-tuned UV-C light cleans water with zero residual

DEL ozone

Ozone is generated in the water to oxidize contaminants

RESIDUAL SANITIZER SYSTEMS

POWERCLEAN SALT

Pure chlorine is generated from small amounts of salt in the water

POWERCLEAN TAB

Inline and offline chlorine tablet feeders for standard and variable speed pools

	ADVANCED SANITIZER SYSTEM	CHLORINE SYSTEM	COMPLETE SYSTEM
Destroys or Inactivates Chlorine Resistant Organisms	✓		✓
Residual Sanitation in Pool		✓	✓
High Oxidation Potential*	✓		✓
Continues Sanitizing When the Pump is Off		✓	✓
Quickly Breaks Down Chloramines	✓		✓

ADVANCED SANITIZERS ARE POWERFUL

Advanced Sanitizers are excellent for destroying or inactivating dangerous contaminants that can be present in any backyard pool. They are effective on microorganisms, viruses, bacteria and other pathogens. Chlorine can be slow to work, and its effectiveness is lowered by the presence of chloramines and unbalanced pool water. Advanced Sanitizers break down chloramines and work in a wide pH range.

THE IMPORTANCE OF A RESIDUAL

Chlorine has a long history of use in pool sanitization, and it has one great trick. It is excellent for maintaining an active residual in the water itself. That means the moment a contaminant enters the water chlorine gets to work. Chlorine is also just as effective when the pump is off, as long as a proper residual level is maintained in the water.

THE COMPLETE MODERN POOL®

The goal when designing a sanitizing system for a backyard pool is to create the best possible installation. Every tool has strengths and weaknesses—the key is to choose components that work together to achieve the best result!

*UV-C systems inactivate microorganisms, but do not fully oxidize

NEXT GEN AOP

SMART STATUS INDICATORS

Bold LED indicators on the front panel constantly display the current status of the monitored system. Smart programming actively monitors the ozone and UV sub-systems, and also alerts when it's time for regular service.

FULL FLOW, ALL-IN-ONE

Simply connect to the system with two 2in union connections. 100% of the pool water flows through, so all of the water is treated inside the system with powerful hydroxyl radicals.

3RD PARTY CERTIFIED BY NSF

True NSF 50 Certification as a supplemental sanitizer. This system has been proven to eradicate 99.9% of influent bacteria—the only UV/Ozone combo system to receive this rating from NSF.

DEL AOP® 25/40

PRODUCT FEATURES

- Two sizes treat up to 25,000 and 40,000 gallons
- Full flow generates hydroxyls in the primary pool circulation
- Sensors monitor UV-C and ozone sub-systems
- Single cabinet serviceable design
- Easy-access wiring path and terminal block
- APG2 ozone cells: higher output corona discharge, superior heat performance, durable design
- High flow UV-C chamber
- Variable speed pump compatible
- Built-in drain for winterization

TECHNICAL FEATURES

- Universal 110/240 Voltage
- Certified sanitization flow rates
- Quarter-turn cam lock door access
- 2in union inlet/outlet connections
- Custom-engineered venturi
- Topside UV-C lamp access
- Integrated flow switch

DEL AOP® S

The industry's first compact AOP solution, now with a brand new name. The AOP-S works along-side your other sanitizers to improve overall water quality. This unit is designed for side-stream installation and utilizes our smallest unit with an external injector system to save space.

Easy to install and lightweight: It's barely bigger than a cereal box, but still powerful. All electrical systems are contained inside the compact unit, so no second external controller is required.

ABOUT AOP TECHNOLOGY

EXPERIENCE THE DIFFERENCE OF AOP

With the Advanced Oxidation Process, completely transform the pool water.

AOP is the next wave of technology—now.

SAFER WATER

AOP destroys viruses & bacteria like Cryptosporidium, Giardia, and E.Coli.

FEWER CHEMICALS

Powerful oxidation reduces chlorine required to maintain a safe residual level in the pool.

CRYSTAL CLEAR

Contaminants are destroyed and filtration is enhanced resulting in pure, polished water.

NO CHLORAMINES

By breaking apart chloramines, chlorine smell, itching and irritation is prevented.

ABOUT AOP TECHNOLOGY

THE SCIENCE OF AOP

When germicidal UV light (UV-C) and ozone react, the result is the production of hydroxyl radicals. This reaction is known as Advanced Oxidation Process, or AOP.

THE POWER OF AOP

AOP is more powerful than Chlorine and other sanitizers, and even more powerful than Ozone alone. Hydroxyl radicals ($\bullet\text{OH}$) are the most powerful oxidation agents available, quickly destroying bacteria, viruses, pathogens and other contaminants that occur in water. Hydroxyl radicals also destroy chlorine resistant microorganisms, such as Cryptosporidium Parvum, Giardia and E.Coli.

---- OXIDATION POTENTIAL COMPARISON: (ELECTRON VOLTS - eV) ----

---- RELATIVE OXIDATION REACTION TIME COMPARED ----

DEL OZONE®

DESTROYS 99.9% OF VIRUSES & BACTERIA
REDUCES CHEMICAL REQUIREMENTS BY 60-90%
REMOVES EYE AND SKIN IRRITANTS FROM WATER

COVERED BY ONE OR MORE U.S. PATENTS OR PENDING PATENT APPLICATIONS. SEE WWW.C-M-P.COM/PATENTS FOR DETAILS.

DEL OZONE® INSTALLATION & SPECIFICATIONS

THE SCIENCE OF OZONE

MDV KIT INSTALLATION

To install a DEL system with the Mixing De-gas Vessel (MDV), connect the ozone generator to a regular Venturi injector included in the MDV install kit. This flows into the MDV and back out to a dedicated or main return.

INJECTOR MANIFOLD KIT INSTALLATION

The Injector Manifold Kit should be plumbed into the pool line. Ozone is injected through a venturi while the pool circulation system is operating.

SPECIFICATIONS

	DEL OZONE 25	DEL OZONE 50	DEL OZONE 100
APPLICATION	UP TO 25,000 GALLONS	UP TO 50,000 GALLONS	UP TO 100,000 GALLONS

FOR LARGER SIZES AND COMMERCIAL PROJECTS, PLEASE CONTACT POOL SALES AT POOLSALES@C-M-P.COM

OZONE AND AOP MDV UNITS

MDV

When used with the DEL Ozone or AOP lineup, the MDV prevents ozone bubbles from returning to the pool. It prevents bubbles from gathering under the cover or inside plumbing.

In each MDV, a GAC carbon destruct cartridge destroys excess ozone as it is removed.

COMPATIBILITY

- AOP S
- OZONE 25
- OZONE 50
- OZONE 100

MDV-XL

The MDV-XL is a high-flow Mixing De-gas Vessel suited for larger pools and higher flow rates.

To install, connect the outlet to the DEL MDV-XL inlet. This flows into the MDV and back out to a dedicated or main return.

COMPATIBILITY

- AOP 25 (2020)
- AOP 40
- AOP 50

WHEN SHOULD I USE AN MDV?

- To protect a pool cover from possible damage
- To protect pool components, fittings and surfaces
- With indoor or enclosed pools
- When an "oversized" ozone unit is installed
- Any time all ozone bubbles must be removed from the water

SPECIFICATIONS

	MDV-10-04	MDV-100
HEIGHT	17.5"	44.5"

LOOKING FOR COMMERCIAL PRODUCTS?

With CMP Commercial, you get more than a product. You get a complete set of solutions that can be designed to meet your specific facility needs. Our experienced team will partner with clear options and customer solutions – from plug & play to expandable, and from basic to advanced PLC control. Now is the time to take your installations to the next level.

PROFESSIONAL SERVICE

Our team is your strategic partner for the duration of the project, from design to installation to support.

