

**SET YOUR
FACILITY
APART.**

Advanced Therapy and Rehabilitation Equipment
Make a great first impression and attract new patients

The complete solution to getting your therapy gym in top shape.

Whether you're renovating or starting a new build, we can help outfit your therapy gym to make the best impression and create the most effective treatment programs.

Our complete solution will help you every step of the way, including:

Product Selection

From cutting edge functional training and cardio equipment to tables, weight racks and more, our comprehensive product offering has everything you need to outfit your facility — completely and effectively.

Design Services

Work with our experienced design specialists to efficiently utilize your space. Starting with detailed blueprints, we'll make your vision for a state-of-the-art facility come to life.

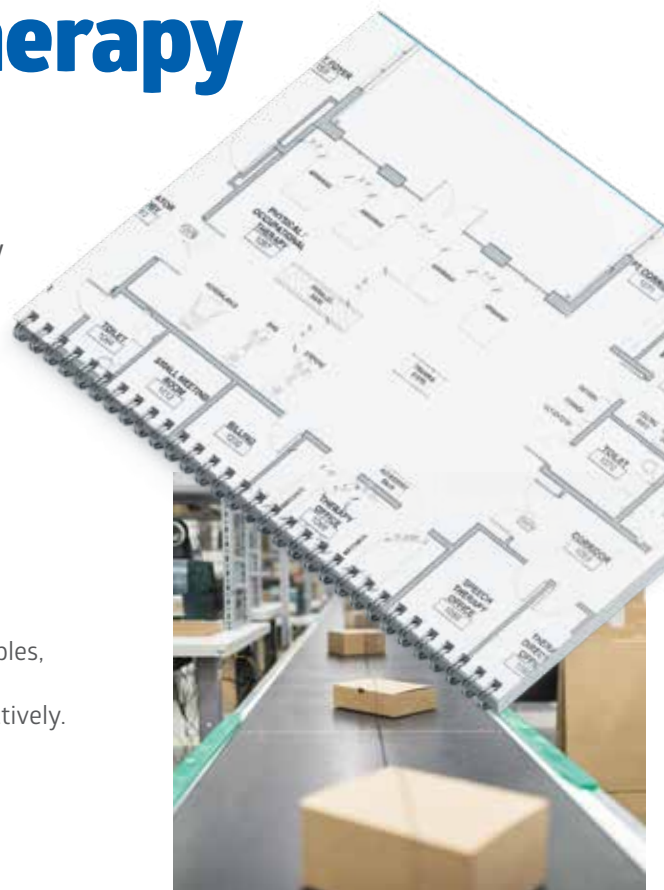

Warehousing and Delivery

We offer a variety of delivery options to meet your needs:

- » Dock to dock
- » Delivery with lift gate — for facilities without a receiving dock
- » Inside delivery — equipment is brought beyond your receiving doors
- » Consolidated delivery — products will be shipped to an offsite warehouse where they'll be delivered to your facility on a requested day

Installation Services

From assembly to room placement to debris removal, we can do it all.

From product selection to design services to warehousing, delivery and installation, we're with you every step of the way.

Strengthen your therapy and rehab team with NeuroGym.[®]

Functional training can help improve many patient conditions. These same outcomes affect reimbursements and your bottom line.

How do you get better outcomes?

Create a mobility center of excellence with NeuroGym[®] therapy and rehabilitation equipment—ONLY from Medline.

Set your facility apart with innovative equipment

Empower your clinical staff to efficiently use their skills

Provide engaging treatments that patients actually look forward to

May improve reimbursements through better patient outcomes

Enable movement and provide functional training with NeuroGym.

Everyday activities require a minimal level of weight-bearing strength. Designed to fit through a standard doorway and requiring just one therapist for assistance, these devices help your therapists improve functionality and safety.

