The CMP Spa Products Catalog is a team project that included CMP Marketing, Engineering, Sales and Customer Service. Thank you to the entire team and to each individual that has contributed to the 2017 CMP Spa Products Catalog.
- EVERYTHING MATTERS®

©2017 CMP, LLC
All rights reserved

The spa industry is unique in many ways, and is defined by the partnerships between OEMs and manufacturers. Every year there are new opportunities for product technologies, and every year OEMs offer great feedback for continual improvement. This year, in addition to offering exciting new products, we've made great improvements to some of our signature programs.

MORE OPTIONS & RESOURCES FOR SQR™

SQR has redefined how hot tub components are installed. Revolutions take time, and this year we have definitely progressed. Essential products have been added to the SQR line including spa suction. We've also added a new tool-set built in direct partnership with OEMs who are actively building tubs with SQR. These expanded offerings reflect the mature platform SQR has grown into over the past five years.

IMPROVEMENTS TO AIR X®

Air X is one of our most exciting new patented technologies, creating a whole new therapy experience. The 2017 edition of Air X includes simplified installation methods, a new install tool and a flush accent ring. All of these improvements were driven from OEM feedback leading to a better product through partnership.

WATER FEATURE INNOVATIONS

One of the most common requests we receive is for a water feature with an serviceable, integrated flow control valve. This year we are delivering that product. The new Aqua Effects® Archfall is a beautiful, compact waterfall built around premier industrial design and years of manufacturing experience.

CMP defines our product lineup as complete programs, and we take pride in total solutions that allow spa professionals to build better products. We also work every year to improve our existing lineup, and this year is no exception. We do all of this because we care about the details, and when the difference is in the details, everything matters.

THANK YOU FOR USING THE 2017 CMP SPA PRODUCTS CATALOG

COLOR REFERENCE

The standard CMP numbering scheme for designating the color of plastic products is indicated within the part number as follows:

A B C D E - F G **H** - I J K

The standard colors for spa products are determined by the "H" digit using the guide below.

- 0 = White
- 1 = Medium Gray
- 2 = Stainless Steel
- 4 = Black
- 6 = Light Gray
- 7 = Graphite Gray / Silver
- 9 = Custom / Classic Gray

EXAMPLE: 23500-001-000 (1 = MEDIUM GRAY)

Please always specify the product color by both name and number when placing orders.

NON - STANDARD COLORS

Non-standard colors for spa products are determined by the combination of the "G" and the "H" digits. The "H" digit of "9" indicates Non-Standard, and the "G" digit, specifies color. Non-standard colors can include Tan, Clear, Light Blue, Dark Blue, etc. For details on ordering specific non-standard colors, call or email CS@c-m-p.com

CUSTOM COLORS

Additional colors are available upon request. Custom colors can be provided. Please call for details. A minimum order will be required.

FITTINGS

Unless otherwise specified fitting bodies and other underskirt components are molded in white or gray.

METAL FINISHES

CMP uses polished stainless steel in metal finish components. Additional metal finishes are available upon request.

NEW FOR 2017

QUAD ROTO SPA JETS

A brand new patent pending therapy jet style from CMP: the new *Quad Roto* four nozzle spinning jet with a unique look and feel.

FOUR SPINNING NOZZLES

WIDE, SOOTHING FLOW PATTERN

SOFT TISSUE THERAPY

EXCITING SHOWROOM STYLE

Try out the new Quad Roto jet and discover an exciting new offering that will spice up your hot tub therapy seat designs.

HALO 200 SERIES SPECIAL EDITION JETS

200 Series SE jets are unique three inch jets designed to fit in 200 Series jet bodies. This year we are expanding this popular jet offering to include the popular Halo style.

NEW FOR 2017

aqua effects® | archfall

CHECK IT OUT
ON PAGE 95

ARCH IS THE NEW BLACK

PATENT PENDING

Have you ever found that one, perfect item that seems to just go with everything? Say hello to your new favorite "go-to" waterfall.

Whether installed vertically or horizontally, the new compact 4" Archfall creates a balanced, arched flume that can be adjusted with the integrated flow control. This waterfall raises the bar when it comes to versatility. Now all you have to do is figure how to deal with all of the hot tub envy.

1. INTEGRATED CONTROL VALVE

The built-in control valve simplifies installation and reduces customer confusion. Specially designed for easy removal and cleaning for perfect operation.

2. CUSTOMIZABLE LOGO INSERT

Easy to customize with your own logo or design. The waterfall body and control can also be molded in your own custom color to perfectly complement the hot tub design.

*Spa Interior
Position*

3. ARCHED WATER FLUME

The arched flume allows for spa interior or bar-top installation. Precise internal engineering minimizes turbulence, aligning the flow to create a beautiful arched water effect that gracefully tapers to a gentle water entry.

4. LED LIGHTING READY

LED lighting creates an attractive accent around the waterfall with a soft, colorful glow. Two back ports are built in for LED lights, and designed for simple integration with standard LED lighting systems.

*Bar-Top
Position*

INNOVATIVE PLATFORMS THAT ADVANCE SPA DESIGN

We aren't just building products: we are building total design platforms

The spa industry is vibrant and innovative, full of talented designers and passionate teams. That's why we want to do more than sell you a new product. We want to sell you platforms that encourage innovation, rethink older systems and improve your entire process.

With every design and system from CMP, we are setting you up for success by paying attention to the small things. That's what makes the difference.

And when the difference is in the details, everything matters.

WHAT IS A DESIGN PLATFORM?

What do we mean we say "design platform?" A platform can include many different elements, all with the goal of simplifying installation, reducing tooling costs and encouraging design innovations. A design platform can include one or more of the following elements:

LOW-COST CUSTOMIZATION

Products like Spectrum Jets are designed with innovative modular components that allow for completely unique designs with minimal tooling costs.

BRAND OPPORTUNITIES

Branding can include things as simple as a logo insert to color accents built into the design. Many products are designed intentionally with sub-components that can be molded in a custom color to complement your brand.

TOTAL SYSTEM THINKING

CMP products include multiple common system elements that streamline installation, including standardized hole saw sizes, industry-standard LED compatibility and unified installation methods.