- Design Consultation
- Engineering Consultation
- Complete Drawing Packages
- System Packaging
- On-Site Commissioning
- Operator Training
- Global Field Service

BUILT FROM EXPERIENCE

CMP Commercial Products brings together some of the more experienced, innovative and dedicated teams in the industry.

- Over 2 million ozone systems sold worldwide
- On-staff experts in ozone technology, system design and manufacturing
- Global leader in ozone technology
- The industry's most experienced ozone team

THE BEST IN THE INDUSTRY

Three innovative brands have joined together to offer the best combination of products, experience and customer service for commercial clients.

OZONE | AOP | CHLORINE GENERATORS | WHITE GOODS

AQUATIC LIFE SUPPORT | HMAc | COMMERCIAL AQUATICS | COMMERCIAL POOLS

DEL:AOP PRO

The newest addition to our product family. A powerful oxidation system, with setup cost comparable to UV.

DEL:OZONE PRO

A complete ozone family, proven in the field for over 30 years. Systems range from 2 - 1200 grams per hour output, with advanced customization and control options available. Certified as an NSF 50 Secondary Sanitizer.

POWERCLEAN SALT PRO

The only commercial system that allows for generator cell cleaning with zero acid. Expandable with manifold systems for output up to 14lbs of chlorine per day.

Plus commercial white goods components including VGB Certified drains and suction, pool fittings, water bonding products and other white goods.

South Utah University

Atlantis, The Palm Aquarium - Bahamas

DEL OZONE® PRO G-CLASS

THE ONLY NSF 50 CERTIFIED SECONDARY OZONE SANITIZERS

Achieve maximum ozone output! G-Class CD-2/5/7 systems generate 2-7 grams of ozone per hour at 2.5-3.0% by weight. CD-15/25/45 systems generate 15-45 grams of ozone per hour at 3-4% by weight. All operate under vacuum for safety and include integrated DEL Ozone Safety Management Systems.

STANDARD G-CLASS FEATURES

- Integrated DEL Ozone Safety Management System
- Integrated Oxygen Flow Meter
- Complete Isolation During Shut-Down
- Automatic Feed-Gas Control Maintains Operational Set Points
- Powder-Coated Steel Enclosures Designed to NEMA-12
- Integrated Fault Protection for
 - Door Open
 - Feed Gas Pressure Failure
 - Vacuum Loss
 - Overheating
 - Water Backflow
 - Current Overdraw
 - Over-pressurizing of Oxygen Concentrator

ALSO AVAILABLE IN THE DEL OZONE PRO LINE:

- ORP Monitor/Control
- Ambient Ozone Monitor/Controller
- Injector Assemblies
- Dry Tap ORP
- Contact Tanks
- De-gas Valves
- Ozone Destruct Assemblies

DEL Ozone Pro G-Class is the ideal choice for high-risk pool, spa and splash pad applications.

G-Class Systems are NSF-50 certified for secondary disinfection, which includes cryptosporidium inactivation and is required for high-risk pool installations. These are the only ozone sanitizers with 3rd party validation per NSF requirements.

DEL® UV-C 50

GERMICIDAL UV-C TECHNOLOGY
HIGH FLOW RATES UP TO 100 GPM
TREATS POOLS UP TO 50,000 GALLONS

1. INTELLIGENT COVER DESIGN

Integrated cover interlock cuts power when the cover is removed. A heat shield protects the cover from ballast heat, secures lamp connections & protects from moisture.

2. VENTILATED 360 GLOW RING

The integrated patented glow ring allows for safe, visual confirmation that the UV lamps are working. The built-in ventilation allows air in and keeps moisture out, protecting the ballast.

3. BUILT-IN TOTAL DRAIN VALVE

Service and winterize the UV-C 50 without disconnecting from the system plumbing. The system internals are specially designed to ensure complete drainage.

PRODUCT DETAILS

- Treats up to 50,000 Gallons
- Hard wired and Plug-in Styles Available
- Hard wired is 120/240 Universal Voltage
- Best option for difficult plumbing (below water level, high back pressure, etc)
- Option for plumbing ports (inlet/outlet) on the same side or opposite sides
- Note: Flow Switch Required for Below Water Installations

DEL:UV-C50

COVERED BY ONE OR MORE U.S. PATENTS OR PENDING PATENT APPLICATIONS. SEE WWW.C-M-P.COM/PATENTS FOR DETAILS.

UV-C 50 TECHNICAL SPECIFICATIONS

THE ADVANTAGES OF UV-C

With the use of UV-C microorganisms are destroyed, chloramines are broken down, chlorine dependence is significantly reduced, and water clarity is optimized to produce crystal clear results.

- Destroys harmful contaminants
- Inactivates Cryptosporidium, Giardia and other chlorine resistant microorganisms
- Dramatically reduces chemical demand and increases effectiveness of residual sanitizers
- Eliminates chemical odors, irritation and damage to pool systems

THE SCIENCE OF UV-C

The UV-C 50 lamp emits safe, high intensity light rays tuned to germicidal 254 nanometers. Using natural rays of light, UV-C breaks apart the DNA and RNA of microorganisms, harmful bacteria, viruses, cysts and protozoa. This inactivates the contaminants to leave water safe and sanitized. UV-C does not create ozone. The highly concentrated electromagnetic energy also destroys organic matter—like urine and sweat—to eliminate the formation of harmful chlorine by-products.

POWERCLEAN® TAB ULTRA VS

THE HIGH FLOW CHLORINATOR ENGINEERED FOR VARIABLE SPEED PUMPS

You've given us feedback on variable speed pumps, and we've been listening. Variable speed is great for energy efficiency, but not for chlorine flow. Introducing Powerclean® Ultra VS. Now, maintain high chlorine flow on a low flow variable speed system.

PRODUCT FEATURES

- High chlorine flow with system flow as low as 20 GPM
- Increases flow rate over the chlorine tablets in a low flow or variable speed system
- Quick installation or removal of VS option with no tools required
- Available for Powerclean Ultra and Econ
- VS Kit also available for CMP retrofit
- Ideal for use between 20 and 50 system GPM
- High flow without elevated system back pressure

POWERCLEAN **TAB**
+ **ULTRA VS**

FREQUENTLY ASKED QUESTIONS

AT WHAT "RPM" DOES POWERCLEAN VS PERFORM?

Powerclean VS operates at a pumps low and medium RPM settings, in the 20 - 50GPM range.

CAN AN EXISTING CHLORINATOR BE UPGRADED?

Any Powerclean Ultra or Econ In-Line model can be upgraded with the VS Conversion Kit.

HOW DOES THIS IMPROVE SANITATION?

The advanced VS engineering accelerates the flow inside the feeder chamber, improving dissolve rates for chlorine and bromine tablets.

POWERCLEAN MAX

YOUR FRIENDLY, BACKYARD CHLORINE GENERATOR

- With simple salt, produce pure chlorine without aggressive chlorine tablets or shock
- Salt chlorination leaves water feeling smooth, comfortable and soft
- Innovative products take the guess-work out of salt system maintenance

SMART FEATURES

CLEAR CELL HOUSING: It's easy to inspect the cell plates and see when it's time to clean. With other salt generators you have to guess when the plates are dirty.

UNIVERSAL SENSOR: A built-in sensor inside the cell constantly checks for faults due to flow, temperature or calcium build-up.

DESIGNED WITH CARE & MAINTENANCE IN MIND

CLEAN WITH ZERO ACID: Cell plates are completely removable for easy cleaning with no dangerous chemicals.

SUPERIOR CELL PLATES: Wide-set individually powered cell plates help prevent scale "bridging" that reduces the life of competing salt cells.

