

Pansy Set Instructions

The Pansy Set contains a collection of pansy, gem and other flower essences that influence the energetics of viral activity. Use these essences in different combinations to support recovery when viruses compromise the system.

* * *

If you've been exposed to a virus or are currently sick, use the guide below or use your preferred form of energetic scanning (kinesiology, muscle-testing, dowsing, body dowsing, etc.) to select 1-4 essences from the set that are energetically resonant with your system now.

For Prevention

-Take 1 drop of each essence you've selected 3x/day for one week following a viral exposure.

During an Active Infection

-Take 1 drop of each essence you've selected 3-6x/day depending on the severity of your symptoms.

-If you are still experiencing symptoms after 3 days, repeat the scanning process and select new essences from the set. The energetics of viruses change over time, and new essences are often needed to support a full return to wellness.