NGSTST

NeuroGym Sit-to-Stand Trainer (Item No. NGSTST)

- » Actively assists the standing motion leading to improved transfers and functional independence
- » Helps improve static and dynamic stability, mobility and weight-bearing strength
- » A counterweight actively assists movement initiated by the patient, allowing a therapist to work with the patient without physical strain

NeuroGym Bungee Mobility Trainer (Item No. NGBMT)

- » Safely practice movements such as gait, sidestepping and dynamic balance drills to improve coordination, reaction times, and stabilization
- » Helps retrain protective righting reactions
- » Provides body weight support to help reduce your patients' fear of falling

NGBMT

NeuroGym Pendulum Stepper

(Item No. NGEPSA)

- » Recover strength, endurance and range of motion by training the lower and upper extremities in sitting or supine positions
- » No transfer required
- » Takes up minimal floor space
- » Lightweight and easily wheeled from room to room

NGEPSA

NeuroGym Ankle Trainer

(Item No. NGEATA)

- » Strengthens throughout the entire ankle range of motion including dorsiflexion, plantar flexion, inversion, eversion, and internal and external rotation
- » Lightweight and portable with an axle and foot platform that locks into place

NGEATA

Deliver safe yet comfortable treatment and training.

Whether it's tables with added safety features, or fully equipped weight racks—it's time to furnish your therapy gym.

HSM5562100

Hausmann Mega Weight Rack

(Item No. HSM5562100)

- » Convenient drop lid work counter with lock
- » Three 8" high laminate drawers
- » Pegboard with 11 safety hooks
- » Includes set of 16 Hugger® weights, 20 dumbbells, 5 REP Bands®, set of 3 weight bars

MDR48020

Staircase Storage Island

(Item No. MDR48020)

- » Ideal for limited spaces with 500-lb. load capacity
- » Safety tread on steps and platform
- » Includes laminate BandRac, dumbbell and cuff strips
- » Holds up to 48 cuff weights, 22 dumbbells and 5 rolls of exercise bands/tubing (not included)

ARMAMBA500

Armedica Hi-Lo Treatment Table, 27" x 76"

(Item No. ARMAMBA500)

- » Five-section electric table with elevating center
- » Table height can be controlled without disrupting treatment
- » 400-lb weight capacity
- » Heavy-duty 1½" firm density foam tops

ARMAM641

Armedica Hi-Lo Steel Mat Table, 48" x 84"

(Item No. ARMAM641)

- » Heavy-duty electric welded tubular steel
- » Adjustable backrest raises 80 degrees with gas spring assist
- » 900-lb weight capacity
- » Locks in any position

Combine cardio exercise with progressive resistance training.

Helps assist in enhancing recovery, building endurance and increasing blood circulation throughout the body.

SCFPRO230

PRO2 Total Body

(Item No. SCFPRO230)

- » Upper, lower or total body exercise for versatile rehab
- » Dependent motion allows stronger extremities to assist weaker ones
- » Adjustable upper and lower cranks: three length settings

SCFLAT03

Latitude Lateral Stability Trainer

(Item No. SCFLAT03)

- » Bi-directional and circular motion to work lateral hip flexors
- » Removable seat for wheelchair access
- » Oversized foot pads
- » 191 resistance levels

SCFSONE03

StepOne Recumbent Stepper

(Item No. SCFSONE03)

- » Intelli-Stride readout displays average stride length
- » 23-degree recline range and 360-degree swivel seat
- » 191 levels of resistance; step through seating
- » Seat is removable for wheelchair access

MTXKC-01

Krankcycle with Seat

(Item No. MTXKC-01)

- » Adjustable crank arm height encourages greater range of muscle activation
- » Wheelchair accessible when purchased without the seat
- » Crank and flywheel assembly rotates to accommodate forward and reverse movements

Build strength, relieve pain and improve recovery time.

Challenge muscles with resistance training and cardiovascular exercise.