POWERCLEAN salt

THE COMPLETE MODERN POOL®

ADD A DEL™ ADVANCED SANITIZER SYSTEM

- Lower overall chlorine demand
- Destroy chlorine resistant bacteria
- Reduce output level & extend the life of the cell

DEL + **POWERCLEAN**
ADVANCED SANITIZER SOLUTIONS

POWERCLEAN® SALT ULTRA

UPGRADED SALT CELL DESIGN

The Ultra cell adds extra strength and durability. Self-aligning unions ease installation, service and winterization.

COMMERCIAL QUALITY CONTROL

This control center is NSF Certified. Get a commercial grade control for a backyard pool.

SUPERIOR PRODUCT WARRANTY

Every Ultra unit includes a 3 year 100% warranty.

PRODUCT FEATURES

- Certified to UL-1081 and NSF/ANSI-50
- NEW tinted cover protects the control panel from sunlight
- Pools up to 60,000 gallons¹
- Produces up to almost 2lbs of chlorine/day
- Four output levels plus Chlorine Boost
- Auto shut-off for low salt, low temp or low flow

RESIDENTIAL SIZING CHART			
CELL SIZE	POOL SIZE - STANDARD	POOL SIZE - HIGH DEMAND ¹	CHLORINE DAILY OUTPUT (CERTIFIED BY NSF)
320	20,000 GAL	14,000 GAL	0.78LB
540	40,000 GAL	28,000 GAL	1.35LB
760	60,000 GAL	43,000 GAL	1.88LB

¹ High demand pools may require more output to maintain a proper chlorine residual. High demand may include hot or humid climates, high bathers loads, or environmental factors. Also add a DEL Advanced Sanitizer system to reduce demand in high demand environments.

- High Temp CPVC Body
- Serviceable Clear Lid with Lock Nut
- Corrosion Proof Pin
- Longer Sockets for Better Glue Joints
- Check Valve is Reversible while Installed
- Silicone Check Seal Never Requires Lubrication
- Awarded the NSF International Seal

CORROSION RESISTANT CHECK VALVES

Hydroseal Corrosion Resistant check valves are a durable, pro-level option that stand up to harsh chemical conditions. The best solution for systems with a chlorinator or brominator installed.

- Ceramic Pin for Corrosion Protection
- Hastelloy Spring for High Stress and Corrosive Environments
- White PVC Option (max temp 104°)
- Recommended for use with salt chlorine generators

SPA MASTER™ 2" INSIDER GUNITE JET INTERNALS

Get a true spa experience with these interchangeable jet internals modeled after the popular CMP wave style jets. The wave style is a popular design for many major hot tub manufacturers. Benefit from the same quality design with the new 2" jet internals for in ground gunite pools.

C-M-P.COM/2-INCH-GUNITE-JETS

PRODUCT FEATURES

- CMP Wave Jet Design
- 4.25" Face Diameter
- Three Flow Orifices (FIG 1 - flow chart and diagram page 121)
- High-End Stainless Steel Spa Jet Design
- Three Color Options Available
- Standard or Deep Dish Niche Installation

SPA MASTER™ 2" INSIDER JET INSTALLATION

GUNITE INSTALLATION & PRESSURE TEST GUIDE

1. Run ties through holes in the Jet Body braces, and attach to the rebar
2. Glue the 2" PVC pipe into the Jet Body. Cap the other end of the 2" pipe for pressure testing. (PVC pipe is not included)
3. After the pool is gunited, chip out the wall around the pipe to provide enough area for the Niche. Cut the pipe so that the Niche will be at the finished level of the wall. Glue the Niche into the 2" pipe. Tape over niche and plaster.
4. Glue the Threaded Ring onto the 1" pipe. Thread into jet and draw a mark on the 1" pipe even with the opening of the niche. Unthread and cut pipe. Glue the Wall Fitting to the end of the 1" pipe. Lubricate the o-ring. Insert this assembly back through the Niche and the 2" pipe and thread clockwise into the Jet Body. Tighten with the Gunite Jet Tool. (sold separately) Pressure testing can now be done by threading the Gunite Jet Wrench into the Wall Fitting.
5. Choose the desired jet face internal and the desired Jet Orifice. (see flow chart below) Insert the Jet Orifice into the back of the Diffuser, long tube first. Insert the Butterfly. Thread the jet internal into the Wall Fitting until the stop.

All 2" gunite jet internals are adjustable flow. For non-adjustable applications, remove the butterfly. This will convert the insert for non-adjustable installations.

ORIFICE FLOW RATES			
STYLE	1/4" GPM	3/8" GPM	1/2" GPM

SPA MASTER™ 2½" JET BODIES

The original CMP Spa Master™ Jet system. Available in Gunite or Fiberglass installation options. All 2.5" jets plumb with 2.5" pipe, and accept all CMP 2.5" jet internals on the previous page.

2.5" STRAIGHT BODY

- Installs with 2.5" Pipe
- 1.5" SP(1" S) Water
- 1" SP (0.5" S) Air
- With or Without Niche
- For Gunite Pools

2.5" GUNITE BODY

- Installs with 2.5" Pipe
- 2" Socket Water
- 1.5" Socket Air
- With or Without Niche
- For Gunite Pools

2.5" FIBERGLASS BODY

- Installs with 2.5" Pipe
- Three Fitting Styles
- Complete Assembly
- For Fiberglass Pools

SPA MASTER™ 2½" JET INSTALLATION

GUNITE INSTALLATION & PRESSURE TEST GUIDE

1. Run ties through holes in jet body braces and attach to rebar.
2. Estimate length of 2.5" PVC pipe as needed for wall thickness. Cut pipe longer than needed. Glue the 2.5" PVC pipe into jet body. Cap other end of 2.5" pipe for pressure testing.
3. After pool gunite work is complete, chip out wall around pipe to provide enough area to glue on niche. Cut pipe flush with wall and glue niche onto pipe.
4. Glue the threaded ring onto one end of the 1" PVC pipe. Do not cut 1" pipe yet. Lube the o-ring on the threaded ring. Insert the threaded ring end of this assembly inside the 2.5" PVC and thread clockwise into jet body until tight. Make a mark on the 1" PVC pipe that is flush with the end of the niche or inside the deep dish niche (see below), then remove this assembly from jet body by turning counterclockwise.
5. Shorten the length of the 1" PVC pipe by measuring 3.5" back from the mark on the pipe and cut. Glue wall fitting onto this cut end. Lube o-ring on threaded ring, if needed, add teflon tape onto threads and insert this new assembly back through the 2.5" PVC pipe and thread clockwise into jet body. Tighten with Gunite Jet Tool. Pressure testing can now be done by threading the Gunite Jet Tool into wall fitting until tight.
6. Choose desired jet face internal. Thread jet internal into wall fitting until tight.

SPA MASTER™ 2" GUNITE MINI SPA JET

PRODUCT FEATURES

- Small Jet Face Footprint
- Plumbs with 2" PVC Pipe
- Assembly Includes Jet, Body, & Wall Fitting
- 2" Water × 1.5" Air
- 10 GPM
- *Note: 2" Pipe Not Included*

*B-D Not Sold Separately

INSTALLATION GUIDE

1. Drill holes Jet Body as shown in the figure below. Run ties through the holes to attach the body to rebar.
2. Based on the thickness of the pool wall, estimate the lengths of 1" and 2" PVC Pipe required. Cut both sizes of PVC Pipe to the same length to be at least 4" longer than estimated. Glue the 2" PVC Pipe to the Jet Body as shown.
3. After plastering the pool, cut the 2" PVC pipe to be flush with the wall and glue Gunite Wall Fitting to the inside of 2" PVC Pipe.
4. Glue the Retainer Ring to one end of the 1" PVC Pipe. To pressure test, plug the other end with a 1" cap. Insert the 1" PVC Pipe assembly with the cap installed into the Jet Body (tighten clockwise) then perform pressure test.
5. After pressure testing, mark the 1" PVC Pipe where it is flush with the pool wall. Remove the 1" PVC Pipe Assembly from the Jet Body, measure back 3" from the mark and cut. Glue the Nozzle to the 1" PVC Pipe to complete the assembly.
6. Insert the 1" PVC Pipe Assembly into the 2" PVC Pipe Assembly and tighten with a 5/8" socket, or cut a slot in a piece of 1" PVC pipe to match the tabs on the nozzle and use it to tighten the assembly.
7. Screw the Eyeball Wall Fitting into the Gunite Wall Fitting.
8. Carefully insert the desired Jet Face into the Eyeball Wall Fitting making sure the legs of the Jet Face are not forced onto the tabs of the Nozzle which can cause damage.

