NEW PRODUCT ANNOUNCEMENT

Date: 01/2021

Dear Mitutoyo Distributor,

We are pleased to announce that Mitutoyo is introducing a new module into our MeasurLink Suite.

MeasurLink's Collection Scheduler is a module that allows the user to track measurement collection times for multiple active or suspended runs on that Real-Time station. The module displays tiles for each run and shows several color stages based on checkpoints to keep measurements on track. In addition, an email can alert the supervisor if no measurement is started within specified time.

If you would like further information or assistance regarding this product, please contact your Mitutoyo Precision Tool Sales Representative or the Mitutoyo Sales Office in your area.

1. Product Name: **MeasurLink Collection Scheduler**
2. Product Part Number: **64AAB675**
3. List Price: **\$1,025**
4. Discount Classification: **R**
5. Delivery Information: **January 2021**
6. Literature: **Bulletin No.: 2307**
7. Demonstration Sample: **No**
8. Remarks: **The new Collection Scheduler Module is a feature that reminds the operator when it is time to take a measurement for active or suspended runs by displaying several colors stages, Gray, Yellow and Red. In addition, an email is sent if no measurement is started within the specified time. The operator is prompted with a timer that changes from gray to yellow, displaying the amount of available time before collection is due and from a yellow to a red timer, displaying the amount of time before a collection is missed.**