SAC535R

SportsArt Recumbent Cycle

(Item No. SAC535R)

- » Adjustable seat back provides comfort for any exercise position
- » Self generating cycle, no power source needed
- » Convenient seat adjustment handles are easy to reach while exercising

SAS973

SportsArt Status Series Cable Tower

(Item No. SAS973)

- » Dual swivel pulleys adjust vertically and lock into place, allowing for functional training from virtually any angle
- » Easy-grip bars stabilize user during workouts
- » 1:2 and 1:4 ratios provide versatility training

SADS972

Dual Stack Functional Trainer

(Item No. SADS972)

- » Adjustable 1:2 and 1:4 pulley ratios
- » Magnetized weight selector fork with retracting cord
- » 41 pulley positions offer more exercises and versatility

TFSMFT-2700

TuffStuff Multi-Functional Trainer

(Item No. TFSMFT-2700)

- » Articulating arms enable targeted exercises to help with recovery from specific injuries
- » Hydraulic arms make vertical adjustments easy and safe
- » Dual 200-lb. weight stacks so two people can use the machine at once

Revolutionary cardio meets strength.

Combine strength and cardio for the ultimate workout.

MTXT3XH

T3xh Matrix Treadmill

(Item No. MTXT3XH)

- » Low step-on height: 7½" for easy access
- » Medical handrails
- » Speed range starts at 0.1 mph to 12 mph
- » 16" touchscreen with simplified display mode

SAT615

T615 Treadmill

(Item No. SAT615)

- » Starting speed of ¼th mph for deconditioned or recovering patients
- » MyFlex deck cushioning provides 30% more shock absorption than standard treadmills

SCFAC5000M

SCIFIT Treadmill

(Item No. SCFAC5000M)

- » Low starting speed of 0.1 mph is adjustable in 0.1 increments to 12 mph
- » Extended medical handrails
- » 7" LCD color display
- » 3% degree decline for downhill training

Provide superb care with advanced modality products.

Help increase mobility, relieve pain and improve quality of life for your patients with our clinical rehab solutions.

Jintronix Virtual Reality

(Item No. MDSVRJTRX)

- » Comprehensive virtual reality system that combines motion-capture technology with therapy-focused games to aid patient healing
- » Helps increase patient engagement through fun, gamified exercises, while working to improve endurance and optimize the healing process
- » System includes 42" TV and cart, Kinect sensor and adapter, computer with keyboard and mouse, remote control, and power bar

TheraTouch DX2 Diathermy

(Item No. MDSDIATHERMY)

- » Intellect shortwave unit provides deep-tissue heating
- » Penetrates deeper than other conventional techniques
- » Five levels of dose control provides more options for therapeutic heat
- » Anatomical treatment guide for easy monode placement and easy to use, touchscreen interface

Active/Passive Trainer

(Item No. MDSPKDUO)

- » User-friendly interface guides the patient
- » Detailed analysis of last 10 training sessions and stats
- » Automatic anti-spastic control
- » Large 7" color touchscreen display

VitalStim Plus Electrotherapy System

(Item No. CHT5923)

- » Helps re-educate muscles in the process of swallowing
- » Up to four separate channels deliver stimulation concurrently and pause at the same time
- » sEMG biofeedback helps to increase effort and duration of swallowing attempts and to improve coordination

Item No.	Description	Pkg.
E-I59000	Replacement electrodes	12/pkg

Vectra Neo clinical therapy system.

The Vectra Neo is a state-of-the-art system that combines e-stim and ultrasound technology into a single, streamlined device. With plug-and-play customization, it's the ultimate multi-tasker, allowing you to treat multiple patients at once with different therapies. Get maximum productivity from every session. And every staff member.

Electrotherapy/ Ultrasound Combo

- » Manage pain
- » Increase local circulation
- » Treat trigger points
- » Drive efficiencies and outcomes with combined therapy

sEMG Biofeedback/ Triggered Stimulation

- » Increase strength gains and function
- » Measure and improve neuromuscular return and function
- » sEMG-triggered stimulation for stroke patients
- » Document functional outcomes

Ultrasound

- » Improve joint range of motion
- » Increase local circulation to soft tissue
- » Treat targeted areas

Therapeutic Laser/Light

- » Manage pain
- » Increase local circulation
- » Shorten treatment sessions

POCKET Pro delivers comprehensive therapy anywhere, anytime.