NOTE: The distance from the end of the 2" PVC Pipe and the 1" PVC Pipe must be 3" ; any other distance will result in Jet malfunction. Jet may not aspirate or the Jet Face may be blown out.

SPA MASTER™ 1½" JET INTERNALS

The fast and easy way to add enhanced therapy performance using standard pool fittings. Spa Master 1-1/2" Jet Internals install simply using standard wall fittings with 1.5" FPT threads. An easy way to expand your wall return options beyond a typical directional eyeball fitting.

PRODUCT FEATURES

- Stainless Steel Options
- Install in any 1.5" wall fitting
- Therapy massage style performance
- For maximum enhanced performance, combine with CMP Venturi Tees

ROTATING PULSATOR EYEBALL

- Add Spinning Action to a 1.5" Return
- Replaces Directional Eye
- Eyeball Only (fitting sold separately)

JETARRAY® INLINE

The JetArray® is a professional system that speeds up the installation of multiple jets and creates an even water flow distribution.

This patented system prevents under performing jets caused by plumbing high and low. The JetArray® is the best way to achieve a consistent, powerful spa seat installation.

PRODUCT FEATURES

- As Low as 25 GPM for One JetArray
- Vertical or Horizontal Layout
- 1/2" Jet Line Pre-Installed
- U.S. PATENT #6,804,841
- U.S. PATENT #7,493,665
- U.S. PATENT #9,056,322

IN GROUND GUNITE SKIMMERS

CMP manufactures a premier selection of skimmers for in ground gunite pools. Our skimmers are available in a variety of colors, styles and kits to ensure the perfect skimmer for every pool.

- PORTS: Single or Dual Ports
- FITTING TYPE: FIP, Socket, or Socket/Spigot
- LID/COLLAR: Round and Square Options
- ABS with PVC port skimmers use regular PVC glue

COLOR COMBINATIONS

- White, Gray, Black & Tan color combinations
- Available in solid colors with matching cover (lid/collar) & body
- Solid colors create a seamless look with full color front face and throat
- Available with white body & color cover
- Color cover includes lid and collar
- Available without cover for custom lids

FLOAT VALVE (AKA MUSHROOM DIVERTER)

Why Float Valves?

- Float valves automatically regulate skimmer flow, sending more water to the main drain for better circulation.
- If the water level drops below skimmer level, the float valve shuts off the skimmer to prevent the pump running dry.

FLOWSKIM™ BASKET

Why Flowskim?

- Aids in basket removal without touching dirty, wet debris
- Provides a flow path even when the skimmer is full, protecting the pump from running dry.
- Side handle orientation allows you to empty the basket while keeping your hands clear of the debris.
- U.S. and International Patents
- View more Flowskim Baskets on page 204

REPLACEMENT PARTS ON PAGE 251

POOL DEFENDER® WATER BOND SKIMMER

Since 2008 the National Electrical Code (NEC) has mandated that pool water must be electrically bonded, not just metals in the structure of the pool itself. Many pools are bonded at the pool light, but this isn't always an option.

The easy alternative is to bond the pool at the skimmer. Meet all water bonding code requirements with Pool Defender skimmers with an integrated water bond.

PRODUCT FEATURES

- ETL Certified
- Meets NEC2008 680.26(C) as a Water Bonding Device
- Conforms to UL 1081, UL 1563, CAN/CSA-C22.2
- If corrosion is visible replace stainless steel plate immediately. (listed below)
- Learn More at c-m-p.com/defender.

1. CONNECTS TO POOL BONDING WIRE

Designed to attach to the bonding wire, protecting the entire pool. A built in rubber plug prevents leaks.

2. EMBEDDED COPPER WIRE

Copper bonding wire runs safely behind the skimmer basket to the bottom of the skimmer body.

3. STAINLESS STEEL BONDING PLATE

304 Stainless steel plate is safely placed behind the pool basket, and locks into specially designed grooves.

CMP MAIN DRAIN INFO

All CMP main drains are listed and tested in strict accordance to the requirements of ANSI/APSP-16 2011, the current standard of reference for the Virginia Graeme Baker Act, and compliant to the latest Consumer Product Safety Commission (CPSC) requirements.

VGB INFO, INSTRUCTIONS & MORE DOWNLOADABLE AT
WWW.C-M-P.COM/VGB-DRAINS-AND-SUCTIONS

INSTALLATION NOTES:

1. Mount suction outlets on the wall or floor. DO NOT locate suction outlets on seating areas or on backrests for seating areas.
2. Always use multiple suction outlets. DO NOT use with single drain applications. Use with single drain applications will void any and all warranties.
3. When using two or more suction fittings on a common suction line, suction must be separated by a minimum of 3 ft or must be located on two different planes (i.e. one on floor and one on the wall).
4. To reduce the risk of drowning from hair and body entrapment, install suction fittings with a marked flow rate in gallons per minute that exceeds the flow rate of your system by at least 25%. Increasing size of the pump may increase flow rate of suction beyond rated safety limits causing entrapment or death.
5. CMP drain covers are only certified for use with CMP sumps and frames. Do not mismatch with parts from other manufacturers.

GENERAL NOTES

1. D = inside pipe diameter
2. All dimensions show are recommended minimums
3. A broken line (- -) indicates the suggested sump configuration

CAUTION

Children should never be left unattended at any time in a swimming pool, spa, or bathtub. Be sure the temperature of the water never exceeds the manufacturer's recommendations.

DANGER

Hair or body parts blocking the spa or pool suction may become trapped and held against the suction fitting. Keep hair and clothing a minimum of 12 inches from all suction fittings and drains at all times. Entrapment against the suction fittings can result in drowning or other severe injury. Never sit on or lean up against suction fittings.

20" UNBLOCKABLE RING DRAIN

The 20in Unblockable Ring Drain is a high flow, VGB compliant design that disappears into the pool. The complete ring shape has a unique plaster-filled design that blends in with the pool completely.

No more top to fill with pebble and no center plumbing! Install more naturally with a completely open center. The Ring Drain from CMP sets a new standard for style, flow and safety in the pool.

PRODUCT FEATURES

- Slim design with plaster center disappears in the pool.
- Flush installation will not catch toes or pool cleaners.
- Integrated inner and outer water stops lock in plaster, preventing gaps and leaks.
- Six colors to match pool finishes.
- Plumb with two ports, single port or with hydrostatic valve.

Matching Sump & Cover Color¹

GUNITE POOL WATER STOPS

Water Stops prevent common leaks that occur when plaster separates from the installed pipe.

PRODUCT FEATURES

- Easy to Install
- Sizes Available up to 3"

INSTALLATION GUIDE

WATER STOP:

Glue the water stop onto the pipe for the plaster to adhere

WATER STOP ADAPTER:
Glue the water stop adapter fitting onto the end of the pipe and plaster over.

AQUA LEVEL™

PORTABLE AUTOMATIC WATER LEVELER

The AQUALEVEL™ Portable Auto Water Leveler is the fast and simple way to protect your pool from summer evaporation. Anyone can install the AquaLevel in minutes with a standard garden hose. Since it's fully portable, the AquaLevel can be used as needed.