SPECTRUM™ JET DESIGN PLATFORM

TOTAL SPA JET DESIGN PLATFORM

The Spectrum platform gives you a flexible system for custom jet designs with a combination of inserts, materials, snaps and stamps. Each of the above jet concepts use the Spectrum system. In partnership with CMP Industrial Design experts, this platform centric thinking keeps tooling costs low and allows for rapid market deployment.

THE SPECTRUM JET CAP

The heart of any Spectrum jet design is in the two piece jet cap. One stainless steel tool and simple plastic tool are all that is required to create the huge variety of designs available with Spectrum. Logos and stamped textures can be added to further customize the overall look of the spa jet.

BREAKING THE "CIRCLE"

With new Concourse and Snap insert styles, Spectrum can break outside the traditional "donut" jet shape. Inserts can extend beyond, above and over the stainless steel cap component to create dynamic and exciting shapes.

PRO-LOC
THERAPY SYSTEM

TYPHOON
ADVANCED

COMPLETE JET THERAPY SYSTEM

The Spectrum Platform is 100% compatible with every CMP jet style. Use Spectrum designs with SQR, Pro-Loc and Typhoon systems. Create Spectrum jets that are directional, bearingless, VTX and any other CMP therapy nozzle style.

SPECTRUM™ JET DESIGN PLATFORM

A. RACETRACK INSERT

In this original Spectrum design, the plastic insert sits below and extends through the stainless steel escutcheon.

B. CONCOURSE INSERT

In a variation on the original "racetrack" style, the plastic insert extends outside the ring of the escutcheon.

C. SNAP INSERT

The newest option in Spectrum platform styles. In a reversal, the plastic sits on top of the stainless steel escutcheon. This opens up a huge variety of brand new design options.

D. NOZZLE/EYEBALL

Eyeballs are available in clear for LED lighting, or in a variety of plastic colors to complement the overall design. Stainless steel or plastic nozzle rings can be inserted into directional and roto styles.

E. FLANGE

The plastic flange can be molded in a color to match and complement the design, completing a unique jet design.

SPECTRUM™ HALO ACCENT PLATFORM

**A. DESIGN INSERT**

The Halo design insert can be produced in your choice of molded color or high polished stainless steel.

B. NOZZLE RING

Just as with Spectrum Stainless, the nozzle ring can be matched to the design insert, or molded in a contrasting color for your design.

C. NOZZLE/EYEBALL

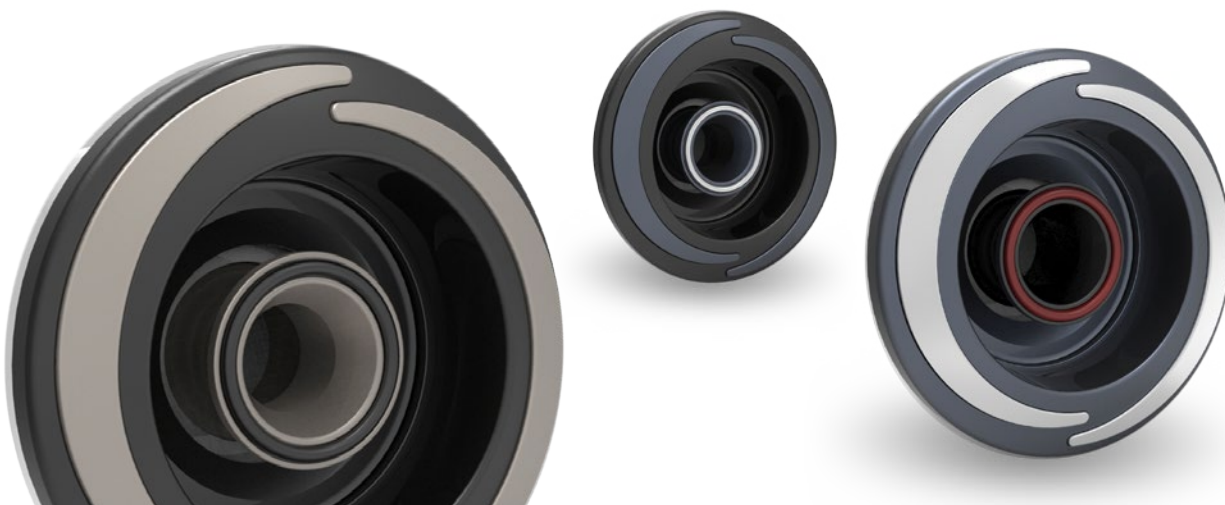

Accent Stainless & Accent Duo-Tone are available in every nozzle style. As with all CMP jets, nozzles can be plastic or clear for LED.

D. FLANGE

The CMP radial flange texture elevates the entire look of these Spectrum jets. Coordinate and contrast your color choice with the design insert for the perfect look.

INNOVATION THROUGH PLATFORM THINKING

Accent Stainless and Accent Duo-Tone variations provide even more choices for spa OEMs. The Halo design elements and nozzle rings can be emphasized using color and material to create a unique look and feel that complements any hot tub composition. The design variations also provide spa manufacturers with a variety of price points that do not limit design or aesthetics.

PRODUCTS DESIGNED TO BE CUSTOMIZED

SINGLE ELEMENT CUSTOMIZATION

In select products, a single design element can be completely customized without effecting the overall component. By only customizing the single component you get a unique design that will can match and complement the complete tub layout composition.

Topside control handles with custom caps

Deco LED Cupholder with design insert

BRAND OPPORTUNITIES

These products are designed with logo and/or color inserts. These inserts can be molded to match any spa brand, creating a custom look within an otherwise stock component.

Fusion weir with logo insert and customizable color inserts

Filter weir with customizable logo insert

*Archfall with logo insert control
and customizable handle color*

Cascade waterfall with customizable design insert

TOTAL SYSTEM THINKING

COMPLETE PRODUCT FAMILIES

For manufacturers that use more "off the shelf" products, you can still get a completed look and feel in the hot tub design. CMP Halo, Wave, Crown and Diamond styles are carried throughout the product line for a universal stocked product style. Complete families include jets, valves, air controls, LED lighting and water features.

SHARED HOLE SAW AND NUT SIZES

Many CMP products use standardized hole sizes and nuts. This reduces the number of components that have to be stocked, and minimizes the number of tools required on the manufacturing floor. Standardized components also have years of market use, which promote higher levels of quality and confidence.