Provide customized protocols, therapies and product recommendations right to your patient's smart phone, computer or tablet. All in under 90 seconds.

Exclusively from Medline, **POCKET Pro** is the first clinically integrated care pathway program that therapists can easily access for the right protocols and education to elevate patient care and compliance. Patients can conveniently access this information on any digital device.

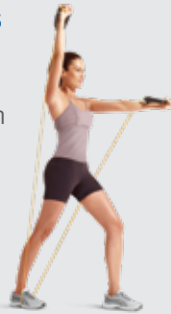

Quality Measures

Improve your 5-Star Quality Rating no matter your facility – skilled nursing, long-term care, home health, inpatient rehab, long-term acute care hospital or hospice.

Exercise Programs

Choose from a range of physical, occupational, speech therapy and nursing patient exercises for your patients to do from the comfort of their own homes.

Clinical Protocols

Provide clinical care protocols that can be consistently utilized across all your facilities by therapists, patients and suppliers.

Patient Education

Access a library of customizable education materials to enhance patient care needs.

Interactive Content

Select from thousands of HD videos and high-quality images of exercises, wound care therapy, and functional tasks.

Patient Equipment

Select the proper equipment to help your patients comply with therapy protocols and achieve desired outcomes. Patients can then order supplies at the touch of a button.

Let your patients access the right protocols and products the digital way.

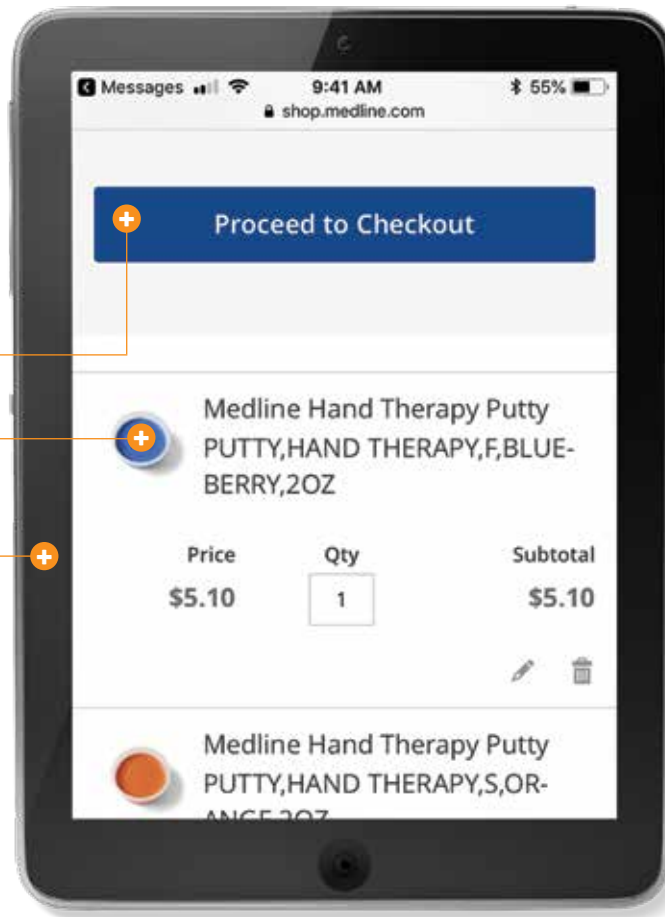

POcket Pro helps you drive patient compliance and improved outcomes through pre-selected clinical education, home exercises and equipment recommendations.

Patients receive an email or text linking them directly to Medline's ordering cart conveniently pre-populated with products for their specific therapy.

Quick and easy one-click checkout

Variety of recommended products pre-loaded for each patient

View easily on smartphone, computer or tablet