C-M-P.COM/AUTO-LEVELERS

PRODUCT FEATURES

- Ships Fully Assembled and Ready to Install
- Fills Pool Automatically to Set Level and Protects the Pump from Running Dry
- Fits a Standard Hose Connection: No Tools Required
- Fully Portable: A Great Solution for Rental and Vacation Properties
- Add Rock/Sand Bag Weights to Secure to Pool Deck

POOL DEFENDER® INLINE ANODE & WATER BOND

Preventing damage from salt water sanitation systems is a key step in building a quality modern pool. Protect the pool from galvanic corrosion combined with an NEC Approved water bonding device. For more info on corrosion problems see page 196.

C-M-P.COM/POOL-DEFENDER

PRODUCT FEATURES

- Connects to Pool Bonding Wire
- Complies With: *UL-1081, UL-1563, CSA C22.2-218.1*
- Meets NEC2008 680.26(C) as a Water Bonding Device
- Available with 4ft of Solid Copper Ground Wire
- Must Remain in Contact with Water at All Times To Meet Water Bonding Requirements
- Zinc Bar Protects the Entire Pool from Galvanic Corrosion
- use with Powerclean Salt (page 105)
- Length: 7"

POOL DEFENDER® TECHNICAL INFO

ABOUT POOL BONDING REQUIREMENTS

Since 2008 the National Electrical Code (NEC) has mandated that pool water shall be electrically bonded, not just metals in the structure of the pool itself.

As required in NEC Section 680.26(C) the Bonding Device shall:

- Consist of at least 9 sq. in. of conductive material
- Shall be in contact with the water 24/7, whether the circulation system is running or not
- The Connector (lug) must be unable to “back off” (due to vibration, etc.) at any time

Code enforcement for these requirements is consistently increasing. High level pool professionals should already be meeting these requirements for all pool service and installations. To ease this process CMP is developing a complete line of cost effective, easily installed pool bonding devices for in ground and above ground pools.

ABOUT CORROSION DAMAGE TO “SALT WATER” POOLS

Salt water generators have greatly gained in popularity as a replacement for traditional pool sanitation methods. These systems are a great solution for many homeowners that prefer storing fewer harsh chemicals and who also enjoy more “automated” pool care. It is important to note that swimming pool “salt water” can create a corrosive environment for metal pool components and equipment in certain conditions.

WHY DOES THIS HAPPEN?

Any time different metals are present in your salt water pool, a small amount of electrical current is created between them. Over time this will actually cause metal ions to release into the pool water. As this “galvanic corrosion” builds over time, you will experience:

- Metal erosion and damage
- Plaster discoloration
- Pool surface stains

This can effect all metal parts, including but not limited to heaters, lights, niches, automatic covers and safety rails.

HOW CAN DAMAGE BE PREVENTED?

The electrical current generated effects high grade metals more slowly than weaker metals. Zinc is a weak metal that will erode faster than other metals, essentially “sacrificing” itself to prevent corrosion and staining in other areas of the pool. The Pool Defender Sacrificial Zinc Anode is designed to prevent the damage caused by salt water sanitation systems.

- The zinc anode will erode instead of your expensive pool components
- The Pool Defender Sacrificial Anode is tied into the pool bonding wire, thereby protecting the entire pool
- Simply replace the anode after half of it has eroded, typically in about three years
- Certified for use as a water bonding device by NEC2008 680.26(C) building code requirements

Notes are for general information purposes only. Always install professionally and refer to local and national code requirements for installation guidelines. You can visit www.nfpa.org for more information.

The Flowskim Skimmer Basket Handle provides a path for water flow when your skimmer basket is full of debris. It can also be removed and emptied without touching wet leaves, bugs and other debris inside the skimmer basket.

PRODUCT FEATURES

- Protects Pump from Running Dry
- Easier Removal and Cleaning
- 12", 14" and 16" Handle Options
- U.S AND INTERNATIONAL PATENTS

HEAVY DUTY POOL BASKETS

Let's face it, pool baskets can really take a beating. They are forever under attack from harsh chemicals, erosion, UV sunlight, and the occasionally over-excited Shih Tzu. Pump and skimmer baskets protect your customer's equipment from serious damage. Why would you trust anything other than the absolute best?

PRODUCT FEATURES

- Better Than OEM Originals: Twice as Thick
- Metal Weight Prevents Floating Baskets
- Extra Support Feet on Pump Baskets
- Heavy Duty Replacement for OEM Baskets

MULTIPORT VALVE TOP HALF KEY ASSEMBLIES

PRODUCT FEATURES

- Replacement Top Half Key Assemblies for Common Pool Filter Multiport Valves.
- White and Black Top Halves Match Original Multiport
- Easy To Read User Friendly Label Design
- Labels Include English, Spanish & French
- Replacements for Multiport Valves from Hayward International and Pentair Water Pool and Spa, Inc.

MULTIPORT VALVE FUNCTIONS*

VALVE SETTING	WATER FLOW PATH
FILTER For normal filter operation and vacuuming pool through filter.	Pump ► Sand Top/De Bottom ► Through Filter ► Sand Bottom/De Top ► Pool Returns
BACKWASH For cleaning filter by reversing flow.	Pump ► Sand Bottom/De Top ► Through Filter ► Sand Top/De Bottom ► Waste Line
RINSE For start-up cleaning and resetting filter bed after backwashing.	Pump ► Sand Bottom/De Top ► Through Filter ► Sand Bottom/De Top ► Waste Line
WASTE For vacuuming directly to waste, lowering pool level or draining pool.	Pump ► Waste Line
CLOSED For shutting off all flow to filter and pool.	No Flow. Do Not Use When Pump Is In Operation.
RECIRCULATE For circulating water without going through filter.	Pump ► Pool Return

*Available functions vary by model. Always refer to the multiport filter valve model instructions for correct sizing.

MEASUREMENTS & CONVERSIONS *228*

HOW TO ESTIMATE TOTAL POOL GALLONS

1. Calculate the Average Depth (A.D.)
2. Calculate the pool or spa surface Area
3. Use the formulas below to convert to total Gallons

CALCULATING AVERAGE DEPTH

$$A.D = (A + B) / 2$$

CALCULATING SURFACE AREA & GALLONS

$$AREA = L \times W$$

$$GALLONS = AREA \times A.D. \times 7.5$$

$$AREA = L/2 \times W/2 \times 3.14$$

$$GALLONS = AREA \times A.D. \times 7.6$$

$$AREA = (L \times W) - (4 \times R^2) + (3.14 \times R^2)$$

$$GALLONS = AREA \times A.D. \times 7.48$$

$$AREA = (L \times W) / 2$$

$$GALLONS = AREA \times A.D. \times 7.48$$

$$AREA = (A + B) \times L \times .45$$

$$GALLONS = AREA \times A.D. \times 7$$

$$AREA = R^2 \times 3.14$$

$$GALLONS = AREA \times A.D. \times 7.5$$

COMMON ABOVE GROUND POOL CAPACITY

ABOVE GROUND POOL SIZE	GALLONS
15' ROUND ABOVE GROUND	5,300
18' ROUND ABOVE GROUND	7,600
21' ROUND ABOVE GROUND	10,400
24' ROUND ABOVE GROUND	13,600
27' ROUND ABOVE GROUND	17,200
12' x 24' ABOVE GROUND	8,600

COMMON IN GROUND POOL CAPACITY

IN GROUND POOL SIZE	GALLONS
12 x 24' RECTANGLE	11,900
16 x 32' RECTANGLE	21,000
18 x 36' RECTANGLE	26,700
20 x 40' RECTANGLE	33,000

HYDRAULIC CALCULATIONS

CALCULATING FLOW RATE

STEP ONE: CALCULATE GALLONS PER HOUR (GPH)

Pool Capacity (Gallons) / Desired Turnover Rate (Hours) = *GPH*

STEP TWO: CALCULATE MINIMUM FLOW RATE (GPM)