OPTIX STANDARDIZED LED AND NUT SIZES

Optix LED spa components are designed around universal, common installation methods. Each LED product is engineered for use with industry standard LED lights. Multiple Optix fittings use a standardized nut for installation. The common features in the product design simplify the installation process. This also allows CMP to offer standardized platform components for OEMs using custom LED designs.

GASKET DRIVEN SEALS

CMP products are engineered to use gaskets to seal instead of requiring silicone to seal during installation. Why add an extra step of sealing an installed component on the floor? These included gaskets create a faster and cleaner installation process.

CAN 156241, 159997, 159998

FORWARD THINKING ENGINEERING

SQR applies basic laws of physics to create a superior seal, while addressing the issues created by typical torque compression systems.

The patented body and grommet gasket design combination is absolutely the most effective method of spa component installation.

NO BACKSIDE GRINDING

Surface grinding is loud, dangerous, dirty and potentially hazardous. SQR™ seals effectively with no backside grinding.

NO NUTS, COMP RINGS OR GASKETS

Scores of parts complicate the work area, increasing prep time and costs. Fewer components simplifies the process.

NO EXPENSIVE SEALANTS

Sealants are messy, expensive and difficult to apply. It is impossible to apply sealants with 100% consistency.

TYPICAL SYSTEMS = MULTIPLE STEPS

To ensure a proper and consistent seal, standard parts require sealant, gaskets, comp rings, nuts and must then be tightened to an exact compression specification. Prepping and installing all of these components takes up time and poorly utilizes space.

AGILE STYLE MANUFACTURING

Each step in the process is simplified, which translates into rapid turnaround. Drilling occurs in a single hole-cutting step. Component installation only requires installing the patented SQR™ grommet and patented SQR™ body.

SIMPLICITY = CONSISTENCY

By requiring fewer components and reducing the need for surface prep, SQR™ creates a repeatable installation & increased quality.

RADIAL SEAL ENGINEERING

Radial seals are standard technology in many industries. This installation technique is more dependable than comp seals.

PROVEN RESULTS

SQR™ technology has been tested in the spa industry for ten years, and used in regular production by multiple OEMs.

SQR™ TOPSIDE VALVES

SQR TOPSIDE CONTROL VALVE COLLECTION

CMP is proud to introduce the first topside control collection with SQR technology.

Not only do these controls offer the simple and quick reliability of SQR, the unique design opens up completely new options for LED control lighting design.

CUSTOMIZABLE DECO ACCENT RING

A quick and inexpensive way to custom order the style of your LED topside controls with a durable accent ring.

SQR LED LIGHTING GROMMET

Brand new translucent grommet with four integrated ports to fit all standard spa LED light systems. The SQR grommet material creates soft, colorful light with no hot spots for attractive and subtle lighting accents.

SQR LED CONTROL GROMMET

RAPID VALVE INSTALLATION

As part of the SQR system these valves are designed to reduce the overall time spent on installation and greatly simplify the install process with fewer steps and fewer tools required.

AIR X[®]

AIR X TECHNOLOGY 30

AIR X DESIGN 31

AIR X SYSTEM 32

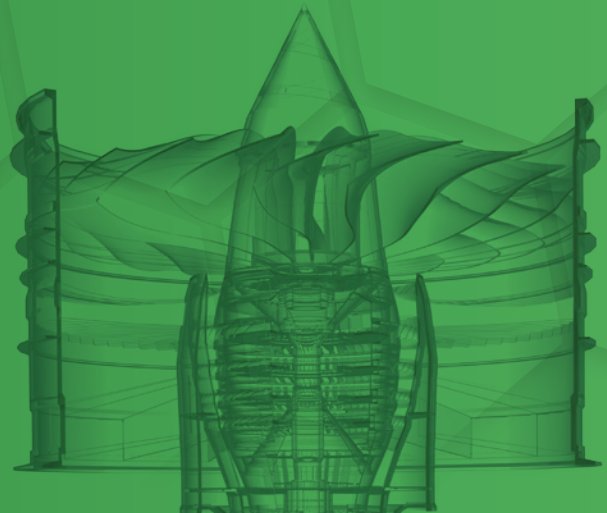

AIR X

PATENTED U.S. D757893, D757891, D757892, D762825, D762868, D762867
OTHER PATENTS PENDING

A completely new soft tissue hot tub therapy experience.

Air X® infuses the soft feel of air and water with a kinetic power derived from jet engine technology. Spa jets can offer power and precision, but Air X is something completely different. Utilizing Airnetic® engineering, Air X multiplies the air output for a jet stream that is both soft and powerful.

JET
ENGINE
INSPIRED

Precision Soft Tissue Massage

Air X targets sensitive areas with passive and targeted air therapy.

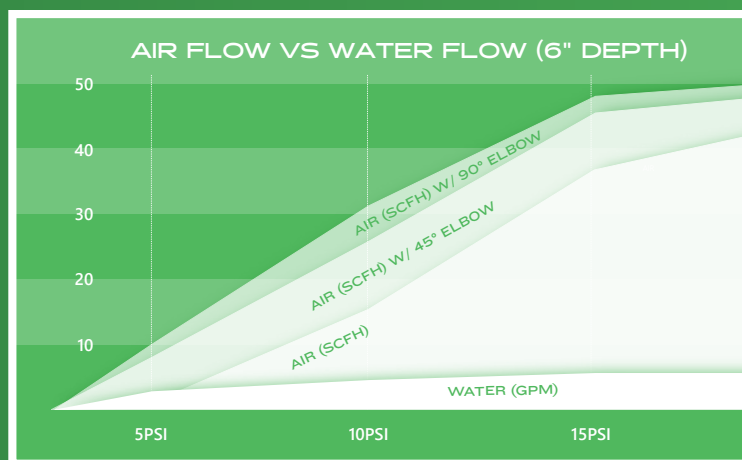

High Volume Dynamics

Typical jets are at best an 80% water and 20% air mix. Air X draws up to 80% air and 20% water.

