The Purchase Order, these Terms and Conditions of Purchase, and any statement of work, statement of performance, requirements, specification, or other document attached to or incorporated by reference in the Purchase Order, establish and constitute the complete and exclusive agreement between Buyer and Seller with respect to the goods and services (as those terms are defined below) described therein. Such agreement is referred to herein as “this Order.” Acceptance of this Order shall be limited to the terms and conditions contained herein and incorporated herein by reference. Buyer rejects any additional or inconsistent terms and conditions offered by Seller at any time, including any such terms and conditions contained in any Seller quotation, specification or other document which may be referenced by Buyer in this Order, and irrespective of Buyer's acceptance of or payment for Seller's Articles. (B) Seller is an independent contractor, and the employees, agents, or representatives of Seller are not employees, agents, or representatives of Buyer for any purpose.

4. COMPLIANCE WITH U.S. EXPORT CONTROL LAWS AND REGULATIONS

(A) Seller agrees to comply with all applicable U.S. export control laws and regulations, specifically including, but not limited to, the requirements of the Arms Export Control Act, 22 U.S.C. 2751-2794, the International Traffic in Arms Regulation (ITAR), 22 C.F.R. 120 et seq, the International Emergency Economic Powers Act (IEEPA), 50 U.S.C. 1701 et seq., the Export Administration Act, 50 U.S.C. app. 2401-2420, and the Export Administration Regulations (EAR), 15 C.F.R. 730-774, including the requirement for obtaining any export license or agreement, if applicable (together "Export Controls"). Without in any way limiting the foregoing, Seller agrees that it will not transfer any Export Controlled item, data, or services, to include transfer to foreign persons employed by or associated with, or under contract to Seller or Seller's lower-tier suppliers, without authority of an export license, agreement or applicable exemption or exception.

(B) Seller agrees to notify Buyer of the export classification of any deliverable under this Order under applicable Export Controls.

(C) Buyer shall identify to Seller the export classification of all technical information provided to Seller.

(D) Seller shall immediately notify Buyer in writing if Seller is or becomes listed on any U.S. Export Control or Sanctions list (including, but not limited to, the Denied Persons List, the Unverified List, the Entity List, the Specially Designated Nationals List, and the Debarred List), or if Seller's export privileges are otherwise denied, suspended or revoked in whole or in part by the Government.

(E) If Seller is a U.S. Party that is engaged in the business of either exporting or manufacturing (whether exporting or not) Defense Articles or furnishing Defense Services as those terms are defined in the ITAR, Seller represents that it is registered with the Directorate of Defense Trade Controls at the Department of State, as required by the ITAR, and that it maintains an effective export/import compliance program in accordance with the ITAR.

(F) If Seller is a U.S. Party that is not currently engaged in the business of either exporting or manufacturing Defense Articles or furnishing Defense Services, and Buyer provides Seller with technical data controlled by the ITAR, Seller agrees to register with the Directorate of Defense Trade Controls at the Department of State, as required by the ITAR, and maintain an effective export/import compliance program in accordance with the ITAR.

(G) Seller shall provide prompt written notification to Buyer in the event of any violation or potential violation of the Export Controls, or the initiation or existence of a Government investigation that could affect Buyer or Seller's performance under this Order.

(H) Seller shall be responsible for all losses, costs, claims, causes of action, damages, liabilities and expense, including attorney's fees, all expense of litigation and/or settlement, and court

costs, arising from any act or omission of Seller, its officers, employees, suppliers, agents, or subcontractors at any tier in the performance of any of its obligations under this clause.

5. PARTIAL INVALIDITY; WAIVER

If any provisions of these terms and conditions, or an Order hereunder, is or becomes void or unenforceable, the other provisions shall remain valid and enforceable. Waiver of one provision of these terms and conditions by Buyer shall in no way act as a waiver of any other provision herein, nor shall it be construed as a waiver of that provision in any later instance.

6. CHANGES

(A) Buyer shall have the right at any time, by written direction of Buyer's Purchasing Representative identified as an amendment, modification, or change to this Order, to (i) suspend all or any portion of Seller's work or (ii) to make changes within the general scope of this Order that affect any one or more of the following:

- (1) the drawings, designs, specifications, or quantities of the goods;
- (2) the statement of work or description of services;
- (3) the method of shipment or packing;
- (4) the time or place of performance, inspection, delivery, or acceptance of the goods or services; and
- (5) the amount of Buyer-furnished or customer-furnished property or facilities.