Gallons Per Hour (GPH) / 60 = *MINIMUM GPM*

MAXIMUM RECOMMENDED FLOW RATES			
PIPE SIZE	6FT / SECOND	8FT / SECOND	10 FT / SECOND
1-1/2"	38 GPM	51 GPM	63 GPM
2"	63 GPM	84 GPM	105 GPM
2-1/2"	90 GPM	119 GPM	149 GPM
3"	138 GPM	184 GPM	230 GPM
4"	238 GPM	317 GPM	—

CALCULATING FRICTION LOSS (EXISTING POOL)

For new construction, you can also use the tables on the following pages

STEP ONE: CALCULATE SUCTION LOSS FRICTION LOSS*

Vacuum Reading (Inches of Mercury) × 1.13 = *VACUUM RESISTANCE*

PRESSURE AND EQUIVALENT FEET HEAD OF WATER							
POUNDS PER SQ. INCH	FEET HEAD	POUNDS PER SQ. INCH	FEET HEAD	POUNDS PER SQ. INCH	FEET HEAD	POUNDS PER SQ. INCH	FEET HEAD
1	2.31	20	46.18	120	276.42	225	519.23
2	4.62	25	57.72	125	288.46	250	576.92
3	6.93	30	69.27	130	300.00	275	634.62
4	9.24	40	92.36	140	323.08	300	692.31
5	11.54	50	115.38	150	346.15	325	750.00
6	13.85	60	138.46	160	369.23	350	807.69
7	16.16	70	161.53	170	392.31	375	865.38
8	18.47	80	184.62	180	415.38	400	923.08
9	20.78	90	207.69	190	438.46	500	1153.85
10	23.09	100	230.77	200	461.54	1000	2307.69
15	34.63	110	253.85	—	—	—	—

STEP TWO: CALCULATE PRESSURE SIDE FRICTION LOSS

Filter Pressure (PSI) × 2.31 = *PRESSURE RESISTANCE*

*If a vacuum reading is unavailable, you can estimate using the Common Friction Loss chart below

COMMON FRICTION LOSS FACTORS (SUCTION SIDE, 2" PIPE)	
PUMP SIZE	AVERAGE HEAD LOSS FACTOR
3/4 HP FULL-RATED PUMP	4.5 - 5.5 FT OF WATER
1 HP FULL-RATED PUMP	7 - 9 FT OF WATER
1-1/2 HP FULL-RATED PUMP	10 - 12.5 FT OF WATER
2 HP FULL-RATED PUMP	13.5 - 16 FT OF WATER

STEP THREE: CALCULATE TOTAL DYNAMIC HEAD

Vacuum Resistance + Pressure Resistance = *TOTAL DYNAMIC HEAD*

FRICION/HEAD LOSS CHARTS

FRICION/FLOW CHART FOR SCHEDULE 40 RIGID PVC PIPE (PER 100 FEET)

RESIDENTIAL POOL WATER BALANCE GUIDELINES

In accordance with The Association of Pool and Spas Professionals (APSP) standards, we recommend the following water balance conditions be maintained on an ongoing basis to protect the pool finish and equipment, and ensure a pleasing appearance of the water. CMP Sanitizer Systems are guaranteed and warranted to operate properly only if these conditions are met.

MEASUREMENT	RECOMMENDED LEVEL	DETAILS
FREE CHLORINE	1.0 - 3.0 PPM	Recommended level for residential pools to keep chlorine at a proper range for sanitization
pH	7.2 - 7.6	High pH reduces sanitizer efficiency. Low pH damages pool surfaces and irritates skin and eyes
TOTAL ALKALINITY (TA)	80 - 100 PPM	Protects pH and prevents rapid pH "bounce"
CYANURIC ACID / STABILIZER	30 - 50 PPM	Protects chlorine from destruction by sunlight. Must be added manually with salt chlorine systems
CALCIUM HARDNESS	200 - 400 PPM	Excess calcium can increase scaling problems, Low calcium (soft water) can damage surfaces
	ZERO	Can deplete free available chlorine
SALT RESIDUAL	4,000 - 4,500 PPM	Ideal level for chlorine production. Powerclean Salt systems will operate at 3,000 - 35,000 PPM

SANITIZER SYSTEM INSTALLATION

GENERAL GUIDELINES*

All DEL sanitizer systems must be installed in the pool return line and located after the pool pump and filter (pressure side). Ensure that DEL Ozone or AOP return lines are installed after the chlorine feeder or booster pump line.

DEL OZONE® SYSTEMS

Ozone gas is introduced to the pool circulation line using a venturi injector. Suction developed by the venturi allows the DEL Ozone generator to operate safely under vacuum.

DEL AOP® SYSTEMS

The DEL AOP 50 must be installed in the main return line after all other pool equipment (pump, filter, heater and cleaner line). The outlet of the unit or MDV must be at least ten feet from the first return to the pool.

AOP S WITH MDV KIT

DEL UV® SYSTEMS

Install in the main return line using included 2" union connections. It is preferred to install after the filter but before the heater. Available with same side plumbing (as shown) or opposite side for flow through.

OZONE 25/50/100 WITH MDV KIT

POWERCLEAN® SALT

Install as the last item in the system before the pool return. Ensure at least two feet between an Ozone or AOP system and the salt generator cell.

POWERCLEAN® TAB

Install chlorine feeders before Ozone or AOP systems. Ozone bubbles created in the system can gather in the feeder and reduce chlorine flow.

UV-C 50 INLINE PLUMBING

*Installation diagrams are for quick reference only. For details consult product manuals or contact tech support.

SWIM JET INSTALLATION REFERENCE

CMP recommends installing our swim jet's opposite the drain system for maximum circulation. This install creates a flow where the suction side of the system enhances the pressure side flow.

- A minimum of three pumps required for full flow
- Drains must be installed at least 3' apart
- Top row of swim jets are installed 4" below the water line and 12" apart. Bottom row of swim jets are installed 12" below the water line

WHIRLPOOL SWIM JET SETUP

- x3 Whirlpool Swim Jets
23312-000-000
- x3 Channel Drains
25506-320-000
- 1" Orifice (90-110 GPM)
- 1" Socket Air × 1.5" Spigot Water
- 3½" Hole Saw Size

TURBO POWER SWIM JET SETUP

- x4 Turbo Power Swim Jets
23551-660-000
- x6 Nova Drains
25513-500-000
- 2" SP/1.5" S Water × 1" SP/0.5" S Air
- 4½" Hole Saw Size
- Three Orifice Sizes Included:
 - 5/8" (30-40 GPM)
 - 3/4" (60-75 GPM)
 - 1" (90-110 GPM)

LED LIGHTING DESIGN REFERENCE GUIDE

Lighting in water can be very different than lighting design in other environments. The "brightness" of the light itself is not the only factor. There are multiple considerations when designing underwater lighting, and each of them must be equally considered.

The factors you must consider when planning your pool lighting include:

- Lighting in the surrounding area
- Illumination of the pool walls, floor, objects and swimmers in the water
- Illumination of the water itself
- Color value of the lights (when using multi-color lighting)
- The shape, color and texture of the pool
- The clarity of the pool water
- The balance between bright and dim areas of the pool

Some of these factors have to be managed, and some can be controlled directly. An awareness of each of these potential inputs can lead to effective, beautiful and consistent lighting design.

COLOR ABSORPTION: COLOR & FINISH

The interior color and texture of a pool can have a strong effect on the quality of light in the pool. Darker pool surfaces will absorb more light, and lighter surfaces will reflect it. As a rule of thumb, you should expect to use 1.5 lights in a darker pool for every 1 light used in a lighter pool.