POLYNETIC:
EVEN, POWERFUL FLOW

TRINETIC:
TARGETED THERAPY

BINETIC:
DUAL WIDE FLOW PATTERN

PATENTED DESIGNS & PATENTS PENDING

PEARL WHITE FLANGE & COLORFUL NOZZLES

COLOR MATCHED AIR CONTROLS

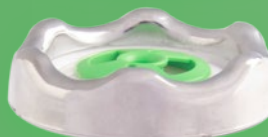

THREE TRIM RING STYLES

SMOOTH THERAPY RING

Gentle skin stimulation & reflexology, prevents Air X nozzle blockage during use.

SCALLOPED THERAPY RING

Dynamic stimulation & reflexology, prevents Air X nozzle blockage during use.

LOW PROFILE ACCENT RING

Stylish stainless steel ring that sits below the Air X nozzle level.

New for 2017

Stainless Steel Accent Ring
New Low Profile Style

Nozzle Ring Now Sold Separately From White Flange
Improves & Eases Installation

AIR X® SYSTEM

IMPORTANT

- Air X Nozzle, Wall Fitting, Body & CVF Air Control Required for Operation
- Accent Rings Sold Separately

PATENTED DESIGNS & PATENTS PENDING

SPECTRUM™

Spectrum is a complete jet system from CMP, created to build flexible designs and offer nearly unlimited colors. The platform-based flange requires minimal tooling for a new jet face design. Combined with the matching handles, Spectrum jets dramatically upgrade your spa interior designs.

LEARN MORE ABOUT THE SPECTRUM PLATFORM ON PAGE 12

HALO COLLECTION

SPECTRUM: HALO is the stock Spectrum design program. A variety of designs gives you tiered price options to meet all of your spa design objectives.

STAINLESS STEEL

The original Spectrum Jet, and our most popular style. Stock options include Graphite Gray Halo and eyeball, as well as clear LED-ready eyeball options.

The LED-ready option jets feature CMP clear jet bodies with the patent-pending LED clip system. This system allows for easier LED installation and better light distribution.

ACCENT STAINLESS

An inverse variation on the popular stainless steel jet. The high-polish stainless steel Halo Accent contrasts with the industry first radial texture flange.

Experience CMP innovation with this design. Standard Quick-Ship options are Graphite Gray flange and Silver eyeball, with stainless steel Halo Accent. Accent SS designs are available in 2"-6" sizes in all nozzle variations including bearing-less styles.

ACCENT DUO-TONE

The economic Spectrum jet program that can add excitement and color to every hot tub design. The combination of color with the radial texture flange brings high-end design within the reach of every hot tub price range.

The standard Quick-Ship option for Halo Duo-tone is a Graphite Gray flange with Silver Halo and matching silver eyeball. All Spectrum Duo-Tone jets are available in 2"-6" sizes in all nozzle variations including bearing-less styles.

SPECTRUM™ JETS | TWIST-LOC CLUSTER JETS

EXCLUSIVE CLUSTER JET DESIGN

READY FOR LED LIGHTING

Twist-Loc Cluster Jets are designed for easier installation. Also, the single-piece face design has a cleaner installed appearance.

As part of the CMP total spa design program these new cluster jets are available in classic or SQR styles. The clear Twist-Loc cluster jets can be lit by utilizing the patent CMP LED clip. These are the first true cluster style jets capable of LED accent lighting.

PRODUCT FEATURES

- Standard or LED-Ready Jets
- Available in SQR Body Style
- Spectrum Halo Jet Face Design

A NEW TWIST ON JET PERFORMANCE

PATENTED LOCKING SYSTEM

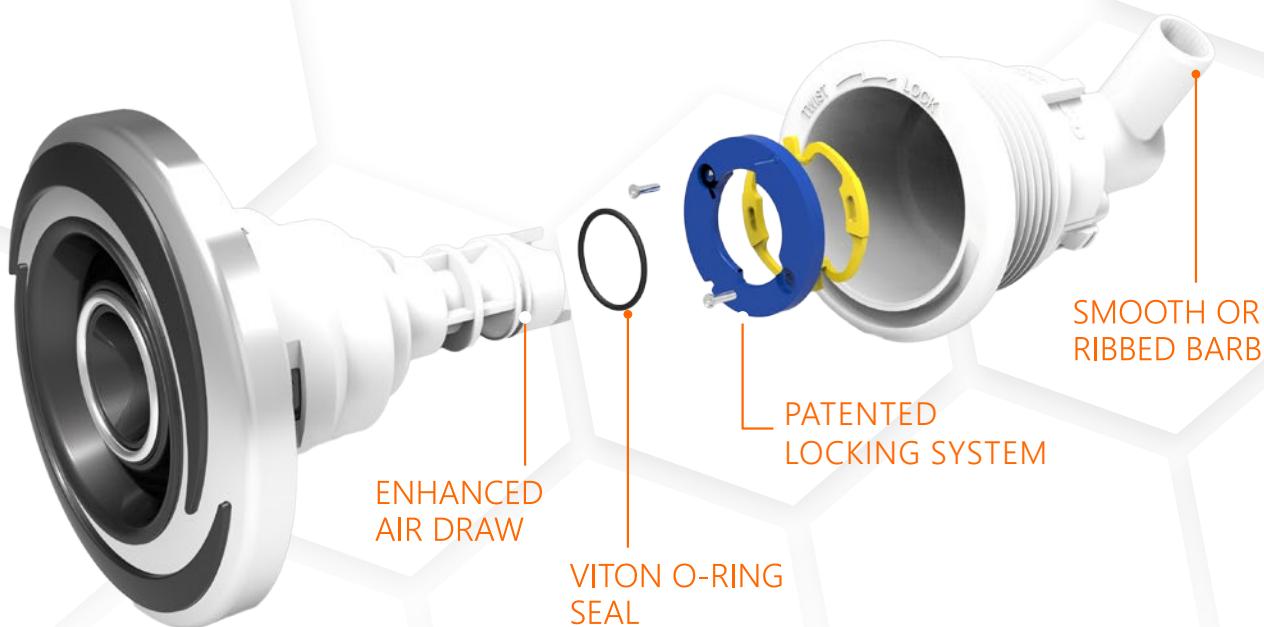

The innovative Pro-Loc mechanism ensures positive engagement between insert and body for optimal performance. The CMP Pro-Loc design also allows for easy installation and removal of jet inserts.

