

Energy Storage Questionnaire

To be submitted with Interconnection Application when Energy Storage is present

Customer Information:

Name _____
Address _____
City _____ State _____ ZIP _____

Energy Storage Facility Information:

Facility Name _____
Address _____
City _____ State _____ ZIP _____
Location _____ Premise _____
Customer ID _____

1. Does energy storage export energy to the grid? **Yes** **No**
2. What source or sources charge the energy storage (i.e. utility, PV, diesel, etc.)? _____

3. Is a Renewable Resource part of the interconnection? **Yes** **No**
 - a) Is the storage 100 % charged by a Renewable Resource? **Yes** **No**
4. Does the energy storage parallel with the grid or is it a stand-alone system? **Parallel** **Stand-Alone**
5. What is the process for changing operational modes of the energy storage?

 - a) Are the modes of operation settings accessible to the end user? **Yes** **No**
6. For non-export, how does the system control output so that storage power is not exported to the grid under normal conditions?