POOL FINISHES: DAYLIGHT

POOL FINISHES: ABSORPTION VS REFLECTANCE

COLOR ABSORPTION: WATER

It may be surprising, but even when it seems perfectly clear the water itself can absorb light. The rate of absorption varies from color to color. Each light color has a wavelength that is absorbed by water at different rates. For example, a blue light may appear 5x brighter than a red light even if they have identical output. The "brightness" you experience will change dramatically between different colors and programmed light shows.

LIGHT ABSORPTION IN WATER OVER DISTANCE							
COLOR	3FT	6FT	12FT	20FT	26FT	32FT	40FT
BLUE ABSORPTION %	3%	6%	11%	17%	22%	26%	31%
GREEN ABSORPTION %	5%	10%	19%	26%	34%	40%	46%
RED ABSORPTION %	16%	29%	50%	65%	75%	83%	88%

TERMS & CONDITIONS

CONTACT	For written communication, please send to: Custom Molded Products, LLC, 36 Herring Road, Newnan, GA 30265
PAYMENTS	All payments should be made out to Custom Molded Products and sent to the following physical address: Custom Molded Products, P.O. Box 5057, Greensburg, PA 15601 For ACH Payment details, please contact ap@c-m-p.com
ORDERING	Customers should place orders directly with CMP at the phone or fax numbers presented above. To ensure prompt and proper shipment, please order by using complete part numbers and descriptions. All telephone orders must be followed up with a written confirmation purchase order. Our catalog and price list contain box/bag quantities for most parts. Currently CMP does not apply a surcharge for broken carton orders. Please help us maintain this policy by ordering in full carton quantities. <i>Thank you for your cooperation!</i>
TERMS	Payment for products is C.O.D. Net terms may be established upon completion of a satisfactory credit check. Past due accounts will be C.O.D. Customers with unpaid balances will be considered delinquent and will be subject to a service charge of 1-1/2% per month on the past due amount.
FREIGHT	Pricing and terms are FOB–Newnan, Georgia unless otherwise specified. Freight charges are Pre-Pay and Add unless otherwise specified. All claims for lost or damaged freight must be made by the purchaser and directly to the freight carrier within the carrier's established time limit.
INVOICES	Please pay by invoice per the terms on the sales invoice. There will be a \$20.00 minimum service charge on all NSF or returned checks.
BILLING ERRORS	Appropriate debits or credits will be applied to accounts or invoices that are in error. Please contact Custom Molded Products if you have questions regarding your invoice or if you think your account is in error.
RETURNED GOODS	Merchandise will not be accepted for return without a Returned Materials Authorization (RMA) number issued by Custom Molded Products, which should be marked on all returned cartons. Returned shipments not having prior authorization will be refused. All returned merchandise must be new and unused with the exception of defective goods. A 25% restocking charge will be applied against any credit issued for salable merchandise. All goods must be returned freight pre-paid within 30 days after receipt of shipment.
NOTICE	CMP reserves the right to change at any time and without notice colors, materials, specifications, part numbers and prices to any products appearing in this publication

CMP LIMITED WARRANTY

Custom Molded Products, LLC (CMP) takes great pride in the quality products that it manufactures. The company maintains high standards for the materials and workmanship that it invests in its products. Accordingly, CMP makes this express Limited Warranty with respect to products manufactured solely by Custom Molded Products, LLC, as follows:

CMP warrants its products to be free of defects in material and workmanship for a period of one (1) year from the date of original purchase of the CMP product unless otherwise noted.

Exceptions to standard CMP one (1) year warranty:

- **DEL UV-C 50: 2 year warranty**
- **UV-C Bulbs for DEL AOP & UV-C 50: 18 months**
- **Powerclean Salt Ultra: 3 year warranty (parts & labor)**
- **Replacement for T-15 Cell: 2 year warranty**
- **Bobé brand products: A period of up to 3 years from the date of purchase. For details see complete Bobé Product Warranty page 294**

This Limited Warranty will be applicable only if the product manufactured by Custom Molded Products is the sole and exclusive cause of a defect which is covered by this Limited Warranty. Your sole and exclusive remedy against Custom Molded Products, LLC, arising from the purchase or use of a product manufactured by Custom Molded Products, LLC is limited to the repair or supply of a replacement product in substitution of the product which is determined to be defective (after examination, verification and approval by Custom Molded Products, LLC) with a product of equivalent quality. Where applicable, labor costs for warranty repairs must be pre-approved or completed by a CMP warranty provider. All other compensation of whatever nature is hereby expressly excluded. This Limited Warranty begins on the date of first purchase of a product from Custom Molded Products, LLC.

The Limited Warranty is extended to the party making the original purchase of products from Custom Molded Products, LLC and no warranty is made nor authorized to be made assignable on resale by the original purchaser of products from Custom Molded Products, LLC. The repair or replacement product issued by Custom Molded Products, LLC pursuant to this Limited Warranty shall be warranted for only the unexpired portion of the original Limited Warranty.

This Limited Warranty does not apply to component parts manufactured by others or for damage to products manufactured by Custom Molded Products, LLC if such damage is caused by component parts manufactured by others. For component products manufactured by others the warranty established by that respective manufacturer, if any, will be applicable.

THIS LIMITED WARRANTY DOES NOT COVER:

- Costs incurred in the shipment or cartage, removal and/or reinstallation (including but not limited to labor costs) with respect to the replacement product made available by Custom Molded Products, LLC pursuant to this Limited Warranty.
- Damage or improper operation of a product governed by this Limited Warranty to the extent same is caused by customer abuse, misuse, negligence, or failure to follow installation or operation instructions.
- Use for which the product is not designed.
- Fire, explosion, weather conditions or natural disasters.
- Faulty or improper installation.
- Ordinary wear and tear.
- Damage caused by negligent or improper maintenance procedures and other causes not specified, by beyond the control of Custom Molded Products, LLC.
- Improper packaging, repackaging or damage incurred in shipping.

CMP LIMITED WARRANTY

In order for this Limited Warranty to be effective you must:

- Be the original purchaser of the product from Custom Molded Products, LLC.
- Have not structurally modified, misused or misapplied the product manufactured by Custom Molded Products.
- Have maintained the Custom Molded Products product in accordance with the instructions from Custom Molded Products, LLC or as described in maintenance materials provided by Custom Molded Products, LLC to you.
- Have complied with all terms for the payment of the Custom Molded Products product.
- Made your claim in writing to Custom Molded Products within the time provided and in accordance with the terms of this Limited Warranty.

THERE ARE NO WARRANTIES APPLICABLE TO PRODUCTS MANUFACTURED BY CUSTOM MOLDED PRODUCTS EXCEPT AS EXPRESSLY STATED HEREIN AND THIS WARRANTY IS IN SUBSTITUTION FOR AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

UNDER NO CIRCUMSTANCES SHALL CUSTOM MOLDED PRODUCTS BE LIABLE FOR ANY LOSS OR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGE OR COSTS. CUSTOM MOLDED PRODUCTS SHALL NOT BE LIABLE FOR ANY LOSS OF USE, INCOME OR PROFIT, DAMAGE TO OTHER PROPERTY, ATTORNEY'S FEES OR THIRD PERSON CLAIMS NOT WITHSTANDING A PRIOR NOTICE TO THAT EFFECT FROM THE BUYER OR UNDER ANY OTHER CIRCUMSTANCES.

CUSTOM MOLDED PRODUCTS SHALL HAVE NO LIABILITY TO THE BUYER AND SHALL HAVE NO RESPONSIBILITY FOR THE COSTS OF LABOR, TRANSPORTATION OR OTHER COST INCURRED IN THE REMOVAL AND/OR INSTALLATION OF PRODUCTS MANUFACTURED BY CUSTOM MOLDED PRODUCTS COVERED BY THIS WARRANTY.