HIGH PERFORMANCE POLYPROPYLENE DIFFUSER

The polypropylene diffuser design is highly chemical resistant. The Pro-Loc attachment design also improves insert strength and durability.

VITON O-RING SEAL

All Pro-Loc jets feature a Viton o-ring that improves vacuum and air draw by as much as 46% when compared to standard style bodies. The o-ring seal also enhances the rotational feel of the jet insert.

A NEW TWIST ON JET PERFORMANCE

THE ORIGINAL CMP RELIABLE JET SYSTEM

SOFT & ELEGANT

The Wave Jet™ Collection features a subtle, modern "wave" design that complements without shouting. Wave Stainless Accent jets utilize high-polish 304 stainless steel, offset by a graphite gray outer wave.

*Wave Jets™
p52*

SPORT-INSPIRED

The Crown Jet™ Collection has a sporty style that will immediately grab your attention. Not only for looks, the design creates an improved grip that promotes interchangeability between different jets. The bright stainless steel "spokes" create an exciting contrast with the graphite gray flange.

*Crown Jets™
p58*

TRADITIONAL "SCALLOPED"

Sometimes there's nothing like the classics. Diamond Jets™ feature the time-tested 5-Scallop design. This smooth, clean style works in almost any composition. Diamond jets are available in multiple material, color and texture options.

*Diamond Jets™
p64*

HOW TO IDENTIFY PRO-LOC™ VS TYPHOON™

- CMP manufactures two jet insert and body systems, *Pro-Loc & Typhoon Advanced*
- **These two systems are not interchangeable.** Never try to force a jet to fit if you are unsure of the fit.
- Use the guidelines below to identify each style. Some variations may occur, always contact the OEM if possible to confirm your jet selection.

PRO-LOC™

PRO-LOC™ SYSTEM

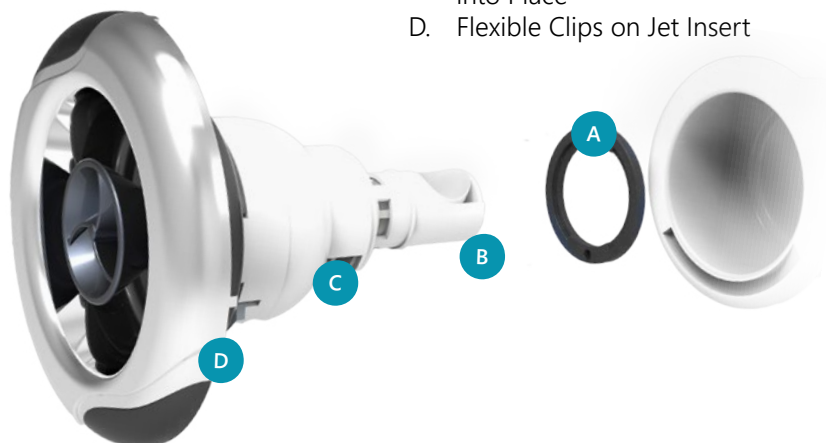

- A. White Locking Ring in Jet Body*
- B. O-ring on Jet Shaft**
- C. Rigid Locking Tabs on Jet Insert
- D. Installs by Pressing & Turning to Lock

TYPHOON ADVANCED

TYPHOON ADVANCED™ SYSTEM

- A. Black OR Gray Snap-Clip Ring in Jet Body*
- B. *NO O-ring* on Jet Shaft**
- C. Installs by Pressing & Snapping into Place
- D. Flexible Clips on Jet Insert

*Does not apply to 200 Series Jets

**It is possible the o-ring could be broken or removed. Always check other indicators to confirm.

TYPHOON ADVANCED™ JET SYSTEM

TYPHOON ADVANCED™

THE ORIGINAL CMP JET SYSTEM, NOW EVEN BETTER THAN BEFORE

RELIABLE LOCKING SYSTEM

Typhoon Advanced utilizes the industry proven click-lock system. Years of use in the hot tub industry have made this system trustworthy and reliable.

HIGH PERFORMANCE POLYPROPYLENE DIFFUSER

All CMP jets are transitioning to an upgraded polypropylene diffuser. Now every CMP customer can benefit from high chemical resistance and increased strength.

AVAILABLE IN ALL STANDARD STYLES

Typhoon is the standard and fully stocked body style for Wave, Crown, and Diamond collection jets. Contact your CMP representative for more information on Typhoon Advanced jets.

BRAND NEW UNBREAKABLE DESIGN

IMPROVED DESIGN: An unbreakable acrylic Color Crystal with a fun new bubble design. The new acrylic ball completely replaces the original glass ball design.

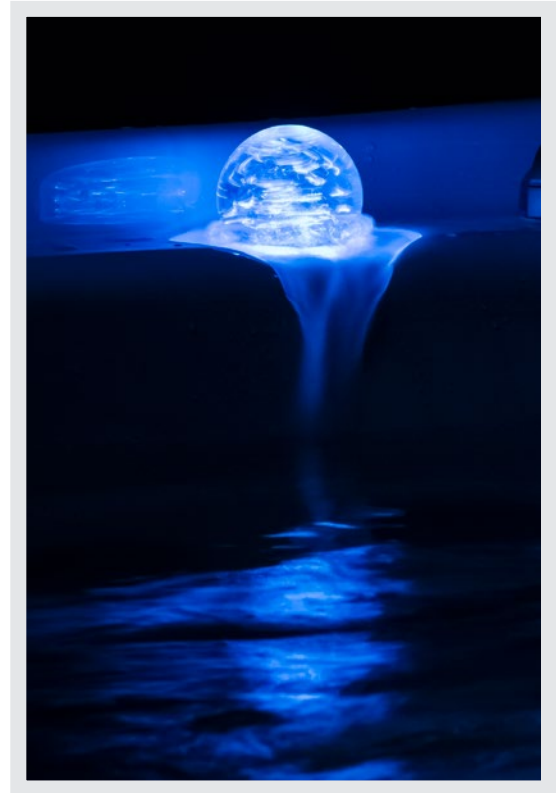

The Aqua Effects™ Color Crystal is an industry unique water feature. The Color Crystal spins freely in the jet base, while allowing the LED light to pass through the acrylic ball. By combining dynamic light effects and soft water flow, this product adds exciting ambiance to any hot tub design.