(B) If any such suspension or change causes a change in the cost of, or the time required for, performance of this Order, an equitable adjustment shall be made in the price or delivery schedule or both, and this Order shall be modified in writing accordingly. Any claim by Seller for such an adjustment must be made within ten days from the date of receipt of a written direction from Buyer's Purchasing Representative directing such a suspension or change.

(C) Nothing in this clause, including any disagreement with Buyer as to any equitable adjustment, shall excuse Seller from proceeding with this Order as changed. Any disagreement between the parties arising out of this clause shall be resolved in accordance with the article of this Order entitled "Disputes Under This Order."

(D) If this Order is placed under a Prime Contract, the pricing of any equitable adjustment hereunder, or of any other adjustment under this Order, shall be in accordance with the cost principles enunciated in Part 31 of the Federal Acquisition Regulation in effect on the date of this Order.

(E) No constructive changes: Information, advice, approvals, or instructions given by Buyer's technical personnel or other representatives shall be deemed expressions of personal opinion only and shall not affect Buyer's and Seller's rights or obligations and shall not constitute written direction of Buyer's Purchasing Representative within the meaning of this "Changes" clause.

7. CONFIDENTIAL INFORMATION

All of Buyer's trade secrets, designs, specifications, ideas, concepts, plans, formulas, patterns, devices, technical data, software, drawings, machinery and equipment, processes, procedures, methods, applications, and technologies or any similar items (together "Confidential Information") that are disclosed pursuant to this Order shall remain Buyer's sole and exclusive property. Any Confidential Information that is in writing, on a computer disk, thumb drive, or in any other form capable of being returned shall be returned to Buyer immediately upon request, or termination of the Order, whichever occurs first. If a proprietary information or non-disclosure agreement ("PIA") exists between Buyer and Seller covering the goods and services covered by this Order, the terms of such PIA shall govern the use and disclosure of Confidential Information hereunder.

8. INTELLECTUAL PROPERTY

For purposes of this Order, the term "Intellectual Property" shall mean patented and unpatented inventions, mask works, copyrighted works, trade secrets, technical data, know-how, and proprietary information.

(A) Buyer shall own any Intellectual Property invented, authored, or developed by Seller in the performance of this Order, and Seller shall (i) execute and deliver to Buyer all documents necessary to perfect Buyer's title in such Intellectual Property, including, but not limited to, assignments of all right, title, and interest Seller may have in such Intellectual Property; (ii) obligate Seller's employees and/or contractors involved in the invention or development of such Intellectual Property to execute all documents necessary to perfect Buyer's title in such Intellectual Property, including, but not limited to, inventor's declarations and assignments of all right, title, and interest such employees may have in such Intellectual Property; and (iii) obtain and deliver to Buyer all such executed documents as set forth in section (ii) above. Buyer hereby grants Seller a nonexclusive, royalty-free, irrevocable, worldwide right and license to use Intellectual Property invented, authored, or developed by Seller in the performance of this Order, and to make, have made, use, sell, offer for sale, or import into the United States (and all other countries in which Seller may have rights in such Intellectual Property) products, processes, services, or inventions incorporating or embodying such Intellectual Property, for the sole purpose of fulfilling Seller's requirements and responsibilities under this Order. Seller hereby grants Buyer a nonexclusive, royalty-free, irrevocable, worldwide right and license to use Intellectual Property owned, invented, authored, or developed by Seller prior to the date of this Order that relates to the goods delivered or services performed by Seller under this Order, and to make, have made, use, sell, offer for sale, or import into the United States (and all other countries in which Seller may have rights in such Intellectual Property) products, processes, services, or inventions incorporating or embodying such Intellectual Property, for the sole purpose of fulfilling Buyer's requirements and responsibilities under its contracts relating to this Order.