THE SOLE AND EXCLUSIVE REMEDY FOR CUSTOM MOLDED PRODUCTS' LIABILITY OF ANY KIND AND THE SOLE AND EXCLUSIVE REMEDY OF THE BUYER, WHETHER IN LAW OR IN EQUITY FOR A BREACH BY CUSTOM MOLDED PRODUCTS OF ANY AND ALL WARRANTIES SHALL BE LIMITED TO THE REPAIR OF, OR AT CUSTOM MOLDED PRODUCTS' OPTION, THE REPLACEMENT OF PRODUCTS MANUFACTURED BY CUSTOM MOLDED PRODUCTS WHICH ARE COVERED BY THIS WARRANTY.

This warranty is valid only in the United States of America.

TIME LIMIT ON COMMENCING LEGAL ACTION

It is agreed that you have 30 days from the accrual of a claim to inform CUSTOM MOLDED PRODUCTS, LLC. by registered mail with acknowledgement of receipt. It is agreed that you have one year from the accrual of a claim to commence any legal action arising from the purchase of a product manufactured by CUSTOM MOLDED PRODUCTS, LLC.

This Limited Warranty shall be governed by and construed in accordance with laws of the State of Georgia, except as to its principles of conflicts of laws, and CUSTOM MOLDED PRODUCTS, LLC and you irrevocably submit to the jurisdiction of the State of Georgia and the venue of Coweta County in any action brought by the parties hereto concerning this Limited Warranty or the performance by CUSTOM MOLDED PRODUCTS, LLC thereunder.

For communication related to replacement products or other issues respecting this Limited Warranty, please contact:

Custom Molded Products, LLC.
36 Herring Road, Newnan, Georgia 30265
Phone: 770.632.7112 FAX: 770.632.7115

BOBÉ® BRAND LIMITED WARRANTY

All Bobé Water & Fire brand products have been tested and inspected for proper performance and defects prior to shipment from our plant(s) to the original purchaser of any products manufactured by:

Custom Molded Products, LLC
3101 N 29th Ave
Phoenix, AZ 85017

This warranty is only valid to the original consumer of the product. This warrants all manufactured products of Bobé Water & Fire when properly assembled, installed, cleaned and maintained to be free from defective material and workmanship for a period of up to 3 years from the date of purchase based on the component schedule listed below:

Provided that the Bobé Water & Fire components fail or become defective during the warranty period, except as a result of weather, negligence, improper installation, use or care shall be replaced or repaired at our option, without charge on the product within each component's warranty period.

- A. The Ignition System is warranted for a period of 15 months from the date of shipment or 12 months after installation, whichever occurs first, for defects in materials and workmanship.
- B. The Burners are warranted for a period of 39 months from the date of shipment or 36 months after installation, whichever occurs first, for defects in material and workmanship.
- C. The Gas Valves are warranted for a period of 15 months from the date of purchase or 12 months after installation for defects in material and workmanship.
- D. The Electronics are warranted for a period of 15 months from the date of purchase or 12 months after installation, whichever occurs first, for defects in material and workmanship.
- E. All Bobé Water & Fire products are warranted for structural integrity for a period of 15 months from the date of shipment or 12 months after installation, whichever occurs first, for defects in material and workmanship.

Bobé Water & Fire Products are manufactured and sold by Custom Molded Products (CMP).

THE FOREGOING IS THE COMPLETE WARRANTY FOR PRODUCTS MANUFACTURED BY CUSTOM MOLDED PRODUCTS. AND SUPERSEDES ALL OTHER WARRANTIES AND REPRESENTATIONS, WHETHER ORAL OR WRITTEN. ANY IMPLIED WARRANTIES LAST ONLY FOR THE DURATION OF THE WARRANTY PERIODS LISTED ABOVE.

IN THE EVENT PRODUCTS ARE ALTERED OR REPAIRED WITHOUT EXPRESSED WRITTEN CONSENT BY CMP, ALL WARRANTIES ARE VOID.

EXCLUSIONS OF WARRANTY:

- Freight to and from Custom Molded Products (CMP) for any product returned for warranty.
- Damage due to insufficient or excessive electrical/water/gas supply is not covered by this warranty
- Damage due to improper installation is not covered by this warranty
- Powder coated finishes are not covered by this warranty unless defective out of the box prior to installation
- Stainless steel, though stain resistant, is not guaranteed against mineral build up or rust.
- Costs incurred that are not authorized in advance by Custom Molded Products (CMP).
- This warranty certification does not cover stone, tile, stucco, brick or any other building material that is not resistant to water, copper, stainless steel or aluminum.
- Damages or expenses which might be incurred in removal and replacement are not covered under this warranty
- Corrosion, patina or other natural reactions of metals, are not covered by this warranty
- Any defects due to acts of God, misuse, abuse, accident, ice damage, alteration, misapplication, vandalism, improper maintenance and/or service is not covered under this warranty
- Damage caused by improper use of chemicals and storage near chemicals is not covered by this warranty
- Damage due to improper water chemistry is not covered by this warranty
- Damage due to improperly grounded products is not covered by this warranty
- Damage due to cleaning with non-recommended solutions is not covered by this warranty

BOBÉ® BRAND LIMITED WARRANTY

IN NO EVENT SHALL THE LIABILITY OF BOBÉ WATER & FIRE PRODUCTS EXCEED THE AMOUNT ORIGINALLY INVOICED FOR THE SPECIFIED PRODUCT BY CMP.

IN NO EVENT SHALL CMP BE LIABLE FOR ANY INCIDENTAL, CONSEQUENTIAL, SPECIAL, DIRECT, INDIRECT, PUNITIVE OR EXEMPLARY DAMAGES, HOWEVER CAUSED, WHETHER BASED UPON CONTRACT, NEGLIGENCE, STRICT LIABILITY IN TORT, OR ANY OTHER LEGAL THEORY.

Some states do not allow the exclusion or limitation of incidental, special or consequential damages, so the above exclusion may not apply.

OBLIGATIONS OF CUSTOMER

BECAUSE BOBÉ WATER & FIRE PRODUCTS ARE HAND CRAFTED BY ARTISANS; PRODUCT DIMENSIONS, UNIFORMITY, AND FEATURES MAY VARY SLIGHTLY FROM PRODUCT TO PRODUCT. PRODUCTS SHOULD BE INSPECTED FOR UNIFORMITY AND DIMENSIONAL CONFORMANCE BEFORE INSTALLING, MOUNTING, OR PUTTING INTO OPERATION. PRODUCTS DEEMED NON-CONFORMING AFTER INSTALLATION AND/OR OPERATION ARE NOT COVERED UNDER THIS WARRANTY.

- The customer is responsible for routine cleaning and maintenance on all Bobé Water & Fire surfaces to ensure longevity of product life. (See Cleaning Guide)
- The customer is liable for maintaining proper water chemistry to ensure product life
- Installation: Installation of all Bobé Water & Fire products must be in conformance with all local, state and federal regulations.
- Should be installed by a licensed contractor, electrician and/or gas fitter where applicable
- Grounding: ALL products containing water must be bonded/grounded properly or the warranty is void
- Zinc Anode: It is recommended to install a zinc anode on any Bobé Water & Fire system containing water to reduce rust. Through the electrochemical process of Galvanic corrosion, electrically charged water will bind to the zinc anode and corrode the sacrificial anode instead of your Bobé Water & Fire system. Zinc anodes will need to be replaced regularly.

If Bobé Water & Fire products fail during the warranty period as a result of a non-conformity in material or workmanship, the request for service under this warranty certification must be communicated to technical support at (888-388-2623). If technical support deems the product should be returned for inspection and/ or warranty, merchandise authorization (RMA) number will be issued. The customer is responsible for shipping product back to CMP with a pre-approved RMA number listed on the package. Proof of purchase is required for warranty coverage.

THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS AND YOU MAY ALSO HAVE OTHER RIGHTS, WHICH MAY VARY FROM STATE TO STATE. **THIS WARRANTY IS NOT TRANSFERABLE.**