PRODUCT FEATURES

- Fast Hole Saw Installation
- Install Multiple Units Inline
- Small Topside Footprint
- Smooth Consistent Flow and Spin Action
- Exciting, Unique Design
- Acrylic Ball is Compatible with the Triple-Jet Color Crystal Base Only.

2-5/16". Hole Size

SPA LIGHTING

OPTIX™

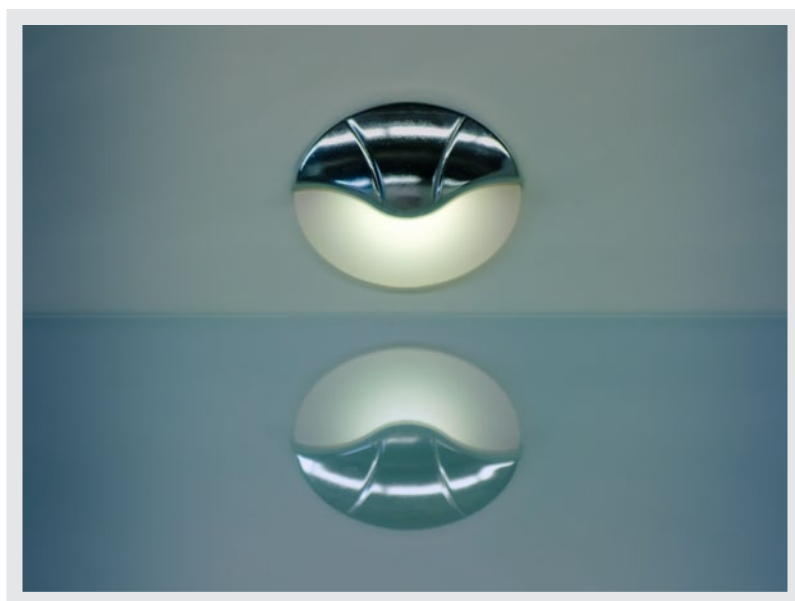

EMOTIONAL LED LIGHTING

A complete, cohesive LED program that is compatible with systems from every major LED supplier. Our focus is on thoughtful designs that are easy to install for both interior and exterior lighting. Optix includes platform-driven designs that can be customized quickly and with minimal tooling costs.

INNOVATIVE, UNIQUE, CO-MOLDED DESIGNS

STAINLESS STEEL OPTIONS

CLEAR OR DIFFUSED POLYCARBONATE LENSES

OTX Mini spot lights create a burst of intrigue and style. Optix LED fittings can be color matched to jets and other components. The unique hooded design allows for applications above the water line without creating a harsh glare.

PRODUCT FEATURES

- Interior or Exterior, Above or Below the Waterline
- Designed to Soften Glare or Hot Spots
- Fits All Popular LED Lights
- Includes Nut & Gasket
- U.S. Patents D759271 & D772443

SPA FILTRATION

FLOATING VANE WEIR FILTER

The CMP Floating Vane Weir Skim filter is an improvement on an essential part of spa design. The floating vane weir ensures consistent flow through the skimmer, even as the water level rises and falls. Clean up is easy with a twist-lock vane that removes quickly to access the built in skimmer basket.

PRODUCT FEATURES

- Floating Vane Weir Adjusts with the Water Level
- Twist-Lock Vane Weir
- Lid is Customizable with Your Logo

FILTER ELEMENT CHART PAGE 119 (ELEMENTS SOLD SEPARATELY)

FLOATING VANE WEIR FILTER

A BETTER SPA SKIM FILTER, BY DESIGN

FLOATING WEIR

Adjusts with the water level to ensure adequate surface water skimming.

TWIST-LOCK VANE

Just a simple twist removes the vane weir and exposes the debris basket below.

BUILT IN BASKET

The basket is conveniently located, making debris removal fast and easy.

SAFE-SHIP CLIP

The floating weir remains locked in during shipment and delivery. Unlike other floating skimmers, this does not require any complicated modification of the skimmer after delivery and installation. Simply remove and discard the bright yellow clip and the spa is ready to use.

FUSION FRONT ACCESS FILTER

Add style to any hot tub while providing high flow and skimming functionality with a modern auto inspired design.

PRODUCT FEATURES

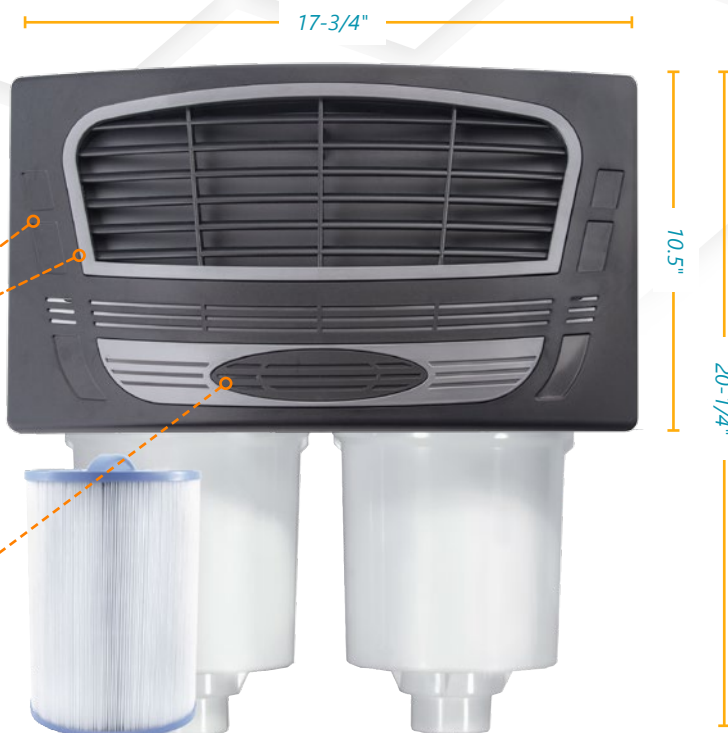

- Dual Port Filtration
- Single Port Option Coming Soon
- U.S. Patent #D755364

TWO-TONE DESIGN

Multiple component design allows weir part colors to be adjusted to match or complement existing parts such as jets and control handles.

CUSTOM LOGO

Optionally, add your logo or custom design very simply to the customizable oval plate.