(B) Seller warrants that the sale, use, or incorporation into manufactured products of all goods, services, devices, software, and rights furnished or licensed hereunder which are not of Buyer's design, composition, or manufacture shall be free and clear of infringement of any valid patent, copyright, trademark or other proprietary rights. Seller shall indemnify and save Buyer and its customers harmless from any and all expenses, liability, and loss of any kind (including all costs and expenses including attorneys' fees) growing out of claims, suits, or actions alleging such infringement, including proceedings under 28 USC § 1498, which claims, suits, or actions Seller agrees to defend. Buyer agrees to give Seller notice of any such suit or action promptly after notice is received by Buyer and Seller agrees to conduct, at its own expense, the entire defense thereof; provided, however, that Buyer may, at its own election and expense, at any time supersede Seller in any such defense, in

which event Seller shall thereby be released from its obligation to defend Buyer under this Article with respect to the particular suit or action involved.

(C) If this Order is placed under a Prime Contract or subcontract thereunder, the indemnification set forth above shall extend to the Government only if and to the extent that the Government is or may be indemnified by Buyer.

(D) Seller may replace or modify infringing goods with comparable goods acceptable to Buyer of substantially the same form, fit, and function so as to remove the source of infringement ("Substituted Articles"), and shall extend this provision to such Substituted Articles. If the use or sale of any of the goods or Substituted Articles is enjoined as a result of such claim, suit, or action, Seller, at no expense to Buyer, shall obtain for Buyer and Buyer's customers the right to use and sell the goods or Substituted Articles.

9. ASSIGNMENT

This Order, or any interest therein, including any claims for monies due or to become due with respect thereto, may only be assigned upon the written consent of Buyer. Any payment to any assignee of any claim under this Order, in consequence of such consent, shall be subject to set-off, recoupment or other reduction for any claim that Buyer may have against Seller.

10. CLEARANCE OF MATERIAL INTENDED FOR PUBLIC RELEASE

Seller shall not, without prior written consent of Buyer, make any disclosure, news release or public announcement, denial or confirmation of same, regarding any part of the subject matter of this Order or in any manner advertise or publish the fact that Seller has supplied or contracted to supply to Buyer the goods except as may be required to perform this Order.

11. INSPECTION AND QUALITY

The clause entitled "Inspection of Supplies - Fixed Price," FAR 52.246-2 is hereby incorporated and made a part of this Order to the extent it is not in conflict with other provisions of this Order.

(A) Unless otherwise specified in this Order, Seller is solely responsible to ensure that all goods furnished to Buyer comply in all respects to the requirements of this Order. Except as otherwise specified, Seller may use its own facilities or any commercial laboratory acceptable to Buyer and/or Government.

(B) Seller, at a minimum, shall maintain an Inspection/Quality System that complies with the requirements of Buyer's form "Active Documents" "Supplier Quality Guidelines Quality Assurance Requirements AM General FM1261-1", available at <http://www.amgeneral.com/support/supply-chain/military.php>. Any deviations from these guidelines must be approved in writing by Buyer. When requested by Buyer, Seller shall furnish written procedures covering Seller's Inspection/Quality System.

(1) Such procedures shall reflect Seller's management principles and policies prescribing the approach to be followed in performance of inspection control and showing the interrelationship between Seller, its Suppliers, Buyer, and the Government. They shall indicate the established practices which signify the basic consideration and methods to be followed. In general, these procedures should reflect the overall controls

of the inspection system which, when followed by suitably detailed procedures, will result in delivery of goods having the required quality.

(2) The procedures will specify the inspection details and characteristics to be examined or tested, gauges and equipment to be used, sampling plans, acceptable quality levels used, methods of recording inspection results, and decisions that can be made.

(C) Seller shall also make and/or permit any inspection and tests required by any Supplementary Quality Assurance Provisions ("SQAP") or Quality Assurance Requirement ("QAR") applicable under this Order.

(D) Except as otherwise expressly provided for in this Order, Seller is responsible for the supply and maintenance of all inspection and test equipment necessary to assure that goods conform to requirements. The maintenance requirement of MIL-I-45607A, or any successor, shall apply to all inspection and test equipment, whether or not owned by the Government. The Calibration System requirements of MIL-STD45662, or any successor, shall apply to all measuring and test equipment used to assure that goods presented to Buyer and/or Government for acceptance are in conformance with technical requirements.

(E) Buyer reserves the right for itself and the Government to conduct surveillance and evaluation of items at Seller's producing facility and to have goods inspected by Buyer and/or Government at source. Seller agrees to comply with the requirements of the Government and/or Buyer for source inspection.

(F) Seller shall make available for examination results of tests and inspection reports if requested by Buyer and/or Government. Inspection records of the examination and tests performed by Seller shall be kept available to Buyer and/or Government for a period of four (4) years following completion of this Order.

(G) Buyer reserves the right for itself and the Government to conduct inspection and tests of all goods to the extent practicable at all times and places, including the place of manufacture.

(H) Notwithstanding the provisions of this clause, Seller is not in any way relieved of the final responsibility to furnish acceptable goods in accordance with all of the requirements. Specifically, no inspection or evaluation performed by Buyer or Buyer's customer shall in any way relieve Seller or its suppliers of their obligation to furnish all goods in strict conformance with the requirements of this Order.

(I) Buyer, at its option, may reject or require corrections to goods defective in material or workmanship or otherwise not in conformity with the requirements of this Order. Removal of rejected goods and their replacement or correction shall be at Seller's expense, and shall not be again tendered for acceptance without written disclosure of the former rejection by Seller and written assent by Buyer. If Seller fails to comply promptly, Buyer may terminate this Order for default under the Termination for Default clause of this Order.

(J) Non-conforming goods will not be accepted without written approval of Buyer. Any request for acceptance of non-conforming goods must be submitted in writing to Buyer's Purchasing Representative; however, such requests will not be approved unless Buyer's Purchasing Representative determines the action to be acceptable. Until such time as Buyer provides written

acceptance, all non-conforming goods will be considered rejected. Seller's Material Review Board (MRB) actions are not authorized.

(K) At no additional cost to Buyer, Seller shall submit preproduction good sample(s) to Buyer for acceptance ("Samples"). Buyer will notify Seller in writing as to the acceptance or rejection of the Sample. Such Sample(s) and specified submittals shall be submitted to the Receiving Inspection Department, Buyer, South Bend, Indiana, identified with a special tag that clearly identifies the Sample as Seller's. In the event that Buyer rejects the Sample, Seller shall be required to submit additional Samples at no additional cost to Buyer until Buyer approves the Sample. Goods produced prior to obtaining Sample approval are at Seller's risk.

(L) The Samples offered by Seller must be manufactured at the facilities in which that good is to be produced or, if the good is not manufactured by Seller, such Sample must be manufactured at the facilities in which the good is to be produced for this Order, in either instance using production tooling. A certification by Seller to this effect must be furnished to Buyer upon request.

(M) While Buyer reserves the right to inspect and reject goods, failure of Buyer to inspect or reject shall not waive Buyer's right to reject goods if defects or non-conformity to specifications are discovered at a later date, whether or not such defects or non-conformity are patent or latent, nor shall failure to inspect or reject goods affect Buyer's right to damages on account of Seller's delivery of defective or non-conforming goods.

(N) Seller expressly warrants that all goods and services furnished under this Order will in all respects conform to the Order's specifications, drawings, samples, or other description and that they will be free from latent, patent, or other defects in material and workmanship, and will be fit and sufficient for the purposes intended. If any failure of goods on test or in actual service is determined by the Government and/or Buyer to be a result of defective workmanship, design or materials, Buyer is obligated to correct such defective good by installing new goods in all Buyer end-items that incorporate goods. Similarly, if goods used in production of Buyer end-items do not conform with the drawings and specifications, or are defective in material or workmanship, Buyer may be required to replace such goods with conforming goods in all end-items that have been theretofore produced. Seller agrees to indemnify and hold Buyer harmless from all liability or cost arising out of replacement of goods furnished by Seller including goods which do not fully comply with the drawings and specifications of the Order, or which are defective in material, workmanship or Seller's design, including costs of safety defect campaigns in accordance with the NHTSA Act of 1966 and other retrofits resulting from defects in goods.

12. PHYSICAL CONFIGURATION AUDIT ("PCA") IF REQUIRED BY PURCHASE ORDER

Under Buyer's contract with the Government, the Government may require a PCA on certain goods. If required by Buyer or Government, Seller will perform the following under the PCA provision to assure the reliability and validity of the technical data comprising the production baseline:

(A) Produce the goods (parts, sub-assemblies, and assemblies, as applicable) using production tooling and processes in strict accordance with the approved technical data in quantities as directed by Buyer.

(B) Inspect and identify by part number and serial number (if applicable) of each good, good sub-assembly and good assembly for all characteristics listed in the technical data package. Inspection records are to state findings listing actual results of all technical data requirements with content and in such form as may be required by Buyer.

(C) Notify Buyer of any discrepancies in the technical data noted during manufacture and assembly for correction and resolution of the discrepancies.

(D) Notify Buyer when PCA goods will be produced, allowing sufficient time for Buyer to determine if source surveillance is required.

13. SPECIFICATIONS

(A) Unless otherwise specified in this Order, Seller shall comply with all drawings and specifications cited in this Order or made part of this Order by reference. Unless a different issue is specified on the drawings or in the Order, the issue in effect as of the issuance of Government Solicitation or amendment thereof shall apply to any specifications cited in this Order.

(B) Qualified Products

(1) Seller shall be responsible for ascertaining that all good assemblies used in the manufacture of the goods to be supplied under this Order and that require product qualification in accordance with a specification are listed on respective qualified products list ("QPL") or have been approved for inclusion on such list. Seller's inspection records shall specifically list such Articles, the name of Seller and Seller's suppliers (as listed on the QPL or in the approval letter), and number and date of the QPL from which the selection was made or the date of the approval letter when Articles were approved but not yet listed on the QPL. Qualified goods are those goods which, in accordance with the specifications containing qualification requirements, have been subjected to examination and tests and have been found to satisfy all requirements of the applicable specification. Qualified Goods lists identify the specification, manufacturer, good by part or model number or trade name, place of manufacture, and the test report involved.

(2) Specifications which require goods to be tested and qualified are identified in the Department of Defense Index of Specifications and Standards. Chapter IV, Defense Standardization Manual (M200) is the basic directive concerning the qualified products and qualification procedures. Copies of the Index and the Manual may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington D.C. 20404.

(3) Should such specifications and/or QPL's not be available to Seller, they may be obtained from or as directed by Buyer's Supply Management Department.

(C) Painting

Unless otherwise specified in this Order, all goods that require painting shall be prepared and painted in accordance with MIL-STD-193 or any successor. Painted surfaces shall have complete coverage, be of the required paint film thickness and be free from sags and runs.

(D) Additional Welding Requirements

The following requirements are in addition to those otherwise specified if the goods require fusion welding:

(1) Fusion welders shall be qualified to the requirements set forth in American Welding Society (AWS) Book D1.1, Section 5, prior to performance of production welding.

(2) Seller shall comply with MIL-STD-1261B (53185) and MIL-W-45205 AMENDMENT NO 3 (9-9-85) or any successors. Seller shall prepare and submit welding procedures for Buyer acceptance within Thirty (30) days after receipt of order.

(3) Copies of these requirements are available from Buyer's Supply Management Department.

(E) Notwithstanding any other provisions of this Order, all goods provided by Seller shall be free from all defects and imperfections that might affect the serviceability and function of the good. The workmanship shall be of a quality to assure that the goods are free from any defects, improper manufacturing or assembly practices that compromise, limit or reduce the goods' capability or that of Buyer's end-item into which the good is incorporated.

(F) Certificate of Compliance

(1) Seller shall execute and submit with each shipment a Certificate of Compliance, AMG Form F933SBR4, for each good or groups of goods furnished to Buyer under this Order. The results or records of all tests or inspections, specified herein or otherwise performed by Seller, shall also be maintained in Seller's files for a period of four years after completion of this Order.

(2) Goods furnished which have been approved by request for waiver shall also have a Certificate of Compliance completed and submitted with each shipment.

(3) All such certificates, results or records shall be made available to Buyer and/or the Government for review if requested by Buyer and/or Government.

14. DRAWING CHANGES

(A) No drawing changes may be made by Seller without Buyer's prior written approval. Seller will provide updated drawings to any new good configuration with explanation as to how the changes incorporated differ from the previous configuration.

(B) Notwithstanding any other provisions of this Order, if the drawing for an good contains the words "Source Control Drawings," Seller must supply the approved goods manufactured by only those sources listed on the drawing, provided that for all such source controlled goods, where the drawing also contains or depicts dimensional, functional or other described requirements in addition to the manufacturer's part number, Seller must furnish components that fully comply with all said requirements.

(C) Where a drawing contains reference to "Approved Source" with manufacturer's part numbers and also contains or depicts dimensional, functional or other described requirements, Seller must furnish goods which fully comply with all said requirements, notwithstanding the manufacturer's part number. Where an "Or Equal" component is proposed to be furnished in lieu of the approved Article, the component must comply with the requirements described on the drawing; and if the "or equal" component requires repair parts support, such parts must be completely interchangeable with such parts in the "Approved Source" Article.

(D) An "Or Equal" component means: A component produced or manufactured by or for other than the manufacturer or user whose symbol appears on the component drawing furnished by the Government, but which component is equal to the good in materials and finishes, performance potential and adaptability for use, and is interchangeable with the good.

(E) If the good or any component part thereof to be furnished under this Order is an item or part over which Buyer does not possess design control, no change shall be made by Seller or any of its subcontractors in such item or part with respect to goods delivered under this Order after sample approval by Buyer, nor shall Seller change suppliers unless prior approval for such change is approved by Buyer.

15. MATERIAL, EQUIPMENT, TOOLS AND FACILITIES

(A) Unless otherwise stated in this Order, Seller shall supply all material, equipment, tools and facilities required to perform this Order.

(B) Title to all property furnished to Seller by Buyer or specifically paid for by Buyer, or the cost of which is fully or substantially amortized in the price of the goods purchased hereunder, and any replacement thereof, shall remain in and with Buyer with the right of possession in Buyer.

16. SUBCONTRACTOR COST OR PRICING

(A) Should Buyer or the Government determine that any price, including profit or fee, negotiated with Seller in connection with this Order or any modification thereof was set at a higher price than it should have been because Seller or any of its subcontractors or prospective subcontractors furnished incomplete, inaccurate, or non-current cost or pricing data as required by the Truth In Negotiations Act or its implementing regulations or contract clauses, then such price shall be reduced accordingly by Buyer and the Order shall be modified in writing by Buyer to reflect such adjustment.

(B) Submission of cost or pricing data may be requested in situations where submission of such data are not otherwise required if the PCO or Buyer determines, in writing, that such data are necessary for the evaluation of the reasonableness of the price of the contract or subcontract or for an evaluation of cost realism.

(Note: Since this Order is subject to reduction under this clause by reason of defective cost or pricing or other data submitted in connection with certain subcontracts of Seller, it is expected that Seller may wish to include a clause in each such subcontract requiring the Subcontractor to appropriately indemnify Seller. However, the inclusion of such a clause and the terms thereof are matters for negotiation and agreement between Seller and its subcontractor, provided that no provision shall be included therein giving Seller or any subcontractor at any tier hereunder any right of appeal under the "Disputes" clause of the Prime Contract or higher-tier subcontract. It is also expected that any subcontractor of Seller subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower-tier subcontractors.)

17. DELAY

Time is of the essence in performing this Order. Should Seller experience or anticipate any delay in performing this Order, whether or not such delay is excusable under any provision hereof, Seller shall immediately notify Buyer of such delay, its expected duration and the reasons thereof.

Neither such notification nor an acknowledgment by Buyer shall constitute a waiver of the Order's delivery schedule. Seller shall be liable for any direct or consequential damages resulting from a delay.

18. MOST FAVORED CUSTOMER PRICING

Seller warrants and represents that the goods' price in this Order does not exceed the contract price for the same or similar items or services to any other commercial or non-commercial customer during the past three months and during the term of this Order. Should Seller quote/charge another customer a lower price, Buyer is entitled to a reduction of the Order's price to the lower price.

19. BUYER-FURNISHED PROPERTY

Seller shall not use, reproduce, appropriate or disclose to anyone other than Buyer any material, preproduction samples, tooling, dies, drawings, designs, specifications, software, technical information and other property or data furnished by Buyer nor shall Seller use the same to produce or manufacture goods other than those required hereunder without prior written authorization from Buyer. Where the Government has received from Buyer the right to authorize such use by Seller, Seller may utilize Buyer's data and information in the manufactured goods for direct sale to the Government; provided, however, that Seller shall (i) give Buyer prior written notice of each such proposed use; (ii) prominently identify each item being provided by Seller for direct sale to the Government, and (iii) make no claim against Buyer which arises out of use by Seller of such data and information. Title to such Buyer-furnished property shall be and remain in Buyer at all times. Buyer does not guarantee the accuracy of any tooling or the quality or suitability of any material supplied by it. Seller shall bear the risk of loss, damage or destruction, unless such loss, damage or destruction is solely, directly and proximately caused by Buyer's negligence. All Buyer-furnished property, together with spoiled and surplus materials, shall be returned to Buyer at termination or completion of this Order unless Buyer shall direct otherwise in writing. Where Buyer's data, designs or other information are furnished to Seller's suppliers for procurement of supplies or services by Seller for use in the performance of Buyer's Order, Seller shall insert the substance of this provision in its subcontracts. Seller acknowledges that any such data, designs or other information of Buyer are unique, and that Buyer may enforce its rights under this paragraph by specific performance.

20. REMEDIES

The remedies provided Buyer herein shall be cumulative and in addition to any other remedies provided by law or equity or the terms of this Order. A waiver of a breach of any provision hereof shall not constitute a waiver of any other breach.

21. SETOFF

Buyer may set off or recoup any amount from Seller, whether or not under this Order, against any amount due Seller hereunder.

22. RETENTION AND/OR WITHHOLDING

Buyer may retain and/or withhold from payment to Seller an amount sufficient to reimburse Buyer for any loss, damage, expense, cost or liability relating to Seller's failure to comply with any requirements of this Order.

23. "FORCE MAJEURE" OR EXCUSABLE DELAYS

Seller shall not be in default because of its failure to perform this Order under its terms if the failure arises from causes beyond the control and without the fault or negligence of Seller. Examples of these causes are (1) acts of God or the public enemy; (2) acts of the Government in either its sovereign or contractual capacity; (3) fires; (4) floods; (5) epidemics; (6) quarantine restrictions; (7) strikes; (8) freight embargoes, and (9) unusually severe weather. In each instance the failure to perform must be beyond the control and without the fault or negligence of Seller. "Default" includes failure to make progress in the work so as to endanger performance.

24. DISPUTES UNDER THIS ORDER

(A) The parties agree to attempt to settle any dispute amicably. If the parties do not reach agreement, Seller shall request, in writing, a final decision from Buyer's Purchasing Representative. If Seller does not accept Buyer's final decision, Seller agrees to provide Buyer a formal written statement on the subject of the dispute within ninety (90) days of Buyer's final decision. If thereafter the parties are unable to resolve their dispute, the dispute shall be adjudicated in a court of competent jurisdiction in the State of Indiana in accordance with the "applicable law" provision of this Order.

(B) Pending final decision of any dispute hereunder, Seller shall proceed with performance of the Order. If the dispute arises out of a difference in interpretation between the parties as to the performance requirements of the Order, then Seller shall continue performance in accordance with the interpretation of performance as determined by Buyer.

25. DISPUTES UNDER A GOVERNMENT PRIME CONTRACT

(A) If the Contracting Officer of Buyer's Prime Contract by a final decision interprets any provision of requirement of Buyer's Prime Contract (including exhibits, appendices, and attachments thereto and documents referred to therein), and the same or substantially similar provision or requirement is contained in this Order (including exhibits, appendices, and attachments thereto and documents referred to therein), such interpretation shall be binding between Buyer and Seller, provided that Buyer affords Seller the opportunity to appeal such decision in Buyer's name. Buyer shall at all times be the sponsor of the appeal and may revoke its sponsorship at any time. Seller agrees to provide to Buyer any and all information requested by Buyer for the purpose of verifying, supporting, or providing any and all certifications required by the Contract Disputes Act of 1978, 41 U.S.C. Section 601 et seq. Any such appeal shall be at the sole expense of Seller. As used in this provision, the term "appeal" shall include any and all proceedings under this provision before any board of contract appeals or federal court.

(B) If Seller asserts against Buyer a claim for either damages or an equitable adjustment in a situation where the facts constituting such claim would also support a claim by Buyer against Buyer's customer, prior to initiating any action or suit on such claim against Buyer in any court, if Buyer so authorizes, Seller shall pursue, to exhaustion of its administrative and judicial remedies, such claim in Buyer's name and at Seller's cost against Buyer's customer.

(C) Any reference to the "Disputes" clause in any applicable FAR or DFARS clause incorporated into this Order shall mean this clause "Disputes Under A Government Prime Contract."

26. TERMINATION FOR DEFAULT

(A) Buyer may, subject to the terms and conditions of this clause, by written notice of default to Seller, terminate this Order in whole or in part if Seller fails to —

- (1) Deliver the goods or perform the services within the time specified in this Order or any extension;
- (2) Perform any of the other provisions or meet any of the requirements of this Order;
- (3) Make progress so as to endanger performance of this Order (see following paragraph);