LOCKING SLICE VALVES

A complete line of slice valves in a variety of configurations for pool and spa applications. CMP slice valves are assembled as one complete unit with 100% shut-off capabilities. These are the best line of slice valves for every installation.

PRODUCT FEATURES

- 100% Shut-Off
- Lockable in Open Position
- Includes Press-Fit Valve Lock to Ensure a Constant Full Flow Open Position
- All Slice Valves are White Unless Otherwise Noted

SPECIALTY REPAIR FITTINGS

CLIP-ON PIPE SEAL

Leaky joints are a thing of the past! CMP Clip-On Pipe Seals stop leaks at glue joints for schedule 40 fittings, couplings, elbows, and more. CMP Clip-On Pipe Seals are more professional and more effective.

PRODUCT FEATURES

- Snaps Into Place over Leaking Joints
- One-Piece Repair Fitting Design
- Complete set of sizes from 3/4" to 2-1/2"

INSTALLATION GUIDE

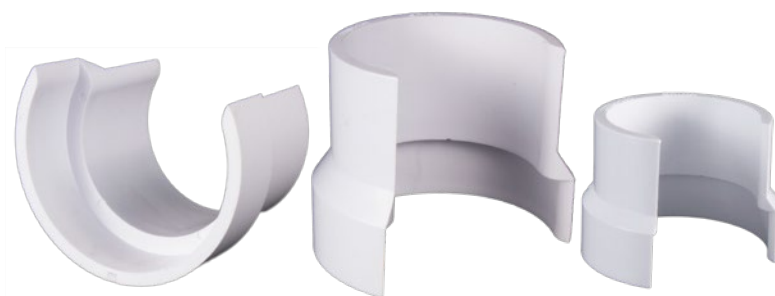

1. Examine the area of the leak on the socket. Make sure there are no raised letters or bumps on the fitting. They will have to be sanded off to use the CMP Clip-On Pipe Seal.
2. Liberally apply glue to the area of the leak and onto the Clip-On Seal. **DON'T BE SHY WITH THE GLUE.**
3. Choose the proper sized Clip-On Seal and snap over the leaking area.

**NO MORE
MESSY REPAIRS**

NO CUTTING, NO MEASURING. . . .FAST & SIMPLE

ORDERING GUIDE

21183-150-000	1.5" INSIDE COUPLER	200
21183-200-000	2" INSIDER COUPLER	200

CMP pipe extenders and inside couplers can be used for a very simple repair while leaving a very clean final appearance. Pipe extenders and couplers fit inside the PVC pipe, making them a great solution for when slight flow loss is not an issue.

FITTING EXTENDERS

CMP fitting extenders greatly simplify spa repair and service. Reduce the amount of cut and wasted PVC pipe. Instead use a fitting extender on existing plumbing. A far better solution than using slip fittings for this type of repair.

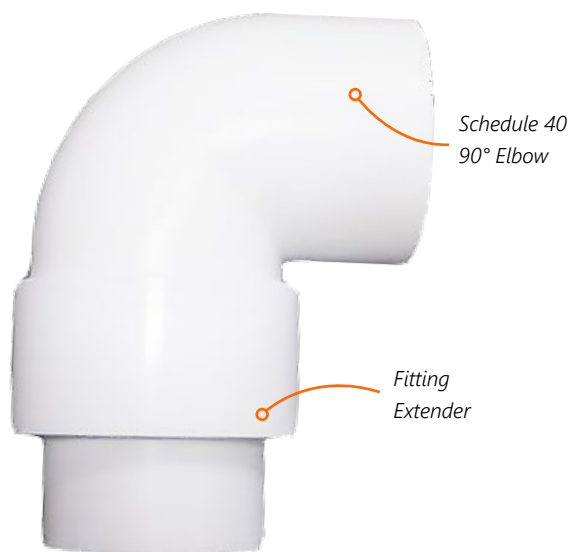

Continuing our commitment to offer the products professionals really need, CMP is the only manufacturer offering a true 2" socket fitting extender.

PRODUCT FEATURES

- A More Professional Repair
- No Loss of Flow
- CMP Exclusive True 2" Socket Extender

INSTALLATION GUIDE

1. Make sure there are no raised letters or bumps on the fitting. If so, they may need to be sanded off prior to installation.
2. Try the fitting extender over the fitting without glue first to make sure it will fit. If the extender fits too tight, the inside of the extender may be sanded to fit. Once you have confirmed a proper fit, glue the extender to the fitting.
3. When using with 2" pipe, glue a coupler or 90° elbow to the small end. The larger end fits over Schedule 40 fittings.

TERMS & CONDITIONS

- CONTACT** For written communication, including payment of invoices, please send to:
Custom Molded Products, LLC
36 Herring Road
Newnan, GA 30265
Phone: 770-632-7112 Fax: 770-632-7115
- ORDERING** Customers should place orders directly with Custom Molded Products at the phone or fax numbers presented above. To ensure prompt and proper shipment, please order by using complete part numbers and descriptions. All telephone orders must be followed up with a written confirmation purchase order.
Our catalog and price list contain box/bag quantities for most parts. Currently CMP does not apply a surcharge for broken carton orders. Please help us maintain this policy by ordering in full carton quantities.
Thank you for your cooperation!
- TERMS** Payment for products is C.O.D. Net terms may be established upon completion of a satisfactory credit check. Past due accounts will be C.O.D. Customers with unpaid balances will be considered delinquent and will be subject to a service charge of 1-1/2% per month on the past due amount.
- FREIGHT** Pricing and terms are FOB–Newnan, Georgia unless otherwise specified. Freight charges are Pre-Pay and Add unless otherwise specified. All claims for lost or damaged freight must be made by the purchaser and directly to the freight carrier within the carrier's established time limit.
- INVOICES** Please pay by invoice per the terms on the sales invoice. There will be a \$20.00 minimum service charge on all NSF or returned checks.
- BILLING
ERRORS** Appropriate debits or credits will be applied to accounts or invoices that are in error. Please contact Custom Molded Products if you have questions regarding your invoice or if you think your account is in error.
- RETURNED
GOODS** Merchandise will not be accepted for return without a Returned Materials Authorization (RMA) number issued by Custom Molded Products, which should be marked on all returned cartons. Returned shipments not having prior authorization will be refused. All returned merchandise must be new and unused with the exception of defective goods. A 25% restocking charge will be applied against any credit issued for salable merchandise. All goods must be returned freight pre-paid within 30 days after receipt of shipment.
- NOTICE** Custom Molded Products reserves the right to change at any time and without notice colors, materials, specifications, part numbers and prices to any products appearing in this publication.

CMP LIMITED WARRANTY

Custom Molded Products, LLC takes great pride in the quality products that it manufactures. The company maintains high standards for the materials and workmanship that it invests in its products. Accordingly, Custom Molded Products makes this express Limited Warranty with respect to products manufactured solely by Custom Molded Products, LLC, as follows:

Custom Molded Products warrants its products to be free of defects in material and workmanship for a period of two (2) years from the date of original purchase of the Custom Molded Products product. This Limited Warranty will be applicable only if the product manufactured by Custom Molded Products is the sole and exclusive cause of a defect which is covered by this Limited Warranty. Your sole and exclusive remedy against Custom Molded Products, LLC, arising from the purchase or use of a product manufactured by Custom Molded Products, LLC is limited to the repair or supply of a replacement product in substitution of the product which is determined to be defective (after examination, verification and approval by Custom Molded Products, LLC) with a product of equivalent quality. All other compensation of whatever nature is hereby expressly excluded. This Limited Warranty begins on the date of first purchase of a product from Custom Molded Products, LLC

The Limited Warranty is extended to the party making the original purchase of products from Custom Molded Products, LLC and no warranty is made nor authorized to be made assignable on resale by the original purchaser of products from Custom Molded Products, LLC. The repair or replacement product issued by Custom Molded Products, LLC pursuant to this Limited Warranty shall be warranted for only the unexpired portion of the original Limited Warranty.

This Limited Warranty does not apply to component parts manufactured by others or for damage to products manufactured by Custom Molded Products, LLC if such damage is caused by component parts manufactured by others. For component products manufactured by others the warranty established by that respective manufacturer, if any, will be applicable.

CMP LIMITED WARRANTY DOES NOT COVER:

- Costs incurred in the shipment or cartage, removal and/or re-installation (including but not limited to labor costs) with respect to the replacement product made available by Custom Molded Products, LLC pursuant to this Limited Warranty.
- Damage or improper operation of a product governed by this Limited Warranty to the extent same is caused by customer abuse, misuse, negligence, or failure to follow installation or operation instructions.
- Use for which the product is not designed.
- Fire, explosion, weather conditions or natural disasters.
- Faulty or improper installation.
- Ordinary wear and tear.
- Damage caused by negligent or improper maintenance procedures and other causes not specified, by beyond the control of Custom Molded Products, LLC
- Improper packaging, repackaging or damage incurred in shipping.

In order for this Limited Warranty to be effective you must:

- Be the original purchaser of the product from Custom Molded Products, LLC
- Have not structurally modified, misused or misapplied the product manufactured by Custom Molded Products
- Have maintained the Custom Molded Products product in accordance with the instructions from Custom Molded Products, LLC or as described in maintenance materials provided by Custom Molded Products, LLC to you
- Have complied with all terms for the payment of the Custom Molded Products product
- Made your claim in writing to Custom Molded Products within the time provided and in accordance with the terms of this Limited Warranty.

CMP LIMITED WARRANTY

THERE ARE NO WARRANTIES APPLICABLE TO PRODUCTS MANUFACTURED BY CUSTOM MOLDED PRODUCTS EXCEPT AS EXPRESSLY STATED HEREIN AND THIS WARRANTY IS IN SUBSTITUTION FOR AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

UNDER NO CIRCUMSTANCES SHALL CUSTOM MOLDED PRODUCTS BE LIABLE FOR ANY LOSS OR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGE OR COSTS. CUSTOM MOLDED PRODUCTS SHALL NOT BE LIABLE FOR ANY LOSS OF USE, INCOME OR PROFIT, DAMAGE TO OTHER PROPERTY, ATTORNEY'S FEES OR THIRD PERSON CLAIMS NOT WITHSTANDING A PRIOR NOTICE TO THAT EFFECT FROM THE BUYER OR UNDER ANY OTHER CIRCUMSTANCES.

CUSTOM MOLDED PRODUCTS SHALL HAVE NO LIABILITY TO THE BUYER AND SHALL HAVE NO RESPONSIBILITY FOR THE COSTS OF LABOR, TRANSPORTATION OR OTHER COST INCURRED IN THE REMOVAL AND/OR INSTALLATION OF PRODUCTS MANUFACTURED BY CUSTOM MOLDED PRODUCTS COVERED BY THIS WARRANTY.

THE SOLE AND EXCLUSIVE REMEDY FOR CUSTOM MOLDED PRODUCTS' LIABILITY OF ANY KIND AND THE SOLE AND EXCLUSIVE REMEDY OF THE BUYER, WHETHER IN LAW OR IN EQUITY FOR A BREACH BY CUSTOM MOLDED PRODUCTS OF ANY AND ALL WARRANTIES SHALL BE LIMITED TO THE REPAIR OF, OR AT CUSTOM MOLDED PRODUCTS' OPTION, THE REPLACEMENT OF PRODUCTS MANUFACTURED BY CUSTOM MOLDED PRODUCTS WHICH ARE COVERED BY THIS WARRANTY.

This warranty is valid only in the United States of America.

TIME LIMIT ON COMMENCING LEGAL ACTION

It is agreed that you have 30 days from the accrual of a claim to inform CUSTOM MOLDED PRODUCTS, LLC by registered mail with acknowledgment of receipt. It is agreed that you have one year from the accrual of a claim to commence any legal action arising from the purchase of a product manufactured by CUSTOM MOLDED PRODUCTS, LLC.

This Limited Warranty shall be governed by and construed in accordance with laws of the State of Georgia, except as to its principles of conflicts of laws, and CUSTOM MOLDED PRODUCTS, LLC and you irrevocably submit to the jurisdiction of the State of Georgia and the venue of Coweta County in any action brought by the parties hereto concerning this Limited Warranty or the performance by CUSTOM MOLDED PRODUCTS, LLC thereunder.

For communication related to replacement products or other issues respecting this Limited Warranty, please contact:
